- b. "gas used or consumed" shall include all natural or casinghead gas used in the operation of the manufacturing establishment for whatever purposes, but shall not include the following:
  - (1) gas which, after being severed from the earth, is subsequently injected into a formation in the state for the purpose of storing, recycling, repressuring or pressure maintenance,

  - (3) gas used for fuel in connection with the operation and development for or production of oil or gas in the field where produced, and
  - (4) gas, any part of which is resold by the manufacturing establishment, except as to that part and quantity of the gas which is actually used by the establishment and not resold, and
- c. "one thousand (1,000) cubic feet of gas" (MCF) means that quantity of gas which, measured at a pressure of fifteen and twenty-five thousandths (15.025) pounds per square inch absolute and at a temperature of sixty-nine (69) degrees Fahrenheit, would have the volume of one thousand (1,000) cubic feet.

- a. the reduction in federal income tax of taxpayer as the result of deducting depreciation on such facilities or processes, or deducting nondepreciable costs for which credit has been so certified, or
- b. the increase in the amount of Oklahoma income tax that would result if taxable income were increased by the amount deducted as set forth in subparagraph a of this paragraph.

And, provided further, that, after such credits have been exhausted, taxpayer shall each year thereafter adjust taxable income by adding any depreciation taken on such facilities or processes, or any nondepreciable costs having been included in the net investment cost allowed as credit, and which depreciation or costs have been allowed as a deduction in arriving at federal taxable income for such year.

SECTION 4. AMENDATORY 68 O.S. 2001, Section 2357.4, as last amended by Section 9, Chapter 426, O.S.L. 2009 (68 O.S. Supp. 2009, Section 2357.4), is amended to read as follows:

Section 2357.4 A. Except as otherwise provided in subsection F of Section 3658 of this title and in subsection J of this section, for taxable years beginning after December 31, 1987, there shall be allowed a credit against the tax imposed by Section 2355 of this title for:

1. Investment in qualified depreciable property placed in service during those years for use in a manufacturing operation, as defined in Section 1352 of this title, which has received a manufacturer exemption permit pursuant to the provisions of Section 1359.2 of this title or a qualified aircraft maintenance or manufacturing facility as defined in paragraph 14 of Section 1357 of this title in this state or a qualified web search portal as defined paragraph 35 of Section 1357 of this title; or

2. A net increase in the number of full-time-equivalent employees engaged in manufacturing, processing or aircraft maintenance in this state including employees engaged in support services.

B. Except as otherwise provided in subsection F of Section 3658 of this title and in subsection J of this section, for taxable years beginning after December 31, 1998, there shall be allowed a credit against the tax imposed by Section 2355 of this title for:

1. Investment in qualified depreciable property with a total cost equal to or greater than Forty Million Dollars (\$40,000,000.00) within three (3) years from the date of initial qualifying expenditure and placed in service in this state during those years for use in the manufacture of products described by any Industry Number contained in Division D of Part I of the Standard Industrial Classification (SIC) Manual, latest revision; or

2. A net increase in the number of full-time-equivalent employees in this state engaged in the manufacture of any goods identified by any Industry Number contained in Division D of Part I of the Standard Industrial Classification (SIC) Manual, latest revision, if the total cost of qualified depreciable property placed

in service by the business entity within the state equals or exceeds Forty Million Dollars (\$40,000,000.00) within three (3) years from the date of initial qualifying expenditure.

C. The business entity may claim the credit authorized by subsection B of this section for expenditures incurred or for a net increase in the number of full-time-equivalent employees after the business entity provides proof satisfactory to the Oklahoma Tax Commission that the conditions imposed pursuant to paragraph 1 or paragraph 2 of subsection B of this section have been satisfied.

D. If a business entity fails to expend the amount required by paragraph 1 or paragraph 2 of subsection B of this section within the time required, the business entity may not claim the credit authorized by subsection B of this section, but shall be allowed to claim a credit pursuant to subsection A of this section if the requirements of subsection A of this section are met with respect to the investment in qualified depreciable property or net increase in the number of full-time-equivalent employees.

E. The credit provided for in subsection A of this section, if based upon investment in qualified depreciable property, shall not be allowed unless the investment in qualified depreciable property is at least Fifty Thousand Dollars (\$50,000.00). The credit provided for in subsection A or B of this section shall not be allowed if the applicable investment is the direct cause of a decrease in the number of full-time-equivalent employees. Qualified property shall be limited to machinery, fixtures, equipment, buildings or substantial improvements thereto, placed in service in this state during the taxable year. The taxable years for which the credit may be allowed if based upon investment in qualified depreciable property shall be measured from the year in which the qualified property is placed in service. If the credit provided for in subsection A or B of this section is calculated on the basis of the cost of the qualified property, the credit shall be allowed in each of the four (4) subsequent years. If the qualified property on which a credit has previously been allowed is acquired from a related party, the date such property is placed in service by the transferor shall be considered to be the date such property is placed in service by the transferee, for purposes of determining the aggregate number of years for which credit may be allowed.

F. The credit provided for in subsection A or B of this section, if based upon an increase in the number of full-time-equivalent employees, shall be allowed in each of the four (4) subsequent years only if the level of new employees is maintained in the subsequent year. In calculating the credit by the number of new employees, only those employees whose paid wages or salary were at least Seven Thousand Dollars (\$7,000.00) during each year the credit is claimed shall be included in the calculation. Provided, that the first year a credit is claimed for a new employee, such employee may be included in the calculation notwithstanding paid wages of less than Seven Thousand Dollars (\$7,000.00) if the employee was hired in the last three quarters of the tax year, has wages or salary which will result in annual paid wages in excess of Seven Thousand Dollars (\$7,000.00) and the taxpayer submits an affidavit stating that the employee's position will be retained in the following tax year and will result in the payment of wages in excess of Seven Thousand Dollars (\$7,000.00). The number of new employees shall be determined by comparing the monthly average number of full-time employees subject to Oklahoma income tax withholding for the final quarter of the taxable year with the corresponding period of the prior taxable year, as substantiated by such reports as may be required by the Tax Commission.

G. The credit allowed by subsection A of this section shall be the greater amount of either:

1. One percent (1%) of the cost of the qualified property in the year the property is placed in service; or

2. Five Hundred Dollars (\$500.00) for each new employee. No credit shall be allowed in any taxable year for a net increase in the number of full-time-equivalent employees if such increase is a result of an investment in qualified depreciable property for which an income tax credit has been allowed as authorized by this section.

H. The credit allowed by subsection B of this section shall be the greater amount of either:

1. Two percent (2%) of the cost of the qualified property in the year the property is placed in service; or

2. One Thousand Dollars (\$1,000.00) for each new employee.

No credit shall be allowed in any taxable year for a net increase in the number of full-time-equivalent employees if such increase is a result of an investment in qualified depreciable property for which an income tax credit has been allowed as authorized by this section.

I. Except as provided by subsection G of Section 3658 of this title, any credits allowed but not used in any taxable year may be carried over in order as follows:

1. To each of the four (4) years following the year of qualification;

2. To the extent not used in those years in order to each of the fifteen (15) years following the initial five-year period; and

3. If a C corporation that otherwise qualified for the credits under subsection A of this section subsequently changes its operating status to that of a pass-through entity which is being treated as the same entity for federal tax purposes, the credits will continue to be available as if the pass-through entity had originally qualified for the credits subject to the limitations of this section.

To the extent not used in paragraphs 1 and 2 of this subsection, such credits from qualified depreciable property placed in service on or after January 1, 2000, may be utilized in any subsequent tax years after the initial twenty-year period.

J. No credit otherwise authorized by the provisions of this section may be claimed for any event, transaction, investment, expenditure or other act occurring on or after July 1, 2010, for which the credit would otherwise be allowable. The provisions of this subsection shall cease to be operative on July 1, 2012. Beginning July 1, 2012, the credit authorized by this section may be claimed for any event, transaction, investment, expenditure or other act occurring on or after July 1, 2012, according to the provisions of this section.

If the credit allowed pursuant to this section exceeds the amount of income taxes due or if there are no state income taxes due on the income of the taxpayer, the amount of the credit allowed but not used in any taxable year may be carried forward as a credit against subsequent income tax liability for a period not exceeding ten (10) years following the qualified expenditures.

E. All rehabilitation work to which the credit may be applied shall be reviewed by the State Historic Preservation Office which will in turn forward the information to the National Park Service for certification in accordance with 36 C.F.R., Part 67. A certified historic structure may be rehabilitated for any lawful use or uses, including without limitation mixed uses and still retain eligibility for the credit provided for in this section.

F. The amount of the credit allowed for any credit claimed for a certified historic hotel or historic newspaper plant building or any certified historic structure, but not used, shall be freely transferable, in whole or in part, to subsequent transferees at any time during the five (5) years following the year of qualification. Any person to whom or to which a tax credit is transferred shall have only such rights to claim and use the credit under the terms

that would have applied to the entity by whom or by which the tax credit was transferred. The provisions of this subsection shall not limit the ability of a tax credit transferee to reduce the tax liability of the transferee regardless of the actual tax liability of the tax credit transferor for the relevant taxable period. The transferor of the credit and the transferee shall jointly file a copy of the written credit transfer agreement with the Oklahoma Tax Commission within thirty (30) days of the transfer. Such filing of the written credit transfer agreement with the Oklahoma Tax Commission shall perfect such transfer. The written agreement shall contain the name, address and taxpayer identification number of the parties to the transfer, the amount of credit being transferred, the year the credit was originally allowed to the transferor, the tax year or years for which the credit may be claimed, and a representation by the transferor that the transferor has neither claimed for its own behalf nor conveyed such credits to any other transferee. The Tax Commission shall develop a standard form for use by subsequent transferees of the credit demonstrating eligibility for the transferee to reduce its applicable tax liabilities resulting from ownership of the credit. The Tax Commission shall develop a system to record and track the transfers of the credit and certify the ownership of the credit and may promulgate rules to permit verification of the validity and timeliness of a tax credit claimed upon a tax return pursuant to this subsection but shall not promulgate any rules which unduly restrict or hinder the transfers of such tax credit.

G. Notwithstanding any other provisions in this section, on or after January 1, 2009, if a credit allowed pursuant to this section which has been transferred is subsequently reduced as the result of an adjustment by the Internal Revenue Service, Tax Commission, or any other applicable government agency, only the transferor originally allowed the credit and not any subsequent transferee of the credit, shall be held liable to repay any amount of disallowed credit.
