- (ii) less than 10-calendar days before the advance notice of adverse action deadline per Appendix B-2, the worker decreases or closes the food benefit effective the first of the month after the following month. For example, when the household reports a change on May 25th, the effective date of the change action is July 1st.

(2) Notice requirement when benefits increase. When a reported change increases food benefits, the worker makes the change by the non-advance notice deadline date per Appendix B-2. When the change is reported after the non-advance notice deadline, the worker supplements food benefits.

(3) Advance notice of adverse action not required. Advance notice of adverse action is not required for actions (1) through (8) of this subsection per 7 C.F.R. § ~~C.F.R.~~ 273.12(e) and 7 C.F.R. § ~~C.F.R.~~ 273.13(b).

(4A) Mass changes. When DHS initiates mass changes because of changes or requirements in federal or state law, the computer system closes benefits by the non-advance-notice deadline per Appendix B-2. In these situations, the individual notification requirement is waived and AFS mails generic notices to the affected households informing them of the changes that are about to be made.

(2B) Deceased household members. When the worker determines, based on reliable information, that all members of the household are deceased, the worker closes benefits by the non-advance-notice deadline per Appendix B-2.

(3C) Moved out of state. When the worker determines, based on reliable information, the household moved out of state, the worker closes benefits by the non-advance-notice deadline per Appendix B-2.

(4D) Unfinished issuance certification. When the unfinished issuance process is used at certification, the worker adjusts the benefit to take into account changes anticipated at the time of certification. The certification notice informs the household of all benefit changes included in this process.

(5E) Disqualified household member. When the only household member is disqualified for an intentional program violation or fraud per OAC 340:50-15-25, food benefits are closed by the non-advance-notice deadline per Appendix B-2. When there is more than one person in the household, the benefits of the remaining household members are reduced or closed because of the disqualification of that household member by the non-advance-notice deadline per Appendix B-2.

(6F) Facility loses approval. When a household's food benefit closes because the drug or alcohol treatment center or group home facility where the household resides is no longer approved, the worker closes benefits by the non-advance-notice deadline per Appendix B-2.

Permanent Final Adoptions

(7C) Household provides written statement.

The worker closes or reduces benefits by the non-advance-notice deadline per Appendix B-2 when the household provides a written statement:

- (A) stating the household no longer wishes to receive food benefits; or
- (B) requesting closure or reduction in food benefits to avoid or repay an overpayment.

(8H) Case transfer. When the worker closes food benefits in one case in order to transfer the food benefits to another case without a decrease or disruption in benefits, the worker closes benefits by the non-advance-notice deadline per Appendix B-2.

(k) Action on changes when fair hearings are requested.

When a household requests a fair hearing within 10-calendar days of the date shown on the adverse action notice, the household may continue to receive food benefits at the same level pending the outcome of the hearing per 7 § C.F.R. 273.15(k). Refer to OAC 340:2-5 for fair hearing procedures.

SUBCHAPTER 11. SPECIAL PROCEDURES

PART 1. HOUSEHOLDS ENTITLED TO EXPEDITED SERVICE

340:50-11-1. Criteria

These criteria apply to all households making an initial application for food benefits, including residents of approved drug and alcohol treatment centers and group homes. Per 273.2(i) of Title 7 of the Code of Federal Regulations, households entitled to expedited services include households:

- (1) with less than \$150 gross income when liquid resources do not exceed \$100;
- (2) with migrant or seasonal farm workers considered destitute when liquid resources do not exceed \$100; and
- (3) whose combined monthly gross income and liquid resources are less than the household's monthly rent or mortgage and/or ~~utilities~~ applicable utility standard per Oklahoma Administrative Code 340:50-7-31(a)(6)(C).

PART 12. CATEGORICALLY ELIGIBLE HOUSEHOLDS

340:50-11-111. Categorically eligible household

(a) **Purpose.** This Part includes the requirements for establishing categorically eligible households for the Supplemental Nutrition Assistance Program (SNAP) per Section 273.2(j)(2) of Title 7 of the Code of Federal Regulations.

(b) **Definitions.** The following words and terms, when used in this Part, shall have the following meaning, unless the context clearly indicates otherwise:

- (1) **"Categorically eligible household"** means:
 - (A) any household, as defined in Oklahoma Administrative Code (OAC) 340:50-11-20, in which all members receive or are authorized to receive:

- (i) Temporary Assistance for Needy Families (TANF) cash assistance; or

- (ii) a combination of Supplemental Security Income (SSI) and TANF cash assistance;

(B) any household in which all members receive or are authorized to receive SSI; or

(C) any household in which members receive or are authorized to receive services through ~~the 2-1-1 Oklahoma Marriage Initiative~~ except as excluded in (d) of this Section.

(2) **"Authorized to receive"** means the person ~~has been~~ was determined eligible for benefits and ~~has been~~ was notified of this determination even though the benefits have not yet been received.

(c) **Suspended, recouped, or benefit not issued.** The fact that TANF or SSI benefits were suspended, recouped, or are less than the minimum amount paid has no impact on a determination of categorical eligibility.

(d) **Ineligible households.** A household is not classified as a categorically eligible household when the:

- (1) entire household is institutionalized and the institution is not listed at OAC 340:50-5-25 as an institution where residents may participate in SNAP; or
- (2) household contains a sponsored alien.

340:50-11-113. Financial eligibility factors

(a) When all household members meet categorical eligibility per Oklahoma Administrative Code (OAC) 340:50-11-111(b)(1)(A) through (B), they are not subject to income limits of the Supplemental Nutrition Assistance Program (SNAP). Income for the household must be verified.

(b) Households authorized to receive services through ~~the 2-1-1 Oklahoma Marriage Initiative (OMI)~~ are subject to the income limits ~~as shown on~~ OAC 340:50-9-1(b) and the applicable table of the Oklahoma Department of Human Services Appendix C-3, Maximum Food Benefit Allotments and Standards for Income and Deductions (Maximum gross income standards without elderly/disabled members or Maximum net income standards for households with elderly/disabled members that when they are not pure SSI and/or TANF households).

(c) Households with a person who is determined to have an intentional program violation (IPV) in SNAP are subject to income limits ~~at OAC 340:50-7~~ per OAC 340:50-9-1(b) and the applicable table of Appendix C-3.

SUBCHAPTER 15. OVERPAYMENTS AND FRAUD

PART 1. OVERPAYMENTS

340:50-15-1. Scope and applicability

(a) **Scope and applicability.** The scope and applicability of overpayment procedures contained in this Subchapter apply to ~~recipients of~~ Supplemental Nutrition Assistance Program (SNAP) food ~~benefits~~ benefit issuance. Section 273.16 of Title

7 of the Code of Federal Regulations (7 C.F.R. §~~C.F.R.~~ 273.16) contains federal requirements regarding disqualification for intentional program violations and 7 C.F.R. §~~C.F.R.~~ 273.18 contains federal requirements regarding overpayment claims against households.

(b) **Overpayment claim definition.** A ~~Supplemental Nutrition Assistance Program (SNAP)~~ food benefit overpayment occurs when a household receives more food benefits than it is entitled to receive or when benefits are trafficked.

(c) **Persons responsible for repaying an established overpayment claim.** Refer to Oklahoma Administrative Code (OAC) 340:50-15-6 for repayment procedures. Persons responsible for repaying an established overpayment claim include:

- (1) every adult included in the food benefit allotment, when the overpayment or benefit trafficking occurred; and
- (2) a person connected to the household, such as an authorized representative or other individual, when the person trafficked benefits or caused the overpayment.

(d) **Overpayment referral.** When the worker determines an overpayment occurred, the worker sends an overpayment referral to Adult and Family Services (AFS) Benefit Integrity and Recovery (BIR) for overpayment classification and establishment. The overpayment referral consists of a completed Form 08OP005E, Report of Food Benefit (FB) Overissuance, and supporting documents. Reasons to submit an overpayment referral to AFS BIR include, but are not limited to, when:

- (1) the household:
 - (A) failed to provide the Oklahoma Department of Human Services with correct or complete information;
 - (B) failed to report changes in household circumstances per OAC 340:50-9-5;
 - (C) chose to continue to receive benefits pending a fair hearing decision and the:
 - (i) ~~the~~ fair hearing decision finds the household ineligible or eligible for fewer benefits; or
 - (ii) household withdraws the fair hearing request after food benefits were reopened or increased, pending the outcome of the hearing; or
 - (D) trafficked SNAP food benefits per OAC 340:50-15-25;
- (2) the worker:
 - (A) incorrectly computed the household's income or deductions or otherwise issued an ~~incorrect~~ excess benefit allotment;
 - (B) failed to take prompt action on a change reported by the household resulting in an over-issuance;
 - (C) incorrectly applied ~~policy or procedures~~ rules that resulted in an over-issuance or issuing benefits to an ineligible household;
 - (D) incorrectly issued or renewed food benefits to an ineligible household; or
 - (E) failed to reduce food benefits because the household's public assistance benefits changed;
- (3) the computer system incorrectly issued benefits to a household;

- (4) an AFS SNAP Quality Control staff discovered the over-issuance during a quality control review; or
- (5) the Oklahoma Inspector General (OIG) Investigative Unit discovered an over-issuance.

(e) **Overpayment classification and claim establishment.** Per OAC 340:50-15-4, AFS BIR staff classifies an overpayment as an inadvertent household error, intentional program violation ~~or fraud~~, or agency error and establishes the overpayment claim per ~~procedures in~~ OAC 340:50-15-3. Refer to OAC 340:50-15-2 for instances when an overpayment claim is not required.

(f) **Development of repayment plan.** After AFS BIR staff verifies and calculates the overpayment claim, ~~he or she~~ staff establishes the claim by notifying the debtor household of the overpayment debt. Once established, AFS BIR staff develops a repayment plan with the household per ~~procedures in~~ OAC 340:50-15-6.

(g) **Disqualification penalty.** When a person commits an intentional program violation ~~or fraud~~, the person is disqualified from receiving food benefits for a period of time per OAC 340:50-15-25, in addition to being responsible for repaying the overpayment debt.

340:50-15-3. Overpayment claim procedures

(a) **Overpayment determination.** Overpayments are calculated by Adult and Family Services (AFS) local county office or support center staff and are referred to AFS Benefit Integrity and Recovery (BIR) for final determination.

(1) When the household failed to report earned income in a timely manner per Oklahoma Administrative Code (OAC) 340:50-9-5, the worker does not subtract an earned income deduction from gross earnings when calculating the overpayment amount.

(2) AFS local county office or support center staff documents the circumstances causing the overpayment and the calculations used to determine the over-issuance amount on Form 08OP005E, Report of Food Benefit (FB) Overissuance, and sends Form 08OP005E and supporting documentation to AFS BIR staff for claim establishment.

(3) When Office of Inspector General (OIG) staff determines ~~the overpayment occurred because of a~~ trafficking-related offense occurred, ~~he or she~~ AFS BIR staff bases the overpayment amount on the value of the trafficked benefits. Per Section 273.18(c) of Title 7 of the Code of Federal Regulations, the value of the trafficked benefits is determined by:

- (A) the household member or authorized representative's admission;
- (B) adjudication; or
- (C) OIG's documentation that formed the basis for the trafficking determination.

(b) **Overpayment claim establishment.** AFS BIR staff is responsible for evaluating overpayment referrals, establishing overpayment claims, and referring overpayment claims to OIG when fraudulent intent is suspected. An overpayment claim is considered established on the date AFS BIR staff sends the overpayment notice to the household.

Permanent Final Adoptions

- (1) When fraudulent intent is not suspected, AFS BIR staff:
 - (A) establishes the overpayment claim and classifies it as an inadvertent household or agency error per OAC 340:50-15-4;
 - (B) notifies the household and worker per (d) and (e) of this Section; and
 - (C) sets up a repayment plan with the household per OAC 340:50-15-6.
- (2) When fraudulent intent is suspected, AFS BIR staff sends the overpayment referral to OIG to determine whether fraudulent intent occurred. The overpayment claim is not established and notices are not sent until OIG completes its investigation and releases the claim back to AFS BIR. Refer to OAC 340:50-15-25 for procedures when overpayments are referred for an intentional program violation determination.
- (c) **Claim establishment time frame.** The amount of time included in an overpayment claim varies.
 - (1) When AFS BIR classifies an overpayment as an inadvertent household error or agency error, the established overpayment claim does not cover more than 12 months prior to the month in which the overpayment was discovered unless a court orders the household to pay restitution for an additional time period.
 - (2) When an intentional program violation is determined, the established overpayment time frame may cover up to six years prior to the date the overpayment was discovered.
- (d) **Household notification.** AFS BIR staff sends the household:
 - (1) the Notification of Food Benefit Overpayment notice;
 - (2) page 1 of Form 08OP005E showing the overpayment over-issuance amount; and
 - (3) Form 08OP118E, Food Benefit Repayment Agreement.
- (e) **County office notification.** After claim establishment, AFS BIR staff sends the county office:
 - (1) a copy of the Notification of Food Benefit Overpayment notice sent to the client;
 - (2) the completed Form 08OP005E; and
 - (3) the County Notification of Overpayment notice.
- (2) failed to report changes in household circumstances per Oklahoma Administrative Code (OAC) 340:50-9-5; or
- (3) received benefits or more benefits than it was entitled to receive pending a fair hearing decision.
- (b) **Overpayment claim classified as agency error.** AFS BIR staff classifies an overpayment claim as an agency error when the DHS action or failure to take action caused the over-issuance. Instances of agency errors that may result in an overpayment include, but are not limited to, when:
 - (1) AFS staff:
 - (A) failed to take prompt action on a change reported by the household that resulted in an over-issuance;
 - (B) incorrectly computed the household's income or deductions, or otherwise issued an ~~incorrect~~ excess benefit allotment;
 - (C) incorrectly issued or renewed food benefits to an ineligible household;
 - (D) incorrectly applied policy or procedure that resulted in an over-issuance or issuing benefits to an ineligible household; or
 - (E) failed to reduce food benefits because the household's public assistance benefits changed; or
 - (2) the computer system incorrectly issued benefits to a household.
- (c) **Overpayment claim classified as intentional program violation.** An overpayment claim is classified as an intentional program violation when it is determined that a person intentionally gave false information or withheld facts in order to receive food benefits or trafficked benefits for cash or non-food items.
 - (1) An intentional program violation is determined through:
 - (A) an administrative disqualification hearing conducted by DHS Legal Services Appeals Unit staff;
 - (B) the accused person signing Form 08OP016E, Administrative Disqualification Hearing Waiver; or
 - (C) a court decision. When the court decision is a deferment, the prosecutor asks the accused person to sign Form 19MP002E, Disqualification Consent Agreement.
 - (2) Instances of intentional program violation that may result in an overpayment claim include, but are not limited to, when an adult household member:
 - (A) made a false or misleading statement, or misrepresented, concealed, or withheld facts; or
 - (B) committed an act that constitutes a violation of the Supplemental Nutrition Assistance Program, relative to the use, presentation, transfer, acquisition, receipt, or possession of food benefits.

340:50-15-4. Overpayments by classification

(a) **Overpayment claim classified as inadvertent household error.** Adult and Family Services (AFS) Benefit Integrity and Recovery (BIR) staff classifies an overpayment claim as an inadvertent household error when the Supplemental Nutrition Assistance Program (SNAP) food benefit over-issuance was caused by a misunderstanding or unintended error on the part of the household. Instances of inadvertent household error that may result in an established overpayment claim include, but are not limited to, when the household inadvertently:

- (1) failed to provide the Oklahoma Department of Human Services (DHS) with correct or complete information;

340:50-15-6. Development of repayment

(a) **Repayment of established overpayment claims.** Households must make repayment on all established Supplemental Nutrition Assistance Program (SNAP) food benefit overpayment claims regardless of the reason or classification for the overpayment. Adult and Family Services (AFS) Benefit Integrity and Recovery (BIR) staff initiates collection efforts

against all adult household members included in SNAP food benefits during the overpayment time.

(1) AFS BIR staff may initiate collection efforts from two separate households for the same claim.

(2) AFS BIR staff may use any repayment option per (c) of this Section to collect the overpayment claim from any adult:

(A) who was in the household at the time of the overpayment and who is not currently a member of a household undergoing allotment reduction; or

(B) connected to the household, such as an authorized representative or other individual when the person trafficked benefits or caused the overpayment.

(b) **Repayment plan time frames.** After AFS BIR staff establishes the overpayment, he or she mails the household the Notification of Food Benefit Overpayment notice and Form 08OP118E, Food Benefit Repayment Agreement. Form 08OP118E informs the household of the responsibility to repay the overpayment and explains the acceptable debt repayment methods. The household is responsible for completing and returning Form 08OP118E within the appropriate time frame.

(1) The SNAP food benefit overpayment claim is considered delinquent when, within 30-calendar days of the date shown on the Notification of Food Benefit Overpayment notice, the household does not:

(A) pay the claim in full; or

(B) complete and return Form 08OP118E. AFS BIR staff must approve the repayment plan proposed by the household.

(2) The SNAP overpayment claim is not considered delinquent when, within 30-calendar days of the date shown on the Notification of Food Benefit Overpayment notice, the:

(A) household's food benefit allotment reduction begins; or

(B) household is undergoing recoupment to repay a previous SNAP overpayment claim at the time AFS BIR staff mails the Notification of Overpayment notice.

(3) When allotment reduction stops because the SNAP food benefit closes for any reason, the household must repay the debt in full or contact AFS BIR to request a repayment arrangement, within 30-calendar days of benefit closure unless food benefits are reopened.

(c) **Repayment options.** Form 08OP118E informs the client of available repayment options and advises the client not to send cash through the mail. Repayment options include repaying the overpayment claim:

(1) in one lump sum by personal check, money order, cashier's check, or Electronic Benefit Transfer (EBT) debit with a signed statement;

(2) in regular monthly installments, when he or she has an approved repayment agreement on file with AFS BIR. Payment may be made by personal check, money order, cashier's check, or approved EBT debit with a signed statement.

(3) by applying any lost benefit due the household toward the food benefit overpayment claim per Oklahoma Administrative Code 340:50-11-46;

(4) by authorizing a voluntary payment through a debit from the EBT Access account. The client or the household's authorized representative must mail, fax, or email a signed statement to AFS BIR giving permission for the debit before BIR staff debits the account; ~~or~~

(5) ~~by applying expunged food benefits toward the food benefit overpayment claim when known and identified. Expunged food benefits are benefits remaining in an EBT account the household has not accessed for one year;~~

(6) by allotment reduction. Allotment reduction is an involuntary method of collecting SNAP overpayment claims by reducing the monthly benefit amount a household receives. AFS BIR staff does not reduce benefits for the initial month of certification or use other involuntary collection methods against household members while the benefit allotment is reduced. When AFS BIR staff establishes an:

(A) agency error or inadvertent household error overpayment claim, he or she reduces the household's monthly benefit allotment by 10 percent or \$10, whichever is greater. The client may request a higher reduction up to its monthly allotment; or

(B) intentional program violation overpayment claim, he or she reduces the household's monthly benefit allotment by 20 percent or \$20, whichever is greater. The household may request a higher reduction up to its monthly allotment; or

(7) by court ordered restitution.

(d) **Recalculation of debt.** AFS BIR staff recalculates the household's overpayment claim balance, when he or she becomes aware that some or all of the issued benefits within the overpayment period were expunged. Finance and Administration Electronic Payment Services staff expunges food benefits remaining in a household's EBT account when the household has not accessed the account for one year.

(de) **Monthly statement.** A monthly statement computer-generates to the household around the 20th day of each month, informing the household of the remaining debt obligation.

(ef) **Reconsideration of repayment plan.** The client may request reconsideration of the repayment plan by submitting information regarding changes in family and financial circumstances directly to AFS BIR. AFS BIR staff makes adjustments to the repayment plan when circumstances warrant.

(fg) **Consequences of a delinquent claim.** When an overpayment claim becomes delinquent, AFS BIR staff ~~may~~**must** refer it to the Treasury Offset Program (TOP) for collection per (g) of this Section or use other involuntary collection actions including, but not limited to:

(1) referrals to collection and/or other similar private and public sector agencies;

(2) state tax refund and lottery offsets;

(3) wage garnishments;

(4) property liens; and

(5) small claims court.

Permanent Final Adoptions

(gh) **Referrals for TOP.** AFS BIR staff refers delinquent overpayment claims to TOP for collection when criteria in (1) of this subsection is met. Debts are collected in TOP through interception of federal monies including, but not limited to, federal income tax refunds, Social Security Administration (SSA) benefits, and federal employee wages. The client may be responsible for paying any collection or processing fees charged by the federal government.

- (1) TOP criteria are, the:
 - (A) amount owed must be at least \$25;
 - (B) claim is delinquent by 180-or more calendar days and legally enforceable;
 - (C) claim is not part of a bankruptcy stay, under litigation, or under review per (3) of this subsection; and
 - (D) the debtor is not a current SNAP recipient in Oklahoma whose claim is not being collected through allotment reduction or under an approved repayment plan.

(2) At least 60-calendar days before referring an overpayment claim to TOP, AFS BIR staff notifies the person of the intended referral. AFS BIR staff mails the 60-calendar day notice to the address provided by TOP. Information contained in the notice includes:

- (A) the debtor's Social Security number;
- (B) the citation of the statutory authority for the offset;
- (C) instructions on how to avoid the TOP referral;
- (D) the right to request a review of the intended action per (3) of this subsection;
- (E) information regarding all TOP exemptions and restrictions;
- (F) information regarding spousal protection from the offset; and
- (G) the debtor's right to review applicable records.

(3) **Request for review of intended action.** To consider a request timely, the person being referred to TOP must request a review of the intended action in writing, within 60-calendar days of the date AFS BIR staff sends the 60-calendar day letter. The person's contention that the claim is not past due or legally enforceable is the basis for the review.

- (A) A claim is not past due and legally enforceable when the person provides proof:
 - (i) the claim is paid in full;
 - (ii) the person cited for the offset is not the person who owes the claim;
 - (iii) that substantiates bankruptcy action; or
 - (iv) the household's benefit allotment is currently being reduced to repay the debt.
- (B) AFS BIR staff conducts the requested review and sends the person written notification of the review decision within 30-calendar days of the request. The review decision notice informs the person requesting the review:
 - (i) if the debt is past due and legally enforceable;
 - (ii) if the overpayment is, or is not being referred to TOP; and

(iii) of his or her right to appeal the decision by requesting another review from the Food and Nutrition Services (FNS) Regional Office within 30-calendar days of the date on the review decision letter. The notice includes the FNS Regional Office address and the contact person's name.

(C) When, after review, AFS BIR staff finds the debt is past due and legally enforceable, the person may avoid referral to TOP by paying the overpayment claim in full or setting up an acceptable repayment agreement with AFS BIR staff.

(hi) **Case record retention.** The Oklahoma Department of Human Services is mandated to retain case records containing overpayments for three years from the date:

- (1) the overpayment debt is paid in full; or
- (2) no further action is taken to collect the debt because of reasons, such as when the client dies or files bankruptcy that discharges the debt.

PART 3. FRAUD/INTENTIONAL PROGRAM VIOLATION

340:50-15-25. Cases referred for intentional program violation determination

(a) **Cases referred for an administrative disqualification hearing (ADH).** Oklahoma Department of Human Services (DHS) Office of Inspector General (OIG) staff refers cases to the DHS Legal Services Appeals Unit to conduct an ADH to determine if the client committed an intentional program violation. The cases referred contain documentary evidence of intentional program violation, but do not warrant civil or criminal prosecution.

(b) **Waiving ADH.** OIG staff gives a client suspected of an intentional program violation the option to waive his or her rights to an ADH. The client must complete and sign Form 08OP016E, Administrative Disqualification Hearing Waiver, to request a waiver. A waiver of the hearing subjects the client to the same penalties as if the hearing process determined intentional program violation.

(c) **Penalties for intentional program violation.** When the ADH results in an intentional program violation determination or the client waives his or her right to the hearing process, Adult and Family Services (AFS) Benefit Integrity and Recovery BIR staff imposes a disqualification penalty.

- (1) AFS BIR staff sends Form 08AD019E, Program Penalty/Disqualification Notice, to the disqualified member. Form 08AD019E includes information regarding the remaining household members' eligibility.
- (2) The disqualification period for a person is one year for the first violation, two years for the second violation, and permanently for the third violation.

(A) Any person disqualified for intentional program violation prior to April 1, 1983, is considered to have one previous disqualification, regardless of the number of previous disqualifications.

(B) A person is disqualified for a period of 10 years when an ADH decision finds the person made a

fraudulent statement or representation with respect to identity or place of residence in order to receive multiple, simultaneous Supplemental Nutrition Assistance Program (SNAP) food benefits.

(C) The disqualification period begins the first, possible effective month following the date AFS BIR staff mails Form 08AD019E. Once the disqualification period begins, it runs continuously until the end of the period imposed, regardless of whether the household remains eligible for food benefits during the person's disqualification period.

(D) AFS BIR staff removes the disqualified person from the household size or closes the SNAP food benefit based on ~~fraud~~ intentional program violation when it is a one person household. Per Oklahoma Administrative Code (OAC) 340:50-7-29(d)(1), the worker counts the total gross income of the disqualified person in determining the remaining household members eligibility and allows all applicable deductions for the remaining household members.

(E) A client must repay the SNAP food benefit overpayment claim regardless of any disqualification penalty imposed. AFS BIR staff sends Form 08OP118E, Food Benefit Repayment Agreement, to notify the household of the need to make a repayment plan and the repayment options available to the client per OAC 340:50-15-6.

(d) **Cases determined by a court.** AFS BIR staff refers all cases suspected of intentional program violation to OIG to determine if court action is feasible.

(1) When OIG staff refers the person for court action, AFS BIR staff must not discuss the overpayment claim with the household until court action is complete or AFS BIR staff notifies the worker of needed action. Local county staff forwards further information or directs client inquiries regarding the overpayment to AFS BIR staff.

(2) A court of appropriate jurisdiction may find one or more persons in the household guilty of obtaining food benefits by fraudulent means. The court may charge the person with either a misdemeanor or felony.

(3) Disqualification penalty procedures for court and ADH determined cases are the same, except for (A) through (D) of this paragraph.

(A) The court may specify the length of the disqualification. Court-specified periods of disqualification ~~override~~ may supersede (c)(2) of this Section.

(B) A person determined by a federal, state, or local court to have committed intentional program violations of trading SNAP food benefits for firearms, ammunition, explosives, or controlled substances is subject to disqualification:

- (i) for two years for the first offense and permanently for the second offense involving the sale of a controlled substance for SNAP food benefits; and
- (ii) permanently for the first offense involving the sale of firearms, ammunition, or explosives for SNAP food benefits.

(C) A person convicted in a federal, state, or local court of trafficking SNAP food benefits for an aggregate amount of \$500 or more is permanently disqualified from SNAP participation. Per Section 271.2 of Title 7 of the Code of Federal Regulations and Section 243 of Title 56 of the Oklahoma Statutes (56 O.S. § 243), the definition of trafficking means:

- (i) the buying, selling, stealing, or otherwise effecting an exchange of SNAP benefits issued and accessed via electronic benefit transfer (EBT) cards, card numbers, and personal identification numbers (PINs) or by manual voucher and signature for cash or consideration other than eligible food, either directly, indirectly, in complicity or collusion with others, or acting alone;
- (ii) the exchange of firearms, ammunition, explosives, or controlled substances, per Section 802 of Title 21 of the United States Code, for SNAP benefits;
- (iii) purchasing a product with SNAP benefits that has a container requiring a return deposit with the intent of obtaining cash by discarding the product and returning the container for the deposit amount, intentionally discarding the product, and intentionally returning the container for the deposit amount;
- (iv) purchasing a product with SNAP benefits with the intent of obtaining cash or consideration other than eligible food by reselling the product, and subsequently intentionally reselling the product purchased with SNAP benefits in exchange for cash or consideration other than eligible food;
- (v) intentionally purchasing products originally purchased with SNAP benefits in exchange for cash or consideration other than eligible food;
- (vi) attempting to buy, sell, steal, or otherwise affect an exchange of SNAP benefits issued and accessed via EBT cards, card numbers, PINs, or by manual voucher and signatures, for cash or consideration other than eligible food, either directly, indirectly, in complicity or collusion with others, or acting alone; or
- (vii) the possession of stolen SNAP EBT cards.

(D) A person is disqualified from participation in SNAP for a 10-year period when the person is found to have made a fraudulent statement or representation with respect to identity or place of residence in order to receive multiple benefits simultaneously under SNAP.

(4) The court may also stipulate a repayment plan. The repayment plan cannot be renegotiated. AFS BIR staff may refer the case back to the district attorney's office ~~if~~ when the client fails to comply with the repayment plan.

(5) Per 56 O.S. § 243(B)(5), any district attorney who enters into a deferred adjudication or who negotiates for a deferred sentence with a defendant charged with fraud

Permanent Final Adoptions

must present the defendant with a disqualification consent agreement as part of the deferred adjudication or sentence.

When the recipient's cash assistance benefit closes and he or she later reapplies and is approved with the same client number, the previously chosen payment method is used to issue the cash assistance benefit. The recipient must call the contractor's customer service ~~telephone~~ phone number to change the payment method or to update bank account information.

- (1) When a report is received that alleges abuse or neglect that is not recent, information is obtained to determine if there is reason to believe the child or other children may presently be at risk or in present danger.
- (2) When information does not indicate a child is presently at risk or in present danger, CPS intervention may not be warranted.

(e) **Disposition of the screened out report.** When a report is received that is not appropriate for CPS, however, services are needed, DHS may make a referral to a DHS or outside resource for emergency food, shelter, medical services, or counseling.

(f) **Response to reporter concerning a screened out report.** The reporter may be informed of the decision to screen out the referral and the reason for the decision.

(2) **Priority II reports.** Priority II is assigned to all other reports. The response time is established based on the vulnerability and risk of harm to the child. Priority II assessments or investigations are initiated within two_ to 10_ calendar days from the date the report is accepted for assessment or investigation.

(i) **Accepted report assigned as assessment or investigation.**

(1) An assessment is conducted when a report meets the abuse or neglect guidelines but does not constitute a serious and immediate safety threat to a child.

(2) serves as a quality assurance mechanism to assess findings compliance with child protective services (CPS)

standards, per Oklahoma Administrative Code (OAC) 340:75-3-120 and 340:75-3-130; and

(3) provides substantiated findings review by Child Welfare Services (CWS) personnel not involved in any other stage of the case.

(1) An individual may be eligible to request an appeal when the individual is a person responsible for the child's health, safety, or welfare (PRFC), per OAC 340:75-3-120 in an investigation involving abuse or neglect allegations and the investigation results in a substantiated finding regarding the PRFC.

(2) An eligible individual may request a review through the appeal process when:

(A) no deprived petition is filed; or

(B) ~~no existing deprived petition is amended; or~~

~~(C) a deprived petition is filed and the court case is dismissed prior to adjudication.~~

(3) An individual meeting the requirements in (1) and (2) of this subsection is not eligible for a review through the appeal process when:

Forms 04KI019E and 04KI020E are:

(A) mailed within 10_ calendar days of substantiation of abuse or neglect;

(B) mailed to the PRFC's last known address;_

(i) Form 04KI019E informs the PRFC of:

- (I) the PRFC may file an appeal by mailing a request to CWS Appeals Program Unit within 15-calendar days from the postmark on the envelope containing Form 04KI020E; and
- (II) failure to submit the appeal request within 15-calendar days from the postmark on the envelope containing Form 04KI020E results in the finding becoming final and the PRFC waives any right to appeal this finding in the future, unless good cause is established per OAC 340:75-3-530; and
- (C) not mailed to the PRFC when case records reflect notification may place family members at risk.
- (2) **Conditions of good cause.** A PRFC is granted a review despite failure to make a timely response, provided good cause is established including, but not limited to, severe illness or other disabling condition.
- (3) **Response to appeal request from PRFC.** When the PRFC requests a review within the required time, the Appeals Program Unit responds to the PRFC through written notice within 10-calendar days following receipt of the PRFC's request for review. The Appeals Program Unit notifies the PRFC:
- (A) of the right to provide additional information through written statements that must be submitted within 30-calendar days from the postmark on the envelope containing the notification that the appeal was accepted for review;

- (C) that verification of legal representation must be established when the PRFC requests an attorney be notified of the determination results. Verification is established by a statement of representation on official letterhead from the attorney.
- (4) **Review Procedure.** Within 120-calendar days following acceptance of the PRFC's timely request for a review; or a late request for a review when good cause was established per OAC 340:75-3-530, the CWS Appeals ~~Committee~~Panel (Panel) determines ~~whether~~if the substantiated finding of abuse or neglect meets substantiation protocol per OAC 340:75-3-120.

- (ii) all written documents submitted by the PRFC.
- (B) When the Appeals Program Unit determines the finding failed to meet the criteria for substantiation per OAC 340:75-3-120, the ~~committee~~Panel determines if the preliminary decision by the Appeals Program Unit:
- (i) ~~determines whether the preliminary decision~~ was based upon lack of credible evidence to support the allegations of child abuse, neglect, or both; or
- (ii) ~~determines whether the preliminary decision~~ is based upon a lack of documentation by the child welfare (CW) specialist.
- (I) When a lack of documentation exists, the Appeals Program Unit sends notification to the district director, approving supervisor, and CW specialist that information is missing and requests the information be added to the report or scanned into the KIDS file cabinet.
- (II) After notification by the Appeals Program Unit, the district director reopens and reassigns the investigation.

PART 5. PERMANENCY PLANNING SERVICES

340:75-6-31. Permanency planning for the child in Oklahoma Department of Human Services (OKDHS)(DHS) custody

(a) **Legislative intent.** Pursuant to Per Section 1-1-102 of Title 10A of the Oklahoma Statutes (10A O.S. § 1-1-102), whenever it is necessary for a child to be placed outside of the home pursuant to per the Oklahoma Children's Code, it is the intent of the Legislature that:

- (1) each child be assured of the care, guidance, and supervision in a permanent home or foster home that serves the best interests of the child including, but not limited to, the development of the moral, emotional, spiritual, mental, social, educational, and physical well-being of the child; and
- (2) permanent placement is achieved as soon as possible for the child.

(b) **Permanency planning and placement preferences.** The purpose of permanency planning is to develop an appropriate plan addressing the child's immediate and long-term needs for safety, permanency, and well-being. Permanency planning begins immediately when a child is placed in OKDHS/DHS custody and continues until the child is living in a permanent home and the Child Welfare/child welfare (CW) case is closed.

(c) **Efforts to place the child with a suitable relative.** In accordance with Per 10A O.S. § 1-4-706, every effort is made to place the child with a suitable relative of the child.

(d) **Consideration given to child's initial out-of-home placement.** Careful planning and consideration is given to the child's initial placement so that in the event reunification fails or is delayed, the first placement made is the best available

placement to provide permanency for the child per 10A O.S. § 1-4-706.

(e) **Concurrent permanency planning.** Pursuant to Per 10A O.S. § 1-4-706, when a child is removed from the custody of the child's parent, OKDHS/DHS immediately assesses the need for permanency planning with the intention that permanency occurs for the child at the earliest opportunity.

(f) **Permanency hearing.** Permanency hearings are held as required per 10A O.S. § 1-4-811, and in accordance with per Oklahoma Administrative Code (OAC) 340:75-1-18.1.

(g) **Permanency plan preferences.** The permanency plan preferences in order are:

- (1) reunite the child with the child's parent or legal guardian;
- (2) terminate parental rights and place the child for adoption;
- (3) establish guardianship; or
- (4) provide a planned alternative permanent placement provided a child is 16 years of age or older.

(h) **Reunification.** In most situations, the initial permanency plan is to reunite the child with the family. Per 10A O.S. § 1-7-103, the child may be returned to the home of the parent or legal guardian from whom the child was removed with prior court approval. When the permanency plan is reunification, services are implemented until:

- (1) the child is returned home, the family home has stabilized, and the court case is dismissed; or
- (2) it is determined the conditions that necessitated intervention have not been corrected, although sufficient time and services have been provided.

(i) **Exceptions to reunification as the preferred permanency plan.** Exceptions to reunification as the preferred permanency plan include:

- (1) voluntary relinquishment of parental rights by all parents, biological, legal, presumed, and alleged;
- (2) a Petition for Termination of parental rights is filed; or
- (3) the court finds reasonable efforts to reunite the child and family are not required as outlined in 10A O.S. § 1-4-809 and OAC 340:75-1-18.4.

(j) **Priority for reunification with the custodial parent or placement with the non-custodial parent.** When the child's parents do not live together, the priority for reunification is primarily with the custodial parent; however, a home assessment may be conducted regarding the noncustodial parent to assess the possibility of placement or custody with the noncustodial parent, when appropriate.

(k) **Placement with the noncustodial parent.** The court may place the child with the noncustodial parent when it is in the best interests of the child pursuant to per 10A O.S. § 1-4-707. When the child is placed with the noncustodial parent, the court may order the noncustodial parent to assume:

- (1) sole custodial responsibilities for the child; or
- (2) custody of the child under OKDHS/DHS protective supervision.

(l) **Final permanency order.** Pursuant to Per 10A O.S. § 1-4-707, when the court orders the noncustodial parent to

assume sole custodial responsibilities for the child, the court may also:

- (1) order reasonable visitation and the payment of child support by the child's other parent; and
- (2) terminate its jurisdiction in the deprived action by entering a final permanency order determining custody, visitation, and child support. The final permanency order:
 - (A) remains in full force and effect and controls custody or child support orders entered in an administrative or district court initiated prior to, or during the pendency of the deprived action until it is modified by a subsequent court order; and
 - (B) may be docketed and filed in the prior, existing, or pending administrative or district court action; or
 - (C) when there is no administrative or district court action in existence, the surviving order may be used as the sole basis for opening a new administrative or district court action.
- (m) **Adoption.** When a child cannot return safely to his or her own home, in most cases adoption is the preferred permanency plan.
- (n) **Legal guardianship.** A guardianship may be the permanency plan for a child, when reunification and adoption have been ruled out.
 - (1) A guardianship is not preferred over adoption because this option does not provide the same level of family permanency. The court may establish a permanent guardianship between a child and a relative or other adult per ~~Section 1-4-709 of Title 10A of the Oklahoma Statutes~~ 10A O.S. § 1-4-709, when the guardianship is in the child's best interest.
 - (2) Subject to the availability of funds, financial assistance is available to the legal guardian, provided the eligibility requirements per OAC 340:75-6-31.4 are met.
- (o) **Planned alternative permanent placement.** ~~Per 10A O.S. § 1-4-811, a permanency plan of planned alternative permanent placement may be appropriate for a child is limited to a child 16 years of age or older when OKDHS/DHS documents a compelling reason for the court to determine that returning home, or placement of the child for adoption or guardianship is not in the child's best interests.~~
- (p) **Successful adulthood plan.** Every child 14 years of age or older has a transition plan to successful adulthood, per OAC 340:75-6-110.
- (q) **Notice of rights.** Every child 14 years of age or older is provided a notice of rights per OAC 340:75-6-110.
- (~~r~~) **Emancipation.** The federal definition of emancipation is the age at which the child reaches majority. In Oklahoma, 18 years of age is the age of emancipation.

(i) as specified by a court order for child support, or

(ii) according to the parent's financial ability to support the child, when an order for child support does not exist. Incidental or token support is not construed or considered when determining if the parent has maintained or contributed to the child's support.

(K) **Rape by the parent.** The court may find the child was conceived as a result of a rape perpetrated by the parent whose rights to the child are sought to be terminated.

(L) **Incarceration.** ~~The parent's incarceration in and of itself is not sufficient to deprive a parent of parental rights.~~ The court may find the parent whose rights are sought to be terminated is incarcerated, and continuation of parental rights willwould result in harm to the child based on the consideration of the factors, including, but not limited to, the:

- (II) A finding that a parent has a diagnosed cognitive disorder, an extreme physical incapacity, or a medical condition, including behavioral health or substance dependency, does not in, and of itself, deprive the parent of parental rights.

(N) **Prior adjudication of same conditions.** The court may find the:

- (i) condition that led to the deprived adjudication has been the subject of a previous deprived adjudication of this child or a sibling of this child; and
- (ii) parent has been given an opportunity to correct the conditions that led to the determination of the initial deprived child.

(O) **Substantial erosion of parent-child relationship.** The court may find a substantial erosion of the relationship between the parent and child exists caused at least in part by:

 - (II) the child cannot be safely returned to the home of the parent.
- (ii) A child is considered to have entered foster care on the earlier of the adjudication date or the date 60-calendar days after the date the child is removed from his or her home.
- (iii) The court may consider:

- (I) circumstances of the failure of the parent to develop and maintain a parental bond with the child in a meaningful, supportive manner; and
- (II) whether allowing the parent to have custody would likely cause the child actual serious psychological harm or harm in the near future as a result of the removal of the child from the substitute caregiver due to the existence of a strong, positive bond between the child and caregiver.

(c) **Mandatory petition or motion for TPR.** Per 10A O.S. § 1-4-902, the district attorney is required to file a petition or motion to terminate the parent-child relationship and parental rights with respect to a child or joins in the petition or motion, ~~if~~when filed by the child's attorney in any of the circumstances detailed in ~~paragraphs~~ (1) through (4) ~~of this subsection.~~

(D) child is not capable of achieving stability when placed in a family setting; or

(E) child is an unaccompanied, refugee minor and the situation regarding the child involves international legal issues or compelling foreign policy issues; or

(3) DHS has not provided to the child's family, consistent with the time period in the state case plan, services that the state deems necessary for the safe return of the child to the child's home, when reasonable efforts to reunite are required to be made with respect to the child.

- (1) deprive the court of the court's continuing jurisdiction over the child, nor
- (2) require reunification of the child with the parent when the child is adjudicated deprived.

(~~df~~) **Adoption consent authority when parental rights terminated.** ~~Per 10A O.S. § 1-4-907, when~~ When the court terminates parental rights and the child's custody is placed with DHS, the court must vest DHS with the authority to place the child, and consent to the child's adoption, per 10A O.S. § 1-4-907.

CFC placements by TFC contractors are submitted for approval to DHS TFC program staff prior to admission to CFC placement in a specified home. Approval may be contingent upon availability of funds.

(b) **Population served.** Children matching one of the following criteria may be considered for CFC placement in a TFC home, when a child:

(1) placed in TFC, no longer requires TFC level of care and steps down to a traditional foster care level in the current placement;

(2) needs traditional foster care placement in the same home with a sibling, is placed in the home on TFC level of care;

(3) needs placement in traditional foster care in the same home with his or her parent, who is in DHS or tribal custody, and is placed on a TFC level of care; ~~or~~

(4) needs to return to a home where he or she was previously placed, following an unsuccessful permanency effort, such as trial adoption or trial reunification;

(5) appears to meet criteria for placement in TFC and needs immediate placement when Oklahoma Healthcare Authority (OHCA) approval is not available because the placement need developed outside OHCA business hours or the business day closed without a return call from OHCA. The contractor may assist with immediate placement of the child. This placement is documented and reimbursed through the contractor's resource family partnership (RFP) contract for placement of traditional foster care placements or by placement in CFC. OHCA approval must be obtained the following business day after placement. Once OHCA approval is obtained, the child is admitted to TFC. When OHCA denies TFC placement, the contractor and Child Welfare Services (CWS) specialist immediately coordinate to ensure a new placement referral is initiated for placement in the appropriate level of care. The child may not remain in a TFC home more than three-business days when denied by OHCA for TFC placement;

(6) a child needing traditional foster care level is placed with a specific TFC home due to the home's unique characteristics that meet the child's needs. This placement requires prior approval of the TFC contractor, TFC program staff, and RFP program staff or CWS foster care staff. Examples of unique characteristics include the ability to communicate with the child in a language other than English, specialized medical training, and wheelchair accessible housing and transportation; or

(7) a TFC home may be considered for kinship placement as needed. The home must be approved for joint certification as a kinship foster home per Oklahoma Administrative Code (OAC) 340:75-7-19.

(c) **CFC admission procedure.** All admissions to CFC must have prior approval from TFC program staff and are subject to availability of funds. For any child meeting criteria for CFC placement in the home, a contractor with an open contract for supported foster care homes may also provide traditional foster care level placement in the TFC home through the resource family partner contract.

(1) Step down from TFC level of care: The TFC contractor notifies the child's ~~Child Welfare Services (CWS)~~ specialist and CWS supervisor when the child is determined to no longer meet TFC level of care criteria and is

Permanent Final Adoptions

appropriate to step down to traditional foster care. The TFC contractor and CWS staff determine the most appropriate placement option for the child, including possible CFC placement in the current TFC placement. When the child's team determines that remaining in the child's current TFC home as a CFC level placement is the best placement option for the child, the contractor submits the request to TFC program staff for approval, prior to placement.

(2) DHS may request the TFC contractor consider a CFC placement for the child meeting criteria as sibling to a TFC child, a child of a parent placed in TFC, or a child returning to placement after failed permanency placement. When in agreement with the request for CFC placement, the TFC contractor submits the request to TFC program staff for approval prior to placement.

(3) The request for CFC placement is submitted by the TFC contractor to TFC program staff and includes, but is not limited to, the:

- (A) child's name, date of birth, and KK number;
- (B) county of jurisdiction and the CWS specialist's name and phone number;
- (C) identification of the criteria for CFC placement for a:

- (i) child stepping down from TFC, include the date of anticipated step down;
- (ii) child whose parent is in TFC or sibling placements, include the name and date of placement of the TFC sibling or parent; and
- (iii) return to previous placement, include the child's previous placement and discharge dates from the home of proposed placement;

(D) description of any special care or behavioral health needs for the child considered for CFC placement, and the proposed foster parent's training or skills to meet those needs;

(E) name of each proposed foster parent and Form 04FT006E, ~~Contracted~~ Coordinated Placement Resource Report, needed to create the family resource in KIDS;

(F) work schedule of each proposed foster parent and planned use of child care while the proposed foster parent is working;

(G) names, ages, and genders of all children currently living in the home and their relationships to the proposed foster parents;

(H) number of bedrooms in the home and how the bedrooms will be allocated with an additional child or children in the home; and

(I) summary of previous abuse and neglect referrals and all plans of compliance or corrective action plans.

(4) TFC program staff provides a written response for the approval or denial of the request. Email approval is a valid written response. The response is maintained in the child's file and in the foster home file when placement is completed.

(5) At the time of CFC placement, the TFC contractor provides written notification of the placement date to DHS TFC program staff and the CWS specialist by submitting Form 04FT004E, Notice of Child's Location.

(6) The CWS specialist documents the child's CFC placement in KIDS.

(d) **The CFC discharge procedure.**

(1) Discharge planning is coordinated between TFC contractor staff and the child's CWS specialist.

(2) Discharges from CFC are reported to DHS program staff and the child's CWS specialist within five-business days from the date of discharge by submitting Form 04FT004E, ~~Notice of Child's Location.~~

(3) The contractor averts disruption when possible through the use of additional services, respite, disruption prevention meetings, and other identified methods to stabilize placement. When a placement disruption results in plans to transfer the child to a different CFC resource home, a new request and DHS program staff approval is required. The child must meet CFC criteria for placement in a new TFC home.

(4) The CWS specialist is notified immediately of all changes in the child's location, including respite, within one-business day of the date of the change in location by submitting Form 04FT004E, ~~Notice of Child's Location.~~

(e) **CFC respite.** The TFC contractor ensures resource homes have access to both planned and unplanned respite care providers for children placed in CFC. Respite care may be utilized for the same reasons and time periods specified, per OAC 340:75-8-11 for respite care for a child in TFC placement. Any respite provider must be fully informed of a child's special needs and have skills or training to meet those needs prior to assuming care of the child while ensuring the safety and well-being of all children in the home. Respite for children placed in CFC may be provided by accessing ~~one of the following options:~~

- (1) a TFC home in compliance with all certification requirements;
- (2) identification and approval of an alternate caregiver, per OAC 340:75-7-65(i); or
- (3) a traditional foster care resource, when available, by coordinating with the child's CWS resource staff. When utilizing a traditional foster care resource for respite, the contractor is responsible for payment of the daily board rate directly to the ~~Bridger resource~~ foster family providing care for the child. The payment rate is the same daily rate as a traditional foster care maintenance payment per Appendix C-20, Child Welfare Services (CWS) Rates Schedule, including any difficulty of care rate in effect for the child.

The child may express a preference as to placement and the preference may be expressed by the child with or without the parents, foster parents, guardians, or any other parties present. DHS determines whether the best interests of the child are served by the child's preference, but is not bound by the child's preference and may consider other facts in determining the placement.~~Per 10A O.S. § 1-4-705, DHS does not approve potential foster or adoptive parents for placement when the applicant, or any person residing in the potential applicant's home, has a criminal conviction for any of the felony offenses listed in paragraphs (1) through (5). - (q) ~~Former foster parent preferred placement~~**Placement providers as essential participants.** Per 10A O.S. § 1-9-119, the foster parent has a right to be considered as a preferred placement option when the foster child who was formerly placed with the foster parent reenters foster care at the same level and type of care, when the placement is consistent with the best interests of the child and other children in the foster parent's home.
- ~~(1) As placement providers, 10A O.S. § 1-9-119 and OAC 340:75-7-37 recognize foster parents and group home providers as essential participants in the decisions related to the growth, development, care, protection, and treatment of the child placed in the foster parent's home or in the group home with whom they have established a familial relationship.~~

(b) ~~Per 10A O.S. § 1-7-106, a placement is made that meets the treatment needs of the child and supports the permanency plans for the child and family; however, when a child is determined to be an Indian child, as defined by the federal and state Indian Child Welfare Acts, the placement preferences specified by Section 1915 of Title 25 of the United State Code and Section 40.2 of Title 10 of the Oklahoma Statutes apply.~~

SUBCHAPTER 8. THERAPEUTIC FOSTER CARE AND DEVELOPMENTAL DISABILITIES SERVICES

PART 1. THERAPEUTIC FOSTER CARE

340:75-8-8. Therapeutic foster care contractor requirements

(a) Therapeutic foster care (TFC) contractors:

(1) engage in active recruitment of potential TFC parents who reflect the racial and ethnic diversity of children requiring placement, in compliance with the Multiethnic Placement Act of 1994 and the Interethnic Provisions of 1996, per Oklahoma Administrative Code (OAC) 340:75-7-10;

(4) ensure each TFC parent receives the appropriate pre-service training according to CCS ~~rules~~, and OHCA rules per OAC 317:30-5-740.1, ~~and~~ CWS resource family requirements ~~including~~ Bridge, and the requirements

outlined in RBMS in TFC sections, prior to the placement of a child in the home;

(5) ensure the TFC home meets all certification requirements prior to the placement of a child or youth in the home;

(6) evaluate the TFC parent's ability to provide TFC services and meet the needs of children receiving RMBS in a foster care setting per OAC 340:75-7-94;

(7) participate in regularly scheduled staffings on all child abuse and neglect referrals with CWS program staff. Each foster care resource file must contain a log of all investigations and screened out referrals for use as a continual assessment of safety and resource home developmental needs;

(8) ensure that no TFC home is used for new placements or respite care while under investigation for child abuse or neglect. New placements or respite care cannot resume without specific consent of TFC program staff;

(9) ensure each TFC parent meets the requirements for in-service training as defined in the DHS RBMS contract;

(10) ensure the TFC parent has training and support to apply reasonable and prudent parent standards per Section 1-1-105 of Title 10A of the Oklahoma Statutes. The reasonable and prudent parent standard is characterized by careful and sensible parental decisions that maintain the child's health, safety, and best interests while at the same time encouraging the child's emotional and developmental growth. This standard is used by the child's TFC parent when determining whether to allow a child to participate in extracurricular, enrichment, cultural, and social activities. The foster parent may request consultation with the CWS specialist, biological parent or guardian, TFC contractor staff, or other parties to the child's case to assist with decision-making and ensure the child has access to immediate therapeutic response and support when needed. Visitation with the child's family of origin or connections identified by DHS to have restricted contact with the child must be approved by the child CWS specialist;

~~(1011)~~ complete Form 04TF006E, Unsupervised Time Assessment, for all TFC children, regardless of age, anytime an assessment is made that the child has the ability to have time away from the TFC parent's ~~or parents'~~ direct supervision, ~~other than the child's participation in extracurricular educational activities for grades K through 12~~ for activities other than those included under reasonable and prudent parenting standards, such as the child spending time alone or attending a child care program while the TFC parent works. This assessment includes, but is not limited to, the utilization of child care and the TFC parent ~~or parents'~~ parent's availability to respond to behavioral needs and all problems when the child is not under ~~their~~ his or her direct supervision. The assessment is documented as part of the child's ongoing TFC treatment plan with a copy of the finalized plan provided to the TFC parent or parents;

~~(112)~~ request approval from CWS program staff for TFC prior to accessing child care for a child 5 years of age

or younger. DHS does not reimburse for child care for a child in TFC placement. The written request includes the:

(A) therapeutic justification in the child's treatment plan of daily child care outside of the child's TFC placement home;

(B) ability of child care staff or the child care provider to meet the child's emotional and behavioral needs and all problems;

(C) availability of the TFC parent and TFC contractor staff to respond to behavioral needs and all problems at the child care environment;

(D) verification of the child care center's licensing status, star ratings, and adult-to child ratio, per OAC 340:75-7-65(a)(3)(A);

(E) proposed weekly schedule for child care utilization;

(F) planned length of use of child care as a service component of the child's treatment plan; and

(G) copy of the child's Unsupervised Time Assessment;

~~(1213) do not accept applications from any foster parent certified by any other agency, including all licensed child placing agencies and DHS, without prior written approval of the current certifying TFC contractor and written approval of the CWS program supervisor for TFC~~ follow established protocol found in the RBMS, contract for TFC services, for managing the transfer of a currently certified foster home from another contracting agency;

~~(1314)~~ do not certify a DHS employee as a TFC parent without prior written approval from the CWS director or designee. The TFC contractor submits the written request to the CWS program supervisor for TFC. The review of the request is consistent with OAC 340:75-7-12;

~~(1415)~~ do not certify a TFC agency employee assigned to the TFC program as a TFC parent without prior written approval from the CWS TFC program supervisor ~~for TFC~~. The request includes a copy of TFC agency policy regarding certification of employees of the TFC agency; ~~and~~

~~(1516)~~ do not accept a foster parent application from a person licensed to provide child care services. Families are not approved as licensed family child care homes and TFC homes at their home or in any other location;

(17) establish a procedure to address and document a response to concerns in a TFC foster home that do not warrant a referral for an abuse or neglect assessment or investigation. Examples of these concerns include, but are not limited to, a TFC foster parent's judgment or supervision, disciplinary practices, non-compliance with policy or contract, unacceptable housing standards, inadequate clothing provisions for the child, or a lack of involvement in the child's education or independent living skills. DHS has the right to decline the use of the home when the TFC parent's documented efforts did not resolve the concerns;

(18) require all TFC parents to immediately report to the TFC contractor:

(A) charges or arrests of any foster parent or household member and any criminal investigation of a foster parent or household member; or

(b) TFC homes may be jointly approved per OAC 340:75-7-19.

340:75-8-9. Placement procedures in therapeutic foster care homes

(a) Therapeutic foster care (TFC) is the least restrictive, community-based residential care placement setting. Children in Oklahoma Department of Human Services (DHS) custody or tribal custody served in TFC placements are 3 through 17 years of age, ~~male or female~~, and determined by the Oklahoma Health Care Authority (OHCA) authorized reviewer to meet the medical necessity criteria for TFC services, per Oklahoma Administrative Code (OAC) 317:30-5-741.

(1) The child ~~has been~~was diagnosed with any Diagnostic and Statistical Manual of Mental Disorders (DSM) AXIS I primary diagnosis, with the exception of V codes and adjustment disorders, accompanied by a detailed description of the symptoms supporting the diagnosis.

(2) The child's conditions are directly attributed to a mental illness or serious emotional disturbance as the primary need for professional attention.

(3) It ~~has been~~was determined by the inpatient authorization reviewer that the child's current disabling symptoms cannot be or ~~have~~were not ~~been~~ managed in a less intensive treatment program.

(4) There is evidence that the child's presenting emotional or behavioral problems prohibit full integration in a family or home setting without the availability of 24-hour crisis response, behavior management, and intensive clinical interventions from professional staff.

(5) The child is medically stable and not actively suicidal or homicidal and not in need of substance use or abuse detoxification services.

(6) The parent or the legal guardian of the child in DHS custody or tribal custody is afforded the opportunity to actively participate in the child's treatment and planning.

(b) The Child Welfare Services (CWS) specialist and supervisor assess each child's treatment needs per OAC 340:75-6-40 and 340:75-6-85. The CWS specialist seeks TFC placement when the:

(1) child's treatment needs can no longer be met in the child's own home, relative home, or traditional foster family setting;

(2) child does not require a group home placement; and

(3) child does not meet the medical necessity criteria for psychiatric treatment.

(c) A child whose behavior requires 24-hour awake supervision or who poses a danger in a family setting is not appropriate for TFC placement.

(d) The TFC contractor receives referrals for the placement of children from the ~~regional resource (RRC)~~TFC placement coordinator, per OAC 340:75-8-12.

(e) The TFC contractor requests a TFC authorization extension 30-calendar days prior to the expiration of the authorized length of stay. When the OHCA authorized reviewer denies the extension of services, the TFC contractor provides written notification within one-business day of the denial to the CWS specialist, or to the Indian child welfare worker when the child is in tribal custody only, to initiate transition planning.

(f) TFC contractors document in writing, an assessment of the agency's ability to serve a child 5 years of age or younger prior to placement. The written documentation is maintained for on-site review during program audits and includes:

(1) the assessed diagnosis and proposed treatment plan for the child;

(2) the credentials, experience, and training of the TFC contractor's staff documenting the staff's ability to develop an age-appropriate treatment plan and deliver clinical services to children, 5 years of age or younger, with emotional ~~disturbances~~ or behavioral ~~disorders/problems~~; and

(3) a description of the proposed TFC parent's:

(A) age, availability, experience, and skills;

(B) family structure;

(C) ability to meet the child's needs of a child, including a child 5 years of age or younger; and

(D) parenting responsibilities to other children in the home, children in foster care or TFC placement, any adopted children, and any birth children.

(g) The TFC contractor does not place more than two children in a TFC home without prior written approval from ~~the CWS programs supervisor for TFC via the program staff~~on completed Form 04FT003E, Request for Third Placement. The TFC contractor submits the written request that includes:

(1) primary treatment needs for the proposed placement of a third child and any subsequent children in the TFC home;

(2) availability, placement history, skills, completed or planned corrective action, and additional contractor supports of the TFC parent identified for proposed placement of a third child;

(3) risk factors considered and compelling reasons for proposed placement of a third child;

(4) documentation of TFC contractor contact with CWS specialists or supervisors for each child in the home, involved professionals, and each TFC family member, regarding the impact of the proposed placement of a third child;

(5) documentation of TFC contractor's review of any separated siblings placed in the proposed third placement, Guidance on when siblings may be separated is located in OAC 340:75-6-85; and

(6) other information as requested by the CWS programs manager for TFC.

(h) A home serving three or more children without prior written approval is subject to denial of payment above the foster care maintenance rate. Email approval from TFC program staff is considered valid written approval. A child respite in the home beyond timeframes and processes for extensions is considered a placement in the home after 14-calendar days per OAC 340:75-8-11.

(hi) Title XIX payments for TFC services are not made for TFC parents who move out of Oklahoma.

(ij) A child/youth may remain in TFC placement on a voluntary basis after 18 years of age, per OAC 340:75-6-110.

(k) The TFC contractor establishes practice modalities to support the placement of all children in DHS custody and tribal custody meeting criteria for TFC level of care in a fully-certified TFC home. Each child in placement receives services based on his or her individualized service plan to meet mental and behavioral health needs. Services provided support the child to move to a less restrictive level of care as quickly as possible.

(l) Children in TFC are authorized for placement based on meeting specific criteria. The amount of reimbursement paid to the contractor and therapeutic parent are in accordance with Appendix C-20, Child Welfare Services (CWS) Rates Schedule.

(m) Children are supported with TFC services to make progressive step downs and maintain stability in placement to reach traditional foster care level or achieve permanency goals.

(n) When the TFC placement is not approved by OHCA because the placement need developed outside of OHCA business hours or the business day closed without a return call from OHCA, the contractor may assist with immediate placement of a child identified by DHS staff as in need of TFC level placement. These placements are documented and paid through the contractor's resource family partners contract for placement of traditional foster care placements or coordinated foster care contract. OHCA approval must be obtained the following business day after placement. The child is then admitted to TFC placement in the same home. When OHCA denies TFC approval, the contractor and CWS specialist immediately coordinate to ensure a new placement referral is initiated for placement in the appropriate level of care. The child may not remain in a TFC home more than three-business days when denied by OHCA for TFC placement.

340:75-8-11. Therapeutic foster care placement stability

(a) **Assessment of placement stability.** Therapeutic foster care (TFC) contractors and Child Welfare Services (CWS) specialists continually assess the stability of a child's placement. When indications of instability are identified, the TFC contractor and CWS specialist jointly evaluate the need for additional services and supports to maintain the current placement.

(b) **Supporting placement stability.** The TFC contractor and CWS specialist review the child's current treatment plan and determine the need for modifications including, but not limited to:

- (1) the need for further evaluation;
- (2) specialized treatment services;
- (3) increased communication between team members;
- (4) ~~wrap-around~~ wraparound services;
- (5) additional supports for the foster parents;
- (6) use of disruption prevention staffing; and
- (7) behavior redirection and crisis management services.

(c) **Foster parent supports for TFC.**

(1) **Travel reimbursement.** Oklahoma Administrative Code 340:75-7-65 provides for TFC parent reimbursement for a child's transportation that meets specific criteria.

(2) **Insurance for the foster home.** Liability insurance is provided for TFC families for damages caused by the child in Oklahoma Department of Human Services (DHS) custody according to the policy terms. Foster families have the right to receive a copy of the liability insurance policy per Section 1-9-119 of Title 10A of the Oklahoma Statutes. Foster parents are responsible for any deductibles.

(ed) **Placement disruption.** Disruption is an unplanned change in a child's placement and occurs when a child is removed from a ~~therapeutic foster~~ TFC home and will not return to the same foster home due to the home or contractor being unable or unwilling to continue to serve the child. Disruptions include all placement changes that are not related to a planned movement towards the child's identified permanency goal. Unless an emergency exists, the TFC:

- (1) ~~TFC~~ contractor will not move children in ~~therapeutic foster care~~ TFC placement without DHS approval; and
- (2) ~~TFC~~ parent provides a 30-calendar day notice to the TFC contractor when requesting a child's removal from the TFC home, unless the removal is required to protect the health or safety of the child or TFC family members.

(de) **Disruption staffing.** A disruption staffing ~~will occur~~ occurs for all unplanned placement changes. When possible, the staffing occurs prior to providing notice of discharge to support the foster parent and child, prevent disruption, or assist with transition. When prior planning is not possible, the staffing occurs within the 72-business hour notice of discharge period. The staffing occurs within 72-business hours following immediate discharge, such as into an inpatient setting. The staffing includes at least the TFC therapist, foster parent, and CWS specialist or supervisor. The child may participate, when able. The staffing may be conducted by conference call. The contractor's TFC program director reviews all disruptions and includes copies with the contractor's monthly report to the TFC programs supervisor.

(ef) **Respite care.** Respite care provides reprieve and support for the TFC parent, child, or both. Respite for children in ~~therapeutic foster~~ TFC is only provided in certified therapeutic foster homes. There are four classifications of respite care:

- (1) **Planned respite.** Reprieve for the TFC parent with whom a child is placed includes a defined timeframe, is not to exceed 14-calendar days, and specifies the date for the child to return.
- (2) **Unplanned respite.** Reprieve for the TFC parent with whom a child is placed due to a crisis or emergency circumstance includes a defined timeframe, is not to exceed three-business days. ~~If~~ When circumstances warrant an extension beyond three-business days of the respite stay, the TFC contractor submits a written request for the extension to the assigned TFC agency contract liaison ~~for their agency.~~ Any extension of unplanned respite ~~will~~ does not exceed a total of 14-calendar days.

Permanent Final Adoptions

(3) **Transitional respite.** Reprieve for stabilization and assessment following a TFC home placement disruption, is not to exceed five-business days. This period allows the TFC contractor and CWS county of jurisdiction specialist time to develop an appropriate plan for the child's next placement. ~~If~~When circumstances warrant an extension beyond five-business days of the respite stay, the TFC contractor submits a written request for the extension to the assigned TFC agency contract liaison ~~for their agency~~. Any extension of transitional respite ~~will~~does not exceed a total of 14-calendar days.

(4) **Administrative Respite.** Care provided for children when safety or contract compliance is under review in the TFC home. These periods are identified by the TFC contractor or ~~DHSCWS~~. Circumstances ~~could~~ include, but are not limited to, abuse and/or neglect investigations, new criminal offenses by an adult household member, or contract violations that impact safety or may affect the requirements for continued certification.

(A) ~~DHSCWS~~ immediately notifies the TFC contractor when a need for administrative respite is identified and provides details of safety concerns.

(B) When concerns are identified by the TFC contractor, ~~DHSCWS~~ programs staff are notified within one-business day that a child ~~has been~~was moved to a respite setting for administrative respite and provided details of safety concerns.

(C) The TFC contractor and CWS programs staff agree to a specified time period for the respite care and establish a date to review the use of continued respite.

(~~fg~~) **Notification of respite placement.** The TFC contractor notifies, via Form 04FT004E, Notice of Child's Location, the CWS county of jurisdiction and county of placement specialists, regional resource coordinators involved in the placement, and the contract liaison of all placement changes, including all types of respite, for each child in TFC placement.

(~~gh~~) **TFC contractor.** The TFC contractor:

(1) ensures the respite TFC parent is informed of the child's current treatment issues, behavioral, medical, and physical needs, and any child-specific supervision or safety plans; and

(2) supervises the respite TFC parent in the implementation of the in-home treatment strategies identified in the TFC contractor's individualized treatment plan for the child.

GIST/ANALYSIS:

The proposed revisions to Chapter 110, Subchapter 1, Part 1, amend Child Care Advisory (CCAC) by-laws. The passage of Senate Bill (SB) 1211 during the 2016 legislative session amended Section 404 of Title 10 of the Oklahoma Statutes (10 O.S. § 404), Oklahoma Child Care Facilities Licensing Act. Statutory amendments include: (1) revising the responsibilities of CCAC members; (2) revising the process of the development of minimum licensing requirements; (3) identifying agencies that Oklahoma Department of Human Services (DHS) consults with prior to promulgating child care licensing rules; (3) expanding the role of the Oklahoma Commission on Children and Youth (OCCY) representative; (4) expanding membership of the standing subcommittees; and (5) clarifying Peer Review Board representation.

The proposed revisions to Chapter 110 Subchapter 3 Part 5 and 15 amend minimum licensing requirements affecting family child care homes, child care centers, day-camps, drop-in, out-of-school time programs, part-day, and programs for sick children to comply with federal and state statutory changes.

On November 19, 2014, President Barack Obama signed the Child Care Development Block Grant (CCDBG) Act of 2014 (Public Law No. 113-186) into law following its passage in the 113th Congress. The CCDBG Act authorizes the Child Care and Development Fund (CCDF) that is the primary federal funding source devoted to providing low-income families who are working or participating in education or training activities with help paying for child care and improving the quality of child care for all children. CCDBG criteria was revised to provide further protection to the health and safety of children in child care and enhances the overall quality of child care and the early childhood workforce. Revisions to CCDBG criteria required Child Care Services to revise child care licensing requirements to meet the new criteria. Revisions include health and safety orientation topics for child care programs in areas of: (1) immunizations; (2) physical premise safety; (3) handling and storage of hazardous materials and disposal of bio-contaminants; (4) emergency preparedness; (5) administration of medication; and (6) prevention of and responses to food and allergic reactions. Revisions to minimum licensing requirements included: (1) expulsion program policies; (2) emergency preparedness and emergency drills; (3) cardio-pulmonary resuscitation (CPR) and first aid certification for all caregivers; and (4)

requirements addressing any orientation topic not currently addressed by requirement language.

An interim study was conducted on infant safe sleep environments in licensed family child care homes and child care center based programs. This study resulted in Senate Bill (SB) 1273 during the 2016 legislative session amending Section 404 of Title 10 of the Oklahoma Statutes (10 O.S. § 404), Oklahoma Child Care Facilities Licensing Act to improve infant sleep environments. Amendments included restricting items and bedding within rest equipment and requiring infants to sleep in approved rest equipment. An agreement between legislators leading the interim study and DHS also resulted in request for requirement revisions in lieu of statutory revisions. These requirement revisions included: (1) restrictions of infant swaddling; (2) restriction of infants in car seats; (3) observation of infants; and (4) required safe sleep training.

SB 1274 approved during the 2016 legislative session amends 10 O.S. § 404.3 of the Oklahoma Child Care Facilities Licensing Act to require parental notification of the program's compliance file and liability insurance. An agreement between authors of SB 1274 and DHS also resulted in request for requirement revisions in lieu of statutory revisions. These requirement revisions impacted further rule language development regarding parental notifications.

SB 1554 approved during the 2016 legislative session amends previous requirement language for child care center based programs regarding infant room square footage.

Amendments also reflect compliance with 21 O.S. § 870 requiring reporting of human trafficking. The proposed revisions to Chapter 110, Appendix EE Oklahoma Director's Credential (Appendix EE) amend minimum educational licensing requirements for child care directors. Child care programs impacted include child care centers, drop-in programs, and programs for sick children.

Senate Bill (SB) 1554 approved during the 2016 Legislative Session, amends minimum educational licensing requirements for child care directors effective November 1, 2016. - (i) ~~on or after January 1, 2016, have at least 40 square feet of floor space per infant in classrooms routinely designated for infants only; or~~
- (ii) ~~before January 1, 2016, that added or converted an existing classroom after January 1, 2005, into a classroom routinely designated for infants only have at least 40 square feet of floor space per infant in that classroom. However, other existing infant classrooms are not required to meet this requirement.~~ new construction, existing space not previously licensed for child care, or programs licensed after November 1, 2016 are required to have 40 square feet of floor space per infant in rooms occupied only by infants.
- (2) **Areas not counted toward licensed capacity or limited for children's use.** Some areas may not be suitable for children's use or only under the conditions listed in (A) through (C) of this paragraph.
- (A) Areas not counted toward the licensed capacity are:
- (i) restrooms, kitchens, and hallways;
- (ii) storage closets and supply rooms;
- (iii) personnel offices, work rooms, and break rooms;
- (iv) areas occupied by furniture not for children's use;
- (v) supplemental areas or rooms used exclusively for eating, rest time, gross motor play, or care of children who are ill; and
- (vi) alternate indoor play areas in shared facilities as described per OAC 340:110-3-277(b).
- (B) Basements, areas partially below ground level, and floors above ground level are only counted toward the licensed capacity when approved by the local or state fire governmental authority having jurisdiction. Fire approval is also required before children use the area for any reason, except as part of the emergency plans and procedures, such as tornados or lock-downs. Fire inspection reports indicate age restrictions. When used by children, basements are finished, dry, and ventilated.
- (C) Large areas, such as gymnasiums are only counted toward the licensed capacity when divided into classrooms for 3-year-olds or older. However, they may be used as a supplemental area for any age.
- (3) **Classroom capacity.** Classrooms are not routinely occupied by more children than can be accommodated by the square footage per (1) of this subsection.
- (4) **Use zones and impact-absorbing materials.** The use zone and impact-absorbing material requirements per
- (c) of this Section are met for indoor climbing equipment with a fall height over four feet.
- (c) **Outdoor play areas.**
- (1) **Square footage for licensed capacity.** A minimum amount of outdoor play area is required.
- (A) When the licensed capacity is for 23 or fewer children there is at least 75 square feet of outdoor play area per child for the licensed capacity.
- (B) When the licensed capacity is for 24 or more children there is at least 75 square feet of outdoor play area per child for at least one-third of the licensed capacity or 1800 square feet, whichever is greater.
- (2) **Areas not counted toward licensed capacity.** Alternate outdoor play areas required in shared facilities per OAC 340:110-3-277(b) are not counted toward the licensed capacity.
- (3) **Outdoor play area capacity.** The outdoor play areas are not routinely occupied by more children than can be accommodated by the square footage per (1) of this subsection. When the program has less than 75 square feet of outdoor play area per child for the licensed capacity, the program follows a rotation schedule as indicated on the classroom schedules.
- (4) **Location.** The outdoor play areas are situated to allow the:
- (A) children to reach them safely; and
- (B) supervision of areas where children cannot be easily seen.
- (5) **Fencing.** The outdoor play areas are enclosed by a building or fence.
- (A) The fence:
- (i) begins at ground level;
- (ii) is at least 48 inches high;
- (iii) poses no risk to children; and
- (iv) is maintained in a good condition, such as stable, secure, and upright.
- (B) However, 5-year-olds and older who are attending or have completed kindergarten may play in an unfenced or partially fenced on-site outdoor play area as part of a scheduled occasional supervised activity when the area is properly protected from traffic and other hazards.
- (6) **Exits and gates.** The outdoor play area(s):
- (A) has at least one exit that remains unlocked during the hours of operation and is away from the building. However, the unlocked exit may have a child-proof latch or a latch out of the reach of children; and
- (B) gates are kept closed, when children are playing outside.
- (7) **Water protection.** Bodies of water and water features meet the water activity requirements per OAC 340:110-3-291.
- (8) **Shade.** The outdoor play areas have shade accessible to children when outdoors.
- (9) **Open area.** The play equipment is arranged to have an open, continuous, uninterrupted, and unobstructed area in at least 25 percent of the required outdoor play

Permanent Final Adoptions

area. Programs in shared facilities that share their outdoor play areas are exempt from this requirement.

(10) **Use zones.** Use zones are clearance spaces and surfaces under and around a piece of equipment onto which a child falling or exiting from the equipment would be expected to land.

(A) Use zones:

- (i) are free of obstacles, except for multi-axis, swing support structures;
- (ii) around all play equipment are arranged to prevent hazards from conflicting activities;
- (iii) around non-portable play equipment, with a fall height of:

(I) 30 inches or less, extend at least three feet in all directions from the equipment perimeter, unless an exception in (B) of this subsection applies; or

(II) more than 30 inches, extend at least six feet in all directions from the equipment perimeter, unless an exception in (B) of this subsection applies; and

(iv) do not overlap. However, use zones in programs licensed before January 1, 2016, may overlap for existing non-portable play equipment, unless the equipment is moved.

(B) However, use zones:

(i) on the sides of play equipment, where the fall potential in that direction is minimal, are not required, such as play equipment with guardrails or barriers or the sides of swings;

(ii) for single-axis swings that move forward and backward, extend two times the length of the swing chain to the front and rear of the swing midpoint. However, swings secured by a bar or strap and used by 2-year-olds or younger are not required to extend more than six feet; and

(iii) for multi-axis swings, such as tire swings that move in a circle, extend six feet plus the length of the chain in every direction from the midpoint. At least a 30-inch clearance between a fully extended tire swing seat and the support structure is required.

(C) The swing fall height is where the chain attaches at the top of the support structure.

(11) **Impact-absorbing materials.** Impact-absorbing materials:

(A) are required in use zones for:

- (i) climbers;
- (ii) swings;
- (iii) slides; and
- (iv) revolving equipment; and

(B) meet these requirements when obtained after August 1, 2003, as documented per OAC 340:110-3-281.2(c). However, grass is acceptable when the fall height is four feet or less and for swings secured by a bar or strap used by 2-year-olds or younger.

(i) Loose-fill materials, such as sand, pea gravel, wood playground mulch, shredded rubber mulch, and engineered wood fibers (EWF):

(I) are maintained at a depth of at least six inches by replacing, leveling, or raking. In addition, rubber mulch, EWF, and any other loose-fill material that is tested by the American Society for Testing and Materials International (ASTM) must comply with ASTM impact attenuation and EWF guidelines;

(II) remain loose and are not compacted. Grass and weeds in use zones are minimized to prevent compaction; and

(III) may be prevented from displacement by using impact mats that meet ASTM guidelines for impact attenuation.

(ii) Unitary materials, such as rubber mats and poured in place rubber:

(I) comply with ASTM guidelines for impact attenuation;

(II) have an ASTM rating equal to or greater than the fall height; and

(III) do not have rips, tears, and loose seams.

(12) **Surfaces.** At least two surface types are required. Programs licensed:

(A) on or after January 1, 2016, only count surfaces outside of the use zones, including impact-absorbing materials that extend beyond the use zones; and

(B) before January 1, 2016, may count surfaces inside of the use zones, unless square footage is added to the outdoor play area.

365:10-5-129. Open enrollment

- (a) An issuer shall not deny or condition the issuance or effectiveness of any Medicare supplement policy or certificate available for sale in this State, nor discriminate in the pricing of such a policy or certificate because of the health status, claims experience, receipt of health care, or medical condition of an applicant in the case of an application for a policy or certificate that is submitted prior to or during the six (6) month period beginning with the first day of the first month in which an individual is both 65 years of age or older and is enrolled for benefits under Medicare Part B. Each Medicare supplement policy and certificate currently available from an issuer shall be made available to all applicants who qualify under this subsection without regard to age.
- (b) If an applicant qualifies under subsection (a) or subsection (d) of this Section and submits an application during the time period referenced in said subsection (a) or subsection (d), and
- (1) as of the date of application, has had a continuous period of creditable coverage of at least six (6) months, the issuer shall not exclude benefits based on a preexisting condition; or
 - (2) as of the date of application, has had a continuous period of creditable coverage that is less than six (6) months, the issuer shall reduce the period of any preexisting condition exclusion by the aggregate of the period of creditable coverage applicable to the applicant as of the enrollment date. The Secretary shall specify the manner of the reduction under this subsection.
- (c) Except as provided in Subsection (b) and Section 365:10-5-140, subsection (a) and subsection (d) of this Section shall not be construed as preventing the exclusion of benefits under a policy, during the first six (6) months, based on a preexisting condition for which the policyholder or certificateholder received treatment or was otherwise diagnosed during the six (6) months before the coverage became effective.
- (d) At least one of the ten standardized Medicare supplement plans currently available from an issuer shall be made available to all applicants who qualify under this subsection by reason of disability. The issuer shall not deny or condition the issuance or effectiveness of any Medicare supplement policy or certificate available for sale in this State because of the health status, claims experience, receipt of health care, or medical condition of an applicant where an application for such policy or certificate is submitted during the six (6) month period beginning with the first month in which an individual first enrolled for benefits under Medicare Part B. The premium rate charged for such disabled person may not exceed the lowest available aged premium rate for such plan.
- (e) In the event Social Security backdates the Medicare enrollment date, the six-month enrollment period shall be calculated from the date the individual first receives notification of approval of Medicare coverage.

Section 81 provides definitions to the terms "confidential information," "exchange," and "supervisory" used in the Part. Section 82 outlines the authorization for the Commissioner to promulgate these new rules. Section 83 establishes the guidelines for the protection of confidential information by the Commissioner, Department staff, and anyone else acting on behalf of the Commissioner or the Department. Section 84 sets out the procedure for passing on confidential information to other regulators. The risk assessment may involve an actuarial review, including an independent analysis of reserves and cash flows, and shall consider all material risk factors, including when applicable the lines of business involved, the stability of the incurred loss estimates and the effect of the surplus requirements on the assuming insurer's liquidity or solvency. The minimum required trustee surplus may not be reduced to an amount less than thirty percent (30%) of the assuming insurer's liabilities attributable to reinsurance ceded by U.S. ceding insurers covered by the trust.

(c) Credit for reinsurance shall not be granted unless the form of the trust and any amendments to the trust have been approved by either the Commissioner of the state where the trust is domiciled or the Commissioner of another state who, pursuant to the terms of the trust instrument, has accepted responsibility for regulatory oversight of the trust. The form of the trust and any trust amendments also shall be filed with the Commissioner of every state in which the ceding insurer beneficiaries of the trust are domiciled. The trust instrument shall provide that:

(11) Notwithstanding other provisions of this part, when a trust agreement is established in conjunction with a reinsurance agreement covering risks other than life, annuities and accident and health, where it is customary practice to provide a trust agreement for a specific purpose, the trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, only for the following purposes:

(A) To pay or reimburse the ceding insurer for the assuming insurer's share under the specific reinsurance agreement regarding any losses and allocated loss expenses paid by the ceding insurer, but not recovered from the assuming insurer, or for unearned premiums due to the ceding insurer if not otherwise paid by the assuming insurer;

(12) Notwithstanding other provisions of this regulation, when a trust agreement is established to meet the requirements of Section 365:25-7-67 in conjunction with a reinsurance agreement covering life, annuities or accident and health risks, where it is customary to provide a trust agreement for a specific purpose, the trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, only for the following purposes:

(A) To pay or reimburse the ceding insurer for:

(i) The assuming insurer's share under the specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurer, to the owners of policies reinsured under the reinsurance agreement on account of cancellations of the policies, and

(B) To pay to the assuming insurer amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer; or

(C) Where the ceding insurer has received notification of termination of the trust and where the assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged ten (10) days prior to the termination

date, to withdraw amounts equal to the assuming insurer's share of liabilities, to the extent that the liabilities have not yet been funded by the assuming insurer, and deposit those amounts in a separate account, in the name of the ceding insurer in any qualified U.S. financial institution apart from its general assets, in trust for the uses and purposes specified in Subparagraphs (A) and (B) of this paragraph as may remain executory after withdrawal and for any period after the termination date.

(13) ~~The reinsurance agreement may, but need not, contain the provisions required by subparagraph (d)(1)(B) of this section, so long as these required conditions are included in the trust agreement.~~ Either the reinsurance agreement or the trust agreement must stipulate that assets deposited in the trust account shall be valued according to their current fair market value and shall consist only of cash in United States dollars, certificates of deposit issued by a United States bank and payable in United States dollars, and investments permitted by Title 36 of the Oklahoma Statutes or any combination of the above, provided investments in or issued by an entity controlling, controlled by or under common control with either the grantor or the beneficiary of the trust shall not exceed five percent (5%) of total investments. The agreement may further specify the types of investments to be deposited. If the reinsurance agreement covers life, annuities or accident and health risks, then the provisions required by this paragraph must be included in the reinsurance agreement.

(14) ~~Notwithstanding any other provisions in the trust instrument, if the grantor of the trust has been declared insolvent or placed into receivership, rehabilitation, liquidation or similar proceedings under the laws of its state or country of domicile, the trustee shall comply with an order of the Commissioner with regulatory oversight over the trust or court of competent jurisdiction directing the trustee to transfer to the Commissioner with regulatory oversight or other designated receiver all of the assets of the trust fund. The assets shall be applied in accordance with the priority statutes and laws of the state in which the trust is domiciled applicable to the assets of insurance companies in liquidation. If the commissioner with regulatory oversight determines that the assets of the trust fund or any part of the assets are not necessary to satisfy claims of the U.S. beneficiaries of the trust, the assets or any part of the assets shall be returned to the trustee for distribution in accordance with the trust agreement.~~

(c) **Permitted conditions.**

(1) The trust agreement may provide that the trustee may resign upon delivery of a written notice of resignation, effective not less than ninety (90) days after the beneficiary and grantor receive the notice and that the trustee may be removed by the grantor by delivery to the trustee and the beneficiary of a written notice of removal, effective not less than ninety (90) days after the trustee and the beneficiary receive the notice, provided that no such resignation or removal shall be effective until a successor

trustee has been duly appointed and approved by the beneficiary and the grantor and all assets in the trust have been duly transferred to the new trustee.

(2) The grantor may have the full and unqualified right to vote any shares of stock in the trust account and to receive from time to time payments of any dividends or interest upon any shares of stock or obligations included in the trust account. Any such interest or dividends shall be either forwarded promptly upon receipt to the grantor or deposited in a separate account established in the grantor's name.

(3) The trustee may be given authority to invest, and accept substitutions of, any funds in the account, provided that no investment or substitution shall be made without prior approval of the beneficiary, unless the trust agreement specifies categories of investments acceptable to the beneficiary and authorizes the trustee to invest funds and to accept substitutions which the trustee determines are at least equal in market value to the assets withdrawn and that are consistent with the restrictions in subparagraph (d)(1)(B) of this section.

(4) The trust agreement may provide that the beneficiary may at any time designate a party to which all or part of the trust assets are to be transferred. Such transfer may be conditioned upon the trustee receiving, prior to or simultaneously, other specified assets.

(5) The trust agreement may provide that, upon termination of the trust account, all assets not previously withdrawn by the beneficiary shall, with written approval by the beneficiary, be delivered over to the grantor.

(d) Additional conditions applicable to reinsurance agreements.

The reinsurance agreement may further specify the types of investments to be deposited. ~~(C) Require the assuming insurer, prior to depositing assets with the trustee, to execute assignments or endorsements in blank, or to transfer legal title to the trustee of all shares, obligations or any other assets requiring assignments, in order that the ceding insurer, or the trustee upon the direction of the ceding insurer, may whenever necessary negotiate these assets without consent or signature from the assuming insurer or any other entity;~~

~~(D) Require that all settlements of account between the ceding insurer and the assuming insurer be made in cash or its equivalent; and~~

~~(E) Stipulate that the assuming insurer and the ceding insurer agree that the assets in the trust account, established pursuant to the provisions of the reinsurance agreement, may be withdrawn by the ceding insurer at any time, notwithstanding any other provisions in the reinsurance agreement, and shall be utilized and applied by the ceding insurer or its successors in interest by operation of law, including without limitation any liquidator, rehabilitator, receiver or conservator of such company, without diminution because of insolvency on the part of the ceding insurer or the assuming insurer, only for the following purposes:~~

~~(i) To pay or reimburse the ceding insurer for:~~

~~(I) The assuming insurer's share under specific reinsurance agreement of premiums returned, but not yet recovered from the assuming insurer, to the owners of policies reinsured under the reinsurance agreement because of cancellations of such policies;~~

~~(II) The assuming insurer's share of surrenders and benefits or losses paid by the ceding insurer pursuant to the provisions of the policies reinsured under the reinsurance agreement; and~~

~~(III) Any other amounts necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer.~~

~~(ii) To make payment to the assuming insurer of amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer.~~

(2) The reinsurance agreement may also contain provisions that:

~~(A) Give the assuming insurer the right to seek approval from the ceding insurer, which shall not be unreasonably or arbitrarily withheld, to withdraw from the trust account all or any part of the trust assets and transfer those assets to the assuming insurer, provided the ceding insurer shall not unreasonably or arbitrarily withhold its approval and:~~

~~(i) The assuming insurer shall, at the time of withdrawal, replace the withdrawn assets with other qualified assets having a market value equal to the market value of the assets withdrawn so as~~

to maintain at all times the deposit in the required amount, or

(ii) After withdrawal and transfer, the market value of the trust account is no less than 102 percent of the required amount.

(B) Provide for:

~~(i) The return of any amount withdrawn in excess of the actual amounts required for (d)(1)(E)(i), (ii) and (iii)(d)(1)(D) of this section, or in the case of (d)(1)(E)(iv) of this section, any amounts that are subsequently determined not to be due; and~~

(ii) Interest for interest payments, at a rate not in excess of the prime rate of interest, on the such amounts held pursuant to (d)(1)(E)(iii) of this section.

- (ii) Court of arbitration costs,
- (iii) Attorney's fees, and
- (iv) Any other reasonable expenses.

(3) **Financial reporting.** A trust agreement may be used to reduce any liability for reinsurance ceded to an unauthorized assuming insurer in financial statements required to be filed with this department in compliance with the provisions of this part when established on or before the date of filing of the financial statement of the ceding insurer. Further, the reduction for the existence of an acceptable trust account may be up to the current fair market value of acceptable assets available to be withdrawn from the trust account at that time, but such reduction shall be no greater than the specific obligations under the reinsurance agreement that the trust account was established to secure.

(4) **Existing agreements.** Notwithstanding the effective date of this part, any trust agreement or underlying reinsurance agreement in existence prior to the effective date of this rule will continue to be acceptable until at which time the agreements will have to fully comply with this part for the trust agreement to be acceptable.

(5) **Trust agreement beneficiary.** The failure of any trust agreement to specifically identify the beneficiary as defined in (a) of this section shall not be construed to affect any actions or rights which the Commissioner may take or possess pursuant to the provisions of the laws of this state.

The credit allowed shall be based upon the security held by or on behalf of the ceding insurer in accordance with a rating assigned to the certified reinsurer by the Commissioner. The security shall be in a form consistent with the provisions of Sections 5122(F) and 5123 of the Act and 365:25-7-68, 365:25-7-69 or 365:25-7-72. The one year deferral period is contingent upon the certified reinsurer continuing to pay claims in a timely manner. Reinsurance recoverables for only the following lines of business as reported on the NAIC annual financial statement related specifically to the catastrophic occurrence will be included in the deferral:
 - (A) Line 1: Fire

(A) The assuming insurer must be domiciled and licensed to transact insurance or reinsurance in a Qualified Jurisdiction, as determined by the Commissioner pursuant to (c) of this section.

(B) The assuming insurer must maintain capital and surplus, or its equivalent, of no less than \$250,000,000 calculated in accordance with (b)(4)(H) of this section. Factors that may be considered as part of the evaluation process include, but are not limited to, the following:

(A) The certified reinsurer's financial strength rating from an acceptable rating agency. The Commissioner shall use the lowest financial strength rating received from an approved rating agency in establishing the maximum rating of a certified reinsurer. A failure to obtain or maintain at least two financial strength ratings from acceptable rating agencies will result in loss of eligibility for certification. The maximum rating that a certified reinsurer may be assigned will correspond to its financial strength rating as follows:

- (F) Regulatory actions against the certified reinsurer;
- (G) The report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in (b)(4)(H) of this section;
- (H) For certified reinsurers not domiciled in the U.S., audited financial statements (audited U.S. GAAP basis if available; audited IFRS basis statements are allowed but must include an audited footnote reconciling equity and net income to a U.S. GAAP basis, or, with the permission of the Commissioner, audited IFRS statements with reconciliation to U.S. GAAP certified by an officer of the company), regulatory filings, and actuarial opinion (as filed with the non-U.S. jurisdiction supervisor). Upon the initial application for certification, the Commissioner shall consider audited financial statements for the last three (3) years filed with its non-U.S. jurisdiction supervisor;
- (I) The liquidation priority of obligations to a ceding insurer in the certified reinsurer's domiciliary jurisdiction in the context of an insolvency proceeding;
- (J) A certified reinsurer's participation in any solvent scheme of arrangement, or similar procedure, which involves U.S. ceding insurers. The Commissioner shall receive prior notice from a certified reinsurer that proposes participation by the certified reinsurer in a solvent scheme of arrangement; and
- (K) Any other information deemed relevant by the Commissioner.
- (5) Based on the analysis conducted under (b)(4)(E) of this section of a certified reinsurer's reputation for prompt payment of claims, the Commissioner may make appropriate adjustments in the security the certified reinsurer is required to post to protect its liabilities to U.S. ceding insurers, provided that the Commissioner shall, at a minimum, increase the security the certified reinsurer is required to post by one rating level under (b)(4)(A) of this section if the Commissioner finds that:
- (A) more than fifteen percent (15%) of the certified reinsurer's ceding insurance clients have overdue reinsurance recoverables on paid losses of ninety (90) days or more which are not in dispute and which exceed \$100,000 for each cedent; or
- (B) the aggregate amount of reinsurance recoverables on paid losses which are not in dispute that are overdue by ninety (90) days or more exceeds \$50,000,000.
- (6) The assuming insurer must submit a properly executed Form CR-1 (attached to this Chapter as Appendix CC) as evidence of its submission to the jurisdiction of this state, appointment of the Commissioner as an agent for service of process in this state, and agree to provide security for one hundred percent (100%) of the assuming insurer's liabilities attributable to reinsurance ceded by U.S. ceding insurers if it resists enforcement of a final U.S. judgment. The Commissioner shall not certify any assuming insurer that is domiciled in a jurisdiction that

the Commissioner has determined does not adequately and promptly enforce final U.S. judgments or arbitration awards.

(7) The certified reinsurer must agree to meet applicable information filing requirements as determined by the Commissioner, both with respect to an initial application for certification and on an ongoing basis. All information submitted by certified reinsurers which are not otherwise public information subject to disclosure shall be exempted from disclosure under the Oklahoma Open Records Act and shall be withheld from public disclosure. The applicable information filing requirements are as follows:

(A) Notification within ten (10) days of any regulatory actions taken against the certified reinsurer, any change in the provisions of its domiciliary license, or any change in rating by an approved rating agency, including a statement describing such changes and the reasons therefore;

(B) Annually, Form CR-F (attached to this Chapter as Appendix DD) or CR-S (attached to this Chapter as Appendix EE), as applicable;

(C) Annually, the report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in (b)(7)(D) of this section;

(D) Annually, audited financial statements (audited U.S. GAAP basis if available; audited IFRS basis statements are allowed but must include an audited footnote reconciling equity and net income to a U.S. GAAP basis, or, with the permission of the state insurance Commissioner, audited IFRS statements with reconciliation to U.S. GAAP certified by an officer of the company), regulatory filings, and actuarial opinion (as filed with the certified reinsurer's supervisor). Upon the initial certification, audited financial statements for the last three (3) years filed with the certified reinsurer's supervisor;

(E) At least annually, an updated list of all disputed and overdue reinsurance claims regarding reinsurance assumed from U.S. domestic ceding insurers;

(F) A certification from the certified reinsurer's domestic regulator that the certified reinsurer is in good standing and maintains capital in excess of the jurisdiction's highest regulatory action level; and

(G) Any other information that the Commissioner may reasonably require.

(8) If a certified reinsurer has a change in rating, the procedure shall be as follows:

(A) In the case of a downgrade by a rating agency or other disqualifying circumstance, the Commissioner shall upon written notice assign a new rating to the certified reinsurer in accordance with the requirements of (b)(4)(A) of this section.

(B) The Commissioner shall have the authority to suspend, revoke, or otherwise modify a certified reinsurer's certification at any time if the certified reinsurer fails to meet its obligations or security requirements under this section, or if other financial or operating results of the certified reinsurer, or documented significant delays in payment by the certified reinsurer, lead the Commissioner to reconsider the certified reinsurer's ability or willingness to meet its contractual obligations.

(C) If the rating of a certified reinsurer is upgraded by the Commissioner, the certified reinsurer may meet the security requirements applicable to its new rating on a prospective basis, but the Commissioner shall require the certified reinsurer to post security under the previously applicable security requirements as to all contracts in force on or before the effective date of the upgraded rating. If the rating of a certified reinsurer is downgraded by the Commissioner, the Commissioner shall require the certified reinsurer to meet the security requirements applicable to its new rating for all business it has assumed as a certified reinsurer.

(D) Upon revocation of the certification of a certified reinsurer by the Commissioner, the assuming insurer shall be required to post security in accordance with 365:25-7-67 in order for the ceding insurer to continue to take credit for reinsurance ceded to the assuming insurer. If funds continue to be held in trust in accordance with 365:25-7-65, the Commissioner may allow additional credit equal to the ceding insurer's *pro rata* share of such funds, discounted to reflect the risk of uncollectibility and anticipated expenses of trust administration. Notwithstanding the change of a certified reinsurer's rating or revocation of its certification, a domestic insurer that has ceded reinsurance to that certified reinsurer may not be denied credit for reinsurance for a period of three (3) months for all reinsurance ceded to that certified reinsurer, unless the reinsurance is found by the Commissioner to be at high risk of uncollectibility.

(c) The procedure for determining if a jurisdiction is a qualified jurisdiction shall be as follows:

(1) If, upon conducting an evaluation under this section with respect to the reinsurance supervisory system of any non-U.S. assuming insurer, the Commissioner determines that the jurisdiction qualifies to be recognized as a qualified jurisdiction, the Commissioner shall publish notice and evidence of such recognition in an appropriate manner. The Commissioner may establish a procedure to withdraw recognition of those jurisdictions that are no longer qualified.

(2) In order to determine whether the domiciliary jurisdiction of a non-U.S. assuming insurer is eligible to be recognized as a qualified jurisdiction, the Commissioner shall evaluate the reinsurance supervisory system of the non-U.S. jurisdiction, both initially and on an ongoing basis, and consider the rights, benefits and the extent of

Permanent Final Adoptions

reciprocal recognition afforded by the non-U.S. jurisdiction to reinsurers licensed and domiciled in the U.S. The Commissioner shall determine the appropriate approach for evaluating the qualifications of such jurisdictions, and create and publish a list of jurisdictions whose reinsurers may be approved by the Commissioner as eligible for certification. A qualified jurisdiction shall agree to share information and cooperate with the Commissioner with respect to all certified reinsurers domiciled within that jurisdiction. Additional factors to be considered in determining whether to recognize a qualified jurisdiction, in the discretion of the Commissioner, include but are not limited to the following:

(A) The framework under which the assuming insurer is regulated.

(B) The structure and authority of the domiciliary regulator with regard to solvency regulation requirements and financial surveillance.

(C) The substance of financial and operating standards for assuming insurers in the domiciliary jurisdiction.

(D) The form and substance of financial reports required to be filed or made publicly available by reinsurers in the domiciliary jurisdiction and the accounting principles used.

(E) The domiciliary regulator's willingness to cooperate with U.S. regulators in general and the Commissioner in particular.

(F) The history of performance by assuming insurers in the domiciliary jurisdiction.

(G) Any documented evidence of substantial problems with the enforcement of final U.S. judgments in the domiciliary jurisdiction. A jurisdiction will not be considered to be a qualified jurisdiction if the Commissioner has determined that it does not adequately and promptly enforce final U.S. judgments or arbitration awards.

(H) Any relevant international standards or guidance with respect to mutual recognition of reinsurance supervision adopted by the International Association of Insurance Supervisors or a successor organization.

(I) Any other matters deemed relevant by the Commissioner.

(3) The Commissioner shall consider the list of qualified jurisdictions published through the NAIC Committee Process in determining qualified jurisdictions. If the Commissioner approves a jurisdiction as qualified that does not appear on the list of qualified jurisdictions, the Commissioner shall provide thoroughly documented justification with respect to the criteria provided under (c)(2)(A) through (I) of this section.

(4) U.S. jurisdictions that meet the requirements for accreditation under the NAIC financial standards and accreditation program shall be recognized as qualified jurisdictions.

(d) The Commissioner may recognize a reinsurer's certification in another NAIC accredited jurisdiction according to the following:

(1) If an applicant for certification has been certified as a reinsurer in an NAIC accredited jurisdiction, the Commissioner has the discretion to defer to that jurisdiction's certification, and to defer to the rating assigned by that jurisdiction, if the assuming insurer submits a properly executed Form CR-1 and such additional information as the Commissioner requires. The assuming insurer shall be considered to be a certified reinsurer in this State.

(2) Any change in the certified reinsurer's status or rating in the other jurisdiction shall apply automatically in this State as of the date it takes effect in the other jurisdiction. The certified reinsurer shall notify the Commissioner of any change in its status or rating within 10 days after receiving notice of the change.

(3) The Commissioner may withdraw recognition of the other jurisdiction's rating at any time and assign a new rating in accordance with (b)(8) of this section.

(4) The Commissioner may withdraw recognition of the other jurisdiction's certification at any time, with written notice to the certified reinsurer. Unless the Commissioner suspends or revokes the certified reinsurer's certification in accordance with (b)(8) of this section, the certified reinsurer's certification shall remain in good standing in this State for a period of three (3) months, which shall be extended if additional time is necessary to consider the assuming insurer's application for certification in this State.

(e) In addition to the clauses required under 365:25-7-70, reinsurance contracts entered into or renewed under this section shall include a proper funding clause, which requires the certified reinsurer to provide and maintain security in an amount sufficient to avoid the imposition of any financial statement penalty on the ceding insurer under this section for reinsurance ceded to the certified reinsurer.

(f) The Commissioner shall comply with all reporting and notification requirements that may be established by the NAIC with respect to certified reinsurers and qualified jurisdictions.

PART 15. COMPANY SUPERVISION

365:25-7-80. Purpose

This Part is intended to specify the confidential status and handling of certain information contained in the files of the Insurance Commissioner ("Commissioner") pursuant to various provisions of the Oklahoma Insurance Code (36 O.S. §§ 101-7301).

365:25-7-81. Definitions

The following words and terms, when used in this Part, shall have the following meaning, unless the context clearly indicates otherwise:

"Confidential information" means all documents, materials, or other information in the possession or control of the Oklahoma Insurance Department ("Department") pursuant to

the Oklahoma Insurance Holding Company System Regulatory Act, 36 O.S. §§ 1657.1 et seq., and investigatory files, working papers, recorded information, documents, and copies thereof produced by, obtained by, or disclosed to the Commissioner or any other person in the course of an examination made under Sections 309.1 through 309.7 of Title 36 of the Oklahoma Statutes, or in the course of analysis by the Commissioner of the financial condition or market conduct of any person or company.

"Exchange" means sending or receiving information to or from any other Regulator charged with supervision of an insurer or its affiliates, including other state, federal, and international regulatory agencies.

"Supervisory" means those duties of the Commissioner involving the financial condition and solvency of any person or entity engaged, directly or through others, in the business of insurance.

365:25-7-82. Authorization

(a) The Commissioner is authorized to enter into agreements in accordance with Sections 1656.1 and 1657.1 of Title 36 of the Oklahoma Statutes, providing the basis for cooperation between the Commissioner and other regulatory agencies.

(b) Pursuant to various provisions of Title 36, the Commissioner has the legal authority and power to obtain, hold, and exchange certain confidential information in respect to individuals, legal entities, and groups, including the relevant non-regulated entities of such groups when:

(1) the Commissioner considers the information to be necessary for the supervision of insurance legal entities or groups, or when another Regulator considers the information to be necessary, and

(2) the Commissioner is reasonably requested to provide relevant information by another Regulator.

(c) Information necessary for the supervision of insurance legal entities or groups may include, but is not limited to:

(1) Information on the management and operational systems and controls operated by insurers;

(2) Financial data relating to an insurer and its affiliates;

(3) Information concerning individuals holding positions of responsibility in insurers (to include owners, shareholders, directors, managers, employees, or contractors);

(4) Information concerning individuals or insurers involved, or suspected of being involved, in criminal activities;

(5) Information arising from or developed as part of regulatory investigations and reviews, and on any restrictions imposed on the business activities of insurers;

(6) Information requested and gathered from a supervised entity (including appropriate customer transactional information);

(7) Information reported within supervisory groups to meet group supervisory requirements;

(8) Information on a supervised entity and affiliates including, but not limited to, branches, subsidiaries, and non-regulated holding companies; and

(9) Information on prospective and actual insurer transactions and prospective and actual transactions of policyholders.

365:25-7-83. Professional confidentiality

(a) The Commissioner, including the staff of the Department and any individual acting on its behalf (presently or in the past), are required, as a condition of employment or contract, respectively, to protect confidential information in the possession of the Commissioner or the Department, including confidential information received from other Regulators. Wrongful disclosure of confidential information is grounds for termination of employment or termination of contract, as applicable. In addition, any person failing to maintain confidentiality shall be guilty of a misdemeanor pursuant to 36 O.S. § 117.

(b) The Commissioner shall deny any request for confidential information, other than when required by law, or when requested by another Regulator who has a legitimate supervisory interest and the ability to uphold the confidentiality of the requested information.

(c) The exchange of confidential information shall serve no other purposes than those directly related to the fulfillment of a supervisory function.

(d) The Commissioner has a legitimate interest and a valid purpose related to the fulfillment of supervisory functions in seeking information from another Regulator.

(e) Valid purposes may include, but are not limited to:

(1) Licensing;

(2) Competence, experience, and integrity criteria;

(3) Ongoing supervision, including enforcement action and sanctions;

(4) Supervisory practices;

(5) Winding-up, liquidation, or bankruptcy;

(6) Anti-money laundering or combating the financing of terrorism ("AML/CFT").

(f) All Department personnel and contractors, gaining access to confidential information in the course of their duties, are bound by an obligation of professional confidentiality.

(g) The "obligation of professional confidentiality" means that, as a basic rule, confidential information received by the Department shall not be divulged to any person or authority whatsoever, except as provided by law.

(h) The professional confidentiality requirements apply to any person currently or previously employed by or acting on behalf of the Commissioner or the Department.

(i) Confidential information originating from another Regulator must remain subject to equivalent confidentiality protections provided by this Part. Before passing on confidential information to another Regulator, the Commissioner must ascertain that the person receiving the information is bound by professional confidentiality rules or laws substantially similar and equivalent to subsection "A" of Section 1657.1 of Title 36 of the Oklahoma Statutes and who have agreed in writing not to disclose such information.

Permanent Final Adoptions

365:25-7-84. Passing on of confidential information

(a) Any passing on of confidential information, including information that shall be forwarded by way of official reporting, necessitates prior explicit agreement of the Regulator from whom the information originates and must be subject to agreement, in particular regarding the purpose for which the information shall be used.

(b) Requests from other Regulators for passing on of confidential information shall be decided on a case-by-case basis by the Commissioner.

(c) Without prejudice to the foregoing, the Commissioner may pass on information where it will assist:

(1) Other Regulators in the fulfillment of their supervisory functions; and

(2) Governmental agencies, competent in the financial services field (including central banks), law enforcement agencies, and relevant courts in the performance of their duties.

365:25-7-85. Agreements for information exchange

(a) Agreements may be used to establish a framework between Regulators to facilitate the efficient execution of requests for or provision of information.

(b) Compliance with the strict confidentiality regime, set forth in Section 1657.1 of Title 36 of the Oklahoma Statutes and this Part, is a key prerequisite for the exchange of confidential information. Every agreement to exchange such information shall include a written confirmation statement in substantially the same terms as that found in the Written Confirmation Statement in Appendix BB of this Chapter, and the agreement shall be signed by an appropriate managerial representative of the Regulator.

365:25-7-86. Supervisory Colleges

(a) Information exchange is particularly important for the operation of a Supervisory College as provided by 36 O.S. § 1656.1. The effectiveness of a Supervisory College depends upon the mutual trust and confidence between participating Regulators, particularly in relation to exchange and protection of confidential information.

(b) In connection with the exchange of confidential information between the Commissioner and a Supervisory College, appropriate information exchange agreements must be in place prior to exchange of such information.

(c) Where confidential information exchanged within a Supervisory College is also communicated to other Regulators, there shall be a formal mechanism in place with these Regulators to ensure the protection of the confidential information.

(d) The Commissioner shall inform any other Regulator in its jurisdiction and the Regulators of insurance group entities in other jurisdictions in advance of taking any action that might reasonably be considered to affect those group entities. Where prior notification is not possible, the Commissioner shall inform other relevant Regulators as soon as possible after taking action.

(e) The Commissioner shall proactively exchange material and relevant information with other Regulators. Relevant

proactively provided information includes but is not limited to:

(1) Any information the Commissioner considers will facilitate the effective supervision of groups or entities in the group;

(2) Any event or series of events that may have a significant bearing on the operations of group entities operating in the jurisdictions of other Regulators;

(3) Information that may affect the financial system of another jurisdiction;

(4) Information that may affect the financial condition or other interests of the policyholders of a group entity in another jurisdiction; and

(5) Prior notification to another Regulator of any action to be undertaken which relies on information received from that Regulator, subject to requirements applicable to criminal statutes and other similar laws.

(f) In deciding whether and to what extent to fulfill a request by another Regulator for information, the Commissioner may take into account matters such as, but not limited to:

(1) Whether it would be contrary to the essential interest of Oklahoma;

(2) The existence of a requisite written agreement between the Commissioner and the requesting Regulator to maintain the confidentiality of any information exchanged;

(3) The nature of the information to be exchanged;

(4) The use to which the information will be put.

(g) Requests for information shall be made in writing.

(h) When exchanging relevant information and in responding to requests from Regulators seeking information, the Commissioner shall respond in a timely and comprehensive manner. Strict reciprocity in terms of the level, format and detailed characteristics of information exchanged shall not be required by the Commissioner. The originating Regulator may attach conditions to the subsequent exchange of the information to other Regulators. Conditions imposed by the originating Regulator on the exchange of information should not prevent the receiving Regulator from being able to use the information for its own purposes

(i) Before exchanging confidential information, the Commissioner shall ensure that the party receiving the information is bound by confidentiality requirements.

(j) The Commissioner shall generally permit the information that he or she exchanges with another Regulator to be passed on to other relevant Regulators, provided the necessary confidentiality requirements are in place.

(k) When the Commissioner receives confidential information from another Regulator, the information shall only be used for the purposes specified when the information was requested. Before using such information for another purpose, including exchanging it with other parties, the Commissioner shall obtain the agreement of the originating Regulator.

(l) In the event that the Commissioner is legally compelled to disclose confidential information received from another Regulator, the Commissioner shall promptly notify the originating Regulator, indicating what information he or she is being compelled to release and the circumstances surrounding

the release. Where consent to passing this information on is not given, the Commissioner shall use all reasonable means

to resist the demand and to protect the confidentiality of the information.

APPENDIX BB. WRITTEN CONFIRMATION STATEMENT [NEW]

I confirm, on behalf of _____ [organization] _____, that:

- information to be disclosed to us will be subject to confidentiality provisions equivalent to the professional confidentiality mandate set forth in Part 15 of Subchapter 7 of Chapter 25 of Title 365 of the Oklahoma Administrative Code; and

I also confirm, on behalf of my organization, that in relation to information disclosed by another Regulator:

- we will obtain the prior consent of the Regulator from whom the information originated before voluntarily passing on such information to another Regulator; and
- we will, as far as practicable, promptly notify the originating Regulator of any passing on of information or disclosure prescribed by law, and use our best efforts to resist such demand in practice if so requested by that originating Regulator.

Asbestos abatement disposal procedures are as follows:

(1) As the work progresses, to prevent exceeding available storage capacity on site, sealed and labeled containers of asbestos waste shall be removed and transported to the disposal location.

(2) Disposal must occur at an authorized site in accordance with regulatory requirements of EPA and applicable state and local guidelines and regulations.

(3) Transportation to the landfill.

(A) Once drums, bags, and wrapped components have been removed from the work area, they shall be loaded into a vehicle for transportation.

(B) Asbestos shall be transported only in enclosed trucks or trailers, except when components containing asbestos to be hauled to a disposal or re-use site are of such a size and/or shape that transport in an enclosed truck or trailer is not feasible.

(C) The cargo area of the truck shall be free of debris and lined with 6-mil poly to prevent contamination from leaking or spilled containers. Floor sheeting shall be installed first and extend up the side walls. Wall sheeting shall be overlapped and taped into place.

(D) Drums shall be placed on level surfaces in the cargo area and packed tightly together to prevent shifting and tipping. Large structural components shall be secured to prevent shifting and bags placed on top. Do not throw containers into truck cargo area.

(E) Personnel loading asbestos-containing waste, not in secured containers, shall be protected by disposable clothing including head, body and foot protection and at a minimum, half face-piece, air-purifying, dual-cartridge respirators equipped with high-efficiency filters. Plastic bags and paper drums shall not be considered secured containers.

(J) Anytime asbestos-containing materials are being transported on public roadways in quantities greater than three disposal bags, one disposal barrel, or any amount as wrapped bulk material, the vehicle or trailer shall display U.S. Department of Transportation CLASS 9 placards on each side and each end. No such placard shall be displayed by any vehicle or trailer which does not contain asbestos materials.

(K) Components exposed to the elements must be wrapped with at least two layers of reinforced 6-mil poly secured with tape.

(L) Elongate wrapped components shall be wrapped with a spiral winding of duct tape or other securing medium.

(M) Bulk wrapped components shall be sufficiently wrapped with duct tape or other securing medium as to prevent dislodging of the wrapping.

GIST/ANALYSIS:
The rules establish a schedule of administrative fees for the registration and inspection of amusement rides. The rules eliminate the "Kiddie Ride" classification and establish six categories of amusement rides. The rules establish a maximum administrative fine that may be assessed. The rules modify the experience requirements for Insurance Inspectors to include NAARSO level I certification. The rules modify the waiver inspection program procedures so that initial inspections are conducted by a Department of Labor inspector, with temporary amusement devices then being inspected by the Department of Labor at one mid-season inspection and one annual safety compliance audit. The rules remove the existing waiver self-inspection frequency provisions. The circumstances which created the need for the rules are that SB1199 changed the classifications for amusement rides contained in 40 O.S. § 463.

Daniel A. Mares, Assistant General Counsel, (405) 521-6186 or daniel.mares@labor.ok.gov or James Buck, Deputy Commissioner of Labor, (405) 521-6111 or james.buck@labor.ok.gov.

Amendments to 390:10-1-5 are necessary to remove Director's authority to allow additional challenges of the certification examination for students who are returning to Oklahoma law enforcement after a break of service in Oklahoma of more than five years. New rule 390:10-1-8 requires peace officers to notify CLEET when they are arrested, charges are filed, or protective orders are filed naming them as the defendant/respondent.

GIST/ANALYSIS:

The proposed amendments to 420:10-1-5 deletes the authority that a Class III permit holder can operate a DOT cylinder filling station. This particular authority is covered under the Class VI permit. A separate endorsement is proposed that will allow a Class III permit holder with the III-A endorsement to invoice the end-user for bulk deliveries when the LP Gas is delivered by a Class I permit holder. Traditionally, only a Class I permit holder is authorized to invoice the end-user for bulk deliveries. However, this type of third party billing between a Class III permit holder and the end-user has become more prevalent in the industry. The amendment also ensures that a Class I permit holder is delivering the gas and safety is not compromised. The annual fee for III-A endorsement has been set at \$300.00.

The Class VI permit is being amended to update antiquated language relative to a charging station which is now more commonly referred to as a dispensing station. The Class VI permit is being amended to require a permit for each DOT cylinder dispensing station and/or motor fuel station. Language requiring the permit holder to pass a written examination has been deleted. An amendment is being proposed to require a Class VI permit holder to secure a Class VI-A permit for a person actively in charge of an LP Gas dispensing operation. The annual fee for the Class VI permit is increasing from \$100.00 to \$150.00.

The Class VI-A permit is being amended to reflect the changes made to the Class VI permit. As proposed the amendment would require that a Class VI-A LP Gas Dispensing permit be required for a person actively in charge of LP Gas dispensing operations for the holder of a Class VI permit. All Class VI-A permit holders must be an employee of said Class VI permit holder. The annual fee for the Class VI-A permit is increasing from \$25.00 to \$35.00.

The proposed amendments to 420:10-1-8 would delete the requirement that a Class VI permit applicant must pass a written examination. Based on the proposed amendments the Class VI-A employee will be the person actively in charge of the dispensing operations for the Class VI permit holder and the Class VI-A permit applicant is required to pass a written examination.

The proposed amendments to 420:10-1-13 would redefine how a Class X manager is considered to be actively supervising the LP Gas related sales and/or service being offered to the public at each separate branch or base of operation of a Class I permit holder which is operated as a relatively independent operation free from the day to day immediate supervision and control of the holder of the Class I permit, or the manager of a non-personal Class I permit holder. The proposed new language will clarify what is considered to be actively supervising and only allows a Class X manager to supervise a maximum of two separate branches or bases of operation. The language being stricken was subject to interpretation and difficult to enforce.

An amendment is also being proposed for an additional exemption as it relates to the requirement that each bulk retail delivery shall be measured by a suitable LP Gas liquid meter system. The additional exemption is specifically stated as a delivery of a full transport load from the terminal to the end-user with a bill of lading.

An amendment is being proposed to delete the requirement that any person installing an underground container must notify the Administrator prior to installation. Underground container installation is currently covered by NFPA 58.

An amendment is being proposed to add language to the minimum storage requirements. The proposed language further defines what constitutes the minimum storage being considered properly maintained.

Questions shall be from NFPA pamphlets 58 and 54 and rules and regulations promulgated by the Board. All exams shall be coded in such a manner that identity of the applicant shall be unknown to the grading authority.

(2) **Qualified Managers examination.** Questions for a Class X Qualified Managers Examination shall be selected at random from a reservoir of questions consisting of no less than 500 questions but no more than 1000 questions. Questions shall be of four-part, multiple choice. Prior to being placed in the reservoir the questions shall be reviewed by the Board. For each examination a total of 100 questions shall be drawn from the reservoir. All applicants sitting at one time shall receive identical examinations. Questions shall be from NFPA pamphlets 58 and 54 and rules and regulations promulgated by the Board.

All exams shall be coded in such a manner that identity of the applicant shall be unknown to the grading authority.

(3) **Class IV and IV-D examinations.** Class, IV and IV-D examinations consist of standardized examinations. Class IV examinations will consist of 50 questions and Class IV-D exam will consist of 75 questions, each to be prepared by the Administrator.

420:10-1-13. Responsible employees and managers who shall be required to have technical qualifications and manager's permits

(a) **Class X requirements.** A qualified manager possessing a Class X permit shall be required to actively supervise the LP Gas related sales and/or service being offered to the public at each separate branch or base of operation of a Class I permit holder which is operated as a relatively independent operation free from the day to day immediate supervision and control of the holder of the Class I permit, or the manager of a non-personal Class I permit holder. ~~A Class X manager shall be considered to be actively supervising if such a manager is present at the separate branch or base of operation at least fifty percent (50%) of the reasonably normal hours of operation of such separate branch or base of operation.~~ A Class X manager shall be considered to be actively supervising if such a manager is employed by the Class I permit holder to be the responsible party for the day to day immediate supervision of no more than two (2) separate branches or bases of operation, including training and oversight of employees, and is readily available to address daily operational needs and unforeseen events and emergencies. If the Administrator approves a request to operate LP gas related sales and/or services offered to the public without the active supervision of a Class X manager, then such request shall be subject to future review by the Administrator in his or her sole discretion. In determining whether such a separate branch or base of operation exists, the Administrator shall consider the following:

(1) The distance of the LP Gas related sales and/or service being provided from the location of the main or central base of operation. In any case where a truck is stationed twenty-five (25) miles or more away from the direct supervision of a Class X managed operation, then the burden of proof is on the Class I permit holder to prove that it is not a separate branch or base of operation and meets all the requirements of the Oklahoma Rules and Regulations.

(2) The type and kind of LP Gas related sales and/or service offered to the public. Sales and/or service to residential customers and public buildings is considered to require more supervision than sales and/or service to industrial, agricultural and motor fuel customers;

(3) Any and all other pertinent information which indicates that a separate branch or base of operation exists.

(b) **Exception hearing.** After a determination has been made by the Board, the Class I permit holder shall be notified of the Board's determination in writing. The Class I permit holder shall then have ten (10) days thereafter to request in writing a hearing before the Board for the purpose of presenting any facts and circumstances which would indicate that a Class X permit holder is not required where the separate LP Gas related sales and/or service is offered. Failure to request such a hearing from the Board by the Class I permit holder shall constitute acquiescence in the Board's determination. If the Board determines that a Class X is needed at the separate branch or base of operation then the Class I permit holder has 120 days or until the next Board meeting to secure a Class X permit holder.

(c) **Class X cancellations.** Class X permits are immediately and without notice canceled when a holder thereof leaves the employment of a Class I permit holder. The Class X permit holder must notify the Board within ninety (90) days of their intent to place the Class X permit on inactive status. The inactive Class X permit holder must attend the required safety seminar and pay the annual permit renewal. Thereafter, the inactive Class X holder can make application to the Board for issuance of an active Class X permit, upon proof of full-time employment by a Class I permit holder and with Board approval.

420:10-1-14. Standards for the storage and handling of liquefied petroleum gas

(a) **NFPA standards.** The standards for the storage and handling of liquefied petroleum gases adopted by the National Fire Protection Association and published in its pamphlets No. 58, and the standards for the installation of gas appliances and gas piping adopted by said National Fire Protection Association published in its pamphlet No. 54 have been adopted by the Legislature in 52 O.S. 1991, Section 402.3 (e) and shall be accepted standards for the State of Oklahoma. All Class I permit holders must have a current copy of NFPA 58 and 54 on file at each separate branch.

(D) An "important building" shall be any building, open to the public, or inhabited by people, in which any LP Gas system or any type is installed.

(2) **Submittal of plans.**

(B) Plans must be submitted and approved on any dispenser used to fill DOT cylinders and/or ASME containers, and used for public resale of LP Gas, including unattended self-service LP Gas motor fuel dispenser stations. These plans must be submitted by a Class I permit holder to the Administration office along with the proper fee, and an onsite inspection must be performed by a Safety Code Enforcement Officer prior to final approval and before the dispenser can be placed into service. A One Hundred Dollar (\$100.00) plan review fee must accompany all dispenser plans submitted. If a dispenser is taken out of service, written notice must be given to the Administration office within seven (7) working days. If a dispenser is moved to a new location, new plans must be submitted to the Administrator and onsite inspection performed by a Safety Code Enforcement Officer prior to final approval and dispenser being placed into service. A complete list of dispensers by location shall be submitted to the LP Gas Administration as indicated on Class I permit renewal forms.

(C) Plans must be submitted to, and approved, by the Administrator on any fixed installation with individual water capacity of 2,000 gallons or more, or aggregate water capacity exceeding 4,000 gallons.

(3) **Report of accident.** In case of accident or fire at any location where a liquefied petroleum gas system or equipment is involved, or any accident involving liquefied

Permanent Final Adoptions

petroleum gas systems or equipment, the dealer owning, operating or servicing the equipment or installation shall notify the State Liquefied Petroleum Gas Administrator. This notification shall be forwarded as soon as feasibly possible after the dealer has knowledge of the accident in order that an inspection may be made by the State Liquefied Petroleum Gas Administrator before the site has been disturbed.

(4) **Piping - including pipe, tubing and fittings.**

(A) No person, firm, or corporation shall connect a liquefied petroleum gas tank to any piping without having first determined that such piping complies with the laws of the State of Oklahoma and the rules and regulations of the State Liquefied Petroleum Gas Administrator relative to liquefied petroleum gas piping.

(B) All installations, installed after July 1, 2002, of storage containers, with more than 4,000 gallon water capacity, shall have internal valves installed as per NFPA 58.

(C) On installations of stationary or portable storage, with an aggregate of more than 4,000 gallon water capacity, a bulkhead approved by the LP Gas Administrator shall be required on each liquid line of one and one-half (1-1/2) inch or larger and each vapor line of one and one-quarter (1-1/4) inch or larger.

(5) **Vaporizers and housings.**

(A) The minimum capacity of the storage container feeding the vaporizer shall not be less than ten (10) times the hourly capacity of the vaporizer in gallons.

(B) The minimum capacity of a storage container being heated by a direct fired tank heater shall not be less than ten (10) times the hourly vaporizing capacity of the tank heater in gallons.

(6) **Container charging.** DOT cylinders with water capacity less than 300 pounds shall be charged by weight, except containers as per NFPA 58.

(7) **Liquid metering systems.** Each bulk retail delivery of liquid LP Gas shall be measured by a suitable LP Gas liquid meter system, except those deliveries of liquid LP Gas in cylinders which are filled by weight, and deliveries of LP Gas vapor through vapor meters otherwise and a delivery of a full transport load from the terminal to the end-user with a bill of lading, are exempt from the requirements of this paragraph.

(A) LP Gas Liquid meters shall indicate deliveries in terms of gallons and to the nearest tenth of a gallon.

(B) The LP Gas liquid meter shall meet, in addition to the other requirements of this paragraph, the following requirements:

(i) The system shall include a device (such as a differential back-pressure regulator) so designed and installed that the product being measured will remain in a liquid state during passage through the meter.

(ii) No means shall be provided by which any measured liquid can be diverted from the measuring chamber, differential valve equipment or the discharge line therefrom.

(iii) Effective January 1, 1994, in accordance with the National Institute of Standards and Technology (NIST) Handbook 44, all LP Gas Liquid meters used for bulk delivery shall be designed with the necessary equipment for mechanically printing gallons on a delivery ticket and the customer served thereby shall be given a ticket mechanically imprinted by the printing device. The customer's name and Class I Dealer's name must be included on the metered ticket. Meters used for stationary dispensing of motor fuel will not be required to be equipped with such printing device.

(iv) All bulk metered sales of propane, via bobtail or transport, shall be made by temperature compensated measure. Except, any truck now operating without a temperature compensation meter shall be retrofitted by no later than July 1, 2003.

(C) All meters where product is sold to the public must be proved annually by an approved meter tester/inspector and have written certification on file at permit holders place of business. All meters and temperature compensators must be accurate within the manufacturers tolerance not to exceed + or -1% at any time. The LP Gas liquid meter system shall be designed and constructed to provide for applying lead-and-wire seals in such a manner that no modifications or adjustments which would affect the accuracy of deliveries, can be made without mutilating the seal or seals. If a seal is broken, notification must be made to the Administrator and resealed by a Safety Code Enforcement Officer, an approved meter tester, or a person approved by the Administrator. In addition, the Administrator at his discretion may require proving of metering system to determine the accuracy.

(D) No dealer or firm controlled or affiliated with a dealer may calibrate or certify its own meters. All meters must be tested with a volumetric meter prover.

(8) **Qualified personnel.** Each holder of an LP Gas permit shall be responsible for having qualified personnel operating and installing LP Gas equipment.

(9) **Filling unsafe or unapproved dispensing or storage tanks prohibited.** No person, firm, or corporation shall introduce liquefied petroleum gas into a dispensing or storage tank in the State with knowledge that such dispensing or storage tank or piping is known to be in an unsafe operating condition.

(10) **Basement installations.** No appliance shall be installed in any basement or semi-basement unless it is fully automatically controlled and properly vented and must have the approval of the State Liquefied Petroleum Gas Administrator.

(11) **Standards for containers.**

(A) In accordance with 52 O.S. Sec. 420.5, all first sales, rentals, purchases or uses of DOT cylinders and ASME tanks in this State, must have Oklahoma Identification tags attached to such cylinders or tanks. However, all DOT cylinders and ASME tanks in Oklahoma, with a manufacturers date prior to September 1, 1993, are not required to have Oklahoma Identification tags. These Oklahoma Identification tags are not transferable from one cylinder or tank to another.

(B) Any new container sold or installed in Oklahoma for use in this State shall carry a five year warranty covering workmanship and material. This warranty shall provide that any container not in compliance with this regulation must be repaired or replaced by the fabricator at no expense to the dealer or customer. This provision is to take care of "pin-hole" leaks in the weld that were not detected at the time of fabrication and does not apply to fittings.

(C) Containers shall be filled or used only upon authorization of the fee simple owner. The name of the fee simple owner, if other than the consumer, shall be conspicuously shown on the container.

(D) Any stationary storage container converted from anhydrous ammonia to propane shall be converted as follows:

(i) The container shall be purged of anhydrous ammonia by water flooding, steam or other methods described by the National Propane Gas Association's (NPGA) Recommendation for Prevention of Ammonia Contamination; and

(ii) It shall then be properly purged with propane vapor and tested with the red litmus paper as described in NFPA 58 or by any other test approved by the Board; and

(iii) The test shall be completed by the permit holder that performs the conversion; and

(iv) The results shall be documented and shall contain the container manufacturer, water capacity, serial number, the results of the test, the capacity of the relief valve, the date of the test, and the signature of the permit holder conducting the test. A copy of the results shall be provided to the owner of the container; and

(v) Any dealer filling a converted anhydrous ammonia container for the first time shall either be provided a copy of the test or complete the test as described above; and

(vi) The container shall meet all requirements of NFPA 58.

(12) **Underground containers.**

(A) Underground containers before being reinstalled must be inspected by the State Liquefied Petroleum Gas Administrator, and a fee of \$25.00 paid to the State Liquefied Petroleum Gas Administrator's office, and reinstalled by a licensed LP Gas installer.

(B) Underground containers shall be dug up at the expense of the owner at any time at the discretion of the State Liquefied Petroleum Gas Administrator.

Equipment being leased with the intent to own at the end of the lease terms with the cost or value of \$25,000 or more and useful life of at least five years will also be considered capital in nature.~~

"Capital project" is defined as a planned expense for a facility or physical item requiring a minimum expenditure of \$25,000, having a useful lifespan of five years or more, and meeting one of the following definitions:

- (A) Involves the acquisition or construction of any physical facility;

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Administrator-In-Training" or "AIT" means: an individual serving a Board-approved internship within the facility type for which he is seeking licensure/certification under the supervision of a preceptor 'certified' by the Board. Individuals serving an AIT internship may also be referred to herein as 'intern/trainee'.

"Administrator" means any individual duly licensed or certified by the Board regardless of the role or function he performs.

"Adult Day Care (ADC) Administrator" means a long term care administrator (or director) duly licensed by the Board to serve in this capacity in an Adult Day Care Center. The scope of practice of an individual licensed as an Adult Day Care Administrator is limited to a licensed Adult Day Care Center.

"Adult Day Care (ADC) Center" shall have the same meaning as such term is defined in the Adult Day Care Act, Title 63 O.S. Section 1-870 et seq.

"Adverse action" means revocation or suspension of a license, reprimand, censure or probation; any other loss of or restriction placed upon the license, including, but not limited to, the right to apply for, or renew a license; voluntary surrender in lieu of discipline, non-renewal (excluding nonrenewal due to non-payment of fees, or retirement); administrative fines and any other negative action or finding by the Board.

"Assistant Administrator" as used herein means an individual who has been 'certified' by the Board as having met the minimum qualifications established by the Board to be able to

"Certification" contextually, prior to the effective date of these rules, means the authorization granting a person the privilege of serving as a long term care administrator and continues until licensed in accordance with these rules or until October 1, 2012, whichever occurs first. The exception is the certified assistant administrator (CAA) which this Board continues to certify. Certification after the effective date of these rules pertains to the completion of training at an approved institution of higher learning or other body conducting such training (except Administrator University for Nursing Home Administrators and Board conducted training for Adult Day Care administrators). The institution or body certifies that the individual has been properly and completely trained and is prepared, as a prerequisite, for the state standards exam and/or NAB RC/AL exam. Certification of training is a step in the licensure process for RC and RC/AL licensure.

"Continuum of Care Facility" shall have the same meaning as such term is defined in the Continuum of Care and Assisted Living Act, Title 63 O.S. Section 1-890.1 et seq.

Any subsequent offenses shall be referred to the Board for determination of an appropriate penalty which may include suspension or revocation. The Administrator shall be informed in writing prior to the drafting of an order that they may also request a formal hearing before the Board in lieu of the "standard" penalty for either the first or second time offense, in which case a formal complaint shall be drafted and the Board shall have a full range of penalty options available to them, to include suspension and revocation. These automatic penalties for the first and second offense do not require Board approval; however, any variation from this "standard" will require Board approval. A formal complaint and appropriate order will still be drafted by the Board's attorney and the action taken shall be reported to the Board.

490:15-1-3. Minimum qualifications for an individual applicant to meet certification requirements for ~~an Assistant Administrator~~ a Certified Assistant Administrator (CAA)

(a) In addition to the general requirements for administrators found at OAC 490:10-1-2.1, each applicant seeking certification as having met the minimum qualifications to be able to serve as ~~an Assistant Administrator~~ a CAA shall meet the requirements in this Section.

(b) In order to qualify to receive a ~~letter~~ certification from the Board ~~wherein the Board would 'certify'~~ that the individual met the minimum qualifications to be able to serve as a CAA ~~an Assistant Administrator~~, each applicant must provide evidence satisfactory to the Board of the following:

These facilities shall be owned/managed by the same owner/corporation.

(c) An individual serving as ~~an Assistant Administrator~~ a CAA shall be employed by the facility full-time in that capacity, regularly-scheduled for 40 hours per calendar week; shall not concurrently serve as the ~~Assistant Administrator~~ CAA of more than one (1) nursing facility; and shall spend at least eighty (80%) percent of his working time on-site at the

The Board will maintain a listing of individuals it has 'certified' as having met the minimum qualifications. Such listing shall include the individual's name, mailing address and the date the Board issued the letter of 'certification'. Certified applicants will receive a certificate documenting the Board's decision at the Board meeting if they are present or it will be mailed within 7 business days.

(d) As of the date the Board 'certifies' that an individual applicant meets the minimum requirements for that individual to serve in the capacity of an Assistant Administrator, the individual may serve in such an unlicensed capacity. However, it shall be the obligation of the Administrator-of-Record to subsequently verify that the individual serving as an Assistant Administrator continues to meet the minimum qualifications for continued certification (i.e. criminal background check and current employment in the industry as a supervisor). GIST/ANALYSIS:

The adopted revisions to Chapter 10 of Title 505 modernize and update the Board's rules, particularly to reflect the creation of the position of Executive Director to take over many of the functions of the Secretary Treasurer. The revisions also formalize what had become the settled practice of the Board, such as quarterly meetings, and the dates of examination of candidates for licensure. The revisions also clarify and update certain administrative practices of the Board, as well as updating somewhat the equipment each optometrist must have in his or her office. The revisions update the list of providers of continuing education for optometrists. The revisions also increase the fees for taking or retaking the licensure examination. Finally, the revisions conform the rules more closely to the Administrative Procedures Act and the Open Records Act.

The revision in 535:15-3-2 adds a minimum number of hours a pharmacist in charge (PIC) must be physically present in the pharmacy. The revisions in 535:15-3-17 and 535:15-5-2 correct definition cites. The revision in 535:15-6-8 removes the word 'practitioner' that was missed when the language of the rule was updated from practitioner to prescriber. The revisions in 535:15-3-2 and 535:15-15-1 also remove "pharmacy manager" and replace it with "PIC" to keep the rules consistent.

The revision in 535:15-10-11 adds that pharmacy generated products (PGPs) must be labeled in compliance with federal FDA OTC labeling law, rules, and guidance documents as required by federal law. Section 535:15-10-12 is revoked because federal law prohibits pharmacy generated products (PGPs) for a prescribers office use.

The revision in 535:15-10-13 for compounding veterinarian preparations removes the second sentence of (a) and removes subsections (b), (c), (e) and (f). It adds a new (b) explaining that compounded preparations must comply with federal law, rules and guidance, it changes (d) to (c) and changes (g) to (d).

The following revisions improve the clarity of the rules. The revision in 535:15-13-6 (b) (8) remove an unnecessary "and" as the "and" for the list is now in (9). The revision in 535:15-15-1 adds the definition language to this definition section and correct administer drugs" definition cite. The revision in 535:15-17-5(g) insert a period after the word "below" ahead of the last sentence. The revision in 535:15-17-5 (i) (1) (m) removes "beyond-use-date" ahead of "BUD" and remove the parenthesis around BUD for consistency.

If any change is to be made in the date, time, or place of regularly scheduled meetings, then notice in writing shall be given to the Secretary of State not less than 10 days prior to the implementation of such change. At least 24 hours prior to regularly scheduled meetings, excluding Saturdays, Sundays, and holidays legally declared by the State of Oklahoma, public notice will be given setting forth thereon the date, time, place, and agenda for said meeting. Such notice shall not preclude the consideration of new business providing such was not known about or could not have been reasonably foreseen prior to the time of posting. (2) **Special meetings.** Special meetings shall not be held without public notice, indicating the date, time, and place, being given to the Secretary of State at least 48 hours prior to said meeting. In addition, at least 24 hours prior to such a meeting, public notice giving the time, place, and agenda shall be posted in prominent public view in the building containing the office of the Board. In exceptional circumstances, emergency meetings without public notice may be called.

(d) **Board monies.** The monies received by the Board shall be kept in the Psychologists Licensing Fund, No. 200. Expenditures from said fund shall be subject to the approval of the Board.

(e) **Reimbursement for travel expenses.** Each Board member, staff member, or other persons who are performing substantial and necessary services for the Board may be reimbursed for expenses incurred under authorized official travel [Pursuant to 74 O.S., Section 500.2 et seq].

(f) **Formal and informal procedures.** The Board shall have both formal and informal procedures for use, as appropriate, in conducting the business of the Board. Such procedures may involve, but are not limited to, hearings for individuals, questions of legal policy, inquiries concerning Board policies or decisions, or other Board business.

(g) **Forms.** The Board shall have such forms as are required for the conduct of Board business. Such forms shall include, but are not limited to, application for licensure, application for private practice under supervision, and applications for a psychologist to hire a psychological technician in his/her private practice.

(h) **Petitions regarding rules; declaratory rulings.** Any interested person may petition the Board requesting the

promulgation, amendment, or repeal of a rule. Petitions requesting declaratory rulings as to the applicability of any rule or order of the Board may also be submitted. The Board shall make prompt disposition of all such petitions.

(i) **Distribution of rules and regulations; annual directory.** The Board shall ~~distribute, maintain, and publish~~ all regulations and procedures established by the Board ~~to each licensed psychologist and psychologist practicing under supervision on the website for the Oklahoma State Board of Examiners of Psychologists. Such distribution shall occur not less than annually, and may be accomplished by inclusion of said rules in the Annual Directory.~~ The ~~Annual Directory website~~ shall contain, in addition to those items required by law [59 O.S., Section 1369], a verbatim copy of the licensing law as well as all rules and regulations duly established by the Board.

(j) **Board secretary.** The secretary of the Board, as described in 59 O.S., Sections 1358 and 1360, shall be employed by the Board.

(k) **Psychological consultant.** A qualified individual may be employed by the Board to perform certain activities to further the purposes of the Board. Such activities may include, but are not limited to: issues concerning training, credentialing, professional practice, regulation, ethical matters, and receiving and/or reviewing requests for inquiries; advising the chair in the informal conduct of the Board's procedures and providing consultation to the Board during its regular and special meetings.

575:1-1-3. Investigation of requests for inquiry

(a) **Choice of investigative mode when unlicensed individuals are involved.** When violations of the law by unlicensed individuals are brought to the attention of the Board, the Board may conduct an investigation in its own behalf, request investigation by appropriate state agencies, and/or refer the matter to the Office of the Attorney General. The choice of an investigative mode shall depend on the circumstances of the case and shall be made at the discretion of the Board.

(b) **Investigative procedure.** The following is the procedure for investigation of requests for inquiry against licensed psychologists:

(1) **Requirements for requests for inquiry.** The investigation of a request for inquiry about a licensed psychologist may be initiated only when the request for inquiry is in writing, signed, notarized, and filed with the Board. The notarized request for inquiry must contain a brief statement setting forth the allegations of fact and naming the licensee or licensees about whom the request for inquiry is filed. The request for inquiry provides the basis for the chairperson and/or vice chairperson of the Board to request an informal meeting with the licensee, whose participation is voluntary, and/or for appointment of an investigator for the case. The Board may receive, accept, process, investigate, act upon, and otherwise dispose of written requests for inquiry which are not in substantial compliance with this subsection if the Board, in its discretion, determines that the request for inquiry

otherwise contains sufficient indicia of reliability and/or the allegations can be independently verified by the Board.

(2) **Independently verified allegations - written request for inquiry may not be required.** In all inquiries, the Board shall require the request for inquiry to be in writing, signed, and notarized. However, alleged violations of the Psychologists Licensing Act which can be independently verified by the Board may not require written request for inquiry.

(3) **Selection of investigator.** The Board shall select a member or other qualified individual to investigate any request for inquiry regarding any psychologist. This selection may be by majority vote of the Board or by appointment by the chairperson, vice chairperson, or executive officer.

(4) **Compensation for expenses.** The investigator shall be compensated by the Board for necessary and prudent expenses which are properly documented and approved by the Board.

(5) **Investigator's gathering of information.** The Board member or other individual authorized to receive and investigate requests for inquiry shall gather all information necessary to adequately apprise a Probable Cause Committee. The investigation may include interviews with the requesting party, the licensee named in the request for inquiry, and others as appropriate. The licensee will have the opportunity during the investigator's interview to show compliance with all lawful requirements for the retention of the license. The gathering of information to assist the Board in its disposition of requests for inquiry is the only designated function of the investigator during the conduct of the investigation. Any investigative reports prepared and submitted to the Board's Probable Cause Committee, the prosecutorial arm of the Board, are to be used solely to determine whether or not to recommend the pursuit of disciplinary action, and thus constitute confidential and privileged work product material, not subject to disclosure. The investigator shall not offer his/her opinions to the requesting party and/or to the licensee. Such opinions shall include but not be limited to the merits of the request for inquiry and/or whether an ethical violation has occurred.

(6) **Subpoenas Investigative.** The Board may issue subpoenas for the purpose of investigating a request for inquiry following the same procedure as set forth at 575:1-1-4.

(7) **Presentation of Probable Cause Committee's summary and recommendation.** The Probable Cause Committee, comprised of the investigator, counsel to the Board and other appropriate individuals, is an advisory body whose function is to summarize the requests for inquiry and to make an informed recommendation regarding disposition of the requests for inquiry to the Board. The Probable Cause Committee's recommendation will be presented at an open meeting of the Board. The requesting party and the licensee will be given prior written notification of the date, time, and place of that meeting. During the Probable Cause Committee's presentation,

Permanent Final Adoptions

no questions will be posed by or to the licensee or the complaining witness pertaining to the substance of the case. Such questions may be submitted in writing to the representative of the Attorney General's office following the Board meeting.

(8) **Dismissal of request for inquiry by majority vote.** Upon consideration of the recommendation of the Probable Cause Committee, the Board may decide not to pursue further the allegations, and may dismiss the request for inquiry by an approving vote of a majority of the members present in open meeting.

(9) **Informal disposition of certain requests for inquiry.** In some situations including, but not limited to, cases where the inquiry does not allege conduct as described in the Psychologists Licensing Act in Section 1370 or conduct punishable by suspension or revocation of a license, probation, or formal reprimand, the matter may be handled informally. The Board may handle a matter informally by sending an educational letter to the licensee, giving the licensee the opportunity to complete a tutorial, giving the licensee the opportunity to have an educational meeting with a member of the probable cause committee, or any other informal action the Board should deem appropriate. However, no matter can be considered closed until so voted by a majority of the Board in open meeting.

(10) **Recusal of Board member.** A Board member, acting as the appointed investigator or Probable Cause Committee member, shall be recused from all Board decisions relating to the request for inquiry.

(c) **Notification of the disposition of requests for inquiry against licensed psychologists and investigations of them.** At the point at which any request for inquiry and/or investigation is resolved, the Board shall inform the requesting party and the psychologist in writing of the disposition of the matter as well as the supporting rationale based on known facts and applicable laws or rules. The Board shall also notify the Attorney General's Office.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2017:

575:10-1-2. Requirements to become licensed as a psychologist

(a) **Application.** Persons desiring licensure as a psychologist may obtain official application information from either the Board office or the Official Board Website. Applicants are required to submit a non-refundable four hundred dollar (\$400.00) application fee in the form of a personal or certified check or acceptable money order. A minimum of three references from licensed psychologists shall be required for each applicant. Board members shall not serve as references for applicants except to verify portions of completed training or experience.

(b) **Consideration of application.** The Board may appoint a committee to consider and approve, the request of each applicant to take the examination for licensure as a psychologist under 59 O.S., Section 1362(1). In instances where the applicant fails to complete the requirements for licensure within five years of the date of approval, the Board may destroy the application and all related documents.

(c) **Doctoral programs.** Applicants for licensure shall have completed a doctoral program in psychology that is accredited by the American Psychological Association (APA), unless the doctoral program meets any of the following exceptions:

(1) Areas where no accreditation exists. This exception applies to doctoral programs, within the United States, that are in specialty areas of professional psychology that are not accredited by the APA.

- (2) New specialty areas of professional psychology. When a new specialty of professional psychology is recognized as being within the accreditation scope of the APA, doctoral programs within that specialty will be afforded a maximum transition period of eight (8) years from the first class of students to the time of accreditation. To be eligible for this exception the program must have a pending application for accreditation with the APA at the time of the applicant's application for licensure.
- (3) New doctoral programs in specialty areas currently within the scope of APA accreditation. This exception is available to new doctoral programs developed in APA accredited specialty areas of professional psychology. A doctoral program is only eligible for this exception during a maximum transition period of eight (8) years from the first class of students to the time of accreditation. To be eligible for this exception the program must have a pending application for accreditation with the APA at the time of the applicant's application for licensure.
- (4) Applicants trained in institutions outside the United States shall have completed a doctoral program in psychology that is accredited by the Canadian Psychological Association or that is deemed the equivalent of a program accredited by the APA by the Board in its sole discretion. The Board shall consider, but is not limited to, determinations made by a foreign credential evaluation service that is a member of the National Association of Credential Evaluation Services or from a recognized foreign credential evaluation service approved by the Board.
- (d) All doctoral programs in 575:10-1-2(c) shall meet all of the following criteria:
- (1) The doctoral program, wherever it may be administratively housed, must be clearly identified and labeled as a psychology program. Such a program must specify in pertinent institutional catalogs and brochures its intent to educate and train psychologists.
 - (2) The psychology program must stand as a recognizable coherent organizational entity within the institution.
 - (3) There must be clear authority and primary responsibility for the core and specialty areas whether or not the program cuts across administrative lines.
 - (4) The program must be an integrated, organized sequence of study.
 - (5) The program must have an identifiable psychology faculty and a psychologist responsible for the program.
 - (6) The program must have an identifiable body of students who are matriculated in that program for a degree.
- (e) **Practica and internship required.** The assessment of mental, emotional, or behavioral disorders and/or the treatment of individuals, couples, families, or groups with such disorders, by psychologists, requires a doctoral degree from an academic program designed to train psychologists to provide these services which integrates coursework and other experiences toward the goal of training psychologist practitioners. Practica and an internship experience are required.
- (f) **Evaluating doctoral programs.** The doctoral program shall be documented in writing to the Board. The institution is to document the name of the department granting the degree, the date of completion of the degree requirements, and the major program of study such as, but not limited to, clinical, counseling, developmental, educational, experimental, industrial-personnel, psychometrics, school, or social-personality, unless this information is indicated on the applicant's official transcript. A certified letter from the Registrar may be submitted as documentation of the date of completion of the degree requirements. Applicants trained in institutions outside the United States, besides those accredited by the Canadian Psychological Association, shall submit an evaluation of their doctoral program as described in 575:10-1-2(c)(4). All doctoral programs submitted for review under this subsection will be evaluated by the following criteria:
- (1) Except in school psychology, the three academic years leading to the doctoral degree must include a minimum of two years of full-time, on campus, graduate study (excluding internship). In school psychology, the three academic years leading to the doctoral degree must include a minimum of one year of full-time postmaster's graduate study as defined by the institution (excluding internship).
 - (2) At least forty-two (42) hours of the specified course work must be primarily psychological in content. The applicant must have a minimum of three (3) or more graduate semester hours in each of the following substantive content areas, for a total of twenty-one (21) hours:
 - (A) scientific and professional ethics and standards,
 - (B) research design and methodology,
 - (C) statistics and psychometrics,
 - (D) biological bases of behavior [e.g. physiological psychology, comparative psychology, neuropsychology, sensation, psychopharmacology].
 - (E) cognitive-affective bases of behavior [e.g. learning, memory, perception, cognition, thinking, motivation, emotion].
 - (F) social bases of behavior [e.g. social psychology, cultural, ethnic, and group processes, sex roles, organization and systems theory], and
 - (G) individual behavior [e.g. personality theory, human development, individual differences, abnormal psychology].
 - (3) The remaining twenty-one (21) hours of specified course work may be in the foregoing basic areas or in courses pertaining to the specific program of study.
- (g) **Doctoral degree in area related to psychology not sufficient.** The possession of a doctoral degree from an area related to psychology does not qualify one for licensure as a psychologist. This includes, but is not limited to, applicants with degrees in special education, pastoral psychology (or counseling), counseling and guidance, speech and hearing, and counselor education.
- (h) **Supervised experience.** An applicant for licensure as a psychologist must have two years of supervised experience satisfactory to the Board. Supervisors may not be members of the psychologist's immediate family or other individuals with whom the necessary level of objectivity cannot be maintained. This will include, but is not limited to, spouses, children,

Permanent Final Adoptions

siblings, and parents or anyone with whom the psychologist has an emotionally or sexually intimate relationship. Any experience gained under such supervision will be disallowed. This two years of experience must be as a psychologist and in line with the applicant's major program of study for the doctoral degree as determined according to the procedure stated in 575:10-1-2(e). Applicants in the areas of clinical, counseling, and school psychology must have an internship experience. Applicants from psychology programs other than clinical, counseling, or school psychology, who assert the program's purpose to be the training of individuals to provide professional psychological services to the public, must have an internship experience. Internships of applicants from psychology programs with titles other than clinical, counseling, or school psychology programs will be evaluated using the same rules as those used to evaluate applicants with degrees from either clinical, counseling, or school psychology programs, depending upon which the Board deems is the most appropriate corollary based upon the program's training goals and objectives. A predoctoral internship may be used to partially fulfill the two-year experience requirement for licensure. Under no circumstances may more than one year of predoctoral experience as an intern be accepted. The internship must be consistent with the major program of study in the doctoral program which was documented in writing to the Board by the accredited institution [see 575:10-1-2(e)]. Internships in clinical psychology require a full-time experience (40 hours per week) either for one calendar year, or for two years of half-time experience. Counseling and school psychology internships require either a full-time experience (40 hours per week) for one calendar year or one academic contract year or a half-time experience for two calendar years or two academic contract years. An academic contract year means the school year of the elementary or secondary school setting in which an intern is fulfilling the internship requirement. If the counseling or school psychology internship is completed in other than an elementary or secondary school setting, the one calendar year requirement shall apply.

(i) **General requirements for internships.** Internships must be designed to provide a planned, programmed sequence of training experience. The primary focus and purpose of the internship must assure breadth and quality of training. An internship is an organized program of planned experiences in contrast to simply supervised experience or on-the-job training. The internship must provide training in a range of assessment and treatment activities conducted directly with patients or clients seeking psychological services. At least 25 percent of the trainee's time must be in direct patient or client contact. Internship training is at the post-coursework, post candidacy, post-clerkship, post-practicum, post-externship level. A written statement or brochure must be available which describes the goals and content of the internship, states clear expectations for the quantity and quality of trainee's work, and is furnished to prospective interns.

(j) **Supervision in internships.** A clinical or counseling psychology internship agency must have a clearly designated staff psychologist, who is responsible for the integrity and

quality of the training program and who is licensed. In a counseling or clinical psychology internship, the basic supervision must be conducted by a staff psychologist who is trained in the applicant's major program of doctoral study, or a closely related program, and who is licensed. While additional experience with professionals in other disciplines is highly desirable, it is required that clinical and counseling psychology interns have experience with multiple (three or more) supervisors who are licensed as psychologists. Supervision of counseling and clinical psychology interns shall consist of an average of at least 10 percent of the full-time or half-time intern's week. At least half of the supervision of clinical and counseling psychology interns must be regularly scheduled, formal, face-to-face, individual supervision by one or more licensed psychologists with the intent of dealing with psychological services rendered directly by the intern. The remaining half of the supervision may be conducted individually or in a group by licensed psychologists or by other licensed professionals as appropriate to the internship experience. The counseling or clinical psychology internship agency should ordinarily have a minimum of two interns at the internship level of training during the applicant's training period.

(k) **School psychology internships.** School psychology internships must have a clearly designated psychologist who is responsible for the integrity and quality of the training program and who is licensed. In a school psychology internship, the basic supervision must be conducted by a psychologist who is trained in the applicant's major program of doctoral study, or a closely related program, who is licensed, and who may be employed in a setting other than the school district in which the internship is situated. While additional experience with professionals in other disciplines is highly desirable, it is required that school psychology interns have experience with multiple (two or more) supervisors who are licensed as psychologists. Supervision of school psychology interns shall consist of an average of at least 10 percent of the full-time or half-time intern's week. At least half of the supervision of school psychology interns must be regularly scheduled, formal, face-to-face, individual supervision by one or more licensed psychologists with the intent of dealing with psychological services rendered directly by the intern. The remaining half of the supervision may be conducted individually or in a group by licensed psychologists or by other licensed professionals as appropriate to the internship experience.

(l) **Postdoctoral experience.** At least one year of the two-year experience requirement must be postdoctoral experience as a psychologist and in line with the applicant's major program of doctoral study as determined according to the procedure stated in 575:10-1-2(e).

(1) Except in school psychology, the postdoctoral experience must be a total of 2000 hours of appropriate experience. The postdoctoral experience must either be a full time (40 hours per week) for at least one calendar year (50 weeks), or part-time for a period not to exceed three years. Except in school psychology.

(2) The postdoctoral experience in school psychology must be full time (40 hours per week) for at least one calendar year (50 weeks) or one academic contract year, or a

total of 2000 hours (or the number of hours in an academic contract year) of appropriate experience, or equivalent, for a period not to exceed three years.

(3) The postdoctoral experience must be under the supervision of a licensed psychologist(s) who was trained in the applicant's major program of doctoral study, or a closely related program, and who is currently engaged in rendering psychological services relevant to that training.

(4) ~~The applicant~~ Applicants must have received and accumulated 75 hours of regularly scheduled, formal, face-to-face, individual supervision from his/her supervisor(s) reasonably distributed throughout each 12 months of the postdoctoral experience.

(5) The postdoctoral experience does not have to be in a private setting.

(6) The postdoctoral experience of applicants who desire a Health Service Psychologist designation must also meet the requirements of 575:10-1-6(b)(5)(B).

(m) **Examination process.** The full examination for licensure shall consist of two component examinations:

(1) **Objective examination.** An objective examination in basic psychology, known as the Examination for Professional Practice in Psychology ("EPPP").

(2) **Jurisprudence examination.** A jurisprudence examination based on the Rules of the Board, Psychologists Licensing Act, Code of Ethics and applicable Oklahoma Mental Health Law.

(n) **Passing scores on examinations.** An applicant is deemed to have passed the objective examination if he/she has obtained at least the minimum pass point designated by the developer of the examination. An applicant is deemed to have passed the jurisprudence examination if he/she has 70 percent of the total items correct.

(o) **Notification of results.** All applicants will be notified by mail of the results of each component examination within 30 days of the examination date. At the request of the applicant, specific information about his/her performance on any component examination will be provided to the extent the integrity of the exam is not violated.

to ethics, relevant laws and legal issues, and/or applicable professional practice guidelines and standards.

(b) **Credits required for annual license renewal.** The minimum of twenty (20) credits of acceptable continuing professional education will be required for renewal of a license to practice psychology for the following year (one clock hour equals one credit). The continuing professional education year is a calendar year and all continuing professional education hours must be submitted online on the Board's official website by the close of business on December 31. For licenses issued after January 1 of a given year, the required credits of continuing professional education will be adjusted for the initial continuing professional education year only, to require 1.5 credits of continuing professional education per full month of licensure for the initial renewal of the license. Continuing professional education hours attained in a calendar year in excess of the minimum annual requirements may be carried forward for credit in the succeeding year up to twelve (12) hours of credit.

(c) **Preapproval of continuing professional education activities required.**

(1) Continuing professional education credits may be granted for acceptable educational activities at the graduate level which are preapproved by the Board, or by a committee appointed by the Board. The university academic hour is equal to fifteen (15) credits, and shall be verified by the presentation of an official graduate transcript showing course or audit credits. The licensee is ultimately responsible for providing all information necessary for the Board to make final determination concerning the acceptability of any requested continuing professional education credits.

(e) **Fee for preapproval.** Providers of educational activities may be charged a fee for the review and preapproval of their program. This fee shall be set by the Board.

(f) **Kinds of educational activities for which credit may be received.** Continuing professional education credits may

be earned through formal organized learning experiences, scientific publications, attendance at regularly scheduled meetings of international, national, regional, or state professional associations, or through presentations to appropriate groups not related to the psychologist's regular employment. The same kinds of educational activities, when the subject matter is so designated, may be used to fulfill the mandatory three (3) hours of credit in the areas of ethics, relevant laws and legal issues and/or applicable professional practice guidelines and standards. Other acceptable activities include attendance at Board meetings and serving the Board as an appointed investigator, tutor, practice monitor or supervisor.

These selected psychologists must then provide the Board with verification of all credits claimed on their continuing professional education form within thirty (30) days following receipt of the audit notice.

(j) **Board audit.** The Board may, at its discretion, audit and require verification of any continuing professional education credits claimed which it may consider questionable or fraudulent. In either condition, selected psychologists who do not furnish verification of claimed continuing professional education credits to the Board within thirty (30) days following receipt of the audit notice shall as of December 31 have their licenses invalidated for the practice of psychology, with possible suspension or revocation of the license to practice psychology.

(k) **Late fee for late filing.** A psychologist who has not completed and reported the required twenty (20) credits of continuing professional education by December 31, shall pay a late fee which will be set by the Board.

GIST/ANALYSIS:

The changes made in Subchapter 1 update phone numbers and addresses of various Troop headquarters across the state. In several sections the term "examiner" has been changed to "Hearing Officer". Many of the changes up-date out-of-date language and update sections to bring them in-line with Open Records statutes. The Department has also updated the retention schedule for retaining documents. Three sections were revoked either for out of date language or the revoked rules subject is addressed elsewhere in rule. In section 1-9-4 Fees, the agency is requesting a fee increase for the cost distributing dvd/cd's as they relate to Open Records. The Department receives a high volume of requests from both the media and the general public.

GIST/ANALYSIS:

The amended rules are the result of legislation passed by the legislature and signed into law by the Governor. The Department has updated information throughout the chapter changing the name of the Driver License Examining Division to Driver License Services Division. Language has been added to clarify acceptable forms of documentary evidence of lawful presence in the US from foreign nationals and permanent resident aliens. HB1860 authorizes the submission of notarized affidavit in purposes related to the issuance of driver licenses. The language adds a notarized affidavit signed by a custodial legal parent or guardian as a legal means for a minor to obtain a restricted license. SB0034 modifies language related to applying for renewal or replacement Oklahoma Class D licenses or identification cards. The bill removes language concerning the process for renewing the license or identification when the person is not in the state at the time of the renewal or at a time a replacement is required. It also clarifies the statute's language to permit the Department of Public Safety to develop by rule an alternative method of applying for a renewal or replacement license or identification card. SB0390 states piston displacement on a motorcycle driven by someone with a restricted Class D license with a motorcycle-only restriction should not exceed 300 centimeters. Language has been added making a Motor License Agency responsible for mistakes they make in the process of printing licenses and ID cards. Language has been added to the Examinations section making speeding in a school zone or in a construction zone with workers present, an automatic disqualification.

Points will now be assessed to CDL holders who are convicted of using a hand-held device while operating a commercial vehicle (SB183). Additional requirements have been added for the certification of designated examiners and out of date language has been struck. The Provisional Driver License Program can now issue PDL's to class A, B, C, as well as D licensees, language has been added and updated to reflect the necessary changes for compliance.
