Section 3-104.4. A. On or before February 1, 1991, the State Board of Education shall adopt standards for the accreditation of the public schools in this state according to the requirements of this act, to be effective as set forth in this act. The accreditation standards shall incorporate the curricular standards established pursuant to Section 11-103.6 of this title. The accreditation standards shall equal or exceed the accreditation standards for schools promulgated by the North Central Association of Colleges and Schools to the extent that the standards are consistent with an academic results oriented approach to accreditation, excluding those standards which deal with affective behavior to the extent the adoption of the standards does not conflict with state statute. The accreditation adopted by the State Board shall encompass accreditation for elementary schools, middle schools, junior high schools, and high schools. The accreditation standards shall be made available for public inspection at the offices of the State Department of Education.

B. Standards for accreditation adopted by the State Board of Education shall include standards relating to the provision of school counselors to the public school children of this state. The State Board of Education shall require each local school district to provide information regarding the number of counselors serving each school site, the duties of all such counselors including all administrative duties, the number of students served by each counselor, and information regarding the number of counselors employed per elementary school, middle school, junior high school and high school.

2. Elementary, middle and junior high schools shall meet the accreditation standards not later than June 30, 1999.

Schools shall thereafter continue to meet the accreditation standards as a condition of continued accreditation. Nothing herein shall be construed as preventing changes to the adopted standards by the State Board of Education pursuant to the Administrative Procedures Act.

D. If one or more school sites fails to receive accreditation as required pursuant to this section by the dates set forth in subsection C of this section or subsequently loses accreditation, the State Board of Education shall close the school and reassign the students to accredited schools within the district or shall annex the district to one or more other districts in which the students can be educated in accredited schools.

E. State Board accreditation regulations shall provide for warnings and for assistance to schools and school districts whenever there is reason to believe a school is in danger of losing its state accreditation.

F. The State Board shall provide assistance to districts in considering the possibility of meeting accreditation requirements through the use of nontraditional means of instruction. The State Board shall also assist districts in forming cooperatives and making arrangements for the use of satellite instruction or other instructional technologies to the extent that use of such instructional means meets accreditation standards.

G. For the fiscal years ending ~~June 30, 2013, and June 30, 2014~~ June 30, 2015, and June 30, 2016, accreditation shall not be withdrawn from or denied nor shall a penalty be assessed against a school or school district for failing to meet the media materials

and equipment standards and media program expenditure standards as set forth in the accreditation standards adopted by the Board.

Accreditation shall not be withdrawn from or denied, nor shall a penalty be assessed against, a school district for complying with this section.

Section 3-151.1 A. For purposes of establishing a uniform and accurate definition of high school graduation rate for school districts and secondary schools in the state, the State Board of Education shall adopt and implement a four-year adjusted cohort graduation rate and an extended-year adjusted cohort graduation rate. The Board shall utilize and report the four-year adjusted cohort graduation rate and the extended-year adjusted cohort graduation rate at the secondary school site, the school district and the state level, and the graduation rates shall be reported in the aggregate as well as disaggregated by subgroups as required in the Elementary and Secondary Education Act of 2001 (ESEA), P.L. No. 107-110, also known as the No Child Left Behind Act of 2001.

B. The Board shall use the four-year adjusted cohort graduation rate for purposes of determining the high school graduation rate indicator for the academic performance data calculation beginning with state and district report cards providing results of assessments administered in the 2011-2012 school year. The Board shall use the four-year adjusted cohort graduation rate for establishing the high school graduation rate for measuring alternate year percentage growth targets as set forth in Section 3-151.2 of this title beginning with the 2012-2013 school year.

D. The extended-year adjusted cohort graduation rate shall be defined as the number of students who graduate in four (4) years or five (5) years with a ~~standard~~ high school diploma divided by the number of students who form the adjusted cohort for the four-year graduation rate as calculated as provided for in subsection C of this section, provided that the adjustments add to the cohort all students who transfer into the cohort by the end of the year of graduation being considered and subtract students who transfer out, emigrate to another country or are deceased by the end of that year. The extended-year adjusted cohort graduation rate shall be reported separately from the four-year adjusted cohort graduation rate.

C. Except as otherwise provided for in subsection E of this section, on or before a date to be fixed by the State Board of Education, each local textbook committee shall adopt textbooks from the multiple list selected by the State Textbook Committee in a manner as shall be prescribed by the State Board of Education. E. For the fiscal years ending ~~June 30, 2013, and June 30, 2014~~ June 30, 2015, and June 30, 2016, a school district shall not be required to appoint a local textbook committee, adopt textbooks, submit a textbook plan, or expend money on the purchase of textbooks during the fiscal year if the school district makes the election as provided for in subsection B of Section 16-114a of this title.

Section 16-114a. A. Based upon legislative appropriations, the State Board of Education shall determine the textbook allocation to be distributed to each school district in the state. Each year the textbook allocation for each school district shall be calculated and distributed in July and adjusted in December. The initial allocation shall be calculated based on the audited end-of-year average daily attendance of the preceding school year multiplied by Fifty-five Dollars (\$55.00). The initial allocation shall be calculated and distributed to each school district in July. The

December adjustment shall be calculated by multiplying the audited first nine (9) weeks' average daily attendance for that current school year by Fifty-five Dollars (\$55.00) and subtracting from that amount the amount of the initial allocation. The adjustment shall be calculated in December and distributed to each eligible school district no later than January 15. A school district shall receive an adjustment only if the adjustment figure as calculated in this section is greater than zero. The State Department of Education shall retain from the total amount appropriated for textbooks not less than one percent (1%) of the total amount to be used for the purpose of making the adjustments. If the amount appropriated, including the retained amount, is not sufficient to fully fund the adjusted allocation, each school district eligible for an adjustment shall receive a proportionate reduction in funding. Any unused portion of the value of textbooks allowed to a school district shall be cumulative and may be carried over by the school district to subsequent fiscal years, in addition to the allocation it is entitled to receive during that fiscal year.

B. For the fiscal years ending ~~June 30, 2013, and June 30, 2014~~ June 30, 2015, and June 30, 2016, a school district may elect to expend any monies allocated pursuant to this section for textbooks, including any monies carried over as authorized pursuant to subsection A of this section, for any purpose related to the support and maintenance of the school district as determined by the board of education of the school district.

C. All textbooks distributed to a school district that have been destroyed by fire or other hazard shall be replaced by the State Board of Education. The total cost of all additional textbooks delivered to school districts to replace those destroyed by fire or other hazard shall not exceed, for the entire state in any fiscal year, the aggregate sum of One Hundred Thousand Dollars (\$100,000.00), which sum shall be reserved for that purpose from any appropriation made to carry out the provision of this section for any fiscal year.

SECTION 6. This act shall become effective July 1, 2014.

SECTION 7. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby

declared to exist, by reason whereof this act shall take effect and be in full force from and after its passage and approval.
