

An Act

ENROLLED SENATE
BILL NO. 1360

By: Treat, Paddock and Simpson
of the Senate

and

Ownbey, Thomsen, McCall and
Leewright of the House

An Act relating to organ donation; amending 63 O.S. 2011, Section 2200.14A, which relates to rights and duties of procurement organizations; permitting adoption of certain policies by certain facilities; providing certain construction; and providing an effective date.

SUBJECT: Organ donation

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY 63 O.S. 2011, Section 2200.14A, is amended to read as follows:

Section 2200.14A. A. When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of the Department of Public Safety and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

B. A procurement organization must be allowed reasonable access to information in the records of the Department of Public Safety to ascertain whether an individual at or near death is a donor.

C. When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a part that is or could be the subject of an anatomical gift for transplantation, therapy, research, or education from a donor or a prospective donor. During the examination period, measures necessary to ensure the medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

D. Unless prohibited by any other provisions of law, at any time after a donor's death, the person to whom a part passes under ~~Section 11 of this act~~ Section 2200.11A of this title may conduct any reasonable examination necessary to ensure the medical suitability of the body or part for its intended purpose.

E. Unless prohibited by any other provisions of law, an examination under subsection C or D of this section may include an examination of all medical and dental records of the donor or prospective donor.

F. Upon the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor is emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal.

G. Upon referral by a hospital under subsection A of this section, a procurement organization shall make a reasonable search for any person listed in ~~Section 9 of this act~~ Section 2200.9A of this title having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any other person was made, amended, or revoked, it shall promptly advise the other person of all relevant information.

H. Subject to subsection I of ~~Section 11~~ Section 2200.11A of this title and ~~Section 23 of this act~~ Section 2200.23A of this title, the rights of the person to which a part passes under ~~Section 11 of this act~~ Section 2200.11A of this title are superior to the rights of all others with respect to the part. The person may

accept or reject an anatomical gift in whole or in part. Subject to the terms of the document of gift and this act, a person that accepts an anatomical gift of an entire body may allow embalming, burial or cremation, and use of remains in a funeral service. If the gift is of a part, the person to which the part passes under ~~Section 11 of this act~~ Section 2200.11A of this title, upon the death of the donor and before embalming, burial, or cremation, shall cause the part to be removed without unnecessary mutilation.

I. Neither the physician who attends the decedent at death nor the physician who determines the time of the decedent's death may participate in the procedures for removing or transplanting a part from the decedent.

J. A physician or technician may remove a donated part from the body of a donor that the physician or technician is qualified to remove.

K. A hospital may adopt guidelines for the interaction between organ procurement organizations and hospital staff. Nothing in the Oklahoma Uniform Anatomical Gift Act shall be construed as to authorize an organ procurement organization to use coercion or emotional abuse of patients, families of patients, physicians or hospital staff in any aspect of the organ donation process, including, but not limited to, the testing and screening of potential donors and the procurement of organs. For purposes of this subsection, "emotional abuse" shall include, but not be limited to, demanding, insisting or pressuring families in a manner that fails to exhibit sympathy, compassion or sensitivity to the emotional well-being of those involved.

SECTION 2. This act shall become effective November 1, 2016.

Passed the Senate the 2nd day of May, 2016.

Kim Daniel
Presiding Officer of the Senate

Passed the House of Representatives the 31st day of March, 2016.
