the following proposed amendment to Section 5 of Article XIII of the
Constitution of the State of Oklahoma to read as follows:

Section 5. The supervision of instruction in the public schools
shall be vested in a State Board of Education, whose powers and
duties shall be prescribed by law. The Superintendent of Public
Instruction shall be President of the Board. Until otherwise
provided by law, the Governor, Secretary of State, and Attorney
General shall be ex-officio members, and with the Superintendent,

The State Board of Education shall be the governing board of the
State Department of Education and shall consist of seven (7) members.
The State Superintendent of Public Instruction shall be a member and
the president of said Board. The remaining six members shall be
appointed by the Governor by and with the advice and consent of the
Senate.
Except for the State Superintendent of Public Instruction, the members of the Board shall serve six-year terms of office. Except for the State Superintendent of Public Instruction, a member shall be appointed from each of the six (6) Congressional Districts in existence on December 31, 1990, not to exceed more than one member from any one county, city, or town. Terms of the members shall be staggered so that only one term expires each year.

Provided, that persons serving as members of the State Board of Education on the effective date of this section shall continue to serve as members of the State Board of Education for the terms for which they were appointed.

SECTION 2. The Secretary of State shall refer to the people for their approval or rejection, as and in the manner provided by law, the following proposed amendment to Sections 9, 10 and 12a of Article X of the Constitution of the State of Oklahoma to read as follows:

Section 9. (a) A. Except as herein otherwise provided, the total taxes for all purposes on an ad valorem basis shall not exceed, in any taxable year, fifteen (15) ten (10) mills on the dollar, no less than five (5) mills of which is hereinafter apportioned for school district purposes, the remainder to be apportioned between county, city, and town and school district, by the County Excise Board, until such time as a regular apportionment thereof is otherwise provided for by the Legislature.

No except as provided in Section 12a of this Article, no ad valorem tax shall be levied for State purposes, nor shall any part of the proceeds of any ad valorem tax levy upon any kind of property in this State be used for State purposes.

(b) A tax of four (4) mills on the dollar valuation of all taxable property in the county shall be levied annually in each county of the State for school purposes and, until otherwise provided by law, the proceeds thereof shall be apportioned to the school districts of the county by the County Treasurer on the basis of the legal average daily attendance for the preceding school year as certified by the State Board of Education. Provided that in case a school district lies in more than one county, such district shall be deemed a school district of the county having the greater part of the area comprising such district, unless otherwise provided by law, and shall be entitled to participate in the proceeds of such tax on the same basis as districts lying wholly within such county but revenue from such tax on the assessed valuation of the district in other counties shall, when collected, be transmitted to the County Treasurer of such county having the greater part of the area comprising the district, unless otherwise provided by law, and be apportioned as hereinbefore provided for the proceeds of such tax on the assessed valuation of such county. Not to exceed seventy-five per centum (75%) of the amount received by a school district from the proceeds of such county levy in any year shall be required to finance the State guaranteed program of such district.

(c) Upon certification of a need therefor by the board of education of any school district an additional tax of not to exceed fifteen (15) mills on the dollar valuation of all taxable property in the district shall be levied for the benefit of the schools of such district.

(d) In addition to the levies hereinbefore authorized, any school district may make an emergency levy for the benefit of the schools of such district, in an amount not to exceed five (5) mills on the dollar valuation of the taxable property in such district when approved by a majority of the electors of the district voting on the question at an election called for such purpose. This emergency levy shall provide only sufficient additional revenue to meet the needs of the district each fiscal year as determined by the board of such
district and must be approved by a majority of the electors voting on said question at such an election for each fiscal year.

(d-1) In addition to the levies hereinbefore authorized, any school district may make a local support levy for the benefit of the schools of such district, in an amount not to exceed ten (10) mills on the dollar valuation of the taxable property in such district, when approved by a majority of the ad valorem taxing voters voting on said question at an election for each fiscal year called for such purposes. This local support levy shall provide only sufficient additional revenue to meet the needs of the district for each such fiscal year as determined by the board of such district, provided, an elector desiring to vote upon such local support levy must present an ad valorem tax receipt for the year immediately preceding before being issued a ballot, or sign a sworn affidavit certifying the fact of such payment.

(e) The amount of revenue from school district ad valorem taxes levied under (a) and (c) of this Section which any school district may be required to use to finance its State guaranteed program shall not be in excess of its share, based upon its relative taxing ability as may be defined by law, of an amount equivalent to the net proceeds from a fifteen (15) mill tax levy on the aggregate net assessed valuation of the State, but until such relative taxing ability is defined by the Legislature, the amount of revenue from such taxes which any school district may be required to use to finance its State guaranteed program shall not be in excess of the net proceeds from an ad valorem tax levy of fifteen (15) mills on the dollar net assessed valuation of the district. No part of the proceeds from any ad valorem levy for emergency levy and local support levy under (d) and (d-1) of this Section shall be required to finance the State guaranteed program of such district.

Nothing in the amendments to the Constitution incorporated herein shall be construed to amend, alter or supersede the present application of Article XII-A, Sections 1 and 2 of the Oklahoma Constitution.

(f) Should the amendment contained in subsection (d-1) hereof be adopted on September 14, 1965, the school board of any school district in the State may within ten (10) days thereafter file with the Excise Board of the county a supplemental estimate of needs and call a special election within fifteen (15) days after such call upon the new local support levy or emergency levy if not previously submitted, or both. The school board shall advertise notice of such election by publication in at least one issue of a newspaper having general circulation in the school district, or by posting in five public places in the district at least five (5) days before such election. Should the electors of the school district vote such additional levy in such election, the County Excise Board shall forthwith compute the levy and certify appropriations for all affected school districts and refile the budgets with the County Clerk and with the State Auditor. Notice of the filing of said budget shall be given as required by law. The forty (40) day protest period shall begin immediately upon the filing of said budgets.

For the fiscal year 1965-66, the Excise Board of each county shall not finally compute the levy nor certify the appropriations for the school districts of the State until after the school district shall have had the opportunity to hold a special election as provided herein.

Temporary appropriations, up to forty per centum (40%) of the estimated funds needed by the school board of any district in the State for the fiscal year 1965-66, may be approved any time after the beginning of such fiscal year.

Upon the computation of the levy and certification of appropriations by the Excise Board, the County Assessor shall prepare
or revise the tax rolls and deliver the same to the County Treasurer who shall proceed with the collection of the taxes as required by law.

Should it become necessary, because of the delay in computing levies and certifying appropriations as herein provided, the Governor may, by executive order, extend the time when taxes will be delinquent for the year of 1965, and that year only. Such extension of time shall be for the minimum time necessary to permit the County Assessor and County Treasurer to perform their duties as required by law.

B. A tax of forty-four (44) mills on the dollar valuation of all taxable property in a school district shall be levied annually in each school district of the State for school purposes: provided, however, any millage levied in excess of thirty-nine (39) mills shall be used for the purpose of raising money for a building fund for a school district which may be used for erecting, remodeling, repairing or equipping school buildings or for any other school purposes. Said number of mills may be decreased or increased by a majority of the voters of the school district voting at an election called for that purpose. Provided that the total number of mills levied pursuant to the provisions of this section shall not exceed forty-four (44).

C. The elections provided in subsection B of this section shall be called upon a resolution adopted by the board of education of the school district or upon petition signed by registered voters numbering not less than seventy-five percent (75%) of the number of registered voters voting in the most recent district-wide school election.

D. Any increase or decrease in millage rates, approved by the voters of a school district pursuant to this section, shall not become effective until the next fiscal year of such school district.

E. The provisions of this section as amended are hereby declared to be self-executing and shall not need further legislative action to be effective.

Section 10. For the purpose of erecting public buildings in counties or cities, or for the purpose of raising money for a building fund for a school district an area school district for vocational and technical schools which may be used for erecting, remodeling or repairing school buildings, and for purchasing furniture, the rates of taxation herein limited may be increased, when the rate of such increase and the purpose for which it is intended shall have been submitted to a vote of the people, and a majority of the qualified voters of such county, city, or area school district for vocational and technical schools, voting at such election, shall vote therefor: Provided, that such increase shall not exceed five (5) mills on the dollar of the assessed value of the taxable property in such county, city, or area school district for vocational and technical schools.

Section 12a. A. There is hereby created in the State Treasury the Common School Fund.
