~~(5) The intent of the law shall not be met if an unlicensed surveying crew independently performs surveying work, to then be reviewed, signed, and sealed by a professional land surveyor. An unlicensed surveying crew may only be used if the professional land surveyor in direct control and supervision of the work is personally directing the land surveying crew and the work is performed concurrent with the supervision.~~

(e) Unlicensed persons, including professional engineers and professional land surveyors not licensed in this state, shall not perform engineering or surveying work in this state, to subsequently have it reviewed, signed, and sealed by a licensed professional engineer or professional land surveyor licensed in the state of Oklahoma. An Oklahoma licensed professional engineer must meet all provisions of (c) of this subsection and an Oklahoma licensed professional land surveyor must meet all provisions of (d) of this subsection to qualify as being in responsible charge of the work. If the Oklahoma licensed professional is a contractor or consultant to the firm or individual who contracted for the project, the licensee must include his or her firm name, if applicable, and contact information on the work.

(f) In the case of bound documents, licensees must affix their seal, signature, and date of signature to the cover sheet or index page, which identifies all documents bound together for which the licensee has responsible charge. In the absence of covers and index pages each document must have the seal, and dated signature of the licensee who has responsible charge. For bound documents involving multiple licensees, either each document in the bound set must be sealed, signed, and dated by the licensee in responsible charge for that portion of the work, or the cover sheet or index page must be sealed, signed, and dated by each licensee with a breakdown of the licensee in responsible charge of each document clearly identified.

(g) In the case when the work consists of a letter or report prepared by a single licensee, the licensee need only seal, sign, and date the first page, title page or signature page of the document.

(h) The Statute, 59 O.S., Sections 475.1 et seq. and Rules of the Board in this Chapter describe the use of the seal of the licensee. The seal, signature, and date of signature shall be placed on all final engineering and land surveying documents whenever presented to a client or any public agency to certify that the work thereon was done by the licensee or under the responsible charge of the licensee. In lieu of sealing, signing, and dating each copy of the work, the seal, signature, and date shall be placed on originals, tracings, or other reproducible documents by the licensee in such a manner that when the originals, tracings, or other reproducible documents are reproduced the seal, signature, and date will be legible.

(i) Working drawings or preliminary documents are not required to have a seal and signature if they contain a statement

in large bold letters to the effect **PRELIMINARY, NOT FOR CONSTRUCTION OR IMPLEMENTATION**.

(j) Permit sets or construction drawings, which are not final, may be signed and sealed for the purpose of submitting the work to the Authority Having Jurisdiction (AHJ) for their review, comment and /or approval, but must be clearly marked in large bold letters **NOT FOR CONSTRUCTION**.

(k) An Engineer Intern or Land Surveyor Intern shall not have a seal.

(l) Drawings, reports, or documents that require a signature may be signed using a digital signature. The digital signature must be:

- (1) Unique to the person using it;
- (2) Capable of verification; and
- (3) Under the sole responsibility and control of the licensee affixing it.

(A) A scanned image or other reproduction of an original signature may be used in lieu of an original signature or digital signature if accompanied by an original handwritten date.

(B) A digital signature having an electronic authentication process attached to or logically associated with the electronic document may also be used and does not need to include the handwritten date, but must be dated. In this instance, the digital signature shall be linked to a document in such a manner that the data in the document can be verified as being unaltered since the time that the digital signature was affixed.

(m) Successor licensee - In circumstances where a licensee in responsible charge of the work is unavailable to complete the work, or the work is a site adaptation of a standard design plan, a successor licensee may take responsible charge over, and complete the work, in accordance with the provisions of this Chapter.

(1) A licensee shall perform or have responsible charge over all professional engineering or land surveying services to include development of a complete design file including work or design criteria, calculations, code research, field notes, and any necessary and appropriate changes to the work. The burden is on the successor licensee to demonstrate such compliance.

(2) The non-professional services, such as drafting, need not be redone by the successor licensee but must clearly and accurately reflect the successor licensee's professional work.

(3) The licensee shall have direct control and personal supervision over the engineering or surveying work and the signed, dated, and sealed originals of all documents over which the licensee has taken responsible charge under this provision. A professional engineer or land surveyor who adopts, signs, and seals work previously engineered or surveyed under this provision shall perform sufficient review and calculation to ensure that all standards of practice required of licensees are met, including satisfying the relevant criteria stated in paragraph (c)(iv) and (e)(iv) above and shall take professional and legal responsibility for documents signed and sealed.

(n) Prototypical design plans- A licensee may take responsible charge over a standard, prototypical design plan, including drawings and specifications in printed or electronic form, for the purpose of adapting the plan to a specific site in this state, provided the licensee's work is completed in accordance with the provisions of this Chapter. This provision shall apply to both site adaptation of new structures and site adaptation for construction in an existing structure.

(1) In the case of an existing structure, the engineering for modifications to the existing structure and any of its systems shall be under the responsible charge of persons licensed in this state.

(2) Standard, prototypical designs that may be site adapted under this provision are drawings and specification documents prepared for the purpose of defining the Owner's requirements but not yet completed for construction on a specific site.

(3) Site adaptation shall not include, and this provision does not authorize, a licensee to take responsible charge over work designed for construction on a specific site in this state that was prepared by a person not licensed in this state.

(4) Standard prototypical design plans shall not be released publicly or submitted to a client or user unless the plans are marked with a statement substantially equivalent to 'This document is preliminary in nature and is not a final, signed and sealed document'. The statement shall not be removed until an Oklahoma licensee has taken responsible charge of the work and the work is dated and issued under the seal and signature of an Oklahoma licensee.

(5) A licensee shall perform or have responsible charge over all professional engineering services to include development of a complete design file including work or design criteria, calculations, code research, and any necessary and appropriate changes to the work. The burden is on the successor licensee to demonstrate such compliance.

(6) The non-professional services, such as drafting, need not be redone by the successor licensee but must clearly and accurately reflect the successor licensee's professional work.

(7) The licensee shall have direct control and personal supervision over the engineering work and the signed, dated, and sealed originals of all documents over which the licensee has taken responsible charge under this provision.

(o) Any revision to a document containing the seal and signature of a licensee shall be identified and dated. Revisions not done by the original licensee must be signed and sealed by the licensee in responsible charge of the revision. At no time shall a successor licensee remove the seal and signature of the original licensee in responsible charge of the work.

(p) Record drawings prepared to reflect changes made during construction based on the record of changes made to construction drawings and changes to the construction observed by the licensee or on the licensee's behalf or reported by contractors is deemed a drafting service and shall not require a licensee's seal, signature, and date of signature.

(q) In the case of a firm, each separate document, the first page of a bound document, and, in the case of multiple licensees, the portion of the work for which each firm is responsible, shall also show the name of the firm, the firm's Certificate of Authorization number and contact information for the firm.

(r) Engineering or surveying technical submissions given to an architect for a project must be signed and sealed by the professional engineer or land surveyor in responsible charge of the work prior to the architect taking responsible charge of the work as the prime professional for the project.

(s) Consultants hired to do work on behalf of the firm must sign, seal, and date their work and include their contact information, and Certificate of Authorization information, if applicable, on the work. Consultants may not be the designated managing agent for the firm to which they are consulting.

[OAR Docket #20-697; filed 7-24-20]

TITLE 252. DEPARTMENT OF ENVIRONMENTAL QUALITY CHAPTER 100. AIR POLLUTION CONTROL

[OAR Docket #20-702]

RULEMAKING ACTION:

PERMANENT final adoption

RULES:

Subchapter 1. General Provisions

252:100-1-2 [AMENDED]

252:100-1-3 [AMENDED]

AUTHORITY:

Environmental Quality Board; 27A O.S. §§ 2-2-101, 2-2-201, and 2-5-106.

Air Quality Advisory Council; 27A O.S. §§ 2-2-201 and 2-5-107.

Oklahoma Clean Air Act; 27A O.S. §§ 2-5-101 through -117.

SUBMISSION OF PROPOSED RULES TO GOVERNOR AND CABINET SECRETARY:

April 25, 2019

COMMENT PERIOD:

May 15, 2019 through June 19, 2019

PUBLIC HEARING(S):

June 19, 2019, Air Quality Advisory Council

September 10, 2019, Environmental Quality Board

ADOPTION:

September 10, 2019

SUBMISSION OF ADOPTED RULES TO GOVERNOR AND LEGISLATURE:

September 20, 2019

APPROVED BY GOVERNOR'S DECLARATION:

Approved by Governor's declaration on June 25, 2020

FINAL ADOPTION:

June 25, 2020

EFFECTIVE:

September 15, 2020

SUPERSEDED EMERGENCY ACTIONS:

n/a

INCORPORATIONS BY REFERENCE:

n/a

GIST/ANALYSIS:

The Department is proposing to amend 252:100-1-2, Statutory definitions, to correct an incorrect statutory citation and update the latest statutory publication date. The Department is also proposing to amend 252:100-1-3, Definitions, to make a minor clarification to a definition, correct a truncated definition, add a definition for clarification, and alphabetically re-order a definition. The gist of this rulemaking is to correct a statutory citation and clarify and add definitions.

CONTACT PERSON:

Melanie Foster, Department of Environmental Quality, Air Quality Division, 707 North Robinson, P.O. Box 1677, Oklahoma City, Oklahoma 73101-1677, (405) 702-4100

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 15, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

252:100-1-2. Statutory definitions

The definitions contained in the Oklahoma Environmental Quality Code at 27A O.S. Sections ~~2-01-1022-1-102~~ and ~~2-05-1012-5-104~~ (20022011) under which this Chapter is promulgated, shall apply for the following terms.

- (1) air contaminants,
- (2) air pollution,
- (3) council,
- (4) department,
- (5) director,
- (6) Executive Director, and
- (7) person.

252:100-1-3. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise or unless defined specifically for a Subchapter, section, or subsection in the Subchapter, section, or subsection.

"Act" means the Federal Clean Air Act, as amended, 42 U.S.C. 7401 et seq.

"Administrator" means, unless specifically defined otherwise, the Administrator of the United States Environmental Protection Agency (EPA) or the Administrator's designee.

"Air contaminant source" means any and all sources of emission of air contaminants (pollutants), whether privately or publicly owned or operated, or person contributing to emission of air contaminants. Without limiting the generality of the foregoing, this term includes all types of business, commercial and industrial plants, works, shops and stores, heating and power plants or stations, buildings and other structures of all types.

"Air pollution abatement operation" means any operation which has as its essential purpose a significant reduction in:

- (A) the emission of air contaminants, or
- (B) the effect of such emission.

"Air pollution episode" means high levels of air pollution existing for an extended period (24 hours or more) of time which may cause acute harmful health effects during periods of atmospheric stagnation, without vertical or horizontal ventilation. This occurs when there is a high pressure air mass over an area, a low wind speed and there is a temperature inversion.

Other factors such as humidity may also affect the episode conditions.

"Ambient air standards" or **"Ambient air quality standards"** means levels of air quality as codified in OAC 252:100-3.

"Atmosphere" means the air that envelops or surrounds the earth.

"Best available control technology" or **"BACT"** means the best control technology that is currently available as determined by the ~~Division~~ Director on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs of alternative control systems.

"Building, structure, facility, or installation" means:

(A) all of the pollutant-emitting activities which belong to the same industrial grouping, are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control). Pollutant-emitting activities shall be considered as part of the same industrial grouping if they belong to the same "Major Group" (i.e., which have the same two-digit code) as described in the Standard Industrial Classification Manual, 1972, as amended by the 1977 Supplement.

(B) notwithstanding the provisions of subparagraph (A), for onshore activities under Standard Industrial Classification (SIC) Major Group 13: Oil and Gas Extraction, all of the pollutant-emitting activities included in Major Group 13 that are located on one or more contiguous or adjacent properties, and are under the control of the same person (or persons under common control). Pollutant emitting activities shall be considered adjacent if they are located on the same surface site; or if they are located on surface sites that are located within 1/4 mile of one another (measured from the center of the equipment on the surface site) and they share equipment. Shared equipment includes, but is not limited to, produced fluids storage tanks, phase separators, natural gas dehydrators, or emissions control devices. Surface site, as used in this definition, has the same meaning as in 40 CFR 63.761.

"Carbon dioxide equivalent emissions" or **"CO₂e"** means an amount of GHG emitted, and shall be computed by multiplying the mass amount of emissions, for each of the six greenhouse gases in the pollutant GHG, by the gas' associated global warming potential (GWP) published in Table A-1 to subpart A of 40 CFR Part 98 - Global Warming Potentials, and summing the resultant value for each to compute a CO₂e.

"Catalytic cracking unit" means a unit composed of a reactor, regenerator and fractionating towers which is used to convert certain petroleum fractions into more valuable products by passing the material through or commingled with a bed of catalyst in the reactor. Coke deposits produced on the catalyst during cracking are removed by burning off in the regenerator.

"Combustible materials" means any substance which will readily burn and shall include those substances which,

Permanent Final Adoptions

although generally considered incombustible, are or may be included in the mass of the material burned or to be burned.

"Commence" means, unless specifically defined otherwise, that the owner or operator of a facility to which neither a NSPS or NESHAP applies has begun the construction or installation of the emitting units on a pad or in the final location at the facility.

"Commencement of operation" or "commencing operation" means the owner or operator of the stationary source has begun, or caused to begin, emitting a regulated air pollutant from any activity for which the stationary source is designed and/or permitted.

"Complete" means in reference to an application for a permit, the application contains all the information necessary for processing the application. Designating an application complete for purposes of permit processing does not preclude the Director from requesting or accepting any additional information.

"Construction" means, unless specifically defined otherwise, fabrication, erection, or installation of a source.

"Crude oil" means a naturally occurring hydrocarbon mixture which is a liquid at standard conditions. It may contain sulfur, nitrogen and/or oxygen derivatives of hydrocarbon.

"Direct fired" means that the hot gasses produced by the flame or heat source come into direct contact with the material being processed or heated.

"Division" means Air Quality Division, Oklahoma State Department of Environmental Quality.

"Dust" means solid particulate matter released into or carried in the air by natural forces, by any fuel-burning, combustion, process equipment or device, construction work, mechanical or industrial processes.

"EPA" means the United States Environmental Protection Agency.

"Excess emissions" means the emission of regulated air pollutants in excess of an applicable limitation or requirement as specified in the applicable limiting Subchapter, permit, or order of the DEQ. This term does not include fugitive VOC emissions covered by an existing leak detection and repair program that is required by a federal or state regulation.

"Existing source" means, unless specifically defined otherwise, an air contaminant source which is in being on the effective date of the appropriate Subchapter, section, or paragraph of these rules.

"Facility" means all of the pollutant-emitting activities that meet all the following conditions:

- (A) Are under common control.
- (B) Are located on one or more contiguous or adjacent properties.
- (C) Have the same two-digit primary SIC Code (as described in the Standard Industrial Classification Manual, 1987).

"Federally enforceable" means all limitations and conditions which are enforceable by the Administrator, including those requirements developed pursuant to 40 CFR Parts 60 and 61, requirements within any applicable State implementation plan, any permit requirements established pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR

Part 51, subpart I, including operating permits issued under an EPA-approved program that is incorporated into the State implementation plan and expressly requires adherence to any permit issued under such program.

"Fossil fuel" means natural gas, petroleum, coal, or any form of solid, liquid, or gaseous fuel derived from such material.

"Fuel-burning equipment" means any one or more of boilers, furnaces, gas turbines or other combustion devices and all appurtenances thereto used to convert fuel or waste to usable heat or power.

"Fugitive dust" means solid airborne particulate matter emitted from any source other than a stack or chimney.

"Fugitive emissions" means, unless specifically defined otherwise, those emissions which could not reasonably pass through a stack, chimney, vent, or other functionally equivalent opening.

"Fume" means minute solid particles generated by the condensation of vapors to solid matter after volatilization from the molten state, or generated by sublimation, distillation, calcination, or chemical reaction when these processes create airborne particles.

"Garbage" means all putrescible animal and vegetable matter resulting from the handling, preparation, cooking and consumption of food.

"Greenhouse gas" or "GHG" means the air pollutant defined in 40 CFR § 86.1818-12(a) as the aggregate group of six greenhouse gases: carbon dioxide (CO₂), nitrous oxide (N₂O), methane (CH₄), hydrofluorocarbons (HFCs), perfluorocarbons (PFCs), and sulfur hexafluoride (SF₆).

"Gross particulate matter" or "GPM" means particulate matter with an aerodynamic diameter greater than 10 micrometers.

"In being" means as used in the definitions of New Installation and Existing Source that an owner or operator has undertaken a continuous program of construction or modification or the owner or operator has entered into a binding agreement or contractual obligation to undertake and complete within a reasonable time a continuous program of construction or modification prior to the compliance date for installation as specified by the applicable regulation.

"Incinerator" means a combustion device specifically designed for the destruction, by high temperature burning, of solid, semi-solid, liquid, or gaseous combustible wastes and from which the solid residues contain little or no combustible material.

"Indirect fired" means that the hot gasses produced by the flame or heat source do not come into direct contact with the material, excluding air, being processed or heated.

"Installation" means an identifiable piece of process equipment.

"Lowest achievable emissions rate" or "LAER" means, for any source, the more stringent rate of emissions based on paragraphs (A) and (B) of this definition. This limitation, when applied to a modification, means the lowest achievable emissions rate for the new or modified emissions units within a stationary source. In no event shall the application of LAER allow a proposed new or modified stationary source to emit any

pollutant in excess of the amount allowable under applicable standard of performance for the new source.

(A) **LAER** means the most stringent emissions limitation which is contained in the implementation plan of any State for such class or category of stationary source, unless the owner or operator of the proposed stationary source demonstrates that such limitations are not achievable, or

(B) **LAER** means the most stringent emissions limitation which is achieved in practice by such class or category of stationary sources.

"Major source" means any new or modified stationary source which directly emits or has the capability at maximum design capacity and, if appropriately permitted, authority to emit 100 tons per year or more of a given pollutant. (OAC 252:100-8, Part 3)

"Malfunction" means any sudden, infrequent, and not reasonably preventable failure of air pollution control equipment, process equipment, or a process to operate in a normal or usual manner. Failures that are caused in part by poor maintenance or careless operation are not malfunctions.

"Mist" means a suspension of any finely divided liquid in any gas or atmosphere excepting uncombined water.

"Modification" means any physical change in, or change in the method of operation of, a source which increases the amount of any air pollutant emitted by such source or which results in the emission of any air pollutant not previously emitted, except that:

(A) routine maintenance, repair and replacement shall not be considered physical changes; and,

(B) the following shall not be considered a change in the method of operation:

(i) any increase in the production rate, if such increase does not exceed the operating design capacity of the source;

(ii) an increase in hours of operation;

(iii) use of alternative fuel or raw material if, prior to the date any standard under this part becomes applicable to such source the affected facility is designed to accommodate such alternative use.

"National Emission Standards for Hazardous Air Pollutants" or **"NESHAP"** means those standards found in 40 CFR Parts 61 and 63.

"New installation", "New source", or "New equipment" means an air contaminant source which is not in being on the effective date of these regulations and any existing source which is modified, replaced, or reconstructed after the effective date of the regulations such that the amount of air contaminant emissions is increased.

"New Source Performance Standards" or **"NSPS"** means those standards found in 40 CFR Part 60.

"Nonmethane organic compounds" or **"NMOC"** means nonmethane organic compounds, as defined in 40 CFR 60.754.

"Opacity" means the degree to which emissions reduce the transmission of light and obscure the view of an object in the background.

"Open burning" means the burning of combustible materials in such a manner that the products of combustion are emitted directly to the outside atmosphere.

"Organic compound" means any chemical compound containing the element carbon.

"Owner or operator" means any person who owns, leases, operates, controls or supervises a source.

"Part 70 permit" means (unless the context suggests otherwise) any permit or group of permits covering a Part 70 source that is issued, renewed, amended, or revised pursuant to this Chapter.

"Part 70 program" means a program approved by the Administrator under 40 CFR Part 70.

"Part 70 source" means any source subject to the permitting requirements of Part 5 of Subchapter 8, as provided in OAC 252:100-8-3(a) and (b).

"PM₁₀ emissions" means particulate matter emitted to the ambient air with an aerodynamic diameter of 10 micrometers or less as measured by applicable reference methods, or an equivalent or alternative method.

"PM₁₀" means particulate matter with an aerodynamic diameter of 10 micrometers or less.

"PM_{2.5}" means particulate matter with an aerodynamic diameter of 2.5 micrometers or less.

"Particulate matter" or **"PM"** means any material that exists in a finely divided form as a liquid or a solid.

"Particulate matter emissions" means particulate matter emitted to the ambient air as measured by applicable reference methods, or an equivalent or alternative method.

"Potential to emit" means the maximum capacity of a source to emit a pollutant under its physical and operational design. Any physical or operational limitation on the capacity of the source to emit a pollutant, including air pollution control equipment and restrictions on hours of operation or on the type or amount of material combusted, stored or processed, shall be treated as part of its design if the limitation or the effect it would have on emissions is enforceable. Secondary emissions do not count in determining the potential to emit of a source.

"Prevention of significant deterioration" or **"PSD"** means increments for the protection of attainment areas as codified in OAC 252:100-3.

"Process equipment" means any equipment, device or contrivance for changing any materials or for storage or handling of any materials, the use or existence of which may cause any discharge of air contaminants into the open air, but not including that equipment specifically defined as fuel-burning equipment, or refuse-burning equipment.

"Process weight" means the weight of all materials introduced in a source operation, including solid fuels, but excluding liquids and gases used solely as fuels, and excluding air introduced for the purposes of combustion. Process weight rate means a rate established as follows:

(A) for continuous or long-run, steady-state, operations, the total process weight for the entire period of continuous operation or for a typical portion thereof, divided by the number of hours of such period or portion thereof.

Permanent Final Adoptions

(B) for cyclical or batch source operations, the total process weight for a period which covers a complete or an integral number of cycles, divided by the hours of actual process operation during such period.

(C) where the nature of any process or operation or the design of any equipment is such as to permit more than one interpretation of this definition, that interpretation which results in the minimum value for allowable emission shall apply.

"Reasonably available control technology" or **"RACT"** means devices, systems, process modifications, or other apparatus or techniques that are reasonably available taking into account:

(A) The necessity of imposing such controls in order to attain and maintain a national ambient air quality standard;

(B) The social, environmental, and economic impact of such controls; and

(C) Alternative means of providing for attainment and maintenance of such standard.

"Reconstruction" means

(A) the replacement of components of an existing source to the extent that will be determined by the Executive Director based on:

(i) the fixed capital cost (the capital needed to provide all the depreciable components of the new components exceeds 50 percent of the fixed capital cost of a comparable entirely new source);

(ii) the estimated life of the source after the replacements is comparable to the life of an entirely new source; and,

(iii) the extent to which the components being replaced cause or contribute to the emissions from the source.

(B) a reconstructed source will be treated as a new source for purposes of OAC 252:100-8, Part 9.

"Refinery" means any facility engaged in producing gasoline, kerosene, fuel oils or other products through distillation of crude oil or through redistillation, cracking, or reforming of unfinished petroleum derivatives.

"Refuse" means, unless specifically defined otherwise, the inclusive term for solid, liquid or gaseous waste products which are composed wholly or partly of such materials as garbage, sweepings, cleanings, trash, rubbish, litter, industrial, commercial and domestic solid, liquid or gaseous waste; trees or shrubs; tree or shrub trimmings; grass clippings; brick, plaster, lumber or other waste resulting from the demolition, alteration or construction of buildings or structures; accumulated waste material, cans, containers, tires, junk or other such substances.

"Refuse-burning equipment" means any equipment, device, or contrivance, and all appurtenances thereto, used for the destruction of combustible refuse or other combustible wastes by burning.

"Regulated air pollutant" means any substance or group of substances listed in Appendix P of this Chapter, or any substance regulated as an air pollutant under any federal

regulation for which the Department has been given authority, or any other substance for which an air emission limitation or equipment standard is set by an enforceable permit.

"Responsible official" means one of the following:

(A) For a corporation: a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of such person if the representative is responsible for the overall operation of one or more manufacturing, production, or operating facilities applying for or subject to a permit and either:

(i) The facilities employ more than 250 persons or have gross annual sales or expenditures exceeding \$25 million (in second quarter 1980 dollars); or

(ii) The delegation of authority to such representatives is approved in advance by the DEQ;

(B) For the partnership or sole proprietorship: a general partner or the proprietor, respectively;

(C) For a municipality, state, federal, or other public agency: Either a principal executive officer or ranking elected official. For purposes of this Chapter, a principal executive officer or installation commander of a federal agency includes the chief executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., a Regional Administrator of EPA); or

(D) For affected sources:

(i) The designated representative insofar as actions, standards, requirements, or prohibitions under Title IV of the Act or the regulations promulgated thereunder are concerned; and

(ii) The designated representative for any other purposes under this Chapter.

"Shutdown" means the cessation of operation of any process, process equipment, or air pollution control equipment.

"Smoke" means small gas-borne or air-borne particles resulting from combustion operations and consisting of carbon, ash, and other matter any or all of which is present in sufficient quantity to be observable.

"Source operation" means the last operation preceding the emission of an air contaminant, which operation:

(A) results in the separation of the air contaminant from the process materials or in the conversion of the process materials into air contaminants, as in the case of combustion of fuel; and,

(B) is not an air pollution abatement operation.

"Stack" means, unless specifically defined otherwise, any chimney, flue, duct, conduit, exhaust, pipe, vent or opening, excluding flares, designed or specifically intended to conduct emissions to the atmosphere.

"Standard conditions" means a gas temperature of 68 degrees Fahrenheit (20° Centigrade) and a gas pressure of 14.7 pounds per square inch absolute.

"Startup" means the setting into operation of any process, process equipment, or air pollution control equipment.

"Stationary source" means, unless specifically defined otherwise, any building, structure, facility, or installation either fixed or portable, whose design and intended use is at a fixed location and emits or may emit an air pollutant subject to OAC 252:100.

"Temperature inversion" means a phenomenon in which the temperature in a layer of air increases with height and the cool heavy air below is trapped by the warmer air above and cannot rise.

"Title V permit" means (unless the context suggests otherwise) an operating permit for a Part 70 source.

"Total Suspended Particulates" or **"TSP"** means particulate matter as measured by the high-volume method described in Appendix B of 40 CFR Part 50.

~~**"Temperature inversion"** means a phenomenon in which the temperature in a layer of air increases with height and the cool heavy air below is trapped by the warmer air above and cannot rise.~~

"Visible emission" means any air contaminant, vapor or gas stream which contains or may contain an air contaminant which is passed into the atmosphere and which is perceptible to the human eye.

"Volatile organic compound" or **"VOC"** means any organic compound that participates in atmospheric photochemical reactions resulting in the formation of tropospheric ozone. Carbon monoxide, carbon dioxide, carbonic acid, metallic carbides, ammonium carbonates, tert-butyl acetate and compounds listed in 40 CFR 51.100(s)(1) are presumed to have negligible photochemical reactivity and are not considered to be VOC.

Air Quality Advisory Council; 27A O.S. §§ 2-2-201 and 2-5-107.

Oklahoma Clean Air Act; 27A O.S. §§ 2-5-101 through -117.

SUBMISSION OF PROPOSED RULES TO GOVERNOR AND CABINET SECRETARY:

August 6, 2019

COMMENT PERIOD:

September 3, 2019 through October 16, 2019

PUBLIC HEARING(S):

October 16, 2019, Air Quality Advisory Council

November 8, 2019, Environmental Quality Board

ADOPTION:

November 8, 2019

SUBMISSION OF ADOPTED RULES TO GOVERNOR AND LEGISLATURE:

November 13, 2019

APPROVED BY GOVERNOR'S DECLARATION:

Approved by Governor's declaration on June 25, 2020

FINAL ADOPTION:

June 25, 2020

EFFECTIVE:

September 15, 2020

SUPERSEDED EMERGENCY ACTIONS:

n/a

INCORPORATIONS BY REFERENCE:

Incorporated standards as they existed on June 30, 2019:

40 CFR

Incorporating rules:

252:100-2-3

Appendix Q. Incorporation By Reference

Availability:

The standards are on file at the Department of Environmental Quality, 707 North Robinson, Oklahoma City, Oklahoma, 73102, and are available to the public for examination Monday through Friday between the hours of 8:00 a.m. and 4:30 p.m., excluding state holidays.

GIST/ANALYSIS:

The Department is proposing to update OAC 252:100, Appendix Q, Incorporation by Reference, to incorporate the latest changes to U.S. Environmental Protection Agency (EPA) regulations. In addition, the Department is proposing to update language in Subchapter 2, Incorporation by Reference, to reflect the latest date of incorporation of EPA regulations in Appendix Q. The gist of these rules and the underlying reason for the rulemaking is to incorporate the latest changes to EPA regulations, primarily those relating to the National Emission Standards for Hazardous Air Pollutants (NESHAP) and New Source Performance Standards (NSPS).

The Department is proposing to amend Oklahoma Administrative Code (OAC) 252:100-13, Open Burning, to conform the Department of Environmental Quality (DEQ) rules to statutory changes enacted in the 2019 legislative session. DEQ is also proposing to add a new section, 252:100-13-8.1, for this same purpose. The statutory changes added a provision for open burning of certain medical marijuana plant parts and modified when an air curtain incinerator (ACI) is required. In addition, the Department is proposing to change Section 13-2, Definitions, to reflect an update in terminology from "watch" to "alert" for ozone and particulate matter notifications. The Department is also proposing to amend Section 13-7(1), Fire training, to clarify specific inspection and removal requirements, as provided for in the Oklahoma Clean Air Act. The gist of this rulemaking is to implement the statutory changes made in the 2019 legislative session to add a provision for open burning of certain medical marijuana plant parts, to modify when an ACI is required, and to make other minor clarifications to the rule.

The Department is proposing to revoke OAC 252:100-39-49, Manufacturing of fiberglass reinforced plastic products. The gist of this rulemaking is to reduce the regulatory burden on facilities by eliminating an antiquated rule where a federal regulation now sufficiently limits emissions of air pollutants.

CONTACT PERSON:

Melanie Foster, Department of Environmental Quality, Air Quality Division, 707 North Robinson, P.O. Box 1677, Oklahoma City, Oklahoma 73101-1677, (405) 702-4100.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S.,

Permanent Final Adoptions

SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 15, 2020.

SUBCHAPTER 2. INCORPORATION BY REFERENCE

252:100-2-3. Incorporation by reference

Except as provided under this section, the provisions of 40 CFR listed in Appendix Q are hereby incorporated by reference as they existed on ~~June 30, 2018~~ June 30, 2019.

(1) **Inclusion of 40 CFR citations and definitions.**

When a provision of 40 CFR is incorporated by reference, all citations contained therein are also incorporated by reference.

(2) **Inconsistencies or duplications of requirements or incorporation dates.**

(A) In the event that there are inconsistencies or duplications between the requirements of this Chapter and the requirements of those provisions incorporated by reference in Appendix Q or elsewhere in this Chapter, the more stringent requirements shall apply.

(B) In the event that a specific date of incorporation is indicated in Appendix Q or a subchapter of this Chapter, the specified date of incorporation shall apply.

(3) **Terminology related to 40 CFR.** For purposes of interfacing with 40 CFR and unless the context clearly indicates otherwise, the following terms apply.

(A) "Administrator" is synonymous with "Executive Director."

(B) "U. S. Environmental Protection Agency" or "EPA" is synonymous with "Department of Environmental Quality" or "DEQ."

SUBCHAPTER 13. OPEN BURNING

252:100-13-2. Definitions

The following words and terms, when used in this Subchapter, shall have the following meaning, unless the context clearly indicates otherwise:

"**Air curtain incinerator**," "**air curtain destructor**," or "**open pit incinerator**" means an incineration unit operating by forcefully projecting a curtain of air across an open, integrated combustion chamber (fire box) or open pit or trench (trench burner) in which combustion occurs.

"**Clean lumber**" means wood or wood products that have been cut or shaped and include wet, air-dried, and kiln-dried wood products. Clean lumber does not include wood products that have been painted, pigment-stained, or pressure-treated by compounds such as chromate copper arsenate, pentachlorophenol, and creosote, or manufactured wood products that contain adhesives or resins (e.g., plywood, particle board, flake board, and oriented strand board).

"**Clean wood waste**" or "**wood waste**" means untreated wood and untreated wood products, including tree stumps

(whole or chipped), trees, tree limbs (whole or chipped), bark, sawdust, chips, scraps, slabs, millings, and shavings. Wood waste does not include:

(A) Grass, grass clippings, bushes, shrubs and clippings from bushes and shrubs from residential, commercial/retail, institutional, or industrial sources as part of maintaining yards or other private or public lands.

(B) Construction, renovation, or demolition wastes.

(C) Clean lumber.

(D) Treated wood and treated wood products, including wood products that have been painted, pigment-stained, or pressure treated by compounds such as chromate copper arsenate, pentachlorophenol, and creosote, or manufactured wood products that contain adhesives or resins (e.g., plywood, particle board, flake board, and oriented strand board).

"**Combustible materials**" means any substance which will readily burn and shall include those substances which, although generally considered incombustible, are or may be included in the mass of the material burned or to be burned.

"**Domestic refuse**" means combustible materials or refuse that normally result from the function of life at a residence, such as kitchen garbage, untreated lumber, cardboard boxes, packaging, clothing, grass, leaves, and branch trimmings. It does not include such things as tires, non-wood construction debris, furniture, carpet, electrical wire, and appliances.

"**Fire training**" means a fire purposely set as part of an organized program of drills for the training of firefighting personnel or for testing firefighting materials or equipment, which is part of a recognized training program.

"**Human-made structure**" means any structure constructed with the intent of providing shelter to persons or property. It does not include structures constructed specifically for live-burn fire training purposes.

"**Land clearing operation**" means the uprooting, cutting, or clearing of vegetation in preparation for the construction of buildings, the development of residential, commercial, agricultural, or industrial properties, and for the construction and maintenance of right-of-ways. It does not include the clearing of vegetation such as trimmings, fallen limbs, branches, or leaves, or other wastes from routine property maintenance activities, or the removal or destruction of human-made structures.

"**Metropolitan Statistical Area**" or "**MSA**" means a core area containing a substantial population nucleus, together with adjacent communities having a high degree of economic and social integration with that core, as defined by the federal Office of Management and Budget.

"**Open burning**" means the burning of combustible materials in such a manner that the products of combustion are emitted directly to the outside atmosphere.

"**Ozone WatchAlert**" means an announcement by the DEQ that the ozone concentrations in the watchalert area are

forecasted to exceed the National Ambient Air Quality Standard. The Ozone ~~Watch~~Alert applies to the day following the announcement.

"Particulate Matter ~~Watch~~Alert," or **"PM ~~Watch~~Alert"** means an announcement by the DEQ that the particulate matter concentrations in the ~~watch~~alert area are forecasted to exceed the National Ambient Air Quality Standard. The PM ~~Watch~~Alert applies to the day following the announcement.

"Products of combustion" means all particulate and gaseous air contaminants emitted as a result of the burning of refuse and combustible materials.

"Refuse" means garbage, rubbish, domestic refuse and all other wastes generated by a trade, business, industry, building operation, or household.

~~**"Wood waste"** means untreated wood and untreated wood products, including tree stumps (whole or chipped), trees, tree limbs (whole or chipped), bark, sawdust, chips, scraps, slabs, millings, and shavings. Wood waste does not include:~~

- ~~(A) Grass, grass clippings, bushes, shrubs and clippings from bushes and shrubs from residential, commercial/retail, institutional, or industrial sources as part of maintaining yards or other private or public lands.~~
- ~~(B) Construction, renovation, or demolition wastes.~~
- ~~(C) Clean lumber.~~
- ~~(D) Treated wood and treated wood products, including wood products that have been painted, pigment stained, or pressure treated by compounds such as chromate copper arsenate, pentachlorophenol, and creosote, or manufactured wood products that contain adhesives or resins (e.g., plywood, particle board, flake board, and oriented strand board).~~

"Yard brush" means cut or broken branches, leaves, limbs, shrubbery, or tree trimmings. It does not include refuse, grass clippings, in-ground tree stumps, or any non-vegetative material.

252:100-13-5. Open burning prohibited

The open burning of refuse and combustible materials is prohibited unless conducted in strict accordance with the conditions and requirements contained in OAC 252:100-13-7, 252:100-13-8, 252:100-13-8.1, and 252:100-13-9. ~~Except as allowed in 252:100-13-8 (1), no person shall accept any material owned by other persons nor transport combustible material from where it is generated to another location in order to perform open burning. Under no circumstances shall the open burning of tires be allowed.~~

252:100-13-7. Allowed open burning

When not prohibited by law or ordinance, the following types of burning are allowed, provided the conditions and requirements in OAC 252:100-13-9 have been met:

- (1) **Fire training.** Open burning of human-made structures for the purpose of municipal fire department training

is allowed as provided for in the Oklahoma Clean Air Act, 27A O.S., Section 2-5-106.1. For any human-made structure, the entire structure, including, but not limited to, insulation, roofing, flooring, painted surfaces and plumbing, shall be examined for the presence of asphalt, asbestos, and lead-containing materials. All asphalt, asbestos, and lead-containing materials shall be removed from the structure prior to the fire training. Asbestos inspection and removal shall be conducted according to the requirements of federal law. Federal law requires a certified asbestos inspector, and notification of any activity that would breakup or dislodge asbestos, such as stripping or removal work, at least 10 working days prior to activity commencement, as specified in 40 CFR 61.145. Industrial and commercial facilities and fire training schools may conduct on-site live burn fire training.

- (2) **Elimination of hazards.** Provided prior authorization is obtained from the local fire chief, open burning is allowed for the elimination of:

- (A) A fire hazard that cannot be abated by any other means.
- (B) A dangerous or hazardous material when there is no other practical or lawful method of abatement or disposal, if authorization is also received from the DEQ prior to such burning.

- (3) **Recreational and ceremonial fires.** Open burning is allowed for camp fires and other fires used solely for recreational purposes, ceremonial occasions, or non-commercial preparation of food.

- (4) **Land management and land clearing operations.** Open burning is allowed for the following land management and land clearing operations:

- (A) Fires purposely set to forest, crop or range lands for a specific reason in the management of forests, crops, or game, in accordance with practices recommended by the Oklahoma Department of Wildlife Conservation, the Oklahoma Department of Agriculture, Food, and Forestry, and the United States Forest Service.

- (B) Fires purposely set for land clearing operations if conducted at least 500 feet ~~upwind~~ off from any occupied residence other than those located on the property on which the burning is conducted. Such burning shall be conducted using an air curtain incinerator in counties or areas that are or have been designated nonattainment, or in ~~the two~~ MSAs with a population of greater than nine hundred thousand people according to the latest federal decennial census. ~~The Oklahoma City MSA consists of Canadian, Cleveland, Grady, Lincoln, Logan, McClain, and Oklahoma Counties. The Tulsa MSA consists of Creek, Okmulgee, Osage, Pawnee, Rogers, Tulsa, and Wagoner Counties.~~

- (5) **Burning of domestic refuse.** Where no collection and disposal service is reasonably available, domestic refuse may be burned on the property where the waste is generated.

(6) **Hydrocarbon burning.** Open burning of hydrocarbons is allowed for:

(A) The disposal of spilled hydrocarbons or the waste products of oil exploration, development, refining, or processing operations which cannot be feasibly recovered or otherwise disposed of in a legal manner. Notice must be given to the DEQ prior to such burning.

(B) The disposal of waste hydrocarbons through a flare. The owner or operator shall be required to use a smokeless flare if a condition of air pollution is determined to exist by the DEQ.

(7) **Yard brush.** Yard brush may be burned ~~on the property where the waste is generated.~~

(8) **Certain medical marijuana plant refuse.** Commercial licensees, medical marijuana research facilities, and medical marijuana educational facilities, as those terms are defined in the Oklahoma Statutes at Section 428 of Title 63 titled, the Oklahoma Medical Marijuana Waste Management Act (Act), are allowed to open burn the parts of the marijuana plant grown to produce medical marijuana (as prescribed in Section 429 of Title 63 of the Act) that are exempted from the term "Medical marijuana waste" as defined in the Oklahoma Statutes at Section 428 of Title 63 of the Act.

252:100-13-8. Use of air curtain incinerators

(a) Except for hazardous material, any combustible material or refuse that is allowed to be burned under this Chapter may be burned in an air curtain incinerator that is properly designed and operated for the control of smoke and particulate matter. The owner or operator of an air curtain incinerator located in an MSA with a population of greater than nine hundred thousand people or in counties or areas that are or have been designated nonattainment shall not accept any material owned by other persons and shall not transport any material to the property where the air curtain incinerator is located in order to burn the material, except as provided in OAC 252:100-13-8(a)(1).

(1) The owner or operator of the air curtain incinerator located in an MSA with a population of greater than nine hundred thousand people or in counties or areas that are or have been designated nonattainment may accept and/or transport:

- (A) 100 percent wood waste,
- (B) 100 percent clean lumber, or
- (C) 100 percent mixture of wood waste and clean lumber.

(2) In addition to the requirements in this subchapter, the owner or operator of the air curtain incinerator must comply with the requirements of OAC 252:100-17 and 40 CFR Part 60.

(b) For land clearing operations and disposal of clean wood waste and yard brush, an ACI is not required except in counties or areas that are or have been designated nonattainment or in an MSA with a population of greater than nine hundred thousand according to the latest federal decennial census.

252:100-13-8.1. Transported material

(a) Combustible material obtained from land clearing operations, yard brush, and clean wood waste may be transported from where it is generated to another location in order to perform open burning. Material transported in order to perform open burning must meet the following conditions:

(1) The open burning shall not be conducted in counties or areas that are or have been designated nonattainment, or in MSAs with a population of greater than nine hundred thousand.

(2) The material shall be burned within 90 days of being transported.

(3) The volume of material shall not exceed 10,000 cubic feet.

(b) Except in accordance with OAC 252:100-13-8(a) or 252:100-13-8.1(a) above, no person shall accept any material owned by other persons nor transport combustible material from where it is generated to another location in order to perform open burning.

252:100-13-9. General conditions and requirements for allowed open burning

The open burning of refuse and other combustible material may be conducted only if the following conditions and requirements are met:

(1) No public nuisance is or will be created.

(2) The burning is controlled so that a visibility hazard is not created on any roadway, rail track or air field as a result of the air contaminants being emitted.

(3) The burning is conducted so that the contaminants do not adversely affect the ambient air quality of a city or town.

(4) The initial burning shall begin only between three hours after sunrise and three hours before sunset and additional fuel shall not be intentionally added to the fire at times outside these limits. This requirement does not apply to the open burning allowed under OAC 252:100-13-7(2), (3), (4)(A), (6)(B), and 252:100-13-8.

(5) An Ozone or PM ~~Watch~~ Alert has not been declared for the day of the burn for the MSA or county in which the burn is to be performed. This requirement does not apply to the open burning allowed under 252:100-13-7(2), (3), and (6)(B).

(6) Open burning of waste generated from commercial operations shall be conducted at least 500 feet from any occupied structure other than those located on the property on which the burning is conducted.

SUBCHAPTER 39. EMISSION OF VOLATILE ORGANIC COMPOUNDS (VOCs) IN NONATTAINMENT AREAS AND FORMER NONATTAINMENT AREAS

PART 7. SPECIFIC OPERATIONS

252:100-39-49. Manufacturing of fiberglass reinforced plastic products [REVOKED]

(a) Applicability.

- (1) This Section applies to any process gas stream with actual VOC emissions that exceed six tons per year based on 6,240 hours of operation per year.
- (2) Once the limit in 242:100-39-49(a)(1) is exceeded, the controls required in 252:100-39-49(b) must be put in place and maintained and used at any operating level.

(b) Standards. Affected facilities shall limit emissions of VOC from fiberglass manufacturing by use of control equipment which can demonstrate an 85 percent reduction in the VOC released from each process stream (e.g. 90 percent capture efficiency multiplied by 95 percent destruction efficiency equals 85.5 percent system efficiency).

(c) Compliance. All affected facilities must comply with one of the following:

- (1) Meet the requirements of 252:100-39-49(b) by February 13, 1991.
- (2) Have an approved plan for the reduction of VOC emissions as required by 252:100-39-49(b) by February 13, 1991.
 - (A) The plan shall be submitted by August 13, 1990, and shall:
 - (i) detail those emissions which will be controlled;
 - (ii) detail the means by which control will be achieved; and,
 - (iii) demonstrate that compliance will be achieved by February 13, 1992.
 - (B) The Air Quality Council shall have approval authority for the plans.
 - (C) All approved plans shall be submitted to the EPA as SIP revisions.

(d) Demonstration of compliance.

- (1) The Division Director may require at the expense of the owner or operator a demonstration of compliance with the requirements of 252:100-39-49(b).
- (2) The testing shall be accomplished using the appropriate EPA test method or methods. These include methods 1-4, 18-25, 25A, 25B and 40 CFR 60.444.
- (3) Initial compliance testing shall be accomplished within 180 days of the applicable compliance date.
- (4) Testing for the emissions plan described in 252:100-39-49(e)(2) shall be conducted at the expense of the owner or operator at his expense and shall demonstrate compliance with the emission limits contained in the approved plan.

(e) Recordkeeping.

- (1) The owner or operator of a facility subject to this Section shall submit to the Division Director upon written request, reports that include:
 - (A) details of specific VOC sources;
 - (B) the quantity of VOC used during specific months;
 - (C) a description of the VOC used;
 - (D) control equipment efficiencies;
 - (E) details of maintenance performed on all control equipment;
 - (F) equipment downtime; and,
 - (G) any other information pertinent to the calculation of VOC emissions from the facility.
- (2) The records required in 252:100-39-49(e)(1) shall be maintained by the source for at least two years. [252:100-39-49, Effective February 12, 1990]

APPENDIX Q. INCORPORATION BY REFERENCE [REVOKED]

APPENDIX Q. INCORPORATION BY REFERENCE [NEW]

Except as provided under OAC 252:100-2-3, the following provisions of Title 40 of the Code of Federal Regulations are hereby incorporated by reference as they existed on June 30, 2019, unless otherwise noted.

PART	SUBPART	DESCRIPTION
50	n/a	Appendix B to Part 50 - Reference Method for the Determination of Suspended Particulate Matter in the Atmosphere (High-Volume Method)
50	n/a	Appendix J to Part 50 - Reference Method for the Determination of Particulate Matter as PM ₁₀ in the Atmosphere

GIST/ANALYSIS:

The Department is proposing to amend Oklahoma Administrative Code (OAC) 252:100-17, Incinerators, to clarify the applicability of Part 9, Commercial and industrial solid waste incineration units (CISWI), to existing air curtain incinerators. The proposed changes to Subchapter 17 will be included as part of the required update to Oklahoma's Section 111(d)/129 plan. The gist of the proposed rulemaking is to update the rule in accordance with recent changes to the federal emission guidelines in 40 CFR Part 60, Subpart DDDD.

CONTACT PERSON:

Melanie Foster, Department of Environmental Quality, Air Quality Division, 707 North Robinson, P.O. Box 1677, Oklahoma City, Oklahoma 73101-1677, (405) 702-4100

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 15, 2020:**

SUBCHAPTER 17. INCINERATORS

**PART 9. COMMERCIAL AND INDUSTRIAL
SOLID WASTE INCINERATION UNITS**

**252:100-17-60. Effective date; applicability;
requirements**

(a) This Part applies to each individual commercial and industrial solid waste incineration (CISWI) unit that meets the criteria in paragraphs (a)(1) through (3) of this Section.

(1) Any CISWI unit or air curtain incinerator for which construction commenced on or before June 4, 2010, or for which modification or reconstruction commenced after June 4, 2010 but no later than August 7, 2013.

(2) Any incineration unit ~~incineration units~~ that ~~meet~~ meets the definition of a CISWI unit or an air curtain incinerator as both are defined in 40 CFR Section 60.2875.

(3) Incineration units that do not qualify as exempt under OAC 252:100-17-63.

(b) If the owner or operator of a CISWI unit or air curtain incinerator makes changes that meet the definition of modification or reconstruction on or after June 1, 2001, the CISWI unit is no longer subject to this Part and becomes subject to 40 CFR Part 60, Subpart CCCC, that has been incorporated by reference at 252:100-2-3.

(c) If the owner or operator of a CISWI unit or air curtain incinerator makes physical or operational changes to an existing CISWI unit or air curtain incinerator primarily to comply with this Part, such changes do not qualify as a modification or reconstruction.

(d) The owner or operator of a CISWI unit or air curtain incinerator subject to this Part shall comply with applicable portions of 40 CFR Part 60, Subpart DDDD (Sections 60.2575 through 60.2875) incorporated by reference in 252:100-2-3.

(1) CISWI units in the incinerator subcategory and air curtain incinerators that commenced construction on or before November 30, 1999 shall achieve final compliance by the December 1, 2005.

(2) CISWI units and air curtain incinerators that commenced construction after November 30, 1999, but on or before June 4, 2010, and CISWI units in the small remote incinerator, energy recovery unit, and waste-burning kiln subcategories that commenced construction before June 4, 2010 shall achieve final compliance as expeditiously as practicable after approval of the state plan but not later than the earlier of the two dates specified in paragraphs (d)(2)(A) and (B) of this subsection.

(A) February 7, 2018.

(B) Three years after the effective date of State plan approval.

(C) For compliance schedules approved under 40 CFR Section 60.2575 or 60.2815, the owner or operator ~~CISWI unit~~ shall submit a final control plan not more than 1 year following the effective date of State plan approval, and shall achieve final compliance as expeditiously as practicable, but not later than February 7, 2018 or three years after the effective date of State plan approval, whichever is earlier. Within the appropriate context, these dates shall be considered the "date(s) to be specified in state plan" wherever that phrase appears in the model rule and associated tables.

Permanent Final Adoptions

252:100-17-62. Terminology related to 40 CFR

(a) For purposes of interfacing with 40 CFR, the following terms apply:

- (1) **"Affected facility"** is synonymous with "commercial and industrial solid waste incinerator (CISWI)" or "CISWI unit" and "air curtain incinerator" or "ACI."
- (2) **"Administrator"** is synonymous with "Executive Director."

(b) The term "you" in the Model Rule of 40 CFR Sections 60.2575 through 60.2875, means the owner or operator of a CISWI unit or air curtain incinerator.

252:100-17-63. Exemptions

Except for required notifications as specified, the following types of individual combustion~~CISWI~~ units are exempt from the requirements of this Part.

(1) **Pathological waste incineration units.** Incineration units burning 90 percent or more by weight (on a calendar quarter basis and excluding the weight of auxiliary fuel and combustion air) of pathological waste, low-level radioactive waste, and/or chemotherapeutic waste as defined in 40 CFR Section 60.2875, if the owner or operator meets the two requirements specified in subparagraphs (1)(A) and (B) of this Section.

(A) Notifies the DEQ that the unit meets these criteria.

(B) Keeps records on a calendar quarter basis of the weight of pathological waste, low level radioactive waste and/or chemotherapeutic waste burned, and the weight of all other fuels and wastes burned in the unit.

(2) **Municipal waste combustion units.** Incineration units that are subject to Part 5 of this Subchapter or 40 CFR Part 60, Subpart Ea (Standards of Performance for Municipal Waste Combustors); Subpart Eb (Standards of Performance for Large Municipal Waste Combustors); or Subpart AAAA (Standards of Performance for Small Municipal Waste Combustion Units).

(3) **Medical waste incineration units.** Incineration subject to Part 7 of this Subchapter or 40 CFR Part 60, Subpart Ec (Standards of Performance for Hospital/Medical/Infectious Waste Incinerators for Which Construction is Commenced After June 20, 1996).

(4) **Small power production facilities.** Units that meet the three requirements specified in subparagraphs (4)(A) through (D) of Section.

(A) The unit qualifies as a small power-production facility under Section 3(17)(C) of the Federal Power Act (16 U.S.C. 796(17)(C)).

(B) The unit burns homogeneous waste (not including refuse-derived fuel) to produce electricity.

(C) The owner or operator notifies the DEQ that the unit meets all of these criteria.

(D) The owner or operator maintains the records specified in 40 CFR Section 60.2740(v).

(5) **Cogeneration facilities.** Units that meet the three requirements specified in subparagraphs (5)(A) through (D) of this Section.

(A) The unit qualifies as a cogeneration facility under Section 3(18)(B) of the Federal Power Act (16 U.S.C. 796(18)(B)).

(B) The unit burns homogeneous waste (not including refuse-derived fuel) to produce electricity and steam or other forms of energy used for industrial, commercial, heating, or cooling purposes.

(C) The owner or operator notifies the DEQ that the unit meets all of these criteria.

(D) The owner or operator maintains the records specified in 40 CFR Section 60.2740(w).

(6) **Hazardous waste combustion units.** Incineration units for which the owner or operator is required to get a permit under Section 3005 of the Solid Waste Disposal Act.

(7) **Materials recovery units.** Units that combust waste for the primary purpose of recovering metals, such as primary and secondary smelters.

~~(8) **Air curtain incinerators.** Certain air curtain incinerators are exempt from portions of this Part (see 252:100-17-74).~~

(89) **Sewage treatment plants.** Incineration units regulated under 40 CFR Part 60, Subpart O (Standards of Performance for Sewage Treatment Plants).

~~(94)~~ **Sewage sludge incineration units.** Incineration units that combust sewage sludge for the purpose of reducing the volume of the sewage sludge by removing combustible matter and that are subject to 40 CFR Part 60, Subpart LLLL (Standards of Performance for Sewage Sludge Incineration Units).

~~(104)~~ **Other solid waste incineration units.** Incineration units that are subject to Part 11 of this Subchapter or 40 CFR Part 60, Subpart EEEE (Standards of Performance for Other Solid Waste Incineration Units).

252:100-17-74. Air curtain incinerators

Air curtain incinerators that burn only the materials listed in paragraphs (1) through (3) of this subsection are only required to meet the requirements set forth in 40 CFR Sections 60.2805 and 60.2810 through 60.2870.

(1) 100 percent wood waste.

(2) 100 percent clean lumber.

(3) 100 percent mixture of only wood waste, clean lumber, and/or yard waste.

GIST/ANALYSIS:

The Department is proposing to add a new section 252:100-37-27, Control of emission of VOCs from aerospace industries coatings operations, for existing or new aerospace vehicle and component coating operations at aerospace manufacturing, rework, or repair facilities. The new section would allow aerospace coating facilities throughout Oklahoma to be regulated under rules specific to the industry as is presently done in section 252:100-39-47 for Tulsa County. Currently, VOC emissions from coating operations at any type of industry are regulated under 252:100-37-25. The new section would reference certain limits set forth in the aerospace National Emissions Standards for Hazardous Air Pollutants (NESHAP) 40 CFR Part 63, Subpart GG, which are more applicable for this particular industry than the current generic list in 252:100-37-25. Additionally, the Department is proposing to amend 252:100-39-47 to correct minor typographical errors, incorporate the latest changes to the aerospace NESHAP, and clarify regulatory language within the rule. Lastly, the Department is proposing to revoke Appendix N and replace it with a new Appendix N to correct minor typographical errors and specify its intended use for both sections 252:100-39-47 and 252:100-37-27.

The gist of this rulemaking (252:100-37-27, 252:100-39-47, and Appendix N) is to provide the aerospace industry with updated requirements that better reflect current aerospace industry coating formulations and practices, and to make those rules applicable statewide. This rulemaking would ensure the aerospace industry in Oklahoma has the opportunity to operate as necessary with standards specific to the industry and consistent with rules already in place for Tulsa County to reduce the formation of ozone.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 15, 2020:**

**SUBCHAPTER 37. CONTROL OF EMISSION OF
VOLATILE ORGANIC COMPOUNDS (VOCs)**

**PART 5. CONTROL OF VOCs IN COATING
OPERATIONS**

**252:100-37-27. Control of emission of VOCs from
aerospace industries coatings operations**

(a) Applicability.

(1) Except as noted in OAC 252:100-37-27(a)(2) through (4), this Section applies to existing or new aerospace vehicle and component coating operations at aerospace manufacturing, rework, or repair facilities. For purposes of this Section, coating operations include associated cleaning operations as specified in OAC 252:100-37-27(c)(4) and surface preparation. This includes but is not limited to facilities subject to federal standards, primarily the aerospace NESHAP 40 CFR Part 63, Subpart GG, as cited in this Section and incorporated by reference in OAC 252:100-2 and Appendix Q to Chapter 100. Coating operations subject to this Section are exempt from the requirements of OAC 252:100-37-25.

(2) This Section does not apply to manufacturing, rework, or repair operations involving space vehicles or rework or repair operations performed on antique aerospace vehicles or components.

(3) This Section does not apply to the following activities: research and development, quality control, laboratory testing, and electronic parts and assemblies (except for cleaning and coating of completed assemblies).

(4) This Section does not apply to facilities that emit from coating operations less than 100 pounds of VOC per 24-hour day, on a monthly average.

(5) Compliance with 40 CFR Part 63, Subpart GG is deemed to be compliance with all requirements of this Section.

(b) Definitions. Definitions of terms used in this Section are found in Section 63.742 and Appendix A of 40 CFR Part 63, Subpart GG, as incorporated by reference in OAC 252:100-2 and Appendix Q to Chapter 100.

(c) Standards and requirements. Coating operations subject to this section shall comply with the requirements specified in paragraph (1) of this subsection for operations uncontrolled for VOC, and in paragraph (3) of this subsection for operations that are controlled for VOC. All coating operations subject to this section shall comply with paragraphs (2), (4), and (5) of this subsection.

(1) **VOC content of coatings.** Each owner or operator of coating operations that are uncontrolled shall comply with the VOC content limits specified in paragraphs (c)(1)(A) through (C).

(A) **VOC content limits for specialty coatings.**

(i) No specialty coatings that contain VOC in excess of the limits specified in Appendix N of this Chapter shall be applied to aerospace vehicles or components. The VOC content of specialty coatings shall include any VOC-containing materials added to the original coating supplied by the manufacturer.

(ii) The VOC content limits listed in Appendix N of this Chapter do not apply to touch-up, aerosol, and United States Department of Defense (DOD) "classified" coatings.

(B) **VOC content limits for primers and topcoats.** Each coating operation utilizing primers and topcoats (including self-priming topcoats) that are not specialty coatings listed in Appendix N of this Chapter, shall comply with the VOC content limits contained in 40 CFR Sections 63.745(c)(2) and (c)(4).

(C) **VOC content limits for chemical milling maskants.** Each chemical milling maskant operation utilizing chemical milling maskants (Type I/II) that are not specialty coatings listed in Appendix N of this Chapter, shall comply with the VOC content limits contained in 40 CFR Section 63.747(c)(2) and the exemptions in 40 CFR Section 63.747(c)(3).

(D) **Exemption of low volume coating usage.** The requirements of OAC 252:100-37-27(c)(1) do not apply to the use of primers, topcoats, chemical milling maskants, and specialty coatings for which the annual total of each separate formulation used at the facility does not exceed 50 gallons and the combined annual total of all such primers, topcoats, chemical milling maskants, and specialty coatings used at the facility does not exceed 200 gallons. Primers, topcoats, and chemical milling maskants exempt under OAC 252:100-37-27(a) are not included in the 50 and 200 gallon limits.

(E) **Compliance determination.**

(i) Coatings used at facilities subject to this Section shall be deemed in compliance when the VOC content of these coatings as applied comply with the requirements of OAC 252:100-37-27(c)(1).

(ii) For purposes of determining compliance with content limits in OAC 252:100-37-27(c)(1), VOC will be measured by the approved test methods. Where such a method also inadvertently measures compounds that are exempt solvents, an owner or operator may exclude these exempt solvents when determining compliance with an emission standard.

(2) **Application equipment.** Each primer, topcoat, or specialty coating application operation subject to this Section shall comply with the requirements and exemptions specified in 40 CFR Section 63.745(f).

(3) **Control equipment.**

(A) Coating operations that use a control method for compliance with this section shall comply with paragraph (i) or (ii):

(i) **Control equipment efficiency.** Each owner or operator shall control VOC emissions by using approved air pollution control equipment with a combined VOC emissions capture and control equipment efficiency of 81% or greater by weight.

(ii) **Alternative control method.** Each owner or operator shall comply with the control requirements in 40 CFR Section 63.745(d) for any primer, topcoat, or specialty coating operation or 40 CFR Section 63.747(d) for any chemical milling maskant operation.

(B) **Compliance determination.** When control equipment is used to comply with this section, compliance shall be determined in accordance with 40 CFR Section 63.749(d) and (h).

(4) **Housekeeping measures and solvent cleaning operations.** Housekeeping measures and solvent cleaning operations (hand-wipe cleaning, spray gun cleaning, and flush cleaning) subject to this Section shall comply with the requirements and exemptions contained in 40 CFR Section 63.744. Housekeeping measures and solvent cleaning operations shall be considered in compliance when the requirements in 40 CFR Section 63.749(c) are met. Housekeeping measures and solvent cleaning operations subject to this Section are exempt from the requirements of OAC 252:100-39-42.

(5) **General standards.** The handling and transfer of primers, topcoats, specialty coatings, and chemical milling maskants to or from containers, tanks, vats, vessels, and piping systems shall be handled in a manner that minimizes spills.

(d) **Recordkeeping requirements.** The owner or operator of a facility subject to this Section shall submit to the Division Director or personnel of DEQ upon request reports detailing specific VOC sources; the quantity of coatings used for a specific time period; VOC content of each coating; capture and control efficiencies; and any other information pertinent to the calculation of VOC emissions. The data necessary to supply the requested information shall be retained by the owner or operator for a minimum of two years.

SUBCHAPTER 39. EMISSION OF VOLATILE ORGANIC COMPOUNDS (VOCs) IN NONATTAINMENT AREAS AND FORMER NONATTAINMENT AREAS

PART 7. SPECIFIC OPERATIONS

252:100-39-47. Control of VOC emissions from aerospace industries coatings operations

(a) **Applicability.**

(1) Except as noted in OAC 252:100-39-47(a)(2) and (3), this Section applies to existing or new aerospace vehicle and component coating operations at aerospace manufacturing, rework, or repair facilities located in Tulsa County that have the potential to emit 10 TPY or more or actual emissions of 100 pounds or more per 24-hour day, on a monthly average, of VOC from coating operations. For purposes of this Section, coating operations include associated cleaning operations as specified in OAC 252:100-39-47(d)(4) and surface preparation. Coating operations subject to this Section are exempt from the requirements of OAC 252:100-37-25 and 252:100-37-27.

(2) This Section does not apply to manufacturing, rework, or repair operations involving space vehicles or rework or repair operations performed on antique aerospace vehicles or components.

(3) This Section does not apply to the following activities: research and development, quality control, laboratory testing, and electronic parts and assemblies (except for cleaning and coating of completed assemblies).

(4) Compliance with 40 CFR Part 63, Subpart GG is deemed to be compliance with all requirements of this Section.

(b) **References to 40 CFR.** References to the aerospace NESHAP 40 CFR Part 63, ~~subpart~~ Subpart GG refers to that subpart as it existed on ~~July 1, 2001~~ August 3, 2016.

(c) **Definitions.** ~~The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise. Additional definitions for Definitions of terms used in this Section are found in 40 CFR §Section 63.742 and Appendix A of the aerospace NESHAP 40 CFR Part 63, subpart~~ Subpart GG, which is ~~adopted~~ incorporated by reference in OAC 252:100-41-15(b), OAC 252:100-2 and Appendix Q to Chapter 100.

(1) ~~"Alternate reasonably available control technology (ARACT)" means the lowest emission limit that a particular source is capable of meeting by the application of control technology that is reasonably available considering technological and economic feasibility as determined on a case-by-case basis.~~

(2) ~~"Chemical milling maskant" means a coating that is applied directly to aluminum components to protect surface areas when chemical milling the component with a Type I or II etchant. Type I chemical milling maskants are used with a Type I etchant and Type II chemical milling maskants are used with a Type II etchant. This definition does not include bonding maskants, critical use and line sealer maskants, and seal coat maskants. Additionally, maskants that must be used with a combination of Type I or II etchants and any of the above types of maskants (i.e., bonding, critical use and line sealer, and seal coat) are not included. Maskants that are defined as specialty coatings are not included under this definition.~~

(3) ~~"Operating parameter value" means a minimum or maximum value established for a control equipment or process parameter that, if achieved by itself or in combination with one or more other operating parameter values, determines that an owner or operator has continued to comply with an applicable emission limitation.~~

(4) ~~"Reasonably available control technology" or "RACT" means control technology that is reasonably available considering technological and economic feasibility and the need to impose such controls to attain and maintain a National Ambient Air Quality Standard.~~

(5) ~~"Specialty coating" means a coating that, even though it meets the definition of a primer, topcoat, or self-priming topcoat, has additional performance criteria beyond those of primers, topcoats, and self-priming topcoats for specific applications. These performance criteria may include, but are not limited to, temperature or fire resistance, substrate compatibility, antireflection, temporary protection or marking, sealing, adhesively joining substrates, or enhanced corrosion protection.~~

(d) **Standards and requirements.** Coating operations subject to this section shall comply with the requirements specified in paragraph (1) of this subsection for operations uncontrolled for VOC, and in paragraph (3) of this subsection for operations that are controlled for VOC. All coating operations subject to this section shall comply with paragraphs (2), (4), and (5) of this subsection.

(1) **VOC content of coatings.** Each owner or operator of coating operations that are uncontrolled shall comply with the VOC content limits specified in paragraphs (d)(1)(A) through (C).

(A) **VOC content limits for specialty coatings.**

(i) No specialty coatings that contain VOC in excess of the limits specified in Appendix N of this Chapter shall be applied to aerospace vehicles or components. The VOC content of specialty coatings shall include any VOC-containing materials added to the original coating supplied by the manufacturer.

(ii) The VOC content limits listed in Appendix N of this Chapter do not apply to touch-up, aerosol, and United States Department of Defense (DOD) ~~DOD~~ "classified" coatings.

(B) **VOC content limits for primers and topcoats.** Each coating operation utilizing primers and topcoats (including self-priming topcoats) that are not specialty coatings listed in Appendix N of this Chapter, shall comply with the VOC content limits contained in §40 CFR Section 63.745(c)(2) and (c)(4) of the aerospace NESHAP 40 CFR 63, subpart GG.

(C) **VOC content limits for chemical milling maskants.** Each chemical milling maskant operation utilizing chemical milling maskants (Type I/II) that are not specialty coatings listed in Appendix N of this Chapter, shall comply with the VOC content limits contained in §40 CFR Section 63.747(c)(2) and the exemptions in §40 CFR Section 63.747(c)(3) of the aerospace NESHAP 40 CFR 63 subpart GG.

(D) **Exemption of low volume coating usage.** The requirements of OAC 252:100-39-47(d)(1) do not apply to the use of primers, topcoats, chemical milling maskants, and specialty coatings for which the annual total of each separate formulation used at the facility does not exceed 50 gal and the combined annual total of all such primers, topcoats, chemical milling maskants, and specialty coatings used at the facility does not exceed 200 gal. Primers, topcoats, and chemical milling maskants exempt under OAC 252:100-39-47(a) are not included in the 50 and 200 gal limits.

(E) **Compliance determination.**

(i) Coatings used at facilities subject to this Section shall be deemed in compliance when the VOC content of these coatings comply with the requirements of OAC 252:100-39-47(d)(1).

(ii) For purposes of determining compliance with ~~emission content~~ limits in OAC 252:100-39-47(d)(1), VOC will be measured by the approved test methods. Where such a method also inadvertently measures compounds that are exempt solvents, an owner or operator may exclude these exempt solvents when determining compliance with an emission standard.

(2) **Application equipment.**

(A) ~~Each primer, or topcoat, or specialty coating application operation subject to this Section shall comply with the requirements and exemptions specified in §40 CFR Section 63.745(f) of the aerospace NESHAP 40 CFR 63 subpart GG.~~

(B) ~~Specialty coatings are not subject to the equipment requirements of OAC 252:100-39-47(d)(2)(A).~~

(3) **Control equipment.**

(A) Coating operations that use a control method for compliance with this section shall comply with paragraph (i) or (ii):

(Ai) **Control equipment efficiency.** Each owner or operator ~~may comply with the provisions of OAC 252:100-39-47(d)(1) shall control VOC emissions~~ by using approved air pollution control equipment ~~provided that the control equipment has~~ with a combined VOC emissions capture and control equipment efficiency of 81% or greater by weight.

(Bii) **Exemption Alternative control method.** ~~Except for specialty coatings, Each owner or operator shall comply with the control requirements in 40 CFR Section 63.745(d) for any primer, or topcoat, or specialty coating operation that complies with the control requirements in § 63.745(d) or 40 CFR Section 63.747(d) for any chemical milling maskant operation that complies with the control requirements of § 63.747(d) of the aerospace NESHAP 40 CFR 63 subpart GG is deemed to be in compliance with the requirements of OAC 252:100-39-47(d)(3).~~

(CB) **Compliance determination.** When control equipment is used to comply with ~~the coating standards in OAC 252:100-39-47(d)(1) this section,~~ compliance shall be determined in accordance with §40 CFR Section 63.749(d) and (h) of the aerospace NESHAP 40 CFR 63 subpart GG.

(4) **Housekeeping measures and solvent cleaning operations.**

(A) Housekeeping measures and solvent cleaning operations (hand-wipe cleaning, spray gun cleaning, and flush cleaning) subject to this Section shall comply with the requirements and exemptions contained in §40 CFR Section 63.744 of the aerospace NESHAP 40 CFR 63 subpart GG.

(B) Housekeeping measures and solvent cleaning operations subject to OAC 252:100-39-47(d)(4)(A) shall be considered in compliance with subparagraph (A) when the requirements in §40 CFR Section 63.749(c) of the aerospace NESHAP 40 CFR 63 subpart GG are met.

(C) Housekeeping measures and solvent cleaning operations subject to this Section are exempt from the requirements of OAC 252:100-39-42.

(5) **General standards.** The handling and transfer of primers, topcoats, and chemical milling maskants to or from containers, tanks, vats, vessels, and piping systems shall be handled in a manner that minimizes spills.

(e) **Monitoring.**

(1) Each owner or operator who chooses to comply with the VOC content limits of OAC 252:100-39-47(d)(1)(A), (B), and /or (C) by using approved air pollution control equipment shall submit a monitoring plan that specifies the applicable operating parameter value, or range of values, to ensure ongoing compliance with OAC 252:100-39-47(d)(3) of this Section. The monitoring device shall be installed, calibrated, operated, and maintained in accordance with the manufacturer's specifications.

(2) Each owner or operator using an enclosed spray gun cleaner shall visually inspect the seals and all other potential sources of leaks at least once per month. Each inspection shall occur while the spray gun cleaner is in operation.

(3) ~~Except for specialty coatings, any~~ Any source that complies with the monitoring requirements of §40 CFR Section 63.751 of the aerospace NESHAP 40 CFR 63 subpart GG is deemed to be in compliance with the requirements of OAC 252:100-39-47(e).

(f) **Recordkeeping requirements.**

(1) **Coating operations.**

(A) Each owner or operator of primer and topcoat application operations or chemical milling maskant application operations shall comply with the recordkeeping requirements of §40 CFR Section 63.752 of the aerospace NESHAP 40 CFR 63 subpart GG as appropriate.

(B) Each owner or operator of coating operations using specialty coatings listed in Appendix N of this

Chapter shall comply with the following recordkeeping requirements.

- (i) They shall maintain a current list of coatings in use showing category and as-applied VOC content of each coating.
- (ii) They shall record coating usage on an annual basis. Methods used may include, but are not limited to, inventory records.
- (2) **Cleaning operations.** Each owner or operator subject to the solvent cleaning operation requirements in OAC 252:100-39-47(d)(4) shall:
 - (A) for hand-wipe cleaning operations, keep the records required by §40 CFR Section 63.752(b)(2), (3), and/or (4) of the aerospace NESHAP 40 CFR 63 subpart GG as appropriate;
 - (B) for enclosed spray gun cleaning operations, keep the records required by §40 CFR Section 63.752(b)(5) of the aerospace NESHAP 40 CFR 63 subpart GG.
- (3) **Control equipment.** Each owner or operator using control equipment under OAC 252:100-39-47(d)(3) shall record monitoring parameters as specified in the monitoring plan required under OAC 252:100-39-47(e)(1).
- (4) **ExemptionsAlternative recordkeeping compliance.** Except for specialty coatings listed in Appendix N of this Chapter, anyAny source that complies with the recordkeeping requirements of §40 CFR Section 63.752 of the aerospace NESHAP, 40 CFR 63 subpart GG is deemed to be in compliance with the requirements of OAC 252:100-39-47(f).
- (g) **Test methods.**
 - (1) **Coatings which are not waterborne (water-reducible).** For coatings which are not waterborne, determine the VOC content of each formulation (less water and less exempt solvents) as applied using manufacturer's supplied data or Method 24 of 40 CFR Part 60, Appendix A. If there is a discrepancy between the manufacturer's formulation data and the results of the Method 24 analysis, compliance shall be based on the results from the Method 24 analysis.
 - (2) **Waterborne (water-reducible) coatings.** For waterborne coatings, manufacturer's supplied data alone can be used to determine the VOC content of each formulation.
 - (3) **Cleaning solvents.** Solvent composition and vapor pressure for cleaning solvents used in hand-wipe cleaning

operations subject to OAC 252:100-39-47(d)(4)(A) shall be determined as specified in §40 CFR Section 63.750(a) and (b) of the aerospace NESHAP 40 CFR 63 subpart GG.

(4) **Control equipment.** Measurements of VOC emissions from control equipment as allowed by OAC 252:100-39-47(d)(3) shall be conducted in accordance with EPA Methods 18, 25, and/or 25A of 40 CFR Part 60, Appendix A.

(5) **ExemptionsAlternative test method compliance.** Except for specialty coatings, anyAny source that complies with the test method requirements of §40 CFR Section 63.750 of the aerospace NESHAP 40 CFR 63 subpart GG is deemed to be in compliance with the requirements of this subsectionOAC 252:100-39-47(g).

(h) **Compliance date.**

(1) The requirements of this Section shall be considered reasonably available control technology (RACT) for control of VOC emissions from vehicle and component coating operations at aerospace manufacturing, rework, or repair facilities in Tulsa County ~~upon the effective date of this revision~~. New or modified sources shall be in compliance upon start-up.

(2) ~~Except for specialty coatings, anyAny source that complies with the compliance dates and determinations of §40 CFR Section 63.749 of the aerospace NESHAP, 40 CFR 63 subpart GG is deemed to be in compliance with the requirements of OAC 252:100-39-47(h).~~

~~(3) Owners or operators of facilities with specialty coatings that are compliant under the ARACT plan, but are not compliant with the VOC content limits contained in Appendix N of this Chapter will have six (6) months from the effective date of this revision to find an alternate coating or install controls. Owners or operators of such facilities shall notify the DEQ in writing of any such noncompliant specialty coatings within 90 days of the effective date of this revision. This notification shall include a list of the noncompliant specialty coatings, the VOC content of each coating, and the quantity of each coating used per month and per year.~~

(i) **Revocation of ARACT plans.** Existing ARACT plans for aerospace facilities located in Tulsa County shall become null and void upon the effective date of this revision.

APPENDIX N. SPECIALTY COATINGS VOC CONTENT LIMITS [REVOKED]

APPENDIX N. SPECIALTY COATINGS VOC CONTENT LIMITS [NEW]

The following table is for use only in OAC 252:100-37-27 and OAC 252:100-39-47.

SPECIALTY COATINGS VOC CONTENT LIMITS

Coating Type	Limit	
	lb/gal	g/l ¹
Ablative Coating	5.0	600
Adhesion Promoter	7.4	890
Adhesive Bonding Primers:		
Cured at 250°F or below	7.1	850
Cured above 250°F	8.6	1,030
Adhesives:		
Commercial Interior Adhesive	6.3	760
Cyanoacrylate Adhesive	8.5	1,020
Fuel Tank Adhesive	5.2	620
Nonstructural Adhesive	3.0	360
Rocket Motor Bonding Adhesive	7.4	890
Rubber-based Adhesive	7.1	850
Structural Autoclavable Adhesive	0.5	60
Structural Nonautoclavable Adhesive	7.1	850
Antichafe Coating	5.5	660
Bearing Coating	5.2	620
Caulking and Smoothing Compounds	7.1	850
Chemical Agent-Resistant Coating	4.6	550
Clear Coating	6.0	720
Commercial Exterior Aerodynamic Structure Primer	5.4	650

Coating Type	Limit	
	lb/gal	g/l ¹
Compatible Substrate Primer	6.5	780
Corrosion Prevention System	5.9	710
Cryogenic Flexible Primer	5.4	645
Cryoprotective Coating	5.0	600
Dry Lubricative Material	7.3	880
Electric or Radiation-Effect Coating	6.7	800
Electrostatic Discharge and Electromagnetic Interference (EMI) Coating	6.7	800
Elevated-Temperature Skydrol-Resistant Commercial Primer	6.2	740
Epoxy Polyamide Topcoat	5.5	660
Fire-Resistant (Interior) Coating	6.7	800
Flexible Primer	5.3	640
Flight-Test Coatings		
Missile or Single Use Aircraft	3.5	420
All Other	7.0	840
Fuel-Tank Coating	6.0	720
High-Temperature Coating	7.1	850
Insulation Covering	6.2	740
Intermediate Release Coating	6.3	750
Lacquer	6.9	830
Maskants:		
Bonding Maskant	10.3	1,230
Critical Use and Line Sealer Maskant	8.5	1,020
Seal Coat Maskant	10.3	1,230
Metallized Epoxy Coating	6.2	740
Mold Release	6.5	780
Optical Anti-Reflective Coating	6.3	750

Coating Type	Limit	
	lb/gal	g/l ¹
Part Marking Coating	7.1	850
Pretreatment Coating	6.5	780
Rain Erosion-Resistant Coating	7.1	850
Rocket Motor Nozzle Coating	5.5	660
Scale Inhibitor	7.3	880
Screen Print Ink	7.0	840
Sealants:		
Extrudable/Rollable/Brushable Sealant	2.3	280
Sprayable Sealant	5.0	600
Silicone Insulation Material	7.1	850
Solid Film Lubricant	7.3	880
Specialized Function Coating	7.4	890
Temporary Protective Coating	2.7	320
Thermal Control Coating	6.7	800
Wet Fastener Installation Coating	5.6	675
Wing Coating	7.1	850

¹Coating limits expressed in terms of mass (grams) of VOC per volume (liters) of coating less water and less exempt solvent using Equation 1 below.

EQUATION 1

Grams of VOC per liter of coating (less water and less exempt solvent) shall be calculated using the following formula:

$$\text{g/l} = (W_s - W_w - W_{es}) / (V_s - V_w - V_{es})$$

Where:

W_s = weight of total volatiles in grams

W_w = weight of water in grams

W_{es} = weight of exempt compounds in grams

V_s = volume of coating in liters

V_w = volume of water in liters

V_{es} = volume of exempt compounds in liters

[OAR Docket #20-705; filed 7-27-20]

TITLE 252. DEPARTMENT OF ENVIRONMENTAL QUALITY CHAPTER 205. HAZARDOUS WASTE MANAGEMENT

[OAR Docket #20-706]

RULEMAKING ACTION:

PERMANENT final adoption

RULES:

Subchapter 3. Incorporation by Reference
252:205-3-1. Reference to 40 CFR [AMENDED]
252:205-3-2. Incorporation by reference [AMENDED]
252:205-3-4. Terminology related to 40 CFR [AMENDED]
Subchapter 5. Additional Generator Requirements
252:205-5-2. SQG exemption from disposal plan requirements [AMENDED]

AUTHORITY:

Environmental Quality Board and Hazardous Waste Management Advisory Council; 27A O.S. §§ 2-2-101, 2-2-104, 2-2-201, 2-7-105 and 2-7-106.

SUBMISSION OF PROPOSED RULES TO GOVERNOR AND CABINET SECRETARY:

August 6, 2019

COMMENT PERIOD:

September 3, 2019 through October 10, 2019

PUBLIC HEARING(S):

October 10, 2019, Hazardous Waste Management Advisory Council
February 21, 2020, Environmental Quality Board

ADOPTION:

February 21, 2020

SUBMISSION OF ADOPTED RULES TO GOVERNOR AND LEGISLATURE:

February 28, 2020

APPROVED BY GOVERNOR'S DECLARATION:

Approved by Governor's declaration on June 25, 2020

FINAL ADOPTION:

June 25, 2020

EFFECTIVE:

September 15, 2020

SUPERSEDED EMERGENCY ACTIONS:

N/A

INCORPORATION BY REFERENCE:

Incorporated standards:

Date of 40 CFR provisions incorporated by reference in these rules is changed to "as amended through July 1, 2019".

Incorporating rules:

252:205-3-1 and 3-2

Availability:

The standards are on file at the Department of Environmental Quality, 707 North Robinson, Oklahoma City, Oklahoma, 73102, and are available to the public for examination Monday through Friday between the hours of 8:00 a.m. and 4:30 p.m., excluding state holidays.

GIST/ANALYSIS:

The gist of this rulemaking is to make DEQ's hazardous waste rules consistent with the federal regulations by incorporating by reference the regulations found in 40 CFR Parts 124 and 260-279, revised as of July 1, 2019. Changes to federal rules during this time period address the safe management of recalled (vehicle) airbags and revised management standards for hazardous waste pharmaceuticals which include an amendment to the hazardous waste listing for nicotine. Additionally, minor changes to specific subchapters are required in response to comments received from EPA. These changes regard errors identified during a review of RCRA (Authorization) Cluster XXV. This rulemaking will ensure that Oklahoma's hazardous waste rules are at least equivalent to the federal rules.

CONTACT PERSON:

Mike Edwards, Department of Environmental Quality, Land Protection Division, 707 North Robinson, P.O. Box 1677, Oklahoma City, Oklahoma 73101-1677, (405) 702-5100 (phone), mike.edwards@deq.ok.gov (email).

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED

FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 15, 2020:

SUBCHAPTER 3. INCORPORATION BY REFERENCE

252:205-3-1. Reference to 40 CFR

When reference is made to Title 40 of the Code of Federal Regulations (40 CFR), it shall mean (unless otherwise specified):

- (1) the Hazardous Waste Regulations, Monday, May 19, 1980, as amended through July 1, 2018, and
- (2) the revisions to 40 CFR published at 80 FR 1694-1814 (January 13, 2015), "Definition of Solid Waste: Final Rule," except as identified in 252:205-3-2, and the revisions to 40 CFR published at 83 FR 2464-24671 (May 30, 2018), "Response to Vacatur of Certain Provisions of the Definition of Solid Waste Rule."

252:205-3-2. Incorporation by reference

(a) **Part 124.** Procedures For Decision Making, those sections required by 40 CFR 271.14, with the following additions:

- (1) § 124.19(a) through (c) and (e);
- (2) §§ 124.31, 124.32, & 124.33, substituting DEQ for EPA, and deleting the following sentence from paragraph (a) of each section: "For the purposes of this section only, 'hazardous waste management units over which EPA has permit issuance authority' refers to hazardous waste management units for which the State where the units are located has not been authorized to issue RCRA permits pursuant to 40 CFR Part 271"; and
- (3) Subpart G.

(b) **Part 260.** Hazardous Waste Management System: General, except 260.21.

- (1) In 260.20, "Federal Register" is synonymous with "The Oklahoma Register."
- (2) In 260.20(e), strike the words "or a denial."
- (3) In 260.22, references to the lists in Subpart D of Part 261 and the reference to §261.3(a)(2)(ii) or (c) shall mean the lists in Subpart D of Part 261 and § 261.3(a)(2)(ii) or (c) as adopted by reference and applicable in Oklahoma.
- (4) In the 260.10 definitions of "new tank system" and "existing tank system", the reference to "July 14, 1986" for commencement of tank installation applies only to tank regulations promulgated pursuant to the federal Hazardous and Solid Waste Amendment ("HSWA") requirements. The following categories outline HSWA requirements:

- (A) interim status and permitting requirements applicable to tank systems owned and operated by small quantity generators [3001(d)];
- (B) leak detection requirements for all new underground tank systems [3004(o)(4)]; and
- (C) permitting standards for underground tanks that cannot be entered for inspection [3004(w)]. For tank regulations promulgated pursuant to statutory

- authority other than HSWA, the date relative to the commencement of installation is November 2, 1987.
- (c) **Part 261.** Identification and Listing of Hazardous Waste except ~~261.4(b)(18) and~~ 261.150.
- (1) In 261.4(e)(3)(iii) delete "in the Region where the sample is collected".
 - (2) In 261.31(a), the listing for F019, add at the end: "Zinc phosphate sludges meeting exemption conditions remain subject to regulation as hazardous waste if the waste exhibits a hazardous waste characteristic".
- (d) **Part 262.** Standards Applicable to Generators of Hazardous Waste except ~~Subpart E and~~ Subpart H. In 262.42(a)(2) and 262.42(b) delete "for the Region in which the generator is located". In 262.14(a)(5)(iv) and (v), add "other than Oklahoma" after the word "State".
- (e) **Part 263.** Standards Applicable to Transporters of Hazardous Waste.
- (f) **Part 264.** Standards for Owners and Operators of Hazardous Waste Treatment, Storage, and Disposal Facilities. The following sections and subsections are not adopted by reference: 264.1(f), 264.1(g)(12), 264.149, 264.150, 264.301(l), 264.1030(d), 264.1050(g), 264.1080(e), 264.1080(f), and 264.1080(g).
- (1) In 264.191(a), the compliance date of January 12, 1988 applies only for HSWA tanks. For non-HSWA tanks the compliance date is November 2, 1988.
 - (2) In 264.191(c), the reference to July 14, 1986 applies only to HSWA tanks. For non-HSWA tanks the applicable date is November 2, 1987.
 - (3) ~~In 264.193, the Federal effective dates apply to HSWA tanks only. For non HSWA tanks January 12, 1987 is replaced with November 2, 1987.~~
 - (4) In 264.570(a) the dates December 6, 1990 and December 24, 1992 apply only to drip pads where F032 waste is handled. The dates June 22, 1992 and August 15, 1994 respectively, replace the dates December 6, 1990 and December 24, 1992 for drip pads where F034 or F035 wastes are handled.
- (g) **Part 265.** Interim Status Standards for Owners and Operators of Hazardous Waste Treatment, Storage, and Disposal Facilities except 265.1(c)(4), ~~265.1(g)(12), 265.1(c)(15),~~ 265.149, 265.150, 265.1030(c), 265.1050(f), 265.1080(e), 265.1080(f), and 265.1080(g).
- (1) In 265.191(a), the compliance date of January 12, 1988 applies only for HSWA tanks. For non-HSWA tanks the compliance date is November 2, 1988.
 - (2) In 265.191(c), the reference to July 14, 1986 applies only to HSWA tanks. For non HSWA tanks the applicable date is November 2, 1987.
 - (3) In 265.193, the Federal effective dates apply to HSWA tanks only. For non-HSWA tanks January 12, 1987 is replaced with November 2, 1987.
 - (4) In 265.440(a) the dates December 6, 1990 and December 24, 1992 apply only to drip pads where F032 waste is handled. The dates June 22, 1992 and August 15, 1994 respectively, replace the dates December 6, 1990 and December 24, 1992 for drip pads where F034 or F035 wastes are handled.

- (h) **Part 266.** Standards for the Management of Specific Hazardous Wastes and Specific Types of Hazardous Waste Management Facilities. Due to an early incorporation by reference, for purposes of Part 266 only, HSWA and non-HSWA dates are the same. In 266.325, the reference to 10 CFR 1.5 is changed to 10 CFR 71.5.
- (i) **Part 267.** Standards for Owners and Operators of Hazardous Waste Facilities Operating Under a Standardized Permit. This permit option shall only be available to:
- (1) those persons who generate hazardous waste on-site through, or as a result of, industrial production processes;
 - (2) wholly owned subsidiaries, owners, or sister companies of those persons specified in paragraph (1); and
 - (3) agencies, departments, or units of the federal government or the State of Oklahoma.
- (j) **Part 268.** Land Disposal Restrictions, except 268.5, 268.6, 268.13, 268.42(b) and 268.44(a) through (g). In 268.7(a)(9)(iii) exclude D009 from the list of alternative treatment standards for lab packs.
- (k) **Part 270.** The Hazardous Waste Permit Program, except 270.1(c)(2)(ix), and 270.14(b)(18).
- (l) **Part 273.** Standards for Universal Waste Management.
- (m) **Part 279.** Standards for the Management of Used Oil, except that 279.82 is revised to read in its entirety, "The use of used oil as a dust suppressant is prohibited."
- (n) **Excepted CFR Regulations.** Authority for carrying out excepted CFR regulations remains with EPA.

252:205-3-4. Terminology related to 40 CFR

- (a) For purposes of interfacing with 40 CFR, the following terms apply:
- (1) **"Administrator"** is synonymous with Executive Director except in §§ 262.18, ~~262.55, 262.56, 262.57, 262.87, 262.83, 262.84,~~ 263.11, 270.5, 270.10(e)(2) and (3) and (f)(2) and (3), and 270.32(b)(2). In 260.10 and 270.2, the definition of "Administrator" is not synonymous with "Director". The terms as used in the excepted sections retain the meanings as defined in the CFR;
 - (2) **"Regional Administrator"** and **"EPA Regional Administrator"** are synonymous with Executive Director except in §§ 124.5(d), 124.10(b), ~~262.55, 262.56, 262.57, Item 19 of the Appendix to Part 262,~~ 270.5, 270.10(f)(2) and (3) and (g)(1)(i) & (iii), 270.11(a)(3) and 270.14(b)(20). See also §§ 264.12(a) and 265.12(a) where "Regional Administrator" should be replaced with "Regional Administrator and Executive Director". In 260.10 and 270.2, the definition of "Regional Administrator" is not synonymous with "Executive Director". The terms as used in the excepted sections retain the meanings as defined in CFR;
 - (3) **"Act"** is synonymous with the Oklahoma Hazardous Waste Management Act;
 - (4) **"State"** is synonymous with the DEQ;
 - (5) **"EPA"** is the United States Environmental Protection Agency, except in § 124.6 where "EPA" should be replaced with "DEQ", and as otherwise indicated in subparagraph 252:205-3-2(a)(2);

- (6) **"Environmental Appeals Board"** is synonymous with Executive Director;
- (7) **§§ 3008, 3013 and 7003** of the federal Resource Conservation and Recovery Act when referenced in the CFR should be read as including the analogous state enforcement authority set forth in the Oklahoma Environmental Quality Code; and
- (8) **"DOT"** and **"Department of Transportation"** is the U.S. Department of Transportation.
- (b) **Financial security mechanisms.** The owner shall word the financial assurance instruments as provided in 40 CFR 264.151, except that:
- (1) the phrase "Department of Environmental Quality" ("DEQ" or "the Department"), an agency of the State of Oklahoma" shall be used instead of "Environmental Protection Agency";
 - (2) "Director" shall be used instead of "Regional Administrator";
 - (3) "DEQ" shall replace "EPA";
 - (4) "Act" shall replace § 3008 of the Resource Conservation and Recovery Act"; and
 - (5) the certification in each instrument that the language is identical to respective provisions of 40 CFR 264.151 shall include the phrase "United States Environmental Protection Agency approved amendment, for the State of Oklahoma."

SUBCHAPTER 5. ADDITIONAL GENERATOR REQUIREMENTS

252:205-5-2. SQG exemption from disposal plan requirements

Small quantity generators and ~~conditionally-exempt~~ every small quantity generators are not required to file disposal plans (252:205-5-1) or quarterly reports (252:205-5-3) with the DEQ.

[OAR Docket #20-706; filed 7-27-20]

TITLE 252. DEPARTMENT OF ENVIRONMENTAL QUALITY CHAPTER 410. RADIATION MANAGEMENT

[OAR Docket #20-707]

RULEMAKING ACTION:

PERMANENT final adoption

RULES:

- Subchapter 1. General Provisions
252:410-1-7. Incorporation of federal regulations by reference [AMENDED]
- Subchapter 10. Radioactive Materials Program
Part 1. General Provisions
252:410-10-1. Radioactive Materials Program [AMENDED]
- Part 32. Byproduct Material: Specific Licenses for Manufacturing and Transferring Certain Items
252:410-10-32. 10 CFR 32 incorporations by reference [AMENDED]

- Part 35. Medical Use of Byproduct Material
252:410-10-35. 10 CFR 35 incorporations by reference [AMENDED]
- Part 40. Domestic Licensing of Source Material
252:410-10-40. 10 CFR 40 incorporations by reference [AMENDED]

AUTHORITY:

Environmental Quality Board; 27A O.S. §§ 2-2-101, 2-2-104, and 2-2-201.
Radiation Management Advisory Council; 27A O.S. § 2-2-201; and 27A O.S. §§ 2-9-104, and 2-9-105.

SUBMISSION OF PROPOSED RULES TO GOVERNOR AND CABINET SECRETARY:

July 23, 2019

COMMENT PERIOD:

August 15, 2019 through September 25, 2019

PUBLIC HEARING(S):

September 26, 2019, Radiation Management Advisory Council
November 8, 2019, Environmental Quality Board

ADOPTION:

November 8, 2019

SUBMISSION OF ADOPTED RULES TO GOVERNOR AND LEGISLATURE:

November 13, 2019

APPROVED BY GOVERNOR'S DECLARATION:

Approved by Governor's declaration on June 25, 2020

FINAL ADOPTION:

June 25, 2020

EFFECTIVE:

September 15, 2020

SUPERSEDED EMERGENCY ACTIONS:

n/a

INCORPORATIONS BY REFERENCE:

Incorporated standards:

Title 10 of the code of Federal Regulations, Parts 30, 32, 35, and 40, as amended through January 1, 2019

Incorporating rules:

252:410-1-7, 252:410-10-1, 252:410-10-32, 252:410-10-35, 252:410-10-40

Availability:

The standards are on file at the Department of Environmental Quality, 707 North Robinson, Oklahoma City, Oklahoma, 73102, and are available to the public for examination Monday through Friday between the hours of 8:00 a.m. and 4:30 p.m., excluding state holidays.

GIST/ANALYSIS:

The proposed rulemaking consists of four main elements. (1) The first element is to amend Chapter 410, Subchapter 1 (General Provisions) [See OAC 252:410-1-7(a)] to change the date for incorporation of federal regulations by reference to January 1, 2019. (2) The second element of this rulemaking is to amend the regulations related to the medical use of byproduct material to conform the Oklahoma rules to the updated federal regulations which includes revisions to 10 CFR Parts 30, 32 and 35. This rule amends the reporting and notification requirements for a medical event for permanent implant brachytherapy. This rule also amends the training and experience (T&E) requirements to remove from multiple sections the requirement to obtain a written attestation for an individual who is certified by a specialty board whose certification process has been recognized by the NRC or an Agreement State; and to exempt certain board-certified individuals from certain T&E requirements (i.e., "grandfather" these individuals). Additionally, this rule amends the requirements for measuring molybdenum contamination; adds a new requirement for the reporting of failed technetium and rubidium generators; and allows licensees to name associate radiation safety officers on a medical license. (3) The third element is a revision to better organize, clarify, and update the regulations in OAC 252:410-10-32 [10 CFR Part 32]. The renaming of subparts C and D and the movement of Sec. 32.72 and 32.74 from subpart B to subpart C. These two sections are being moved because they do not cover generally licensed items. (4) The fourth element is to correct an error made when 10 CFR 40 was adopted. 10 CFR 40 covers source material. An error was made in a section on "unimportant quantities of source material". In a list of five types of unimportant quantities of source material, four of them were intended to be excluded from our rules and reserved to the NRC, but five were excluded. The format was corrected and the fifth category (depleted uranium counterweights) should not have been excluded, as DEQ has jurisdiction. This rulemaking will correct this error.

The gist of this rulemaking is to maintain compatibility with federal regulations.

CONTACT PERSON:

Mike Broderick, Environmental Programs Manager, Land Protection Division, DEQ, 707 North Robinson, P.O. Box 1677, Oklahoma City, Oklahoma 73101-1677, (405) 702-5100 (phone), mike.broderick@deq.ok.gov (email).

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 15, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

252:410-1-7. Incorporation of federal regulations by reference

- (a) **10 CFR.** References in this Chapter to Title 10 of the Code of Federal Regulations (10 CFR) mean the ~~January 1, 2016~~ January 1, 2019 publication of 10 CFR.
- (b) **40 CFR.** References in this Chapter to Title 40 of the Code of Federal Regulations (40 CFR) mean the July 1, 1998 publication of 40 CFR and 64 Fed. Reg. 5574 (February 3, 1999).
- (c) **Citations incorporated.** When a provision of the Code of Federal Regulations is incorporated by reference, all citations contained therein are also incorporated by reference.

SUBCHAPTER 10. RADIOACTIVE MATERIALS PROGRAM

PART 1. GENERAL PROVISIONS

252:410-10-1. Radioactive Materials Program

- (a) **Scope.**
 - (1) The rules in this Subchapter establish license requirements for the following categories of radioactive materials: byproduct material, source material and special nuclear material.
 - (2) License requirements incorporated by reference from 10 CFR are applicable requirements for all categories of radioactive materials within the scope of this Subchapter.
- (b) **Exclusions.** Responsibility for the following regulatory requirements remains with the NRC:
 - (1) **In 10 CFR 20.** Exemptions to labeling requirements, § 20.1905(g); Reports of exposures, radiation levels, and concentrations of radioactive material exceeding the constraints or limits at nuclear power plants, § 20.2203(c); Reports of individual monitoring, § 20.2206(a)(1), (a)(3), (a)(4) and (a)(5);
 - (2) **In 10 CFR 30.** Activities requiring license, § 30.3(b); Definitions, 30.4 "Commencement of construction" paragraph (2), "Construction" paragraph (9)(ii), and "Quantities of concern"; Application for specific licenses, § 30.32(k); Terms and conditions of licenses, § 30.34 (d),

- (e)(1), (e)(3) and (1); Transfer of byproduct material, § 30.41 (b)(6); Tritium reports, § 30.55;
- (3) **In 10 CFR 32.** Purpose and scope, § 32.1(c)(1); Subpart A, Exempt concentrations and items, §§ 32.11, 32.12, 32.14, 32.15, 32.16, 32.18 through 32.23, and 32.25 through 32.29; Subpart D, Specifically licensed items, § 32.210;
- (4) **In 10 CFR 35.** License required, § 35.11(c)(1); License amendments, § 35.13(a)(1);
- (5) **In 10 CFR 36.** Definitions, 36.2 "Commencement of construction" paragraph 2 and "Construction" paragraph 9(ii);
- (6) **In 10 CFR 37.** General security program requirements, 37.43(d)(9);
- (7) **In 10 CFR 40.** General Provisions, §§ 40.2a and 40.3; Definitions, 40.4 "Commencement of construction" paragraph (2) and "Construction" paragraph (9)(ii); Exemptions, §§ 40.11, 40.12 and 40.13 (a), (b), (c)(1) through ~~(54)~~ (c)(5)(iv), (c)(7) through ~~(98)~~ (98), 40.14; General Licenses, §§ 40.20 through 40.24; 40.26 through 40.28; License Applications, §§ 40.31 (f) through (l), §§ 40.32 (d) through (g), §§ 40.33 through 40.35, § 40.37, and § 40.38; Licenses, §§ 40.41 (d), (e)(1) and (3), (f) and (g), § 40.42 and § 40.46; Transfer of Source Material, § 40.51 (b)(6); Records, Reports, and Inspections, § 40.60 (c)(3), §§ 40.64 through 40.67; Appendix A;
- (8) **In 10 CFR 61.** Other information, § 61.16; Standards for issuance of a license, § 61.23 (i) and (j) regarding physical security information and criticality safety procedures for special nuclear material possessed prior to disposal;
- (9) **In 10 CFR 70.** Regulation of special nuclear material for spent fuel, high level radioactive waste and uranium enrichment facilities, §§ 70.1(c), (d) and (e); Definitions, 70.4 "Commencement of construction" paragraph (2) and "Construction" paragraph (9)(ii); Department of Defense, § 70.13; Foreign military aircraft, § 70.14; General license to possess special nuclear material for transport, § 70.20a; General license for carriers of transient shipments of formula quantities of strategic special nuclear material of moderate strategic significance, special nuclear material of low strategic significance, and irradiated reactor fuel regulated under 10 CFR 73, § 70.20b; Subpart D - License Applications, § 70.21(a)(1), (c), (f), (g) and (h); § 70.22 (b), (c) and (f) through (n), § 70.23 (a)(6) through (12) and (b), § 70.23a, and § 70.24; Subpart E - Licenses, § 70.31 (c), (d), and (e), § 70.32 (a)(1), (a)(4) through (7), (b)(1), (b)(3), (b)(4), (c) through (k), and § 70.37; § 70.40; Subpart F - Acquisition, Use and Transfer of Special Nuclear Material, Creditor's Rights, §70.42(b)(6), and § 70.44; Subpart G - Special Nuclear Material Control, Records, Reports and Inspections, § 70.51(c),(d) and (e), § 70.52 through § 70.54, § 70.55(c), § 70.56, and §70.59; Subpart H - Additional Requirements for Certain Licensees Authorized to Possess a Critical Mass of Special Nuclear Material, § 70.60 through 70.76; Subpart I - Modification and Revocation of Licenses, §

70.81 and § 70.82; Subpart J - Enforcement, §§ 70.91, 70.92 and Appendix A to Part 70;

(10) **In 10 CFR 71.** Subpart A - General Provisions, § 71.10; Subpart B - Exemptions, § 71.14(b); Subpart C - General licenses, § 71.19; Subpart D - Application for Package Approval, §§ 71.31 through 71.39; Subpart E - Package Approval Standards, §§ 71.41 through 71.45 and §§ 71.51 through 71.65; Subpart F - Package, Special Form, and LSA-III Tests, §§ 71.70 through 71.77; Subpart G - Operating Controls and Procedures, § 71.85(a), (b) and (c) and § 71.91(b); Subpart H - Quality Assurance, § 71.101(c)(2), (d), and (e) and §§ 71.107 through 71.125;

(11) **In 10 CFR 150.** Persons in offshore waters not exempt, § 150.7; Persons in agreement states exempt, § 150.10; Commission regulatory authority for physical protection in agreement states, § 150.14; Persons not exempt, § 150.15(a)(9); Continued Commission authority pertaining to byproduct material, § 150.15a(b)(6); Persons in agreement states not exempt, Continued Commission authority pertaining to byproduct material in agreement states, § 150.17; Compliance with requirements of US/IAEA safeguards agreement for source material under state agreement license; Submission to Commission of reports for tritium in agreement states, § 150.19; Transportation by aircraft of special nuclear material by agreement state licensee, § 150.21; Violations, § 150.30; Requirements for Agreement State regulation of byproduct material, § 150.31; Funds for reclamation or maintenance of byproduct material, § 150.32; and Criminal penalties, § 150.33.

(c) **Effective date.** The requirements of this Subchapter became effective September 29, 2000, the date upon which jurisdiction over all unrevoked and unexpired NRC licenses and plan approvals was transferred to DEQ.

PART 32. BYPRODUCT MATERIAL: SPECIFIC LICENSES FOR MANUFACTURING AND TRANSFERRING CERTAIN ITEMS

252:410-10-32. 10 CFR 32 incorporations by reference

The following provisions are hereby incorporated by reference from 10 CFR 32, Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material:

- (1) **General provisions.**
 - (A) 32.1(a), (b) and (c)(2) - Purpose and scope, excluding issuance of certificates of registration
 - (B) 32.2 - Definitions
 - (C) 32.3 - Maintenance of records
- (2) **Subpart A - Exempt concentrations and items.**
 - (A) 32.13 - Same: Prohibition of introduction
 - (B) 32.24 - Same: Table of organ doses
- (3) **Subpart B - Generally licensed items.**
 - (A) Byproduct material contained in devices for use under 31.5:
 - (i) 32.51 - Requirements for license to manufacture or initially transfer
 - (ii) 32.51a - Conditions of licenses

- (iii) 32.52 - Material transfer reports and records

(B) Luminous safety devices for use in aircraft:

- (i) 32.53 - Requirements for license to manufacture, assemble, repair or initially transfer
 - (ii) 32.54 - Labeling of devices
 - (iii) 32.55 - Quality assurance; prohibition of transfer
 - (iv) 32.56 - Material transfer reports

(C) Calibration or reference sources containing americium 241:

- (i) 32.57 - Calibration or reference sources containing americium-241 or radium-226: Requirements for license to manufacture or initially transfer
 - (ii) 32.58 - Same: Labeling of devices
 - (iii) 32.59 - Same: Leak testing of each source

(D) Ice detection devices containing strontium-90:

- (i) 32.61 - Requirements for license to manufacture or initially transfer
 - (ii) 32.62 - Quality assurance; prohibition of transfer

(E) 32.71 - Manufacture and distribution of byproduct material for certain *in vitro* clinical or laboratory testing under general license

(4) Subpart C - Specifically licensed items.

~~(FA)~~ 32.72 - Manufacture, preparation or transfer for commercial distribution of radioactive drugs containing byproduct material for medical use under part 35

~~(GB)~~ 32.74 - Manufacture and distribution of sources or devices containing byproduct material for medical use

~~(4) Subpart D - Specifically licensed items.~~

(C) 32.201 - Serialization of nationally tracked sources

PART 35. MEDICAL USE OF BYPRODUCT MATERIAL

252:410-10-35. 10 CFR 35 incorporations by reference

(a) **Incorporations by reference.** The following provisions are hereby incorporated by reference from 10 CFR 35, Medical Use of Byproduct Material:

(1) **Subpart A; General Information.**

- (A) 35.1 - Purpose and scope
- (B) 35.2 - Definitions
- (C) 35.5 - Maintenance of records
- (D) 35.6 - Provisions for the protection of human research subjects
- (E) 35.7 - FDA, other Federal and State requirements
- (F) 35.10 - Implementation
- (G) 35.11(a), (b) and (c)(2) - License required
- (H) 35.12 - Application for license, amendment or renewal

- (I) 35.13(a)(2), and (b) through (g) - License amendments
- (J) 35.14 - Notifications
- (K) 35.15 - Exemptions regarding Type A specific licenses of broad scope
- (L) 35.18 - License issuance
- (M) 35.19 - Specific exemptions
- (2) **Subpart B; General Administrative Requirements.**
 - (A) 35.24 - Authority and responsibilities for the radiation protection program
 - (B) 35.26 - Radiation protection program changes
 - (C) 35.27 - Supervision
 - (D) 35.40 - Written directives
 - (E) 35.41 - Procedures for administrations requiring a written directive
 - (F) 35.49 - Suppliers for sealed sources or devices for medical use
 - (G) 35.50 - Training for Radiation Safety Officer and Associate Radiation Safety Officer
 - (H) 35.51 - Training for an authorized medical physicist
 - (I) 35.55 - Training for an authorized nuclear pharmacist
 - (J) 35.57 - Training for experienced Radiation Safety Officer, teletherapy or medical physicist, authorized user, nuclear pharmacist, and authorized nuclear pharmacist
 - (K) 35.59 - Recency of Training
- (3) **Subpart C; General Technical Requirements.**
 - (A) 35.60 - Possession, use, and calibration of instruments used to measure the activity of unsealed byproduct material
 - (B) 35.61 - Calibration of survey instruments
 - (C) 35.63 - Determination of dosages of unsealed byproduct material for medical use
 - (D) 35.65 - Authorization for calibration, transmission, and reference sources
 - (E) 35.67 - Requirements for possession of sealed sources and brachytherapy sources
 - (F) 35.69 - Labeling of vials and syringes
 - (G) 35.70 - Surveys of ambient radiation exposure rate
 - (H) 35.75 - Release of individuals containing unsealed byproduct material or implants containing byproduct material
 - (I) 35.80 - Provision of mobile medical service
 - (J) 35.92 - Decay-in-storage
- (4) **Subpart D; Unsealed Byproduct Material-Written Directive Not Required.**
 - (A) 35.100 - Use of unsealed byproduct material for uptake, dilution, and excretion studies for which a written directive is not required
 - (B) 35.190 - Training for uptake, dilution, and excretion studies
 - (C) 35.200 - Use of unsealed byproduct material for imaging and localization studies for which a written directive is not required
 - (D) 35.204 - Permissible molybdenum-99, strontium-82, and strontium-85 concentrations
 - (E) 35.290 - Training for imaging and localization studies
- (5) **Subpart E; Unsealed Byproduct Material - Written Directive Required.**
 - (A) 35.300 - Use of unsealed byproduct material for which a written directive is required
 - (B) 35.310 - Safety instruction
 - (C) 35.315 - Safety precautions
 - (D) 35.390 - Training for use of unsealed byproduct material for which a written directive is required
 - (E) 35.392 - Training for the oral administration of sodium iodide I-131 requiring a written directive in quantities less than or equal to 1.22 gigabecquerels (33 millicuries)
 - (F) 35.394 - Training for the oral administration of sodium iodide I-131 requiring a written directive in quantities greater than 1.22 gigabecquerels (33 millicuries)
 - (G) 35.396 - Training for the parenteral administration of unsealed byproduct material requiring a written directive
- (6) **Subpart F; Manual Brachytherapy.**
 - (A) 35.400 - Use of sources for manual brachytherapy
 - (B) 35.404 - Surveys after source implant and removal
 - (C) 35.406 - Brachytherapy sources accountability
 - (D) 35.410 - Safety instruction
 - (E) 35.415 - Safety precautions
 - (F) 35.432 - Calibration measurements of brachytherapy sources
 - (G) 35.433 - ~~Decay of strontium-90~~ Strontium-90 sources for ophthalmic treatments
 - (H) 35.457 - Therapy related computer systems
 - (I) 35.490 - Training for use of manual brachytherapy sources
 - (J) 35.491 - Training for ophthalmic use of strontium-90
- (7) **Subpart G; Sealed Sources for diagnosis.**
 - (A) 35.500 - Use of sealed sources and medical devices for diagnosis
 - (B) 35.590 - Training for use of sealed sources and medical devices for diagnosis
- (8) **Subpart H; Photon Emitting Remote Afterloader Units, Teletherapy Units, and Gamma Stereotactic Radiosurgery Units.**
 - (A) 35.600 - Use of a sealed source in a remote afterloader unit, teletherapy unit, or gamma stereotactic radiosurgery unit
 - (B) 35.604 - Surveys of patients and human research subjects treated with a remote afterloader unit
 - (C) 35.605 - Installation, maintenance, adjustment, and repair
 - (D) 35.610 - Safety procedures and instructions for remote afterloader units, teletherapy units, and gamma stereotactic radiosurgery units

- (E) 35.615 - Safety precautions for remote afterloader units, teletherapy units, and gamma stereotactic radiosurgery units
 - (F) 35.630 - Dosimetry equipment
 - (G) 35.632 - full calibration measurements on teletherapy units
 - (H) 35.633 - Full calibration measurements on remote afterloader units
 - (I) 35.635 - Full calibration measurements on gamma stereotactic radiosurgery units
 - (J) 35.642 - Periodic spot-checks for teletherapy units
 - (K) 35.643 - Periodic spot-checks for remote afterloader units
 - (L) 35.645 - Periodic spot-checks for gamma stereotactic radiosurgery units
 - (M) 35.647 - Additional technical requirements for mobile remote afterloader units
 - (N) 35.652 - Radiation surveys
 - (O) 35.655 - ~~Five-year~~ Full-inspection servicing for teletherapy and gamma stereotactic radiosurgery units
 - (P) 35.657 - Therapy-related computer systems
 - (Q) 35.690 - Training for use of remote afterloader units, teletherapy units, and gamma stereotactic radiosurgery units
- (9) **Subpart I.**
- (10) **Subpart K; Other Medical Uses of Byproduct Material or Radiation From Byproduct Material.**
35.1000 - Other medical uses of byproduct material or radiation from byproduct material
- (11) **Subpart L; Records.**
- (A) 35.2024 - Records of authority and responsibilities for radiation protection programs
 - (B) 35.2026 - Records of radiation protection program changes
 - (C) 35.2040 - Records of written directives
 - (D) 35.2041 - Records for procedures for administration requiring a written directive
 - (E) 35.2060 - Records of calibrations of instruments used to measure the activity of unsealed byproduct materials
 - (F) 35.2061 - Records of radiation survey instrument calibrations
 - (G) 35.2063 - Records of dosages of unsealed byproduct material for medical use
 - (H) 35.2067 - Records of leaks tests and inventory of sealed sources and brachytherapy sources
 - (I) 35.2070 - Records of survey for ambient radiation exposure rate
 - (J) 35.2075 - Records of the release of individuals containing unsealed byproduct material or implants containing byproduct material
 - (K) 35.2080 - Records of mobile medical services
 - (L) 35.2092 - Records of decay-in-storage
 - (M) 35.2204 - Records of molybdenum-99, strontium-82, and strontium 85 concentrations.
 - (N) 35.2310 - Records of safety instruction

- (O) 35.2404 - Records of surveys after source implant and removal
 - (P) 35.2406 - Records of brachytherapy source accountability
 - (Q) 35.2432 - Records of calibration measurements of brachytherapy sources
 - (R) 35.2433 - Records of decay of strontium-90 sources for ophthalmic treatments
 - (S) 35.2605 - Records of installation, maintenance, adjustment, and repair of remote afterloader units, teletherapy units, and gamma stereotactic radiosurgery units
 - (T) 35.2610 - Records of safety procedures
 - (U) 35.2630 - Records of dosimetry equipment used with remote afterloader units, teletherapy units, and gamma stereotactic radiosurgery units
 - (V) 35.2632 - Records of teletherapy, remote afterloader, and gamma stereotactic radiosurgery full calibrations
 - (W) 35.2642 - Records of periodic spot-checks for teletherapy units
 - (X) 35.2643 - Records of periodic spot-checks for remote afterloader units
 - (Y) 35.2645 - Records of periodic spot checks for gamma stereotactic radiosurgery units
 - (Z) 35.2647 - Records of additional technical requirements for mobile remote afterloader units
 - (AA) 35.2652 - Records of surveys of therapeutic treatment units
 - (BB) 35.2655 - Records of ~~5-year~~ full-inspection servicing for teletherapy and gamma stereotactic radiosurgery units
- (12) **Subpart M; Reports.**
- (A) 35.3045 - Report and notification of a medical event
 - (B) 35.3047 - Report and notification of a dose to an embryo/fetus or a nursing child
 - (C) 35.3067 - Report of a leaking source
 - (D) 35.3204 - Report and notification for an eluate exceeding permissible molybdenum-99, strontium-82 and strontium-85 concentrations

(b) **Exceptions.** The provisions for communication with NRC of 10 CFR § 30.6 referenced in §§ 35.12 and 35.14 are not incorporated by reference. All correspondence regarding license requirements, and any notifications or reports required by this Part, shall be directed to DEQ.

PART 40. DOMESTIC LICENSING OF SOURCE MATERIAL

252:410-10-40. 10 CFR 40 incorporations by reference

The following provisions are hereby incorporated by reference from 10 CFR 40, Domestic Licensing of Source Material.

- (1) **General Provisions.**
- (A) 40.1 - Purpose
 - (B) 40.2 - Scope
 - (C) 40.4 - Definitions

- (D) 40.7 - Employee Protection
- (E) 40.9 - Completeness and accuracy of information
- (F) 40.10 - Deliberate misconduct
- (2) **Exemptions.** 40.13(c)(6), (c)(9) and (10) - Unimportant quantities of source material
- (3) **General Licenses.** 40.25 - General license for use of certain industrial products or devices.
- (4) **License Applications.**
 - (A) 40.31 (a) through (e) - Application for specific licenses
 - (B) 40.32 (a) through (c) - General requirements for issuance of licenses.
 - (C) 40.36 - Financial assurance and recordkeeping for decommissioning
- (5) **Licenses.**
 - (A) 40.41 (a) through (c) and (e) - Terms and conditions of licenses
 - (B) 40.43 - Renewal of licenses
 - (C) 40.44 - Amendment of licenses at request of licensee
 - (D) 40.45 - Commission action on applications to renew or amend
- (6) **Transfer of Source Material.**
 - (A) 40.51 (a), (b)(1) through (5), (b)(7), (c) and (d) - Transfer of source or byproduct material
 - (B) 40.54 - Requirements for license to initially transfer source material for use under the "small quantities of source material" general license
 - (C) 40.55 - Conditions of licenses to initially transfer source material for use under the "small quantities of source material" general license. Quality control, labeling, safety instructions, and records and reports
- (7) **Records, Reports and Inspections.**
 - (A) 40.60 (a), (b), (c)(1) and (2) - Reporting requirements
 - (B) 40.61 (a) through (f) - Records
 - (C) 40.62 - Inspections
 - (D) 40.63 - Tests
- (8) **Modification and Revocation of Licenses.** 40.71 - Modification and revocation of licenses

[OAR Docket #20-707; filed 7-27-20]

TITLE 252. DEPARTMENT OF ENVIRONMENTAL QUALITY

CHAPTER 515. MANAGEMENT OF SOLID WASTE

[OAR Docket #20-708]

RULEMAKING ACTION:

PERMANENT final adoption

RULES:

Subchapter 19. Operational Requirements
 Part 3. Operational Requirements for all Disposal Facilities
 252:515-19-36 [AMENDED]
 Subchapter 27. Cost Estimates and Financial Assurance
 Part 3. Cost Estimates

252:515-27-34 [AMENDED]

AUTHORITY:

Environmental Quality Board; 27A O.S. §§ 2-2-101, 2-10-201, and 2-10-301.2.

Solid Waste Management Advisory Council; 27A O.S. § 2-2-201.

SUBMISSION OF PROPOSED RULES TO GOVERNOR AND CABINET SECRETARY:

November 22, 2019

COMMENT PERIOD:

December 16, 2019 through January 16, 2020

PUBLIC HEARING(S):

January 16, 2020, Solid Waste Management Advisory Council

February 21, 2020, Environmental Quality Board

ADOPTION:

February 21, 2020

SUBMISSION OF ADOPTED RULES TO GOVERNOR AND LEGISLATURE:

February 28, 2020

APPROVED BY GOVERNOR'S DECLARATION:

Approved by Governor's declaration on June 25, 2020

FINAL ADOPTION:

June 25, 2020

EFFECTIVE:

September 15, 2020

SUPERSEDED EMERGENCY ACTIONS:

n/a

INCORPORATIONS BY REFERENCE:

n/a

GIST/ANALYSIS:

The Department is proposing to amend OAC 252:515 to revise potentially confusing regulations and to clarify deadlines. The gist of the rule is to clarify deadlines related to cost estimates, specify deadlines for financial assurance mechanisms, and to make a minor grammatical change related to dust control.

CONTACT PERSON:

David Cates, Department of Environmental Quality, Land Protection Division, Solid Waste Permitting Section, 707 North Robinson, P.O. Box 1677, Oklahoma City, OK 73101-1677, (405)-702-5100 (phone), (405)-702-5101 (fax), David.Cates@deq.ok.gov (email).

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 15, 2020:

SUBCHAPTER 19. OPERATIONAL REQUIREMENTS

PART 3. OPERATIONAL REQUIREMENTS FOR ALL DISPOSAL FACILITIES

252:515-19-36. Air criteria

(a) **Comply with Clean Air Act.** All disposal facilities shall be operated in compliance with the Oklahoma Clean Air Act, rules of the Air Quality Division of the DEQ, and any requirements of an approved State Implementation Plan.

(b) **Open burning prohibited.** Open burning of solid waste is prohibited.

(c) **Control dust.** All disposal facilities shall be operated to prevent the discharge of any visible-fugitive dust emissions beyond the property boundaries ~~so as to that~~ damage or interfere with the use of adjacent properties, or ~~to~~ cause air quality standards to be exceeded, or interfere with the maintenance of air quality standards.

Permanent Final Adoptions

(d) **Asbestos at land disposal facilities.** Friable asbestos received at a land disposal facility shall be managed in accordance with the DEQ's asbestos management requirements at OAC 252:100-40- 5.

SUBCHAPTER 27. COST ESTIMATES AND FINANCIAL ASSURANCE

PART 3. COST ESTIMATES

252:515-27-34. Annual adjustments to cost estimates and financial assurance mechanisms

(a) **Adjustment required.** ~~Except as provided in (b) and (c) of this Section, cost~~Cost estimates for closure, post-closure, and/or corrective action shall be adjusted and submitted to DEQ no later than April 1st of each year. The adjustment must be submitted to the DEQ for approval.

(1) **Recalculation of maximum costs.** The maximum costs of closure, post-closure, and/or corrective action may be recalculated in current dollars using the procedure in Part 5 of this Subchapter (relating to determination of cost estimates).

(2) **Use of inflation factor.** If there are no significant changes to the closure or post-closure plan, corrective action plan, or facility conditions, cost estimates may be adjusted by use of an inflation factor derived from the most recent annual "Implicit Price Deflator for Gross National Product" or the "Implicit Price Deflator for Gross Domestic Product" published by the U.S. Department of Commerce in its Survey of Current Business in the year for which the adjustment is being made.

(A) The first adjustment shall be made by multiplying the approved cost estimate by the inflation factor. The result is the adjusted cost estimate.

(B) Subsequent adjustments shall be made by multiplying the latest adjusted cost estimate by the latest inflation factor.

(3) **Place in operating record.** The approved adjusted cost estimates shall be placed in the operating record.

(b) **Annual Adjustment to financial assurance mechanism(s) required.** Except as provided in (c) and (d) of this Section, the financial assurance mechanism(s) shall be adjusted annually to reflect the approved cost estimates. The adjusted financial assurance mechanism(s) must be submitted to DEQ for approval no later than 30 days after approval of adjusted cost estimates.

(~~b~~c) **Corporate test or guarantee as financial assurance mechanism.** When the corporate test (OAC 252:515-27-81) or guarantee (OAC 252:515-27-83) is used as the financial assurance mechanism, ~~the cost estimates for closure, post-closure, and/or corrective action shall be adjusted no later than 90 days after the close of the corporate fiscal year.~~

(1) **Required information.** ~~The~~the financial strength information specified in OAC 252:515-27- 81(c) shall be submitted to the DEQ for approval- no later than 90 days after the close of the corporate fiscal year.

(2) **Extension—allowed.** The DEQ may provide up to an additional 45 days to submit the information upon demonstration that 90 days is insufficient time to acquire audited financial statements.

(3) **Place in operating record.** ~~The approved adjusted cost estimates shall be placed in the operating record.~~

(ed) **Local government test or guarantee as financial assurance mechanism.** When the local government test (OAC 252:515-27-82) or guarantee (OAC 252:515-27-84) is used as the financial assurance mechanism, ~~the cost estimates for closure, post-closure, and/or corrective action shall be adjusted no later than 180 days after the close of the municipal government's fiscal year.~~

(1) **Required information.** ~~The~~the financial strength information specified in OAC 252:515-27- 82(h) shall be submitted to the DEQ for approval-no later than 180 days after the close of the municipal government's fiscal year. The DEQ may provide up to an additional 45 days to submit the information upon demonstration that 180 days is insufficient time to acquire audited financial statements.

(2) **Place in operating record.** ~~The approved adjusted cost estimates shall be placed in the operating record.~~

INCORPORATIONS BY REFERENCE:

n/a

GIST/ANALYSIS:

The Department is proposing to: (1) clarify the definitions of "Sewage", (2) clarify ownership as it applies to on-site systems, (3) remove the building sewer construction requirements and reference the most current adoption of the Oklahoma Plumbing Code, (4) require the installation of an access manhole over the septic tank inlet baffle, (5) include language to allow the use of aerobic treatment systems for commercial small public facilities, increase the overall installation depth of the systems, and clarify the maintenance requirements, (6) amend the construction requirements for ET/A system to allow for a depth of installation range from 18-24 inches, (7) amend the drip installation requirements to include a daily pumping timeframe and clarify the drip pipe spacing requirements, (8) add closure requirements for lagoons and require signage for all small public lagoons, (9) add language that defines the timeframe a passing test score is valid as it applies to Certified Installers and

Certified Soil Profilers and define the timeframe records are to be retained, (10) include language that references OAC 252:4-7 that addresses the refunding of permit fees, and (11) make other minor clarifications and corrections.

CONTACT PERSON:

Nicholas Huber, Department of Environmental Quality, Environmental Complaints & Local Services, 707 N. Robinson, P.O. Box 1677, Oklahoma City, OK 73101-1677, (405) 702-6100 (phone), nicholas.huber@deq.ok.gov (email).

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 15, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

252:641-1-1. Purpose, authority and applicability

(a) **Purpose.** The purpose of this Chapter is to ensure that sewage is properly treated in order to protect the waters of the State, the public health and the environment. This Chapter establishes requirements for the design, construction, installation and operation of individual and small public on-site sewage treatment systems. This Chapter also establishes requirements for persons seeking certification as installers of on-site sewage treatment systems and for persons seeking certification to perform soil profile descriptions to be used to design on-site sewage treatment systems.

(b) **Authority.** This Chapter is authorized by 27A O.S. §§ Section(s) 2-2-101, 2-2-201, 2-6-402 and 403; and 59 O.S. § Section(s) 1158.

(c) **Applicability.** The rules in this Chapter apply to:

- (1) Any person who owns, designs, constructs, installs, modifies, repairs or operates an on-site sewage treatment system;
- (2) Any person who seeks certification from the DEQ to install, modify or repair on-site sewage treatment systems; and/or
- (3) Any person who seeks certification from the DEQ to perform soil profile descriptions to be used to design on-site sewage treatment systems.

(d) **Disclaimer.** The design standards contained in this Chapter are established as minimum criteria and do not guarantee a system's performance.

(e) **Appendices.** All references to appendices are appendices to this Chapter.

252:641-1-2. Definitions

In addition to the definitions contained in the Environmental Quality Code (27A O.S. § Section(s) 2-1-101 *et seq.*), the following words, terms and acronyms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"**Aerobic treatment unit**" means a treatment unit that provides digestion of organic matter through oxidation and has been tested and certified by an ANSI accredited certifier

Permanent Final Adoptions

as meeting the most current ANSI/NSF/ANSI Standard 40, whether or not it includes nitrogen reduction.

"Alternative system" means an on-site sewage treatment system that varies from the requirements of on-site sewage treatment systems described in this Chapter.

"ANSI" means the American National Standards Institute.

"ASTM" means the American Society for Testing and Materials (ASTM International).

"Certified installer" means a person in the business of installing or constructing on-site sewage treatment systems who has been certified by the DEQ to inspect and approve his/her own installations.

"Certified soil profiler" means a person who has been certified by the DEQ to perform soil profile descriptions to be used to design on-site sewage treatment systems.

"Chamber" means a molded rigid plastic, ~~arch-shaped~~, hollow structure with an open bottom area and sidewalls that are designed to allow effluent to flow into the surrounding soil while preventing soil from migrating into the chamber.

"Conventional subsurface absorption field" means a gravity-fed subsurface dispersal field, which may be preceded by a lift station, that provides treatment through soil absorption in media-filled (e.g., gravel, polystyrene, chamber, etc.) trenches. This does not include ET/A or shallow extended dispersal fields.

"CSA" means the Canadian Standards Association (CSA Group).

"DEQ" means the Department of Environmental Quality.

"Designer" means the person who conducts the soil test and/or completes the DEQ Form 641-581P or 641-581SP for submission to the DEQ.

"Dispersal site" means the ten-thousand-square-foot (10,000 ft²) rectangular area that contains the test holes used to design the dispersal field.

"Distribution structure" means a watertight concrete or plastic compartment, box, or solid piping that allows the distribution of sewage at the same elevation throughout the subsurface treatment field.

"Drip irrigation" means the use of pressure to distribute aerobically treated effluent to a subsurface dispersal field using small diameter tubing equipped with pressure compensating emitters.

"Evapotranspiration/absorption (ET/A)" means the subsurface dispersal of sewage for treatment through evaporation, transpiration and absorption.

"Flow equalization tank" means a storage reservoir that contains an automatically controlled pump that is capable of delivering sewage to an on-site sewage treatment system at a specific hourly rate.

"IAPMO" means the International Association of Plumbing and Mechanical Officials.

"Individual on-site sewage treatment system" means an on-site sewage treatment system that treats sewage from one individual residence or a duplex with one owner.

"Installer" means any person who installs an on-site sewage treatment system or who is in the business of contracting to install or furnishing labor to install on-site sewage treatment systems.

"Level" means within a four-inch range of the same elevation.

"Lift station" means a short-term storage reservoir, containing an automatically controlled pump, that pumps sewage to a higher elevation for treatment.

"Low pressure dosing" means the use of pressure to distribute effluent evenly throughout the dispersal field through small diameter perforated piping.

"Major earth fill area" means any area where soil has been added to change the elevation from the original ground level by more than one (1) foot.

"Modification" means the expansion or relocation of any part of an existing on-site sewage treatment system, which does not fall under the definition of new installation.

"New installation" means the installation of a new on-site sewage treatment system. This includes the replacement of an existing lagoon, aerobic treatment unit and/or dispersal field, even when the existing septic tank is not replaced.

"NSF" means the National Sanitation Foundation (NSF International).

"On-site sewage treatment system" means an individual or small public on-site sewage treatment system as defined in this Chapter.

"Redoximorphic soil features" means soil that, due to wetness, contains features that exhibit a color of less than or equal to two (2) chroma and greater than or equal to four (4) value in concentrations greater than five percent (5%) in two (2) consecutive intervals.

"Repair" means the repair of any part of an existing on-site sewage treatment system or the replacement of any part of an existing on-site sewage treatment system as long as the replacement part is placed in the exact same location that the original part had been located. Repair does not include excavation and replacement of a subsurface absorption trench.

"Retention structure" is a sealed concrete or plastic structure that retains sewage until it reaches a depth of ten inches (10") and then allows it to flow to another trench.

"Rock fragments" means unattached pieces of rock two millimeters (2 mm) in diameter or larger that are resistant to rupture (strongly cemented or extremely hard).

"Scenic river corridor" means the two-mile wide area surrounding each scenic river as designated in 82 O.S. § Section(s) 1452, with the center of each scenic river being the center of the corridor.

"Sewage" means wastewater that ~~generally~~ originates as human waste from ~~certain~~ activities including but not limited to using toilet facilities, washing, bathing, preparing foods and washing laundry, excluding industrial wastewater.

"Small public on-site sewage treatment system" means an on-site sewage treatment system, except one that serves an individual residence or duplex, that has an average daily flow of five thousand (5,000) gallons or less.

"Soil profile description" means the identification and characterization of soil at a specific site.

"**Soil texture**" means the percent by weight of sand, silt, and clay for particles smaller than two millimeters (2 mm) in diameter.

"**Storage media**" means a natural or manufactured material that provides void spaces for storage and dispersal of effluent in the trenches of a subsurface treatment system.

"**Water body**" means any reservoir or stream listed in either the most current "Lakes of Oklahoma" or "Water Quality in Oklahoma Integrated Report."

"**Water body protection area**" means the land area around a water body comprised of Zone 1 and Zone 2.

"**Water saturated soil**" means soil characterized by either the presence of groundwater or redoximorphic soil features.

"**Zone 1**" means the land within six hundred sixty feet (660') of the highest normal pool elevation established for a reservoir or within six hundred sixty feet (660') of a stream bed.

"**Zone 2**" means the land within one thousand three hundred twenty feet (1320') of the highest normal pool elevation established for a reservoir or within one thousand three hundred twenty feet (1320') of a stream bed.

252:641-1-3. General requirements for on-site sewage treatment systems

(a) **Inspections.** All new installations of, modifications to and/or repairs to on-site sewage treatment systems shall be inspected and approved by the DEQ, or installed, self-inspected and approved by a certified installer before new installations, modifications or repairs can be backfilled and/or before the system may be placed into operation. The installer shall be responsible for requesting any required DEQ inspections.

(b) **Treatment.** On-site sewage treatment systems shall only be used for treatment of sewage, as defined in 252:641-1-2. All sewage must be treated and dispersed according to the rules in this Chapter.

(c) **Ownership.** An on-site sewage treatment system shall be located only where:

(1) all components of ~~the an individual~~ on-site sewage treatment system, which includes tanks, pumps, dispersal fields and collection line(s), are or will be located on property that is:

(A) owned by the owner of the on-site sewage treatment system; and/or

(B) dedicated in a recorded easement for the installation and operation of the on-site sewage system to the owner of the on-site sewage treatment system; or

(2) all components of ~~a small public~~ on-site sewage treatment system, excluding service lines, are or will be located on property that is:

(A) owned by a municipality, rural water district, rural sewer district or federally recognized tribe; and/or

(B) dedicated to a municipality, rural water district, rural sewer district or federally recognized tribe in a recorded easement for the installation and operation of the on-site sewage system; or-

(C) owned by the owner of the small public on-site sewage treatment system.

(d) **Minimum lot size.** The designer and installer shall comply with the minimum lot size requirements as set forth in Appendix A, Figure 3. Plats recorded before January 1, 1974, are not subject to minimum lot size requirements but systems ~~built~~ installed in those platted areas must meet the construction requirements of this Chapter.

(e) **Requirement for a dispersal field or lagoon.** All on-site sewage treatment systems shall utilize one of the dispersal fields described in Subchapter 12 or a lagoon described in Subchapter 15.

(f) **Average daily flow.**

(1) **Individual on-site sewage treatment systems.** The average daily flow for an individual on-site sewage treatment system shall be based on an average water usage of two hundred (200) gallons per day for a residence of two (2) bedrooms or less, with an additional sixty-six (66) gallons per day for each additional bedroom.

(2) **Small public on-site sewage treatment systems.** The average daily flow for small public on-site sewage treatment systems shall be calculated using the estimated average daily flows listed in Appendix F, unless actual flow data or a more accurate estimation method is available or there is seasonal flow variation. When there is seasonal flow variation, the average daily flow shall be calculated using the highest monthly flow in the previous twelve (12) months divided by the number of days in that month.

(g) **Sizing.** All dispersal fields and lagoons shall be sized based on average daily flow using the charts in Appendix H. The size of on-site sewage treatment systems should be increased if the actual or anticipated water usage exceeds the above-stated average.

(h) **Separation distances.** The designer and the installer shall comply with the required vertical separation distances in Appendix A, Figures 1 and 2, and the horizontal separation distances listed in Appendix E.

(i) **Pipe specifications.** All pipe used in on-site sewage treatment systems shall meet or exceed the minimum specifications listed in Appendix C.

(j) **Water body restrictions.** No dispersal field may be installed within Zone 1 of a water body protection area unless it is preceded by a nitrogen reduction system that has been tested and certified by an ANSI accredited third party certifier as meeting the most current ~~ANSI/NSF/ANSI~~ Standard 245.

252:641-1-4. Operation, repairs and maintenance

(a) **Proper operation.** The owner of an on-site sewage treatment system shall ensure that the system is maintained and operated properly so that:

(1) sewage or effluent from the system is properly treated and does not surface, pool, flow across the ground or discharge to surface waters;

(2) septic tanks, lift stations, low pressure dosing tanks, flow equalization tanks, aerobic treatment units and lagoons shall be maintained so that they do not leak or overflow; and

- (3) the required security measures are intact (e.g., required fences ~~are intact~~, septic tank lids ~~are intact~~, man-hole covers are properly secured).
- (b) **Malfunctioning systems.** If an on-site sewage treatment system malfunctions, the person owning or otherwise responsible for the system shall take prompt action to repair the malfunctioning system, prevent further violations and remediate the site.

252:641-1-5. Enforcement

Violations of this Chapter are subject to enforcement actions and penalties set forth in 27A O.S. §§~~Section(s)~~ 2-3-502, 2-3-504 and 2-6-206.

SUBCHAPTER 3. SOIL TESTS

252:641-3-1. General provisions

- (a) **Requirement for soil test.** A soil test, performed in accordance with this Subchapter, shall be used to identify the dispersal site for all modifications to on-site sewage treatment systems and/or to identify the dispersal site and size the dispersal field for new installations of on-site sewage treatment systems except for:
- (1) lagoons; and
 - (2) aerobic treatment systems that utilize spray irrigation when sized for Group 5 soil in the corresponding net evaporation zone.
- (b) **Required credentials.** Soil tests may only be performed by Professional Engineers, Professional Land Surveyors, Professional Sanitarians or Professional Environmental Specialists registered to practice in Oklahoma or Soil Scientists as defined in 27A O.S. §~~Section(s)~~ 3-1-103(20). Additionally, an individual performing soil profile descriptions must also be either:
- (1) an Environmental Specialist for the DEQ and authorized by DEQ to perform soil profile descriptions; or
 - (2) certified by the DEQ to perform soil profile descriptions.
- (c) **Submission of soil test results to the DEQ.** When a soil test is required, the results shall be submitted to the local DEQ office on DEQ Form 641-581P or 641-581SP or in a format approved by the DEQ.
- (d) **Verification of design.** If there is reason to believe soil test results submitted to DEQ are inaccurate or that there is water saturated soil or soil impervious to boring in any of the test holes at any depth up to thirty-six inches (36"), the system design may be verified by the DEQ. If the results of the verification contradict the proposed design of the system, the DEQ may perform a soil profile description to design the system. Soil tests conducted by DEQ shall supersede the results of any prior soil test completed in the same proposed dispersal site.
- (e) **Fill areas and excavation.** If there has been a fill of more than six inches (6") of soil or any excavation over an identified dispersal site, the local DEQ office must be contacted to determine if an additional soil test is needed. Soil tests shall not be performed in major earth fill areas.

252:641-3-2. Soil Percolation test method

- (a) **Use of percolation tests.** A percolation test may only be used to identify dispersal sites for conventional subsurface absorption fields. Percolation tests, including pre-existing ones, may not be used to identify dispersal sites for on-site sewage systems:
- (1) in scenic river corridors, unless documentation that the site is not located within the scenic river watershed is provided to DEQ; and
 - (2) in Zone 2 of a water body protection area.
- (b) **Test hole requirements.** The following test hole requirements shall be met for percolation tests:
- (1) **Configuration.** Three test holes shall be placed in the proposed dispersal site at the approximate corners of an isosceles triangle having two (2) sides fifty feet (50') long and one side seventy-five feet (75') long. If the dispersal field will cover an area larger than ten thousand square feet (10,000 ft²), then one additional test hole shall be used for each additional five thousand square feet (5,000 ft²). Additional test holes shall not be placed within fifty feet (50') of any other test hole and shall be located between fifty to seventy-five feet (50'-75') from one of the other test holes. The DEQ may approve or require alternative configurations.
 - (2) **Size.** Test holes shall be dug or bored, four to twelve inches (4"-12") in diameter with vertical sides to a depth of at least twenty-four inches (24") and no more than thirty-six inches (36"). All test holes in the proposed dispersal site shall be the same depth. Test holes shallower than twenty-four inches (24") may be used to design conventional subsurface absorption fields under the alternative system approval process.
 - (3) **Soil surfaces.** The bottoms and sides of the test holes shall be scratched with a sharp-pointed instrument to relieve any smeared soil surfaces. Loose material shall be removed from the hole prior to commencing the presoak.
 - (4) **Prohibitions.** Test holes dug through animal burrows, root channels or soil that is cracked due to dry weather conditions shall not be used.
- (c) **Presoak period.** The presoak period shall commence no earlier than twenty-four (24) hours prior to the start of the percolation test procedure. Each test hole shall be presoaked by filling them with water and refilling them as necessary to maintain a water depth of at least twelve inches (12") for at least four (4) hours. When it is impossible to maintain a water depth of at least twelve inches (12") during the entire presoak period due to an excessive percolation rate, then the hole is deemed unacceptable and may not be:
- (1) used to calculate the percolation rate for the dispersal site; and
 - (2) located in the dispersal site for a conventional subsurface absorption field.
- (d) **Calculating the percolation rate for each hole.** At the completion of the presoak, the depth of the water shall be adjusted to ten inches (10") above the bottom of each test hole. A fixed reference point shall be established at or above the initial water level. Using the fixed reference point, the level of the water in each hole shall be measured and recorded. After

seventy-five (75) minutes, the number of inches the water level has dropped in each hole shall be measured and recorded. To calculate the percolation rate for each individual hole, divide seventy-five (75) minutes by the number of inches the water level has dropped. Any hole that exhibits a percolation rate of greater than seventy-five (75) minutes per inch is deemed unacceptable and may not be:

- (1) used to calculate the percolation rate for the dispersal site; and
- (2) located in the dispersal site for a conventional subsurface absorption field.

(e) **Calculating the percolation rate for the dispersal site.** If the rates of any two (2) test holes in the proposed dispersal site vary by more than fifteen (15) minutes, the percolation rate for the dispersal site shall be considered the rate of the slowest test hole. Otherwise, the percolation rate for the dispersal site shall be determined by averaging the percolation rates for the three (3) test holes and then rounding the result to the nearest whole number. If there are more than three (3) test holes in the proposed dispersal site, then the percolation rate must be calculated using the three (3) slowest percolation rates.

(f) **Sizing the dispersal field.** The percolation rate for the dispersal site shall be used in conjunction with the charts in Appendix H, Figures 1 and 4 to size the conventional subsurface absorption field. The chart in Appendix H, Figure 2 may be used to size conventional subsurface absorption fields utilizing chambers when designed using a percolation test.

(g) **Information to be reported.** The following information must be reported to the DEQ on DEQ Form 641-581P, "Report for On-Site Sewage Treatment" or in a format approved by the DEQ:

- (1) Property owner's name(s);
- (2) Address or finding directions for property;
- (3) Legal description of property, including lot and block number when available;
- (4) Lot size in square feet or acres;
- (5) Whether the system will be an individual or small public on-site sewage treatment system;
- (6) The estimated or actual average daily flow for the system as certified on DEQ Form 641-581Cert "Certification Documentation Form";
- (7) Whether the water supply for the property is public or private;
- (8) The location of each test hole (identified from two fixed reference points);
- (9) The depth and percolation rate, along with the depth to groundwater if encountered, for all test holes in the proposed dispersal field;
- (10) The percolation rate for the dispersal site;
- (11) The size of the septic tank, the minimum length of the conventional subsurface absorption field, and the minimum and maximum depth of the trenches;
- (12) The name and signature of the person performing the pre-soak;
- (13) The name, signature and registration number of the person conducting the percolation test; and
- (14) The date the percolation test was conducted.

252:641-3-4. Soil profile description test method

(a) **Test hole requirements.** Test holes may be augered borings, continuous core borings, or excavated pits.

(1) **Borings.** If borings are used, three test holes shall be placed in the proposed dispersal site at the approximate corners of an isosceles triangle having two (2) sides fifty feet (50') long and one side seventy-five feet (75') long. If the dispersal field will cover an area larger than ten thousand square feet (10,000 ft²), then one additional test hole shall be used for each additional five thousand square feet (5,000 ft²). Additional test holes shall not be placed within fifty feet of any other test hole and shall be located between fifty to seventy-five feet (50'-75') from one of the other test holes. The DEQ may approve or require alternative configurations. Borings shall allow for the classification of the soil in six-inch intervals and shall be bored to a minimum depth of forty-eight inches (48") or until one of the following is encountered first:

- (A) a layer that is impervious to boring;
- (B) a six-inch interval classified as a Group 5 soil;
- or
- (C) water saturated soil.

(2) **Pits.** If excavated pits are used, three (3) pits shall be placed in the proposed dispersal site at the approximate corners of an isosceles triangle having two (2) sides fifty feet (50') long and one side seventy-five feet (75') long. If the dispersal field will cover an area larger than ten thousand square feet (10,000 ft²), then one additional test hole shall be used for each additional five thousand square feet (5,000 ft²). Additional test holes shall not be placed within fifty feet of any other test hole and shall be located between fifty to seventy-five feet (50'-75') from one of the other test holes. The DEQ may approve or require alternative configurations. Pits shall:

- (A) have a depth of a minimum of forty-eight inches (48"), unless rock or water saturated soil is encountered at a shallower depth;
- (B) be a minimum of thirty-six inches (36") wide and sixty inches (60") long; and
- (C) have one end sloped or stepped to allow for entry.

(b) **Identification of limiting layers.** The shallowest limiting layer encountered in the test holes shall be the limiting layer for the entire dispersal site. The following are considered limiting layers and shall be identified by depth on DEQ Form 641-581SP, "Report for On-Site Sewage Treatment:"

- (1) a layer that is impervious to boring;
- (2) a six-inch interval classified as a Group 5 soil; and
- (3) water saturated soil.

(c) **Verifying limiting layers using pits.** Limiting layers may be verified using an excavated pit. The results of the pit(s) shall override the results of borings completed in the same proposed dispersal site.

(d) **Classifying soil intervals.** For each test hole, the soil group for each six-inch interval between the surface and the bottom of the test hole shall be identified using the guidelines found in the "DEQ/OSU Soil Classification Manual" and classified as one of the soil groups in Appendix B.

Permanent Final Adoptions

(e) **Determining the soil group for the separation range.**

The soil group for the separation range establishes the required vertical separation between the dispersed effluent and the limiting layer. The separation range consists of the three (3) six-inch intervals above the interval containing a limiting layer or, if no limiting layer was identified, the separation range shall be the three (3) six-inch intervals above the bottom of the test hole. To determine the soil group for the separation range:

- (1) Select the test hole in the dispersal site with the lowest clay content in the separation range; and
- (2) Identify and record the most prevalent soil group in the separation range for that test hole.

(f) **Identifying dispersal field options.** Based on the soil group identified in (e) of this Section, use Appendix A, Figure 1 to identify suitable dispersal fields along with their minimum separations distances from the limiting layer.

(g) **Sizing the dispersal field(s).** Each suitable dispersal field shall be sized as follows:

- (1) **Determining sizing range.** Select the test hole in the dispersal site with the highest clay content in the sizing range for the chosen dispersal field. The applicable sizing range for each type of dispersal field is as follows:

(A) **Conventional subsurface absorption fields.**

The sizing range for conventional subsurface absorption fields is the three (3) six-inch intervals between twelve inches (12") and thirty inches (30").

(B) **Low pressure dosing fields.** The sizing range for low pressure dosing fields is the three (3) six-inch intervals between twelve inches (12") and thirty inches (30").

(C) **ET/A fields.** The sizing range for ET/A fields is the three (3) six-inch intervals between twelve inches (12") and thirty inches (30").

(D) **Shallow extended subsurface absorption fields.** The sizing range for shallow extended subsurface absorption fields is the three (3) six-inch intervals between six inches (6") and twenty-four inches (24").

(E) **Drip irrigation fields.** The sizing range for drip irrigation fields is the three (3) six-inch intervals between ground level and eighteen inches (18").

(F) **Spray irrigation fields.** The sizing range for spray irrigation fields is the three (3) six-inch intervals between ground level and eighteen inches (18").

- (2) **Identifying soil group in sizing range.** Determine the most prevalent soil group in the sizing range for the test hole selected in (1) of this subsection;

(3) **Sizing dispersal field.** Based on the soil group identified in (2) of this subsection, size the dispersal field using the charts in Appendix H, Figures 3 and 5-22; and

(4) **Sizing additional dispersal field options.** Repeat (1) through (3) of this subsection for each dispersal field option.

(h) **Information to be reported.** After completion of the soil profile, the soil profiler shall submit an accurate, completed DEQ Form 641-581SP to the local DEQ office. The following information must be reported to DEQ on DEQ Form 641-581SP, "Report for On-Site Sewage Treatment":

- (1) Property owner's name(s);
- (2) Address or finding directions for property;
- (3) Legal description of property including block and lot number when available;
- (4) Lot size in square feet or acres;
- (5) Whether the system will be an individual or small public on-site sewage treatment system;
- (6) The estimated or actual average daily flow for the system as certified on DEQ Form 641-581 Cert "Certification Documentation Form";
- (7) Whether the water supply for the property is public or private;
- (8) The location of each test hole (identified from two fixed reference points);
- (9) The soil group for each six inch interval between ground level and the bottom of each test hole in the proposed dispersal field;
- (10) The depth and description of any soil impervious to boring or water-saturated soil layer in each test hole located in the proposed dispersal field;
- (11) Depth of limiting layer for entire dispersal field;
- (12) The test hole number used to identify the separation range and the soil group of the separation range in the proposed dispersal field;
- (13) For each suitable dispersal fields or system(s) identified provide the following:
 - (A) the test hole number used to determine the sizing range;
 - (B) the soil group of the sizing range; and
 - (C) the minimum sizing and installation criteria for the dispersal field or system;
- (14) The name, signature and registration number of the person conducting the soil profile description;
- (15) The date the soil profile description was conducted; and
- (16) Check box indicating whether or not dispersal field will be located in Zone 1 of a water body protection area.

SUBCHAPTER 5. BUILDING SEWER AND COLLECTION SYSTEMS

252:641-5-1. General provisions

All solid pipe used in the conveyance of wastewater from a structure (home or business) shall comply with the following:

- (1) Oklahoma Uniform Building Code Commission Rules- Title 748 Uniform Building Code Commission Adopted Codes (with Amendments);
 - (2) OAC 158:30 Plumbing Industry Regulations; and
 - (3) Oklahoma Statute Title 59 Sections 1001 through 1023
- (a) The pipe used for building sewer and collection lines shall comply with the pipe specifications as set forth in Appendix C.
- (b) The joints of all solid pipe shall be sealed to be water-tight.

252:641-5-2. Installation [REVOKED]

(a) ~~Minimum fall.~~ The following minimum fall requirements shall be met:

- (1) ~~Three-inch and four-inch pipe.~~ Pipe having a diameter of three inches (3") or four inches (4") that delivers sewage to a septic tank or a trash tank shall be installed with a minimum fall of one eighth inch (1/8") per foot.
- (2) ~~Six-inch pipe.~~ Pipe having a diameter of six inches (6") that delivers sewage to a septic tank or a trash tank shall be installed with a minimum fall of one sixteenth inch (1/16") per foot.

(b) ~~Cleanouts.~~ For all pipe located upstream of a septic tank, a two way cleanout or two way cleanout assembly shall be installed:

- (1) ~~Within five feet (5') from where the plumbing stubs out of the building or appurtenance to the building;~~
- (2) ~~Within five feet (5') after each change in direction of more than forty five degrees (45E).~~
- (3) ~~For each one hundred foot interval of straight pipe. Nothing in this paragraph shall require the installation of more than one (1) two way cleanout or two way cleanout assembly per one hundred foot (100') section of straight pipe. For purposes of this paragraph, straight pipe is pipe that does not have any change of direction of more than forty five degrees (45E).~~

SUBCHAPTER 7. SEPTIC TANKS

252:641-7-1. General provisions

(a) Once installed, ~~the tops of~~ septic tanks shall have no more than one inch (1") variation in elevation from side to side and end to end.

(b) Septic tanks shall be constructed to prevent sewage from leaking out of the tank and to prevent the infiltration of water into the tank.

(c) The bottom of the inlet pipe of a septic tank shall be at least one-eighth inch (1/8") per foot below the bottom of the building sewer pipe unless the wastewater is mechanically lifted.

(ed) Appendix I illustrates the requirements for a septic tank.

252:641-7-3. Design

(a) **Compartments.** A septic tank may consist of one (1) or two (2) compartments. All septic tanks shall have a removable lid or a manhole opening of at least twenty inches (20") in diameter or, if rectangular, having no side less than twenty inches (20") in length over each compartment. All lids and manholes shall be sealed to prevent leakage.

(b) **Two-compartment tanks.** The passage in the common wall of two-compartment tanks shall be located ~~below the liquid level and~~ between twenty percent (20%) to forty percent (40%) of the liquid depth. There shall be a vent through the common wall.

(c) **Inlets and outlets.** The outlet of the septic tank shall be two inches (2") lower than the inlet of the septic tank. Baffles

for inlets and outlets shall be constructed and located as follows:

- (1) **Construction.** Baffles shall be used on all inlet and outlet lines. Cleanout openings shall be located directly above the inlet and outlet baffles. Inlets and outlets shall have a watertight seal. The inlet cleanout shall have an opening of sufficient size to allow for maintenance that extends a minimum of two inches (2") above ground elevation. The cover for the opening shall have a lock, locking bolt or some type of tamper-resistant fastener, or require a tool for removal.
- (2) **Location.** All baffles shall extend to within two inches (2") of the top of the septic tank.

(A) **Inlet.** Inlet baffles shall extend at least six inches (6") below the liquid depth of the septic tank.

(B) **Outlet.** Outlet baffles shall extend below the liquid level by twenty percent (20%) to forty percent (40%) of the liquid depth.

(d) **Precast concrete tanks.** Precast concrete tanks shall have a minimum:

- (1) wall thickness of two and one-half inches (2-1/2");
- (2) bottom thickness of three inches (3"); and
- (3) cover thickness of three and one-half inches (3-1/2").

(e) **Poured-in-place concrete tanks.** Poured-in-place concrete tanks shall have a minimum:

- (1) wall thickness of six inches (6");
- (2) bottom thickness of three inches (3"); and
- (3) cover thickness of four inches (4").

SUBCHAPTER 9. PUMP TANKS

252:641-9-1. General provisions

(a) **Primary settling.** All sewage entering a pump tank (i.e., a lift station, a flow equalization tank or a low pressure dosing tank) must first

pass through a septic tank or a trash tank for primary settling.

(b) **Pump tank design and construction.** Pump tanks shall:

- (1) be constructed to prevent sewage from leaking out of the tank and to prevent the infiltration of water into the tank;
- (2) when made of concrete, meet the requirements of 252:641-7-2(a);
- (3) have a manhole opening of at least twenty inches (20") in diameter or, if rectangular, having no side less than twenty inches (20") in length. The manhole cover shall have a lock, locking bolt, or some type of tamper-resistant fastener that or requires require tools for removal. The manhole opening shall extend a minimum of two inches (2") above ground elevation;
- (4) have a threaded union installed in the discharge line located within eighteen inches (18") of the manhole opening so that the pump can be removed without entering the pump tank; and
- (5) have a check valve installed in the discharge line after the threaded union. The check valve shall be the same diameter as the discharge line.

- (c) **Pump design.** Pumps shall be:
- (1) designed to pump sewage or other liquid containing fine particles/suspended solids;
 - (2) rated to pump at least the average daily flow the required distance and elevation; and
 - (3) when used as a low pressure dosing pump, rated to pump at least fifty (50) gallons per minute with no more than eight feet (8') of head pressure.
- (d) **Prevention of back siphoning.** Pump discharges shall flow through a structure or device that prevents the back siphoning of wastewater to the pump tank.
- (e) **Example.** Appendix J illustrates the requirements for a pump tank.

SUBCHAPTER 10. AEROBIC TREATMENT SYSTEMS

252:641-10-1. ~~Residential sewage~~Sewage treatment only

Aerobic treatment systems shall only be used for treatment of sewage ~~from residential units~~ and cannot be used when the average daily flow is less than one hundred (100) gallons per day or greater than one thousand five hundred (1,500) gallons per day or generates wastewater with a total Biochemical Oxygen Demand (BOD) greater than one and one half (1.5) pounds per day. All other system designs must be permitted as alternative systems as described in OAC 252:641-1-2.1(c) (e.g., hospitals, laundromats, restaurants, etc).

252:641-10-2. Design and installation

- (a) **Fluctuating flows.** If the daily flow fluctuates so that the flow on any given day during the week exceeds the aerobic treatment unit's daily capacity, then an aerobic treatment system may not be used unless a flow equalization tank, which meets the requirements of 252:641-9, is installed between the trash tank and the aerobic treatment unit.
- (b) **Components of aerobic treatment systems.** Aerobic treatment systems shall be comprised of the following components:
- (1) **Trash tank.** There shall be a trash tank that meets the requirements of ANSI/NSF/ANSI Standard 40 or 252:641-7-2. The trash tank shall:
 - (A) be constructed to prevent sewage from leaking out of the tank and to prevent the infiltration of water into the tank;
 - (B) have a minimum liquid capacity of three hundred (300) gallons or the average daily flow, whichever is greater, except that the minimum liquid capacity shall not be less than what was used in the ANSI/NSF/ANSI certification process;
 - (C) have a removable lid or a manhole opening of sufficient size to allow for maintenance. The lid or manhole shall be sealed to prevent leakage and extend a minimum of two inches (2") above ground elevation. The cover for the opening shall have a lock,

locking bolt or some type of tamper-resistant fastener, or require a tool for removal; ~~and~~

(D) have baffles installed at its inlet and the outlet. The baffles shall extend to within two inches (2") of the top of the trash tank; and

(i) **Inlet.** Inlet baffles shall extend at least six inches (6") below the liquid depth of the trash tank.

(ii) **Outlet.** Outlet baffles shall extend below the liquid level by twenty percent (20%) to forty percent (40%) of the liquid depth.

(E) meet the requirements of 252:641-7-1(c).

- (2) **Aerobic treatment unit.** There shall be ~~an~~ aerobic treatment unit that:

(A) has been tested and certified by an ANSI accredited third party certifier as meeting the most current ANSI/NSF/ANSI Standard 40 and when required by waterbody restrictions ANSI/NSF/ANSI Standard 245;

(B) is constructed to prevent sewage from leaking out of the tank and to prevent the infiltration of water into the tank

(C) is rated at or above the design daily flow and designed treatment capacity for BOD;

(D) produces effluent clear enough that the bottom of the pump tank is visible when it is full; and

(E) has an opening of sufficient size to allow for maintenance that extends a minimum of two inches (2") above ground elevation. The cover for the opening shall have a lock, locking bolt or some type of fastener, or require a tool for removal.

- (3) **Method of disinfection.** If spray irrigation is used as the type of dispersal, then there shall be a method to disinfect the effluent that has been tested and certified by an ANSI accredited third party certifier as meeting the most current ANSI/NSF/ANSI Standard 46, between the aerobic treatment unit and the pump tank (or in the pump tank). If chlorination is used as the disinfection method, a free chlorine residual of two tenths of a milligram per liter (0.2 mg/l) must be maintained in the pump tank. All other methods of disinfection shall effectively reduce the fecal coliform count to less than two hundred colonies per one hundred milliliters (200/100 ml).

- (4) **Pump tank.** There shall be a pump tank, which shall:

(A) meet the requirements of ANSI/NSF/ANSI Standard 40 or 252:641-7-2;

(B) have a minimum liquid capacity of seven hundred (700) gallons or, for systems with an average flow over three hundred fifty (350) gallons per day, have a liquid capacity of at least twice the average daily flow;

(C) have a sampling port in the pump tank at the discharge outlet or in the treated effluent line following the pump tank;

(D) have a float in the pump tank set so that the pump tank is never more than one-half (1/2) full;

- (E) have a high-water alarm set to activate and alert the owner/operator if the pump tank becomes more than one-half (1/2) full; and
- (F) have an opening of sufficient size to allow for maintenance that extends a minimum of two inches (2") above ground elevation. The cover for the opening shall have a lock, locking bolt or some type of fastener, or require a tool for removal.
- (5) **Dispersal field.** Effluent treated by an aerobic treatment unit shall be dispersed as described in Subchapter 12 of this Chapter.
- (c) **Level.** Once installed, ~~the top of~~ each tank (i.e., trash tank, aerobic treatment unit and pump tank) shall have no more than one inch (1") variation in elevation from side to side and end to end.
- (d) **Depth of aerobic treatment system components.** The top of all components of the aerobic treatment system, excluding the trash tank and dispersal field, shall be covered with no more than ~~twenty-four~~ thirty-six inches (24~~36~~") of soil and have access to all serviceable parts within twenty-four inches (24") of ground level.
- (e) **Solid pipe.** The solid pipe used to connect the components of an aerobic treatment system must meet the minimum specifications listed in Appendix C.
- (f) **Fall.** Unless a lift pump is utilized, there shall be fall between:
 - (1) the trash tank and the aerobic treatment unit; and
 - (2) the aerobic treatment unit and the pump tank.
- (g) **~~Manufacturer's~~ Manufacturer's specification.** All aerobic treatment systems shall be installed in accordance with the manufacturer's specifications and maintained as required by the most current version of NSF Standard 40 and Standard 245.

252:641-10-3. Responsibility for maintenance

- (a) **Mandatory two year maintenance period.** The installer of any aerobic treatment system including those providing nitrogen reduction shall maintain the aerobic treatment system for a period of two years following the date the system was installed at no additional cost to the owner. During the two-year mandatory maintenance period, the installer shall be responsible for the following:
 - (1) repairing, adjusting or replacing any broken or malfunctioning parts;
 - (2) when spray dispersal is used, testing and recording the free chlorine residual of the effluent in the pump tank at least once every six (6) months;
 - (3) measuring and recording the depth of the sludge in the trash tank at least once every six (6) months;
 - (4) measuring and recording the volume of the sludge in forced-air aerobic treatment units at least once every six (6) months;
 - (5) when pump tanks are used, conducting a clarity test and recording the results as passing or failing once every six (6) months. A passing clarity test is one where an eight-inch disk with alternating black and white quadrants is visible when placed on the bottom of the pump tank when the tank is at least one-third (1/3) full;

- (6) notifying the owner of the system in writing of all maintenance provided during each site visit:
 - (A) ~~the type and date of any repairs, adjustments or replacements performed on the system;~~
 - (B) ~~the results of the free chlorine residual test if required and, when applicable, the need to add chlorine and how to do it;~~
 - (C) ~~the depth of the accumulation of sludge in the trash tank and the need to have it pumped so that the depth of the sludge is never more than forty percent (40%) of the overall depth;~~
 - (D) ~~the volume of the sludge in the aerobic treatment unit and the need to have it pumped so that the volume of the sludge in the aerobic treatment unit is never more than forty percent (40%); and~~
 - (E) ~~the results of the clarity test and, if it fails the test, what the installer did or the homeowner has to do to correct it; and~~
- (7) documenting all maintenance and testing performed on the system and maintaining those records at his/her business for a period of three (3) years following the date of service.
- (b) **Exclusions from maintenance.** The installer shall not be responsible for repairing aerobic treatment systems when the owner/operator is the sole cause of the damage to the system or the system's malfunction (e.g., sprinkler heads that properly retract into the ground but are nevertheless damaged by careless actions of the homeowner, excessive water usage, introduction of harmful items into septic system, etc.).
- (c) **Owner responsible after two year period ends.** After the expiration of the initial two-year ~~mandatory~~ maintenance period, the owner of the aerobic treatment system shall be solely responsible for maintaining or hiring someone to maintain the system so that it operates as designed.

SUBCHAPTER 12. DISPERSAL FIELDS

252:641-12-2. Conventional subsurface absorption fields

- (a) **Location.** All conventional subsurface absorption fields shall be:
 - (1) located in the identified dispersal site; and
 - (2) installed more than five feet (5') from the septic tank or aerobic treatment unit.
- (b) **Fall.** Unless a pump is utilized, there shall be a minimum fall of two inches (2") from the bottom of the outlet of the septic tank to the:
 - (1) highest point of the storage media in the conventional subsurface absorption field; or
 - (2) highest point of the sidewall openings of a chamber in the conventional subsurface absorption field.
- (c) **Minimum linear length.** All conventional subsurface absorption fields must meet the minimum length requirements set forth in Appendix H, Figures 1-5. If perforated pipe is used between distribution structures and installed in accordance with the trench requirements of this Section, it may be counted

as part of the overall required length of the conventional subsurface absorption field.

(d) **Trench length limitation.** Conventional subsurface absorption fields shall be constructed so that no sewage flows through more than a total of one hundred fifty linear feet (150') of perforated pipe or chambers in any given path.

(e) **Trench spacing.** The trenches in a conventional subsurface absorption field shall be spaced at least eight feet (8') apart, center to center.

(f) **Trench width.** All trenches in a conventional subsurface absorption field shall be twenty-four inches (24") wide.

(g) **Trench depth.** Each trench in a conventional subsurface absorption field shall have a uniform depth of at least eighteen inches (18"), and no more than thirty inches (30"). The bottom of the trenches shall be level.

(h) **Dispersal and storage.** Each trench in a conventional subsurface absorption field shall contain a zone for the dispersal and storage of effluent comprised of either perforated pipe and storage media, or chambers.

(1) **Perforated pipe with storage media.** When perforated pipe and storage media are used to disperse and store effluent throughout the trenches, the following requirements shall apply:

(A) **Perforated pipe.** The perforated pipe shall:

- (i) meet the minimum specifications listed in Appendix C.
- (ii) extend the entire length of the trenches.

(B) **Storage Media.** The storage media shall:

- (i) be at least ten inches (10") deep and at least twenty-four inches (24") wide the entire length of the trench;
- (ii) be installed with at least two inches (2") of storage media above and two inches (2") of storage media below the perforated pipe;
- (iii) be level:
 - (I) in each trench; and
 - (II) across the dispersal field, unless installed in trenches of different elevations.

(2) **Chambers.** When chambers are used to disperse and store effluent throughout the trenches, the chambers shall:

- (A) have a minimum bottom width of twenty-two inches (22");
- (B) have a minimum sidewall height of ten inches (10") with the sidewalls having evenly distributed open space. If the sidewall height is less than ten inches (10"), then the trench shall be backfilled with storage media to meet the ten-inch height requirement;
- (C) meet the most current IAPMO PS 63-2005 standard;
- (D) extend the entire length of the trenches;
- (E) be level:
 - (i) in each trench; and
 - (ii) across the dispersal field, unless installed in trenches of different elevations.

(i) **Retention structure.** Retention structures must be used between trenches of different elevations in conventional subsurface absorption fields. When a retention structure is used:

- (1) the ~~top~~bottom of the outlet pipe of a retention structure or the ~~top~~bottom of the outlet pipe of a chamber being used as a retention structure shall be ~~fourteen inches (14")~~ten inches (10") above the trench bottom; and
- (2) the line from the outlet of a retention structure to the next distribution point shall be constructed of solid pipe and shall be backfilled with compacted native soil.

(j) **Backfill.** For conventional subsurface absorption fields:

- (1) the depth of the backfill shall be consistent and shall not vary more than four inches (4"); and
- (2) the backfill shall consist of at least eight inches (8") of topsoil.

(k) **Layout examples.** There are examples of conventional subsurface system layouts in Appendix K, Figures 1, 2, and 4; examples of retention and distribution structures in Appendix L; examples of trench installation in Appendix M, Figures 1 and 2; and examples of chambers installed in trenches in Appendix N.

252:641-12-3. Shallow extended subsurface absorption fields

(a) **Location.** All shallow extended subsurface absorption fields shall be:

- (1) located in the identified dispersal site; and
- (2) installed more than five feet (5') from the septic tank or aerobic treatment unit.

(b) **Fall.** Unless a pump is utilized, there shall be a minimum fall of two inches (2") from the bottom of the outlet of the septic tank to the:

- (1) highest point of the storage media in the shallow extended subsurface absorption field; or
- (2) highest point of the sidewall openings of a chamber in the shallow extended subsurface absorption field.

(c) **Minimum linear length.** All shallow extended subsurface absorption fields must meet the minimum length requirements set forth in Appendix H, Figures 6 and 7. If perforated pipe is used between distribution structures and installed in accordance with the trench requirements of this Section, it may be counted as part of the overall required length of the shallow extended subsurface absorption field.

(d) **Trench length limitation.** Shallow extended subsurface absorption fields shall be constructed so that no sewage flows through more than a total of one hundred fifty linear feet (150') of perforated pipe or chambers in any given path.

(e) **Trench spacing.** The trenches in a shallow extended subsurface absorption field shall be spaced at least eight feet (8') apart, center to center.

(f) **Trench width.** All trenches in a shallow extended subsurface absorption field shall be twenty-four inches (24") wide.

(g) **Trench depth.** Each trench in a shallow extended subsurface absorption field shall have a uniform depth of at least fourteen inches (14"), and no more than seventeen inches (17")~~thirty inches (30")~~. The bottom of the trenches shall be level.

(h) **Dispersal and storage.** Each trench in a shallow extended subsurface absorption field shall contain a zone for the dispersal and storage of effluent comprised of either perforated pipe and storage media, or chambers.

(1) **Perforated pipe with storage media.** When perforated pipe and storage media are used to disperse and store effluent throughout the trenches, the following requirements shall apply:

- (A) **Perforated pipe.** The perforated pipe shall:
 - (i) meet the minimum specifications listed in Appendix C.
 - (ii) extend the entire length of the trenches.
- (B) **Storage Media.** The storage media shall:
 - (i) be at least six inches (6") deep and at least twenty-four inches (24") wide the entire length of the trench;
 - (ii) be installed with at least one inch (1") of storage media above and one inch (1") of storage media below the perforated pipe;
 - (iii) be level:
 - (I) in each trench; and
 - (II) across the dispersal field, unless installed in trenches of different elevations.

(2) **Chambers.** When chambers are used to disperse and store effluent throughout the trenches, the chambers shall:

- (A) have a minimum bottom width of twenty-two inches (22");
- (B) have a minimum sidewall height of six inches (6") with the sidewalls having evenly distributed open space;
- (C) meet the most current IAPMO PS 63-2005 standard;
- (D) extend the entire length of the trenches;
- (E) be level:
 - (i) in each trench; and
 - (ii) across the dispersal field, unless installed in trenches of different elevations.

(i) **Retention structure.** Retention structures must be used between trenches of different elevations in shallow extended subsurface absorption fields. When a retention structure is used:

- (1) the ~~top~~bottom of the outlet pipe of a retention structure or the ~~top~~bottom of the outlet pipe of a chamber being used as a retention structure shall be ~~six~~six inches (~~40~~6) above the trench bottom; and
- (2) the line from the outlet of a retention structure to the next distribution point shall be constructed of solid pipe and shall be backfilled with compacted native soil.

(j) **Backfill.** For shallow extended subsurface absorption fields:

- (1) the depth of the backfill shall be consistent and shall not vary more than four inches (4"); and
- (2) the backfill shall consist of at least eight inches (8") of topsoil.

252:641-12-5. Evapotranspiration/absorption (ET/A) fields

(a) **Location.** All ET/A fields shall be:

- (1) located in the identified dispersal site; and
- (2) installed more than five feet (5') from the septic tank or aerobic treatment unit.

(b) **Fall.** Unless a pump is utilized, there shall be a minimum fall of two inches (2") from the bottom of the outlet of the septic tank to the highest point of the storage media in the ET/A field.

(c) **Minimum linear length.** All ET/A fields must meet the minimum length requirements set forth in Appendix H, Figures 10 and 11. If perforated pipe is used between distribution structures and installed in accordance with the trench requirements of this Section, it may be counted as part of the overall required length of the ET/A field.

(d) **Trench length limitation.** ET/A fields shall be constructed so that no sewage flows through more than a total of one hundred fifty linear feet (150') of perforated pipe in any given path.

(e) **Trench spacing.** The trenches in an ET/A field shall be spaced at least eight feet (8') apart, center to center.

(f) **Trench width.** All trenches in an ET/A field shall be twenty-four inches (24") wide.

(g) **Trench depth.** Each trench in an ET/A field shall have a uniform depth of at least eighteen inches (18") and no more than ~~not to exceed~~ twenty-four inches (24"). The bottom of the trenches shall be level.

(h) **Dispersal and storage.** Each trench in an ET/A field shall contain a zone for the dispersal and storage of effluent comprised of perforated pipe and storage media.

(1) **Perforated pipe.** The perforated pipe shall:

- (A) meet the minimum specifications listed in Appendix C; and
- (B) extend the entire length of the trenches.

(2) **Storage media.** The storage media used shall:

- (A) be at least ten inches (10") deep and at least twenty-four inches (24") wide the entire length of the trench;
- (B) be installed with at least two inches (2") of the storage media above and two inches (2") of storage media below the perforated pipe;
- (C) be level:
 - (i) in each trench; and
 - (ii) across the ET/A field, unless installed in trenches of different elevations.

(i) **Retention structure.** Retention structures must be used between trenches of different elevations in ET/A fields. When a retention structure is used:

- (1) the ~~top~~bottom of the outlet pipe of a retention structure shall be ~~fourteen~~six inches (~~44~~10) above the trench bottom; and
- (2) the line from the outlet of a retention structure to the next distribution point shall be constructed of solid pipe and shall be backfilled with compacted native soil.

(j) **Backfill.** For ET/A fields:

- (1) the trenches shall be backfilled with at least six inches (6") of clean sand to within two inches (2") of the ground level;

- (2) the sand used to backfill the trenches shall be separated from the storage media by material that allows the flow of water but prevents the flow of sand; and
 - (3) after a trench is backfilled with sand, two to four inches (2"-4") of sandy loam soil shall be mounded over the trench.
- (k) **Layout examples.** There are layout examples located in Appendix K, Figures 1, 2, and 4, Appendix L, and Appendix M, Figure 2.

252:641-12-6. Drip irrigation fields

- (a) **Location.** All drip irrigation fields shall be:
- (1) preceded by an aerobic treatment unit;
 - (2) preceded by a filter capable of filtering particles larger than one hundred (100) microns; and
 - (3) located in the identified dispersal site.
- (b) **Components.** All components used in the drip irrigation field shall be designed and manufactured specifically for use in wastewater treatment systems.
- (c) **Pump.** The pump shall:
- (1) be set to distribute no more than one fourth (1/4) of the designed daily flow to the drip irrigation pipe during each pumping interval over a twenty-four hour (24) period;
 - (2) when in operation, maintain a minimum pressure of ten (10) psi and a maximum pressure of forty-five (45) psi throughout the drip irrigation pipe; and
 - (3) have a high-water alarm set to activate and alert the owner/operator if the pump tank becomes more than one-half (1/2) full.
- (d) **Minimum linear length.** All drip irrigation fields shall meet the minimum length requirements set forth in Appendix H, Figure 12.
- (e) **Drip irrigation pipe.** The pipe used in drip irrigation fields shall be designed and manufactured for the purpose of distributing wastewater and comply with the minimum specifications in Appendix C.
- (f) **Installation of pipe.** The pipe used in drip irrigation fields shall be:
- (1) installed eight to ten inches (8-10") deep;
 - (2) installed at least two feet (2') apart, center to center;
 - ~~(23)~~ installed according to the ~~manufac-~~ manufacturer's specifications; and
 - ~~(34)~~ equipped with emitters spaced:
 - (A) one foot (1') apart in soil groups 1, 4, and 5; and
 - (B) two feet (2') apart in soil groups 2, 2a, 3, and 3a.
- (g) **Emitters.** The emitters shall ~~be set to wet four square feet (4 ft²) and~~ be pressure compensating to deliver uniform distribution regardless of the pressure entering the drip line.
- (h) **Prevent backflow.** To prevent backflow, at least one (1) vacuum relief valve, located in a valve box lined with gravel, shall be located at the highest point on both the supply manifold and the return manifold.
- (i) **Back flush.** There shall be a method to flush the drip irrigation pipe. The flush water shall be returned to the trash tank, aerobic treatment unit or pump tank.

252:641-12-7. Spray irrigation fields

- (a) **Location.** All spray irrigation fields shall:
- (1) be preceded by an aerobic treatment unit;
 - (2) be located in the identified dispersal site, when a soil profile test is used to ~~sized~~ size the irrigation field;
 - (3) utilize at least two sprinkler heads to disperse the treated effluent; and
 - (4) be vegetated and landscaped, and/or terraced to prevent runoff.
- (b) **Sizing.** The spray irrigation field shall be sized according to Appendix H, Figures 13-22. When calculating the overall area of the spray irrigation field, areas of overlap may only be counted once.
- (c) **Sprinklers.** The sprinklers shall be designed to:
- (1) provide uniform distribution of treated effluent over the entire spray irrigation field without misting; and
 - (2) have a trajectory of no more than fifteen-degrees (15°) to keep the spray stream low to the ground surface.
- (d) **Spray irrigation.** The spray irrigation shall be:
- (1) adjusted and maintained at a rate to prevent runoff; and
 - (2) controlled by a timing device to take place daily between 1:00 a.m. and 6:00 a.m.

SUBCHAPTER 15. LAGOONS

252:641-15-1. General provisions

- (a) **Primary settling.** All sewage entering a lagoon must first pass through a septic tank for primary settling.
- (b) **Total retention.** All lagoons shall be total retention.
- (c) **Location.** Installers shall not locate lagoons where vegetation, timber, or terrain could interfere with prevailing wind action or shade the lagoon during daylight hours.
- (d) **Prohibitions.** The owner/operator shall not dispose or store wastes or contaminants other than sewage in the lagoon. The owner/operator shall not discharge or dispose of sludge from the lagoon prior to obtaining approval from the DEQ.
- (e) **Closure.** ~~The DEQ may, when public health or safety issues arise, require the owner/operator to properly close a lagoon when it is no longer in use. A closure plan shall be submitted for all lagoons being classified as small public on-site sewage treatment systems or when DEQ requires closure of a lagoon when a public health or safety issue arises and will include:~~
- (1) A description of how the wastewater will be disposed.
 - (2) A description of how the sludge will be disposed if more than six (6) inches are present.
 - (3) A description of final grading and erosion controls.
 - (4) A time schedule indicating:
 - (A) a time schedule for completion of each activity.
 - (B) the estimated date of final completion of the closure activity.
- (f) **Examples.** Refer to Appendix O, "Examples of Lagoon Installation" for examples.

252:641-15-5. Lagoon inlet line and septic tank outlet

- (a) **Lagoon inlet line.** The lagoon inlet line shall:
- (1) be made of solid pipe that complies with the minimum specifications listed in Appendix C;
 - (2) terminate in the center of the lagoon;
 - (3) be anchored and supported; and
 - (4) discharge onto a concrete structure that is a minimum of one (1) square foot.
- (b) **Septic tank outlet.** For gravity flow systems, the outlet of the septic tank shall be at least ~~one foot (1')~~ six feet (6') ~~above the designed five foot (5') maximum liquid depth~~ above the bottom of the lagoon.

252:641-15-6. Fence

- (a) **Fence required.** In order to prevent unauthorized access to the lagoon, the lagoon area shall be surrounded with a fence unless the entire property is fenced and access is controlled.
- (b) **Specifications.** The fence shall:
- (1) be, at a minimum, four feet (4') high and provide protection equivalent to the protection afforded by a woven wire or equally-spaced five (5) wire fence. Lagoons that fall within the definition of a small public sewage system and that are located within three hundred fifty feet (350') of existing or platted residential areas or that are in public access areas shall be surrounded by a six-foot (6') woven wire fence or equivalent.
 - (2) have a gate that provides access to the lagoon for mowing equipment and maintenance needs.
 - (3) not interfere with wind action to the lagoon's surface or shade the lagoon.
 - (4) have a sign on each side of the fence of a small public lagoon system that identifies the facility and provides owner contact information.
- (c) **DEQ authority to require more stringent fencing requirements.** In order to protect public health and safety, the DEQ may require more stringent fencing requirements, even when the entire property is fenced.

SUBCHAPTER 21. CERTIFICATION FOR ON-SITE SEWAGE TREATMENT SYSTEM INSTALLERS

252:641-21-2.1. New certification application requirements

An applicant may become certified in any category of certification by doing the following:

- (1) **Application.** The applicant must submit to DEQ a completed and signed DEQ Form 641-002, "Certified Installer Application". If the applicant is not currently certified in at least one category of certification, then the applicant must also pay the annual certification fee and submit documentation that the applicant has done the following:
 - (A) **Installation experience.** The installer must have installed at least five (5) on-site sewage treatment systems in Oklahoma that meet or exceed the

rules in this Chapter as determined by an inspection performed by DEQ. These systems must have been installed within the two-year time period preceding the date of certification and may not include any joint inspections required in (5) of this subsection;

(B) **Approval percentage rate.** The installer must have had at least ninety percent (90%) of the systems he/she installed within the last year approved upon the initial inspection, with any disapproved systems only requiring minor changes; and

(C) **Financial assurance.** The installer must document financial assurance by submitting to DEQ one of the following:

(i) **Surety bond.** The applicant may document financial assurance by submitting to DEQ a surety bond guaranteeing payment or performance in the amount of Ten Thousand Dollars (\$10,000) with the following stipulations:

(I) The applicant must be named as the principal of the bond and DEQ must be named as obligee of the bond;

(II) The bond must be effective before the certification can be granted by DEQ and must remain in effect as long as the installer is certified. Upon notification to DEQ that a bond is no longer in effect, DEQ may immediately begin the process to suspend the installer's certification(s); and

(III) Payments made under the terms of the bond shall be made by the surety directly to DEQ. DEQ shall establish an account with these funds from which DEQ may pay for the repair or replacement of a faulty or improperly installed system along with DEQ's costs associated with its response and oversight.

(ii) **Affidavit for tribal and governmental installers.** The applicant may document financial assurance by submitting to DEQ an affidavit that:

(I) the installer is working solely for a federally recognized tribe or a governmental entity; and

(II) the entity will pay for the repair or replacement of faulty or improperly installed systems.

(2) **Training.** The applicant must complete the required DEQ training for the category of certification sought;

(3) **Examination.** The applicant must pass the examination for the category of certification sought ~~with a score of at least seventy percent (70%).~~ A passing score is valid for one hundred eighty (180) days from the date of the exam. Any applicant found cheating on an examination will not be certified, will be subject to having any current certifications revoked, and shall be prohibited from applying for any certifications for a period of twelve (12) months;

(4) **Examination fee.** The applicant must pay to the DEQ the appropriate examination fee; and

(5) **Joint inspections.** The applicant must complete at least two (2) joint field inspections with the DEQ. The systems inspected must:

- (A) have been installed by the installer seeking certification; and
- (B) be in the category of certification sought.

252:641-21-3. Certification renewal requirements

(a) **Renewal.** A certified installer may renew unexpired certifications by submitting to DEQ the following by January 15:

- ~~(1) a completed renewal application provided by the DEQ;~~
- (21) the required annual certification fee; and
- (32) documentation that the applicant completed approved renewal training for that certificate year. Renewal training credit may be granted for courses or workshops of four (4) hours or more that have been approved in writing by the DEQ in advance.

(b) **Late renewals.** The applicant shall pay a Fifty-Dollar (\$50.00) late fee for renewal applications postmarked or received by the DEQ after January 15.

(c) **Failure to renew.** Any certification that has not been renewed within twelve (12) months of expiring may not be renewed. Such applicants must apply for a new certification.

252:641-21-12. Duties and responsibilities

(a) **Systems installed.** For each new installation, modification or repair self-inspected and approved a certified installer shall comply with the following:

- (1) **Notify DEQ.** The installer must give DEQ an opportunity to inspect a portion of the system to ascertain that the certified installer continues to meet certification requirements. The certified installer shall notify the local DEQ office, before construction begins, of the time, date and location that an on-site sewage treatment system will be installed, modified or repaired. The installer shall pay DEQ a Fifty-Dollar (\$50.00) fee each time the installer fails to notify the DEQ prior to commencing construction.

- (2) **Submittals to DEQ.** Within fifteen (15) working days after the work has been completed, the certified installer shall submit an accurate, completed DEQ Form 641-576AS ~~or 641-576S~~ to the local DEQ office. The installer shall pay DEQ a Thirty Dollar (\$30.00) fee each time the installer fails to submit a completed DEQ Form 641-576AS ~~or 641-576S~~ within fifteen (15) days of completing the work.

(b) **Record keeping.** Certified installers are responsible for maintaining their own records for:

- (1) each system installed; ~~and~~
- (2) all training classes completed; ~~and~~
- (3) a period of three (3) years.

(c) **Identification.** Each certified installer shall present their identification card to DEQ personnel upon request.

SUBCHAPTER 22. CERTIFICATION FOR PERSONS WHO PERFORM SOIL PROFILE PROFILERS DESCRIPTIONS

252:641-22-2. Prerequisites for new certifications and renewals

Before being eligible for certification or renewal, an applicant must:

- (1) be an individual,
- (2) be eighteen (18) years of age or older,
- (3) be a Professional Engineer, Professional Land Surveyor, Professional Sanitarian or Professional Environmental Specialist registered to practice in Oklahoma or Soil Scientist as defined in 27A O.S. §Section(s) 3-1-103(20),
- (4) owe no outstanding fees or fines to the DEQ,
- (5) be in compliance with the income tax and immigration laws of this state, and
- (6) be in compliance with all DEQ rules and final orders.

252:641-22-3. New certification application requirements

An applicant may, at any time, apply to become a certified soil profiler by doing the following:

- (1) **Application.** The applicant must submit to the DEQ a completed and signed DEQ Form 641-011, "Certified Soil Profiler Application";
- (2) **Training.** The applicant must complete the required DEQ training;
- (3) **Examination and fee.** The applicant must pay the examination fee and pass the examination for becoming a soil profiler. Passing scores are valid for one hundred eighty (180) days from the date of the exams. Any applicant found cheating on an examination will not be certified and shall be prohibited from applying for certification for a period of twelve (12) months;
- (4) **Joint profiles.** The applicant must complete at least four (4) joint soil profile descriptions with the DEQ;
- (5) **Annual fee.** The applicant must pay to the DEQ the annual certification fee; and
- (6) **Financial assurance.** The applicant must document financial assurance by providing DEQ with one of the following:

(A) **Surety bond.** The applicant may document financial assurance by submitting to DEQ a copy of a surety bond guaranteeing payment or performance in the amount of Ten Thousand Dollars (\$10,000.00) with the following stipulations:

- (i) The applicant must be named as the principal of the bond and DEQ must be named as obligee of the bond.
- (ii) The bond must be effective before the certification can be granted by DEQ and must remain in effect as long as the soil profiler is certified. Upon notification to DEQ that a bond is no longer

in effect, DEQ may immediately begin the process to suspend the profiler's certification.

(iii) Payments made under the terms of the bond shall be made by the surety directly to DEQ. DEQ shall establish an account with these funds to cover the costs:

- (I) to bring an on-site sewage treatment system into compliance when the system was improperly designed using an inaccurate soil profile description; and
- (II) for DEQ's response and oversight.

(B) **Affidavit for tribal and governmental soil testers.** The applicant may document financial assurance by submitting to DEQ an affidavit that:

- (i) the soil profiler is working solely for a federally recognized tribe or a governmental entity; and
- (ii) the entity will pay for the repair or replacement of improperly designed systems.

252:641-22-4. Certification renewal requirements

(a) **Renewal.** A certified soil profiler may renew an unexpired certification by doing the following by January 15:

~~(1) **Application.** The soil profiler must submit to DEQ a completed renewal application provided by the DEQ;~~

~~(2) **Annual fee.** The soil profiler must pay to DEQ the required annual certification fee;~~

~~(3) **Renewal training.** The soil profiler must submit to DEQ documentation that the applicant completed approved renewal training for that certificate year. Renewal training credit may be granted for courses or workshops of four (4) hours or more that have been approved in writing by the DEQ in advance;~~

~~(4) **Texturing samples.** The soil profiler must complete the analysis of any soil samples issued to them by the DEQ for texturing. All results must be submitted to DEQ on DEQ Form 641-006, "Soil Texturing Worksheet" within fourteen (14) days of receiving the soil samples; and~~

~~(5) **Annual texturing test.** The soil profiler shall pass the annual texturing test.~~

(b) **Late fees.** The soil profiler shall pay a Fifty-Dollar (\$50.00) late fee for renewal applications postmarked or received by the DEQ after January 15.

(c) **Failure to renew.** Any certification that has not been renewed within twelve (12) months of expiring may not be renewed. Such applicants must apply for a new certification.

252:641-22-5. Duties and responsibilities

(a) **Soil profile descriptions.** For each soil profile description performed, the soil profiler shall notify the local DEQ office the day the soil profile description will be performed to allow the DEQ the opportunity to corroborate the results. The soil profiler shall pay DEQ a Fifty-Dollar (\$50.00) fee each time the soil profiler fails to notify the DEQ prior to commencing the soil profile description.

(b) **Record keeping.** Certified soil profilers are responsible for maintaining their own records for:

- (1) each soil profile description performed; ~~and~~
- (2) all training classes completed; ~~and~~
- ~~(3) a period of three (3) years.~~

(c) **Identification.** Each certified soil profiler shall present their identification card to DEQ personnel upon request.

SUBCHAPTER 23. FEES

252:641-23-2. Certified sewage treatment system installer fees

~~(a) **Certification fees.** The following are the fees associated with the installer certification program.~~

- ~~(1) Annual certification fee -~~
 - ~~(A) \$150.00~~
 - ~~(B) \$175.00 (Effective July 1, 2010)~~
 - ~~(C) \$200.00 (Effective July 1, 2012)~~
- ~~(2) Examination fee for each category of certification -~~
 - ~~(A) \$100.00~~
 - ~~(B) \$125.00 (Effective July 1, 2010)~~
 - ~~(C) \$150.00 (Effective July 1, 2012)~~
- ~~(3) Late fee - \$50.00~~
- ~~(4) Reinstatement fee - \$50.00~~
- ~~(5) Failure to notify fee - \$50.00~~
- ~~(6) Failure to submit paperwork timely fee - \$30.00~~

~~(b) **Nonrefundable.** Fees are nonrefundable.~~

252:641-23-3. Certified soil profiler fees

~~(a) **Certification fees.** The following are the fees associated with the soil profiler certification program.~~

- ~~(1) Annual certification fee -~~
 - ~~(A) \$150.00 (Effective July 1, 2008)~~
 - ~~(B) \$175.00 (Effective July 1, 2010)~~
 - ~~(C) \$200.00 (Effective July 1, 2012)~~
- ~~(2) Examination fee -~~
 - ~~(A) \$100.00 (Effective July 1, 2008)~~
 - ~~(B) \$125.00 (Effective July 1, 2010)~~
 - ~~(C) \$150.00 (Effective July 1, 2012)~~
- ~~(3) Late fee - \$50.00~~
- ~~(4) Reinstatement fee - \$50.00~~
- ~~(5) Failure to notify fee - \$50.00~~

~~(b) **Nonrefundable.** Fees are nonrefundable.~~

252:641-23-4. Fee escalator based on consumer price index (CPI)

To assist in meeting rising costs to DEQ associated with the on-site sewage program, the fees set out in Subchapter 23 shall be automatically adjusted on July 1, 2013, and every year thereafter on July 1st, to correspond to the percentage, if any, by which the Consumer Price Index (CPI) for the most recent calendar year exceeds the CPI for the previous calendar year. DEQ may round the adjusted fees up to the nearest dollar. DEQ may waive collection of an automatic increase in a given year if it determines other revenues, including appropriated state general revenue funds, have increased sufficiently to make the

Permanent Final Adoptions

funds generated by the automatic adjustment unnecessary in that year. A waiver does not affect future automatic adjustments.

(1) Any automatic fee adjustment under this subsection may be averted or eliminated, or the adjustment percentage may be modified, by rule promulgated pursuant to the Oklahoma Administrative Procedures Act. The rule-making process may be initiated in any manner provided by law, including a petition for rulemaking pursuant to 75 O.S. §Section 305 and OAC 252:4-5-3 by any person affected by the automatic fee adjustment.

(2) If the United States Department of Labor ceases to publish the CPI or revises the methodology or base years, no further automatic fee adjustments shall occur

until a new automatic fee adjustment rule is promulgated pursuant to the Oklahoma Administrative Procedures Act.

(3) For purposes of this subsection, "Consumer Price Index" or "CPI" means the Consumer Price Index - All Urban Consumers (U.S. All Items, Current Series, 1982-1984=100, CUUR0000SA0) published by the United States Department of Labor. The CPI for a calendar year is the figure denoted by the Department of Labor as the "Annual" index figure for that calendar year.

252:641-23-5. Refunds

Fees contained within this Chapter are non-refundable and are subject to the requirements set forth in OAC 252:4-7.

APPENDIX C. PIPE SPECIFICATIONS FOR ON-SITE SEWAGE TREATMENT SYSTEMS [REVOKED]

APPENDIX C. PIPE SPECIFICATIONS FOR ON-SITE SEWAGE TREATMENT SYSTEMS [NEW]

USE	PIPE SIZE	ACCEPTABLE MATERIALS
Solid pipe when used for single family residences or small public systems where the flow is 1,500 gpd or less	3" to 4" diameter	<i>Acrylonitrile Butadiene Styrene (ABS):</i> ASTM D2661 ASTM D2751 ASTM F628
Solid pipe when the average flow is greater than 1,500 gpd	Minimum 6" diameter	<i>Polyvinyl Chloride (PVC):</i> ASTM D2665 ASTM D2949 ASTM D3033 ASTM D3034 ASTM F789
Discharge line from lift stations or other pressurized effluent waste water lines [†]	Minimum 1" diameter	<i>Polyvinyl Chloride (PVC):</i> ASTM D2846 ASTM F441 ASTM F442 Schedule 40
Low pressure dosing manifold pipe	3" diameter	
Low pressure dosing perforated pipe	1 ½" diameter	
Perforated pipe when used in a conventional subsurface absorption field or an ET/A field	Minimum 3" diameter	<i>Polyethylene (PE):</i> ASTM F810 ASTM D3350 <i>Polyvinyl Chloride (PVC):</i> ASTM D2729 ASTM D3034 ASTM D3350

[†] All reclaimed, pressurized water piping shall be colored purple (Pantone 522) by the manufacturer.

Permanent Final Adoptions

APPENDIX E. HORIZONTAL SEPARATION DISTANCE REQUIREMENTS FOR ON-SITE SEWAGE TREATMENT SYSTEMS [REVOKED]

APPENDIX E. HORIZONTAL SEPARATION DISTANCE REQUIREMENTS FOR ON-SITE SEWAGE TREATMENT SYSTEMS [NEW]

Required Horizontal Separation Distances in Feet

	Aerobic Treatment Unit, Flow Equalization Tank, Low Pressure Dosing Tank, Lift Station, Septic Tank & Trash Tank	Perforated Pipe, Chamber, or Drip Irrigation Line	Solid Pipe	Lagoons	Spray Irrigation Heads	Spray Irrigation Effluent
Private Well or Surface Water Supply	50 ¹	50 ¹	50 ³	50 ^{2, 4}	50 ¹	25
Public Water Supply Well	300	300	50	300 ⁴	300	300
Building	5	5	N/A	50 ^{5, 6}	N/A	N/A
Other Structure ⁷	N/A ⁸	5	N/A ⁹	N/A	N/A	N/A
Waterline	5	15	10 ¹⁰	15 ⁴	15	N/A
Property Line	5	5	5	10 ⁵	10	10
Impoundment or Stream ¹¹	15	15	N/A	15 ⁵	25	25

French Drain/ Curtain Drain	15	15	N/A	15 ⁵	15	15
--	----	----	-----	-----------------	----	----

¹ Distances shall be one hundred feet (100') if the soil percolates one inch (1") in less than five (5) minutes or is classified as a Group 1 soil in the separation range.

² Distances shall be one hundred feet (100') if the ground slopes toward the water supply.

³ Distances may be reduced up to ten feet (10') if, at a minimum, Schedule 40 pipe is used.

⁴ The distance shall be measured horizontally from the center line of the nearest dike.

⁵ The distance shall be measured from the outside base of the nearest dike.

⁶ This only applies to residences that are not located on the owner's property.

⁷ "Other structures" include but are not limited to driveways, parking lots and paved areas.

⁸ If septic tanks are located under paved areas, access to all manhole/cleanout openings shall be provided.

⁹ If solid pipe is installed under a roadway or a driveway, the pipe under the roadway/driveway and the ten feet (10') of pipe extending out from under the roadway/driveway on both sides shall be, at a minimum Schedule 40 pipe or sleeved with Schedule 40 pipe.

¹⁰ Ten feet (10') horizontal or two feet (2') vertical separation shall be maintained between any water line and solid pipe. When proper horizontal and vertical separation cannot be obtained then the solid pipe shall be constructed of, at a minimum, Schedule 40 pipe and shall be installed so the joints of both the water line and the solid pipe are as far apart as possible.

¹¹ This includes the top bank of any stream or the normal pool elevation of an impoundment that is not used for a surface water supply.

APPENDIX F. ESTIMATED AVERAGE DAILY FLOW FOR SMALL PUBLIC ON-SITE SEWAGE TREATMENT SYSTEMS [REVOKED]

APPENDIX F. ESTIMATED AVERAGE DAILY FLOW FOR SMALL PUBLIC ON-SITE SEWAGE TREATMENT SYSTEMS [NEW]

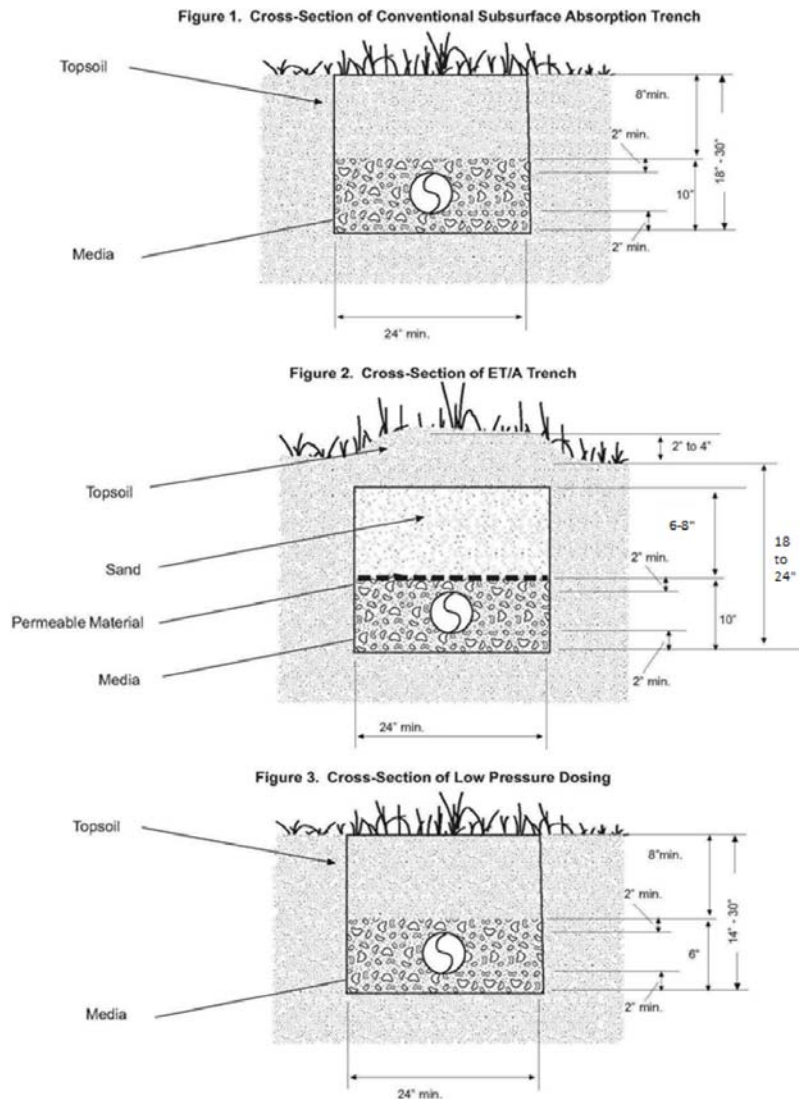

TYPE OF ESTABLISHMENT	FLOW UNIT	ESTIMATED AVERAGE DAILY FLOW In Gallons	BOD ¹ lbs/day per flow unit
Bar or Lounge	Per Seat	10	0.08
Boarding School	Per Room	50	0.20
Church w/o Kitchen	Per Sanctuary Seat	4	0.01

GIST/ANALYSIS:

The gist of this rulemaking is to enhance the professional development of operators in Oklahoma by increasing training requirements for certification renewal. This rulemaking will allow DEQ to approve a variety of training opportunities that minimize the financial impact on operators and employers and help rural operators to achieve the required training hours. Furthermore, this rulemaking will allow environmental professionals, such as DEQ staff and consulting engineers, to obtain a special non-operational certification in order to demonstrate a fundamental understanding of operator knowledge. This rulemaking will also modify language to change the time of approval and review for training courses from 30 to 42 days. Furthermore, this rulemaking will incorporate the language of Senate Bill No. 670 that provides for certification reciprocity for military personnel being transferred to Oklahoma. Lastly, this rulemaking will promote consistency with relevant statutory language and clarify existing language by adding definitions and modifying unclear rule text. The Department is also proposing to add Appendix C that clarifies the number of Professional Development Hours need for each certificate level.

CONTACT PERSON:

David Pruitt, Department of Environmental Quality, Water Quality Division, 707 North Robinson, P.O. Box 1677, Oklahoma City, Oklahoma 73101-1677, (405) 702-8100 (phone), David.Pruitt@deq.ok.gov (email).

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 15, 2020:**

SUBCHAPTER 1. GENERAL PROVISIONS

252:710-1-1. Purpose, authority and applicability

(a) **Purpose.** This Chapter establishes procedures for persons seeking certification as waterworks and wastewater works operators and laboratory operators.

(b) **Authority.** This Chapter is authorized by 27A O.S. § 2-1-101, 59 O.S. § 1101 *et seq.* and the *Final Guidelines for the Certification and Recertification of the Operators of Community and Nontransient Noncommunity Public Water Systems* (Federal Register, Volume 64, No. 24, Friday, February 5, 1999) adopted by the U.S.E.P.A. under the federal Safe Drinking Water Act.

(c) **Applicability.** The rules in this Chapter apply to any person who seeks certification from or is certified by the Department of Environmental Quality ("DEQ") to operate waterworks, wastewater works, distribution and collection systems, and laboratories owned by or associated with waterworks/wastewater works. The rules also apply to any person who seeks certification from or is certified by ~~the~~ DEQ as a technician for distribution and collection systems.

252:710-1-2. Duty to comply

Each person certified under this Chapter shall comply with the Waterworks and Wastewater Works Operator Certification Act ("Act") and this Chapter, the Code and its rules, terms and conditions of the certification, and any final order issued by the Executive Director. Failure to comply may result in administrative, civil or criminal enforcement actions.

Permanent Final Adoptions

252:710-1-3. **Synonymous terms**

(a) For purposes of this Chapter, the term "waterworks or wastewater works laboratory operator" is synonymous with "laboratory operator".

(b) ~~The words "he" and "his" are synonymous with the words "she" and "hers" when used in this Chapter.~~

252:710-1-4. **Definitions**

In addition to the definitions contained in the Environmental Quality Code (27A O.S. § 2-1-101 ~~et seq~~ et seq.), and the Waterworks and Wastewater Works Operator Certification Act (59 O.S. § 1101 ~~et seq~~ et seq.), the following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"**Act**" means the Waterworks and Wastewater Works Operator Certification Act, 59 O.S. § 1101 *et seq.*

"**Associated laboratory**" means any laboratory, not directly owned by or located on the premises of a waterworks or wastewater works facility, that performs required laboratory tests for the ~~works facility~~.

"**Available**" means ~~on-site~~ on-site or able to be contacted as needed to initiate the appropriate action in a timely manner.

"**Certificate year**" means July 1 through June 30.

"**Certification of competency**" means a certification issued by the ~~Department~~ DEQ pursuant to this Chapter.

"**Class associated examination**" means an operator certification examination which is given at the end of a classroom instruction for the level of certification taught. Only class participants may take a class associated exam. In addition, the applicant shall have submitted an approved examination application.

"**Classroom training**" means DEQ approved professional development training taking place in a classroom or practical learning environment and attended in person by class participants.

"**Code**" means the Oklahoma Environmental Quality Code, 27A O.S. § 2-1-101 *et seq.*

"**Collection system**" ~~shall have the same definition as contained in OAC 252:656, Water Pollution Control Facility Construction Rules.~~ means pipes or conduits, pumping stations, force mains and all other facilities used to collect or conduct wastewater to a treatment works.

"**Community Water System (CWS)**" means a public water system providing water to at least 15 service connections used by year round residents or regularly serving at least 25 year round residents.

"**DEQ**" means the Oklahoma Department of Environmental Quality ~~and, for purposes of certifications issued and enforcement matters arising from certifications issued prior to July 1, 1993, "DEQ" also means the Oklahoma State Department of Health.~~

"**DEQ approved training**" means training that has been evaluated and approved by DEQ in advance of the scheduled training date with DEQ assigning a class identification number upon approval.

"**Direct supervision**" means the on-site supervision or direction provided by a certified operator of a registered helper

during which the certified operator is present at all times. A registered helper must work under direct supervision.

"**Distribution and Collection Technician**" means a person who works solely on distribution and collection lines and is not in responsible charge.

"**Distribution system**" means any combination of pipes, tanks, pumps or other equipment which delivers water from the source(s) and/or treatment facility(ies) to the consumer.

"**Distribution system complexity**" means pressure zones, booster stations, storage tanks, fire protection, chlorination, nonresidential consumers, cross connection potential, and/or demand variations.

"**Environmental professional**" means an individual with an undergraduate degree related to and practicing in the fields of biological sciences, biology, engineering, physical science, hydrology, geology, mathematics, environmental science, chemistry, microbiology, toxicology, or civil, chemical, sanitary or environmental engineering.

"**General course**" means a DEQ approved training class or classes that directly relate to waterworks, wastewater works, waterworks laboratories or wastewater works laboratories and that meet the requirements of OAC 252:710-3-36 for content and clock hours, to be utilized solely for the purpose of professional development and certification renewal.

"**General supervision**" means supervision or direction provided by a certified operator to a temporary certified person and requires that the certified operator be available to help or advise but during which the certified operator need not be present at all times. While under general supervision, a certified person may work alone.

"**Groundwater system**" means a waterworks where all water is obtained from dug, drilled, bored or driven wells or infiltration lines not under the influence of surface water contamination, but not springs which are a surface water supply.

"**Laboratory operator**" means an individual who is in general supervision of a laboratory which performs laboratory analyses for waterworks and wastewater works and who is responsible for the accuracy of the laboratory tests and reports for the facility, but who does not operate the waterworks or wastewater works unless appropriately certified as an operator for that type facility.

"**Lagoon**" ~~shall have the same definition as contained in OAC 252:619, Operation and Maintenance of Non-Industrial Total Retention Lagoon Systems and Land Application or OAC 252:621, Non-Industrial Flow Through and Public Water Supply Impoundments Including Land Application.~~ means a soil or lined basin, either below or above ground level, which is designed, maintained and/or operated to store, recycle and/or treat municipal/domestic wastewater or stormwater.

"**Minor public water supply system**" means a water system that does not meet the definition of a Public Water Supply System. Minor public water supply systems are regulated by OAC 252:624.

"**Nontransient noncommunity (NTNC) water system**" means a public water system that is not a community water system and that regularly serves at least 25 of the same persons over six months per year, including schools, day care centers, factories, restaurants and hospitals.

"OAC" means Oklahoma Administrative Code.

"Open examination" means an operator certification examination which may be taken by an individual whose experience, training, and education exempts the individual from in-class participation for the level of certification being tested. Applications must be submitted and approved by DEQ prior to examination.

"Operator" means any person who is at any time responsible for the operation of a wastewater works or waterworks or associated laboratories. "Operator" shall not ordinarily apply to an official exercising official general administrative supervision, but shall apply to any properly certified person who can, through a direct act or command, affect the quality of the water or wastewater.

"Operating experience" means the time spent at a plant or system in performance of operational duties with the appropriate level of certification.

"Operating shift" means that period of time during which operator decisions that affect public health are necessary for proper operation of the system.

"Operational engineering assistance" means providing regulatory or consulting ~~experience in providing~~ technical assistance to a variety of water/wastewater works systems.

"O.S." means Oklahoma Statutes.

"Owner" means:

- (A) a sole proprietor;
- (B) a homeowners' association;
- (C) the controlling or managing partner of a partnership;
- (D) the major stockholders of a corporation; or
- (E) a government entity including the State of Oklahoma, municipalities, counties, or districts, and all sub-divisions thereof.

"Professional development hours (PDH)" means hours of DEQ approved training that may be used to meet the requirements of OAC 252:710 -1-7 for certification renewal.

"Public Water Supply (PWS) system" means any system providing water for human consumption through pipes or other constructed conveyances, if such system has at least fifteen (15) service connections or regularly serves an average of at least twenty-five (25) individuals daily at least sixty (60) days per year, whether receiving payment for same or not. Multi-family dwellings, manufactured home communities, mobile home parks, recreational vehicle (RV) parks, and correctional facilities, which are constructed, inspected and maintained under a State or locally approved plumbing code, purchase water from a permitted water system, do not provide treatment, and do not resell water, are not classified as a Public Water Supply system. The following are the categories of Public Water Supply systems:

(A) "Community water system" means any PWS system that serves at least fifteen (15) service connections used by year-round residents or regularly serves at least twenty-five (25) year-round residents.

(B) "Non-community water system" means any PWS system that serves an average of at least twenty-five (25) individuals at least sixty (60) days per year

but is neither a community water system nor a non-transient non-community water system.

(C) "Non-transient non-community (NTNC) water system" means any PWS system that is not a community water system and that regularly serves at least twentyfive (25) of the same persons over six (6) months per year.

"Purchased water system" means a water supply system which buys its water from a waterworks and has a mastermeter.

"Reciprocity" means a recognition by DEQ of the validity of a certification granted by another state, so long as that state recognizes certifications issued by DEQ as well.

"Registered helper" means a person under direct supervision who assists in the performance of work that may affect the quality of either water or wastewater and is properly registered as provided in 252:710-5-55.

"Responsible charge" means making decisions regarding the daily operational activities of

- (A) a public water system, water treatment facility and/or distribution system that will directly impact the quality and/or quantity of drinking water; or
- (B) a wastewater system, wastewater treatment facility and/or collection system.

"Shared operator" means a person contracted and/or hired by one or more municipalities, sewer improvement districts, water or sewer public trusts, rural water or sewer districts, consortium of small publicly owned water supply or wastewater systems, substate planning districts or the Oklahoma Rural Water Association to operate two or more small system(s) pursuant to the requirements set forth in 252:710-7-2.

~~"Small system" as used in 59 O.S. § 1118 means a Waterworks or a Wastewater Works required to be operated by a Class C operator with a population of five hundred (500) or less.~~

"Small drinking water system" means a waterworks with a population of five hundred (500) or less that meets the definition of a PWS.

"Small wastewater system" means a nonindustrial wastewater treatment system which has an average flow of five thousand (5,000) gallons per day or less

~~"Source water" means the type (surface water, groundwater, groundwater under the influence of surface water, purchased water), quality (variability) and/or protection (e.g. wellhead protection).~~

"Standard course" means a DEQ approved training class or classes that directly relate to waterworks, wastewater works, waterworks laboratories or wastewater works laboratories and that meet the requirements of OAC 252:710-3-36 for content and clock hours, completed in preparation for an ~~Operator Certification~~ operator certification examination ~~for initial certification.~~

"Superintendent" means an operator in direct responsible charge of day to day operations of an entire plant, distribution system or collection system.

~~"Supervision" means the act of supervising and or giving direction. "Direct" supervision requires a certified operator to~~

Permanent Final Adoptions

be present one hundred percent (100%) of the time while supervising an uncertified person. "General" supervision means that the certified operator must be available to help the certified person and give advice, but the person can work alone.

"Supervisor" means an individual who directs and inspects the work of operators, helpers or plumbers/contractors.

"Temporary operator" means a person holding a temporary certification who may perform the duties of a certified operator under the general supervision of an appropriately certified operator.

"Treatment facility complexity" means difficulty in controlling water quality, potential effect to the consumer and/or safety of the operator.

"Validated examination" means an examination that is independently reviewed by subject matter experts to ensure that the examination is based on a job analysis and related to the classification of the system or facility.

"Wastewater treatment works" means wastewater treatment systems and facilities used in the collection, transmission, storage, pumping, treatment or disposal of liquid or waterborne wastes.

"Water treatment facility" means any place(s) where a community water system or nontransient noncommunity water system alters the physical or chemical characteristics of the drinking water. Chlorination may be considered as a function of a distribution system.

"Validated exam" means an examination that is independently reviewed by subject matter experts to ensure that the exam is based on a job analysis and related to the classification of the system or facility.

252:710-1-5. Application requirements

(a) **Generally Application and fee.** The application must be submitted to the DEQ with a nonrefundable \$40.00-\$62.00 fee at least ~~three week~~ twenty-one (21) days before the first day of class for class associated examination or at least twenty-one (21) days before the non-class associated examination date requested. The application must be clearly written and signed by the applicant. Before an applicant may take the ~~exam examination~~, he must fulfill all certification requirements listed in Appendix B.

(b) **Required documentation.** An applicant must submit the following documents with an application for certification:

- (1) Evidence of age;
- (2) Proof of current, valid license or certificate from another state or territory where the requirements for licensure or certification are equivalent to the rules of this Chapter, if applicable; ~~and~~
- (3) Confirmation of experience and required training, including but not limited to official academic transcripts, letters of verification from employers, and/or a record of attendance at seminars; and
- (4) Signed and notarized affidavit regarding citizenship.

(c) **DEQ review.** The DEQ will not approve an application unless the applicant has complied with this section.

(d) **Forfeit.** If an applicant has not taken the ~~exam exam~~ ination within 120 days after submitting an application, he

~~forfeits~~ the applicant forfeits the \$40.00\$62.00 nonrefundable fee and must reapply.

252:710-1-6. Validated exams examinations

(a) An applicant shall take and pass an ~~exam~~ examination that demonstrates that the operator has the necessary skills, knowledge, ability and judgment as appropriate for the classification. The applicant must answer at least seventy percent (70%) of the questions correctly on the ~~exam~~ examination. An applicant who does not ~~do so may not take the exam again for thirty (30) days unless he has taken additional training receive~~ a passing grade on the examination must wait a minimum of thirty (30) days to retake the examination.

(b) Validated ~~exams~~ examinations shall be administered by the DEQ or its designee at such times and places as necessary.

(c) ~~Exams~~ Examinations, answer sheets and test scores are confidential and shall not be disclosed to any person except the applicant. Proper identification may be required.

(d) An applicant ~~found cheating~~ determined to have cheated on an ~~exam~~ examination shall be deemed to have failed the ~~exam~~ examination and shall be prohibited from applying for certification for a period of twelve (12) months.

(e) DEQ may give oral examinations to Distribution and Collection Technicians who are unable to take a written examination.

252:710-1-7. Renewals

(a) ~~Individual responsibility~~ Renewal procedure. Each ~~person is~~ All certificate holders are responsible for renewing or reactivating ~~his~~ their certification by the annual renewal date. Failure to receive a renewal invoice does not extend the renewal deadline. The renewal ~~application~~ notification shall be completed and submitted to the DEQ with the ~~renewal invoice~~ and all applicable fees by 4:30 p.m. on or before June 30. If any date specified in this section falls on a weekend or holiday, the date of the following working day shall be the effective date.

(b) **Failure to renew.** A person who has failed to renew a certification may apply for reactivation in accordance with 59 O.S. § 1107(E) and 252:710-1-8. A person may apply for reactivation of an expired certificate, within two years of expiration, by demonstrating that all professional development training requirements have been met in accordance with 252:710-1-7(f) and paying all applicable renewal fees in accordance with 252:710-1-12. Any person whose certification has expired for a period exceeding two years must re-apply in accordance with 252:710-1-5 and take a validated exam in accordance with 252:710-1-6. Previous experience and training will be taken into consideration under 252:710-1-5.

(c) ~~Continuing education~~ Professional development training. Four (4) hours of approved training per certificate year is required for certification renewal, reactivation or reinstatement. Experience may not be substituted for required training. In order to renew a certification, the certification holder must complete the required amount of approved training hours per certification year, as provided in Appendix C of this Chapter. For holders of multiple certifications, the

number of hours required is based on the highest level of certification held.

(d) **Exception.** A person who submits all documentation required by 252:710-1-5 and passes the exam examination as required by 252:710-1-6 between April 1 and June 30May 31 shall not be required to renew the newly obtained certification until June of the next calendar year.

(e) **Nonresidents.** A nonresident who holds an Oklahoma certification may renew by paying applicable fees and providing evidence of ~~four (4) hours of training per certificate year.~~ completion of the required number of professional development hours per certification year as provided in Appendix C of this Chapter. Experience shall not be substituted for required training.

(f) **Renewal trainingProfessional development course in-structors.** Any person teaching a ~~renewal training~~ professional development course must:

- (1) submit ~~an outline of the training materials~~ a written request, along with a syllabus and agenda to the DEQ for review and approval at least ~~thirty (30)~~forty-two (42) days prior to the class being held;
- (2) provide at least 4 cumulative hours of classroom instructionteaching time in the class room, not including breaks, with ~~renewal students~~ per course; and
- (3) submit ~~an attendance roll sheet~~a record of attendance to the DEQ within ten (10) days after the ~~renewal training session was held.~~training was provided.

(g) **Other Professional Development Courses.** Any person requesting approval of other types of professional development courses, such as online courses, must:

- (1) submit a written request, along with a syllabus and agenda to DEQ for review and approval at least forty-two (42) days prior to the course being held;
- (2) provide at least 4 cumulative hours of instruction per course; and
- (3) submit a record of attendance to DEQ within ten (10) days after the training was provided.

252:710-1-8. **ReinstatementOperator disciplinary actions**

(a) **Suspension.** A suspended certificate may be reinstated by the DEQ upon proper application, payment of all back fees and a satisfactory demonstration that all reinstatement requirements of the DEQ have been met. A person holding a suspended certificate may work as a helper under the supervision of a person certified by the DEQ.

(b) **Revocation.** Any person whose certification has been revoked by the DEQ must wait one year from the date of revocation before filing an application for any new certificate.

(c) **Reactivation.** Any person whose certification has expired for a period exceeding two years must re apply in accordance with 252:710 1-5 and take a validated exam in accordance with 252:710 1-6. Previous experience and training will be taken into consideration under 252:710 1-5.

(d) **Reinstatement requirements.** To satisfy reinstatement requirements, a person must:

- (1) satisfy again the training requirements in accordance with the requirements of this Chapter; and

(2) take again the certification examination at a level not to exceed the prior level and score 70% or higher to pass the examination. An applicant who fails to receive a passing grade on the examination may not repeat the examination for one (1) year.

(a) **Grounds for action.** DEQ may, after notice and opportunity for an individual proceeding, revoke or suspend a certification for good cause including, but not limited to,:

- (1) Gross inefficiency or incompetence,
- (2) Violation of any provisions of the Waterworks and Wastewater Works Operator Certification Act or applicable provisions of the Oklahoma Environmental Quality Code, rules promulgated thereunder or the terms of any certificate or order issued pursuant thereto; or,
- (3) Fraud or misrepresentation in obtaining a certificate

(b) **Suspension.** A suspended certification may be reinstated by DEQ upon application and payment of all fees. In order to be reinstated, the person making application:

- (1) must satisfy all training requirements in accordance with this Chapter;
- (2) may be required by DEQ to retake the certification examination, at a level not to exceed the prior level of certification, and score at least a 70%, and;
- (3) who fails to receive a passing grade on the re-examination may be required to wait one year before taking the examination again. A person holding a suspended certification may work as a helper under the supervision of a person certified by DEQ.

(c) **Revocation.** After the expiration of one year after DEQ revokes a certification pursuant to the Waterworks and Wastewater Works Operator Certification Act, the holder of such certificate may make application to DEQ for reinstatement. Such reinstatement shall be made at the discretion of DEQ. In order to be considered for reinstatement, the person making application must:

- (1) satisfy all training requirements in accordance with this Chapter, and;
- (2) score at least a 70% on the certification examination at a level not to exceed the prior level of certification.

252:710-1-9. **Certificate issuance prohibited**

The DEQ shall not issue a certification if the applicant:

- (1) is not in compliance with the Act, the Code, or rules of the DEQ;
- (2) holds a revoked or suspended certification from a different operator level;
- (3) was found cheatingdetermined to have cheated on an operator certificationexamexamination; or
- (4) misrepresented or omitted material facts on an application within the past year.

252:710-1-10. **Certification documentation**

The DEQ will provide a wall certificate upon initial certification.

Permanent Final Adoptions

252:710-1-11. Identification credentials

The DEQ will provide identification credentials upon initial certification, classification change and/or renewals.

252:710-1-12. ~~Certification fee~~FeescheduleSchedules

(a) **Operators of waterworks or wastewater works.** Certification, renewal, and registration fees for operators of waterworks or wastewater works are:

- ~~(1) Application fee for certification—beginning July 1, 2008, \$51.00; beginning July 1, 2009, \$62.00.~~
 - ~~(2) Certification renewal fee—beginning July 1, 2008, \$38.00; beginning July 1, 2009, \$46.00.~~
 - ~~(3) Registration fee for helpers (per helper)—beginning July 1, 2008, \$19.00; beginning July 1, 2009, \$23.00.~~
 - ~~(4) Renewal registration fee for helpers (per helper)—beginning July 1, 2008, \$19.00; beginning July 1, 2009, \$23.00.~~
 - ~~(5) Reinstatement penalty—beginning July 1, 2008, \$6.50; beginning July 1, 2009, \$8.00 per month for each month certification is expired.~~
 - ~~(6) Late payment of application fee—beginning July 1, 2008, \$6.50; beginning July 1, 2009, \$8.00 per month for each month the application fee is not received after a 120 day grace period from the date of the examination. After 180 days without payment of the application fee, the applicant must reapply and pass the validated exam. The beginning July 1, 2008, \$6.50; beginning July 1, 2009, \$8.00 per month late fee will apply to all previously delinquent application fees 180 days after the effective date of this subsection.~~
- (1) \$62.00 per certification application;
 - (2) \$46.00 per certification renewal;
 - (3) \$23.00 per registered helper certificate ;
 - (4) \$23.00 per registered helper certificate renewal;
 - (5) \$8.00 reinstatement fee per certification per month expired; and
 - (6) \$8.00 late payment of application fee per month not received after date of certification examination, following a grace period of 30 days after examination.

(b) **Operators of laboratories owned by or associated with waterworks or wastewater works.** Certification fees for operators of laboratories owned by or associated with waterworks or wastewater works are:

- ~~(1) Application fee for certification—beginning July 1, 2008, \$51.00; beginning July 1, 2009, \$62.00.~~
- ~~(2) Certification renewal fee—beginning July 1, 2008, \$38.00; beginning July 1, 2009, \$46.00.~~
- ~~(3) Reinstatement penalty—beginning July 1, 2008, \$6.50; beginning July 1, 2009, \$8.00 per month for each month certification is expired.~~
- ~~(4) Late payment of application fee—beginning July 1, 2008, \$6.50; beginning July 1, 2009, \$8.00 per month for each month the application fee is not received after a 120 day grace period from the date of the examination. After 180 days without payment of the application fee, the applicant must reapply and pass the validated exam. The beginning July 1, 2008, \$6.50; beginning July 1, 2009, \$8.00~~

per month late fee will apply to all previously delinquent fees 180 days after the effective date of this subsection.

- (1) \$62.00 per certification application;
- (2) \$46.00 per certification renewal;
- (3) \$8.00 reinstatement penalty per certification per month expired; and
- (4) \$8.00 late payment of application penalty per month not received after date of certification examination, following a grace period of 30 days after examination.

(c) **Failure to timely pay fees.** If an application fee and/or any late fees as described in (a) and (b) above are not received within 180 days of date of certification examination the results of examination are nullified and the applicant must reapply to sit for a certification examination.

(ed) **Nonrefundable.** Fees charged under this section are not refundable.

(de) **Nontransferable.** Fees may not be transferred from one applicant to another.

(ef) **Automatic fee adjustment.** To assist in meeting rising costs to the Department of the operator certification program associated with licensing and enforcement of certified operators, the fees set out in paragraphs (a) and (b) above shall be automatically adjusted on July 1st every five years to correspond to the percentage, if any, by which the Consumer Price Index (CPI) for the most recent calendar year exceeds the CPI for the calendar year immediately preceding the start of that five-year time period. The Department may round the adjusted fees up to the nearest dollar. The Department may waive collection of an automatic increase in a given year if it determines other revenues, including appropriated state general revenue funds, have increased sufficiently to make the funds generated by the automatic adjustment unnecessary in that year. A waiver does not affect future automatic adjustments.

(1) Any automatic fee adjustment under this subsection may be averted or eliminated, or the adjustment percentage may be modified, by rule promulgated pursuant to the Oklahoma Administrative Procedures Act. The rule-making process may be initiated in any manner provided by law, including a petition for rulemaking pursuant to 75 O.S. § 305 and OAC 252:4-5-3 by any person affected by the automatic fee adjustment.

(2) If the United States Department of Labor ceases to publish the CPI or revises the methodology or base years, no further automatic fee adjustments shall occur until a new automatic fee adjustment rule is promulgated pursuant to the Oklahoma Administrative Procedures Act.

(3) For purposes of this subsection, "Consumer Price Index" or "CPI" means the Consumer Price Index - All Urban Consumers (U.S. All Items, Current Series, 1982-1984=100, CUUR0000SA0) published by the United States Department of Labor. The CPI for a calendar year is the figure denoted by the Department of Labor as the "Annual" index figure for that calendar year.

SUBCHAPTER 3. CERTIFICATION

252:710-3-31. Certificate required

(a) **General requirement.** The following shall hold certifications issued under the Act and this Chapter:

- (1) All persons who make decisions regarding the daily operational activities of:
 - (A) a public water system, water treatment facility and/or distribution system that will directly impact the quality and/or quantity of drinking water, including a nontransient noncommunity water system; or
 - (B) a wastewater system, wastewater treatment facility and/or collection system.
- (2) All persons who program or maintain telemetry/SCADA systems and also make process control/system integrity decisions.
- (3) All laboratory operators who are in general supervision of waterworks/wastewater works laboratory control tests.

(b) **Exceptions.** The following exceptions apply:

- (1) **Plumbers and contractors.** Plumbers licensed by the ~~Oklahoma State Department of Health Construction Industries Board~~ and contractors working under the general supervision of such plumbers are not required to obtain certification for construction, maintenance, or renovation of water/wastewater works systems. Such plumbers may also make connections to public water systems or lines or sewer systems or lines. All work performed shall be supervised and inspected by the responsible entity to ensure compliance with the Safe Drinking Water Act, OAC 252:626; and OAC 252:656 and 27A O.S. § 2-6-101 *et seq.*
- (2) **Noncommunity and minor systems.** Noncommunity or minor systems as defined in Chapter 631 are not required to have certified operators.
- (3) **Small public sewage systems.** ~~Public sewage systems as defined in 27A O.S. § 2-6-101(12)~~ Nonindustrial wastewater treatment works which have an average flow of five thousand (5,000) gallons per day or less are not required to have certified operators.
- (4) **Populations of 1,500 or less.** ~~Certification is not required for~~ For laboratory operators of distribution/collection systems or chlorinated groundwater systems serving populations of 1,500 or less where chlorination is used only for disinfection or total retention lagoons serving populations of less than 1,500-, laboratory operator certification is not required. If the DEQ determines that additional tests which must be performed by a certified laboratory operator are necessary, the laboratory operator must obtain the applicable certification or use the services of an associated laboratory.

252:710-3-32. Types of certifications

(a) **Class A—C** Class A, B, and C operator certifications are available for:

- (1) ~~Waterworks Operator;~~
- (2) ~~Wastewater Works Operator;~~
- (3) ~~Waterworks Laboratory Operator; and~~
- (4) ~~Wastewater Works Laboratory Operator;~~

(b) ~~Class C~~ Class C certification is available for Distribution and Collection Operator;

(c) **Class D** Class D certifications are available for:

- (1) ~~Waterworks Operator;~~
- (2) ~~Wastewater Works Operator; and~~
- (3) ~~Distribution and Collection Technician.~~

(d) ~~Technician.~~ The DEQ may give oral exams to Distribution and Collection Technicians who are unable to take written exams.

(a) Waterworks/Wastewater Works Operator. Class A, B, C, and D available.

(b) Waterworks/Wastewater Works Laboratory Operator. Class A, B, and C available.

(c) Distribution and Collection Operator. Class C available.

(d) Distribution and Collection Technician. Class T available.

(e) **Temporary.** A person age eighteen (18) or older who does not hold a valid certification ~~may~~ shall apply for temporary certification as a waterworks or wastewater works operator within ten (10) days after being hired or appointed. A temporary certification is valid for one year from the date of employment and is not renewable. Certification testing fees may be waived for temporary certification holders who have made application for certification within 180 days of the date of issuance of temporary certification. A testing fee may only be waived one time for each applicant for temporary certification. Temporary certification is available only to operators required to obtain a Class D certificate but who, because of time restrictions, have been unable to meet the training requirements. DEQ may issue a temporary certification where a person, not already having a valid certification, has applied for a certification class and paid the applicable fee. Temporary certification is not available to superintendents, assistant superintendents, supervisors, or managers of superintendents who make decisions regarding the daily operational activities of water/wastewater works.

(f) **Special Non-Operational Certification for Environmental Professionals.** DEQ may allow qualified environmental professionals (as defined in 252:710-1-4) to obtain a special non-operator certification, provided that the applicant completes the required DEQ approved training and passes the applicable examination. The purpose of this certification is to verify an individual's fundamental understanding of operating knowledge. This special non-operator certification would be available for Class A-C certifications but would not certify the individual as being qualified to operate a water or wastewater system. No work experience obtained under this certification will apply towards the hands-on experience needed for any other operator certification. The same annual professional development hours referenced in Appendix B of this Chapter apply to this certification.

252:710-3-34. Classes of certifications

(a) ~~Generally.~~ **Certifications required.** — Owners shall place the direct supervision of their water/wastewater system or laboratory, including each treatment facility and/or distribution/collection system, under the responsible charge

Permanent Final Adoptions

~~of a manager/superintendent/operator(s) holding a valid certification equal to or greater than the classification of the water/wastewater system or laboratory. Waterworks and wastewater works operator certifications are categorized into classes based on experience and training, as specified in Appendix B. Any facility subject to these rules shall be operated under the direct supervision of an appropriately certified operator in responsible charge.~~

(b) **Operator(s) in responsible charge.** The manager/superintendent/operator(s) in responsible charge ~~or equivalent~~ must hold a valid certification equal to or ~~greater~~ higher than the classification of ~~the~~ the water/wastewater system ~~being operated~~, including each treatment facility and/or distribution/collection system.

(c) **Assistant superintendents or assistant supervisors.** Assistant superintendents, assistant supervisors, shift leaders ~~or~~ and all other supervisors shall be certified at the same class as or one class ~~less~~ lower than the facility for which they are responsible.

(d) **Others.** All other persons who make decisions regarding the daily operational activities of

(1) ~~a public water system, water treatment facility and/or distribution system that will directly impact the quality and/or quantity of drinking water;~~

(2) ~~a wastewater system, wastewater treatment facility and/or collection system; or~~

(3) ~~program or maintain telemetry/SCADA systems and also make process control/system integrity decisions, including assistant superintendents or supervisors, a waterworks or wastewater works facility, including decisions directly impacting the quality and/or quantity of drinking water, programming or maintaining telemetry/SCADA systems, and process control or system integrity decisions, shall be certified at the same class as or one class less~~ lower than the facility for which they are responsible.

252:710-3-35. Requirements for certification

(a) **Education.** Applicants for certification as a Class A - D waterworks/wastewater works operator shall have a high school diploma or a general equivalency diploma. Experience and/or training may be substituted.

(b) **Experience and training.** Applicants shall comply with the experience and training requirements in Appendix B.

(c) **Examinations.** Applicants shall pass the appropriate validated examination in accordance with 252:710-1-6.

252:710-3-36. Approved equivalents for waterworks/wastewater works operators

(a) **Experience.** One year of operational engineering assistance to water or wastewater facilities ~~and in addition to~~ an undergraduate degree in biological sciences, biology, engineering, physical science, hydrology, geology, mathematics, environmental science, chemistry, microbiology, toxicology, or civil, chemical, sanitary or environmental engineering or equivalent sciences may be substituted for 5 years of experience. However, this approved equivalent does not count

towards the hands-on operational experience required to obtain Class A or B certifications.

(b) **Training.** For initial certification of waterworks/wastewater works operators, applicants for any operator certification may substitute the following for the training requirements listed in Appendix B:

(1) **Academic credit.** ~~One Successful completion of one~~ (1) semester hour of higher education courses in biological sciences, biology, engineering, physical science, hydrology, geology, mathematics, environmental science, chemistry, microbiology, toxicology, or civil, chemical, sanitary or environmental engineering or equivalent sciences may substitute the training requirement of for sixteen (16) hours in the classroom;

(2) **Presenter credit.** ~~One hour DEQ-approved training course or workshop for four (4) hours training credit;~~ A presenter of a DEQ-approved training course may substitute four (4) hours training credit per one (1) hour of presentation. Presenters are required to complete a minimum of four hours of DEQ-approved professional development as a class attendee.

(3) **Publication credit.** Publication of one peer-reviewed technical article related to water or wastewater in journals or magazines generally accepted in the field may be substituted for ten (10) hours training credit; and

(4) **Continuing education credit.** One continuing education unit may be substituted for ten (10) hours in the classroom.

252:710-3-37. Approved instructor

~~The~~ DEQ may establish special requirements for instructors of approved training courses.

(1) **Standard course.** To be an instructor of a standard course for certification of any type, a person must have a current operator's license in the State of Oklahoma and at least a C Certification in the subject to be taught and have as well as one of the following:

(A) ~~have made score~~ at least 80% on the ~~exam-examination~~ for the standard course to be taught; or

(B) ~~have made score~~ at least 80% on ~~exams-examinations~~ at a higher type of certification than the course taught. ~~Persons who were approved instructors before the effective date of this Chapter are not required to comply with this subsection for the level of instruction approved.~~ To change approved instructor status to a higher level, compliance with this subsection is required.

(2) **Exemption.** A person who is approved as an instructor before July 1, 2002 pursuant to (1)(B) above, ~~must take the appropriate exam before December 31, 2004 and meet or exceed the scores listed in (1)(A) or (1)(B) of this section.~~

(3) **Fees.** For any certified operator, retaking an ~~exam examination~~ at a class certification level already obtained, for the purposes of becoming an approved instructor, the application fee is waived for the initial time to take the ~~exam-examination~~. For any subsequent ~~exams-examinations~~, the certified operator shall pay the application fee.

(43) ~~Exam~~ **Examination Failure.** An applicant who fails to answer at least 80% of the questions correctly may not take the ~~exam~~ examination again for thirty (30) days.

(54) ~~Exam~~ **Examination Review.** No instructor will be allowed to review the exam during the six-month period prior to taking the ~~exam~~ examination.

(65) **Instruction.** At least four (4) hours of documented instruction must be completed each certificate year to maintain approved instructor status. Each person must retake the ~~exam~~ examination at least once every four (4) years and obtain a score of 80% or above to retain certification as an approved instructor.

(76) **Renewal Professional development training class.** ~~The teaching by an instructor of a renewal training class provided by the instructor shall be deemed as compliance~~ comply with the continuing education requirement ~~located~~ found at 252:710-1-7(c) for the certificate year the class is taught.

252:710-3-38. **Reciprocity**

(a) **Reciprocity permitted.** DEQ may issue an operator's certification, at an equivalent level of certification, without examination, to applicants who hold valid certifications or licenses issued by any state which offers reciprocal certification to Oklahoma operators, so long as the other state's program has equivalent requirements for certification.

(b) **Application required.** To obtain a reciprocal certificate in Oklahoma, a person must complete and submit an application.

(c) **Military Personnel.** Every active duty military personnel and their spouse who holds an equivalent certification in a state other than Oklahoma, upon receiving notice or orders for military transfer or honorable discharge to this state, may in advance of actual transfer or discharge submit a completed application to DEQ for a reciprocal certification. DEQ shall issue the requested certification within thirty (30) days, provided the certification from the other state is found to be in good standing and reasonably equivalent to the requirements of this Chapter.

(d) **Persons obtaining a reciprocal certificate remain responsible for renewal.** Any person granted reciprocity in Oklahoma will be subject to the same requirements for renewal as any other person certified under these rules.

SUBCHAPTER 5. DUTIES AND RESPONSIBILITIES

252:710-5-53. **Laboratory operator**

(a) Except as provided in 252:710-3-31(b)(4), All duties relating to the laboratory analysis of water quality samples from water treatment plants, groundwater systems, storage and distribution systems (including purchased-water systems) must be performed by or under the general supervision of a laboratory operator certified by ~~the~~ DEQ.

(b) Operators of laboratories owned by or associated with waterworks/wastewater works shall record the results of all laboratory analyses in a bound volume for each facility and

shall date and sign each entry. Records shall be kept on file at the laboratory for inspection and review for ten (10) years for waterworks and three (3) years for wastewater works.

(c) Laboratory operator certification is not required for waterworks or wastewater works laboratory operators performing the minimum analyses required by rules of the Department for purchased water systems, groundwater systems using no treatment other than chlorination for disinfection, or for total retention lagoon facilities unless the Department has determined that additional laboratory tests, required to be performed by a certified laboratory operator, are necessary for proper operation.

252:710-5-55. **Registered helpers**

An employer shall submit the name and address of each registered helper on a registration application when each registered helper is employed and thereafter by July 1 of each succeeding year the registered helper is in his or her employment. Registered helpers may only perform duties under direct supervision.

252:710-5-56. **Individual recordkeeping**

Each person is responsible for keeping ~~his~~ their own records of training and experience.

252:710-5-57. **Responsibility of owners**

- (a) Owners of waterworks or wastewater works shall:
- (1) upon request, furnish ~~the~~ DEQ with the names, addresses and positions of all employees;
 - (2) advise ~~the~~ DEQ in writing within ten (10) days when an operator begins or terminates employment;
 - (3) furnish the necessary equipment and materials for adequate maintenance and operation of the treatment plant, laboratory and supporting facilities;
 - (4) give operators a reasonable opportunity to obtain the necessary hours of training for required certification upgrades and renewals; and
 - (5) within ten (10) days after contracting with an associated laboratory for the analysis of its water quality samples, notify ~~the~~ DEQ in writing about whether:
 - (A) the laboratory is currently certified by ~~the~~ DEQ; and
 - (B) the laboratory will only be performing operational testing.

SUBCHAPTER 7. SHARED OPERATORS FOR SMALL SYSTEMS

252:710-7-2. **Requirements**

A municipality, sewer improvement district, water or sewer public trust, rural water or sewer district, consortium of small publicly owned water supply or wastewater systems, substate planning district or the Oklahoma Rural Water Association may hire or contract an operator or operators to provide

Permanent Final Adoptions

services for one or more small drinking water or wastewater system(s) if the following requirements are met:

- (1) the operator has a minimum of a Class C or greater certification;
- (2) the operator only provides services to a facility located in the county of his or her residence or place of employment and/or any adjacent county;
- (2-3) for a Public Water Supply System using disinfection, the operator must be at the Public Water Supply System a minimum of five (5) days per week to ensure proper operation, and can only operate three (3) systems;
- (3-4) for a Public Water Supply System not using disinfection or a wastewater system, the operator must be at the Public Water Supply or wastewater system a minimum of two (2) days per week to ensure proper operation, and can only operate five (5) systems total;
- (4-5) the operator(s) must operate the small system(s) in compliance with all Federal and State statutory and regulatory requirements; and

(5-6) the operator, municipality, sewer improvement district, water or sewer public trust, rural water or sewer district, consortium of small publicly owned water supply or wastewater systems, substate planning district or the Oklahoma Rural Water Association and the small system must enter into a written agreement, that at a minimum shall:

- (A) explicitly state the duties of the operator;
- (B) explicitly state who is responsible for repairs to the Public Water Supply or wastewater system;
- (C) explicitly state compensation for the operator, including, but not limited to, salary, transportation, insurance and administration costs; and
- (D) consider and approve recommendations of the operator for upgrades and/or improvements to the system.

~~(6) an operator shall only provide services to a facility located in the county of his or her residence or place of employment and any adjacent county.~~

APPENDIX B. CERTIFICATE REQUIREMENTS (252:710-3-35) [REVOKED]

APPENDIX B. CERTIFICATE REQUIREMENTS (252:710-3-35) [NEW]

Table 1. WATERWORKS AND WASTEWATER WORKS CLASSIFICATIONS AND REQUIREMENTS (252:710-3-35)

Classification	Experience ¹	Training ²
Class A Waterworks or Wastewater Works Operator Certification	Five years of waterworks or wastewater works operation including two years of actual hands on operating experience.	200 hours of DEQ approved training, including at least 40 hours of advanced treatment and managerial training or its approved equivalent. ³
Class B Waterworks or Wastewater Works Operator Certification	Three years of waterworks or wastewater works operation including one year actual hands on operating experience.	100 hours of DEQ approved training or its approved equivalent.
Class C Waterworks or Wastewater Works Operator Certification	One year of waterworks or wastewater works operation.	36 hours of DEQ approved training or its equivalent.
Class C Distribution and Collection Operator Certification	One year of distribution/collection operation.	36 hours of DEQ approved training or its approved equivalent.
Class D Waterworks or Wastewater Works Certification	None	16 hours of DEQ approved training.
Class T Distribution and Collection Technician Certification	None	8 hours of DEQ approved training
Temporary Operator Certification	None	None
Registered Helper⁴	None	None

¹ Experience that is used to meet the experience requirement for any class of certification may not be used to meet the education or training requirements.

² Training credit will be granted only for courses or workshops listed as approved by DEQ or for courses, workshops, or alternative activities which have been approved in writing by DEQ in advance.

³ Approved equivalents are listed in 252:710-3-36

⁴ This classification is not considered a Certification and time worked under this classification does not count towards experience for purpose of acquiring certification.

**Table 2. WATERWORKS OR WASTEWATER WORKS LABORATORY OPERATORS
CERTIFICATE REQUIREMENTS (252:710-3-35)**

Classification	Experience ⁵	Training ⁶
Class A Waterworks or Wastewater Works Laboratory Operator Certification	<p>One year of waterworks or wastewater works laboratory operation; or</p> <p>Three years of waterworks or wastewater works laboratory operation; or</p> <p>Five years of waterworks or wastewater works laboratory operation</p>	<p>32 hours of DEQ approved Class B training and a Bachelor of Science Degree in chemistry, microbiology, instrumental analysis or other field of science approved by DEQ; or</p> <p>32 hours of DEQ approved Class B training and an Associate's Degree in chemistry, microbiology, instrumental analysis, or other field of science approved by DEQ; or</p> <p>32 hours of DEQ approved Class B training</p>
Class B Waterworks or Wastewater Works Laboratory Operator Certification	Six months of waterworks or wastewater works laboratory operation	32 hours of DEQ approved Class B training and 32 hours of DEQ approved Class C training. An Associate's Degree or greater in chemistry, biology, engineering, physical science, hydrology, geology, mathematics, environmental science, microbiology, toxicology, or civil, chemical, sanitary or environmental engineering may be substituted for the 32 hours of DEQ approved Class C training
Class C Waterworks or Wastewater Works Laboratory Operator Certification	None	32 hours of DEQ approved Class C training

⁵ Experience that is used to meet the experience requirement for any class of certification may not be used to meet the education or training requirements.

⁶ Training credit will be granted only for courses or workshops listed as approved by DEQ or for courses, workshops, or alternative activities which have been approved in writing by DEQ in advance.

APPENDIX C. NUMBER OF PROFESSIONAL DEVELOPMENT HOURS (PDHS) NEEDED PER CERTIFICATE LEVEL FOR OPERATORS AND LABORATORY OPERATORS [NEW]

Level of Certification	Total number of PDHs ⁷ (hrs/yr)	Classroom PDHs (hrs/yr)	PDHs from any DEQ approved trainings (hrs/yr) ⁸
Class A	16	4 - must be classroom training	12
Class B	12	4 - must be classroom training	8
Class C	8	4 - must be classroom training	4
Class C Distribution and Collection	8	4 - must be classroom training	4
Class D	4	4 - must be classroom training	0
Class T Distribution and Collection Technician	4	4 - must be classroom training	0
Temporary Operator	N/A	N/A	N/A
Registered Helper	N/A	N/A	N/A

⁷ PDH hours are based on the highest level of certification held. See 252:710-1-7(c).

⁸ See 252:710-1-4 for definition of PDH.

GIST/ ANALYSIS:

260:40-7-2 changes the definition of EGID from Employees Group Insurance Division to Employees Group Insurance Department. 260:40-7-2 amends the definition of dependent to include a child legally placed with the primary member for adoption and a child for whom the member has been granted legal guardianship. 260:40-7-2 also allows other unmarried children up to age twenty-six [26] to be considered a dependent if the child lives with the member and the member is primarily responsible for the child's support. This rule change is to align with the current practice of allowing such children to be classified as dependents and receive insurance coverage.

SUBCHAPTER 7. FLEXIBLE BENEFITS PLAN

PART 1. GENERAL PROVISIONS

260:40-7-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meanings unless the context clearly indicates otherwise, and wherever appropriate, the singular

shall include the plural, the plural shall include the singular, and the use of any gender shall include the other gender.

"**Account**" means a record keeping account established on the books of the Plan Administrator.

"**Act**" means the Oklahoma State Employees Benefits Act, 74 O.S. Supp 1992, Section 1361 et seq.

"**Authorized Submission Procedure**" means an acceptable method of submitting enrollment and/or change documents which may include submission via electronic transmissions to the Plan Administrator.

"**EGID**" means the Employees Group Insurance ~~Department~~
Division

"**Cafeteria plan**" means an employer-maintained benefit plan under which participants are employees and the participants may choose between cash and nontaxable benefits, as defined in Internal Revenue Code Section 125(d) and regulations promulgated thereunder.

"**Change in Status**" means a change that a participant may be allowed to make during a Plan Year provided that the change is based on prevailing IRS guidance, is allowed by the Plan Administrator, and complies with all eligibility rules and consistency requirements.

"**COBRA**" means the Consolidated Omnibus Budget Reconciliation Act of 1985 as it applies to an employee's right to continue certain coverage under the Flexible Benefits Plan.

"**Dependent**" means the primary member's spouse (if not legally separated by court order), including common law. Dependents also include a member's unmarried or married natural born child, a step child, an adopted child, child legally placed with the primary member for adoption, child for whom the member has been granted legal guardianship, or a foster child up to the child's twenty-sixth [26th] birthday, regardless of residence, or a child under legal guardianship. In addition, other unmarried children up to age twenty-six [26] may be considered dependents if the child lives with the member and the member is primarily responsible for the child's support. A child may also be covered regardless of age if the child is incapable of self-support because of mental or physical incapacity that existed prior to reaching age twenty-six [26]. Coverage is not automatic and must be approved with a review of medical information. A disabled dependent deemed disabled by Social Security does not automatically mean that this disabled dependent will meet the Plan requirements. [74 O.S. Supp. 2006, §1303(134)].

"**Effective date of the plan**" means January 1, 1990 or as restated.

"**Employer**" or "**Employing agency**" has the same meaning as "Participating employer" as defined in Section 1363(14) of Title 74.

"**Enrollment period**" means the period of time, as determined and announced by the Plan Administrator each Plan Year during which eligible employees shall make an election of benefits. The period of time shall end no later than thirty (30) days before the beginning of the Plan Year for which the elections are to be effective.

"**Entry date**" means the first day of the Plan Year except for an employee who first satisfies the requirements for eligibility during the Plan Year (including rehired employees), in

which case the entry date shall be the first day of the month next following the satisfaction of the application requirements for eligibility, in accordance with 260:40-7-1.

"FMLA" means the Family and Medical Leave Act of 1993.

"Flexible Benefits Plan" means the Flexible Benefits Plan authorized pursuant to the State Employees Flexible Benefits Act as modified by the provisions under the State Employees Benefits Act.

"Flexible Benefits Plan Rules" means the rules promulgated by the Plan Administrator to implement and administer the State Employees Flexible Benefits Plan.

"HIPAA" means the Health Insurance Portability and Accountability Act of 1996.

"Internal Revenue Code" means the Internal Revenue Code of 1986 of the United States, 26 USC, I et seq. as amended from time to time.

"Irrevocability Rule" means the rule that requires an enrollment election in any Plan benefit to remain in force throughout the entire Plan Year.

"Period of coverage" means the Plan Year during which coverage of benefits under the Flexible Benefits Plan is available to a participant. An employee who becomes eligible to participate during a Plan Year may participate for a period lasting until the end of that Plan Year. In this case, the interval commencing on the employee's entry date, and ending as of the last day of eligibility, for that Plan Year.

"Permitted Exception" means an exception allowed to the Irrevocability Rule by the Plan. Any changes based on these exceptions must be on account of and correspond with the underlying event.

"Plan Administrator" means the Oklahoma State Employee Benefits Department.

"QMCSO" means a Qualified Medical Child Support Order.

"Statutory nontaxable benefit" means a benefit provided to a participant under the Flexible Benefits Plan, the value of which is not included in the participant's gross income by a specific provision in the Internal Revenue Code and is permissible under the Flexible Benefits Plan in accordance with Section 125 of the Internal Revenue Code.

"USERRA" refers to the Uniformed Services Employment and Reemployment Rights Act of 1994.

GIST/ANALYSIS:

Clarify language, eliminate obsolete language, correct omissions and streamline to promote and enhance operations, through removal of inaccurate or redundant verbiage, and to simplify language.

The rules and regulations are necessary to promote and enhance effective operation of the Employees Group Insurance Division. It is proposed that the rules and regulations be amended. The effect of the amended rules is to provide for the continued efficiency, responsiveness, the correction of citations and scrivener's errors, and changes to improve the clarity of the rules.

Scott D. Boughton, Deputy General Counsel, (405) 717-8957

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 5. GRIEVANCE PANEL PROCEDURES

260:45-5-1. Request for hearing

(a) **Grievances.** EGID has established procedures by which:

- (1) Independent Review Organizations shall act as an appeals body for complaints by insured members regarding adverse benefit determinations based on medical necessity, appropriateness, health care setting, level of care, or effectiveness of a covered benefit,
- (2) A three [3] member Grievance Panel shall act as an appeals body for complaints by insured members regarding all other issues.

(b) **Court Administrator Appointees.** The Court Administrator shall designate Grievance Panel members as shall be necessary. The members of the Grievance Panel shall consist of two [2] Attorneys licensed to practice law in this state and one [1] state licensed health care professional or health care administrator who has at least three [3] years practical experience, has had or has admitting privileges to a State of

Permanent Final Adoptions

Oklahoma hospital, has a working knowledge of prescription medication, or has worked in an administrative capacity at some point in their career.

(c) **Governor Appointees.** The state health care professional shall be appointed by the Governor. At the Governor's discretion, one or more qualified individuals may also be appointed as an alternate to serve on the Grievance Panel in the event the Governor's primary appointee becomes unable to serve.

(d) **Right to a Hearing.** Any covered member who has exhausted EGID's internal review procedures and has timely requested in writing a hearing before the Grievance Panel pursuant to 260:45-5-1(a)(2) shall receive a hearing in person or through licensed counsel before the panel.

(e) **Remedy.** Grievance procedures conducted by the three [3] member Grievance Panel shall be subject to the Oklahoma Administrative Procedures Act, including provisions thereof for review of agency decisions by the district court.

(f) **Failure to timely submit hearing request.** All Grievance Panel requests must be filed within sixty [60] days from the date the member is notified that the member's claim, benefit, coverage, or other matter has been denied and that EGID's internal review procedures have been exhausted. After more than sixty [60] days from the date the member was first notified that the member's claim, benefit, coverage, or other matter has been denied and that EGID's internal review procedures have been exhausted, the matter shall be deemed finally resolved.~~All grievance requests must be filed within one [1] year from the date the member is notified of a denial of the claim, benefit or coverage. After more than one [1] year from the date the member was first notified of an allowance, payment, or denial of a claim, benefit, coverage, or other matter, the matter shall be deemed finally resolved.~~

(g) **Aggrieved member covered by an HMO.** Any member covered by an HMO is entitled to a hearing before the Panel in the same manner as all other covered members for those matters not covered by an Independent Review Organization. The member must exhaust the HMO's internal grievance procedure, except for an emergency or if the HMO fails to timely respond, before requesting a Grievance Panel hearing. The member must file, along with his request for hearing, a written certification from the HMO that the member has exhausted said procedure, or a detailed explanation of the emergency or of the HMO's failure to respond.

(h) **Submission of Grievance request.** Any Grievance request shall be in writing on a form provided by EGID for such purpose or in writing by the employee if in substantial compliance with the form and shall contain the following information:

- (1) Name of employee, Social Security Number and address;
- (2) Name of dependent for whom claim was submitted, if not the covered employee;
- (3) Name of employee's employing entity, location, and identifying number;
- (4) Nature of claim: Health, Dental, Life, Eligibility, Disability, HIPAA or HMO;
- (5) Date claim submitted for payment, claim number;

(6) The reason given, if any, by the claims administration contractor for denying the claim in whole or in part; and

(7) A short statement as to the nature of the illness or injury giving rise to the claim.

(i) **Mailing address for submission of Request for Hearing.** The Request for Hearing shall be mailed or delivered to EGID to the attention of Attorney - Grievance Procedures, at 3545 N. W. 58th Street, Suite 600, Oklahoma City, Oklahoma 73112.

GIST/ANALYSIS:

Clarify language, eliminate obsolete language, correct omissions and streamline to promote and enhance operations, through removal of inaccurate or redundant verbiage, and to simplify language.

This rule is necessary to avoid serious prejudice to the public interest and to avoid violation of federal law or regulation or other state law. It will ensure that rural hospitals within the State that are CMS approved, but not accredited by a nationally recognized accrediting organization, continue to be reimbursed as a HealthChoice provider as required by the federal Affordable Care Act. It will also ensure that acute care facilities that are not CMS approved, but are accredited by a nationally recognized accrediting organization, will be reimbursed as a HealthChoice provider as required by the federal Affordable Care Act. Current rules require that eligible HealthChoice providers be both CMS approved and accredited by a nationally recognized accrediting organization.

CONTACT PERSON:

Scott D. Boughton, Deputy General Counsel, (405) 717-8957

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. PURPOSE AND DEFINITIONS

260:50-1-2. Definitions

The following words and terms as defined by EGID, when used in this chapter, shall have the following meaning, unless the content clearly indicates otherwise:

"Administrative error" occurs when the coverage elections the member makes are not the same as those entered into payroll for deduction from the member's paycheck. This does not include untimely member coverage elections or member

misrepresentation. When such an administrative error results in underpaid premiums, full payment to EGID shall be required before coverage elected by the member can be made effective. If overpayment occurs, EGID shall refund overpaid funds to the appropriate party.

"Administrator" means the Administrator of the Employees Group Insurance Division or a designee.

"Allowable fee" means the maximum allowed amount based on the HealthChoice Network Provider Contracts payable to a provider by EGID and the member for covered services.

"Attorney representing EGID" means any attorney designated by the Administrator to appear on behalf of EGID.

"The Board" means the seven [7] Oklahoma Employees Insurance and Benefits Board members designated by statute [74 O.S. §1303(1)].

"Business Associate" shall have the meaning given to "Business Associate" under the Health Insurance Portability and Accountability Act of 1996, Privacy Rule, including, but not limited to, 45 CFR §160.103.

"Carrier" means the State of Oklahoma.

"Comprehensive benefits" means benefits which reimburse the expense of facility room and board, other hospital services, certain out-patient expenses, maternity benefits, surgical expense, including obstetrical care, in-hospital medical care expense, diagnostic radiological and laboratory benefits, providers' services provided by house and office calls, treatments administered in providers' office, prescription drugs, psychiatric services, Christian Science practitioners' services, Christian Science nurses' services, optometric medical services for injury or illness of the eye, home health care, home nursing service, hospice care and such other benefits as may be determined by EGID. Such benefits shall be provided on a co-payment or coinsurance basis, the insured to pay a proportion of the cost of such benefits, and may be subject to a deductible that applies to all or part of the benefits as determined by EGID. [74 O.S. §1303 (14)]

"Cosmetic procedure" means a procedure that primarily serves to improve appearance.

"Current employee" means an employee in the service of a participating entity who receives compensation for services actually rendered and is listed on the payrolls and personnel records of said employer, as a current and present employee, including employees who are otherwise eligible who are on approved leave without pay, not to exceed twenty-four [24] months. An education employee absent from employment, not to exceed eight [8] years, because of election or appointment as local, state, or national education association officer who is otherwise eligible prior to taking approved leave without pay will be considered an eligible, current employee. A person elected by popular vote will be considered an eligible employee during his tenure of office. Eligible employees are defined by statute. [74 O.S. §1303 and §1315]

"Custodial care" means treatment or services regardless of who recommends them or where they are provided, that could be given safely and reasonably by a person not medically skilled. These services are designed mainly to help the patient with daily living activities. These activities include but are not

Permanent Final Adoptions

limited to: personal care as in walking, getting in and out of bed, bathing, eating by spoon, tube or gastrostomy, exercising, dressing, using toilet, preparing meals or special diets, moving the patient, acting as companion or sitter, and supervising medication which can usually be self-administered.

"Dependent" means the primary member's spouse (if not legally separated by court order), including common-law. Dependents also include a member's daughter, son, stepdaughter, stepson, eligible foster child, adopted child, child for whom the member has been granted legal guardianship or child legally placed with the primary member for adoption up to the child's twenty-sixth [26th] birthday. In addition other unmarried children up to age twenty-six [26] may be considered dependents if the child lives with the member and the member is primarily responsible for the child's support. A child that meets the definition of a disabled dependent in this section and also all requirements in 260:50-3-18, may also be covered regardless of age if the child is incapable of self-support because of mental or physical incapacity that existed prior to reaching age twenty-six [26]. Coverage is not automatic and must be approved with a review of medical information. A disabled dependent deemed disabled by Social Security does not automatically mean that this disabled dependent will meet the Plan requirements. [74 O.S. §1303(14)]. See additional eligibility criteria for disabled dependents over the age of twenty-six [26] at 260:50-3-18. Participating employer groups may have a more restrictive definition of Dependent.

"Durable medical equipment" means medically necessary equipment, prescribed by a provider, which serves a therapeutic purpose in the treatment of an illness or an injury. Durable medical equipment is for the exclusive use of the afflicted member and is designed for prolonged use. Specific criteria and limitations apply.

"Eligible Provider" means a practitioner who or a facility that is recognized by EGID as eligible for reimbursement. EGID reserves the right to determine provider eligibility for network and non-Network reimbursement.

"Emergency" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) so that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in a condition described in clause (i), (ii), or (iii) of section 1867(e)(1)(A) of the Social Security Act (42 U.S.C. 1395dd (e)(1)(A)). (In that provision of the Social Security Act, clause (i) refers to placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy; clause (ii) refers to serious impairment to bodily functions; and clause (iii) refers to serious dysfunction of any bodily organ or part.)

"Enrollment period" means the time period in which an individual may make an election of coverage or changes to coverage in effect.

"Excepted Benefits" means the four categories of benefits as established in section 2791 of the PHS Act, section 733 of ERISA and section 9832 of the Internal Revenue Code, as summarized in IRS Bulletin 2015-14 and subsequent regulatory guidance. These Excepted Benefits include but are

not limited to vision coverage, dental coverage, long-term care insurance, Medicare supplement coverage, automobile liability insurance, workers compensation, accidental death and dismemberment insurance and specific disease coverage (such as cancer).

"Facility" means any ~~hospital, rehabilitation facility, skilled nursing facility, midwifery center, ambulatory surgical center, home health agency, infusion therapy entity, hospice program, durable medical equipment vendor, radiology facility, dialysis facility, or laboratory~~ organization as defined by EGID which is duly licensed under the laws of the state of operation, and also either Medicare certified as applicable, and/or accredited by a CMS approved Medicare accreditation organization, nationally recognized accreditation organization that is approved by state or federal guidelines, for example, The Joint Commission (formerly JCAHO) or The Commission on Accreditation of Rehabilitation Facilities (CARF).

"Fee schedule" means a listing of one or more allowable fees.

"Former participating employees and dependents" means eligible former employees who have elected benefits within thirty [30] days of termination of service and includes those who have retired, or vested through an eligible State of Oklahoma retirement system, or who have completed the statutory required years of service, or who have other coverage rights through Consolidated Omnibus Budget Reconciliation Act (COBRA) or the Oklahoma Personnel Act. An eligible dependent is covered through the participating former employee or the dependent is eligible as a survivor or has coverage rights through COBRA.

"Health information" means any information, whether oral or recorded in any form or medium: (1) that relates to the past, present or future physical or mental condition of a member; the provision of health care to a member; or the past, present or future payment for the provision of health care to a member; and (2) that identifies the member or with respect to which there is a reasonable basis to believe the information can be used to identify the member.

"Home health care" means a plan of continued care of an insured person who is under the care of a provider who certifies that without the Home health care, confinement in a hospital or skilled nursing facility would be required. Specific criteria and limitations apply.

"Hospice care" means a concept of supportive care for terminally ill patients. Treatment focuses on the relief of pain and suffering associated with a terminal illness. Specific criteria and limitations apply.

"Inaccurate or erroneous information" means materially erroneous, false, inaccurate, or misleading information that was intentionally submitted in order to obtain a specific coverage.

"Initial enrollment period" means the first thirty [30] days following the employee's entry-on-duty date. A group initial enrollment period is defined as the thirty [30] days following the enrollment date of the participating entity.

"Insurance Coordinator" means Insurance/Benefits Coordinator for Education, Local Government, and State Employees.

"Maintenance care" means there is no measurable progress of goals achieved, no skilled care required, no measurable improvement in daily function or self-care, or no change in basic treatment or outcome.

"Medically necessary" means services or supplies which are provided for the diagnosis and treatment of the medical and/or mental health/substance abuse condition and complies with criteria adopted by EGID. Direct care and treatment are within standards of good medical practice within the community, and are appropriate and necessary for the symptoms, diagnosis or treatment of the condition. The services or supplies must be the most appropriate supply or level of service, which can safely be provided. For hospital stays, this means that inpatient acute care is necessary due to the intensity of services the member is receiving or the severity of the member's condition, and that safe and adequate care cannot be received as an outpatient or in a less intensified medical setting. The services or supplies cannot be primarily for the convenience of the member, caregiver, or provider. The fact that services or supplies are medically necessary does not, in itself, assure that the services or supplies are covered by the Plan.

"Members" means all persons covered by one or more of the group insurance plans offered by EGID including eligible current and qualified former employees of participating entities and their eligible covered dependents.

"Mental health and substance abuse" means conditions including a mental or emotional disorder of any kind, organic or inorganic, and/or alcoholism and drug dependency.

"Network provider" means a practitioner who or facility that is duly licensed under the laws of the state in which the "Network provider" operates, ~~and/or is accredited by a nationally recognized accrediting organization such as The Joint Commission (formerly JCAHO) or The Commission on Accreditation of Rehabilitation Facilities (CARF) approved by state or federal guidelines, and has entered into a contract with EGID to accept scheduled reimbursement for covered health care services and supplies provided to members~~ satisfies credentialing criteria as established by EGID, and has entered into a contract with EGID to accept scheduled reimbursement for covered health care services and supplies provided to members.

"Non-Network out-of-pocket" means the member's expenses include the total of the member's deductibles and co-insurance costs plus all amounts that continue to be charged by the non-Network provider after the HealthChoice allowable fees have been paid.

"OEIBB" means Oklahoma Employees Insurance and Benefits Board.

"Open enrollment period" means a limited period of time as approved by either EGID or the Legislature in which a specified group of individuals are permitted to enroll.

"Option period" means the time set aside at least annually by EGID in which enrolled plan members may make changes to their enrollments. Eligible but not enrolled employees may also make application for enrollment during this time. Enrollment is subject to approval by EGID.

"Orthodontic limitation" means an individual who enrolls in the Dental Plan will not be eligible for any orthodontic benefits for services occurring within the first twelve [12] months after the effective date of coverage. Continuing orthodontic services for newly hired employees who had previous group dental coverage will be paid by prorating or according to plan benefits.

"Other hospital services and supplies" means services and supplies rendered by the hospital that are required for treatment, but not including room and board nor the professional services of any provider, nor any private duty, special or intensive nursing services, by whatever name called, regardless of whatever such services are rendered under the direction of the hospital or otherwise.

"Participating entity" means any employer or organization whose employees or members are eligible to be participants in any plan authorized by or through the Oklahoma Employees Insurance and Benefits' Act.

"The Plan or Plans" means the self-insured Plans by the State of Oklahoma for the purpose of providing health benefits to eligible members and may include such other benefits as may be determined by EGID. Such benefits shall be provided on a coinsurance basis and the insured pays a proportion of the cost of such benefits.

"Primary insured" means the member who first became eligible for the insurance coverage creating eligibility rights for dependents.

"Prosthetic appliance" means an artificial appliance that replaces body parts that may be missing or defective as a result of surgical intervention, trauma, disease, or developmental anomaly. Said appliance must be medically necessary.

"Provider" means a physician or other practitioner who is duly licensed or certified under the laws of the state in which the Provider practices and is recognized by this Plan, to render health and dental care services and/or supplies.

"Qualifying Event" means an event that changes a member's family or health insurance situation and qualifies the member and/or dependent for a special enrollment period. The most common qualifying life events are the loss of health care coverage, a change in household (such as marriage or birth of a child), or a change of residence or other federally required mandates. A complete summary of qualifying events are set out in Title 26, Treasury Regulations, Section 125.

"Schedule of benefits" means the EGID plan description of one or more covered services.

"Skilled care" means treatment or services provided by licensed medical personnel as prescribed by a provider. Treatment or services that could not be given safely or reasonably by a person who is not medically skilled and would need continuous supervision of the effectiveness of the treatment and progress of the condition. Specific criteria and limitations are applied.

SUBCHAPTER 3. ADMINISTRATION OF PLANS

Permanent Final Adoptions

260:50-3-8. Refunds

(a) **Refunds.** Any refund of payment for any premium overpayment shall be made only when EGID is notified in writing no later than sixty [60] days after the actual date of the overpayment, unless lack of notification is beyond control as determined by EGID.

(b) **Administrative Error.** Refunds for overpayment due to administrative error, as limited and defined in the rules in this title, of the Insurance/Benefits Coordinator or the payroll clerk for EGID, shall be made at one hundred percent [100%].

(c) **Refunds on behalf of employees.** Refunds on behalf of employees shall be paid to the appropriate party. For an entity to receive a refund, the entity must have a credit balance.

(d) **Inaccurate or erroneous information.** If EGID finds that materially erroneous, false, inaccurate, or misleading information was intentionally submitted in order to obtain a specific coverage, then:

(1) For optional or supplemental life insurance coverage in excess of any guaranteed amounts of coverage, EGID shall extinguish its liability by tendering a refund of premiums paid to the insured or the beneficiary;

(2) Health or dental coverage would be canceled retroactive to the effective date of the coverage obtained by the misrepresentation. Refunded premiums would be reduced by any claims paid by HealthChoice.

(e) **Medicare eligibility.** There shall be no refund of premiums for prior months during which the member was eligible for Medicare, and written notice was not provided to EGID. An exception shall be made for individuals who are retroactively awarded Medicare coverage by the Social Security Administration, when written notice of the retroactive award is provided to EGID within thirty [30] days after the member's notification of the Social Security Administration award. A member's sixty-fifth [65th] birthday is considered automatic notification of Medicare eligibility.

(f) **Deceased member.** All refunds for overpayment resulting from the death of an employee or ~~retired~~former employee will be capped at the overpayment amount received by EGID within twenty four [24] months of notification.

260:50-3-9. Payment of HealthChoice health, dental and life benefits [REVOKED]

~~(a) Life insurance benefits are payable to the beneficiary designated by the employee. Premiums and overpaid disability benefits due and payable to EGID at the time of the insured's death may be withheld from life insurance benefits before payment of the remainder to the beneficiary or estate. Life proceeds are not assignable, except a beneficiary may assign proceeds in an amount equal to the decedent's burial expenses. If no beneficiary form is on file with EGID, benefits will be paid to the decedent's estate.~~

~~(b) Health and dental benefits are payable to the employee or the provider. If any health or dental benefits remain unpaid at the employee's death, EGID, may at its option, pay the benefits to the employee's estate or to any one or more relatives such as follows: spouse, father, mother, children, brothers or~~

~~sisters. Any such payment will constitute complete discharge of EGID's obligation to the extent of the amount paid.~~

~~(c) If a minor or person otherwise legally incapable of giving a valid receipt of discharge of any payment is selected as a beneficiary, a guardian must be appointed by a court of competent jurisdiction before benefits shall be paid.~~

AGENCY NOTE: 260:50-3-9 has moved to 260:50-5-13.

260:50-3-10. Timely filing of HealthChoice health and dental claims [REVOKED]

~~Proof of health and dental claims for services received (bill/receipt) must be furnished no later than three hundred sixty five [365] days after the date of service. If such proof is not furnished within the time allowed, at EGID's discretion the claim will still be considered if the employee shows that it was not reasonably possible to furnish the notice of proof within the specified time and that the notice of proof was furnished as soon as reasonably possible.~~

AGENCY NOTE: 260:50-3-10 has moved to 260:50-5-14.

260:50-3-11. HealthChoice Examination [REVOKED]

~~EGID reserves the right and opportunity to examine the person whose injury or sickness is the basis of a claim as often as may be reasonable during the pending of the claim.~~

AGENCY NOTE: 260:50-3-11 has moved to 260:50-5-15.

260:50-3-12. Action to recover [REVOKED]

~~No action at law or in equity shall be brought to recover on this Plan unless brought pursuant to the Administrative Procedures Act, nor shall such action be brought at all unless brought within three [3] years from the expiration of the time within which proof of loss is required by the policy.~~

AGENCY NOTE: 260:50-3-12 has moved to 260:50-5-16.

260:50-3-13. Rights of eligible former employees to continue in the Group Health, Dental, and Vision Insurance Plan

(a) Health, dental and vision coverage may be elected as determined by State Statute or retained at the time of termination of employment from an employer who participates in that health, dental or vision coverage, if such election to continue in force or begin is made within thirty [30] days from the date of termination of service, and if the following conditions are met:

(1) The former employee either retires or has a vesting right with a State funded retirement plan, or has the requisite years of service with an employer participating in the Plan.

(2) The election must be received by EGID no later than thirty [30] days after the date of termination of service.

(b) If an eligible former employee does not elect coverage at the time of termination of employment, or subsequently drops the coverage that was elected, the coverage may not be reinstated at a later date, except as permitted for former State

employees exercising insurance retention rights available through a reduction in force (RIF) severance agreement.

(c) A participating eligible former employee cannot add dependents to coverage after termination of employment, except as follows:

- (1) During an open enrollment period; or
- (2) Eligible dependent(s) not covered at the time of the former employee's termination from active employment, as long as the dependent election is made within thirty [30] days of the termination date.
- (3) If the dependent is newly acquired. New dependent[s] or additional dependent coverage must be added within thirty [30] days after acquiring the new dependent[s].
- (4) If the dependent has lost other health or group dental insurance coverage and notice has been given to EGID within thirty [30] days after the loss of the other coverage. Excepted Benefits do not qualify as other health coverage for purposes of this rule, and replacement is limited to the corresponding type of coverage lost.

(d) During an option period, covered former employees may make changes to their existing benefits but not add additional benefits with the exception of vision coverage. Vision coverage cannot be dropped mid-year except as allowed at 260:50-3-22(c).

(e) If an eligible former employee has a spouse who is participating in the Plan as an employee of a participating entity, the former employee may defer or transfer his or her health, dental and vision coverage to be dependent coverage under the spouse at any time, so long as the following conditions are met:

- (1) Coverage must remain continuous; and
- (2) All eligible dependents must be insured unless they have other verifiable coverage.
- (3) The eligible former employee, at a later date, may cancel deferment and defer or transfer his or her insurance coverage from dependent status back to former employee status if coverage with the Plan has remained continuous, and the former employer of the eligible former employee continues to participate in the Plan.

(f) An individual who has retained health, dental or vision coverage who is returning to current employment for a participating entity and meets the eligibility criteria for a current employee is entitled to transfer his present coverage to that employer as long as the employer is a participant in the benefit transferred. The employee may retain his present life coverage and may add life coverage so long as the total amount of life coverage does not exceed the guaranteed issue amount. Evidence of insurability must be submitted and approved for any amount exceeding guaranteed issue or the amount previously held in retirement, whichever is greater.

(g) An eligible former employee who has retained any coverage and is returning to work for a participating entity but does not meet the eligibility criteria for a current employee is not entitled to coverage through that employer.

(h) In the event an otherwise eligible former employee returns to current employment who did not retain ~~health~~ coverage upon termination of employment, the eligibility requirements

of a new employee must be met in order to obtain that coverage through the employer. Such individuals must work for three [3] years in order to qualify for retaining any benefits not previously elected upon ceasing current employment when they re-retire. This includes members who terminated from employers not participating in the Group Plans authorized by the Oklahoma State Employees Benefits Act [74 O. S. §1301] when they originally ended employment.

(i) Enrollment in a Medicare Plan:

(1) Medicare Supplement coverage enrollment required regardless of age. All covered individuals who are eligible for Medicare, except current employees and their dependents as addressed in 260:50-5-41, must be enrolled in a Medicare Plan, offered through EGID, regardless of age.

(2) Effective date of Medicare Supplement coverage. Medicare Supplement coverage shall become effective on the first [1st] day of the month following the date EGID receives actual notice of the member's eligibility for Medicare. There shall be no refund of premiums for prior months during which the member was eligible for Medicare, and written notice was not provided to EGID. An exception shall be made for individuals who are retroactively awarded Medicare coverage by the Social Security Administration, when written notice of the retroactive award is provided to EGID within thirty [30] days after the member's notification of the Social Security Administration award. A member's sixty-fifth [65th] birthday is considered automatic notification of Medicare eligibility.

(3) Non-Medicare eligible individuals. Nothing in the rules in this chapter prohibits individuals who are not eligible for Medicare from being enrolled in EGID's regular health plan; however, individuals eligible to purchase Medicare coverage are excluded and are presumed to be enrolled in both Parts A and B of Medicare.

260:50-3-18. Eligibility criteria for disabled dependent over the age of twenty-six [26]

Eligibility criteria for covering a disabled dependent beyond the age of twenty-six [26] pursuant to 74 O. S. §1303(14) are as follows, provided all other eligibility requirements are also satisfied:

(1) It is intended that the following dependents beyond the age of twenty-six [26] are eligible for coverage under this provision:

(A) An individual who has been medically determined to be incapable of self-support because of mental or physical incapacity that currently exists and has continuously existed since before reaching the age of twenty-six [26] years; and

(B) The individual resides in the primary member's home at least six [6] months of the year, and is the primary member's natural child, foster child, adopted child, or a child of the primary member's spouse when the spouse has been ordered by a Court to provide health insurance for the child; and

(C) If the requirements of subsection (A) and (B) are met, eligibility

- (i) ~~Eligibility~~ through court appointed guardianship will be accepted for disabled children, foster children and grandchildren, but only when guardianship existed prior to the dependent reaching age nineteen [19]. The assessment/application for coverage must be submitted within thirty [30] days of obtaining legal guardianship. Power of attorney, including durable power of attorney, does not qualify as guardianship, ~~and~~
- (ii) Coverage ceases at the end of the month in which the primary member's appointment as guardian is terminated.

(D) An approved disabled dependent who has been medically determined to be incapable of self-support because of mental or physical incapacity that currently exists and has continuously existed since before reaching the age of twenty-six [26] years can only be added to coverage within thirty [30] days of a qualifying event. While changes to coverage (benefits or plan options) may be made during the annual Option Period, enrollment of a disabled dependent will not be considered without a qualifying event.

- (2) Other criteria required for disabled dependent status are:

(A) For a primary member who is a new hire or a re-hire, assessment/application for disabled dependent status must be completed and submitted to EGID within thirty [30] days of primary member's initial enrollment. As stated above, the disabled dependent must have been medically determined to be incapable of self-support because of mental or physical incapacity that currently exists and has continuously existed since before reaching the age of twenty-six [26] years.

(B) Primary members must submit a copy of their federal and/or state income tax returns for the prior year reflecting their support of the dependent.

(C) Dependents are eligible only for the coverage in which the primary insured is enrolled. Only dependent life insurance can be carried by both parents if each is a primary member under the plan; and

(D) Primary members must apply for disabled dependent status for an eligible individual who has been medically determined to be incapable of self-support because of mental or physical incapacity that currently exists and has continuously existed since before reaching the age of twenty-six [26] years at least thirty [30] days prior to the dependent's twenty-six [26th] birthday.

- (3) Disabled dependent status must be continued for a minimum of one [1] year. If the dependent having the disabled status is dropped from coverage, the primary member may not reapply for disabled dependent status for the dependent for a period of twelve [12] months. The twelve [12] month requirement does not apply when the dependent has lost other group coverage.

260:50-3-26. Termination of benefits

(a) **Termination of coverage.** The coverage under this plan will terminate at the earliest time stated below:

- (1) On the last day of the calendar month in which employment terminates.
- (2) When the plan is discontinued.
- (3) When any required premiums cease to be paid.
- (4) The individual does not begin or continue coverage as an eligible participating former employee and/or dependent.
- (5) For a dependent when said dependent becomes ineligible for coverage.
- (6) A participating entity ceases to participate in this plan.

(b) **Representation of eligibility.** Individuals who enroll a family member in the plan are representing that the individual is eligible under the terms of the plan and must provide evidence of eligibility upon request. The plan relies upon the member's representation of eligibility in accepting the enrollment of the family member, and the intentional provision of false evidence or the failure to provide required evidence of eligibility is evidence of fraud and material misrepresentation. The intentional provision of false evidence or the failure to provide evidence of eligibility will result in disenrollment of the individual, which may be retroactive to the date as of which the individual became ineligible for plan coverage, as determined by the plan.

(c) **Rescission of coverage obtained through false information.** If material facts are submitted as a result of fraud, substantive error, inaccuracy, omission, misrepresentation, or any illegal or unauthorized activity, on any form or application for insurance coverage by or on behalf of a member or dependent, the coverage will be rescinded retroactively to the effective date. Written notice shall be sent by first class mail by EGID to the member's last known address of record no less than thirty [30] days prior to retroactive rescission of coverage. EGID reserves the right to recover the costs of any and all claims paid through such falsely obtained coverage from the ineligible member and/or dependent through all available means, at the discretion of EGID.

(d) **Dependent termination of coverage.** In addition to (a), (b), (c) and (e) of this section, the coverage terminates with respect to an individual dependent on the last day of the calendar month in which such person ceases to be an eligible dependent.

(e) **Unlimited contestability period.** There shall be no time limitation imposed upon EGID during which coverage based on materially false information submitted to EGID can be rescinded, if it is found that information as listed above in paragraph (c) was provided in order to obtain coverage, and that such information was material to EGID providing such coverage.

260:50-3-27. Procedures and implementation

Notice of right to continue coverage. EGID shall advise each covered employee of his right to continue coverage under Federal COBRA provisions. COBRA coverage applies only to health, dental, and vision benefits. Life and disability coverage are not available through COBRA.

260:50-3-28. COBRA administration

- (a) COBRA coverage is identical to coverage provided at date of the qualifying event. The coverage elected shall be identical to the coverage provided at the date of the qualifying event. Should a beneficiary move out of the service area of their current plan, the beneficiary will be allowed to change to a plan whose service area covers the beneficiary's new location.
- (b) Payment of back premiums. All back premiums from the termination of coverage to the election and approval of continuation must be paid before coverage is effective. Coverage will then be retroactive to provide continuous coverage. All time limits are mandatory and cannot be waived under any circumstances.
- (c) Responsibility of qualified beneficiary to inform EGID of ineligibility. It is the responsibility of the qualified beneficiary to provide timely notice if he is not eligible for any reason. Failure to do so will result in cancellation of COBRA insurance coverage, retroactive to the time of ineligibility.
- (d) Primary member premium. For any benefit continued under COBRA, one person must pay the primary member premium. In cases where a spouse, child, or children are insured for a particular benefit where the primary member did not retain coverage, one person will be billed at the primary member rate.
- (e) Federal regulations. Federal regulations regarding COBRA extension of coverage shall be controlling in all situations where applicable.

SUBCHAPTER 5. COVERAGE AND LIMITATIONS

PART 3. HEALTHCHOICE PLANS

260:50-5-2. Schedule of benefits and benefit administration procedures or guidelines as adopted by EGID

All benefits for HealthChoice plans offered through EGID as described in the rules in this title shall be paid according to the handbooks, schedule of benefits and benefit administration procedures or guidelines as adopted by EGID. The schedule of benefits and benefit administration procedures or guidelines as adopted by EGID shall be available for inspection by the public during regular office hours at 3545 N. W. 58, Suite 600, Oklahoma City, Oklahoma 73112.

AGENCY NOTE: This Section is not being amended, but is being moved from Part 1 to Part 3 of this Subchapter 5.

260:50-5-3. HealthChoice approval for emergency treatment by non-Network providers

Members may have benefits available for medical emergencies when non-Network services occur. Notification to EGID is required.

AGENCY NOTE: This Section is not being amended, but is being moved from Part 1 to Part 3 of this Subchapter 5.

260:50-5-12. HealthChoice plan limitations and exclusions

For the health plans provided by EGID, there is no coverage for expenses incurred for or in connection with conditions, services, procedures, treatments, expenses, items, and supplies excluded by EGID's benefit guidelines. There is no coverage or reimbursement for services or supplies provided by ineligible providers. [260:50-1-2]

260:50-5-13. Payment of HealthChoice health, dental and life benefits

- (a) Life insurance benefits are payable to the beneficiary designated by the employee. Premiums and overpaid disability benefits due and payable to EGID at the time of the insured's death may be withheld from life insurance benefits before payment of the remainder to the beneficiary or estate. Life proceeds are not assignable, except a beneficiary may assign proceeds in an amount equal to the decedent's burial expenses. If no beneficiary form is on file with EGID, benefits will be paid to the decedent's estate.
- (b) Health and dental benefits are payable to the employee or the provider. If any health or dental benefits remain unpaid at the employee's death, EGID, may at its option, pay the benefits to the employee's estate or to any one or more relatives such as follows: spouse, father, mother, children, brothers or sisters. Any such payment will constitute complete discharge of EGID's obligation to the extent of the amount paid.
- (c) If a minor or person otherwise legally incapable of giving a valid receipt of discharge of any payment is selected as a beneficiary, a guardian must be appointed by a court of competent jurisdiction before benefits shall be paid.

260:50-5-14. Timely filing of HealthChoice health and dental claims

Proof of health and dental claims for services received (bill/receipt) must be furnished no later than three hundred sixty-five [365] days after the date of service. If such proof is not furnished within the time allowed, at EGID's discretion the claim will still be considered if the employee shows that it was not reasonably possible to furnish the notice of proof within the specified time and that the notice of proof was furnished as soon as reasonably possible.

260:50-5-15. HealthChoice examination

EGID reserves the right and opportunity to examine the person whose injury or sickness is the basis of a claim as often as may be reasonable during the pending of the claim.

260:50-5-16. Action to recover

No action at law or in equity shall be brought to recover on this Plan unless brought pursuant to the Administrative Procedures Act, nor shall such action be brought at all unless brought within three [3] years from the expiration of the time within which proof of loss is required by the policy.

PART 5. HEALTHCHOICE LIFE BENEFITS

260:50-5-20. Term life coverage

(a) **Group Term Life Benefits.** A former employee who is reemployed by the same participating employer within twenty-four [24] months after the date of termination of previous employment shall not be enrolled for a greater amount of life insurance than the individual had at the time of termination of previous employment with the employer, unless the individual provides satisfactory evidence of insurability. Additionally, the amount of life insurance cannot exceed the amount of the guaranteed issue based on the employee's current salary, unless the individual provides satisfactory evidence of insurability. The amount of coverage provided by the employer is specified in the benefit administration procedures or guidelines as adopted by EGID. However, to elect this benefit, the member must be either a) enrolled in one of the group health plans offered through EGID or b) be enrolled in other groupqualified health coverage. In the event of death, the proceeds of this coverage are payable to the beneficiary listed on the most recently signed beneficiary designation subject to the limitations in Title 15. [15 O.S. § 178] If no beneficiary form is on file at EGID, benefits will be paid to the decedent's estate.

(b) **Unlimited contestability period.** There shall be no time limitation imposed upon EGID, during which coverage based on evidence of insurability submitted to EGID can be contested, if it is found that materially erroneous, false, inaccurate, or misleading information was provided in order to obtain optional or supplemental coverage in excess of any guaranteed amounts of coverage. In the event EGID determines coverage was granted based upon erroneous, false, inaccurate or misleading information, and that such information was material to EGID providing any optional or supplemental coverage, EGID shall extinguish its liability by tendering a refund of premiums paid to the insured or the beneficiary.

260:50-5-22. Optional supplemental life coverage for eligible employees

(a) **Supplemental life coverage.** Supplemental life coverage is available for eligible employees who are covered by the basic term life coverage.

(b) **Enrollment.** At the time of initial enrollment, supplemental life may be requested up to the pre-established level set forth in the benefit administration procedures or guidelines as adopted by EGID, without submitting evidence of insurability. All supplemental life insurance requested which exceeds the pre-established level will require evidence of insurability. Coverage selected in the supplemental life insurance program begins on the first [1st] day of the month following the date of employment. Optional coverages not selected within the member's initial enrollment period may be added only during the next enrollment period. Members who waive or do not select supplemental life insurance coverage shall be required to obtain approval of current evidence of insurability to obtain coverage at a later date. Coverage obtained under this provision will be subject to certain additional restrictions as adopted

by EGID. Individuals who waived this coverage because they were covered by other group life insurance coverage will be allowed to enroll without being subject to these additional restrictions if they request the coverage in writing and supply proof of the loss of other group coverage within thirty [30] days following the loss of the other group life coverage.

(c) **Changes in levels of coverage.** Increases or reductions in coverage limits (except termination of coverage) are only accepted during the option period. Beneficiary changes may be made at any time, but must be communicated to EGID in writing. All changes in coverage levels will be subject to the benefit administration procedures or guidelines as adopted by EGID.

(d) **Waiver of life insurance premiums.** In the event the employee becomes disabled, life insurance premiums may be waived for employee and dependent life insurance coverage. Provider certification shall be required, as specified by EGID, and premium waiver shall start on the first [1st] day of the month after the employee has been disabled for thirty [30] consecutive days, and shall continue for as long as the employee remains disabled. The waiver shall terminate on the earliest of the following events: the employee has been found to be able to return to current duty in any capacity by any provider; the employee returns to any active duty for any period of time; the employee changes in status to former or retired; the employee notifies EGID in writing that life insurance coverage is to be terminated; the employee is terminated for any reason, including, but not limited to resignation or discharge from his or her position; any termination of life insurance coverage occurs as set forth in ~~260:50-7-1260:50-3-26~~.

(e) **Accidental Death and Dismemberment and loss of sight benefit.** The basic term life and the first twenty thousand dollars [\$20,000] of the supplemental life coverage includes the accidental death and dismemberment and loss of sight benefit and will pay a scheduled benefit in the event of accidental death and dismemberment or loss of sight injury within ninety [90] days after the date of accident or accidental injury. Death must be a direct result of the accidental bodily injury independent of all other causes.

PART 9. HEALTHCHOICE DENTAL BENEFITS, LIMITATIONS, AND EXCLUSIONS

260:50-5-30. Scope of coverage

The dental expense benefit applies to eligible covered employees and dependents. This benefit provides payment for dental expenses incurred in excess of any applicable deductible. However, to elect this benefit, the member must either be a) enrolled in one of the group health plans offered through EGID or b) be enrolled in other groupqualified health coverage. It is not necessary for dependents to be covered by health benefits to receive the benefits of this Plan.

PART 11. HEALTHCHOICE MEDICARE SUPPLEMENT

260:50-5-43. Enrollment in Medicare Supplement [REVOKED]

(a) ~~Medicare Supplement coverage enrollment required regardless of age.~~ All covered individuals who are eligible for Medicare, except current employees and their dependents as addressed in 260:50-5-41, must be enrolled in a Medicare Supplement Plan, offered through EGID, regardless of age.

(b) ~~Effective date of Medicare Supplement coverage.~~ Medicare Supplement coverage shall become effective on the first [1st] day of the month following the date EGID receives actual notice of the member's eligibility for Medicare. There shall be no refund of premiums for prior months during which the member was eligible for Medicare, and written notice was not provided to EGID. An exception shall be made for individuals who are retroactively awarded Medicare coverage by the Social Security Administration, when written notice of the retroactive award is provided to EGID within thirty [30] days after the member's notification of the Social Security Administration award. A member's sixty fifth [65th] birthday is considered automatic notification of Medicare eligibility.

(c) ~~Non-Medicare eligible individuals.~~ Nothing in the rules in this chapter prohibits individuals who are not eligible for Medicare from being enrolled in EGID's regular health plan; however, individuals eligible to purchase Medicare coverage are excluded and are presumed to be enrolled in both Parts A and B of Medicare

AGENCY NOTE: 260:50-5-43 has moved to 260:50-3-13(i)(1)(2)(3).

SUBCHAPTER 7. TERMINATION OF BENEFITS [REVOKED]

260:50-7-1. Termination of benefits [REVOKED]

(a) ~~Termination of coverage.~~ The coverage under this plan will terminate at the earliest time stated below:

- (1) On the last day of the calendar month in which employment terminates.
- (2) When the plan is discontinued.
- (3) When any required premiums cease to be paid.
- (4) The individual does not begin or continue coverage as an eligible participating former employee and/or dependent.
- (5) For a dependent when said dependent becomes ineligible for coverage.
- (6) A participating entity ceases to participate in this plan.

(b) ~~Representation of eligibility.~~ Individuals who enroll a family member in the plan are representing that the individual is eligible under the terms of the plan and must provide evidence of eligibility upon request. The plan relies upon the member's representation of eligibility in accepting the enrollment of the family member, and the intentional provision of false evidence or the failure to provide required evidence of eligibility is evidence of fraud and material misrepresentation. The intentional provision of false evidence or the failure to provide evidence of eligibility will result in disenrollment of the individual, which may be retroactive to the date as of which the

individual became ineligible for plan coverage, as determined by the plan.

(c) ~~Rescission of coverage obtained through false information.~~ If material facts are submitted as a result of fraud, substantive error, inaccuracy, omission, misrepresentation, or any illegal or unauthorized activity, on any form or application for insurance coverage by or on behalf of a member or dependent, the coverage will be rescinded retroactively to the effective date. Written notice shall be sent by first class mail by EGID to the member's last known address of record no less than thirty [30] days prior to retroactive rescission of coverage. EGID reserves the right to recover the costs of any and all claims paid through such falsely obtained coverage from the ineligible member and/or dependent through all available means, at the discretion of EGID.

(d) ~~Dependent termination of coverage.~~ In addition to (a), (b), (c) and (e) of this section, the coverage terminates with respect to an individual dependent on the last day of the calendar month in which such person ceases to be an eligible dependent.

(e) ~~Unlimited contestability period.~~ There shall be no time limitation imposed upon EGID during which coverage based on materially false information submitted to EGID can be rescinded, if it is found that information as listed above in paragraph (c) was provided in order to obtain coverage, and that such information was material to EGID providing such coverage.

AGENCY NOTE: 260:50-7-1 has moved to 260:50-3-26.

SUBCHAPTER 9. COBRA HEALTH INSURANCE CONTINUATION [REVOKED]

260:50-9-1. Procedures and implementation [REVOKED]

~~Notice of right to continue coverage.~~ EGID shall advise each covered employee of his right to continue coverage under Federal COBRA provisions. COBRA coverage applies only to health, dental, and vision benefits. Life and disability coverage are not available through COBRA.

AGENCY NOTE: 260:50-9-1 has moved to 260:50-3-27.

260:50-9-2. COBRA administration [REVOKED]

(a) ~~COBRA coverage is identical to coverage provided at date of the qualifying event.~~ The coverage elected shall be identical to the coverage provided at the date of the qualifying event, unless a beneficiary moves outside an HMO's service area. In that event, coverage is continued under HealthChoice, EGID's self insured plan.

(b) ~~Payment of back premiums.~~ All back premiums from the termination of coverage to the election and approval of continuation must be paid before coverage is effective. Coverage will then be retroactive to provide continuous coverage. All time limits are mandatory and cannot be waived under any circumstances.

(c) ~~Responsibility of qualified beneficiary to inform EGID of ineligibility.~~ It is the responsibility of the qualified

Permanent Final Adoptions

beneficiary to provide timely notice if he is not eligible for any reason. Failure to do so will result in cancellation of COBRA insurance coverage, retroactive to the time of ineligibility.

(d) **Primary member premium.** For any benefit continued under COBRA, one person must pay the primary member premium. In cases where a spouse, child, or children are insured for a particular benefit where the primary member did not retain coverage, one person will be billed at the primary member rate.

(e) **Federal regulations.** Federal regulations regarding COBRA extension of coverage shall be controlling in all situations where applicable.

AGENCY NOTE: 260:50-9-2. has moved to 260:50-3-28.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

260:55-1-1. Purpose

~~The rules of this chapter outline the coverage and limitations available under the HealthChoice Disability plan. All terms of the HealthChoice Disability plan shall be set forth in handbooks and administrative procedures. These shall describe program and coverage eligibility, what constitutes disability, maximum length of coverage, maximum and minimum benefits for short-term disability and long-term disability, the calculation of disability income benefits, and the suspension or termination of benefits.~~

260:55-1-2. Definitions [REVOKED]

~~The following words and terms, when used in this chapter, shall have the following meaning, unless the content clearly indicates otherwise:~~

~~"Base compensation" means the rate of earnings in effect on the date disability begins. Base compensation does not include overtime, commissions, bonuses, longevity pay, salary increases, productivity enhancement program payments and all other extra compensation.~~

~~"Benefit period" means the first [1*] day of the benefit period will be the day benefits commence as defined at 260:55-1-4(a) and (b). The end of the benefit period will be the last day of eligibility as defined at 260:55-1-11(d). A recurrent disability as defined at 260:55-1-7 will not alter the beginning date of the benefit period.~~

~~"Disability" means a person is considered to be disabled when he is unable, as a result of injury or illness, to perform the material duties of his own occupation. Disability will be considered to have commenced on the date the employee first receives treatment or advice from a physician after his last date worked and said disability is expected to last thirty one [31] consecutive~~

calendar days or longer. After the first twenty four [24] months of disability, disability will be defined as inability to perform each of the material duties of any gainful occupation for which a person is or may become reasonably qualified by training, education or experience. None of the classes of disability used in other plans or programs such as temporary, permanent, total, or partial, etc., are to be used to limit or define this plan's disability criteria, whether or not the terms are used in medical or legal documents supplied as proof of disability under this plan. Uses of such terms are intended to be disregarded by this plan. Determinations rendered by or for workers compensation or social security are not considered prima facie evidence of disability for this plan. **"EGID"** means the Employees Group Insurance Division of the Office of Management and Enterprise Services.

"Eligibility period" means the first thirty one [31] consecutive calendar days of employment. No benefit is payable for this period. For employees with less than one [1] year of service, proof of continuous presence at the regularly assigned work place and verification by the appointing authority that the employee was performing all of the material duties of the employee's regular occupation continuously during the eligibility period shall be required as conditions of satisfaction of the eligibility period. Employees reinstated to eligibility to participate in the disability plan after having waived disability coverage pursuant to 74 O.S. §1308.3 will be considered to have no prior service and no continuous employment prior to their reinstated eligibility.

"Elimination period" means the first thirty [30] consecutive calendar days of disability. No benefit is payable for this period.

"Employee" means, for purposes of this chapter only, the term employee includes but is not limited to persons who are currently drawing disability benefits under this Disability Plan or who meet each and every requirement of this Disability Plan.

"Furlough" means a nonscheduled working day, in addition to regular nonscheduled working days requested by the employer.

"Illness" means sickness or disease, including pregnancy and complications of pregnancy. Disability resulting from the illness must begin while the employee is participating in the Plan.

"Injury" means bodily injury resulting directly from an accident, independent of all other causes. The resulting disability must occur while the employee is participating in the Plan.

"Participation" means participation in the Disability Plan shall be limited to employees who have been employees for a period of not less than one [1] month prior to the onset of the disability. The employee must have been continuously employed by the employer for a period of not less than one [1] month, and must have satisfied the requirements of the eligibility period as defined herein. For the purposes of this chapter, one [1] month shall mean thirty one [31] consecutive days.

"Physician" means a person licensed to practice medicine and surgery, osteopathy, chiropractic, podiatry, optometry, or dentistry and legally qualified as a medical practitioner under the insurance statutes of the State of Oklahoma, and operating

within the scope of his license. An employee or an employee's spouse, child, father, mother, sister, or brother will not be included in this definition.

"Preexisting condition" means, for the purposes of this chapter only, an illness or injury for which the employee received medical care, diagnosis, consultation, treatment or took prescribed drugs or medicines during the ninety [90] day period immediately preceding his/her entry on duty (EOD) date. The term "preexisting condition" shall also include any condition which is related to such injury or illness.

"Years of service" means time spent as an active employee performing full time duties for remuneration with an entity participating in the Disability Plan. Time on partial disability or leave (with or without pay) after an established disability date will not be counted toward years of service for disability benefit purposes. Time on leave without pay status after an established disability date will also not be counted toward years of service for disability benefit purposes. Under no circumstances will time for which an insured receives disability benefits under this Plan be counted toward years of service.

260:55-1-3. Gender reference [REVOKED]

All references to "he" or "his" are not intended to be gender related, but shall apply equally to both sexes.

260:55-1-4. Absence on eligibility date [REVOKED]

(a) **Eligibility date for disability.** If an employee is absent from work because of a furlough, holiday, vacation or non-scheduled working day and he was on the job or on paid leave other than for injury, illness, or unpaid leave, on a scheduled working day immediately preceding the eligibility date, the eligibility date for disability benefits will not be altered.

(b) **Release from physician for determination of eligibility.** If an employee is absent from work because of injury or illness on the date he would normally become eligible for disability coverage, he shall not become eligible until he obtains an unconditional release from his physician, and returns to the job for five [5] full time consecutive work days, performing all of his normal duties.

(c) **Unpaid leave.** If an employee is absent from work because of other unpaid leave, he is not eligible for coverage until he returns to the job for five [5] consecutive work days.

260:55-1-5. Commencement of disability [REVOKED]

(a) **Short term disability.** Short term disability will be considered to have commenced on the date the employee first receives treatments or advice from a physician followed by a continuous absence from work due to disability, in accordance with the criteria under the definitions of 260:55-1-2. Short term disability ends after the first one hundred eighty [180] days of disability.

(b) **Long term disability.** Long term disability commences after one hundred eighty [180] days of disability and coincides with the end of the short term period.

Permanent Final Adoptions

260:55-1-6. Multiple disability claims [REVOKED]

In the event of a second eligible disability claim within the period of the first claim:

- (1) the second claim must meet the definition of disability, and
- (2) even though the second claim has no physical relationship to the first claim, the two will be combined so as to form one continuous disability period.

260:55-1-7. Recurrent disability [REVOKED]

(a) **Recurrent disability.** A recurrent disability is a disability related to or due to the same cause of a prior disability for which the employee received a monthly benefit:

- (1) A recurrent disability is treated as part of the prior disability if:
 - (A) the employee returns to his regular occupation full time for less than six [6] months, and
 - (B) performs all the material duties of his occupation.
- (2) If the employee returns to his regular occupation full time for six [6] months or more, a recurrent disability will be treated as a separate disability.

(b) **Lump sum settlement.** The recurrent disability provisions do not apply in the event of a lump sum settlement payment.

260:55-1-8. Partial disability [REVOKED]

(a) **Partial disability.** If a person is performing at least one, but not all, of the material duties of any occupation, and is earning less than eighty percent [80%] of pre-disability base compensation, that person is considered to be partially disabled. The partial disability must result from the same cause as the disability. Proof of partial disability must be received within thirty one [31] days after the end of a period during which disability benefits were paid in order to be eligible for monthly partial disability benefits.

(b) **Payment of benefits for partial disability.** Partial disability benefits are payable, after total disability, for up to twenty four [24] months, or until recovery, or until maximum benefit limits as set out at 260:55-1-11 are met as defined, or until employee's gross rate of compensation reaches eighty percent [80%] of pre-disability base gross rate of compensation, whichever occurs first. Partial disability benefits are also subject to offsets described at 260:55-1-12.

260:55-1-9. Preexisting conditions [REVOKED]

(a) **Unavailability of benefits due to preexisting conditions.** No benefits are payable for any disability caused by a preexisting condition.

(b) **Non-applicability of preexisting conditions.** A condition will no longer be considered preexisting after the disabled person has been actively at work at his usual job for five [5] consecutive days following the expiration of:

- (1) A one hundred eighty [180] day period following the EOD date during which the employee has not received medical care, diagnosis, consultation or treatment, or

taken prescribed drugs or medicines for the preexisting condition, or

- (2) A three hundred sixty [360] day period following the EOD date.

260:55-1-10. Proof of claim [REVOKED]

(a) **Notice.**

(1) Written notice of claim for disability benefits must be given to the disability claims administrator within sixty [60] days after the date disability starts. For good cause shown, EGID's Administrator may waive the sixty [60] day requirement. If that is not possible, EGID must be notified as soon as it is reasonably possible to do so.

(2) No claim may be reopened when request is made more than one [1] year after benefits have ended for any reason.

(b) **Proof.**

(1) Proof of the claim, as specified by EGID, must be given to the third party administrator no later than one [1] year after the start of disability. Proof must cover the severity and extent of the disability and the reasons the employee is unable to perform the duties of his/her position.

(2) The employee must provide proof of continued disability and regular attendance of a physician within thirty [30] days following the request for proof. Regular care of a physician means appointments with the physician at least once per month. Less frequent appointments may be approved by EGID.

260:55-1-11. Duration and amounts of benefits [REVOKED]

(a) **Determination of monthly disability benefits.** To determine monthly disability benefits:

(1) Multiply the employee's base compensation by sixty percent [60%], subject to short term and long term benefit maximums as established by the Board.

(2) Deduct any benefit offsets.

(3) Monthly benefit will be (1) minus (2), subject to any minimum long term disability benefit as established by EGID.

(b) **Prorating of benefit for part of a month.** Any benefit that is payable for part of a month will be prorated using the number of days in that month as the denominator and the number of days of disability during that partial month as the numerator.

(c) **Cooperation required.** Continued benefits shall be contingent upon cooperation and participation in the rehabilitation program herein.

(1) In order to remain eligible for long term benefits, the insured must make application for Social Security benefits by the seventh [7th] month of disability and continue pursuing Social Security benefits until the appeals process is exhausted. Refusal to appeal denial of Social Security benefits through the entire appeals process is grounds for termination of benefits. Exceptions may be granted by EGID in certain cases where application for

Social Security benefits is not practical due to the type of disability.

(2) If, after twenty four [24] months of disability, the Social Security Administration has not deemed the insured eligible for Social Security disability benefits, the insured will no longer be eligible for benefits from this plan.

(3) Exceptions to (c), (1), and (2), above may be granted by EGID on a case-by-case basis.

(d) **Mental health and substance abuse.** Disability claims due to mental health disorders or substance abuse are limited to twenty four [24] months per disability.

(1) Provided, however, if the employee is confined in a hospital, as defined in 260:50-10-2, of these rules, at the end of the twenty four [24] month period, benefits will be paid for the length of that confinement. If the employee continues to be totally disabled upon discharge from the hospital, the monthly benefit will be payable for a period not to exceed ninety [90] days. If the insured employee is reconfined during this recovery period for at least fourteen [14] consecutive days, the monthly benefit will resume during that confinement and one additional recovery period not to exceed ninety [90] days.

(2) Provided, also, that each employee shall have a lifetime maximum of no greater than sixty [60] months of disability benefits for all mental or substance abuse disorders; however, other maximums apply, and in no event shall benefits exceed the maximums listed in 260:55-1-11 of this section.

(e) **Payment of benefits monthly.** Benefits are paid monthly subject to the maximums listed below. These maximums apply to all disabilities, but are subject to (b) and (d) of this section. These maximums are computed from the first [1st] day of disability.

(1) Less than one year of service: 6 month maximum coverage

(2) From one to five years of service:

(A) Under age 66 at disability—24 month maximum coverage

(B) at age 66 at disability—21 month maximum coverage

(C) at age 67 at disability—18 month maximum coverage

(D) at age 68 at disability—15 month maximum coverage

(E) at age 69 or over at disability—12 month maximum coverage

(3) More than five years of service:

(A) Under age 60 at disability—coverage to age 65

(B) at age 60 at disability—60 month maximum coverage

(C) at age 61 at disability—48 month maximum coverage

(D) at age 62 at disability—42 month maximum coverage

(E) at age 63 at disability—36 month maximum coverage

(F) at age 64 at disability—30 month maximum coverage

(G) at age 65 at disability—24 month maximum coverage

(H) at age 66 at disability—21 month maximum coverage

(I) at age 67 at disability—18 month maximum coverage

(J) at age 68 at disability—15 month maximum coverage

(K) at age 69 or over at disability—12 month maximum coverage

260:55-1-12. Benefit offsets [REVOKED]

(a) **Offset by benefits received from other sources.** The disability benefit due from this plan shall be offset by benefits received from other sources. These sources are:

(1) Any sick leave benefits for which the employee is eligible.

(2) Social Security benefits as follows:

(A) Any amount of primary disability benefits provided under the United States Social Security Act for which the employee is eligible because of this disability; and

(B) Any amount of primary and/or family retirement benefits provided under the United States Social Security Act which the employee receives.

(C) The following benefits under the Social Security Act are not to be considered offsets under this program:

(i) Social Security benefits effective prior to the established date of disability, unless awarded as a result of the same disability;

(ii) Social Security widow's/widower's benefits not connected to the claimant's disability; and

(iii) benefits awarded under the Supplemental Security Income Program.

(3) Any benefits received under the provisions of State of Oklahoma or county retirement systems, except those benefits which began prior to onset of disability.

(4) Benefits related to the disability provided by another group plan, including Veteran's Administration (VA) benefits. Such benefit becomes due as a result of the disability and not by a voluntary election to receive the benefit. This does not include:

(A) plans funded entirely by employee contribution;

(B) plans where payment of these benefits reduce the benefit the claimant would be due at a normal retirement age; or

(C) payments for conditions established one [1] year or more, prior to the established date of this disability claim. This does not include a profit sharing plan, a 401K, a thrift plan, an Individual Retirement Account, stock ownership plan, tax sheltered annuity or any benefits from a non-qualified deferred compensation plan.

(5) Benefits related to this disability that are provided under any state's Worker's or Workman's Compensation

Permanent Final Adoptions

Law, any occupational disease law, or any other similar act or law.

(6) Any salary, wages, holiday pay, commissions or similar earnings the employee receives from any gainful employment, including salary increases as well as shared or annual leave payments. Neither longevity pay nor one-time bonuses are considered offsets.

(7) Subrogation (loss of earnings for employee only).

(8) Fifty percent [50%] of any earnings while partially disabled or during rehabilitative employment prior to final release.

(9) Any overpayment of previous disability payments.

(10) Any unemployment compensation benefits.

(b) **Non-reduction of benefits due to increases in other benefits.** Once a disability benefit begins, monthly benefits will not be further reduced due to any statutory or cost of living increases payable from pension or pension disability programs, Social Security or Workers' Compensation.

(c) **Lump sum payments.** If any benefits from the sources mentioned in (a) of this section are paid in a lump sum, EGID will prorate the benefits on a monthly basis, either over the period for which the benefit is established or over the actuarially expected life time of the employee, if no time period is established.

(d) **Payment of any overpayment or underpayment.** Benefits will be estimated if they have not yet been awarded, have not been denied or have been denied and the denial is being appealed. Any overpayment or underpayment that results from estimating these benefits will be repaid by the responsible party after the actual benefit is determined.

260:55-1-13. Payment of benefits [REVOKED]

(a) **Payment of benefits to employee only.** All benefits due to the employee from the disability plan are payable only to the employee. If the benefit is payable to an employee who is a minor or who is not competent, EGID may only pay the court appointed guardian or conservator. In the event of the employee's death, payment of any benefits still outstanding shall be made to the designated beneficiary or to the employee's estate.

(b) **Payment of benefits to another party other than the employee.** If EGID pays benefits to a party other than the employee as specified in (a) of this section or as required by law, EGID shall be deemed to have discharged its full responsibility with respect to those benefits.

(c) **Rehabilitation services.** Documented expenses payable for rehabilitation services may be paid directly to the providers of such services or reimbursed to third party administrator; these payments shall not reduce the monthly disability benefits mentioned at 260:55-1-12.

(d) **Benefits are not assignable.** These benefits are not assignable.

260:55-1-14. Direct deposit and insurance premium deductions [REVOKED]

(a) All disabled employees receiving disability benefit payments from EGID shall be required to receive monthly disability payments via electronic fund transfers to checking or

savings account in a bank, credit union or savings and loan designated by the employee. The employee and receiving institution must complete the form prescribed for this purpose by EGID. In the event the electronic fund transfer creates an undue hardship on the employee, the employee may make application to EGID to request a waiver of this requirement. The waiver will be granted only upon good cause shown when it is determined to be in the best interest of the employee. EGID may also waive this requirement when it is necessary in the best interest of EGID to do so.

(b) In addition to all other required deductions, premiums for insurance coverage provided to disabled employees and their dependents as authorized at Title 74 Oklahoma Statutes Section 1332(A) and 1332.1(D) shall be deducted from disability benefit payments made pursuant to this Chapter.

260:55-1-15. Lump sum settlement [REVOKED]

EGID may authorize a lump sum settlement of a disability claim if mutually agreed upon by the employee and EGID's Administrator. Such agreement shall preclude the employee from receiving any future benefits for the disability for which the lump sum settlement is made.

260:55-1-16. Examination [REVOKED]

EGID, at its own expense, with travel reimbursement as set out by statute, will have the right and opportunity to have an employee whose injury or sickness is the basis of a disability claim examined by a physician or vocational expert of its choice. This right may be used as often as reasonably required.

260:55-1-17. Rehabilitation [REVOKED]

(a) **Participation by any person in rehabilitation services.** Any person submitting a claim under the Disability Plan shall be required to cooperate fully with all aspects of the rehabilitation services provided herein as a condition of receiving disability benefits.

(b) **Disabled employee receiving long term benefits.** A disabled employee who is receiving long term disability benefits may be able to return to work on a limited basis. To encourage a return to productive employment, EGID will pay the employee his/her regular monthly long term disability benefit, reduced by only fifty percent [50%] of the income from rehabilitation employment, subject to partial disability provisions as set out at 260:55-1-12(8). If the employee becomes totally disabled again, while receiving partial disability benefits, his/her regular long term disability benefit will resume without a new eligibility period, except as limited by 260:55-1-7 and 260:55-1-8.

260:55-1-18. Suspension or termination of benefits [REVOKED]

After notice and opportunity for a hearing according to the Oklahoma Administrative Procedures Act and these rules, disability benefits may be suspended or terminated for failure to:

- (1) Fully cooperate with or implement the rehabilitation plan;
- (2) Submit to examination by a physician selected by EGID;
- (3) Supply recertification by a physician;
- (4) Cooperate in the repayment of overpayments; or
- (5) Otherwise comply with the requirements of this plan.

260:55-1-19. Termination of benefits [REVOKED]

(a) **Termination of benefits.** Disability benefits will cease on the occurrence of the earliest of the following events:

- (1) The date the disability ends;
- (2) The date the employee dies;
- (3) The end of the maximum benefit period;
- (4) As provided at 260:55-1-17 and 260:55-1-18.

(b) **Participation in the Disability Plan ends when employee's current employment ceases.** An employee's participation will end when current employment ceases. Coverage may be continued in case of layoff or leave of absence as described in the section on eligibility date. EGID will operate the plan according to the provisions outlined so as not to discriminate unfairly among employees.

260:55-1-20. Termination of coverage [REVOKED]

Employees cease to be insured under the Disability Plan on the earliest of the following dates:

- (1) The date the Disability Plan terminates;
- (2) The date employment terminates. Cessation of active employment will be deemed termination of employment, except:
 - (A) The insurance will be continued for a disabled employee during the period during which the employee remains disabled.
 - (B) EGID may continue the employee's insurance, subject to the following:
 - (i) Insurance may be continued for the time shown in the policy specifications for an employee on furlough or temporarily laid off; or
 - (ii) EGID shall act so as not to discriminate unfairly among employees in similar situations.
- (3) Waiver of disability coverage pursuant to 74 O.S. §1308.3.

260:55-1-21. Termination of plan [REVOKED]

Termination of the disability plan under any conditions will not prejudice any payable claim which occurs while this plan is in force.

260:55-1-22. Retention of other insurance [REVOKED]

(a) **Authorization for deduction of premiums.** If eligible, the employee may elect to continue participation in the Oklahoma Employees Insurance Plan by authorizing deduction

of premiums due. In the event the premium is more than the benefits being received by the employee, or in the event the benefits are suspended, EGID may accept remittance from the employee for the premium due. All premiums shall be at the rate and under such conditions as established by EGID.

(b) **Disabled employee not receiving disability benefits.** Dependent Health coverage will be continued for disabled employees during any period of time the employee is qualified as disabled but not receiving disability benefits. [74 O.S. §1332.1(D)]

(e) **Deduction of premiums.** All dependent health premiums due and owing shall be deducted by EGID from the first retroactive disability benefit payment and each payment thereafter. [74 O.S. §1332.1(E)]

260:55-1-23. Recovery of FICA contributions [REVOKED]

EGID is hereby authorized to recover FICA contributions from the employer, when appropriate.

260:55-1-24. Insurance/Benefits Coordinator [REVOKED]

Any entity participating in the Disability Plan shall appoint an Insurance/Benefits Coordinator to explain the benefits to the employee and aid the claimant in providing the necessary information for claims to be processed.

260:55-1-25. Exclusions [REVOKED]

Benefits will not be provided for any disability that is caused by:

- (1) war or any act of war, whether such war is declared or undeclared;
- (2) intentionally self inflicted injuries of any kind while sane or insane;
- (3) injuries sustained by or during the commission or attempted commission of an assault or felony; or
- (4) active participation in a riot.

260:55-1-26. Penal institution [REVOKED]

No benefits are payable for that portion of any period of disability when the disabled person is confined in a penal or correctional institution for conviction of a criminal or other public offense.

260:55-1-27. Rules, cumulative [REVOKED]

Nothing in this chapter shall be read, interpreted, understood or applied so as to affect the validity and enforceability of any additional requirements, statutes, rules or regulations of any other governmental entity, public agency or instrumentality which may be otherwise applicable to those transactions, conduct and facilities regulated herein. This chapter shall not be deemed cumulative and supplemental but shall replace all previously promulgated rules of this agency.

Permanent Final Adoptions

260:55-1-28. Amending of rules [REVOKED]

~~This chapter may be amended or repealed from time to time and new rules adopted by EGID pursuant to the Administrative Procedures Act.~~

GIST/ANALYSIS:

The proposed amendments modify the general information and provisions relating to the transfer, disposal, and acquisition of surplus property. The Definitions section was modified to eliminate terms that are not used in the Surplus Property chapter. The absolute ban on donating property has been removed. Donations of surplus property to for-profit business entities or to individuals will continue to be prohibited. A streamlined process for the methods of disposal for surplus property has been proposed with the recommendation of the department Vice President, as approved by the CEO or designee, and by a vote of at least five members of the Board of Directors. A statement has been added to specify payments made by the public for purchased property via online auction shall be in accordance with the particular auction website's terms. Other general clarifications were made.

CONTACT PERSON:

Tamara Jahnke, Assistant General Counsel, Grand River Dam Authority, 9933 E. 16th Street, Tulsa, OK 74128.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

300:15-1-1. Purpose

This chapter provides general information and provisions pertaining to the transfer, disposal and acquisition of Grand River Dam Authority surplus property ~~for use by state agencies, authorized entities, individuals and business entities.~~ Pursuant to ~~74 O.S.Supp.2005, § 62.3(D)~~ 82 O.S. § 862.1 (6), the Grand River Dam Authority is exempt from the provisions of the Oklahoma Surplus Property Act. These rules are promulgated to ensure that the Authority's surplus property is disposed of at fair market value, in an independent and ethical manner, and that the property or the value of the property has not been misrepresented.

300:15-1-2. Definitions

The following words and terms when used in this chapter shall have the following meanings, unless the context clearly requires otherwise:

"**Authority**" or "**GRDA**" means the Grand River Dam Authority.

~~"Authorized signature" means the signature of a state employee duly authorized by the chief administrative officer of a state agency to sign forms on behalf of such agency for submission to the Authority.~~

"**Business entity**" means an individual, partnership, business trust, cooperative, association, corporation or any other firm, group or concern which functions as a separate entity for business purposes.

~~"Cannibalize/Cannibalization" means to take salvageable parts from (as a disabled machine) for use in building or repairing another machine; or to make use of (a part taken from one thing) in building or repairing something else.~~

~~"CEO" means the Chief Executive Officer of the GRDA.~~

~~"Fiscal year" means the period of time from July 1 of a calendar year through June 30 of the succeeding calendar year.~~

~~"Form" means a document prescribed by the Authority's General Manager to be used by state agencies to provide information to the Authority.~~

~~"Inventory" means an itemized list of tangible assets owned by the Authority.~~

~~"OMES" means the Office of Management and Enterprise Services.~~

"**Proceeds**" means funds derived from the sale of surplus property.

"**Public auction**" means either a tangible event at a public location or an electronic event which is advertised and made available to the public via the Internet.

"Salvage or scrap" means property which, because of its worn, damaged, deteriorated, incomplete condition or specialized nature has no reasonable prospect of sale or use as designed, but has some value in excess of its basic material content.

"Supervisor" means the person in the Grand River Dam Authority designated by the Authority's General Manager to oversee the Surplus Property Program.

"Trade-in" means equipment which is exchanged on replacement equipment.

"Vehicle" or **"equipment"** means automobiles, station wagons, vans, pickups, trucks, buses, other modes of transportation and heavy equipment.

300:15-1-3. Prohibitions

(a) **Donations of state property.** ~~Donations of state Surplus property are prohibited.~~ may not be donated to for-profit business entities and individuals.

(b) **Sales to state employees.** The sale of state property to GRDA employees is prohibited unless items are sold at announced public sales or auctions.

SUBCHAPTER 3. DECLARATION AND APPROVAL OF SURPLUS PROPERTY

300:15-3-1. Declaring state property surplus

(a) **Declaration and approval.** The Authority's Board of Directors shall ~~determine when~~ declare the Authority's ~~personal property is~~ surplus and not necessary to the Authority's business ~~shall declare same in Open Meeting.~~ The by an affirmative vote of at least five (5) Directors, shall be required to declare property surplus and that it is not necessary to the business of the District. [82 O.S. § 874]

(b) **Request for approval to sell or transfer surplus property.** The Authority's personal property shall not be destroyed, scrapped, sold, transferred, traded in, traded, discarded, donated or otherwise disposed of without prior written approval from the ~~General Manager~~ CEO, or his/her designee. This rule applies to and includes any residue that may be remaining from cannibalization of property.

(c) **Surplus property transfer form.** To request official approval to dispose of surplus property, ~~Assistant General Managers or a designee of the General Manager~~ Vice President shall submit a surplus property transfer form to the ~~General Manager~~ CEO, which shall include the following information:

- (1) The Division or Department within the Authority where the property is located.
- (2) A desired method of disposal of the surplus property (i.e. public auction or sealed bid).
- (3) The reason the property should be declared as surplus property, which may be stated as:
 - (A) No longer needed to perform the duties intended; or
 - (B) Broken, cost to repair not economical; or

(C) Obsolete. Not compatible with newer equipment; or

(D) Other, which shall be followed by a specific explanation.

(4) The inventory control number, if any, assigned to the surplus property item;

(5) A description of the surplus property item, including serial, model or other identification numbers, whenever available;

(6) A general statement as to the condition of the surplus property item (i.e. excellent, good, fair, poor, damaged, scrap, missing parts, etc.);

(7) Any known defects or enhancements;

(8) An estimate, current value, suggested selling price or minimum acceptable price;

(9) Any other information which may assist the efficient disposal of the property.

(~~10~~) Additional information for surplus vehicles and equipment. When the Authority desires to dispose of vehicles or equipment, the following information, in addition to the information listed in 300:15-3-1(c) above, shall be included on the form:

(~~1~~) Make, model and model year;

(~~2~~) Body style, load rating, seats or passenger capacity, number of cylinders, number of drive wheels;

(~~3~~) Vehicle options (i.e. power steering, power brakes, etc.);

(~~4~~) Mileage or operation hours;

(~~5~~) Vehicle Identification Number (VIN).

(~~d~~) **Approval by the Authority.** The Authority's ~~General Manager~~ CEO, or his designee, shall review the form and decide whether to seek a declaration from the GRDA Board of Directors for a declaration that the property is surplus and shall be disposed.

300:15-3-2. Vehicles, equipment and office inventory for disposal through OMES Surplus Property Division

(a) GRDA surplus vehicles, equipment and office inventory ~~may~~ shall be disposed of by the ~~Department of Central Services~~ OMES' Surplus Property Division at the discretion of the GRDA Board of Directors in accordance with Rules promulgated by the ~~State Department of Central Services~~.

(b) ~~Vehicles, equipment and office inventory to be disposed of by the Department of Central Services includes, but is not limited to, the following:~~

- (1) Passenger vehicles;
- (2) Vans;
- (3) Bucket trucks;
- (4) Trucks;
- (5) Computer equipment;
- (6) Office furniture;
- (7) Scrap metal;
- (8) Tractors;
- (9) Brush hogs;
- (10) Bulldozers;
- (11) Heavy equipment.

Permanent Final Adoptions

SUBCHAPTER 5. SALE OR DISPOSAL OF SURPLUS PROPERTY

300:15-5-1. Methods of disposal of surplus property

(a) The method of disposal of surplus property shall be ~~recommended~~approved by the ~~department Vice President and approved by the CEO or designee and by a vote of at least five (5) members of the Authority's Board of Directors~~ prior to disposal of the property. [82 O.S. § 874]

(b) ~~Methods of disposal of surplus property shall be:~~

- (1) ~~Transfer to a state agency or authorized entity.~~ Property is transferred to another state agency or authorized entity with or without charge as mutually agreed by both parties. A transfer to an authorized entity (i.e. counties, cities, rural fire departments, and rural water districts) shall be made at market value.
- (2) ~~Scaled bid.~~ Property is sold by sealed bid.
- (3) ~~Public auction.~~ Property is sold at a live or online public auction. Such auction shall be open to individuals and business entities. The time, date and location of such auction shall be advertised in a local newspaper and published on the Authority's website.
- (4) ~~Trade-in.~~ Property is exchanged as trade-in for replacement equipment.
- (5) ~~Fly Ash.~~ Fly Ash will be sold at the best available market price.
- (6) ~~Hydro, or Green Credits.~~ Hydro, or green credits will be sold at the best available market price.
- (7) ~~Disposal by other means.~~ Property may be disposed of by other means if deemed to be in the best interest of the Authority by the Board of Directors.

300:15-5-2. Sales to related parties

(a) A related party is defined as someone who may fit into any of the following categories pertaining to the surplus property in question:

- (1) Has purchasing authority.
- (2) Has maintenance authority.
- (3) Has disposition or signature authority.
- (4) Has authority regarding the disposal price.
- (5) Has access to restricted information.

(b) ~~Related parties may not purchase the Authority's surplus property.~~

300:15-5-4. Payment provisions

General requirements for purchases. Payment made by the public shall be at the time of purchase and prior to removal of the property purchased. A private business shall provide a business tax identification number and a tax exempt certificate, if applicable, at the time of payment. Otherwise, local sales tax shall be charged. Payment may be in the form of cash, certified funds, business check (not to exceed \$2,000.00), money order, cashier's check or credit card approved for use by the Authority. Payments made by the public for property purchased through online auction (i.e. OMES Surplus Property and gov-deals.com) shall be in accordance with the applicable auction website's payment methods and conditions for sale and pick

up. All property sold at live auction must be picked-up by the buyer within ten (10) days following the sale.

GIST/ANALYSIS:

The proposed revisions detail the procedures for obtaining a license to encroach on real property owned by Grand River Dam Authority. The fair market value definition has been expanded to include a standardized fair market value. The rules have been revised to state an applicant may choose a standardized fair market value set by the Board of Directors or submit a fair market value appraisal to the Board of Directors in determining the fair market value. The fair market value of the license will be reviewed every 10 years. A License to Encroach may not be issued until such time as the Board has determined the fair market value of the encroachment and all applicable fees have been paid. The license term has been extended.

CONTACT PERSON:

Tamara Jahnke, Assistant General Counsel, Grand River Dam Authority, 9933 E. 16th Street, Tulsa, OK 74128.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. PURPOSE AND DEFINITIONS

300:25-1-2. Definitions

The following words or terms when used in this Chapter shall have the following meaning unless the context indicates otherwise.

"**Adjacent Property**" means that property which is immediately contiguous and appurtenant to the GRDA property upon which the improvement is built.

"**Board**" means the Board of Directors of the Grand River Dam Authority.

"**Fair market value**" means the price in cash a willing but not obligated tenant would pay, and a willing but not obligated landlord would charge for the same or similar lands for the highest and best legal use of the property. The values for separate properties may be used to determine a standardized fair market value.

"**GRDA land(s)**" means that real property owned by the Grand River Dam Authority.

"**Improvements**" means buildings, ~~retaining walls,~~ or other permanent or temporary structures or developments located on or attached to GRDA lands.

SUBCHAPTER 3. POLICY, ISSUANCE, TERMINATION AND TRANSFER

300:25-3-1. License to encroach policy

While reserving the right to refuse any or all applications for a License to encroach upon GRDA lands, the Board may issue licenses to encroach for improvements built prior to the date set forth in 82 O.S. 2005, § 874.2 June 1, 2005 upon GRDA lands to assist landowners with title and marketability issues. No License will be issued for improvements built subsequent to the date set forth in 82 O.S. 2005, § 874.2 June 1, 2005.

300:25-3-3. Issuance and termination of license to encroach

(a) An appraisal from an Oklahoma licensed appraiser may be presented to the Board of Directors for review and approval or an Applicant may agree to a standard cost per square foot set by the Board of Directors. Except as otherwise provided herein, all Licenses to encroach shall be appraised for fair market value.

(b) Applications for a License to Encroach shall state the number of years for which the Applicant is seeking the License. For instance, the Applicant may request that the License is sought for any number of years up to and including ninety-nine (99)30 years.

(c) A License to encroach shall not be issued until such time as the Board has determined the value of the encroachment fair market value as determined by the appraisal provided for herein together with all costs associated with the License, including but not limited to third party survey and appraisal fees, application fees, or appraisal fees shall have been paid by the Applicant.

(d) All Licenses to encroach shall automatically terminate upon destruction or removal of the improvement on GRDA land. An improvement may be maintained, but it may not be rebuilt if destroyed.

(e) All Licenses to encroach shall terminate upon default of a holder of a license to pay any monies due.

(f) The term (number of years) of a License to encroach shall be at the sole discretion of the Board but may not exceed a maximum of ninety-nine (99)thirty (30) years.

(g) At the end of the term, GRDA may require that the property be returned to its original condition.

(h) Current Licenses in effect may be extended without further Board action upon request and payment of application fee to ninety-nine (99) years from the original date the license was issued.

SUBCHAPTER 5. MISCELLANEOUS

300:25-5-3. License violations

Violation of any of the terms and conditions of a License to encroach or failure to pay any amounts due related to the License on GRDA land shall subject the holder of the License to legal or administrative action or both at the option of the Board to collect rent or damages or any other remedy as provided by law.

300:25-5-4. Determination of valueAppraisals

(a) An Applicant may obtain a separate appraisal. An appraisal for purposes of licensing the improvement to encroach upon GRDA land shall be prepared by an Oklahoma licensed land appraiser.

(b) Appraisals will be made in accordance with Uniform Standards of Professional Appraisal Practices.

(c) The appraisers shall determine the "fair market value" of the land without any improvement. For purposes of this section, fair market value is the price in cash a willing but not obligated tenant would pay, and a willing but not obligated landlord would charge for the same or similar lands for the highest and best legal use of the property. In determining fair market value, the appraisers shall consider the following:

- (1) Present land use;
- (2) Amount of GRDA land upon which the improvement sits;
- (3) Cash rental price of comparable land; and
- (4) The term (number of years) of the License

(d) Appraisals are public record under the Open Records Act.

(e) In lieu of appraisals for each property, the Board of Directors may determine a standard value per square foot for all encroachments subject to Title 300, Chapter 25. This standard value may be used for each encroachment or the Applicant may submit their own appraisal for review by the Board.

GIST/ANALYSIS:

The proposal modifies the requirements for legal service of instruments related to administrative proceedings before the Department. This change is necessary because experience in providing legal service of instruments has found that Respondents who are licensed by the Department have avoided legal service and delayed administrative proceedings by refusing or avoiding delivery of the service instrument. The effect of the Rule change will be expedited execution of legal service of instruments. This proposal modifies the purpose to include eligibility appellate procedures for those Chapters under Title 310, which provide for denials of eligibility for a license, certification, or permit based on criminal history. A new rule will implement 59 O.S. § 4000.1 relating to processes to request an initial determination of whether an applicant's criminal history record would potentially disqualify him or her from obtaining an occupational license or certification. This process will apply to all occupational licenses, permits or certifications issued by the Oklahoma State Department of Health. A new rule will implement 59 O.S. § 4100.8 relating to processes for active duty military personnel and their spouses to request an expedited temporary, reciprocal or comity license or certification for a currently held valid license or certification.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-9444, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE FINAL ACTIONS DESCRIBED
HEREIN, THE FOLLOWING RULES ARE
CONSIDERED FINALLY ADOPTED AS SET FORTH
IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN
EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 21. RULES OF PROCEDURE GOVERNING INDIVIDUAL PROCEEDINGS

310:2-21-4. Service of instruments initiating an administrative proceeding

Any instruments initiating an administrative proceeding ~~shall must~~ be served ~~upon~~ every named Respondent ~~in accordance with the provisions of 12 O.S. § 2004(C)(1)(c) by~~ either personal service, certified mail, return receipt requested, restricted delivery, or issuing a report by hand-delivery. If service is being sent by certified mail, return receipt requested, and the intended Respondent refuses to sign the return receipt or otherwise does not sign or is unavailable to sign and accept service through the certified mail at the address identified on Department records, then Respondent is deemed to have been served. A person designated by the Commissioner may be used to accomplish service for the Department. Service of the instrument initiating an administrative proceeding may be made by certified mail, return receipt requested, restricted delivery. If service is by personal service, the person serving the instrument initiating an administrative proceeding shall file proof of service with the Hearing Clerk within twenty (20) days of service or before the date of the first hearing, whichever is sooner. If an inspection is performed, the report and/or the notice to correct violations issued by the inspectors/sanitarrians to the license holder or to the person in charge, requesting a signed acknowledgement of receipt of the report or notice, shall constitute service of the report and/or notice. Acknowledgement in writing by the Respondent or appearing at the hearing without objection to service is equivalent to service.

SUBCHAPTER 29. CRIMINAL HISTORY BACKGROUND CHECKS

310:2-29-1. Purpose

These rules implement the Long Term Care Security Act as established at Title 63 O.S. Section 1-1944 et seq., as amended, and eligibility appellate procedures for those Chapters under Title 310, which provide for denials of eligibility for a license, certification, or permit based on criminal history.

310:2-29-5. Appeals

(a) **Notice.** A determination by the Department that finds an applicant not eligible for a license, certification, permit or employment will result in a notice to the applicant to include the reasons why the applicant is not eligible for employment and a statement that the applicant has a right to appeal the decision made by the Department regarding the employment

eligibility. The notice shall also include information regarding where to file and describe the appellate procedures [63 O.S. § 1-1947(K)(2)] include the reasons why the applicant is not eligible for license, certification, permit or employment and a statement that the applicant has a right to appeal the decision made by the Department regarding the eligibility. The notice shall also include information regarding where to file and describe the appellate procedures.

(b) **Days to initiate an appeal.**

(1) Pursuant to Title 63 O.S. 1-1947(T)(1), any individual who has been disqualified from or denied employment by an employer pursuant to Title 63 O.S. Section 1-1947 may file an appeal with the Department within thirty (30) days of the receipt of the notice of disqualification. An applicant under 63 O.S. 1-1947(T)(1) may receive an extension of the thirty (30) days allowed to appeal where good cause is shown.

(2) An individual who has been found not eligible for a license, certification, or permit based on their criminal history may file an appeal with the Department at any time following receipt of the notice of disqualification.

(c) **Types of appeals.** An applicant may appeal the determination by:

(1) Challenging the finding that the applicant is the true subject of the results from a name-based registry background check;

(2) Challenging the criminal history record as inaccurate; ~~or~~

(3) Requesting a waiver which gives the applicant the opportunity to demonstrate that the applicant should be allowed to work because he or she does not pose a risk to patients, facilities or their property; or

(4) Requesting a reconsideration of eligibility, which may be considered no sooner than twelve (12) months from the previous appeal of a determination of ineligibility.

(d) **Inaccuracy of criminal history record.** To demonstrate that the criminal history record is inaccurate, the applicant shall submit to the Department written documents, issued and certified by a governmental entity that demonstrate that the information contained in the criminal history report is inaccurate.

(e) **Criteria for consideration in a waiver review.** ~~Pursuant to Title 63 O.S. Section 1-1947(T)(2), the~~The Department shall consider the following criteria in considering whether the applicant merits a waiver of the applicant's determination of ineligibility:

(1) The time elapsed since the disqualifying criminal conviction, whether the applicant has fulfilled the sentence requirements, and whether there are any subsequent arrests or convictions of any nature;

(2) Any extenuating circumstances such as the offender's age at the time of conviction, substance abuse history and treatment, or mental health issues and treatment;

(3) Rehabilitation as demonstrated by character references and recommendation letters from past employers,

the applicant's record of employment history, education, and training subsequent to conviction; ~~and~~

(4) The relevancy of the particular disqualifying information with respect to the proposed employment of the individual to include the job type and duties, ~~and~~ the extent to which the applicant has unsupervised access to service recipients; ~~and~~

(5) For appeals under the authority of 63 O.S. 1-1947(T)(2), whether the crime was committed against a vulnerable child or adult, and whether the conviction was related to an employer subject to the requirements of the Long Term Care Security Act.

(f) **Where to file.** The applicant's appeal shall be submitted in writing to the Administrative Hearings Clerk for the Oklahoma State Department of Health, 1000 Northeast 10th Street, Oklahoma City, OK 73117, and shall address the criteria specified in (d) of this Section and how the applicant merits a waiver of the disqualification from employment.

(g) **Conduct of hearing.** The appeal shall be conducted as an individual proceeding pursuant to this Chapter and the Administrative Procedures Act.

SUBCHAPTER 37. INITIAL DETERMINATION ON CRIMINAL HISTORY AS A DISQUALIFICATION FOR LICENSE OR CERTIFICATION

310:2-37-1. Purpose

These rules implement Section 4000.1 of Title 59 (2019) of the Oklahoma Statutes relating to processes to request an initial determination of whether an applicant's criminal history record would potentially disqualify him or her from obtaining an occupational license or certification. This process shall apply to all occupational licenses, permits or certifications issued by the Oklahoma State Department of Health.

310:2-37-2. Requesting a determination

The process for requesting a determination of whether an applicant's criminal history record would potentially disqualify him or her from obtaining an occupational license, permit or certification is defined in the Oklahoma Statutes at Title 59, Section 4000.1.

310:2-37-3. Fee

The fee for requesting a determination of whether an applicant's criminal history record would potentially disqualify him or her from obtaining an occupational license, permit or certification is forty-five dollars (\$45.00) for each initial determination.

SUBCHAPTER 39. MILITARY RECIPROCITY LICENSURE

Permanent Final Adoptions

310:2-39-1. Purpose

These rules implement Section 4100.8 of Title 59 (2019) of the Oklahoma Statutes relating to processes to request *an expedited temporary, reciprocal or comity license or certification for their currently held valid license or certification*. This process shall apply to all occupational licenses, permits or certifications issued by the Oklahoma State Department of Health.

310:2-39-2. Requesting a temporary, reciprocal or comity license

Active duty military personnel and their spouses seeking a temporary, reciprocal or comity license shall complete an application as established by the occupational program and shall provide satisfactory evidence of equivalent education, training and experience from another state program. The Department shall evaluate an applicant's *education, training and experience in the manner most favorable toward satisfying the qualifications for issuance of the requested license or certification in this state* [59 O.S. 4100.8(B)].

310:2-39-3. Fee

Pursuant to Title 59 O.S. 4100.8(D), there will be no application fee for a temporary, reciprocal or comity license for active duty military personnel and the license or certification fee for the first period of issuance is waived.

310:2-39-4. Appeals

Pursuant to Title 59 O.S. 4100.8(C), any active duty military applicant, and their spouses, receiving a notice of denial of full licensure or certification shall have the right *to obtain and submit the documentation required to complete full license or certificate requirements in this state* or to appeal the denial *termination pursuant to the Administrative Procedures Act [75 O.S. 250 et seq.] and OAC 310:2-21, relating to Department procedure governing individual proceedings.*

GIST/ANALYSIS:

The proposed updates to 310:9 will require more rapid reporting of the hospital discharge data to the OSDH, the submission of emergency department (ED) discharge data and modernizes existing rules related to notifications and reporting. Due to the ever-increasing need for timely health care data by public health practitioners, facilities researchers, and policy makers we are proposing that discharge data providers (inpatient, outpatient surgery and ambulatory surgery center discharges) submit the required data within 45 days after the end of each calendar quarter (instead of once annually), beginning in 2020.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

310:9-1-2. Definitions.

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Administrator" means the chief executive officer for a facility.

"Ambulatory care data" means data elements required by the Department regarding persons treated by hospitals, free-standing ambulatory surgery centers, or other health care providers, for less than 24 hours.

"Ambulatory surgery center" means a hospital-based or free-standing center providing surgery with patient stays of less than 24 hours, licensed under ~~63 O.S. Supp. 1998 Section 1-704~~ 63 O.S. Section 2657 et seq.

"Board" means Oklahoma State Board of Health.

"Commissioner" means the Commissioner of the Oklahoma State Department of Health.

"Committee" means the Health Care Information Advisory Committee.

"Custom Data Set" means a subset of the Public Use Data File developed by the Department on special request.

"Custom report" means a compilation or study developed by the Department on special request.

"Data element" means the specific information collected and recorded for the purpose of health care and health care service delivery. Data elements include information to identify the individual, the health care provider, the data supplier, the services provided, charges for service, payor source, medical diagnosis, medical treatment and other data as requested.

"Data file" means an electronic file containing data elements.

"Data submission manual" means a manual developed by the Department containing data elements required to be submitted by information providers.

"Data use agreement" means a document that must be submitted in order to obtain the public use data file or any anonymous patient-level data. The document assures the Department that the user will not attempt to identify or contact any person included in the data set.

"Department" means the Oklahoma State Department of Health.

"Direct Patient Identifiers" Data elements that directly identify a patient (e.g. name, SSN, etc).

"Division" means the Health Care Information Division of the Oklahoma State Department of Health.

"Facility" means hospital or ambulatory surgery center.

"Health care information system" means the system for receipt, collection, analysis, evaluation, processing, utilization and dissemination of health care data established and maintained by the Health Care Information Division pursuant to the Oklahoma Health Care Information System Act.

"Health care provider" means hospitals, nursing facilities, ambulatory surgery centers, and any other health care provider licensed or certified by the Department or any other state agency; doctors as defined in Section 725.2 of Title 59 of the Oklahoma Statutes; or physical therapists, physician assistants, pharmacists, nurses and home health care providers licensed pursuant to the laws of this state.

"Health data" means information relating to the health status of individuals, health services delivered, the availability of health manpower and facilities, and the use and costs of resources and services to the consumer.

"Hospital" means a hospital licensed under 63 O.S. ~~Supp. 1998 Section 1-704~~.

"Hospital discharge data" means data elements required by the Department regarding persons admitted to and discharged from a hospital.

"Identifying information" means information that could uniquely identify an individual.

"Information provider" means all health care providers and the third-party payor or public-supported provider as defined in Section 1-116 of Title 63 of the Oklahoma Statutes.

"Oklahoma Cooperative Annual Hospital Survey" means a voluntary annual survey of all Oklahoma hospitals regarding service and financial information.

"Public use data file" means an electronic file for public use containing data elements from the hospital discharge or ambulatory surgery data file that do not directly or indirectly identify an individual or physician.

"Standard information provider report" means a compilation of data submitted by an information provider that is generated by the Division for the information provider.

"Standard report" means a compilation or study developed to display information on selected topics, published periodically.

"Third-party data processor" means any entity that provides data processing services.

"Third-party payor" means any entity, other than a purchaser, which is responsible for payment either to the purchaser or the health care provider for health care services rendered by the health care provider.

SUBCHAPTER 3. REQUIRED INFORMATION

310:9-3-1. Required information to be collected from information providers

(a) The Department is required by law to collect the following types of information from information providers:

- (1) Financial information including, but not limited to, consumption of resources to provide services, reimbursement, costs of operation, revenues, assets, liabilities, fund balances, other income, rates, charges, units of service, wage and salary data;
- (2) Service information including, but not limited to,
 - (A) occupancy, capacity, and special and ancillary services;
 - (B) Physician profiles in the aggregate by clinical specialties and nursing services;
 - (C) Discharge data, including but not limited to, completed discharge data sets or comparable information for each patient discharged from the facility after the effective date of this act; and
 - (D) Ambulatory care data including, but not limited to, provider-specific and encounter data.

(b) The data elements to be submitted by information providers for hospital inpatient discharges include, but are not limited to the data elements defined in the current version of the National Uniform Bill

(c) The data elements to be submitted by information providers for ambulatory surgery and emergency department

Permanent Final Adoptions

patients include, but are not limited to the data elements defined in the current version of the National Uniform Bill and the CMS-1500

(d) Data file formats that will be accepted include:

- (1) XML format as defined by the Division,
- ~~(2) Standard fixed length ASCII format as defined by the Division,~~
- ~~(3) Other formats agreed upon by OSDH and the data provider prior to submission.~~

(e) Formats containing the appropriate fields without adhering to the appropriate format shall be considered unreadable and will be returned to the provider.

310:9-3-2. Data files

(a) When a data file is received from an information provider, the Department will notify mail the facility administrator a letter acknowledging receipt of the data. ~~A copy of this letter will be sent either to the facility technical contact or the third party data processor who submitted the data file.~~

(b) As hospital discharge or ambulatory care data files are received by the Department, the data will be processed and checked for errors. This process will include error checking for out of range, or invalid data elements as specified in the data submission manual. Upon processing the submitted data file, the Department will send the information provider:

- (1) A standard information provider report developed from the provider's data; and
- (2) A list of errors in that information provider's data file and will request the information provider correct errors associated with their data within 30 days of receipt ~~of said letter~~, electronically ~~or in writing~~, to the Department.

310:9-3-3. Periodic schedule for submission of information

(a) Hospital discharge data files must be submitted to the Department within 60 days after the end of each calendar quarter, beginning calendar year 2020 by May 1 of the following calendar year.

(b) Ambulatory surgery data files must be submitted to the Department within 60 days after the end of each calendar quarter, beginning with calendar year 2020 by March 1 of the following calendar year, beginning March, 2002.

(c) Emergency department data files must be submitted to the Department within 45 days after the end of each month, beginning with calendar year 2020.

(d) The Department may grant an extension on written request from the information provider on a case-by-case basis.

SUBCHAPTER 5. COLLECTION AND RELEASE OF INFORMATION

310:9-5-2.1. Public Use Data File

(a) The Department will annually make available for purchase a Public Use Data File(s) (PUDF) containing a calendar year of record level data with anonymous case files (i.e., direct patient identifiers removed).

(b) The hospital inpatient discharge data PUDF includes the following data elements:

- (1) Record Identifier (Synthetic)
- (2) Patient state of residence
- (3) Patient zip code
- (4) Patient county of residence
- (5) Patient gender
- (6) Patient race
- (7) Patient marital status
- (8) Patient age group
- (9) Hospital ID
- (10) Hospital Type
- (11) Admission year
- (12) Admission month
- (13) Admission day of week
- (14) Discharge year
- (15) Discharge month
- (16) Discharge day of week
- (17) Length of stay in days
- (18) Type and source of admission
- (19) Patient discharge status
- (20) Payer classification
- (21) Total charges
- (22) Diagnosis Related Group (DRG)
- (23) Major Disease Category (MDC)
- (24) Birth weight group
- (25) Admitting diagnosis
- (26) External cause of injury codes (E-code)
- (27) Principal diagnosis
- (28) Other diagnosis codes
- (29) Principal procedure code
- (30) Other procedure codes
- (31) Present upon Admission (POA)

(c) The hospital outpatient surgery data PUDF includes the following data elements:

- (1) Record Identifier (Synthetic)
- (2) Patient state of residence
- (3) Patient zip code
- (4) Patient county of residence
- (5) Patient gender
- (6) Patient race
- (7) Patient marital status
- (8) Patient age group
- (9) Hospital ID
- (10) Admission year
- (11) Admission month
- (12) Admission day of week
- (13) Admission hour
- (14) Discharge year
- (15) Discharge month
- (16) Discharge day of week
- (17) Discharge hour
- (18) Length of stay in days
- (19) Type and source of admission
- (20) Patient discharge status
- (21) Total charges
- (22) External cause of injury codes (E-code)
- (23) Principal diagnosis

- (24) Other diagnosis codes
- (25) Principal procedure CPT code
- (26) Other procedure CPT codes
- (27) Payer classification
- (28) Ambulatory payment classification (APC)
- (d) The ambulatory surgery center data PUDF includes the following data elements:
 - (1) Record Identifier (Synthetic)
 - (2) Patient state of residence
 - (3) Patient zip code
 - (4) Patient county of residence
 - (5) Patient gender
 - (6) Patient race
 - (7) Patient marital status
 - (8) Patient age group
 - (9) Facility ID
 - (10) Admission year
 - (11) Admission month
 - (12) Admission day of week
 - (13) Admission hour
 - (14) Discharge year
 - (15) Discharge month
 - (16) Discharge day of week
 - (17) Discharge hour
 - (18) Length of stay in days
 - (19) Total charges
 - (20) Principal diagnosis
 - (21) Other diagnosis codes
 - (22) Principal procedure CPT code
 - (23) Other procedure CPT codes
 - (24) Payer Classification
 - (25) Ambulatory payment classification (APC)
- (e) The hospital emergency department data PUDF includes the following data elements:
 - (1) Record Identifier (Synthetic)
 - (2) Patient state of residence
 - (3) Patient zip code
 - (4) Patient county of residence
 - (5) Patient gender
 - (6) Patient race
 - (7) Patient marital status
 - (8) Patient age group
 - (9) Hospital ID
 - (10) Admission year
 - (11) Admission month
 - (12) Admission day of week
 - (13) Admission hour
 - (14) Discharge year
 - (15) Discharge month
 - (16) Discharge day of week
 - (17) Discharge hour
 - (18) Length of stay in days
 - (19) Type and source of admission
 - (20) Patient discharge status
 - (21) Total charges
 - (22) External cause of injury codes (E-code)
 - (23) Principal diagnosis
 - (24) Other diagnosis codes

- (25) Principal procedure CPT code
- (26) Other procedure CPT codes
- (27) Payer classification
- (28) Ambulatory payment classification (APC)
- (ef) Entities requesting the PUDF must sign and complete the Data Use Agreement. The completed Data Use Agreement must be included with the request.

310:9-5-3. Standard information provider reports [REVOKED]

~~After the information provider's data is processed, the information provider will receive a standard report that will include summary information regarding the information provider's facility and aggregate comparative information.~~

GIST/ANALYSIS:

The current rules for human subject protection in research describe the boundaries in scope, actions, and authority for the agency's institutional review board and research integrity officer. The proposal will revoke Chapter 10. A modified Subchapter 31, Human Subjects Protection, will be added under Chapter 2, Procedures of the State Health Department.

Permanent Final Adoptions

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS [REVOKED]

310:10-1-1. General purpose [REVOKED]

The Oklahoma State Department of Health is committed to providing an organizational structure in accordance with Title 45 of the Code of Federal Regulations Part 46 (45 C.F.R. Part 46) in order to establish and maintain an environment dedicated to the ethical principles for safeguarding the rights and welfare of the human beings recruited to participate in research activities. The OSDH Institutional Review Board (IRB) has been established to comply with federal regulations to protect the rights and welfare of human research participants. The OSDH IRB has the responsibility to assure that the risks of proposed research are justified by the potential benefits to the participants and to society, and that risks are minimized to the extent possible consistent with sound research design. The OSDH IRB must assure that the risks of research do not fall disproportionately on one group while the potential benefits accrue to another. The OSDH IRB oversees the consent process to assure voluntary and knowing consent to participate in research. Individuals who are particularly vulnerable or whose capacity to consent may be in doubt require additional protection during the consent process. The OSDH IRB must assure that the research is designed to respect individual privacy and preserve the confidentiality of private information. The OSDH IRB has the on-going oversight responsibility of approved research to monitor the welfare of the participants and to determine that the risks and potential benefits remain unchanged. The OSDH IRB may approve, disapprove, or require modifications to research protocols. It may also suspend or terminate its approval of ongoing (previously approved) research.

310:10-1-2. Scope [REVOKED]

This Chapter applies to all individuals at the OSDH engaged in research involving human subjects. The Commissioner of Health retains final authority to determine whether a particular activity is subject to this policy. This Chapter applies to any person paid by, under the control of, or affiliated with the OSDH, such as scientists, trainees, technicians and other staff members, students, fellows, guest researchers, or collaborators at OSDH. Research activities are exempt from this policy if they are determined by the OSDH IRB to meet criteria established in 45 C.F.R. § 46.101, which is incorporated by reference in this Chapter.

310:10-1-3. Definitions [REVOKED]

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Allegation" means any written or oral statement or other indication of possible scientific misconduct made to an institutional official.

"Board" means the Board of Health. **"Commissioner"** means the Commissioner of Health.

"Conflict of interest" means the real or apparent interference of one person's interests with the interests of another person, where potential bias may occur due to prior or existing personal or professional relationships.

"Deciding official" means the institutional official appointed by the Commissioner of Health who makes final determinations on allegations of scientific misconduct and any responsive institutional actions.

"Good faith allegation" means an allegation made with the honest belief that scientific misconduct may have occurred. An allegation is not in good faith if it is made with reckless disregard for or willful ignorance of facts that would disprove the allegation.

"Human subject" means a living individual about whom an investigator (whether professional or student) conducting research obtains data through intervention or interaction with the individual, or through identifiable private information of an individual.

"Inquiry" means gathering information and initial fact finding to determine whether an allegation or apparent instance of scientific misconduct warrants an investigation [42 C.F.R. § 50.102].

"Institution" means the Oklahoma State Department of Health unless the context clearly indicates otherwise.

"Investigation" means the formal examination and evaluation of all relevant facts to determine if misconduct has occurred, and, if so, to determine the responsible person and the seriousness of the misconduct [42 C.F.R. § 50.102].

"IRB" means the OSDH Institutional Review Board established in accord with 45 C.F.R. Part 46 for the purposes expressed in this Chapter.

"IRB approval" means the determination of the IRB that the research has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and federal requirements.

"Minimal risk" means that the probability and magnitude of harm or discomfort anticipated in the research are not greater, in and of themselves, than those ordinarily encountered in daily life or during the performance of routine physical or psychological examinations or tests.

"OHRP" means the Office of Human Research Protections within the U.S. Department of Health and Human Services (DHHS) that is responsible for compliance and oversight relative to the DHHS regulations for the protection of human subjects.

"ORI" means the Office of Research Integrity within the DHHS that is responsible for the scientific misconduct and research integrity activities of the U.S. Public Health Service.

"OSDH" means the Oklahoma State Department of Health.

"PHS" means the U.S. Public Health Service, an operating component of the DHHS.

"PHS regulation" means the Public Health Service regulation establishing standards for institutional inquiries and investigations into allegations of scientific misconduct, which is set forth at 42 C.F.R. Part 50, Subpart A, entitled "Responsibility of PHS Awardee and Applicant Institutions for Dealing With and Reporting Possible Misconduct in Science."

"PHS support" means PHS grants, contracts, or cooperative agreements or applications therefore.

"Research" means a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge. Activities that meet this definition constitute research for purposes of this Chapter, whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

"Research Integrity Officer" means the OSDH official appointed by the Commissioner of Health responsible for assessing allegations of scientific misconduct and determining when such allegations warrant inquiries and for overseeing inquiries and investigations.

"Research record" means any data, document, computer file, computer diskette, or any other written or non-written account or object that reasonably may be expected to provide evidence or information regarding the proposed, conducted, or reported research that constitutes the subject of an allegation of scientific misconduct. A research record includes, but is not limited to, grant or contract applications, whether funded or unfunded; grant or contract progress and other reports; laboratory notebooks; notes; correspondence; videos; photographs; X-ray film; slides; biological materials; computer files and printouts; manuscripts and publications; equipment use logs; laboratory procurement records; animal facility records; human and animal subject protocols; consent forms; medical charts; and patient research files.

"Respondent" means the person against whom an allegation of scientific misconduct is directed or the person whose actions are the subject of the inquiry or investigation. There may be more than one respondent in any inquiry or investigation.

"Retaliation" means any action that adversely affects the employment or other institutional status of an individual that is taken by an institution or an employee because the individual has in good faith, made an allegation of scientific misconduct or of inadequate institutional response thereto or has cooperated in good faith with an investigation of such allegation. Action taken may include an intentional act of omission.

"Scientific misconduct or misconduct in science" means fabrication, falsification, plagiarism, or other practices that seriously deviate from those that are commonly accepted within the scientific community for proposing, conducting, or reporting research. It does not include honest error or honest differences in interpretations or judgments of data [42 C.F.R. § 50.102.]

"Whistleblower" means a person who makes an allegation of scientific misconduct.

310:10-1-4. Incorporations by reference [REVOKED]

(a) This Chapter hereby incorporates by reference Part 46 of Title 45 of the Code of Federal Regulations (45 C.F.R. Part 46) as if fully set forth herein.

(b) This Chapter hereby incorporates by reference Part 50, Subpart A of Title 42 of the Code of Federal Regulations (42 C.F.R. Part 50) as if fully set forth herein.

SUBCHAPTER 3. FEDERALWIDE ASSURANCE OF PROTECTION FOR HUMAN SUBJECTS [REVOKED]

310:10-3-1. Adherence to ethical principles [REVOKED]

All of the Oklahoma State Department of Health's human subject activities, and all human subject activities of the OSDH Institutional Review Boards designated under the OSDH Federalwide Assurance, regardless of funding source, will be guided by the ethical principles in The Belmont Report: Ethical Principles and Guidelines for the Protection of Human Subjects of Research of the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research.

310:10-3-2. Conditions of federalwide assurance [REVOKED]

(a) The conditions of the federalwide assurance apply whenever:

- (1) the OSDH IRB provides review and oversight of federally supported human subject research, regardless of where the research takes place or by whom it is conducted; or
- (2) the OSDH becomes engaged in federally supported human subject research.

(b) The OSDH becomes so engaged whenever:

- (1) OSDH employees or agents intervene or interact with living individuals for purposes of federally supported research;
- (2) OSDH employees or agents obtain, release, or access individually identifiable private information for purposes of federally supported research; or
- (3) The OSDH receives a direct federal award to conduct human subject research, directly or where all activities involving human subjects are carried out by a subcontractor or collaborator.

310:10-3-3. Compliance with 45 C.F.R. Part 46 [REVOKED]

Federally supported human subject research for which the OSDH IRB provides review and oversight will comply with 45 C.F.R. Part 45. All human subject research supported by the

Permanent Final Adoptions

Department of Health and Human Services (HHS) will comply with all Subparts of HHS regulations at Title 45 Code of Federal Regulations Part 46 (45 C.F.R. Part 46.) All federally supported human subject research will also comply with any additional human subject regulations and policies of the supporting federal or state department or agency. All federally supported human subject research will comply with any human subject regulations and policies of any relevant regulatory federal or state department or agency.

310:10-3-4. Authority of IRB [REVOKED]

Except for research exempted or waived under 45 C.F.R. §46.101(b)&(i), all human subject research will be reviewed, prospectively approved, and subject to continuing oversight by the OSDH IRB. The OSDH IRB will have authority to approve, require modifications in, or disapprove the covered human subject research.

310:10-3-5. Informed consent [REVOKED]

Except where specifically waived or altered by the OSDH IRB under 45 C.F.R. §§ 46.101(i), 46.116(c)&(d), or 46.117(c) all human subject research will require written informed consent, in nonexculpatory language understandable to the subject (or subject's legally authorized representative), including the following basic elements per 45 C.F.R. § 46.116(a)&(b):

- (1) Identification as research; purposes, duration, and procedures; procedures which are experimental;
- (2) Reasonable foreseeable risks or discomforts;
- (3) Reasonable expected benefits to the subject or others;
- (4) Alternative procedures or treatments, if any, that might be advantageous to the subject;
- (5) Extent of confidentiality to be maintained;
- (6) Whether compensation or medical treatment are available if injury occurs (if more than minimal risk);
- (7) Whom to contact for answers to questions about the research subjects' rights, and research related injury;
- (8) Participation is voluntary; refusal to participate, or discontinuation of participation, will involve no penalty or loss of benefits to which subject is entitled; and
- (9) When appropriate, additional elements per 45 C.F.R. §45.116.

310:10-3-6. IRB procedures [REVOKED]

The OSDH and the OSDH IRB have established (or will establish within 90 days of the effective date of this Chapter), and will provide to Office of Human Research Protections upon request, written procedures for:

- (1) verifying whether proposed activities qualify for exemption from, or waiver of, IRB review;
- (2) conducting IRB initial and continuing review, approving research, and reporting IRB findings to the investigator and the institution;
- (3) determining which projects require review more often than annually, and which projects need verification from sources other than the investigator that no material changes have occurred;

(4) ensuring that changes in approved research are reported promptly and are not initiated without IRB approval, except when necessary to eliminate apparent immediate hazards to the subject; and

(5) ensuring prompt reporting to the IRB, institutional officials, the relevant department or agency head, any applicable regulatory body, and OHRP of any:

- (A) unanticipated problems involving risks to subjects or others in any covered research;
- (B) serious or continuing noncompliance with federal, institutional, or IRB requirements; and
- (C) suspension or termination of IRB approval for federally supported research.

310:10-3-7. Assurance training [REVOKED]

The OSDH Signatory Official, the OSDH Human Protections Administrator, and the OSDH IRB Chairperson will personally complete the relevant OHRP basic educational modules, or comparable training approved by OHRP, prior to submitting the Assurance. Members and staff of the IRB will complete relevant training before reviewing human subject research. Research investigators must complete appropriate institutional training before conducting human subject research.

310:10-3-8. Investigator training [REVOKED]

The OSDH and the OSDH IRB have established (or will establish within 90 days of the effective date of this Chapter), and will provide to OHRP upon request, education and oversight mechanisms (appropriate to the nature and volume of its research) to verify that research investigators, IRB members and staff, and other relevant personnel maintain continuing knowledge of, and comply with, relevant federal regulations, OHRP guidance, other applicable guidance, state and local law, and institutional policies for the protection of human subjects. The OSDH and the OSDH IRB will require documentation of such training from research investigators as a condition for conducting human subject research.

310:10-3-9. Compliance and knowledge of local context [REVOKED]

The OSDH is responsible for verifying that the OSDH IRB designated under the Federalwide Assurance agree to comply with Sections 310:10-3-1 through Sections 310:10-3-8 and that the OSDH IRB possess appropriate knowledge of the local context in which research for which the OSDH IRB is responsible will be conducted.

310:10-3-10. Assurance of protection for human subjects [REVOKED]

The OSDH is responsible for ensuring that all institutions and investigators collaborating in its federally supported human subject research operate under an appropriate Assurance of Protection for Human Subjects. All institutions engaged in such research, including subcontractors and subgrantees, must hold their own Assurance.

**310:10-3-11. Institutional support of the IRB
[REVOKED]**

~~The institution will provide the OSDH IRB with resources, professional staff, and support staff sufficient to carry out their responsibilities efficiently and effectively.~~

310:10-3-12. Unaffiliated investigation [REVOKED]

~~The activities of individual research investigators who are not employees or agents of the institution may be covered under the Assurance only in accordance with a formal, written agreement of commitment to relevant human subject protection policies and OSDH IRB oversight. Institutions must maintain such commitment agreements on file and provide copies to OHRP upon request.~~

**310:10-3-13. Update of federalwide assurance
[REVOKED]**

~~Information provided under the Federalwide Assurance will be updated every 36 months, even if no changes have occurred, in order to maintain an active Assurance.~~

**SUBCHAPTER 5. COMPLIANCE WITH THE
REGISTRATION OF THE OKLAHOMA STATE
DEPARTMENT OF HEALTH INSTITUTIONAL
REVIEW BOARD [REVOKED]**

310:10-5-1. FDA regulated research [REVOKED]

~~The OSDH IRB will only review FDA Regulated Research that has already been approved by an Institutional Review Board that complies with FDA regulations.~~

310:10-5-2. Ethical principles [REVOKED]

~~All IRB activities related to human subject research should be guided by the ethical principles in The Belmont Report: Ethical Principles and Guidelines for the Protection of Human Subjects of Research of the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research.~~

**310:10-5-3. Compliance with 45 C.F.R. Part 46
[REVOKED]**

~~Federally supported human subject research for which the OSDH IRB provides review and oversight will comply with 45 C.F.R. Part 45. All human subject research supported by the Department of Health and Human Services (HHS) will comply with all Subparts of HHS regulations at Title 45 Code of Federal Regulations Part 46 (45 C.F.R. Part 46). All federally supported human subject research will also comply with any additional human subject regulations and policies of the supporting federal or state department or agency. All federally supported human subject research will comply with any human subject regulations and policies of any relevant regulatory federal or state department or agency.~~

**310:10-5-4. Authority of the OSDH IRB
[REVOKED]**

~~Except for research exempted or waived under 45 C.F.R. § 46.101(b)&(i), all research for which the IRB is responsible will be reviewed, prospectively approved, and subject to continuing oversight by the IRB. The IRB has the authority to approve, require modifications in, or disapprove the research for which it is responsible.~~

310:10-5-5. Informed consent [REVOKED]

~~Except where specifically waived or altered by the IRB under 45 C.F.R. § 46.101(i), 46.116(e)&(d), or 46.117(e) of all research for which the IRB is responsible requires written informed consent, in nonexculpatory language understandable to the subject (or the subject's legally authorized representative), including the following basic elements per 45 C.F.R. § 46.116(a)& (b):~~

- ~~(1) Identification as research; purposes, duration, and procedures; procedures which are experimental;~~
- ~~(2) Reasonable foreseeable risks or discomforts;~~
- ~~(3) Reasonably expected benefits to the subject or others;~~
- ~~(4) Alternative procedures or treatments, if any, that might be advantageous to the subject;~~
- ~~(5) Extent of confidentiality to be maintained;~~
- ~~(6) Whether compensation or medical treatment are available if injury occurs (if more than minimal risk);~~
- ~~(7) Whom to contact for answers to questions about the research, subjects' rights, and research related injury;~~
- ~~(8) Participation is voluntary; refusal to participate, or discontinuation of participation, will involve no penalty or loss of benefits to which subject is entitled; and~~
- ~~(9) When appropriate, additional elements per 45 C.F.R. § 46.116(b).~~

310:10-5-6. IRB procedures [REVOKED]

~~The IRB will establish written procedures for:~~

- ~~(1) conducting IRB initial and continuing review, approving research, and reporting IRB findings to the investigator and the institution;~~
- ~~(2) determining which projects require review more often than annually, and which projects need verification from sources other than the investigator that no material changes have occurred;~~
- ~~(3) ensuring that changes in approved research are reported promptly and are not initiated without IRB approval, except when necessary to eliminate apparent immediate hazards to the subject; and~~
- ~~(4) ensuring prompt reporting to the IRB, institutional officials, the relevant department or agency head, any applicable regulatory body, and OHRP of any:~~
 - ~~(A) Unanticipated problems involving risks to subjects or others in any covered research;~~
 - ~~(B) serious or continuing noncompliance with federal, institutional, or IRB requirements; and~~
 - ~~(C) suspension or termination of IRB approval for federally supported research.~~

Permanent Final Adoptions

310:10-5-7. Compliance and knowledge of local context [REVOKED]

The IRB will ensure that it has appropriate knowledge of the local context in which research for which it is responsible will be conducted.

310:10-5-8. IRB Training [REVOKED]

The IRB Chairperson, IRB members, IRB staff, and human subject research investigators will complete appropriate education related to the protection of human subjects before reviewing or conducting human subject research.

310:10-5-9. Provision of investigator training [REVOKED]

The IRB will ensure the existence of adequate education and oversight mechanisms (appropriate to the nature and volume of the research being conducted) to verify that research investigators, IRB members and staff, and other relevant personnel maintain continuing knowledge of, and comply with, relevant Federal regulations, OHRP guidance, other applicable guidance, state and local law, and IRB determinations and policies for the protection of human subjects. The IRB will require documentation of such training from research investigators as a condition for conducting human subject research.

310:10-5-10. Institutional support of the IRB [REVOKED]

The IRB will endeavor to ensure that it is provided with resources, professional staff, and support staff appropriate to the nature and volume of the research for which it is responsible.

310:10-5-11. Update of IRB Registration [REVOKED]

The OSDH IRB will update the IRB Registration at least every 36 months in order to maintain active registration. Failure to update this information may result in termination of the IRB's registration with HHS.

310:10-5-12. IRB membership requirements [REVOKED]

45 C.F.R. § 46.107 specifies IRB membership requirements as follows:

- (1) The IRB shall have at least five members, with varying backgrounds to promote complete and adequate review of research activities commonly conducted by the entity. The IRB shall be sufficiently qualified through the experience and expertise of its members, and the diversity of the members, including consideration of race, gender, and backgrounds and sensitivity to such issues as community attitudes, to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. In addition to possessing the professional competence necessary to review specific research activities, the IRB shall be able to ascertain the acceptability of proposed

research in terms of institutional commitments and regulations, applicable law, and standards of professional conduct and practice. The IRB shall therefore include persons knowledgeable in these areas. If an IRB regularly reviews research that involves a vulnerable category of subjects, such as children, prisoners, pregnant women, or handicapped or mentally disabled persons, consideration shall be given to the inclusion of one or more individuals who are knowledgeable about and experienced in working with these subjects.

(2) Every effort will be made to ensure that no IRB consists entirely of men or entirely of women, including the institution's consideration of qualified persons of both sexes, so long as no selection is made to the IRB on the basis of gender. No IRB may consist entirely of members of one profession.

(3) Each IRB shall include at least one member whose primary concerns are in scientific areas and at least one member whose primary concerns are in nonscientific areas.

(4) Each IRB shall include at least one member who is not otherwise affiliated with the institution and who is not part of the immediate family of a person who is affiliated with the institution.

(5) No IRB may have a member participate in the IRB's initial or continuing review of any project in which the member has a conflicting interest, except to provide information requested by the IRB.

(6) An IRB may, in its discretion, invite individuals with competence in special areas to assist in the review of issues, which require expertise beyond or in addition to that available on the IRB. These individuals may not vote with the IRB.

SUBCHAPTER 7. RESEARCH INTEGRITY [REVOKED]

310:10-7-1. Responsibility for research integrity [REVOKED]

The responsibility under 45 C.F.R. Part 46 includes authority to suspend or terminate IRB approval of research that is not being conducted in accordance with the IRB's requirements or that has been associated with unexpected serious harm to subjects. Any suspension or termination of approval shall include a statement of the reasons for the IRB's actions and shall be reported promptly to the investigator, appropriate OSDH officials, and the Commissioner of Health.

310:10-7-2. Usage [REVOKED]

This Chapter establishes procedure that will be followed when an allegation of possible misconduct in science is received by an OSDH official. Particular circumstances in an individual case may dictate variation from this procedure deemed in the best interests of OSDH and PHS. Any change from these procedures also must ensure fair treatment to the subject of the

inquiry or investigation. The Commissioner of Health should approve any significant variation in advance.

310:10-7-3. Research Integrity Officer [REVOKED]

(a) The Commissioner will appoint the Research Integrity Officer (RIO) who will have primary responsibility for implementation of these procedures. The RIO Officer will be an employee of OSDH who is well qualified to handle the procedural requirements involved and is sensitive to the varied demands made on those who conduct research, those who are accused of misconduct, and those who report apparent misconduct in good faith.

(b) The RIO will appoint the inquiry and investigation committees and ensure that necessary and appropriate expertise is secured to carry out a thorough and authoritative evaluation of the relevant evidence in an inquiry or investigation. The RIO will do everything possible to ensure that confidentiality is maintained.

(c) The RIO will assist inquiry and investigation committees and all employees in complying with these procedures and with applicable standards imposed by government or external funding sources. The RIO shall maintain files of all documents and evidence and shall maintain the confidentiality and the security of the files.

(d) The RIO reports to ORI shall keep ORI apprised of any developments during the course of the inquiry or investigation that may affect current or potential DHHS funding for the individual(s) under investigation or that PHS needs to know to ensure appropriate use of federal funds and otherwise protect the public interest.

310:10-7-4. Whistleblower [REVOKED]

(a) The whistleblower will have the opportunity to:

- (1) Testify before the inquiry and investigation committees;
- (2) Review portions of the inquiry and investigation reports pertinent to his/her allegations or testimony;
- (3) Be informed of the results of the inquiry and investigation;
- (4) Be protected from retaliation.

(b) If the RIO has determined that the whistleblower may be able to provide pertinent information on any portions of the draft report, these portions will be given to the whistleblower for comment.

(c) The whistleblower is responsible for making allegations in good faith, maintaining confidentiality, and cooperating with an inquiry or investigation.

310:10-7-5. Respondent [REVOKED]

(a) The respondent will:

- (1) Be informed of the allegations when an inquiry is opened;
- (2) Be notified in writing of the final determinations and resulting actions;
- (3) Be interviewed by and present evidence to the inquiry and investigation committees;

(4) Review the draft inquiry and investigation reports;

(5) Have the right to advice of counsel.

(b) The respondent is responsible for maintaining confidentiality and cooperating with the conduct of an inquiry or investigation. If the respondent is not found to have engaged in scientific misconduct, he or she has the right to receive assistance from OSDH in restoring his or her reputation.

310:10-7-6. Deciding official [REVOKED]

The Deciding Official will be appointed by the Commissioner and will receive the inquiry and/or investigation report and any written comments made by the respondent or the whistleblower on the draft report. The Deciding Official will consult with the RIO or other appropriate officials and will determine whether to conduct an investigation, whether misconduct occurred, whether to impose sanctions, or whether to take other appropriate administrative actions.

310:10-7-7. Responsibility to report misconduct [REVOKED]

All employees or individuals associated with OSDH should report observed, suspected, or apparent misconduct in science to the RIO. If an individual is unsure whether a suspected incident falls within the definition of scientific misconduct, he or she may call the RIO to discuss the suspected misconduct informally. If the circumstances described by the individual do not meet the definition of scientific misconduct, the RIO will refer the individual or allegation to other offices or officials with responsibility for resolving the problem. At any time, an employee may have confidential discussions and consultations about concerns of possible misconduct with the Research Integrity Officer and will be counseled about appropriate procedures for reporting allegations.

310:10-7-8. Protecting the whistleblower [REVOKED]

(a) The RIO will monitor the treatment of individuals who bring allegations of misconduct or of inadequate institutional response thereto, and those who cooperate in inquiries or investigations.

(b) The RIO will ensure that these persons will not be retaliated against in the terms and conditions of their employment or other status at the institution and will review instances of alleged retaliation for appropriate action. A grievance may be filed by the RIO for the whistleblower or the whistleblower may file for him or herself.

(c) Employees should immediately report any alleged or apparent retaliation RIO.

(d) OSDH shall protect the privacy of those who report misconduct in good faith to the maximum extent possible. For example, if The whistleblower requests anonymity, the institution will make an effort to honor the request during the allegation assessment or inquiry within applicable policies and regulations and state and local laws, if any. The whistleblower will be advised that if the matter is referred to an investigation committee and the whistleblower's testimony is required,

Permanent Final Adoptions

anonymity may no longer be guaranteed. OSDH shall undertake diligent efforts to protect the positions and reputations of those persons who, in good faith, make allegations.

310:10-7-9. Protecting the respondent [REVOKED]

(a) ~~Inquiries and investigations will be conducted in a manner that will ensure fair treatment to the respondent(s) in the inquiry or investigation and confidentiality to the extent possible without compromising public health and safety or thoroughly carrying out the inquiry or investigation.~~

(b) ~~OSDH employees accused of scientific misconduct may consult with legal counsel or a non-lawyer personal adviser (who is not a principal or witness in the case) to seek advice and may bring the counsel or personal adviser to interviews or meetings on the case.~~

310:10-7-10. Cooperation with inquiries and investigations [REVOKED]

~~OSDH employees will cooperate with the RIO and other OSDH officials in the review of allegations and the conduct of inquiries and investigations. Employees have an obligation to provide relevant evidence to the RIO or other OSDH officials on misconduct allegations.~~

310:10-7-11. Preliminary assessment of allegations [REVOKED]

~~Upon receiving an allegation of scientific misconduct, the RIO will immediately assess the allegation to determine whether there is sufficient evidence to warrant an inquiry, whether PHS support or PHS applications for funding are involved, and whether the allegation falls under the PHS definition of scientific misconduct.~~

310:10-7-12. Conducting the inquiry [REVOKED]

(a) ~~**Initiation and purpose of the inquiry.** Following the preliminary assessment, if the RIO determines that the allegation provides sufficient information to allow specific follow-up, involves PHS support, and is within the PHS definition of scientific misconduct, he or she will immediately initiate the inquiry process. In initiating the inquiry, the RIO should identify clearly the original allegation and any related issues that should be evaluated. The purpose of the inquiry is to make a preliminary evaluation of the available evidence and testimony of the respondent, whistleblower, and key witnesses to determine whether there is sufficient evidence of possible scientific misconduct to warrant an investigation. The purpose of the inquiry is not to reach a final conclusion about whether misconduct definitely occurred or who was responsible. The findings of the inquiry must be set forth in an inquiry report.~~

(b) ~~**Sequestration of the research records.** After determining that an allegation falls within the definition of misconduct in science and involves PHS funding, the RIO must ensure that all original research records and materials relevant to the allegation are immediately secured. The RIO may consult with ORI for advice and assistance in this regard.~~

(c) ~~**Appointment of the inquiry committee.**~~

(1) ~~The RIO, in consultation with other OSDH officials as appropriate, will appoint an inquiry committee and committee chair within 10 days of the initiation of the inquiry. The inquiry committee shall consist of individuals who:~~

~~(A) Do not have real or apparent conflicts of interest in the case;~~

~~(B) Are unbiased; and~~

~~(C) Have the necessary expertise to evaluate the evidence and issues related to the allegation.~~

~~(D) May be scientists, subject matter experts, administrators, lawyers, or other qualified persons, and they may be from inside or outside the institution.~~

(2) ~~The Inquiry Committee will interview the principals and key witnesses, and conduct the inquiry.~~

(3) ~~The RIO shall notify the respondent of the proposed committee membership in 10 days.~~

(4) ~~If the respondent submits a written objection to any appointed member of the inquiry committee or expert based on bias or conflict of interest within 5 days, the RIO shall determine whether to replace the challenged member or expert with a qualified substitute.~~

(d) ~~**Charge to the committee and the first meeting.**~~

(1) ~~The RIO will prepare a charge for the inquiry committee that describes the allegations and any related issues identified during the allegation assessment and states that the purpose of the inquiry is to make a preliminary evaluation of the evidence and testimony of the respondent, whistleblower, and key witnesses to determine whether there is sufficient evidence of possible scientific misconduct to warrant an investigation as required by the PHS regulation. The purpose is not to determine whether scientific misconduct definitely occurred or who was responsible.~~

(2) ~~At the committee's first meeting, the RIO will review the charge with the committee, discuss the allegations, any related issues, and the appropriate procedures for conducting the inquiry, assist the committee with organizing plans for the inquiry, and answer any questions raised by the committee. The RIO and institutional counsel will be present or available throughout the inquiry to advise the committee as needed.~~

(e) ~~**Inquiry process.** The inquiry committee will interview the whistleblower, the respondent, and key witnesses as well as examining relevant research records and materials. Then the inquiry committee will evaluate the evidence and testimony obtained during the inquiry. After consultation with the RIO and OSDH counsel, the committee members will decide whether there is sufficient evidence of possible scientific misconduct to recommend further investigation. The scope of the inquiry does not include deciding whether misconduct occurred or conducting exhaustive interviews and analyses.~~

310:10-7-13. The inquiry report [REVOKED]

(a) ~~**Elements of the inquiry report.** A written inquiry report must be prepared that states the name and title of the committee members and experts, if any; the allegations; the PHS support; a summary of the inquiry process used; a list of the~~

research records reviewed; summaries of any interviews; a description of the evidence in sufficient detail to demonstrate whether an investigation is warranted or not; and the committee's determination as to whether an investigation is recommended and whether any other actions should be taken if an investigation is not recommended. OSDH counsel will review the report for legal sufficiency.

~~(b) **Comments on the draft report by the respondent and the whistleblower.** After first redacting the identity of the whistleblower, the RIO will provide the respondent with a copy of the redacted draft inquiry report for comment and rebuttal, and will provide the whistleblower, if he or she is identifiable, with portions of the draft inquiry report that address the whistleblower's role and opinions in the investigation.~~

~~(c) **Confidentiality.** The RIO shall establish reasonable conditions for review to protect the confidentiality of the draft report.~~

~~(d) **Receipt of comments.** Within 14 calendar days of their receipt of the draft report, the whistleblower and respondent will provide their comments, if any, to the inquiry committee. Any comments that the whistleblower or respondent submits on the draft report will become part of the final inquiry report and record. Based on the comments, the inquiry committee may revise the report as appropriate.~~

310:10-7-14. Inquiry decision, notification, and confidentiality [REVOKED]

~~(a) **Decision by deciding official.** The RIO will transmit the final report and any comments to the Deciding Official, who will make the determination of whether findings from the inquiry provide sufficient evidence of possible scientific misconduct to justify conducting an investigation. The inquiry is completed when the Deciding Official makes this determination, which will be made within 60 days of the first meeting of the inquiry committee. Any extension of this period will be based on good cause and recorded in the inquiry file.~~

~~(b) **Notification.** The RIO will notify both the respondent and the whistleblower in writing of the Deciding Official's decision of whether to proceed to an investigation and will remind them of their obligation to cooperate in the event an investigation is opened. The RIO will also notify all appropriate institutional officials of the Deciding Official's decision.~~

~~(c) **Confidentiality.** A decision recommending further investigation pursuant to subsection (a) above shall be deemed to be confidential pursuant to 51 O.S. § 24A.12 and shall not be publicly disseminated beyond the persons identified in subsection (b) above.~~

310:10-7-15. Time limit for completing the inquiry report [REVOKED]

The inquiry committee will normally complete the inquiry and submit its report in writing to the RIO no more than 60 calendar days following its first meeting, unless the RIO approves an extension for good cause. If the RIO approves an extension, the reason for the extension will be entered into the records of

the case and the report. The respondent also will be notified of the extension.

310:10-7-16. Conducting the investigation [REVOKED]

~~(a) **Purpose of the investigation.** The purpose of the investigation is to explore in detail the allegations, to examine the evidence in depth, and to determine specifically whether misconduct has been committed, by whom, and to what extent. The investigation will also determine whether there are additional instances of possible misconduct that would justify broadening the scope beyond the initial allegations. This is particularly important where the alleged misconduct involves clinical trials or potential harm to human subjects or the general public or if it affects research that forms the basis for public policy, clinical practice, or public health practice. The findings of the investigation will be set forth in an investigation report.~~

~~(b) **Sequestration of the research records.** The Research Integrity Officer will immediately sequester any additional pertinent research records that were not previously sequestered during the inquiry. This sequestration should occur before or at the time the respondent is notified that an investigation has begun. The need for additional sequestration of records may occur for any number of reasons, including the institution's decision to investigate additional allegations not considered during the inquiry stage or the identification of records during the inquiry process that had not been previously secured. The procedures to be followed for sequestration during the investigation are the same procedures that apply during the inquiry.~~

~~(c) **Appointment of the Investigation Committee.** The Research Integrity Officer, in consultation with other OSDH officials as appropriate, will appoint an investigation committee and the committee chair within 10 days of the notification to the respondent that an investigation is planned or as soon thereafter as practicable. The investigation committee should consist of at least three individuals who do not have real or apparent conflicts of interest in the case, are unbiased, and have the necessary expertise to evaluate the evidence and issues related to the allegations, interview the principals and key witnesses, and conduct the investigation. These individuals may be scientists, administrators, subject matter experts, lawyers, or other qualified persons, and they may be from inside or outside the institution. Individuals appointed to the investigation committee may also have served on the inquiry committee. The Research Integrity Officer will notify the respondent of the proposed committee membership within 5 days. If the respondent submits a written objection to any appointed member of the investigation committee or expert, the Research Integrity Officer will determine whether to replace the challenged member or expert with a qualified substitute.~~

~~(d) **Charge to the committee and the first meeting.**~~

~~(1) **Charge to the committee.** The Research Integrity Officer will define the subject matter of the investigation in a written charge to the committee that describes the allegations and related issues identified during the inquiry, defines scientific misconduct, and identifies the name of~~

the respondent. The charge will state that the committee is to evaluate the evidence and testimony of the respondent, whistleblower, and key witnesses to determine whether, based on a preponderance of the evidence, scientific misconduct occurred and, if so, to what extent, who was responsible, and its seriousness. During the investigation, if additional information becomes available that substantially changes the subject matter of the investigation or would suggest additional respondents, the committee will notify the Research Integrity Officer, who will determine whether it is necessary to notify the respondent of the new subject matter or to provide notice to additional respondents.

(2) **The first meeting.** The Research Integrity Officer, with the assistance of institutional counsel, will convene the first meeting of the investigation committee to review the charge, the inquiry report, and the prescribed procedures and standards for the conduct of the investigation, including the necessity for confidentiality and for developing a specific investigation plan. The investigation committee will be provided with a copy of these instructions and, where PHS funding is involved, the PHS regulation.

(e) **Investigation process.** The investigation committee will be appointed and the process initiated within 30 days of the completion of the inquiry, if findings from that inquiry provide a sufficient basis for conducting an investigation. The investigation will normally involve examination of all documentation including, but not necessarily limited to, relevant research records, computer files, proposals, manuscripts, publications, correspondence, memoranda, and notes of telephone calls. Whenever possible, the committee should interview the whistleblower(s), the respondents(s), and other individuals who might have information regarding aspects of the allegations. Interviews of the respondent should be tape recorded or transcribed. All other interviews should be transcribed, tape recorded, or summarized. Summaries or transcripts of the interviews should be prepared, provided to the interviewed party for comment or revision, and included as part of the investigatory file.

310:10-7-17. The investigation report [REVOKED]

(a) **Elements of the investigation report.** The final report submitted to ORI must describe the policies and procedures under which the investigation was conducted, describe how and from whom information relevant to the investigation was obtained, state the findings, and explain the basis for the findings. The report will include the actual text or an accurate summary of the views of any individual(s) found to have engaged in misconduct as well as a description of any sanctions imposed and administrative actions taken by the institution.

(b) **Comments on the draft report.**

(1) **Respondent.** After first redacting the identity of the whistleblower, the Research Integrity Officer will provide the respondent with a copy of the redacted draft investigation report for comment and rebuttal. The respondent will be allowed 5 days to review and comment on the draft report. The respondent's comments will be attached to the final report. The findings of the final report should take

into account the respondent's comments in addition to all the other evidence.

(2) **Whistleblower.** The Research Integrity Officer will provide the whistleblower, if he or she is identifiable, with those portions of the draft investigation report that address the whistleblower's role and opinions in the investigation. The report should be modified, as appropriate, based on the whistleblower's comments.

(3) **Institutional counsel.** The draft investigation report will be transmitted to the institutional counsel for a review of its legal sufficiency. Comments should be incorporated into the report as appropriate.

(4) **Confidentiality.** In distributing the draft report, or portions thereof, to the respondent and whistleblower, the Research Integrity Officer will inform the recipient of the confidentiality under which the draft report is made available and may establish reasonable conditions to ensure such confidentiality. For example, the Research Integrity Officer may request the recipient to sign a confidentiality statement or to come to his or her office to review the report. The identity of the whistleblower will be subject to public disclosure only as the RIO may determine is reasonable and appropriate by balancing the needs of the whistleblower to remain confidential with the needs of the institutional review board to comply with federal regulations enacted to protect the rights and welfare of human research participants.

(e) **Institutional review and decision.** Based on a preponderance of the evidence, the Deciding Official will make the final determination whether to accept the investigation report, its findings, and the recommended institutional actions. If this determination varies from that of the investigation committee, the Deciding Official will explain in detail the basis for rendering a decision different from that of the investigation committee in the institution's letter transmitting the report to ORI. The Deciding Official's explanation should be consistent with the PHS definition of scientific misconduct, the institution's policies and procedures, and the evidence reviewed and analyzed by the investigation committee. The Deciding Official may also return the report to the investigation committee with a request for further fact finding or analysis. The Deciding Official's determination, together with the investigation committee's report, constitutes the final investigation report for purposes of ORI review. When a final decision on the case has been reached, the Research Integrity Officer will notify both the respondent and the whistleblower in writing. In addition, the Deciding Official will determine whether law enforcement agencies, professional societies, professional licensing boards, editors of journals in which falsified reports may have been published, collaborators of the respondent in the work, or other relevant parties should be notified of the outcome of the case. The Research Integrity Officer is responsible for ensuring compliance with all notification requirements of funding or sponsoring agencies.

(d) **Transmittal of the final investigation report to ORI.** After comments have been received and the necessary changes have been made to the draft report, the investigation committee should transmit the final report with attachments, including the

respondent's and whistleblower's comments, to the Deciding Official, through the Research Integrity Officer.

(e) **Time limit for completing the investigation report.** An investigation should ordinarily be completed within 120 days of its initiation, with the initiation being defined as the first meeting of the investigation committee. This includes conducting the investigation, preparing the report of findings, making the draft report available to the subject of the investigation for comment, submitting the report to the Deciding Official for approval, and submitting the report to the ORI.

310:10-7-18. Requirements for reporting to ORI [REVOKED]

(a) An institution's decision to initiate an investigation must be reported in writing to the Director, ORI, on or before the date the investigation begins. At a minimum, the notification should include the name of the person(s) against whom the allegations have been made, the general nature of the allegation as it relates to the PHS definition of scientific misconduct, and the PHS applications or grant number(s) involved. ORI must also be notified of the final outcome of the investigation and must be provided with a copy of the investigation report. Any significant variations from the provisions of the institutional policies and procedures should be explained in any reports submitted to ORI.

(b) If an institution plans to terminate an inquiry or investigation for any reason without completing all relevant requirements of the PHS regulation, the Research Integrity Officer will submit a report of the planned termination to ORI, including a description of the reasons for the proposed termination.

(c) If the institution determines that it will not be able to complete the investigation in 120 days, the Research Integrity Officer will submit to ORI a written request for an extension that explains the delay, reports on the progress to date, estimates the date of completion of the report, and describes other necessary steps to be taken. If the request is granted, the Research Integrity Officer will file periodic progress reports as requested by the ORI.

(d) When PHS funding or applications for funding are involved and an admission of scientific misconduct is made, the Research Integrity Officer will contact ORI for consultation and advice. Normally, the individual making the admission will be asked to sign a statement attesting to the occurrence and extent of misconduct. When the case involves PHS funds, the institution cannot accept an admission of scientific misconduct as a basis for closing a case or not undertaking an investigation without prior approval from ORI.

(e) The Research Integrity Officer will notify ORI at any stage of the inquiry or investigation if:

- (1) there is an immediate health hazard involved;
- (2) there is an immediate need to protect Federal funds or equipment;
- (3) there is an immediate need to protect the interests of the person(s) making the allegations as well as his/her co-investigators and associates, if any;
- (4) it is probable that the alleged incident is going to be reported publicly; or

(5) the allegation involves a public health sensitive issue, e.g., a clinical trial; or

(6) there is a reasonable indication of possible criminal violation. In this instance, the institution must inform ORI within 24 hours of obtaining the information.

310:10-7-19. Institutional administrative actions [REVOKED]

(a) OSDH will take appropriate administrative actions against individuals when an allegation of misconduct has been substantiated. If the Deciding Official determines that the alleged misconduct is substantiated by the findings, he or she will decide on the appropriate actions to be taken, after consultation with the Research Integrity Officer. The actions may include:

- (1) withdrawal or correction of all pending or published abstracts and papers emanating from the research where scientific misconduct was found.
- (2) removal of the responsible person from the particular project, letter of reprimand, special monitoring of future work, probation, suspension, salary reduction, or initiation of steps leading to possible rank reduction or termination of employment;
- (3) restitution of funds as appropriate.

(b) **Termination of OSDH employment or resignation prior to completing inquiry or investigation.** The termination of the respondent's institutional employment, by resignation or otherwise, before or after an allegation of possible scientific misconduct has been reported, will not preclude or terminate the misconduct procedures. If the respondent, without admitting to the misconduct, elects to resign his or her position prior to the initiation of an inquiry, but after an allegation has been reported, or during an inquiry or investigation, the inquiry or investigation will proceed. If the respondent refuses to participate in the process after resignation, the committee will use its best efforts to reach a conclusion concerning the allegations, noting in its report the respondent's failure to cooperate and its effect on the committee's review of all the evidence.

(c) **Restoration of the respondent's reputation.** If the institution finds no misconduct and ORI concurs, after consulting with the respondent, the Research Integrity Officer will undertake reasonable efforts to restore the respondent's reputation if necessary. Depending on the particular circumstances, the Research Integrity Officer should consider notifying those individuals aware of or involved in the investigation of the final outcome, publicizing the final outcome in forums in which the allegation of scientific misconduct was previously publicized, or expunging all reference to the scientific misconduct allegation from the respondent's personnel file. Any institutional actions to restore the respondent's reputation must first be approved by the Deciding Official.

(d) **Protection of the whistleblower and others.** Regardless of whether the institution or ORI determines that scientific misconduct occurred, the Research Integrity Officer will undertake reasonable efforts to protect whistleblowers who made allegations of scientific misconduct in good faith and others who cooperate in good faith with inquiries

Permanent Final Adoptions

and investigations of such allegations. Upon completion of an investigation, the Deciding Official will determine, after consulting with the whistleblower, what steps, if any, are needed to restore the position or reputation of the whistleblower. The Research Integrity Officer is responsible for implementing any steps the Deciding Official approves. The Research Integrity Officer will also take appropriate steps during the inquiry and investigation to prevent any retaliation against the whistleblower.

(e) ~~Allegations not made in good faith.~~ If relevant, the Deciding Official will determine whether the whistleblower's allegations of scientific misconduct were made in good faith. If an allegation was not made in good faith, the Deciding Official will determine whether any administrative action should be taken against the whistleblower.

(f) ~~Interim administrative actions.~~ Institutional officials will take interim administrative actions, as appropriate, to protect Federal funds and ensure that the purposes of the Federal financial assistance are carried out.

310:10-7-20. Record retention [REVOKED]

After completion of a case and all ensuing related actions, the Research Integrity Officer will prepare a complete file, including the records of any inquiry or investigation and copies of all documents and other materials furnished to the Research Integrity Officer or committees. The Research Integrity Officer will maintain and dispose of the records of any inquiry or investigation in compliance with the approved records retention schedule for the office of the Commissioner of Health. The ORI or other authorized DHHS personnel will be given access to the records upon request. These records are subject to public review or copying unless otherwise exempt from disclosure pursuant to the Oklahoma Open Records Act.

GIST/ANALYSIS:

The current rule provides a requirement for identification and establishes fees for services. The proposed amendment will require the State Department of Health to provide a list of acceptable identification to include government issued photographic identification, alternative forms of identification, and an alternative electronic process. Additionally, the Department is directed to provide the legal forms that shall be used to delegate personal powers related to birth records and attestation for identity. This is required to meet the requirement in law to maintain record integrity and establish that each applicant meets the requirements set in law for release of a record. There is no change to fees requested.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 11, 2020:**

SUBCHAPTER 1. PURPOSE, FORMS, AND FEES

310:105-1-3. Fees for Services, Identification requirements and Certified Copies

(a) A valid, legal photographic identification by applicant or individual attesting for applicant Identification prescribed by the Department, shall be required for issuance of birth, death, and stillbirth certificates. Documentation is subject to verification with the issuing authority and shall include:

- (1) Government issued photographic identification; or
- (2) At least two alternative forms of identification; or
- (3) An alternative electronic process.

(b) Alternative forms may include, but are not limited to letters from government or social agencies; pay statement; utility bills; or other items prescribed by the Department.

(c) Delegation of personal legal powers to request or amend a birth certificate by an eligible applicant as established in 63 O.S. § 1-323, shall be on a form prescribed by the Department in order to protect the integrity of the records, ensure their proper use, and to efficiently administer the vital statistics system.

(d) Attestation to the identity of another person who is applying for his/her own record shall be on a form prescribed by the Department.

(e) Except as otherwise provided in law or regulation, the following schedule of fees is adopted for services provided,

certified copies of Vital Records, or for a search of files when no copy is made:

- (1) Search of files or issuance of one (1) certified copy if record is found:
 - (A) Birth Certificates - \$15.00; additional certified copies requested - \$15.00 per copy.
 - (B) Death Certificates - \$15.00; additional certified copies requested - \$15.00 per copy.
- (2) Delayed Registration:
 - (A) Initial search of files - \$15.00
 - (B) Certified copies after establishment of delayed registration - \$40.00 (\$40.00 fee includes a \$25.00 processing fee and credit for initial \$15.00 search fee.)
- (3) Birth record substitution:
 - (A) Adoptions:
 - (i) Search of records - \$15.00
 - (ii) Certified copy after substitution - \$40.00 (\$40.00 fee includes a \$25.00 processing fee and credit for initial \$15.00 search fee.)
 - (B) Legitimations:
 - (i) Search of records - \$15.00
 - (ii) Certified copy after substitution - \$40.00 (\$40.00 fee includes a \$25.00 processing fee and credit for initial \$15.00 search fee.)
 - (C) Certificate of Foreign Born:
 - (i) Search of records - \$15.00
 - (ii) Certified copy after preparation of and/or substitution of record - \$40.00 (\$40.00 fee includes \$25.00 processing fee and credit for initial \$15.00 search fee.)
- (4) Amendments to Vital Records and Paternities:
 - (A) Initial search of birth records - \$15.00
 - (B) Certified copies of birth certificates after amended or paternity completed - \$40.00 (\$40.00 fee includes a \$25.00 processing fee and credit for initial \$15.00 search fee.) Paternities which are submitted at the time of original filing by the hospital and meet all the requirements for filing are not subject to the amendment fee.
 - (C) Search of records and certified copies of amended death certificates - \$15.00.
 - (D) Certified copies of death certificates after amendment or correction completed - \$35.00 (\$35.00 fee includes a \$20.00 processing fee and credit for initial \$15.00 search fee) unless the requested amendment is to change the medical certification data. In this case, there is no amendment fee.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 3. LICENSE CLASSIFICATIONS AND ASSOCIATED FEES FOR CONSUMER HEALTH SERVICES

310:250-3-1. Food establishments' fees

(a) The following are license classifications and associated fees for food establishments, manufacturers, or wholesalers regulated by Title 63 O.S. § 1-915, Title 63 O.S. § 1-1118, Title 63 O.S. § 1-1119, or Title 63 O.S. § 1-1120 et seq., and the rules promulgated thereunder.

(1) Food service, manufacturing, or wholesale.

(A) Initial - \$425.00

Permanent Final Adoptions

- (B) Renewal - \$335.00
- (C) Late Renewal - \$375.00
- (2) State Operated, Non-Profit or Health Facilities not meeting exempt status.
 - (A) Initial - \$175.00
 - (B) Renewal - \$125.00
 - (C) Late Renewal - \$150.00
- (3) Seasonal includes any establishment that meets the definition of "Seasonal food establishment" outlined in OAC 310:257-1-2 where the license is valid for only one hundred eighty (180) consecutive days per year. The license may be reinstated no sooner than one hundred eighty 180 days after the expiration of the previous license.
 - (A) Initial - \$250.00
 - (B) Reinstatement - \$250.00
- (4) The fee for a temporary food establishment, as defined in OAC 310:257-1-2, shall be \$50.00 for the initial day of the temporary event plus \$25.00 for each additional consecutive day. The total fee for a single temporary event license shall not exceed \$250. No temporary event license shall be issued for more than fourteen (14) consecutive days.
 - (A) The total fee for a single temporary event license shall not exceed \$250.
 - (B) No temporary event license shall be issued for more than fourteen (14) consecutive days.
- (5) The fee for a temporary food establishment, as defined in OAC 310:257-1-2, at a county fair as defined in Title 2 O.S. §§ 15-51 et seq., shall be \$50.00 for a maximum of three (3) days.
- (6) The fee for a temporary food establishment, as defined in OAC 310:257-1-2, at a farmers market as defined in OAC 310:257-1-2 shall be \$50.00 for a maximum of three (3) days.
- (b) An establishment qualifies for a fee exempt license if it is a "food establishment - fee exempt" as that term is defined in OAC 310:257-1-2.
- (c) Late renewal fees apply to any renewal application post-marked and/or received thirty (30) days after the expiration date of the license.
- (d) A license not renewed within ninety (90) days of the date shall be ineligible for the renewal. Thereafter, the establishment shall be required to pay an initial fee. The establishment that has not had a valid license for one (1) year is considered a new establishment.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. PURPOSE AND DEFINITIONS

310:258-1-1. Purpose

The rules in this Chapter implement 63 O.S. Section 1-1118.1. The purpose is to safeguard public health and provide to consumers food that is safe, unadulterated, and honestly presented. This Chapter establishes definitions; sets standards for food, operations, equipment, and facilities;

Permanent Final Adoptions

and provides for unattended food establishment plan review, license issuance, inspection, and license suspension.

310:258-1-2. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning unless the context clearly indicates otherwise.

"Additive" means as used in this Chapter for the following terms:

(A) **"Color additive"** means as stated in the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. Section 321(t) and 21 CFR, Part 70.

(B) **"Food additive"** means as stated in the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. Section 321(s) and 21 CFR, Part 170.

"Adulterated" means the definition in 63 O.S. Section 1-1109.

"Approved" means acceptable to the Department based on a determination of conformity with principles, practices, and generally recognized standards that protect public health.

"Beverage" means a liquid for drinking, including water.

"Bottled drinking water" means water that is sealed in bottles, packages, or other containers and offered for sale for human consumption, including bottled mineral water.

"Certified applicator" means any individual who is certified under the Federal Herbicide, Fungicide, and Rodenticide Act, U.S.C., Section 136(e)(1) and/or by the Oklahoma State Department of Agriculture Food and Forestry as authorized to use or supervise the use of any pesticide that is classified for restricted use. Any applicator who holds or applies registered pesticides or uses dilutions of registered pesticides consistent with the product labeling only to provide a service of controlling pests without delivering any unapplied pesticide to any person so served is not deemed to be a seller or distributor of pesticides.

"CFR" means Code of Federal Regulations. Citations in this Chapter to the CFR refer sequentially to the Title, Part, and Section numbers, such as 21 CFR, 178.1010 refers to Title 21, Part 178, Section 1010.

"Code of Federal Regulations" means the compilation of the general and permanent rules published in the Federal Register by the executive departments and agencies of the federal government which is published annually by the U.S. Government Printing Office; and contains FDA rules in 21 CFR, USDA rules in 7 CFR and 9 CFR, EPA rules in 40 CFR, and Wildlife and Fisheries rules in 50 CFR.

"Community water system" means any public water supply system, which serves at least 15 service connections, used year round or regularly serves 25 customers per day.

"Consumer" means a person who is a member of the public, takes possession of food, is not functioning in the capacity of an operator of an unattended food establishment or food processing plant, and does not offer the food for resale.

"Controlled entry" means selective restriction or limitation of access to a place or location.

"Critical control point" means a point or procedure in a specific food system where loss of control may result in an unacceptable health risk.

"Customer self-service" means customer selection of a prepackaged food product from a product module.

"Cut leafy greens" means fresh leafy greens whose leaves have been cut, shredded, sliced, chopped, or torn. The term "leafy greens" includes iceberg lettuce, romaine lettuce, leaf lettuce, butter lettuce, baby leafy lettuce (i.e., immature lettuce or leafy greens), escarole, endive, spring mix, spinach, cabbage, kale, arugula, and chard. The term "leafy greens" does not include herbs such as cilantro or parsley.

"Department" means the Oklahoma State Department of Health and a health department designated in writing by the State Commissioner of Health to perform official duties or other acts authorized under the Oklahoma Public Health Code and this Chapter.

"Disclosure" means a written statement that clearly identifies the animal-derived foods which are, or can be ordered, raw, undercooked, or without otherwise being processed to eliminate pathogens, or items that contain an ingredient that is raw, undercooked, or without otherwise being processed to eliminate pathogens.

"Dispensed beverage" means a beverage or ice that is dispensed in its unpackaged form from a machine.

"Easily movable" means portable; mounted on casters, gliders, or rollers; or provided with a mechanical means to safely tilt a unit of equipment for cleaning; and has no utility connection, a utility connection that disconnects quickly, or a flexible utility connection line of sufficient length to allow the equipment to be moved for cleaning of the equipment and adjacent area.

"EPA" means the U.S. Environmental Protection Agency.

"Equipment" means an article that is used in the operation of an unattended food establishment such as a freezer, reach-in refrigerator, microwave oven, or temperature measuring device for ambient air. It does not include items used for handling or storing large quantities of packaged foods that are received from a supplier in a cased or overwrapped lot, such as hand trucks, forklifts, dollies, pallets, racks, and skids.

"FDA" means the U.S. Food and Drug Administration.

"Fish" means fresh or saltwater finfish, crustaceans, and other forms of aquatic life (including alligator, frog, aquatic turtle, jellyfish, sea cucumber, and sea urchin and the roe of such animals) other than birds or mammals, and all mollusks, if such animal life is intended for human consumption. Fish includes an edible human food product derived in whole or in part from fish, including fish that have been processed in any manner.

"Food" means a raw, cooked, or processed edible substance, ice, beverage, or ingredient used or intended for use or for sale in whole or in part for human consumption, or chewing gum.

"Food processing plant" means a commercial operation that manufactures, packages, labels, or stores food for human consumption and provides food for sale or distribution to other business entities such as food processing plants, food establishment, or unattended food establishments.

"Grade A standards" means the requirements of the United States Public Health Service/FDA "Grade A Pasteurized Milk Ordinance" with which certain fluid and dry milk and milk products comply.

"HACCP" means Hazard Analysis Critical Control Point.

"HACCP plan" means a written document that delineates the formal procedures for following the Hazard Analysis Critical Control Point principles developed by The National Advisory Committee on Microbiological Criteria for Foods.

"Hazard" means a biological, chemical, or physical property that may cause an unacceptable consumer health risk.

"Hermetically sealed container" means a container that is designed and intended to be secure against the entry of microorganisms and, in the case of low acid canned foods, to maintain the commercial sterility of its contents after processing.

"Imminent health hazard" means a significant threat or danger to health that is considered to exist when there is evidence sufficient to show that a product, practice, circumstance, or event creates a situation that requires immediate correction or cessation of operation to prevent injury based on the number of potential injuries, and the nature, severity, and duration of the anticipated injury.

"Impermeable" means incapable of allowing liquids to pass through the covering.

"Juice" means, when used in the context of food safety, the aqueous liquid expressed or extracted from one or more fruits or vegetables, purées of the edible portions of one or more fruits or vegetables, or any concentrates of such liquid or purée. Juice does not include, for purposes of HACCP, liquids, purees, or concentrates that are not used as beverages or ingredients of beverages.

"License" means the document issued by the Department that authorizes a person to operate an unattended food establishment.

"License holder" means the entity that is legally responsible for the operation of the unattended food establishment such as the owner, the owner's agent, or other person; and possesses a valid license to operate an unattended food establishment.

"Major food allergen" means milk, egg, fish (such as bass, flounder, cod, and including crustacean such as crab, lobster, or shrimp), tree nuts (such as almonds, pecans, or walnuts), wheat, peanuts, and soybeans; or a food ingredient that contains protein derived from a food specified above.

(A) Major food allergen does not include: Any highly refined oil derived from a food specified in Major Food Allergen definition and any ingredient derived from such highly refined oil; or

(B) Any ingredient that is exempt under the petition or notification process specified in the Federal Food, Drugs, and Cosmetics Act, 21 U.S.C. Section 343.

"Non-community water system" means any public water supply system, which serves an average of at least 25 individuals at least 60 days per year and is not a community water system.

"OAC" means Oklahoma Administrative Code.

"O.S." means Oklahoma Statute.

"Packaged" means bottled, canned, cartoned, bagged, or wrapped, whether packaged in a food processing plant.

"Person" means an association, a corporation, individual, partnership, other legal entity, government, or governmental subdivision or agency.

"Physical facilities" means the structure and interior surfaces of an unattended food establishment including accessories such as light fixtures and heating or air conditioning system vents.

"Plumbing fixture" means a receptacle or device that is permanently or temporarily connected to the water distribution system of the premises and demands a supply of water from the system; or discharges used water, waste materials, or sewage directly or indirectly to the drainage system of the premises.

"Plumbing system" means the water supply and distribution pipes; plumbing fixtures and traps; soil, waste, and vent pipes; sanitary and storm sewers and building drains, including their respective connections, devices, and appurtenances within the premises; and water-treating equipment.

"Poisonous or toxic materials" means substances that are not intended for ingestion and are included in 4 categories:

(A) Cleaners and sanitizers, which include cleaning and sanitizing agents and agents such as caustics, acids, drying agents, polishes, and other chemicals;

(B) Pesticides, except sanitizers, which include substances such as insecticides and rodenticides;

(C) Substances necessary for the operation and maintenance of the establishment such as nonfood grade lubricants and personal care items that may be deleterious to health; and

(D) Substances that are not necessary for the operation and maintenance of the establishment and are on the premises for retail sale, such as petroleum products and paints.

"Premises" means the physical facility, its contents, and the contiguous land or property under the control of the license holder or the contracted establishment.

"Refuse" means solid waste not carried by water through the sewage system.

"Restricted use pesticide" means a pesticide product that contains the active ingredients specified in 40 CFR, Section 152.175. Pesticides classified for restricted use, and that is limited to use by or under the direct supervision of a certified applicator.

"Risk" means the likelihood that an adverse health effect will occur within a population as a result of a hazard in a food.

"Sealed" means free of cracks or other openings that allow the entry or passage of moisture.

"Service animal" means an animal such as a guide dog, signal dog, or other animal individually trained to provide assistance to an individual with a disability.

"Sewage" means liquid waste containing animal or vegetable matter in suspension or solution and may include liquids containing chemicals in solution.

"Single-use articles" means utensils and food containers designed and constructed to be used once and discarded.

Permanent Final Adoptions

"Temperature measuring device" means a thermometer, thermocouple, thermistor, or other device that indicates the ambient air temperature within a cold holding unit.

"Time/Temperature Control for Safety Food" means a food that requires time/temperature control for safety (TCS) to limit pathogenic microorganism growth or toxin formation. Time/Temperature Control for Safety Food includes: An animal food that is raw or heat-treated; a plant food that is heat-treated or consists of raw seed sprouts, cut melons, cut leafy greens, cut tomatoes or mixtures of cut tomatoes that are not modified in a way so that they are unable to support pathogenic microorganism growth or toxin formation, or garlic-in-oil mixtures that are not modified in a way that results in mixtures that do not support growth or toxin formation.

"Unattended food establishment" means an operation that provides packaged foods or whole fruit using an automated payment system and has controlled entry not accessible by the general public.

"USDA" means the U.S. Department of Agriculture.

"Vending machine" means a self-service device that, upon insertion of a coin, paper currency, token, card, or key, or by optional manual operation, dispenses unit servings of food in bulk or in packages without the necessity of replenishing the device between each vending operation.

"Vending machine location" means the room, enclosure, space, or area where one or more vending machines are installed and operated and includes the storage areas and areas on the premises that are used to service and maintain the vending machines.

310:258-1-3. Incorporated by reference

The following Code of Federal Regulation (CFR) provisions are incorporated by reference as published on July 1, 2019:

- (1) Title 9 CFR, Part 424, Subpart (C) PREPARATION AND PROCESSING OPERATIONS;
- (2) Title 21 CFR, Part 129 PROCESSING AND BOTTLING OF BOTTLED DRINKING WATER;
- (3) Title 21 CFR, Part 170 FOOD ADDITIVES;
- (4) Title 21 CFR, Part 172 FOOD ADDITIVES PERMITTED FOR DIRECT ADDITION TO FOOD FOR HUMAN CONSUMPTION;
- (5) Title 21 CFR, Part 173 SECONDARY DIRECT FOOD ADDITIVES PERMITTED IN FOOD FOR HUMAN CONSUMPTION;
- (6) Title 21 CFR, Part 174 INDIRECT FOOD ADDITIVES: GENERAL;
- (7) Title 21 CFR, Part 175 INDIRECT FOOD ADDITIVES: ADHESIVES AND COMPONENTS OF COATINGS;
- (8) Title 21 CFR, Part 176 INDIRECT FOOD ADDITIVES: PAPER AND PAPERBOARD COMPONENTS;
- (9) Title 21 CFR, Part 177 INDIRECT FOOD ADDITIVES: POLYMERS;
- (10) Title 21 CFR, Part 178 INDIRECT FOOD ADDITIVES: ADJUVANTS, PRODUCTION AIDS, AND SANITIZERS;

(11) Title 21 CFR, Part 179 IRRADIATION IN THE PRODUCTION, PROCESSING AND HANDLING OF FOOD;

(12) Title 21 CFR, Part 180 FOOD ADDITIVES PERMITTED IN FOOD OR IN CONTACT WITH FOOD ON AN INTERIM BASIS PENDING ADDITIONAL STUDY;

(13) Title 21 CFR, Part 181 PRIOR-SANCTIONED FOOD INGREDIENTS;

(14) Title 21 CFR, Part 182 SUBSTANCES GENERALLY RECOGNIZED AS SAFE;

(15) Title 21 CFR, Part 184 DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE;

(16) Title 21 CFR, Part 186 INDIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE;

(17) Title 21 CFR, Section 1240.60 Subpart (d) SPECIFIC ADMINISTRATIVE DECISIONS REGARDING INTERSTATE SHIPMENTS.

SUBCHAPTER 3. OPERATIONS

310:258-3-1. Living quarters, separation

Living or sleeping quarters located on the premises of an establishment shall be separated from rooms and areas used for establishment operations by complete partitioning and solid self-closing doors.

310:258-3-2. Cleaning frequency

The physical facilities shall be cleaned as often as necessary to keep them clean.

310:258-3-3. Premises, repairing

The physical facilities shall be maintained in good repair.

310:258-3-4. Storing maintenance tools

Maintenance tools such as brooms, mops, vacuum cleaners, and similar items shall be: Stored so they do not contaminate food, equipment, utensils, and single-service articles.

310:258-3-5. Maintaining premises, unnecessary items and litter

The premises shall be free of:

- (1) Items that are unnecessary to the operation or maintenance of the establishment such as equipment that is nonfunctional or no longer used; and
- (2) Litter.

310:258-3-6. Controlling pests

The presence of insects, rodents, and other pests shall be controlled to minimize their presence within the facility by:

- (1) Routinely inspecting incoming shipments of food and supplies;

- (2) Routinely inspecting the premises for evidence of pests;
- (3) Using methods, if pests are found, such as trapping devices or other means of pest control/elimination; and
- (4) Eliminating harborage conditions.

310:258-3-7. Removing dead or trapped pests

Dead or trapped birds, insects, rodents, and other pests shall be removed from control devices and the premises at a frequency that prevents their accumulation, decomposition, or the attraction of pests.

310:258-3-8. Prohibiting animals

- (a) Except as specified in (b) of this Section, live animals may not be allowed on the premises of an establishment.
- (b) Live animals may be allowed in the following situations unless the contamination of food, clean equipment, and unwrapped single-service and single-use articles may result:
 - (1) Patrol dogs accompanying police or security officers in offices and dining, sales, and storage areas, and sentry dogs running loose in outside fenced areas;
 - (2) Service animals that are controlled by the disabled employee or person, as long as a health or safety hazard will not result from the presence or activities of the service animal.

310:258-3-9. Distressed merchandise, segregation and location

Products that are held by the license holder for credit, redemption, or return to the distributor, such as damaged, spoiled, or recalled products, shall be segregated and held in designated areas that are separated from food, equipment, and single-service and single-use articles.

SUBCHAPTER 5. POISONOUS OR TOXIC MATERIALS

310:258-5-1. Identifying information

- (a) Containers of poisonous or toxic materials and personal care items shall bear a legible manufacturer's label.
- (b) Working containers used for storing poisonous or toxic materials such as cleaners and sanitizers taken from bulk supplies shall be clearly and individually identified with the common name of the material.

310:258-5-2. Storage and separation

Poisonous or toxic materials shall be stored so they cannot contaminate food, equipment, utensils, and single-service and single-use articles by:

- (1) Separating the poisonous or toxic materials by spacing or partitioning; and
- (2) Locating the poisonous or toxic materials in an area that is not above food, equipment, utensils, and single-service articles.

310:258-5-3. Presence and use, restriction

Only those poisonous or toxic materials that are required for the operation and maintenance of an unattended food establishment, such as for the cleaning and sanitizing of equipment and utensils and the control of insects and rodents, shall be allowed in an unattended food establishment.

310:258-5-4. Conditions of use

Poisonous or toxic materials shall be:

- (1) Used according to:
 - (A) Law and this Chapter,
 - (B) Manufacturer's use directions included in labeling, and, for a pesticide, manufacturer's label instructions that state that use is allowed in an unattended food establishment.
 - (C) The conditions of certification, if certification is required, for use of the pest control materials, and
 - (D) Additional conditions that may be established by the Department; and
- (2) Applied so that:
 - (A) A hazard to employees or other persons is not constituted, and
 - (B) Contamination including toxic residues due to drip, drain, fog, splash or spray on food, equipment, utensils, linens, and single-service and single-use articles is prevented, and for a restricted use pesticide, this is achieved by:
 - (i) Removing the items,
 - (ii) Covering the items with impermeable covers, or
 - (iii) Taking other appropriate preventive actions, and
 - (iv) Cleaning and sanitizing equipment and utensils after the application.
- (3) A restricted use pesticide shall be applied only by an applicator certified as defined in 7 USC Section 136(e) Certified Applicator, of the Federal Insecticide, Fungicide and Rodenticide Act, or a person under the direct supervision of a certified applicator. Restricted use pesticides specified under OAC 310:285-13-5 (3) shall meet the requirements specified in 40 CFR, Part 152 Subpart I - Classification of Pesticides.

310:258-5-5. Sanitizers, criteria

Chemical sanitizers, including chemical sanitizing solutions generated on-site, and other chemical antimicrobials applied to surfaces shall:

- (1) Meet the requirements specified in 40 CFR, Section 180.940 Tolerance exemptions for active and inert ingredients for use in antimicrobial formulations (Food-contact surface sanitizing solutions), or
- (2) Meet the requirements as specified in 40 CFR, Section 180.2020 Pesticide Chemicals Not Requiring a Tolerance or Exemption from Tolerance-Non-food determinations.

Permanent Final Adoptions

310:258-5-6. Rodent bait stations

Rodent bait shall be contained in a covered, tamper-resistant bait station.

310:258-5-7. Tracking powders, pest control and monitoring

- (a) Except as specified in (b) of this Section, a tracking powder pesticide may not be used in an unattended establishment.
(b) If used, a nontoxic tracking powder such as talcum or flour may not contaminate food, equipment, utensils, and single-service articles.

310:258-5-8. Medication, restriction

Only medicines that are stored or displayed for retail sale shall be allowed in an unattended food service establishment.

SUBCHAPTER 7. FOOD

310:258-7-1. Prohibited food sales

The following foods shall not be offered for sale in an unattended food establishment:

- (1) Unpackaged foods with the exception of whole uncut fruits or vegetables.
- (2) Dispensed beverage.
- (3) Salvaged food as regulated under OAC 310:260 Subchapter seven (7).
- (4) Raw molluscan shellfish.
- (5) Mushrooms harvested in the wild.

310:258-7-2. Safe, unadulterated, and honestly presented

Food shall be safe, unadulterated, and honestly presented.

- (1) Food shall be offered for human consumption in a way that does not mislead or misinform the consumer.
- (2) Food color additives, colored overwraps, or lights may not be used to misrepresent the true appearance, color, or quality of a food.
- (3) Manufacturers' dating information on foods may not be concealed or altered.

310:258-7-3. Additives

Food may not contain unapproved food additives or additives that exceed amounts specified in 21 CFR Sections 170-180 relating to food additives, generally recognized as safe or prior sanctioned substances that exceed amounts specified in 21 CFR, Sections 181-186, substances that exceed amounts specified in 9 CFR, Subpart C Section 424.21(b), food ingredients and sources of radiation, or pesticide residues that exceed provisions specified in 40 CFR, Part 180 Tolerances and Exemptions for Pesticides Chemicals Residues in Food.

310:258-7-4. Standards of identity

Packaged food shall comply with standard of identity requirements in 21 CFR, Sections 131-169 and 9 CFR, Section 319, Definitions and Standards of Identity or Composition, and the General requirements in 21 CFR, Part 130 - Food Standards: General, and 9 CFR, Section 319 Subpart A - General.

310:258-7-5. Food labels

(a) Packaged food shall be labeled as specified in law, including 21 CFR, Part 101 - Food Labeling, and 9 CFR, Part 317 Labeling, Marking Devices, and Containers.

(b) Label information shall include:

- (1) The common name of the food, or absent a common name, an adequately descriptive identity statement;
- (2) If made from two or more ingredients, a list of ingredients and sub-ingredients in descending order of predominance by weight, including a declaration of artificial colors, artificial flavors, and chemical preservatives, if contained in the food;
- (3) An accurate declaration of the quantity of contents;
- (4) The name and place of business of the manufacturer, packer, or distributor; and
- (5) The name of the food source for each major food allergen contained in the food unless the food source is already part of the common or usual name of the respective ingredient.
- (6) Except as exempted in the Federal Food, Drug, and Cosmetic Act, 21 U.S.C., Section 343, nutrition labeling as specified in 21 CFR, Part 101 - Food Labeling and 9 CFR, Part 317 Subpart B, Nutrition Labeling.
- (7) For any salmonid fish containing canthaxanthin or astaxanthin as a color additive, the labeling of the bulk fish container, including a list of ingredients, displayed on the retail container or by other written means, such as a counter card, that discloses the use of canthaxanthin or astaxanthin.

310:258-7-6. Compliance with food law

(a) Food shall be obtained from sources that comply with this Chapter.

An establishment can sell packaged foods prepared by a facility that is in compliance with OAC 310:260 (relating to good manufacturing practices), United States Department of Agriculture, or the Oklahoma Department of Agriculture Food and Forestry.

(b) Food prepared in a private home shall not be used or offered for human consumption in an unattended food establishment.

310:258-7-7. Approved water system

A license holder shall obtain potable water from:

- (1) A community water system; or
- (2) A non-community water system; or
- (3) A non-transient, non-community water system that is constructed, maintained and operated in accordance with the Oklahoma Water Supply Systems Act, codified

at 27A O.S. Section 2-6-301 et seq., and the rules promulgated thereunder.

310:258-7-8. Bottled drinking water

Bottled drinking water used or sold in an unattended food establishment shall be obtained from approved sources in accordance with 21 CFR, Part 129 - Processing and Bottling of Bottled Drinking Water and OAC 310:225.

310:258-7-9. Milk products

As specified in 2 O.S. Section 7-401 et seq., food products listed below shall in the case of:

- (1) Milk products shall be obtained pasteurized and comply with Grade A Standards;
- (2) Frozen milk products, such as ice cream; and
- (3) Cheese.

310:258-7-10. Fish

- (a) Fish that are received for sale or service shall be:
 - (1) Commercially and legally caught or harvested; or
 - (2) Approved for sale or service.
- (b) Raw molluscan shellfish may not be received for sale.

310:258-7-11. Juice

Pre-packaged juice shall:

- (1) Be obtained from a processor with a HACCP system as specified in 21 CFR, Part 120 Hazard Analysis and Critical Control (HACCP) Systems; and
- (2) Be obtained pasteurized or otherwise treated to attain a 5-log reduction of the most resistant microorganism of public health significance as specified in 21 CFR, Part 120.24 Process Controls.

310:258-7-12. Food in a hermetically sealed container

Food in a hermetically sealed container shall be obtained from a food processing plant that is regulated by the food regulatory agency that has jurisdiction over the plant.

310:258-7-13. Package integrity

Food packages shall be in good condition and protect the integrity of the contents so that the food is not exposed to adulteration or potential contaminants.

310:258-7-14. Vended time/temperature control for safety food, original container

Time/Temperature Control for Safety Food dispensed through a vending machine, vending unit, or customer self-service unit shall be in the package in which it was placed at the unattended food establishment or food processing plant at which it was prepared.

310:258-7-15. Temperature

- (a) Except as specified in (b) of this Section, refrigerated, Time/Temperature Control for Safety Food shall be at a temperature of 5°C (41°F) or below when received.
- (b) If a temperature other than 5°C (41°F) for a Time/Temperature Control for Safety Food is specified in law governing its distribution, the food may be received at the specified temperature.
- (c) A food that is labeled frozen and shipped frozen by a food processing plant shall be received frozen.
- (d) Upon receipt, Time/Temperature Control for Safety Food shall be free of evidence of previous temperature abuse.

310:258-7-16. Frozen food

Stored frozen foods shall be maintained frozen.

310:258-7-17. Thawing

Time/Temperature Control for Safety Food shall be thawed under refrigeration that maintains the food temperature at 5°C (41°F) or less.

310:258-7-18. Time/temperature control for safety food cold holding

Time/Temperature Control for Safety Food for cold holding shall be maintained at a temperature of 5°C (41°F) or less.

310:258-7-19. Discarding unsafe, adulterated, or contaminated food

- (a) A food that is unsafe, adulterated, or not honestly presented shall be discarded.
- (b) Food that is not from an approved source shall be discarded.
- (c) Time/Temperature Control for Safety Food shall be discarded if it:
 - (1) Exceeds the use by date on the package,
 - (2) Exceeds 41°F for 4 hours.
- (d) Food may be examined or sampled by the Department as often as necessary for enforcement of these rules and regulations. The Department may place an embargo on food in accordance with the provisions of Title 63 O.S. Section 1-1105.

310:258-7-20. Storage or display of food in contact with water or ice

Packaged food shall not be stored in direct contact with ice or water.

310:258-7-21. Food and single service article storage

- (a) Except as specified in (b) and (c) of this Section, food and single service articles shall be protected from contamination by storing the food:
 - (1) In a clean, dry location;
 - (2) Where it is not exposed to splash, dust, or other contamination; and
 - (3) At least 15 cm (6 inches) above the floor.

Permanent Final Adoptions

(b) Food in packages and working containers may be stored less than 15 cm (6 inches) above the floor on case lot handling equipment.

(c) Pressurized beverage containers, cased food in water-proof containers such as bottles or cans, and milk containers in plastic crates may be stored on a floor that is clean and not exposed to floor moisture.

310:258-7-22. Food and single service article storage, prohibited areas

Food and single-service articles may not be stored:

- (1) In locker rooms;
- (2) In toilet rooms;
- (3) In dressing rooms;
- (4) In garbage rooms;
- (5) In mechanical rooms;
- (6) Under sewer lines that are not shielded to intercept potential drips;
- (7) Under leaking water lines, including leaking automatic fire sprinkler heads, or under lines on which water has condensed;
- (8) Under open stairwells; or
- (9) Under other sources of contamination.

310:258-7-23. Food display

Except for nuts in the shell and whole, raw fruits and vegetables that are intended for hulling, peeling, or washing by the consumer before consumption, food on display shall be protected from contamination by the use of packaging.

310:258-7-24. Condiments, protection

Condiments at a vending machine location shall be in individual packages.

310:258-7-25. Returned food and re-use of single service article

- (a) After being sold and in the possession of a consumer, food that is unused or returned by the consumer may not be offered as food for human consumption.
- (b) The permit holder shall take reasonable steps necessary to discourage individuals from returning food or beverages that have not been selected for purchase.
- (c) Single-service articles may not be reused.

310:258-7-26. Miscellaneous sources of contamination

Food shall be protected from contamination not otherwise specified.

SUBCHAPTER 9. EQUIPMENT CONSTRUCTION

310:258-9-1. Single-service article characteristics

Materials that are used to make single-service articles:

- (1) May not:

(A) Allow the migration of deleterious substances, or

(B) Impart colors, odors, or tastes to food; and

(2) Shall be:

(A) Safe, and

(B) Clean.

310:258-9-2. Nonfood-contact surfaces

(a) Nonfood-contact surfaces of equipment that are exposed to splash, spillage, or other food soiling or that require frequent cleaning shall be constructed of a corrosion-resistant, nonabsorbent, and smooth material.

(b) Nonfood-contact surfaces shall be free of unnecessary ledges, projections, and crevices, and designed and constructed to allow easy cleaning and to facilitate maintenance.

(c) Nonfood-contact surfaces of equipment shall be kept free of an accumulation of dust, dirt, food residue, and other debris.

(d) Nonfood-contact surfaces of equipment shall be cleaned at a frequency necessary to preclude accumulation of soil residues.

310:258-9-3. Equipment

Equipment used in an unattended food establishment shall be designated as "commercial" or "commercial grade" by the manufacturer if the equipment is used to meet or maintain temperature for time/temperature control for safety food. Equipment shall be designed and constructed to be durable and to retain their characteristic qualities under normal use conditions.

310:258-9-4. Cold holding capacities

Equipment for holding cold food shall be sufficient in number and capacity to maintain food temperatures at 41°F or below.

310:258-9-5. Cold holding equipment, design

Each cold holding unit shall be equipped with:

(1) Self-closing doors that allow food to be viewed without opening the door of the unit.

(2) An automatic self-locking mechanism that prevents the consumer from accessing the food items inside the unit if the ambient temperature rises above 41°F. The locking mechanism shall not prevent the unit from being closed if it has been activated.

310:258-9-6. Frozen holding equipment, design

Each frozen holding unit shall be equipped with:

(1) Self-closing doors that allow food to be viewed without opening the door of the unit.

(2) An automatic self-locking mechanism that prevents the consumer from accessing the food items inside the unit if the ambient temperature rises above 32°F. The locking mechanism shall not prevent the unit from being closed if it has been activated.

310:258-9-7. Temperature measuring devices for ambient air

- (a) Ambient air temperature measuring devices that are scaled in Celsius or dually scaled in Celsius and Fahrenheit shall be designed to be easily readable and accurate to 1.5°C in the intended range of use.
- (b) Ambient air temperature measuring devices that are scaled only in Fahrenheit shall be accurate to 3°F in the intended range of use.

310:258-9-8. Temperature measuring devices

- (a) In a mechanically refrigerated storage unit, the sensor of a temperature measuring device shall be located to measure the air temperature in the warmest part of a mechanically refrigerated unit.
- (b) Cold holding equipment used for potentially hazardous food shall be designed to include and shall be equipped with at least one integral or permanently affixed temperature measuring device that is located to allow easy viewing of the device's temperature display.
- (c) Temperature measuring devices shall be designed to be easily readable.

310:258-9-9. Condenser unit, separation

If a condenser unit is an integral component of equipment, the condenser unit shall be separated from the food and food storage space by a dustproof barrier.

310:258-9-10. Case lot handling equipment

Equipment, such as dollies, pallets, racks, and skids used to store and transport large quantities of packaged foods received from a supplier in a cased or overwrapped lot, shall be designed to be moved by hand or by conveniently available equipment such as hand trucks and forklifts.

310:258-9-11. Fixed equipment, spacing or sealing

- (a) Equipment that is fixed because it is not easily movable shall be installed so that it is:
 - (1) Spaced to allow access for cleaning along the sides, behind, and above the equipment;
 - (2) Spaced from adjoining equipment, walls, and ceilings a distance of not more than 1 millimeter or one thirty-second inch; or
 - (3) Sealed to adjoining equipment or walls, if the equipment is exposed to spillage or seepage.
- (b) Counter-mounted equipment that is not easily movable shall be installed to allow cleaning of the equipment and areas underneath and around the equipment by being:
 - (1) Sealed to the counter; or
 - (2) Elevated on legs.

310:258-9-12. Fixed equipment, elevation or sealing

- (a) Floor-mounted equipment that is not easily movable shall be sealed to the floor or elevated on legs that provide at

least a 15 centimeter (6 inch) clearance between the floor and the equipment.

- (b) This Section does not apply to display shelving units, display refrigeration units, and display freezer units located in the consumer shopping areas of a retail food store, if the floor under the units is maintained clean.
- (c) Counter-mounted equipment that is not easily movable shall be elevated on legs that provide at least a 10 centimeter (4 inch) clearance between the table and the equipment.
- (d) The clearance space between the counter and counter-mounted equipment may be:
 - (1) 7.5 centimeters (3 inches) if the horizontal distance of the counter top under the equipment is no more than 50 centimeters (20 inches) from the point of access for cleaning; or
 - (2) 5 centimeters (2 inches) if the horizontal distance of the counter top under the equipment is no more than 7.5 centimeters (3 inches) from the point of access for cleaning.

310:258-9-13. Good repair and proper adjustment

- (a) Equipment shall be maintained in a state of good repair.
- (b) Equipment components such as doors, seals, hinges, fasteners, and kick plates shall be kept intact, tight, and adjusted in accordance with manufacturer's specifications.

310:258-9-14. Microwave ovens

- (a) Microwave ovens shall meet the safety standards specified in 21 CFR, Section 1030.10 Microwave ovens.
- (b) The cavities and door seals of microwave ovens shall be cleaned at least every 24 hours by using the manufacturer's recommended cleaning procedure.

SUBCHAPTER 11. FACILITY CONSTRUCTION

310:258-11-1. Location limitation

An unattended food establishment shall be located in the interior of a building that is not accessible by the general public. Access to the establishment shall be limited to a defined population, including but not limited to employees or occupants of the building where the establishment is located.

310:258-11-2. Video surveillance

An unattended food establishment shall provide continuous video surveillance of areas where consumers view, select, handle and purchase products that provides sufficient resolution to identify situations that may compromise food safety or food defense.

- (1) Video surveillance recordings shall be maintained and made available for inspection upon request by a representative of the State Department of Health or another applicable regulatory agency within twenty-four (24) hours of such request.

Permanent Final Adoptions

(2) Video surveillance recordings shall be held by the establishment for a minimum of fourteen (14) calendar days after the date of the surveillance.

310:258-11-3. Floors, walls, and ceiling, characteristics

(a) Materials for floor, wall, and ceiling surfaces under conditions of normal use shall be:

(1) Smooth, durable, and easily cleanable for areas where unattended food establishment operations are conducted.

(2) Light Reflectivity Value (LRV) of walls and ceiling surfaces shall be fifty percent (50%) or greater to aid in thorough cleaning of these areas.

(b) Except for antislip floor coverings or applications that may be used for safety reasons, floors, floor coverings, walls, wall coverings, and ceilings shall be designed, constructed, and installed so they are smooth and easily cleanable.

(c) Mats and duckboards used on the floor shall be designed to be removable and easily cleanable.

(d) Floor and wall junctures shall be coved and closed to no larger than one (1) mm (one thirty-second 1/32 inch).

(e) Studs, joists, and rafters may not be exposed.

(f) Wall and ceiling covering materials shall be attached so that they are easily cleanable.

(g) Concrete, porous blocks, or bricks used for indoor wall construction shall be finished and sealed to provide a smooth, nonabsorbent, easily cleanable surface.

(h) Utility service lines and pipes may not be unnecessarily exposed.

(1) Exposed utility service lines and pipes shall be installed so they do not obstruct or prevent cleaning of the floors, walls, or ceilings.

(2) Exposed horizontal utility service lines and pipes may not be installed on the floor.

(i) Attachments to walls and ceilings such as light fixtures, mechanical room ventilation system components, vent covers, wall mounted fans, decorative items, and other attachments shall be easily cleanable.

310:258-11-4. Exterior walls and roofs

Perimeter walls and roofs of an establishment shall effectively protect the establishment from the weather and the entry of insects, rodents, and other animals.

310:258-11-5. Lighting, intensity

The light intensity shall be at least 108 lux (10 foot candles) at a distance of 75 cm (30 inches) above the floor, in walk-in refrigeration units and dry food storage areas and in other areas and rooms during periods of cleaning.

310:258-11-6. Approved plumbing system

A plumbing system shall be designed, constructed, installed and maintained according to law.

310:258-11-7. Receptacles

(a) Receptacles and waste handling units for refuse, recyclables, and returnables and for use with materials containing food residue shall be durable, cleanable, insect- and rodent-resistant, leak-proof, and nonabsorbent.

(b) Receptacles and waste handling units for refuse, recyclables, and returnables shall be thoroughly cleaned in a way that does not contaminate food, equipment, or single-service articles, and waste water shall be disposed of as specified by law.

(c) Soiled receptacles and waste handling units for refuse, recyclables, and returnables shall be cleaned at a frequency necessary to prevent them from developing a buildup of soil or becoming attractants for insects and rodents.

(e) Refuse, recyclables, and returnables shall be removed from the premises at a frequency that will minimize the development of objectionable odors and other conditions that attract or harbor insects and rodents.

310:258-11-8. Storage areas, redeeming machines, receptacles, and waste handling units, location

(a) An area designated for refuse, recyclables, returnables, and, except as specified in (b) of this Section, a redeeming machine for recyclables or returnables shall be located so that it is separate from food, equipment, and single-service articles to prevent the creation of a public health hazard or nuisance.

(b) A redeeming machine may be located in the packaged food storage area or consumer area of an establishment, if food, equipment, and single-service and single-use articles are not subject to contamination from the machines and a public health hazard or nuisance is not created.

(d) Refuse, recyclables, and returnables shall be stored in receptacles or waste handling units so that they are inaccessible to insects and rodents.

(e) Storage areas, enclosures, and receptacles for refuse, recyclables, and returnables shall be maintained in good repair.

(f) A storage area and enclosure for refuse, recyclables, or returnables shall be maintained free of unnecessary items and clean.

SUBCHAPTER 13. ADMINISTRATION

310:258-13-1. Preventing health hazards, provision for conditions not addressed

(a) If necessary to protect against public health hazards or nuisances, the Department may impose specific requirements in addition to the requirements contained in this Chapter that are authorized by law.

(b) The Department shall document the conditions that necessitate the imposition of additional requirements and the underlying public health rationale. The documentation shall be provided to the license applicant or license holder and a copy shall be maintained in the Department file for the unattended food establishment.

310:258-13-2. When plans are required

A license applicant or license holder shall submit to the Department properly prepared plans and specifications for review and approval before:

- (1) The construction of an unattended food establishment;
- (2) The conversion of an existing structure for use as an unattended food establishment.

310:258-13-3. Contents of the plans and specifications

The plans and specifications for an unattended food establishment shall include the following information to demonstrate conformance with Code provisions:

- (1) Intended menu;
- (2) Anticipated volume of food to be stored and sold;
- (3) Proposed equipment types, manufacturer, and model numbers (if available);
- (4) Proposed floor plan; and
- (5) Other information that may be required by the Department for the proper review of the proposed construction, conversion or modification, and procedures for operating an unattended food establishment.

310:258-13-4. Trade secrets

The Department shall treat as confidential in accordance with law, information that meets the criteria specified in law for a trade secret and is contained on inspection report forms and in the plans and specifications submitted.

310:258-13-5. Preoperational inspections

The Department shall conduct one or more preoperational inspections to verify that the unattended food establishment is constructed and equipped in accordance with the approved plans and is in compliance with law and this Chapter.

310:258-13-6. Prerequisite for operation

A person may not operate an unattended food establishment without a valid license to operate issued by the Commissioner of Health.

310:258-13-7. Unattended food establishment license fee

(a) The following are associated fees for unattended food establishments.

- (1) Initial - \$150.00
- (2) Renewal - \$100.00
- (3) Late Renewal - \$125.00

(b) Late renewal fees apply to any renewal application postmarked and/or received thirty (30) days after the expiration date of the license.

(c) A license not renewed within ninety (90) days of the date shall be ineligible for the renewal fee. Thereafter, the establishment shall be required to pay the initial fee. The establishment that has not had a valid license for one (1) year is considered

a new establishment and a new Plan and the initial license fee shall be required.

310:258-13-8. Form of submission

A person desiring to operate an unattended food establishment shall submit to the Department a written application for a license on a form provided by the Department.

310:258-13-9. Qualifications and responsibilities of applicants

To qualify for a license, an applicant shall:

- (1) Be an owner, or officer of the unattended food establishment;
- (2) Comply with the requirements of this Chapter;
- (3) Allow access to the unattended food establishment;
- (5) Provide any required information;
- (6) Pay the applicable license fees at the time the application is submitted;
- (7) Pay the applicable license renewal fees.

310:258-13-10. Contents of the application

The application shall include:

- (1) The name, mailing address, telephone number, signature of the person applying for the license, and the name, mailing address, and location of the unattended food establishment;
- (2) Information specifying whether the unattended food establishment is owned by an association, corporation, individual, partnership, or other legal entity;
- (3) The Department shall issue a license to the applicant after:
 - (A) A properly completed application is received;
 - (B) The required fees are received;
 - (C) The plans, specifications, and information, if applicable, are reviewed; and
 - (D) A pre-licensing inspection shows that the establishment is built or remodeled in accordance with the approved plans and specifications and that the establishment is in compliance with this Chapter and meets the Department's criteria for a license; or any
 - (E) Other information required by the Department.

310:258-13-11. New, converted, or remodeled establishments

For unattended food establishments that are required to submit plans, the Commissioner of Health shall issue a license to the applicant after:

- (1) A properly completed application is submitted;
- (2) The required fee is submitted;
- (3) The required plans, specifications, and information are reviewed and approved; and
- (4) A preoperational inspection shows that the establishment is built or remodeled in accordance with the approved plans; and
- (5) Specifications that the establishment is in compliance with this Chapter.

Permanent Final Adoptions

310:258-13-12. Existing establishments, license renewal, and change of ownership

The Commissioner of Health may renew a license for an existing unattended food establishment or may issue a license to a new owner of an existing unattended food establishment after a properly completed application is submitted, reviewed, and approved, the fees are paid, and an inspection shows that the establishment is in compliance with this Chapter.

310:258-13-13. Denial of application for license, notice

If an application for a license to operate is denied, the Department shall provide the applicant with a notice that includes:

- (1) The specific reasons and Chapter citations for the license denial;
- (2) The actions, if any, that the applicant must take to qualify for a license; and
- (3) Advisement of the applicant's right of appeal.

310:258-13-14. Responsibilities of the license holder

Upon acceptance of the license issued by the Commissioner of Health, the license holder in order to retain the license shall:

- (1) Post the license in a prominent public location inside the unattended food establishment;
- (2) Comply with the provisions of this Chapter;
- (3) Immediately discontinue operations and notify the Department if an imminent health hazard may exist as specified under OAC 310:285-13-26;
- (4) Allow representatives of the Department access to the unattended food establishment;
- (5) Comply with directives of the Department including time frames for corrective actions specified in inspection reports, notices, orders, warnings, and other directives issued by the Department in regard to the license holder's unattended food establishment or in response to community emergencies;
- (6) Accept notices issued and served by the Department according to law;
- (7) Be subject to the administrative, civil, injunctive, and criminal remedies authorized in law for failure to comply with this Chapter or a directive of the Department, including time frames for corrective actions specified in inspection reports, notices, orders, warnings, and other directives; and
- (8) If applicable, submit the annual renewal application and pay all renewal license and late fees.

310:258-13-15. Public notification

The unattended food establishment shall have a sign readily visible at the automated payment station stating:

- (1) The name and mailing address of the business entity responsible for the establishment and to whom complaints and comments should be addressed; and
- (2) The telephone, email or web information for the responsible business entity, when applicable.

310:258-13-16. Licenses not transferable

A license may not be transferred from one person to another person, from one unattended food establishment to another, from one physical address to another, from one corporation to another, from one limited liability company or corporation to another, from one partnership to another, or from one type of operation to another.

310:258-13-17. Competency of inspectors

An authorized representative of the Department who inspects an establishment or conducts plan review for compliance with this Chapter shall have the knowledge, skills, and ability to adequately perform the required duties, and be licensed pursuant to 59 O.S., Section 1150.1 et seq.

310:258-13-18. Allowed at reasonable times after due notice

After the Department presents official credentials and provides notice of the purpose of, and an intent to conduct, an inspection, the person in charge shall allow the Department to determine if the unattended food establishment is in compliance with this Chapter by allowing access to the establishment, allowing inspection, and providing information and records specified in this Chapter and to which the Department is entitled according to law.

310:258-13-19. Refusal, notification of right to access, and final request for access

If a person denies access to the Department, the Department shall:

- (1) Inform the person that:
 - (A) The license holder is required to allow access to the Department as specified under OAC 310:285-13-18 of this Chapter,
 - (B) The Department's Access is a condition of the acceptance and retention of an unattended food establishment license to operate as specified under OAC 310:285-11-14(4), and
 - (C) If access is denied, an order issued allowing access, hereinafter referred to as an inspection order, may be obtained according to law; and
- (2) Make a final request for access.

310:258-13-20. Refusal, reporting

If after the Department presents credentials and provides notice as specified under OAC 310:285-13-18, explains the authority upon which access is requested, and makes a final request for access as specified in OAC 310:285-13-19, the person in charge continues to refuse access, the Department shall provide details of the denial of access on an inspection report form.

310:258-13-21. Inspection order to gain access

If denied access to an unattended food establishment for an authorized purpose and after complying with OAC

310:285-13-19, the Department may issue, or apply for the issuance of, an inspection order to gain access as provided in law.

310:258-13-22. Documenting information and observations

The Department shall document on an inspection report form:

- (1) Administrative information about the unattended food establishment's legal identity, street and mailing addresses, type of establishment and operation as specified, inspection date, and other information that may be required; and
- (2) Specific factual observations of violative conditions or other deviations from this Chapter that require correction by the license holder.

310:258-13-23. Issuing report and obtaining acknowledgment of receipt

At the conclusion of the inspection, the Department shall provide a copy of the completed inspection report and the notice to correct violations to the license holder or to the person in charge, and request a signed acknowledgment of receipt.

310:258-13-24. Refusal to sign acknowledgment

The Department shall:

- (1) Inform a person who declines to sign an acknowledgment of receipt of inspectional findings as specified under OAC 310:285-13-23:
 - (A) An acknowledgment of receipt is not an agreement with findings,
 - (B) Refusal to sign an acknowledgment of receipt will not affect the license holder's obligation to correct the violations noted in the inspection report within the timeframes specified, and
 - (C) A refusal to sign an acknowledgment of receipt is noted in the inspection report and conveyed to the Department's historical record for the unattended food establishment; and
- (2) Make a final request that the person in charge sign an acknowledgment receipt of inspectional findings.

310:258-13-25. Public information

Except as specified in OAC 310:285-13-4, the Department shall treat the inspection report as a public document and shall make it available for disclosure to a person who requests it as provided in law.

310:258-13-26. Ceasing operations and reporting

A license holder shall immediately discontinue operations and notify the Department if an imminent health hazard exists because of an emergency such as a fire, flood, sewage backup, insufficient refrigerated food storage facilities available, substantial evidence or presence of a large number of insects or evidence of rodents contaminating food, misuse of poisonous

or toxic materials, onset of an apparent foodborne illness outbreak, interruption of electrical service for more than 4 hours, severe structural damage in the facility, gross unsanitary occurrence or condition, or other circumstance as determined by the Commissioner of Health, or his designee, that shall endanger public health.

310:258-13-27. Resumption of operations

If operations are discontinued as specified under OAC 310:285-13-26 or otherwise according to law, the license holder shall notify the Department before resuming operations.

310:285-13-28. Timely correction

- (a) The license holder shall at the time of inspection correct any violation of this Chapter.
- (b) Considering the nature of the potential hazard involved and the complexity of the corrective action needed, the Department may agree to or specify a longer time frame, not to exceed 10 calendar days after the inspection, for the license holder to correct a violation.
- (c) If corrections are not made according to (a) or (b) of this section, then the facility is subject to enforcement action.

310:258-13-29. Documentation of correction

- (a) After observing at the time of inspection a correction of a violation, the Department shall enter the violation and information about the corrective action on the inspection report.
- (b) After receiving notification that the license holder has corrected a violation, or at the end of the specified period of time, the Department shall document the information and enter the report in the Department's records.
- (c) In determining if a re-inspection is required, the Department shall count a violation number only once regardless of how many separate violations under the violation number are listed on the inspection sheet.

8:00 a.m. to 5:00 p.m., Monday through Friday, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-4200

GIST/ANALYSIS:

The current rule declares a need to regulate food manufacturing to provide uniformity of inspections to protect consumers from adulterated or misbranded foods. The proposed rule implements 63 O.S. Section 1-1101 et seq to protect consumers from adulterated or misbranded foods, and establish definitions, set standards, provides for food establishment plan review, license issuance, inspection, employee restriction, and license suspension. The proposed rule states all criteria in the chapter shall apply to all food manufacturing, processing, packing, holding, transporting, or salvage operations conducted within the State of Oklahoma.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

310:260-1-1. Purpose; citation

(a) The rules in this Chapter implement 63 O.S. Section 1-1101 et seq. The purpose of this Chapter is to safeguard public health and provide to consumers food that is safe, unadulterated, and honestly presented. This Chapter establishes definitions; sets standards for management and personnel, food operations, and equipment and facilities; and

provides for food establishment plan review, license issuance, inspection, employee restriction, and license suspension. ~~The Oklahoma State Board of Health finds and declares that a uniform statewide code is needed to regulate all food manufacturing, processing, packing, holding, transporting or salvaging operations conducting business within the State of Oklahoma, to provide for uniformity in inspecting of such establishments, and to protect the health of consumers by preventing the sale or distribution of foods which have become adulterated or misbranded.~~

(b) These rules and regulations may be cited as the Human Foods Good Manufacturing Practice Regulations.

310:260-1-2. Scope

The criteria in ~~this chapter~~ subchapter 3 shall apply to all food manufacturing, processing, packing, holding, transporting, or salvage operations conducted within the State of Oklahoma in determining whether the facilities, methods, practices, and controls used in the manufacture, processing, packing, salvaging or holding of food are in conformance with or are operated or administered in conformity with good manufacturing practices to ensure that food for human consumption is safe and has been prepared, packaged, salvaged, or held under sanitary conditions.

310:260-1-3. Incorporation by reference

(a) ~~Title 21, Parts 70 through 73A, 74A, 80 through 82B, 100 through 197, 1210, 1220, and 1250, Code of Federal Regulations (CFR), as of April 1, 1991, issued under the Federal Food, Drug and Cosmetic Act of April 1, 1986 are hereby incorporated by reference into this regulation, except: Parts 104.19, 109.5, 170.15, and 171. The following Code of Federal Regulation (CFR) provisions are incorporated by reference as published on July 1, 2019:~~

- (1) Title 21 CFR, Part 70 COLOR ADDITIVES;
- (2) Title 21 CFR, Part 73 LISTING OF COLOR ADDITIVES EXEMPT FROM CERTIFICATION, Subpart A-Foods;
- (3) Title 21 CFR, Part 82 LISTING OF CERTIFIED PROVISIONALLY LISTED COLORS AND SPECIFICATIONS, Subpart A-General Provisions and Subpart B-Foods, Drugs, and Cosmetics;
- (4) Title 21 CFR, Part 100 GENERAL;
- (5) Title 21 CFR, Part 101 FOOD LABELING;
- (6) Title 21 CFR, Part 102 COMMON OR USUAL NAME FOR NONSTANDARDIZED FOODS;
- (7) Title 21 CFR, Part 104 NUTRITIONAL QUALITY GUIDELINES FOR FOODS;
- (8) Title 21 CFR, Part 105 FOODS FOR SPECIAL DIETARY USE;
- (9) Title 21 CFR, Part 106 INFANT FORMULA REQUIREMENTS PERTAINING TO CURRENT GOOD MANUFACTURING PRACTICE, QUALITY CONTROL PROCEDURES, QUALITY FACTORS, RECORDS AND REPORTS, AND NOTIFICATIONS;
- (10) Title 21 CFR, Part 107 INFANT FORMULA;

(11) Title 21 CFR, Part 109 UNAVOIDABLE CONTAMINANTS IN FOOD FOR HUMAN CONSUMPTION AND FOOD-PACKAGING MATERIAL, Subpart A-General Provisions and Subpart B-Tolerances for Unavoidable Poisonous or Deleterious Substances;

(12) Title 21 CFR, Part 110 CURRENT GOOD MANUFACTURING PRACTICE IN MANUFACTURING, PACKING, OR HOLDING HUMAN FOOD;

(13) Title 21 CFR, Part 111 CURRENT GOOD MANUFACTURING PRACTICE IN MANUFACTURING, PACKAGING, LABELING, OR HOLDING OPERATIONS FOR DIETARY SUPPLEMENTS;

(14) Title 21 CFR, Part 113 THERMALLY PROCESSED LOW-ACID FOODS PACKAGED IN HERMETICALLY SEALED CONTAINERS;

(15) Title 21 CFR, Part 114 ACIDIFIED FOODS;

(16) Title 21 CFR, Part 120 HAZARD ANALYSIS AND CRITICAL CONTROL POINT (HACCP) SYSTEMS;

(17) Title 21 CFR, Part 123 FISH AND FISHERY PRODUCTS;

(18) Title 21 CFR, Part 129 PROCESSING AND BOTTLING OF BOTTLED DRINKING WATER;

(19) Title 21 CFR, Part 136 BAKERY PRODUCTS;

(20) Title 21 CFR, Part 137 CEREAL FLOURS AND RELATED PRODUCTS;

(21) Title 21 CFR, Part 139 MACARONI AND NOODLE PRODUCTS;

(22) Title 21 CFR, Part 145 CANNED FRUITS;

(23) Title 21 CFR, Part 146 CANNED FRUIT JUICES;

(24) Title 21 CFR, Part 150 FRUIT BUTTERS, JELLIES, PRESERVES, AND RELATED PRODUCTS;

(25) Title 21 CFR, Part 152 FRUIT PIES;

(26) Title 21 CFR, Part 155 CANNED VEGETABLES;

(27) Title 21 CFR, Part 156 VEGETABLE JUICES;

(28) Title 21 CFR, Part 158 FROZEN VEGETABLES;

(29) Title 21 CFR, Part 160 EGGS AND EGG PRODUCTS;

(30) Title 21 CFR, Part 161 FISH AND SHELLFISH;

(31) Title 21 CFR, Part 163 CACAO PRODUCTS;

(32) Title 21 CFR, Part 164 TREE NUT AND PEANUT PRODUCTS;

(33) Title 21 CFR, Part 166 MARGARINE;

(34) Title 21 CFR, Part 168 SWEETENERS AND TABLE SIRUPS;

(35) Title 21 CFR, Part 169 FOOD DRESSINGS AND FLAVORINGS;

(36) Title 21 CFR, Part 170 FOOD ADDITIVES;

(37) Title 21 CFR, Part 172 FOOD ADDITIVES PERMITTED FOR DIRECT ADDITION TO FOOD FOR HUMAN CONSUMPTION;

(38) Title 21 CFR, Part 173 SECONDARY DIRECT FOOD ADDITIVES PERMITTED IN FOOD FOR HUMAN CONSUMPTION;

(39) Title 21 CFR, Part 174 INDIRECT FOOD ADDITIVES: GENERAL;

(40) Title 21 CFR, Part 175 INDIRECT FOOD ADDITIVES: ADHESIVES AND COMPONENTS OF COATINGS;

(41) Title 21 CFR, Part 176 INDIRECT FOOD ADDITIVES: PAPER AND PAPERBOARD COMPONENTS;

(42) Title 21 CFR, Part 177 INDIRECT FOOD ADDITIVES: POLYMERS;

(43) Title 21 CFR, Part 178 INDIRECT FOOD ADDITIVES: ADJUVANTS, PRODUCTION AIDS, AND SANITIZERS;

(44) Title 21 CFR, Part 179 IRRADIATION IN THE PRODUCTION, PROCESSING AND HANDLING OF FOOD;

(45) Title 21 CFR, Part 180 FOOD ADDITIVES PERMITTED IN FOOD OR IN CONTACT WITH FOOD ON AN INTERIM BASIS PENDING ADDITIONAL STUDY;

(46) Title 21 CFR, Part 181 PRIOR-SANCTIONED FOOD INGREDIENTS;

(47) Title 21 CFR, Part 182 SUBSTANCES GENERALLY RECOGNIZED AS SAFE;

(48) Title 21 CFR, Part 184 DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE;

(49) Title 21 CFR, Part 186 INDIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE;

(50) Title 21 CFR, Part 189 SUBSTANCES PROHIBITED FROM USE IN HUMAN FOOD.

(b) For purposes of the provisions adopted by reference, references to the "Secretary" or "Commissioner" shall be deemed to mean the Commissioner of Health for the State of Oklahoma, and "Department" shall be deemed to mean the Oklahoma State Department of Health.

(c) When a provision of the Code of Federal Regulations is incorporated by reference, all citations contained therein are also incorporated by reference, and the definitions contained therein shall apply.

(d) In the event that there are inconsistencies or duplications in the requirements of those provisions incorporated by reference from the CFR, and the requirements otherwise set forth herein, the provisions incorporated from the CFR shall prevail except where the regulations set forth herein are more stringent.

310:260-1-6. Definitions

The following words or terms, when used in this chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"**Acid food or acidified food**" means foods that have an equilibrium pH of 4.6 or below.

"**Act**" means ~~Article 11 (Food) of the Oklahoma Public Health Code, Title 63 O.S. 1-1101 et seq., as amended.~~

"**Additive**" means as used in this Chapter the following terms:

(A) "**Color additive**" means as stated in the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. Section 321(t) and 21 CFR, Part 70.

(B) **"Food additive"** means as stated in the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. Section 321(s) and 21 CFR, Part 170.

"Adequate" means that which is needed to accomplish the intended purpose in keeping with good public health practice.

"Adulterated" means the definition in 63 O.S. Section 1-1109.

"Approved" means acceptable to the Department based on a determination of conformity with principles, practices, and generally recognized standards that protect public health.

"Batter" means a semi-fluid substance, usually composed of flour and other ingredients, into which principal components of food are dipped or with which they are coated, or which may be used directly to form bakery foods.

"Beverage" means a liquid for drinking, including water.

"Bin warehouse" means any building where pre-packaged food is stored, the operator or his employee is present no more than two hours daily, and no other operations are conducted.

"Blanching", except for tree nuts and peanuts, means a prepackaging heat treatment of food stuffs for a sufficient time and at a sufficient temperature to partially or completely inactivate the naturally occurring enzymes and to effect other physical or bio-chemical changes in food.

"CFR" means Code of Federal Regulations. Citations in this Chapter to the CFR refer sequentially to the Title, Part, and Section numbers, such as 21 CFR, 178.1010 refers to Title 21, Part 178, Section 1010.

"Code of Federal Regulations" means the compilation of the general and permanent rules published in the Federal Register by the executive departments and agencies of the federal government which is published annually by the U.S. Government Printing Office; and contains FDA rules in 21 CFR, USDA rules in 7 CFR and 9 CFR, EPA rules in 40 CFR, and Wildlife and Fisheries rules in 50 CFR.

"Control measure" means any action or activity to prevent, reduce to acceptable levels, or eliminate a hazard.

"Corrosion-resistant" means capable of maintaining original surface characteristics under prolonged influence of the food to be contacted, the normal use of cleaning compounds and bactericidal solutions, and other conditions-of-use.

"Critical control point" means a point or procedure in a specific food process at which a control measure can be applied and at which control is essential to reduce an identified food hazard to an acceptable level in a food process where there is a high probability that improper control may cause, allow, or contribute to a hazard or filth in the final food or decomposition of the final food.

"Custom tree nut/peanut cracking" means the cracking of whole tree nuts/peanuts for individual customers. The tree nuts/peanuts may be brought by the customer from off the premises or may be purchased from the cracker. Tree nuts/peanuts may not be cracked for resale.

"Department" means the Oklahoma State Department of Health and its duly designated representatives, and a health department designated in writing by the State Commissioner of

Health to perform official duties or other acts authorized under the Oklahoma Public Health Code and this Chapter.

"Distressed merchandise" means any food which has been subjected to improper storage; loss of label or identity; smoke, water, fumes, extreme temperatures, pressure or radiation which are due to natural disasters or otherwise; or which may have been rendered unsafe or unsuitable for human or animal consumption or use for any other reason.

"Easily cleanable" means that surfaces are readily accessible and made of such materials and finish and so fabricated that residue may be effectively removed by normal cleaning methods.

"Employee" means the license holder, person in charge, person having supervisory or management duties, person on the payroll, family member, volunteer, person performing work under contractual agreement, or other person working in an establishment any individual having supervisory or management duties and any other person working in a food establishment.

"Equipment" means an article that is used in the operation of an establishment such as a freezer, grinder, hood, ice maker, meat block, mixer, oven, reach-in refrigerator, scale, sink, slicer, stove, table, temperature measuring device for ambient air, vending machine, or warewashing machine. It does not include items used for handling or storing large quantities of packaged foods that are received from a supplier in a cased or overwrapped lot, such as hand trucks, forklifts, dollies, pallets, racks, and skids, stoves, ovens, ranges, hoods, slicers, mixers, meat blocks, tables, counters, refrigerators, sinks, dishwashing machines, steam tables, and similar items other than utensils, used in the operation of a food establishment.

"Food" means any raw, cooked, or processed edible substance, ice, beverage or ingredient used or intended for use or for sale in whole or in part for human consumption.

"Food contact surfaces" means those surfaces of equipment and utensils with which food normally comes in contact, and those surfaces from which food may contact drain, drip, or splash back onto surfaces normally in contact with food.

"Food hazard" means any biological, chemical, or physical agent that is reasonably likely to cause illness or injury in the absence of its control.

"Food processing plant" means a commercial operation that manufactures, packages, labels, or stores food for human consumption and provides food for sale or distribution to other business entities such as food processing plants or food establishments.

"Food storage warehouse" means any building, establishment or place where food is stored as a commercial venture or business, or is stored in connection with or as a part of a business.

"HACCP" means Hazard Analysis Critical Control Point.

"HACCP plan" means a written document that delineates the formal procedures for following the Hazard Analysis Critical Control Point principles developed by The National Advisory Committee on Microbiological Criteria for Foods.

"Handwashing sink" means a lavatory, a basin or vessel for washing, a wash basin, or a plumbing fixture especially

Permanent Final Adoptions

placed for use in personal hygiene and designed for washing of the hands.

"Hazardous substance" means any substance or mixture of substances which is toxic, corrosive, an irritant, strong sanitizer, flammable or which generates pressure through decomposition.

"Hermetically sealed container" means a container that is designed and intended to be secure against the entry of microorganisms and, in the case of low acid canned foods, to maintain the commercial sterility of its contents after processing.

"Imminent public health hazard" means a significant threat or danger to health that is considered to exist when there is evidence sufficient to show that a product, practice, circumstance, or event creates a situation that requires immediate correction or cessation of operation to prevent injury based on the number of potential injuries, and the nature, severity, and duration of the anticipated injury situation wherein the evidence is sufficient to show that a product or practice, posing a significant threat or danger to health, creates a public health situation that should be corrected immediately to prevent injury and that should not be permitted to continue while a hearing or other formal proceeding is pending.

"Impermeable" means incapable of allowing liquids to pass through the covering.

"License" means the document issued by the Department that authorizes a person to operate an establishment.

"License holder" means the entity that is legally responsible for the operation of the establishment such as the owner, the owner's agent, or other person; and possesses a valid license to operate an establishment.

"Lot" means the food produced during a period of time indicated by a specific code.

"Major food allergen" means milk, egg, fish (such as bass, flounder, cod, and including crustacean such as crab, lobster, or shrimp), tree nuts (such as almonds, pecans, or walnuts), wheat, peanuts, and soybeans; or a food ingredient that contains protein derived from a food specified above.

(A) Major food allergen does not include: Any highly refined oil derived from a food specified in Major Food Allergen definition and any ingredient derived from such highly refined oil; or

(B) Any ingredient that is exempt under the petition or notification process specified in the Federal Food, Drugs, and Cosmetics Act, 21 U.S.C. Section 343.

"Manufacture" means the process of combining or purifying articles of food and packing same for sale to the consumer, either by wholesale or retail. Any firm, person, or corporation who represents itself as responsible for the purity and the proper labeling of any article of food by placing or having placed its name and address on the label of any food shall be deemed a manufacturer and shall be included within the meaning of these rules.

"Microorganism" means yeasts, molds, bacteria and viruses and includes, but is not limited to, species having public health significance. The term "undesirable microorganisms" includes those microorganisms that are of public health

significance, that subject food to decomposition, that indicate that food is contaminated with filth, or that otherwise may cause food to be adulterated.

"Misbranding" means the definition contained in 63 O.S. Section 1-1110.

"Monitor" means to conduct a planned sequence of observations or measurements to assess whether a process, point, or procedure is under control and to produce an accurate record for use in verification.

"Non-food contact surfaces" means surfaces of equipment not intended for contact with food, but which are being exposed to splash or food debris or which otherwise require frequent cleaning. These surfaces shall be designed and fabricated to be smooth, washable, free of unnecessary ledges, projections, or crevices, and readily accessible for cleaning, and shall be of such material and in such repair as to be easily maintained in a clean and sanitary condition.

Non-salvageable merchandise means distressed merchandise which cannot be safely or practically reconditioned.

"Operator" means any person, partnership, corporation, association, cooperative or other business unit having the direct and primary responsibility for the construction, maintenance and operation of a food storage or food manufacturing plant or warehouse.

"Packaging" means any covering, wrapper, or container in which a product is placed for retail or wholesale distribution, either before or after sale, to a consumer. Packaging shall not be construed to include the inner wrapper.

"Perishable foods" means any food of such type or in such condition or physical state that it may spoil or otherwise become unfit for human consumption.

"Person" means an individual, corporation, business trust, estate, trust, partnership, association, or any other public or private legal entity.

"Personnel" means all persons employed by a food manufacturer, salvage establishment or salvage broker who do or may in any manner handle or come in contact with the handling, storage, transporting, selling or distributing of food, salvageable or salvaged merchandise.

"Pest" means any objectionable animal or insect including, but not limited to, birds, rodents, flies and larvae.

"pH" means the symbol for the negative logarithm of the hydrogen ion concentration, which is a measure of the degree of acidity or alkalinity of a solution. Values between 0 and 7 indicate acidity and values between 7 and 14 indicate alkalinity. The value for pure distilled water is 7, which is considered neutral.

Plant means the building or facility or parts thereof, used for or in connection with the manufacturing, packaging, labeling or holding of human food.

"Potentially hazardous food" means any food that consists in whole or in part of milk or milk products, eggs, meat, poultry, fish, shellfish, edible crustaceans, or other ingredients, including synthetic ingredients, in a form capable of supporting rapid and progressive growth of infectious or toxigenic microorganisms. The term does not include foods which have a pH level of 4.6 or below a water activity (a) value of 0.85 or less.

"Plumbing fixture" means a receptacle or device that is permanently or temporarily connected to the water distribution system of the premises and demands a supply of water from the system; or discharges used water, waste materials, or sewage directly or indirectly to the drainage system of the premises.

"Plumbing system" means the water supply and distribution pipes; plumbing fixtures and traps; soil, waste, and vent pipes; sanitary and storm sewers and building drains, including their respective connections, devices, and appurtenances within the premises; and water-treating equipment.

"Poisonous or toxic materials" means substances that are not intended for ingestion and are included in 4 categories:

- (A) Cleaners and sanitizers, which include cleaning and sanitizing agents and agents such as caustics, acids, drying agents, polishes, and other chemicals;
- (B) Pesticides, except sanitizers, which include substances such as insecticides and rodenticides;
- (C) Substances necessary for the operation and maintenance of the establishment such as nonfood grade lubricants and personal care items that may be deleterious to health; and
- (D) Substances that are not necessary for the operation and maintenance of the establishment and are on the premises for retail sale, such as petroleum products and paints.

"Potable water" means water obtained from an approved source that is:

- (A) A public water system, or
- (B) A nonpublic water system that is constructed, maintained, and operated according to law.

"Processing" means the preparing of a food in a manner which changes the food from its original state.

"Processor" means anyone processing food under the authority of this chapter.

"Quality control operation" means a planned and systematic procedure for taking all actions necessary to prevent food from being adulterated.

"Reconditioning" means any appropriate process or procedure by which distressed merchandise can be brought into compliance with the standards of the Department for consumption or use by the public.

"Refuse" means all garbage, trash, and rubbish not intended for reuse as salvaged merchandise.

"Regulatory authority" means the Oklahoma State Department of Health, a health department designated in writing by the State Commissioner of Health to perform official duties or other acts authorized under the Oklahoma Public Health Code and this Chapter, or a representative thereof.

"Rework" means clean, unadulterated food that has been removed from processing for reasons other than unsanitary conditions or that has been successfully reconditioned by reprocessing and that is suitable for use as food.

"Safe moisture level" is a level of moisture low enough to prevent the growth of undesirable microorganisms in the finished product under the intended conditions of manufacturing, storage and distribution. The maximum safe moisture level for a food is based on its water activity (a_w). An a_w will

be considered safe for a food if adequate data are available that demonstrate that the food at or below the given a_w will not support the growth of undesirable microorganisms.

"Safe temperatures" as applied to Time/Temperature Control for Safety Food ~~potentially hazardous food~~ means food temperature of 45°F or below 140°F or above.

"Sale or distribution" means the act of selling or distributing, whether for compensation or not, and includes delivery, holding or offering for sale, transfer, or other means of handling or trafficking.

"Salvage distributor or broker" means a person who engages in the business of selling, distributing, or otherwise trafficking in any distressed or salvaged merchandise who does not operate a salvage establishment.

"Salvage establishment" means any place of business engaged in reconditioning or by other means the salvaging of distressed merchandise or that sells, buys or distributes for human use any salvaged merchandise.

"Salvage operator" means a person who is engaged in the business of operating a salvage establishment.

"Salvage processing plant" means any establishment primarily engaged in the business of reconditioning or by other means the salvaging of distressed merchandise and which sells or distributes such merchandise for human use.

"Salvage warehouse" means a separate storage facility used by a salvage broker or salvage establishment for the purpose of holding distressed or salvaged merchandise. A salvage warehouse may not be used for the purpose of reconditioning or selling to consumers.

"Salvageable merchandise" means any distressed merchandise, as defined in this section, which can be reconditioned to the satisfaction of the Department.

"Salvaged merchandise" means any distressed merchandise that has been reconditioned to the satisfaction of the Department.

"Sanitize Sanitization" means to adequately treat food-contact ~~adequate treatment of surfaces~~ by a process that is effective in destroying vegetative cells of microorganisms of public health significance and in substantially reducing the number of other microorganisms but ~~without. Such treatments shall not adversely affecting affect the product or its safety and shall be safe~~ to the consumer.

"Shall" is used to state mandatory requirements.

"Shelf-stable product" means a product that is hermetically sealed and, when stored at room temperature, should not demonstrate any microbial growth.

"Should" is used to state recommended or advisory procedures or to identify recommended equipment.

"Single-service articles" means cups, containers, lids, closures, plates, knives, forks, spoons, stirrers, paddles, straws, placemats, napkins, doilies, wrapping materials, toothpicks and similar articles, intended to be discarded after one use.

"Standard operating procedure (SOP)" means a set of step-by-step instructions compiled by the establishment to instruct employees in the proper method to perform complex routine operations. SOPs aim to achieve efficiency and quality control, while reducing miscommunication, and documenting failure to enable better process to be developed.

Permanent Final Adoptions

"Time/temperature control for safety food" means a food that requires time/temperature control for safety (TCS) to limit pathogenic microorganism growth or toxin formation.

"Tree nut/Peanut cracker/sheller" means a commercial establishment in which ~~tree nuts/peanuts~~ are processed and/or packaged for human consumption, other than custom ~~tree nut/peanut~~ cracking.

"Tree nut grower/Grower" means a person who sells only whole ~~tree nuts/peanuts~~ grown on his property.

"Utensil" means any implement used in the storage, preparation, transportation, or service of food.

"Variance" means a written document issued by the Department that authorizes a modification or waiver of one or more requirements of this Chapter, if, in the opinion of the Department, a health hazard or nuisance will not result from the modification or waiver.

"Vehicle" means any car, truck, bus or other means by which food or distressed, salvageable or salvaged merchandise is transported from one location to another.

"Water activity" (a_w) is a measure of the free moisture in a food and is the quotient of the water vapor pressure of the substance divided by the vapor pressure of pure water at the same temperature.

"Wholesome" means in sound condition, clean, free from adulteration and otherwise suitable for human consumption.

SUBCHAPTER 3. MANUFACTURING, PROCESSING, PACKING OR HOLDING HUMAN FOOD

310:260-3-1. Personnel

(a) **Disease control.** Any person who, by medical examination or supervisory observation, is shown to have, or appears to have, an illness, open lesion, including boils, sores, or infected wounds, or any other abnormal source of microbial contamination by which there is a reasonable possibility of food, food-contact surfaces, or food-packing materials becoming contaminated, shall be excluded from any operations which may be expected to result in such contamination until the condition is corrected, unless conditions such as open lesions, boils, and infected wounds are adequately covered (e.g., by an impermeable cover). Personnel shall be instructed to report such health conditions to their supervisors.

(b) **Cleanliness.** All persons working in direct contact with food, food-contact surfaces, and food-packaging materials shall conform to hygienic practices while on duty to the extent necessary to protect against allergen cross-contact and against contamination of food. The methods for maintaining cleanliness include, but are not limited to:

- (1) Wearing outer garments suitable to the operation in a manner that protects against allergen cross-contact and against the contamination of food, food-contact surfaces, or food-packaging materials.
- (2) Maintaining adequate personal cleanliness.
- (3) Washing hands thoroughly (and sanitizing if necessary to protect against contamination with undesirable microorganisms) in an adequate handwashing facility

before starting work, after each absence from the work station, and at any other time when hands may have become soiled or contaminated.

(4) Removing all ~~insecure/unsecured~~ jewelry and other objects that might fall into food, equipment, or containers, and removing hand jewelry that cannot be adequately sanitized during periods in which food is manipulated by hand. If such hand jewelry cannot be removed, it may be covered by material which can be maintained in an intact, clean and sanitary condition and which effectively protects against the contamination by these objects of the food, food-contact surfaces, or food-packaging materials.

(5) Maintaining gloves, if they are used in food handling, in an intact, clean, and sanitary condition. ~~The gloves should be of an impermeable material, and intended for use in handling food.~~

(6) Wearing, where appropriate, in an effective manner, hair nets, headbands, caps, beard covers, or other effective hair restraints.

(7) Storing clothing or other personal belongings in areas other than where food is exposed or where equipment or utensils are washed.

(8) Confining the following to areas other than where food may be exposed or where equipment or utensils are washed: eating food, chewing gum, drinking beverages, or using tobacco.

(9) Taking any other necessary precautions to protect against allergen cross-contact and against contamination of food, food-contact surfaces, or food-packing materials with microorganisms or foreign substances including, but not limited to, perspiration, hair, cosmetics, tobacco, chemicals, and medicines applied to the skin.

(c) **Education and training.** Personnel responsible for identifying sanitation failures or food contamination should have a background of education or experience, or a combination thereof, to provide a level of competency necessary for production of clean and safe food. Food handlers and supervisors should receive appropriate training in proper food handling techniques and food protection principles and should be informed of the danger of poor personal hygiene and ~~unsanitary/insanitary~~ practices.

(d) **Supervision.** Responsibility for assuring compliance by all personnel with all requirements of this Chapter shall be clearly assigned to competent supervisory personnel.

(e) **Implementation.** The plant management shall take all reasonable measures and precautions to ensure that the provisions of the above subsections are achieved.

310:260-3-2. Grounds and plants

(a) **Grounds.** The grounds about a food plant under the control of the operator shall be kept in a condition that will protect against the contamination of food. The methods for adequate maintenance of grounds include, but are not limited to:

- (1) Properly storing equipment, removing litter and waste, and cutting weeds or grass within the immediate vicinity of the plant buildings or structures that may constitute an attractant, breeding place, or harborage for pests.

- (2) Maintaining roads, yards, and parking lots, including dust and flying debris, so that they do not constitute a source of contamination in areas where food is exposed.
 - (3) Adequately draining areas that may contribute contamination to food by seepage, food-borne filth, or providing a breeding place for pests.
 - (4) Operating systems for waste treatment and disposal in an adequate manner so that they do not constitute a source of contamination in areas where food is exposed.
 - (5) If the plant grounds are bordered by grounds not under the operator's control and not maintained in the manner described in paragraph (a) (1) through (3) of this section, care shall be exercised in the plant by inspection, extermination, or other means to exclude pests, dirt, and filth that may be a source of food contamination.
- (b) **Plant construction and design.** Plant buildings and structures shall be suitable in size, construction, and design to facilitate maintenance and sanitary operations for food-manufacturing purposes (i.e., manufacturing, processing, packing, and holding). The plant and facilities shall:
- (1) Provide sufficient space for such placement of equipment and storage of materials as is necessary for the maintenance of sanitary operations and the production of safe food.
 - (2) Permit the taking of ~~adequate proper~~ precautions to reduce the potential for allergen cross-contact and for contamination of food, food-contact surfaces, or food-packing materials with microorganisms, chemicals, filth, or other extraneous material. The potential for allergen cross-contact and for contamination may be reduced by adequate food safety controls and operating practices or effective design, including the separation of operations in which for allergen cross-contact and contamination ~~are~~ is likely to occur, by one or more of the following means: location, time, partition, air flow systems, dust control systems, enclosed systems, or other effective means.
 - (3) Permit the taking of proper precautions to protect food in installed outdoor bulk ~~fermentation~~ vessels by any effective means, including:
 - (A) Using protective coverings.
 - (B) Controlling areas over and around the vessels to eliminate harborage for pests.
 - (C) Checking on a regular basis for pests and pest infestation.
 - (D) Skimming the fermentation vessels, as necessary.
 - (4) Be constructed in such a manner that floors, walls, and ceilings may be adequately cleaned and kept in good repair; that drip or condensate from fixtures, ducts and pipes does not contaminate food, food-contact surfaces, or food packing materials; and that aisles or working spaces are provided between equipment and walls and are adequately unobstructed and of adequate width to permit employees to perform their duties and to protect against contaminating food or food-contact surfaces with clothing or personal contact.
 - (5) Provide adequate lighting in hand washing areas, dressing and locker rooms, and toilet rooms and in all areas where food is examined, processed, ~~packed or held or stored~~ and where equipment or utensils are cleaned.
 - (6) Provide ~~shatter-resistant light bulbs, fixtures, skylights, or other glass suspended over exposed food in any step of preparation or otherwise protect against food contamination in case of glass breakagesafety-type light bulbs or protective shielding of artificial lighting fixtures located over, by, or within food storage or preparation areas and facilities where utensils and equipment are cleaned or stored, or otherwise protect against food contamination by broken glass.~~
 - (7) Provide adequate ventilation or control equipment to minimize odors and vapors (including steam and noxious fumes) in areas where they may cause allergen cross-contact or contaminate food; and locate and operate fans and other air-blowing equipment in a manner that minimizes the potential for allergen cross-contact and for contaminating food, food-packaging materials, and food-contact surfaces.
 - (8) Provide, where necessary, adequate screening or other protection against pests.
 - (9) Provide adequate protection, from contamination, of food products, while being transported by vehicles.
- 310:260-3-3. Sanitary operations**
- (a) **General maintenance.** Buildings, fixtures, and other physical facilities of the plant shall be maintained in a sanitary condition and shall be kept in repair sufficient to prevent food from becoming adulterated ~~within the meaning of the Act.~~ Cleaning and sanitizing of utensils and equipment operations shall be conducted in a manner that protects against allergen cross-contact and against contamination of food, food-contact surfaces, or food-packaging materials.
- (b) **Cleaning and sanitizing substances.** ~~Cleaning~~ Approved cleaning compounds and sanitizing agents used in cleaning and sanitizing procedures shall be free from undesirable microorganisms and shall be safe and adequate under the conditions of use. Compliance with this requirement may be verified by any effective means including purchase of these substances under a letter of supplier's guarantee or certification, or examination of these substances for contamination. Only the following toxic materials ~~that are required to maintain sanitary conditions~~ may be used or stored in a plant where food is processed or exposed:
- (1) Those required to maintain clean and sanitary conditions;
 - (2) Those necessary for use in laboratory testing procedures;
 - (3) Those necessary for plant and equipment maintenance and operation; and
 - (4) Those necessary for use in the plant's operations.
- (c) **Storage of toxic materials.** Toxic cleaning compounds, ~~approved~~ sanitizing agents, and pesticide chemicals shall be identified, held, and stored in a manner that protects against contamination of food, food-contact surfaces, or food-packing

Permanent Final Adoptions

materials. ~~All relevant regulations promulgated by other Federal, State, and local government agencies for the application, use, or holding of these products shall be followed.~~

(d) **Pest control.** No pests or animals shall be allowed in any area of a food plant. Guard or guide dogs may be allowed in some areas of a plant if the presence of the dogs is unlikely to result in contamination of food, food-contact surfaces, or food-packaging materials. Effective measures shall be taken to exclude pests from the manufacturing, processing, packing, and holding areas and to protect against the contamination of food on the premises by pests. The use of pesticides to control pests in the plant ~~insecticides or rodenticides~~ is permitted only under precautions and restrictions that will protect against the contamination of food, food-contact surfaces, and food-packaging materials.

(e) **Sanitation of food-contact surfaces.** All food-contact surfaces, including utensils and food-contact surfaces of equipment, shall be cleaned as frequently as necessary to protect against contamination of food.

(1) Food-contact surfaces used for manufacturing/processing, packing, or holding low-moisture food shall be in a dry, sanitary condition before ~~at the time of~~ use. When the surfaces are wet-cleaned, they shall, when necessary, be sanitized and thoroughly dried before subsequent use.

(2) In wet processing, when cleaning is necessary to protect against allergen cross-contact ~~or~~ the introduction of microorganisms into food, all food-contact surfaces shall be cleaned and sanitized before use and after any interruption during which the food-contact surfaces may have become contaminated. Where equipment and utensils are used in a continuous production operation, the utensils and food-contact surfaces of the equipment shall be cleaned and sanitized as necessary.

~~(3) Non-food contact surfaces of equipment used in the operation of food plants should be cleaned as frequently as necessary to protect against contamination of food.~~

(34) Single-service articles (such as utensils for one-time use, paper cups, and paper towels) should be stored in appropriate containers and shall be handled, dispensed, used, and disposed of in a manner that protects against allergen cross-contact and against contamination of food or food-contact surfaces, or food-packaging materials.

~~(45)~~ Where necessary to prevent the introduction of undesirable microbiological organisms into food products, all utensils and product-contact surfaces of equipment used in the plant shall be cleaned and sanitized prior to such use and following any interruption during which such utensils and contact surfaces may have become contaminated. Where such equipment and utensils are used in a continuous production operation, the contact surfaces of such equipment and utensils shall be cleaned and sanitized on a predetermined schedule using adequate methods for cleaning and sanitizing. Sanitizing agents shall be approved, effective and safe under conditions of use. The wash solution for multi-use beverage containers must contain at least 3% caustic and must be maintained to at

least 140 ~~degrees~~[°]F. temperature. Any facility, procedure, machine, or device may be acceptable for cleaning and sanitizing equipment and utensils if it is established that such facility, procedure, machine, or device will routinely render equipment and utensils clean and provide adequate sanitizing treatment.

(f) **Sanitation of non-food-contact surfaces.** Non-food-contact surfaces of equipment used in the operation of a food plant must be cleaned in a manner and as frequently as necessary to protect against allergen cross-contact and against contamination of food, food-contact surfaces, and food-packaging materials.

(gf) **Storage and handling of cleaned portable equipment and utensils.** Cleaned and sanitized portable equipment with food-contact surfaces and utensils should be stored in a location and manner that protects food-contact surfaces from contamination.

310:260-3-4. Sanitary facilities and controls

Each plant must be equipped with adequate sanitary facilities and accommodations including:

(1a) **Water supply.** The water supply shall be sufficient for the operations intended and shall be derived from an adequate, approved ~~source in compliance with applicable water supply regulations adopted by the State Board of Health.~~ Any water that contacts food, ~~or~~ food-contact surfaces, or food-packaging materials shall be safe and of adequate sanitary quality. Running ~~Hot and cold running~~ water at a suitable temperature, and under pressure as needed shall be provided in all areas where required for the processing of food, for the cleaning of equipment, utensils, and food-packaging materials, or for employee sanitary facilities.

(2b) **Plumbing.** Plumbing shall be permanently attached, of adequate size and design and adequately installed and maintained to:

(A4) Carry adequate sufficient quantities of water to required locations throughout the plant.

(B2) Properly convey sewage and liquid disposable waste from the plant.

(C3) Avoid constituting a source of contamination to food, water supplies, equipment, or utensils or creating an unsanitary condition.

(D4) Provide adequate floor drainage in all areas where floors are subject to flooding-type cleaning or where normal operations release or discharge water or other liquid waste on the floor.

(E5) Provide that there is no backflow from, or cross-connection between, piping systems that discharge-waste water or sewage and piping systems that carry potable water for food or food manufacturing or for equipment and utensil cleaning.

(3e) **Sewage disposal.** Sewage shall be disposed of disposal shall be made into an adequate and approved sewerage system or disposed of through other adequate means through permanently attached plumbing which is in compliance with applicable wastewater disposal regulations adopted by the State Board of Health.

~~(4d) **Toilet facilities.** Each plant must provide employees with adequate, readily accessible toilet facilities. Toilet facilities must be kept clean and must not be a potential source of contamination of food, food-contact surfaces, or food-packaging materials. The plant shall be provided with conveniently located toilets which shall be kept clean and in good repair. The toilet room shall be completely enclosed, well lighted, vented to the outside, and equipped with a tight self-closing door. Any window opening shall be screened to prevent entrance of insects.~~

~~(5e) **Hand-washing facilities.** Each plant must provide hand-washing facilities designed to ensure that an employee's hands are not a source of contamination of food, food-contact surfaces, or food-packaging materials, by providing facilities that are adequate, convenient, and furnish running water at a suitable temperature. Hand-washing facilities shall be adequate and convenient and shall be furnished with hot and cold running water at a suitable temperature. Compliance with this requirement includes:~~

~~(A4) Hand-washing and, where appropriate, hand-sanitizing facilities at each location in the plant where good sanitary practices require employees to wash and/or sanitize their hands.~~

~~(2) **Effective hand-cleaning and sanitizing preparations.**~~

~~(B3) Sanitary towel service or suitable drying devices.~~

~~(C4) Devices or fixtures, such as water control valves, so designed and constructed to protect against recontamination of clean, sanitized hands.~~

~~(D5) Readily understandable signs directing employees handling unprotected food, unprotected food-packaging materials, or food-contact surfaces to wash and, where appropriate, sanitize their hands before they start work, after each absence from post of duty, and when their hands may have become soiled or contaminated. These signs should be posted in the processing room(s) and in all other areas where employees may handle such food, materials, or surfaces and toilet facilities.~~

~~(E6) Refuse receptacles that are constructed and maintained in a manner that protects against contamination of food, equipment or hands.~~

~~(6f) **Rubbish and offal disposal.** Rubbish and any offal shall be so conveyed, stored, and disposed of as to minimize the development of odor, minimize the potential for the waste becoming an attractant and harborage or breeding place for pests, and protect against contamination of food, food-contact surfaces, water supplies, and ground surfaces.~~

~~(g) **Adequacy of facilities.** Each plant shall be equipped with adequate sanitary facilities and accommodations including, but not limited to, (a) through (f) of this section.~~

310:260-3-5. Equipment and utensils

(a) **Design, fabrication, installation and maintenance.**

(1) All plant equipment and utensils used in manufacturing, processing, packing, or holding food must be so

designed and of such material and workmanship as to be adequately cleanable, and must be adequately maintained to protect against allergen cross-contact and contamination.

(2) Equipment and utensils must be designed, constructed, and used appropriately to avoid the adulteration of food with lubricants, fuel, metal fragments, contaminated water, or any other contaminants.

(3) Equipment must be installed so as to facilitate the cleaning and maintenance of the equipment and of adjacent spaces.

(4) Food-contact surfaces must be corrosion-resistant when in contact with food.

(5) Food-contact surfaces must be made of nontoxic materials and designed to withstand the environment of their intended use and the action of food, and, if applicable, cleaning compounds, sanitizing agents, and cleaning procedures.

(6) Food-contact surfaces must be maintained to protect food from allergen cross-contact and from being contaminated by any source, including unlawful indirect food additives. All plant equipment and utensils shall be so designed and of such material and workmanship as to be adequately cleanable, shall meet NSF Standards, or equivalent, and shall be properly maintained. The design, construction, and use of equipment and utensils shall preclude the adulteration of food with lubricants, fuel, metal fragments, contaminated water, or any other contaminants. All equipment should be so installed and maintained as to facilitate the cleaning of the equipment and of all adjacent spaces. Food contact surfaces shall be corrosion-resistant and shall be made of nontoxic materials and designed to withstand the environment of their intended use and the action of food, and, if applicable, cleaning compounds and sanitizing agents. Food contact surfaces shall be maintained to protect food from being contaminated by any source, including unlawful indirect food additives.

(b) **Seams.** Seams on food-contact surfaces shall be smoothly bonded or maintained so as to minimize accumulation of food particles, dirt, and organic matter and thus minimize the opportunity for growth of microorganisms and allergen cross-contact.

(c) **Non-food contact equipment.** Equipment that is in the areas where food is manufactured, processed, packed, or held ~~manufacturing or food handling area~~ and that does not come into contact with food shall be so constructed that it can be kept in a clean condition.

(d) **Holding, conveying and manufacturing systems.** Holding conveying, and manufacturing systems, including gravimetric, pneumatic, closed, and automated systems, shall be of a design and construction that enables them to be maintained in an appropriate sanitary condition.

(e) **Thermometers.** Each freezer and cold storage compartment used to store and hold food capable of supporting growth of microorganisms shall be fitted with an indicating thermometer, temperature measuring device, or temperature recording device so installed as to show the temperature accurately to within $\pm 3^{\circ}\text{F}$ inside the compartment, and should be fitted

Permanent Final Adoptions

with an automatic control for regulating temperature or with an automatic alarm system to indicate a significant temperature change during manual operation.

(f) **Instruments and controls.** Instruments and controls used for measuring, regulating, or recording temperatures, pH, acidity, water activity, or other conditions that control or prevent the growth of undesirable microorganisms in food shall be accurate, precise, and adequately maintained, and adequate in number for their designated uses.

(g) **Compressed air.** Compressed air or other gases mechanically introduced into food or used to clean food-contact surfaces or equipment shall be treated in such a way that food is not contaminated with unlawful indirect food additives.

310:260-3-6. Processes and controls

(a) **General sanitation requirements.**

(1) All operations in the manufacturing, processing, packing, and holding of food (including operations directed to receiving, inspecting, transporting, and segregating) must be conducted in accordance with adequate sanitation principles.

(2) Appropriate quality control operations must be employed to ensure that food is suitable for human consumption and that food-packaging materials are safe and suitable.

(3) Overall sanitation of the plant must be under the supervision of one or more competent individuals assigned responsibility for this function.

(4) Adequate precautions must be taken to ensure that production procedures do not contribute to allergen cross-contact and to contamination from any source.

(5) Chemical, microbial, or extraneous-material testing procedures must be used where necessary to identify sanitation failures or possible allergen cross-contact and food contamination.

(6) All food that has become contaminated to the extent that it is adulterated must be rejected, or if appropriate, treated or processed to eliminate the contamination. All operations in the receiving, inspecting, transporting, segregating, preparing, manufacturing, packaging, processing and storing of food shall be conducted in accordance with adequate sanitation principles. Appropriate quality control operations shall be employed to ensure that food is suitable for human consumption and that food-packaging materials are safe and suitable. Overall sanitation of the plant shall be under the supervision of one or more competent individuals assigned responsibility for this function. All reasonable precautions shall be taken to ensure that production procedures do not contribute contamination from any source. Chemical, microbial, or extraneous material testing procedures shall be used where necessary to identify sanitation failures or possible food contamination. All food that has become contaminated to the extent that it is adulterated within the meaning of the Act shall be rejected, or if permissible, treated or processed to eliminate the contamination.

(b) **Raw materials and other ingredients.**

(1) Raw materials and other ingredients shall be inspected and segregated or otherwise handled as necessary to ascertain that they are clean and suitable for processing into food and shall be stored under conditions that will protect against allergen cross-contact and against contamination and minimize deterioration. Raw materials shall be washed or cleaned as necessary to remove soil or other contamination. Water used for washing, rinsing, or conveying food shall be safe and of adequate sanitary ~~potable~~ quality. Water may ~~shall not~~ be reused for washing, rinsing, or conveying food if it does not cause allergen cross-contact or if it increases the level of contamination of the food. Containers and carriers of raw materials should be inspected on receipt to ensure that their condition has not contributed to the contamination or deterioration of food.

(2) Raw materials and other ingredients shall either not contain levels of microorganisms that may render the food injurious to the health of ~~produce food poisoning or other disease~~ in humans, or they shall be pasteurized or otherwise be treated during manufacturing operations so that they no longer contain levels that would cause the product to be adulterated ~~within the meaning of the Act.~~

(3) Raw materials and other ingredients susceptible to contamination with aflatoxin or other natural toxins, ~~pesticides or herbicides,~~ shall comply with current FDA Food and Drug Administration regulations, ~~guidelines, and action levels~~ for poisonous or deleterious substances before these materials or ingredients are incorporated into finished food.

(4) Raw materials, other ingredients, and rework susceptible to contamination with pests, undesirable microorganisms, or extraneous material shall comply with applicable FDA Food and Drug Administration regulations, ~~guidelines, and defect action levels~~ for natural or unavoidable defects if a manufacturer wishes to use the materials in manufacturing food.

(5) Raw materials, other ingredients, and rework shall be held in bulk, or in containers designed and constructed so as to protect against allergen cross-contact and against contamination and shall be held at such temperature and relative humidity and in such a manner as to prevent the food from becoming adulterated ~~within the meaning of the Act.~~ Material scheduled for rework shall be identified as such and separated from other foods.

(6) Frozen raw materials and other ingredients shall be kept frozen. If thawing is required prior to use, it shall be done in a manner that prevents the raw materials and other ingredients from becoming adulterated ~~within the meaning of the Act.~~

(7) Liquid or dry raw materials and other ingredients received and stored in bulk form shall be held in a manner that protects against allergen cross-contact and against contamination.

(8) Raw materials and other ingredients that are food allergens, and rework that contains food allergens, must be identified and held in a manner that prevents allergen cross-contact.

(c) **Manufacturing operations.**

(1) Equipment and utensils and finished food containers shall be maintained in an adequate acceptable condition through appropriate cleaning and sanitizing, as necessary. Insofar as necessary, equipment shall be taken apart for thorough cleaning.

(2) All food manufacturing, ~~processing, packing, and hold-including packaging and storage~~, shall be conducted under such conditions and controls as are necessary to minimize the potential for the growth of microorganisms and allergen cross-contact, or for the contamination of food. This may include careful monitoring of physical factors such as time, temperature, humidity, aw, pH, pressure, flow rate, and manufacturing operations such as freezing, dehydration, heat processing, acidification, and refrigeration to ensure that mechanical breakdowns, time delays, temperature fluctuations, and other factors do not contribute to the decomposition or contamination of food.

(3) Food that can support the rapid growth of undesirable microorganisms, ~~particularly those of public health significance~~, shall be held at temperatures in a manner that will prevent ~~prevents~~ the food from becoming adulterated during manufacturing, processing, packing, and holding. Compliance with this requirement may be accomplished by any effective means, including:

- (A) Maintaining refrigerated foods at 45°F (7.2°C) or below as appropriate for the particular food involved.
- (B) Maintaining frozen foods in a frozen state.
- (C) Maintaining hot foods at 140°F (60°C) or above.
- (D) Heat treating acid or acidified foods to destroy mesophilic microorganisms when those foods are to be held in hermetically sealed containers at ambient temperatures.

(4) Measures such as sterilizing, irradiating, pasteurizing, freezing, refrigerating, controlling pH or controlling aw that are taken to destroy or prevent the growth of undesirable microorganisms, ~~particularly those of public health significance~~, shall be adequate under the conditions of manufacture, handling, and distribution to prevent food from being adulterated ~~within the meaning of the Act~~.

(5) Work-in-process and rework shall be handled in a manner that protects against allergen cross-contact, contamination, and growth of undesirable microorganisms.

(6) Effective measures shall be taken to protect finished food from allergen cross-contact and from contamination by raw materials, other ingredients, or refuse. When raw materials, other ingredients, or refuse are unprotected, they shall not be handled simultaneously in a receiving, loading, or shipping area if that handling could result in allergen cross-contact or contaminated food. Food transported by conveyor ~~conveyer~~ shall be protected against allergen cross-contact and against contamination as necessary.

(7) Equipment, containers, and utensils used to convey, hold, or store raw materials and other ingredients,

work-in-process, rework or other food shall be constructed, handled, and maintained during manufacturing processing, packing, and holding or storage in a manner that protects against allergen cross-contact and against contamination.

(8) Adequate ~~Effective~~ measures shall be taken to protect against the inclusion of metal or other extraneous material in food. ~~Compliance with this requirement may be accomplished by using sieves, traps, magnets, electronic metal detectors, or other suitable effective means.~~

(9) Food, raw materials, and other ingredients that are adulterated:

(A) ~~Shall~~ shall be disposed in a manner that protects against the contamination of other food; or

(B) If the adulterated food is capable of being reconditioned, it shall be:

(i) Reconditioned (if appropriate) ~~reconditioned~~ using a method that has been proven to be effective; or

(ii) Reconditioned (if appropriate) and it shall be reexamined and subsequently found not to be adulterated before being incorporated into other food.

(10) ~~Steps~~ Mechanical manufacturing steps such as washing, peeling, trimming, cutting, sorting and inspecting, mashing, dewatering, cooling, shredding, extruding, drying, whipping, defatting, and forming shall be performed so as to protect food against allergen cross-contact and against contamination. ~~Compliance with this requirement may be accomplished by providing adequate physical protection of food from contaminants that may drip, drain, or be drawn into the food. Protection may be provided by adequate cleaning and sanitizing of all food contact surfaces, and by using time and temperature controls at and between each manufacturing step.~~

(11) Heat blanching, when required in the preparation of food capable of supporting microbial growth, should be effected by heating the food to the required temperature, holding it at this temperature for the required time, and then either rapidly cooling the food or passing it to subsequent manufacturing without delay. ~~Growth~~ Thermophilic growth and contamination by thermophilic microorganisms in blanchers ~~blanchers~~ should be minimized by the use of adequate operating temperatures and by periodic cleaning and sanitizing as necessary. ~~Where the blanched food is washed prior to filling, water used shall be safe and of adequate sanitary quality.~~

(12) Batters, breading, sauces, gravies, dressings, dipping solutions, and other similar preparations that are held and used repeatedly over time shall be treated or maintained in such a manner that they are protected against allergen cross-contact and against contamination, and minimizing the potential for the growth of undesirable microorganisms. ~~Compliance with this requirement may be accomplished by any effective means, including the following:~~

(A) ~~Using ingredients free of contamination.~~

- (B) ~~Employing adequate heat processes where applicable.~~
 - (C) ~~Using adequate time and temperature controls.~~
 - (D) ~~Providing adequate physical protection of components from contaminants that may drip, drain, or be drawn into them.~~
 - (E) ~~Cooling to an adequate temperature during manufacturing.~~
 - (F) ~~Disposing of batters at appropriate intervals to protect against the growth of microorganisms.~~
- (13) Filling, assembling, packaging, and other operations shall be performed in such a way that the food is protected against allergen cross-contact, contamination, and growth of undesirable microorganisms. Compliance with this requirement may be accomplished by any effective means, including:
- (A) ~~Use of a quality control operation in which the critical control points are identified and controlled during manufacturing.~~
 - (B) ~~Adequate cleaning and sanitizing of all food-contact surfaces and food containers.~~
 - (C) ~~Using materials for food containers and food packaging materials that are safe and suitable.~~
 - (D) ~~Providing physical protection from contamination, particularly airborne contamination.~~
 - (E) ~~Using sanitary handling procedures.~~
- (14) Food such as, but not limited to, dry mixes, nuts, immediate moisture food, and dehydrated food, that relies on the control of aw for preventing the growth of undesirable microorganisms shall be processed to and maintained at a safe moisture level. Compliance with this requirement may be accomplished by an effective means, including employment of one or more of the following practices as appropriate:
- (A) ~~Monitoring the pH of raw materials, food in process, and finished food.~~
 - (B) ~~Controlling the soluble solids water ratio in finished food.~~
 - (C) ~~Protecting finished food from moisture pickup, by use of a moisture barrier or by other means, so that the aw of the food does not increase to an unsafe level.~~
- (15) Food such as, but not limited to, acid and acidified food, that relies principally on the control of pH for preventing the growth of undesirable microorganisms shall be monitored and maintained at a pH of 4.6 or below. Compliance with this requirement may be accomplished by an effective means, including employment of one or more of the following practices as appropriate:
- (A) ~~Monitoring the pH of raw materials, food in process, and finished food.~~
 - (B) ~~Controlling the amount of acid or acidified food added to low acid food.~~
- (16) When ice is used in contact with food, it shall be made from water that is safe and of adequate sanitary quality in accordance with 310:260-3-4(a), from a source in compliance with applicable water supply regulations adopted by the State Board of Health and shall be used only if it has been manufactured in accordance with

current good manufacturing practice as outlined in these regulations, ~~and provisions shall be made for drainage of water produced by melting ice.~~

(17) Food-manufacturing areas and equipment used for manufacturing human food shall not be used to manufacture nonhuman food grade animal feed or inedible products, unless there is no reasonable possibility for the contamination of the human food.

(18) Food manufacturing shall not be performed in places of human residence nor shall manufacturing areas open directly into rooms occupied as residence or sleeping quarters.

(19) ~~(14)~~ Meaningful coding of products sold or otherwise distributed from a manufacturing, processing, packing, or repacking activity should be utilized to enable positive lot identification to facilitate, where necessary, the segregation of specific food lots that may have become contaminated or otherwise unfit for their intended use. Records should be retained for a period of time that exceeds the shelf life of the product, except that they need not be retained more than two (2) years.

SUBCHAPTER 5. TREE NUT/PECAN PROCESSING

310:260-5-1. Tree Nut/Pecan crackers/shellers

(a) ~~Physical facilities.~~ ~~The physical facilities of a pecan cracker/sheller shall comply with Sections 310:260-3-2 through 310:260-3-5.~~

(a) ~~(a)~~ Cleaning and sanitizing. All tree nuts/pecans shall be thoroughly cleaned to remove all foreign matter before sanitizing. After cleaning, tree nuts/pecans shall be subjected to a bactericidal process with:

- (1) ~~Immersion~~ immersion in hot water at 170° degrees F; or more for at least two (2) minutes or exposed to a flow of hot water at 170° degrees F; or more for at least five (5) minutes, or exposed to hot air at a temperature of 180° degrees F; for at least twenty (20) minutes in a properly constructed oven or hot air cabinet equipped with an indicating thermometer located in the coldest zone, or
- (2) ~~A~~ 1000 PPM chlorine equivalent and a flotation process solution of 200 PPM chlorine equivalent, or
- (3) ~~Exposure~~ exposure to steam in a properly designed cabinet for at least fifteen (15) minutes at 170° degrees F; or for at least five (5) minutes at 200° degrees F; or
- (4) ~~Exposure~~ exposure of a jet of live steam for at least One (1) minute, or
- (5) ~~Any~~ any other bactericidal treatment which has been proven by laboratory tests to effectively sanitize tree nuts/pecans and which has been approved by the Department.

(b) ~~(b)~~ Holding and drying. Folding, soaking, or tempering, tree nuts/pecans must not be subjected to contamination. Drying of tree nuts/pecans must be done in such a manner as to prevent recontamination of moist tree nuts/pecans.

(c) ~~(c)~~ Sanitizing of equipment. All equipment used for handling, storing, and transporting sanitized tree nuts/pecans

and/or tree nuts~~pecans~~ meats shall be subjected to a bactericidal process approved by the Department. Approved processes shall include:

- (1) ~~Exposure~~~~exposure~~ to steam in a properly constructed cabinet for at least fifteen (15) minutes at 170°~~degrees~~ F., or for at least five (5) minutes to at least 200°~~degrees~~ F., or
- (2) ~~Exposure~~~~exposure~~ to a jet of live steam for at least one (1) minute, or
- (3) ~~Immersion~~~~immersion~~ in or exposure to a flow of chlorine solution of not less than 200 PPM strength for at least two (2) minutes, or
- (4) ~~Immersion~~~~immersion~~ in hot water at 170°~~degrees~~ F. or more for at least two (2) minutes or exposure to a flow of hot water at 170°~~degrees~~ F. or more (at the outlet) for at least five (5) minutes, or
- (5) ~~Exposure~~~~exposure~~ to hot air at a temperature of 180°~~degrees~~ F., for at least twenty (20) minutes in a properly constructed oven or hot air cabinet equipped with an indicating thermometer located in the coldest zone, or
- (6) ~~Any~~ other bactericidal treatment which has been proven by laboratory tests to effectively sanitize equipment and which has been approved by the Department.

(d) **Other requirements.** ~~Additionally, all~~~~All commercial tree nut pecan~~ crackers/shellers shall be subject to all applicable portions of this code~~Sections 310:260-3-1 and 310:260-3-6.~~

310:260-5-2. Custom Tree Nut~~pecan~~ crackers

(a) Signage.

- (1) The custom tree nut~~pecan~~ cracking facility must publicly display an easily readable sign which states: "Custom Tree Nut~~Pecan~~ Operations are Exempt from ~~Board of Health Department~~ Regulations Pertaining to Cleaning and Sanitizing of tree nuts~~pecans~~ /Processing Equipment. Tree nuts~~Pecans~~ Cannot be Cracked for Resale" or words to that effect.
- (2) A customer's own Tree Nuts~~pecans~~ left on the premises for custom Tree Nut~~pecan~~ cracking must be separately labeled before and after custom cracking with the customer's name and contact information~~address~~.
- (3) Custom Tree Nut ~~pecan~~ crackers shall affix the a statement "Custom Tree Nut Operations are Exempt from Health Department Regulations Pertaining to Cleaning and Sanitizing of Tree Nuts /Processing Equipment. Tree Nuts Cannot be Cracked for Resale" or words to that effect on the label, bill of sale, receipt, etc., presented to the customer upon payment to all custom cracked pecans which states: "Custom Pecan Cracking Operations are Exempt from Health regulations on Cleaning and Sanitizing of Pecans/Processing Equipment. Pecans Cannot Be Cracked for Resale" or words to that effect.

(b) **Other requirements.** Custom tree nut~~pecan~~ crackers shall not be subject to licensure~~Sections 310:260-3-3 and 310:260-3-6.~~

SUBCHAPTER 7. SALVAGEABLE AND SALVAGED MERCHANDISE

310:260-7-1. Merchandise protection

(a) Protection from contamination.

- (1) All salvageable and salvaged merchandise, while being stored or processed at a salvage processing plant, or during transportation, shall be protected from contamination.
- (2) All perishable foods shall be kept at such temperature as will protect against spoilage.
- (3) Time/Temperature Control for Safety ~~All potentially hazardous~~ food shall be maintained at safe temperature (45 ~~degrees~~°F. or below; 140 ~~degrees~~°F. or above).
- (4) Poisonous and toxic materials shall be identified, and handled under such conditions as will not contaminate other salvageable or salvaged merchandise or constitute a hazard to personnel.

(b) **Segregation of non-salvageable materials.** All salvageable articles shall be promptly sorted and segregated from non-salvageable materials to prevent further contamination of goods to be salvaged or offered for sale or distribution.

310:260-7-2. Movement of distressed merchandise

(a) Notice to department.

- (1) When merchandise becomes distressed as the result of ~~atrain, automotive, airline, marine, or other~~ conveyance accident; flood, wind, fire, sewer backup, or such other unforeseen catastrophe, ~~it shall be the duty of the owner or claimant of such distressed merchandise shall to make~~ personal contact ~~with the Department within twenty-four~~ (24) hours after the merchandise becomes distressed and prior to removal from the place at which it was located when it became distressed merchandise.
- (2) If emergency removal of such distressed merchandise is required, such notice to the Department shall be made as soon thereafter as possible.
- (3) It shall be the duty of the owner or manager of the salvage processing plant to make contact with the Department within forty-eight (48) hours whenever distressed merchandise subject to the provisions of this regulation is obtained.

(b) Movement of distressed merchandise.

- (1) Distressed merchandise shall be moved from the site where ~~it became distressed of a fire, flood, sewer backup, wreck or other cause~~ as expeditiously as possible after compliance with (a) of this section so as ~~not to become putrid, to protect against spoilage, prevent rodent or insect harborage, or otherwise a menace to the public health.~~
- (2) All distressed and salvageable merchandise of a perishable nature shall, prior to reconditioning, be transported only in vehicles provided with adequate refrigeration for product maintenance.
- (3) No interstate movement of distressed or salvageable merchandise from or into Oklahoma shall be made

Permanent Final Adoptions

without prior approval of the Department. Concurrence shall also be obtained from the U.S. Food and Drug Administration or U.S. Department of Agriculture, Animal and Plant Health Inspection Service (meat and poultry products), and as required by State law of the State to or from which such merchandise is being shipped, prior to such anticipated interstate movement.

310:260-7-3. Reconditioning

(a) **Salvageable merchandise.** All salvageable merchandise shall be reconditioned prior to sale or distribution.

(b) **Distressed or nonsalvageable merchandise.** The following items shall be deemed unfit for sale or distribution:

- (1) ~~Metal~~All metal cans of food ~~offered for sale or distribution shall be~~which are essentially free from rust (pitting) and dents (especially at rim, end double seams and/or side seams).
 - (2) Leakers, springers, flippers, and swellers~~shall be deemed unfit for sale or distribution.~~
 - (3) Containers, including metal and glass containers with press caps, screw caps, pull rings or other types of openings which have been in contact with non-potable water, liquid foam, or other deleterious substances, as a result of fire fighting efforts, flood, sewer backups or similar mishaps shall be deemed unfit for sale or distribution, i.e., nonsalvageable merchandise.
- (c) **Metal containers of food.** All metal containers of food, other than those mentioned in (b) of this section whose integrity has not been compromised and whose integrity would not be compromised by the reconditioning, and which have been partially or totally submerged in water, liquid foam, or other deleterious substance as the result of flood, sewer backup or other reasons shall, after thorough cleaning, be subjected to sanitizing rinse of a concentration of 200 ppm available chlorine for a minimum period of one minute, or shall be sanitized by another method approved by the Department. They shall subsequently be treated to inhibit rust formation. All other types of containers so damaged shall be deemed unfit for use or sale.

310:260-7-4. Labeling

(a) **Label removal.**

- (1) ~~Any cans or tins showing surface rust shall have labels removed, the outer surface cleaned by buffing, a protective coating applied where necessary, and shall be relabeled.~~
- (2) ~~Relabeling of other salvageable nonmetal (glass, plastic, etc.) containers shall be required when original labels are missing or illegible.~~

(b) **Relabeling.**

(a) Relabeling of other salvageable nonmetal (glass, plastic, etc.) containers shall be required when original labels are missing or illegible.

(4b) All salvaged merchandise shall be labeled to indicate that the merchandise has been salvaged. ~~All salvaged merchandise in containers is to be provided with labels meeting the requirement of Oklahoma statutes.~~

(2c) Where original labels are removed from containers which are to be resold or redistributed, the replacement labels must show the name and address of the salvage establishment.

310:260-7-5. Handling of nonsalvageable merchandise

(a) **Nonsalvageable merchandise.** Food deemed to be nonsalvageable merchandise are:

- (1) Foods contaminated and/or adulterated by pesticides or other chemicals;
- (2) Potentially hazardous foods (frozen or those requiring refrigeration) which have been exposed to a temperature above 45° F (7.2° C) for a period exceeding 4 hours;
- (3) Foods packaged in paper or other porous materials which have been subjected to contamination.
- (4) Those described in Section 310:260-7-3 as nonsalvageable.

(b) **Distribution of nonsalvageable merchandise.** Nonsalvageable merchandise shall not be sold or distributed as food, but shall be disposed of in a manner approved by ~~and under the supervision of~~ the Department.

310:260-7-6. Record keeping

(a) **Inspection by the Department.** A written record of receipt of distressed, salvageable and salvaged merchandise shall be kept by the salvage establishment or salvage broker for inspection by the Department during business hours.

(b) **Content of records.** The records shall include a general description of distressed merchandise received, source of the distressed merchandise, the date received and the type of damage (fire, flood, etc.)

(c) **Retention of records.** These records shall be kept on the premises of the salvage establishment or salvage broker for a period of two (2) years following the receipt of completion of ~~transactions involving~~ a lot of merchandise.

310:260-7-7. Salvage processors and distributors out-of-state

Salvaged merchandise from salvage processing plants and distributors located outside the jurisdiction of the State of Oklahoma may be sold or distributed within the State, if such plants and distributors conform to the provisions of this regulation or to substantially equivalent provisions ~~and have a valid permit, for such sale or distribution, from the Department.~~ To determine the extent of compliance with such provisions, the Department may accept reports from responsible authorities in other jurisdictions where such plants and distributors are located.

SUBCHAPTER 9. FOOD STORAGE WAREHOUSES

310:260-9-1. Lighting and ventilation

(a) **Lighting.**

(1) All parts of the food storage warehouse shall be lighted so as to permit the activity for which the premises are used to be carried on safely and to permit effective cleaning and inspection of the premises.

(2) Safety shields on lights or safety type lights shall be used where needed for the protection of food storage.

(b) **Ventilation.** Where needed, rooms shall have sufficient ventilation to prevent any undue condensation or water vapor or objectionable odors, or temperature extremes.

310:260-9-1.1. Warehousing and distribution

Storage and transportation of food shall be under conditions that will protect against allergen cross-contact and against biological, chemical (including radiological), and physical contamination of food, as well as against deterioration of the food and the container.

310:260-9-2. Dry storage

(a) **Floors.**

(1) Floors shall be constructed of easily cleanable and reasonably smooth material.

(2) Floors ~~They~~ shall be kept clean and in good repair.

(b) **Walls and ceiling.** Walls and ceiling shall be of sound construction, easily cleanable and kept reasonably free of dirt, dust and cobwebs and in good repair.

310:260-9-3. Cold and frozen storage

(a) **Thermometers.** Each cold storage unit shall be equipped with an accurate and easily visible thermometer with the sensing element at least five feet above the floor.

(b) **Storage temperatures.** Perishable and Time/Temperature Control for Safety~~potentially hazardous~~ foods shall be stored at 45° F or below.

(c) **Frozen foods.** All frozen food shall be stored at a temperature of 0° F or below except for defrost cycles, loading or unloading, or for other temporary conditions beyond the immediate control of the person or company under whose care or supervision the frozen food is stored. However, the internal temperature of all frozen food shall be maintained at 0° F or below except when the product is subjected to the above-mentioned conditions; at such times the internal product temperature shall not exceed 10° F and such product shall be returned to 0° F as quickly as possible.

(d) **Floors, walls, and ceilings.**

(1) Floors shall be constructed of material that can be easily kept clean, sanitary and in good repair.

(2) Walls and ceiling shall be reasonably smooth, and kept clean and in good repair.

~~(e) Walls and ceilings. Walls and ceiling shall be reasonably smooth, and kept clean and in good repair.~~

~~(ef) Defrosting.~~ During defrosting of overhead coils in cold storage rooms, stored food shall be effectively protected from contamination by condensation, drip or leakage.

310:260-9-4. Protection of stored food

(a) **Pests.** The operator shall take all reasonable measures to protect the area where food is kept or stored in a food storage warehouse against the entrance into the establishment, and the breeding or presence on the premises of rodents, birds, flies, roaches, weevils and other vermin.

(b) **Animals.** No dogs, cats, fowl, birds or any other type animal shall be permitted in a food storage warehouse, except that patrol dogs accompanying blind or deaf persons shall not be excluded.

(c) **Use of rodenticides.** When in use, rodenticides shall be placed in covered bait boxes where necessary to prevent spillage or possible contamination of stored food and danger to employees. All rodenticide baits shall be applied in such a manner as to prevent contamination of stored food products.

~~(d) Approval and application of pesticides and rodenticides. All pesticides and rodenticides used for control of vermin shall be in compliance with the Federal Insecticide, Fungicide and Rodenticide Act, and shall be applied in such a manner as to protect stored foods from contamination and in accordance with labeled instructions.~~

~~(de) Storage and Labeling~~**labeling of toxics.**

(1) Cleaning materials, pesticides, rodenticides, and any other such hazardous substances used in the operation of the warehouse shall be stored;

(A) ~~In—~~in properly labeled containers in a closed closet or cabinet in a separate area from food products.

(B) An adequate distance from stored food and single service articles to prevent contamination caused by leakage or spillage.

(2) Where multiple level storage methods are used, all such substances shall be stored below food or single service articles.

~~(ef) Pest control services.~~

(1) When a licensed pest control service is employed, it shall file at the warehouse a diagram of the bait station locations and the rodenticide in use.

(2) The operator should designate an employee to be responsible for the pest control program being used.

~~(g) Storage of toxics. Storage methods shall be used to minimize deterioration and prevent contamination of stored food products. Cleaning materials, pesticides, rodenticides, and any other hazardous substances shall be stored an adequate distance from stored food and single service articles to prevent contamination caused by leakage or spillage. Where multiple level storage methods are used, all such substances shall be stored below food or single service articles. Shelves, cabinets, dunnage and pallets shall be used where necessary to protect stored food products.~~

~~(fh) Product storage on floors.~~

(1) Skids or pallets shall provide a minimum of 6" clearance above the floor to facilitate cleaning, protection of the product, and for movement of air in refrigerated storage areas.

(2i) ~~Space around walls.~~ Merchandise stored on skids or pallets shall be at least 18" away from any wall.

Permanent Final Adoptions

(3j) ~~Access for cleaning.~~ Construction of shelving, cabinets, and storage methods used shall be such as to permit ready access for cleaning and sanitary inspection.

(4k) ~~Overhead piping.~~ No overhead waste drain pipes or other overhead piping shall be used which presents a risk of contamination to foods stored below due to excess condensation or leakage. Protective shields may be used to eliminate this risk.

(5l) ~~Animal feeds.~~ Bagged animal feeds shall be stored so as not to be intermingled with the storage of human food products. Storage on separate pallets is acceptable.

310:260-9-5. Morgue

(a) ~~Holding of damaged foods.~~ The operator of a food storage warehouse shall provide an area for the accumulation and holding of all damaged foods or foods which may be unwholesome.

(b) ~~Disposal of unwholesome foods.~~ The operator shall maintain a program of timely and proper disposal of unwholesome food to prevent development of unsanitary conditions or vermin breeding places and rodent harborage.

310:260-9-6. Restroom Toilet and handwashing facilities

(a) **Toilets.**

(1) The warehouse shall be provided with conveniently located toilets and shall be kept clean and in good repair.

(2) The toilet room shall be completely enclosed, well lighted, vented, and equipped with a tight, self-closing door.

(3) Any window opening shall be screened to prevent entrance of insects.

(b) **Handwashing facilities.**

(1) Handwashing facilities shall be adequate and conveniently located in relation to toilet areas.

(2) Handwashing facilities shall be equipped with hot and cold water, under pressure.

(3) Soap or detergent and paper towels or other single use drying devices shall be provided at all times.

(4) Handwashing facilities shall be kept clean and in good repair.

(5e) ~~Sign.~~ Signage. A sign directing employees to wash their hands before returning to work shall be posted in all toilet rooms.

310:260-9-7. Waste storage and disposal

(a) ~~Liquid waste.~~ All liquid waste resulting from cleaning floors, equipment, flushing toilets, handwashing facilities, refrigeration equipment and air conditioners shall be disposed of in a sanitary manner per standards established and regulated by the Oklahoma Department of Environmental Quality (ODEQ). Where wastes cannot be discharged into a sanitary sewer, all wastes shall be discharged into a system which meets or exceeds the minimum standards for waste disposal, as approved by the Department.

(b) Waste containers. ~~Containers~~ shall be provided for trash or rubbish.

(c) ~~Maintenance.~~ The warehouse shall be free of unnecessary litter and rubbish, such as paper, empty containers, or other material that might serve as a place for harborage of rodents or other vermin.

(d) ~~Storage.~~ All garbage and waste shall be stored in covered containers.

(1) Reusable containers shall be non-absorbent, easily washable receptacles which are covered with close-fitting lids, pending removal.

(2) Disposable containers or liners may be used.

(3) Removal of garbage and waste shall be frequent and the holding area shall be kept clean.

(e) ~~Disposal.~~ All garbage and rubbish shall be disposed of at regular intervals of sufficient frequency and in such manner as to prevent the creation of unsanitary conditions.

310:260-9-8. Exterior construction

(a) ~~Outer openings.~~ The exterior of a food storage warehouse shall be so designed, fabricated and finished to minimize the entrance of insects, birds and rodents.

(b) ~~Screening.~~ All necessary ventilation louvers or openings into food storage warehouses shall be effectively screened against insects, birds and rodents.

(c) ~~Service connections.~~ All service connections through the exterior wall of the establishment, including water, gas, electrical and refrigeration connections shall be ~~grommets or~~ sealed to prevent the entrance of insects, birds and rodents.

310:260-9-10. Transportation and storage

(a) ~~Sanitation.~~ All ~~cars, trucks or other~~ vehicles used in the transportation of processed food products shall be kept in a clean condition at all times. Refuse, dirt and waste products subject to decomposition shall be removed daily. Storage and transportation of finished food shall be under conditions that will protect food against physical, chemical, and microbial contamination as well as against deterioration of the food and the container.

(b) ~~Food protection.~~ Food products shall be handled in such a manner so as to protect all food from deterioration while in transit. Foods, while in transit, shall be protected in such a manner as to preclude being contaminated by hazardous substances, microbial contamination, and against the deterioration of the food and the container.

(c) Vehicles transporting Time/Temperature Control for Safety ~~potentially hazardous~~ food shall be equipped to maintain safe temperatures at all times. An accurate and easily visible thermometer shall be provided for monitoring the temperature of frozen and refrigerated storage areas while food is being held or transported.

310:260-9-11. Exemptions

Bin warehouses, as defined, shall be exempt from the regulations pertaining to providing toilet and handwashing restroom facilities, and water under pressure provisions. ~~However, this exemption applies only to these provisions and all other regulations are applicable.~~

SUBCHAPTER 11. LICENSING, INSPECTIONS AND PLAN REVIEW [REVOKED]

310:260-11-1. Licensing [REVOKED]

(a) **General.** No person shall operate a food manufacturing establishment, food storage warehouse, or a salvage establishment, who does not have a valid license issued to such person by the Oklahoma State Department of Health pursuant to Title 63 O.S. 1981, Section 1-1101 and following. Only a person who is in virtual compliance with the requirements of these rules and regulations shall be entitled to receive or retain such a license.

(b) **Applications.** Any person desiring to operate a food manufacturing establishment, food storage warehouse or salvage establishment, shall make written application for a license on forms provided by the Oklahoma State Department of Health. The applicant shall be the legal owner of the business. Such application shall include the name and address of each applicant, the location and type of proposed establishment, and the signature of each applicant or his authorized agent.

(c) **Expiration of license.** A license shall expire one year from the date of its issuance unless canceled or revoked prior to its expiration. For purposes in determining the expiration date of all licenses under this section, the date of issuance shall be deemed to be the date that an approved application for licensure is first issued by a duly authorized representative of the Health Department.

(d) **License revocation and suspension.** Procedures for revocation and suspension of licenses are stated in the Oklahoma Administrative Procedures Act. These procedures provide for the licensee to be notified of his alleged violations of the Public Health Code and any of these rules. The procedures also provide for the licensee to have the opportunity to be present at a hearing and to present evidence in his defense. The Commissioner of Health's representative makes a recommendation or proposed order to the Commissioner of Health or Deputy Commissioner of Health in his or her stead. The Commissioner of Health or Deputy Commissioner of Health promulgates a final order revoking or suspending the license, dismissing the matter, or providing for other relief as allowed by statute. This final order is appealable to District Court if it is contrary to law or evidence. At any time after the action is filed against the licensee, the State Department of Health and the licensee may dispose of the matter by consent order or stipulation.

310:260-11-2. Inspections [REVOKED]

Representatives of the regulatory authority, after proper identification, shall be permitted to enter any food manufacturing establishment, food storage warehouse or salvage establishment at any reasonable time for the purpose of making inspections to determine compliance with these regulations. The representative shall be permitted to examine records maintained in the food manufacturing establishment, food storage warehouse or salvage establishment (or other location) to obtain information pertaining to the source of food and supplies

in the establishment when deemed necessary for the enforcement of these regulations

310:260-11-3. Examination and condemnation of food [REVOKED]

Food may be examined or sampled by the Oklahoma State Department of Health as often as necessary for enforcement of these rules and regulations. The Oklahoma State Department of Health may place an embargo on food in accordance with the provisions of Title 63 O.S. 1981, Section 1-1105.

310:260-11-4. Plan review [REVOKED]

(a) **Submission.** Prior to commencing construction of a facility not previously licensed, or extensive remodeling of an existing structure, or hereafter substantial alteration of an existing facility for use as a manufacturing, processing, packing or holding plant, food storage or food salvage establishment, adequately prepared plans and specifications should be submitted to the Oklahoma State Department of Health, Food Protection Service, P.O. Box 53551, Oklahoma City, Oklahoma 73152.

(b) **Deficiencies.** If the Department deems such plans and specifications to not conform to the requirements or additional material information is required, the Department shall, within ten (10) days after the receipt thereof, notify by certified mail, the person who submitted them of its objections or its need for additional information.

(c) **Criteria.** The decision to submit a formal plan when extensive remodeling or substantial alteration is contemplated, shall be determined as follows:

- (1) if change prompts the preparation of a plan by an architect, or
- (2) if change prompts the preparation of a plan by food processing or food equipment consultants.

(d) **Content.** Plans for new construction shall include:

- (1) installation layout of processing equipment to be installed on the food processing floor.
- (2) location of handwashing facilities, toilets, and employees locker rooms.
- (3) construction material to be used on floors, walls, and ceiling.
- (4) location of removable filters.
- (5) ventilation system design.
- (6) type of waste disposal systems to be used.
- (7) any air quality equipment to be used.

SUBCHAPTER 13. SPECIAL RISK SITUATIONS [REVOKED]

310:260-13-1. Emergency occurrences [REVOKED]

The person in charge of a food establishment that is affected by a fire, flood, extended power outage, or a similar significant occurrence that creates a reasonable probability that food in the food establishment may have been contaminated or that the temperature level of the food which is in a potentially hazardous form may have caused that food to have become hazardous to health, shall take such action as is necessary

Permanent Final Adoptions

to protect the public health and shall promptly notify the Oklahoma State Department of Health of the emergency. Upon receiving such notice of this occurrence, the regulatory agency shall take action deemed necessary to protect the public health.

310:260-13-2. Infection [REVOKED]

~~When the Oklahoma State Department of Health has reasonable cause to suspect possible disease transmission by an employee of a food establishment, the Department may secure a morbidity history of the employee or make any other investigation as indicated and shall take appropriate action. The Oklahoma State Department of Health may require at a minimum any or all of the following measures:~~

- ~~(1) The immediate exclusion of the employee from employment in food establishments;~~
- ~~(2) The immediate closing of the food establishment concerned until no further danger of disease outbreak exists;~~
- ~~(3) Restriction of the employee's services to some area of the establishment where there would be no danger of transmitting disease;~~
- ~~(4) Adequate medical laboratory examination of the employee and other employees and of his and their body discharges.~~

SUBCHAPTER 15. COMPLIANCE AND ENFORCEMENT

310:260-15-1. License required

(a) No person shall operate a food manufacturing establishment, food storage warehouse, or a salvage establishment, who does not have a valid license issued to such person by the Department pursuant to O.S. §63-1-1119. Only a person who is in virtual compliance with the requirements of these rules and regulations shall be entitled to receive or retain such a license.

(b) A license shall expire one year from the date of its issuance unless canceled or revoked prior to its expiration. For purposes in determining the expiration date of all licenses under this section, the date of issuance shall be deemed to be the date that an approved application for licensure is first issued by a duly authorized representative of the Health Department.

310:260-15-2. Examination and condemnation of food

Food may be examined or sampled by the Department as often as necessary for enforcement of these rules and regulations. The Department may place an embargo on food in accordance with the provisions of Title 63 O.S. 1-1105.

310:260-15-3. Variance

(a) Whenever the Department adopts new rules or amends existing language in this Chapter, the owner of a food establishment may request that a variance be granted on any nonconforming use that may then exist, on or before the effective date of the rule change, at the license holder's place of operation.

(b) Variances requested pursuant to this Subchapter are subject to approval by the Department. In order to have the variance approved, a license holder must submit a written application on a form provided by the Department. Any variance request shall be deemed denied unless the license holder subsequently receives notice of approval from the Department.

(c) If the license holder replaces the equipment or reconstructs the portion of the facility that is the subject of the variance, the new equipment or construction must conform to the rules of this Chapter.

(d) Variances are not considered to be part of the license and may be revoked at any time, for any reason, by the Department.

310:260-15-4. Documentation of proposed variance and justification

Variance requests are subject to review by the Department. During this process, the inspector must confirm the following:

- (1) The nature and extent of the nonconforming use;
- (2) That the equipment or portion of the facility in question is in an operable and sanitary condition, and can be maintained in satisfactory condition during the term of the variance;
- (3) That no public health threats or food-related illness will result if the variance is granted.

310:260-15-5. When plans are required

(a) A license applicant or license holder shall submit to the Department properly prepared plans and specifications for review and approval before:

- (1) The construction of an establishment;
- (2) The conversion of an existing structure for use as an establishment; or
- (3) The extensive remodeling of an establishment or a change of operation.

(b) If the Department deems such plans and specifications to not conform to the requirements or additional material information is required, the Department shall notify the person who submitted them of its objections or its need for additional information.

310:260-15-6. Contents of the plans and specifications

The plans and specifications for an establishment shall include the following information to demonstrate conformance with Code provisions:

- (1) Food items intended to be produced;
- (2) Anticipated volume of food to be prepared, held, and transported;
- (3) Proposed equipment types, manufacturer and model numbers (if available);
- (4) Proposed floor plan;
- (5) Installation layout of processing equipment to be installed on the food processing floor;
- (6) Location of handwashing facilities, restrooms, and employees locker rooms;
- (7) Other information as required by the Department.

310:260-15-7. Preoperational inspections

The Department may conduct one or more preoperational inspections to verify that the establishment is constructed and equipped in accordance with the approved plans and approved modifications of those plans, and is in compliance with law and this Chapter.

310:260-15-8. Form of submission

A person desiring to operate an establishment shall submit to the regulatory authority a written application for a license on a form provided by the regulatory authority.

310:260-15-9. Qualifications and responsibilities of applicants

To qualify for a license, an applicant shall:

- (1) Be an owner of the food establishment or an officer of the legal ownership;
- (2) Comply with the requirements of this Chapter;
- (3) As specified under OAC 310:260-15-17, agree to allow access to the food establishment and to provide required information; and
- (4) Pay the applicable license fees at the time the application is submitted.

310:260-15-10. Contents of the application

The application shall include:

- (1) The name, mailing address, telephone number, and signature of the person applying for the license and the name, mailing address, and location, of the establishment;
- (2) Information specifying whether the establishment is owned by an association, corporation, individual, partnership, or other legal entity.

310:260-15-11. New, converted, or remodeled establishments

For establishments that are required to submit plans as specified under OAC 310:260-15-5 the Commissioner of Health shall issue a license to the applicant after:

- (1) A properly completed application is submitted;
- (2) The required fee is submitted;
- (3) The required plans, specifications, and information are reviewed and approved; and
- (4) An inspection shows that the establishment is built or remodeled in accordance with the approved plans and specifications and that the establishment is in compliance with this Chapter.

310:260-15-12. Issuance of license

The Department may issue a license to a new owner of an existing food establishment after a properly completed application is submitted, reviewed, and approved, the fees are paid, and an inspection shows that the establishment is in compliance with this Chapter.

310:260-15-13. Denial of application for license, notice

If an application for a license to operate is denied, the regulatory authority shall provide the applicant with a notice that includes:

- (1) The specific reasons and Chapter citations for the license denial;
- (2) The actions, if any, that the applicant must take to qualify for a license; and
- (3) Advisement of the applicant's right of appeal and the process and time frames for appeal that are provided in law.

310:260-15-14. Responsibilities of the license holder

Upon acceptance of the license issued by the Commissioner of Health, the license holder in order to retain the license shall:

- (1) Post the license in a location in the establishment that is conspicuous to visitors;
- (2) Comply with the provisions of this Chapter;
- (3) Immediately discontinue operations and notify the Department if an imminent health hazard may exist as specified under OAC 310:260-15-25;
- (4) Allow representatives of the Department access to the establishment as specified under OAC 310:260-15-17;
- (5) Replace existing facilities and equipment with facilities and equipment that comply with this Chapter if:
 - (A) The Department directs the replacement because the facilities and equipment constitute a public health hazard or nuisance or no longer comply with the criteria upon which the facilities and equipment were accepted.
 - (B) The Department directs the replacement of the facilities and equipment because of a change of ownership, or
 - (C) The facilities and equipment are replaced in the normal course of operation;
- (6) Comply with directives of the Department including time frames for corrective actions specified in inspection reports, notices, orders, warnings, and other directives issued by the Department in regard to the license holder's establishment or in response to community emergencies;
- (7) Accept notices issued and served by the Department according to law;
- (8) Be subject to the administrative, civil, injunctive, and criminal remedies authorized in law for failure to comply with this Chapter or a directive of the Department, including time frames for corrective actions specified in inspection reports, notices, orders, warnings, and other directives; and
- (9) If applicable, submit the annual renewal application and pay all renewal license and late fees.

310:260-15-15. Licenses not transferable

A license may not be transferred from one person to another person, from one establishment to another, from one physical address to another, from one corporation to another, from one limited liability company or corporation to

Permanent Final Adoptions

another, from one partnership to another, or from one type of operation to another if the food operation changes from the type of operation specified in the application under OAC 310:260-15-6 and the change in operation is not approved.

310:260-15-16. Competency of inspectors

An authorized representative of the Department who inspects an establishment or conducts plan review for compliance with this Chapter shall have the knowledge, skills, and ability to adequately perform the required duties, and be licensed pursuant to Title 59 O.S. §, 59-1150.1 et seq.

310:260-15-17. Allowed at reasonable times after due notice

After the Department presents official credentials and provides notice of the purpose of, and an intent to conduct, an inspection, the person in charge shall allow the Department to determine if the establishment is in compliance with this Chapter by allowing access to the establishment, allowing inspection, and providing information and records specified in this Chapter and to which the Department is entitled according to law, during the establishment's hours of operation and other reasonable times.

310:260-15-18. Refusal, notification of right to access, and final request for access

If a person denies access to the Department, the Department shall:

- (1) Inform the person that:
 - (A) The license holder is required to allow access to the Department as specified under OAC 310:260-15-17 of this Chapter,
 - (B) Access is a condition of the acceptance and retention of an establishment license to operate as specified under OAC 310:260-15-14(4), and
 - (C) If access is denied, an order issued by the appropriate authority allowing access, hereinafter referred to as an inspection order, may be obtained according to law; and
- (2) Make a final request for access.

310:260-15-19. Refusal, reporting

If after the regulatory authority presents credentials and provides notice as specified under OAC 310:260-15-17, explains the authority upon which access is requested, and makes a final request for access as specified in OAC 310:260-15-18, the person in charge continues to refuse access, the regulatory authority shall provide details of the denial of access on an inspection report form.

310:260-15-20. Inspection order to gain access

If denied access to a food establishment for an authorized purpose and after complying with OAC 310:260-15-18, the Department may issue, or apply for the issuance of an order to gain access as provided in law.

310:260-15-21. Documenting information and observations

The Department shall document on an inspection report form:

- (1) Administrative information about the establishment's legal identity, street and mailing addresses, type of establishment and operation as specified, inspection date, and other information such as type of water supply and sewage disposal, status of the license, and personnel certificates that may be required; and
- (2) Specific factual observations of violative conditions or other deviations from this Chapter that require correction by the license holder.

310:260-15-22. Specifying time frame for corrections

The regulatory authority may specify on the inspection report form the time frame for correction of the violations.

310:260-15-23. Issuing report and obtaining acknowledgment of receipt

At the conclusion of the inspection the regulatory authority shall provide a copy of the completed inspection report and the notice to correct violations to the license holder or to the person in charge, and request a signed acknowledgment of receipt.

310:260-15-24. Refusal to sign acknowledgment

The Department shall:

- (1) Inform a person who declines to sign an acknowledgment of receipt of inspectional findings as specified under OAC 310:260-15-23:
 - (A) An acknowledgment of receipt is not an agreement with findings,
 - (B) Refusal to sign an acknowledgment of receipt will not affect the license holder's obligation to correct the violations noted in the inspection report within the timeframes specified, and
 - (C) A refusal to sign an acknowledgment of receipt is noted in the inspection report and conveyed to the Department's historical record for the food establishment; and
- (2) Make a final request that the person in charge sign an acknowledgment receipt of inspectional findings.

310:260-15-25. Ceasing operations and reporting

(a) Except as specified in (b) of this Section, a license holder shall immediately discontinue operations and notify the regulatory authority if an imminent health hazard exists because of an emergency such as a fire, flood, sewage backup, no water in the facility, insufficient refrigeration and/or hot food storage facilities available, substantial evidence or presence of a large number of insects or evidence of rodents in food or on food preparation surfaces, interruption of safe potable water supply to the facility, misuse of poisonous or toxic materials, onset of an apparent foodborne illness outbreak, interruption of electrical service for more than 4 hours, severe structural damage in

the facility, an employee working with a Salmonella, Shigella, E. coli 0157:H7 or Hepatitis A infection, gross unsanitary occurrence or condition, or other circumstance as determined by the Commissioner of Health, or his designee, that shall endanger public health.

(b) A license holder need not discontinue operations in an area of an establishment that is unaffected by the imminent health hazard.

310:260-15-26. Resumption of operations

If operations are discontinued as specified under OAC 310:260-15-32 or otherwise according to law, the license holder shall notify the regulatory authority before resuming operations.

310:260-15-27. Obtaining information: personal history of illness, medical examination, and specimen analysis

The regulatory authority shall act when it has reasonable cause to believe that a food employee has possibly transmitted disease; may be infected with a disease in a communicable form that is transmissible through food; may be a carrier of infectious agents that cause a disease that is transmissible through food; or is affected with a boil, an infected wound, or acute respiratory infection, by:

- (1) Securing a confidential medical history of the employee suspected of transmitting disease or making other investigations as deemed appropriate; and
- (2) Requiring appropriate medical examinations, including collection of specimens for laboratory analysis, of a suspected employee and other employees.

310:260-15-28. Restriction or exclusion of employee with infection

When the Department has reasonable cause to suspect possible disease transmission by an employee of a food establishment, the Department may secure a morbidity history of the employee or make any other investigation as indicated and shall take appropriate action. The Department may require at a minimum any or all of the following measures:

- (1) The immediate exclusion of the employee from employment in food establishments;
- (2) The immediate closing of the food establishment concerned until no further danger of disease outbreak exists.
- (3) Restriction of the employee's services to some area of the establishment where there would be no danger of transmitting disease;
- (4) Adequate medical laboratory examination of the employee and other employees and of his and their body discharges.

GIST/ANALYSIS:

The current rule excludes persons engaged solely in the harvesting, storage, and distribution of one or more raw, unprocessed agricultural commodities from the regulations. The proposed rule adds to the exclusion list Persons engaged solely in the sale of honey produced under the Oklahoma Honey Sales Act pursuant to Title 63 O.S., §§1-1330 et seq., persons engaged solely in the sale of food products produced under the Home Bakery Act of 2013 pursuant to Title 2 O.S., §§5-4.1 et seq., and persons engaged solely in the sale of food products at a County Free fair as defined by Title 2 O.S., §§15-67 et seq.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

310:260-1-5. Exclusion

(a) Persons engaged solely in the harvesting, storage, and distribution of ~~one or more~~ raw, unprocessed agricultural commodities are not subject to the provisions of this Chapter.

(b) Persons engaged solely in the sale of honey products produced under the Oklahoma Honey Sales Act pursuant to Title

Permanent Final Adoptions

63 O.S. 1-1330 et seq. are not subject to the provisions of this Chapter.

(c) Persons engaged solely in the sale of food products produced under the Home Bakery Act of 2013 pursuant to Title 2 O.S. 5-4.1 et seq. are not subject to the provisions of this Chapter.

(d) Persons engaged solely in the sale of food products at a Registered Farmers Market as defined by Title 2 O.S. 5-19 are not subject to the provisions of this Chapter.

(1) These persons are not exempted from Title 63 O.S. 1-1118(B)(3) in regards to licensure.

(2) Food products shall be labeled with the common food product name, net weight, current ten (10) digit phone number, an address where the product was produced, and shall include the statement, "Packaged in a facility not inspected by the Oklahoma Department of Health." The statement shall be in 10-point type or greater, in a color that provides clear contrast to the background label.

(e) Persons engaged solely in the sale of food products at a County Free fair as defined by Title 2 O.S. 15-67 et seq. are not subject to the provisions of this Chapter.

(1) These persons are not exempted from Title 63 O.S. 1-1118(B)(3) in regards to licensure.

(2) Food products shall be labeled with the common food product name, net weight, current ten (10) digit phone number, an address where the product was produced, and shall include the statement, "Packaged in a facility not inspected by the Oklahoma Department of Health." The statement shall be in 10-point type or greater, in a color that provides clear contrast to the background label.

GIST/ANALYSIS:

The proposal updates the existing rules in accordance with recommendations from the Council of State and Territorial Epidemiologists (CSTE), the Centers for Disease Control and Prevention, and local health care partners pertaining to reportable diseases and injuries. The proposal amends the lists of reportable diseases and injuries, in order to clarify those conditions and diseases that are required to be reported to the Department. The proposal revises the list of conditions of public health importance that require investigation and implementation of prevention activities and time frames for required reporting and requiring all laboratories and providers to report lymphogranuloma venereum (LGV) which is a type of chlamydia' bacteria that attacks the lymphatic system. The additional specification of LGV will ensure that Oklahoma can better describe the type of infections or outbreaks that are occurring within the state and monitor the trends.

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 11, 2020:**

SUBCHAPTER 1. DISEASE AND INJURY REPORTING

310:515-1-1.1. Definitions

When used in this Chapter, the following words or terms shall have the following meaning unless the context of the sentence requires another meaning:

"**AFB**" means Acid Fast Bacillus.

"**AIDS**" means Acquired Immunodeficiency Syndrome.

"**ALT**" means alanine aminotransferase.

"**Anti-HAV-IgM+**" means a positive test result for the hepatitis A virus immunoglobulin M antibody.

"**Anti-HBc-IgM+**" means a positive test result for the hepatitis B core immunoglobulin M antibody.

"**CD4**" means cluster of differentiation 4 glycoprotein that serves as a receptor for HIV on T helper cells.

"**CIDT**" means culture independent diagnostic test system/panel used to detect multiple pathogens.

"**Department**" or "**OSDH**" means the Oklahoma State Department of Health.

"**E. coli**" means *Escherichia coli*.

"**EDTA**" means Ethylenediaminetetraacetic acid.

"**EIA**" means enzyme immunoassay.

"**HbeAg+**" means a positive test result for the hepatitis B "e" antigen.

"**HbsAg+**" means a positive test result for the hepatitis B surface antigen.

"**HBV DNA+**" means a positive test result for deoxyribonucleic acid of the hepatitis B virus.

"**HIV**" means Human Immunodeficiency Virus.

"**LGV**" means lymphogranuloma venereum.

"**PHIDDO**" or "**PHIDDO system**" means Public Health Investigation and Disease Detection of Oklahoma system.

"**NAT for HCV RNA+**" means a positive nucleic acid amplification test result for hepatitis C virus ribonucleic acid.

"**Novel Influenza A**" means an influenza A virus not endemic, not routinely circulating, or for which there is little to no pre-existing immunity, e.g., influenza A H3N2 variant, H5N1, H5N2, H7N3, or H7N9.

"**Outbreak of disease**" means two or more cases residing in different households that have a similar clinical syndrome of a potentially infectious disease, toxin, or agent of known or unknown etiology.

"**RIBA**" means recombinant immunoblot assay.

"**S/co**" means the signal-to-cut-off-ratio.

"**Spp.**" is an abbreviation referring to the term "species," and is used to broaden the antecedent term in order to include all organisms that may be found or described within a given genus.

"**Unusual disease or syndrome**" means a case of an uncommon, possibly infectious disease of known or unknown etiology, even if laboratory testing may be pending or inconclusive, or if testing for common etiologies is negative. Such cases of disease may not normally be endemic to Oklahoma, may represent emerging or re-emerging disease, and/or disease for which a public health intervention may be needed. Examples of such unusual diseases or syndromes include but are not limited to, unexplained adult respiratory distress syndrome, rash illness with atypical presentation, or an illness occurring along with an unusual pattern of illness or death among animals.

310:515-1-4. Additional diseases, conditions, and injuries to be reported

The following diseases, conditions and injuries must be reported by physicians, laboratories, and hospitals (by infection control practitioners, medical records personnel, and other designees) to the OSDH as dictated in the following subsections:

(1) **Infectious diseases.** Reports of infectious diseases and conditions listed in this subsection must be submitted electronically via the PHIDDO system, telephoned or submitted via secure electronic data transmission to the OSDH within one (1) working day (Monday through Friday, state holidays excepted) of diagnosis or positive test.

(A) Acid Fast Bacillus (AFB) positive smear. Report only if no additional testing is performed or subsequent testing is indicative of *Mycobacterium tuberculosis* Complex.

(B) AIDS.

(C) *Anaplasma phagocytophilum* infection.

(D) Arboviral infections (West Nile virus, St. Louis encephalitis virus, Eastern equine encephalitis virus, Western equine encephalitis virus, Powassan

virus, California serogroup virus, chikungunya virus, Zika virus).

(E) Brucellosis (*Brucella* spp.).

(F) Campylobacteriosis (*Campylobacter* spp.).

(G) Congenital rubella syndrome.

(H) Cryptosporidiosis (*Cryptosporidium* spp.).

(I) Cyclosporiasis (*Cyclospora cayetanensis*).

(J) Dengue Fever.

(K) *E. coli* O157, O157:H7, or a Shiga toxin producing *E. coli*. (STEC)

(L) Ehrlichiosis (*Ehrlichia* spp.).

(M) *Haemophilus influenzae* invasive disease.

(N) Hantavirus infection, without pulmonary syndrome.

(O) Hantavirus pulmonary syndrome.

(P) Hemolytic uremic syndrome, postdiarrheal.

(Q) Hepatitis A infection (Anti-HAV-IgM+).

(R) Hepatitis B infection. If any of the following are positive, then all test results on the hepatitis panel must be reported: HBsAg+, anti-HBc-IgM+, HBeAg+, or HBV DNA+.

(S) Hepatitis C infection in persons having jaundice or ALT > or = 200 with laboratory confirmation. If hepatitis C EIA is confirmed by NAT for HCV RNA, or s/co ratio or index is predictive of a true positive then report results of the entire hepatitis panel.

(T) HIV.

(U) Influenza-associated hospitalization or death.

(V) Legionellosis (*Legionella* spp.).

(W) Leptospirosis (*Leptospira interrogans*).

(X) Listeriosis (*Listeria monocytogenes*).

(Y) Lyme disease (*Borrelia burgdorferi*).

(Z) Malaria (*Plasmodium* spp.).

(AA) Mumps.

(BB) Pertussis (*Bordetella pertussis*).

(CC) Psittacosis (*Chlamydia psittaci*).

(DD) Q fever (*Coxiella burnetii*).

(EE) Rubella.

(FF) Salmonellosis (*Salmonella* spp.).

(GG) Shigellosis (*Shigella* spp.).

(HH) Spotted Fever Rickettsiosis (*Rickettsia* spp.) hospitalization or death.

(II) Streptococcal disease, invasive, Group A (GAS) (*Streptococcus pyogenes*).

(JJ) *Streptococcus pneumoniae* invasive disease, in persons less than 5 years of age.

(KK) Syphilis (*Treponema pallidum*). Nontreponemal and treponemal tests are reportable. If any syphilis test is positive, then all syphilis test results on the panel must be reported. For infants < or = 18 months, all syphilis tests ordered, regardless of test result, must be reported.

(LL) Tetanus (*Clostridium tetani*).

(MM) Trichinellosis (*Trichinella spiralis*).

(NN) Tuberculosis (*Mycobacterium tuberculosis*).

(OO) Tularemia (*Francisella tularensis*).

(PP) Unusual disease or syndrome.

(QQ) Vibriosis (*Vibrionaceae* family: *Vibrio* spp. (including cholera), *Grimontia* spp., *Photobacterium* spp., and other genera in the family).
(RR) Yellow Fever.

(2) **Infectious diseases.** Reports of infectious diseases and conditions listed in this subsection must be reported to the OSDH within one (1) month of diagnosis or test result.

(A) CD4 cell count with corresponding CD4 cell count percentage of total (by laboratories only).

(B) Chlamydia (*Chlamydia trachomatis*).

(C) Creutzfeldt-Jakob disease.

(D) Gonorrhea (*Neisseria gonorrhoeae*).

(E) HIV viral load (by laboratories only).

(F) LGV.

(3) **Occupational or environmental diseases.** Laboratories and healthcare providers must report blood lead level results pursuant to the requirements established in Title 310, Chapter 512, childhood Lead Poisoning Prevention Rules.

(4) **Injuries.**

(A) Burns.

(B) Drownings and near drownings.

(C) Traumatic brain injuries.

(D) Traumatic spinal cord injuries.

(E) Poisonings, including toxic and adverse effects.

GIST/ANALYSIS:

The amendment adds a description of the scope of services that explains services will be prioritized to Children First Mothers whose household income is no greater than 185% of the federal poverty level. No more than 15% of a nurse home visitor's caseload should be above 185% of the federal poverty level.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

310:528-1-3. Services

(a) Services will be provided by a public health nurse in the home of the Children First Mother unless the Children First Mother requests that the services be provided in a different location.

(b) Services include limited maternal and child health assessments; child development assessments; parenting education; health, safety and nutrition education; appropriate referrals to services such as primary health care, family planning, mental health services, job training, literacy services, employment opportunities, housing, and substance abuse treatment.

(c) Services will be made available without requirement for legal residence, age, sex, race, religion, nationality, marital status or pregnancy history.

(d) Acceptance of services must be voluntary, and individuals must not be subjected to any coercion to receive services.

(e) Acceptance of services shall not be a prerequisite to eligibility for, or receipt of, any other services provided by the Oklahoma State Department of Health (OSDH).

(f) All information obtained as to personal facts and circumstances of individuals will be held confidential, and shall not be divulged without the individual's written consent, court order, or by request of staff from a District Attorney's Office, a law enforcement official, or the Department of Human Services when conducting a child abuse investigation.

(g) Services will be prioritized to Children First Mothers whose household income is no greater than 185% of the federal poverty level. No more than 15% of a nurse home visitor's caseload should be above 185% of the federal poverty level.

310:528-1-4. Eligibility requirements

The Children First Mother must be at or less than 28 weeks gestation when the initial Children First visit occurs, ~~have a household income no greater than 185% above the Federal Poverty Level~~ be within the prioritized services as set forth in 310:528-1-3(g), and

(1) be expecting her first live birth, never parented and plans on parenting this child; or

- (2) be expecting her first live birth, never parented and is contemplating placing the child for adoption; or
- (3) be expecting her first live birth and has parented stepchildren or younger siblings; or
- (4) be expecting her first live birth, been pregnant before, but the pregnancy did not result in a live birth; or
- (5) be expecting a live birth, been pregnant and delivered a child in the past, but the child died within the first six months of life; or
- (6) be expecting a live birth, been pregnant and delivered a child in the past, but the mother placed the child for adoption immediately following delivery of the child.

GIST/ANALYSIS:

Revisions to this chapter are necessary to assure compliance with the latest recommended guidelines and national standards, and include removal of tools that are no longer recommended. Changes include allowing the use of photo screeners for children under 72 months of age. These rule changes also permit the Oklahoma State Department of Health (Department) to determine "any vision screening tool determined by the Department to be a comparably effective and efficient screening tool" enabling the Department to approve use

of future evidence-based screening technology or tool as new peer-reviewed research becomes available and tools are recommended by experts in the field.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

310:531-1-2. Authority

Commissioner of the Oklahoma State Board~~Department~~ of Health; 70 O.S. § 1210.284; 63 O.S. §§~~1-103~~, 1-103a.1, ~~1-105~~, ~~1-104~~ and 1-106 et seq.

310:531-1-3. Definitions

When used in this Chapter, the following words or terms shall have the following meaning unless the context of the sentence requires another meaning:

"**Board**" means the State Board of Health.

"**Commissioner**" means the State Commissioner of Health of the Oklahoma State Department of Health.

"**Comprehensive Eye Exam**" means a clinical assessment and tests administered by a licensed optometrist or ophthalmologist to assess a person's level of vision as well as detect any abnormality or diseases.

"**Department**" means the Oklahoma State Department of Health.

~~"HOTV Chart" means a vision screening test that determines relative visual acuity for distance vision using a chart with the four (4) letters: H, O, T and V. Chart is recommended for children under 72 months of age.~~

"**Infant and Children's Health Advisory Council**" means the advisory council to the Board and Department in the area of infant and child health including vision screening.

"LEA Numbers Chart" means a vision screening test that determines relative visual acuity for distance vision using a chart with numbers. Chart is recommended for school age children and can be used with children who use English as a second language.

~~"Lea Symbols Chart" means a vision screening test that determines relative visual acuity for distance vision using a chart with the four (4) symbols: circle, square, house, and apple. Chart is recommended for children under 72 months of age.~~

"**Ophthalmologist**" means a person licensed by the state of Oklahoma to practice medicine who has a specialty in ophthalmology.

"**Optometrist**" means a person licensed by the state of Oklahoma to practice optometry.

~~"Random Dot E Stereo Test" means a vision screening test that determines relative stereo acuity or depth perception.~~

Permanent Final Adoptions

"Referral" means parent/guardian notification that the student's screening results indicate a need for a comprehensive eye exam by an ophthalmologist or optometrist.

"Sloan Letters Chart" means a vision screening test that determines relative visual acuity for distance vision using a chart with letters. Chart is recommended for school age children.

~~"Snellen Letter Chart" means a vision screening test that determines relative visual acuity for distance vision using a chart consisting of eight (8) or more rows of progressively smaller block type letters.~~

"Vision screening provider(s)" means a person(s) who has successfully completed vision screening training using curricula approved by the Department, submitted an application to the Department, and has been approved by the Department as being a vision screening provider.

"Vision screening" means the process or system used to identify children in grades K, 1 and 3 who may be at risk of having or developing visual problems that may adversely affect their ability to acquire knowledge, skill or learning, for the purpose of recommending further evaluation by an optometrist or ophthalmologist.

"Vision screening trainer(s)" is a person(s) who has been approved as a vision screening provider and completed additional training approved by the Department to provide training to potential vision screening providers.

~~"Vision screening trainer(s) of trainers" is a person(s) who has been approved as a vision screening provider and vision screening trainer and completed additional education and practicum approved by the Department to become a vision screening trainer of trainers.~~

"Vision Screening Registry" is a system for collecting and maintaining in a structured manner the names of individuals that have been approved by the Department as vision screening providers.

SUBCHAPTER 5. VISION SCREENING STANDARDS FOR CHILDREN

310:531-5-2. Oklahoma Vision Screening Standards

(a) Parents or guardians of any child subject to the Oklahoma School Code shall provide certification of vision screening for any child who is:

- (1) in kindergarten, and the vision screening shall be completed within the previous twelve (12) months or during the school year;
- (2) in the first grade, and the vision screening shall be completed within the previous (12) months, with certification provided to school personnel within thirty (30) days of the beginning of the school year; and
- (3) in the third grade, and the vision screening shall be completed within the previous twelve (12) months, with certification provided to school personnel within thirty (30) days of the beginning of the school year.

(b) Vision screening must, at a minimum, utilize one of the following vision screening tests using standard screening procedures for relative visual acuity:

(1) ~~For school age children, For relative distance acuity, the Snellen Sloan Letter Chart, HOTV Chart, or LEA Symbol Numbers Chart, at a distance of ten (10) feet or any new vision screening tool determined by the Department to be a comparably effective and efficient screening tool; or~~

(2) ~~For children under 72 months of age, a photo-screener or any new vision screening tool determined by the Department to be a comparably effective and efficient screening tool. For stereo acuity, the Random Dot E Stereo Test, at a distance according to the calibration of the manufacturer, or any new vision screening tool determined by the Department as being a comparably effective and efficient screening tool.~~

(c) The following distance visual acuity criteria shall be used as a basis for referring a child for further evaluation by an optometrist or ophthalmologist: Refer for a two-line difference in either eye, even in the passing range, or acuity 20/40 or worse in either eye.

~~(1) For relative distance acuity, worse than 20/40 in either or both eyes for children below the first grade or for new tools the equivalent, or worse than 20/30 in either or both eyes for children in the first grade or above or, for new screening tools the equivalent, and for all children, a two or more line difference between either eye or, for new screening tools the equivalent; and,~~

~~(2) For relative stereo acuity, a child identifies the E correctly in less than four (4) consecutive responses out of ten (10) attempts or, for new vision screening tools the equivalent.~~

310:531-5-5. Re-approval of vision screening providers

A vision screening provider ~~currently approved by the Department~~ may renew his or her application status by submitting documentation of ~~successful~~ completion of training, conducted by an approved trainer, using an approved curricula, prior to the end of his or her third year.

310:531-5-6. Approval of vision screening trainers

(a) In order to become an approved vision screening trainer an individual must be an approved vision screening provider and make application to the Department and include documentation of successful completion of training conducted by an approved trainer using an approved training curriculum that includes the following:

- (1) common eye problems;
- (2) the screening process;
- (3) required screening tools;
- (4) screening special populations;
- (5) basic anatomy and physiology of the eye; and,
- (6) techniques for effective training of vision screening providers.

(b) The applicant must provide to the Department documentation of successful completion of training, which is administered by a ~~vision screening trainer of trainers~~ approved by the Department using a training curriculum ~~curricula~~ for trainers approved by the Department.

(c) The Department will review and approve vision screening trainers and the approved curricula used for training vision screening providers.

(d) The approval of a vision screening trainer ends three years from the most ~~recently~~ recent approval ~~approved~~ training.

310:531-5-7. Re-approval of vision screening trainers

A vision screening trainer ~~currently approved by the Department~~ may renew his or her ~~application status~~ by submitting documentation of ~~successful~~ completion of an approved training, conducted by an approved ~~vision screening~~ trainer of ~~trainers~~, using an approved curricula, prior to the end of his or her third year.

310:531-5-8. Approval of vision screening trainers of trainers [REVOKED]

(a) ~~In order to become an approved vision screening trainer of trainers, an individual must be an approved vision screening provider, an approved vision screening trainer, and make application to the Department and include documentation of successful completion of training conducted by an approved trainer using an approved training curriculum that includes the following:~~

- (1) ~~common eye problems;~~
- (2) ~~the screening process;~~
- (3) ~~required screening tools;~~
- (4) ~~screening special populations;~~
- (5) ~~basic anatomy and physiology of the eye;~~
- (6) ~~techniques for effective training of vision screening providers; and,~~
- (7) ~~techniques for effective training of vision screening trainers of trainers.~~

(b) ~~The applicant must provide to the Department documentation of successful completion of training, which is administered by a vision screening trainer of trainers approved by the Department using training curricula for trainers approved by the Department.~~

(c) ~~The Department will review and approve vision screening trainers of trainers and the approved curricula used for training vision screening trainers.~~

(d) ~~The approval of a vision screening trainers of trainers ends three years from most recently approved training.~~

310:531-5-9. Re-approval of vision screening trainers of trainers [REVOKED]

A vision screening trainer of trainers ~~currently approved by the Department~~ may renew his or her application by submitting documentation of ~~successful~~ completion of training conducted by an approved trainer and use of an approved curriculum prior to the end of his or her third year.

INCORPORATIONS BY REFERENCE:

n/a

GIST/ANALYSIS:

The proposed changes modify the process for obtaining and submitting religious and personal vaccine exemptions for children enrolled in Oklahoma schools or childcare centers. Religious and personal exemptions may be obtained after receiving an approved brief educational presentation provided by any local county health department regarding the risks associated with not being vaccinated and the benefits vaccinations provide to the individual and the community. To be approved, the completed exemption form along with evidence of completed instruction is required. The proposed rule creates an expiration date to exemptions before entry to seventh grade and a new exemption form should be submitted to the department.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

**SUBCHAPTER 1. CHILDHOOD
IMMUNIZATIONS**

310:535-1-2. Criteria for immunizations required

(a) Each child shall present certification that he or she has received or is receiving the immunizations as specified below

Permanent Final Adoptions

before he or she is admitted to any public, private, or parochial school.

(b) Certification shall include the following:

(1) Diphtheria, Tetanus and Pertussis (DTP/DTaP) vaccine in five doses unless the fourth dose is received on or after the fourth birthday in which case only four doses are required. If the doses are not completed by the seventh birthday, the series must be completed with Adult Td vaccine and/or Tdap vaccine based on the individual's age at the time the first dose was received and age at the time the series is completed and beginning with the fall 2011-12 school year one dose of Tdap vaccine for students entering the seventh grade. Each year following the 2011-12 school year, the Tdap requirement shall be extended one grade level so that in the 2016-17 school year and all subsequent school years, students in grades seven through twelve shall be required to have received one dose of Tdap vaccine.

(2) Poliomyelitis vaccine in four doses unless the last dose is on or after the fourth birthday in which case only three doses are required. If the doses are not started or completed by the eighteenth birthday, no additional doses are required.

(3) Measles, Mumps and Rubella (MMR) vaccine with the first dose on or after the first birthday and the second dose at least twenty-eight days thereafter for children in grades kindergarten through eighth grade in the school year beginning in 1998. In the school year beginning in 1999, this requirement shall apply to the children through the ninth grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2002, children in all grades shall be required to have the second dose of vaccine.

(4) Hepatitis B vaccine in three doses for students of any age or two doses for students eleven through fifteen years of age who complete the alternative dosage schedule providing that the alternative schedule is fully documented. Such documentation must include the name of the vaccine and the dosage received for each dose of that vaccine:

(A) before entering seventh and eighth grades in 1998. In the school year beginning in 1999, this requirement shall apply to the children entering the seventh through ninth grades. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2002, children in grades seven through twelve shall be required to have the three doses of the vaccine.

(B) before entering kindergarten in 1998. In the school year beginning in 1999, this requirement shall apply to the children entering kindergarten and first grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2004, all children entering school shall be required to have the three doses of the vaccine.

(5) Hepatitis A vaccine in two doses with the first dose on or after the first birthday and the second dose six to eighteen calendar months later:

(A) before entering kindergarten in 1998. In the school year beginning in 1999, this requirement shall apply to the children entering kindergarten and first grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2004, all children entering school shall be required to have the two doses of the vaccine.

(B) before entering grade seven in 1998. In the school year beginning in 1999, this requirement shall apply to the children entering the seventh and eighth grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2003, children in grades seven through twelve shall be required to have the two doses of the vaccine.

(6) Varicella (chickenpox) vaccine in one dose on or after the first birthday: before entering kindergarten in 1998. In lieu of vaccination, a parent's statement of a history of the disease chickenpox will be accepted. In the school year beginning in 1999, this requirement shall apply to the children entering kindergarten and first grade. Each year thereafter the requirement shall be extended one grade level so that in the school year beginning in 2010, all children entering school shall be required to have the vaccine or a parent's statement of a history of the disease chickenpox.

(c) The minimum intervals between doses and minimum ages for doses shall be as follows:

(1) DTP/DTaP:

(A) First and second dose - 4 weeks

(B) Second and third dose - 4 weeks

(C) Third and fourth dose - 4 months

(D) Fourth and fifth dose - 6 months

(E) For all fifth doses given after January 1, 2003 the minimum age for the fifth dose is 4 years of age

(2) Polio:

(A) First and second dose - 4 weeks

(B) Second and third dose - 4 weeks

(C) Third and fourth dose - 4 weeks

(3) MMR: First and second dose - 4 weeks

(4) Hepatitis B 3-dose series:

(A) First and second dose - 1 month (4 weeks)

(B) Second and third dose - 2 months (8 weeks), and the third dose at least 4 months (16 weeks) after first dose, and the third dose not before 24 weeks of age

(5) Hepatitis B 2-dose series: First and second dose - 4 months

(6) Hepatitis A: First and second dose -- 6 months and for all doses given on or after January 1, 2003, 6 months will be defined as 6 calendar months

(7) Four day grace period: Vaccine doses administered 4 days or less before the minimum intervals or ages listed in the preceding sections will be counted as valid.

(d) A child, through his parent or guardian, may apply for an exemption from this requirement by submitting a form to the school Department. The school shall maintain a copy of the approved application in the child's records ~~and send a copy~~

~~to the Department for approval. All exemptions submitted prior to a student entering 7th grade shall expire at the end of the student's 6th grade year. A new exemption is required to be completed and submitted to the Oklahoma State Department of Health by the parent or guardian prior to enrolling the child in 7th grade.~~

(1) A request for exemption for medical reasons shall contain a certificate signed by a physician stating that the physical condition of the child is such that the immunization would endanger the life or health of the child and that the child should be exempt for immunization.

~~(2) A request for exemption for religious or other personal reasons shall contain a signed written statement from the parent or guardian stating a summary of the objections. Lost or unobtainable immunization records are not a ground for personal exemption. Religious and personal exemptions may be obtained after receiving an approved brief instructional presentation provided by any local county health department regarding the risks associated with not being vaccinated and the benefits vaccinations provide to the individual and the community. To be approved, the completed exemption form along with evidence of completed instruction is required.~~

(e) A child participating in a pre-kindergarten school program shall have received or be in the process of receiving the appropriate immunization for the listed diseases based on the child's age.

(f) The Department may grant exemptions or substitutions in the immunization schedule based on a medical history of a physical condition such that the immunization would endanger the life or health of the child or a medical history stating the child is likely to be immune as a result of having had a vaccine-preventable disease if the following are met:

(1) A history of having had diphtheria and/or tetanus is not acceptable as proof of immunity since infection with diphtheria or tetanus may not render an individual immune to either of these diseases,

(2) A history of having had polio, pertussis, rubella, mumps, hepatitis B, or hepatitis A must be supported by laboratory evidence to be acceptable as proof of immunity to these diseases,

(3) A history of having had measles must be accompanied by a statement from a physician, public health authority, or laboratory evidence to be acceptable as proof of immunity to measles,

(4) A parental history of having had varicella is acceptable evidence of immunity to varicella.

(g) Haemophilus influenzae type B (Hib) vaccine is not a requirement for children attending pre-kindergarten, kindergarten, or school.

(h) In some circumstances, the United States Food and Drug Administration may approve the use of an alternative dosage schedule for an existing vaccine. These alternative schedules may be used to meet the requirements only when the alternative schedule is fully documented. Such documentation must include the name of the vaccine and dosage received for each dose of that vaccine.

310:535-1-3. Criteria for immunizations required for daychild care

(a) Each child two months of age or older shall present certification that he or she has received or is receiving the immunizations as specified below before he or she is admitted to, and while enrolled in, a daychild care center or daychild care home.

(b) Certification shall include the following:

(1) 5 DTaP/DTP doses at 2, 4, 6, and 12 to 18 months and 4 to 6 years or beginning at 6 weeks of age with minimum intervals of 4 weeks between doses 1 and 2 and doses 2 and 3 and 4 months between doses 3 and 4 and 6 months between doses 4 and 5, with all fifth doses given on or after January 1, 2003 given on or after the fourth birthday; The fifth DTaP/DTP is not required if the fourth DTaP/DTP is administered on or after the fourth birthday;

(2) 4 Polio doses at 2, 4 and 6 to 18 months and 4 to 6 years or beginning at 6 weeks of age with minimum intervals of 4 weeks between all doses; The fourth Polio is not required if the third dose is given on or after the fourth birthday;

(3) 1 to 4 Haemophilus influenzae type B (Hib) doses at 2, 4, 6, and 12 to 15 months of age or older depending upon age at first Hib immunization and type of vaccine used or beginning at 6 weeks of age with minimum intervals of 4 weeks between doses 1, 2, and 3, if a third dose is part of the primary series, and the booster dose no earlier than 12 months of age and at least 8 weeks after the previous dose;

(4) 2 Measles, Mumps, Rubella doses with the first dose on or after the first birthday and the second dose at 4 to 6 years or at anytime after the first dose provided at least 4 weeks have elapsed since the receipt of the first dose;

(5) 1 Varicella dose on or after the first birthday;

(6) 2 Hepatitis A doses with the first dose on or after the first birthday and the second dose six to eighteen months later and for all doses given on or after January 1, 2003, 6 months will be defined as 6 calendar months;

(7) 3 Hepatitis B doses with minimum intervals as follows: 1 month (4 weeks) between doses 1 and 2, two months (8 weeks) between doses 2 and 3, four months (16 weeks) between doses 1 and 3, and dose 3 no earlier than 24 weeks of age;

(8) 1 to 4 doses of pneumococcal conjugate vaccine (PCV) for children 2 months through 59 months of age at 2, 4, 6, and 12 to 15 months of age or older depending upon age at first PCV immunization with minimum intervals between doses as follows: 4 weeks between doses 1, 2, and 3 and 8 weeks between doses 3 and 4 or any dose given as the final dose at age >12 months.

(9) Vaccine doses administered 4 days or less before the minimum intervals or ages listed in the preceding sections will be counted as valid.

(c) In the event that the parent, guardian, or responsible adult presenting a child for admission to a child care facility certifies in writing that a family emergency exists, the immunization requirements shall be waived for a period not to exceed thirty days. No such waiver shall be knowingly permitted more than once for any child.

Permanent Final Adoptions

(d) Immunization records for children attending school-age programs are not required if those records are maintained by the school and are readily available.

(e) A child, through his parent or guardian, may apply for an exemption from this requirement by submitting a form to the ~~day care center or day care home~~ Department. The ~~day child~~ care center or ~~daychild~~ care home shall maintain a copy of the approved application in the child's records and send a copy to the Department for approval.

(1) A request for exemption for medical reasons shall contain a certificate signed by a physician stating that the physical condition of the child is such that the immunization would endanger the life or health of the child and that the child should be exempt for immunization.

(2) ~~A request for exemption for religious or other personal reasons shall contain a signed written statement from the parent or guardian stating a summary of the objections. Lost or unobtainable immunization records are not a ground for personal exemption.~~ Religious and personal exemptions may be obtained after receiving an approved brief instructional presentation provided by any local county health department regarding the risks associated with not being vaccinated and the benefits vaccinations provide to the individual and the community. To be approved, the completed exemption form along with evidence of completed instruction is required.

(f) The Department may grant exemptions or substitutions in the immunization schedule based on a medical history of a physical condition such that the immunization would endanger the life or health of the child or a medical history stating the child is likely to be immune as a result of having had a vaccine-preventable disease if the following are met:

(1) A history of having had diphtheria and/or tetanus is not acceptable as proof of immunity since infection with diphtheria or tetanus may not render an individual immune to either of these diseases;

(2) A history of having had polio, pertussis, rubella, mumps, or hepatitis A must be supported by laboratory evidence to be acceptable as proof of immunity to these diseases;

(3) A history of having had measles must be accompanied by a statement from a physician, public health authority, or laboratory evidence to be acceptable as proof of immunity to measles;

(4) A parental history of having had varicella is acceptable evidence of immunity to varicella.

(5) A history of having had Hib before age two years is not acceptable as proof of immunity since infection with Hib prior to age two years may not render an individual immune.

INCORPORATIONS BY REFERENCE

n/a

GIST/ANALYSIS:

A few terms and definitions were added/revised for clarity and references. This includes "newborn screening filter paper", "other health care provider", "other qualified individual" and "subsequent hearing screening". The current rule references "regional sites" for follow-up screenings. However, regional sites no longer exist due to the expansion of screening capabilities at local county health departments and other health care provider locations. This proposal expands screening options for Oklahoma families to assist infants in receiving recommended follow-up. This proposal sets forth parameters to ensure national guidelines are met for screening by one month of life and hearing loss diagnosis by three months of life. The proposal establishes the manner and timeframe deemed appropriate by the Oklahoma State Department of Health to report hearing screening and diagnostic results as reporting results can guide individualized case management needs of infants through the early hearing detection and early intervention process. The proposal updates the current rule regarding when a newborn can be referred to audiologist for diagnostic hearing evaluation so that language reflects recommendations by the national Joint Committee on Infant Hearing.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 11, 2020:**

310:540-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Audiologist" means an individual holding ~~certification~~ a state licensure in the field of Audiology by the American Speech Language Hearing Association or its equivalent.

"Discharge" means the release of the newborn from care and custody of a perinatal licensed health facility to the parents or into the community.

"Hearing Screening Procedure" means the combination of physiologic hearing screening and risk factor tracking used to determine, from the total population of infants born, the infants at risk for hearing loss.

"Newborn screening filter paper" means a newborn screening blood spot collection kit approved by the Oklahoma State Department of Health.

"Other health care provider" means the health care provider who will be providing health care for the infant after birth including midwives, physician assistants, nurse practitioners, and hospital hearing screening vendors.

"Other qualified individual" means an individual working under the guidelines developed by the responsible physician or audiologist health care facility, physician, audiologist or other health care provider.

"Parent" means a natural parent, stepparent, adoptive parent, legal guardian, or other legal custodian of a child.

"Physician" means an M.D. or D.O. licensed in the State of Oklahoma to practice medicine.

"Physiologic Screening" means the use of a bilateral physiologic screening technique to determine, from the total population of infants born, the infants at risk for hearing loss.

"Risk Factors" mean conditions identified by the Joint Committee on Infant Hearing (JCHIH 2000 Position Statement or later) which place a newborn at risk for hearing loss.

"Subsequent hearing screening" means a hearing screening completed at minimum 72 hours after the initial hearing screening.

"Transfer" means release of the newborn from care and custody of one perinatal licensed health facility to another.

310:540-1-3. Guidelines

(a) All newborns in Oklahoma ~~will~~shall have a Hearing Screening Procedure completed unless the parent or guardian refuses because of religious or personal objections.

(b) Requirements for the Hearing Screening Procedure are as follows:

(1) For facilities with a two-year average annual birth census of 15 or greater:

(A) All infants will receive a physiologic and risk factor screening prior to discharge.

(B) Infants transferred to another facility will be screened by that institution prior to discharge.

(2) For facilities with a two-year average annual birth census of fewer than 15:

(A) All infants will receive a physiologic and risk factor screening prior to discharge if physiologic screening equipment is available.

(B) Infants transferred to another facility will be screened by that institution prior to discharge.

(C) If physiologic screening equipment is not available, the infant will be screened for risk factors and,

(D) ~~the~~The parents will be directed to a regional site providing referred for physiologic screening and encouraged to have the infant screened within the first month of life.

(3) Out-of-Hospital Births:

(A) All infants who are not born in a hospital will have their hearing screened within the first month of life. The infant's physician or ~~licensed or certified birth attendant~~other health care provider is responsible for completing the risk factor screening and for referring the infant to a ~~regional hearing screening site~~health care facility with trained personnel and appropriate equipment for a physiologic screen or an audiologist.

(B) ~~Physicians, other health care providers, or local county health department staff who examine a child within the first three months of life who was not born in a hospital, or who was born out of state, will verify that the infant's hearing has been screened. Infants not screened will be referred to a regional hearing screening site.~~

(c) Hospital universal newborn hearing screening programs will be administered by an audiologist and/or ~~physician~~health care facility.

(d) The physiologic screening will include the use of at least one of the following:

(1) Auditory Brainstem Response Testing (ABR);

(2) Otoacoustic Emissions Testing (OAE);

(3) ~~any~~Any new or improved techniques deemed appropriate for use in hearing screening procedures by the Commissioner of Health.

(e) The Hearing Screening Procedure will be performed by a qualified and properly trained individual, and the results provided to the ~~primary care~~physician or other health care provider. Notification of the screening results to parents will be given prior to discharge or immediately following the Hearing Screening Procedure~~if conducted through a regional site~~.

(f) Newborns ~~will~~may be referred to an audiologist for a diagnostic hearing evaluation for these reasons:

(1) They did not pass the hearing screening~~prior to discharge~~;

(2) ~~they~~They passed the initial or subsequent hearing screening but were at risk for progressive or late onset hearing loss ~~because of a risk factor~~ identified by the Joint Committee on Infant Hearing or did not pass the recommended six month follow up hearing screening.

(g) The hospital personnel, audiologist, or ~~primary care physician~~other health care provider involved in the screening of a newborn will provide the parents with appropriate resource information to allow ~~them~~the newborn to receive the medical, audiologic, and other follow-up services as necessary.

(h) The hospital personnel, audiologist, or ~~primary care physician~~other health care provider involved in the initial Hearing Screening Procedure of a newborn will forward results

Permanent Final Adoptions

to the Oklahoma State Department of Health ~~in a manner and time frame deemed appropriate by the Oklahoma State Department of Health~~ via newborn screening filter paper, fax, or secure email within one week of performing the hearing screen.

(i) ~~Physicians, other health care providers, or local county health department staff who examine a child within the first three months of life will verify that the infant's hearing has been screened. Infants not screened will be referred to a health care facility with trained personnel and appropriate equipment for a physiologic screen or an audiologist.~~

(ij) ~~Audiologists or physicians Health care facilities, physicians, audiologists or other health care providers involved in completing follow-up hearing screens or diagnostic evaluations will forward test results and recommendations to the Oklahoma State Department of Health in a manner and time frame deemed appropriate by the Oklahoma State Department of Health via fax or secure email within one week of performing the hearing screen or diagnostic evaluation.~~

(jk) To facilitate the reporting of newborns and infants who have or are at risk for hearing loss, the reporting requirements will be designed to be as simple as possible and easily completed by nonprofessional and professional individuals involved in the program.

(kl) The Oklahoma State Department of Health will utilize a tracking system to track infants identified at risk for hearing loss for a period up to one year in order to assure appropriate follow-up care.

(lm) The Oklahoma State Department of Health will compile and report data collected from hearing screening procedures at least annually and will share such information as directed by the Commissioner of Health.

GIST/ANALYSIS:

The amendments include the Good Samaritans that have been exposed to communicable diseases while rendering aid; amend definitions to include a new definition for "Good Samaritan"; amend applicability to include "Good Samaritan"; and amend notification system to allow "Good Samaritans" to submit the form to health care facilities. Health care facilities are to determine risk exposure for "Good Samaritans". "Good Samaritans will be able to request testing of a source patient, and notification of their exposure to a communicable disease.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 11, 2020:**

310:555-1-1. Purpose

The rules in this Chapter implement a system of notification for risk exposures which are capable of transmitting an occupational risk disease to health care workers, emergency responders, ~~and funeral workers, and Good Samaritans.~~ The employers of those classes of workers (excluding Good Samaritans) are required by federal OSHA standards (29 CFR Part 1910.1030) to have management policies and systems to handle such exposures. Only workers at health care facilities have access to patient charts and laboratory results; further, these facilities have systems to handle such exposures. Therefore, in order to facilitate access to source patient information, the notification system established in this Chapter shall apply to risk exposures to health care workers, emergency responders, ~~and funeral workers, Good Samaritans rendering aid~~ occurring outside of employment at a health care facility.

310:555-1-2. Definitions

The following words or terms, when used in this Chapter, shall have the following meaning unless the context clearly indicates otherwise:

"Designee providing post-exposure follow-up" means any person authorized by law and designated by the employer to be responsible for counseling the exposed health care worker, emergency responder or funeral worker regarding the potential risks, need for further evaluation, testing and treatment, and communicating source patient test results. Examples would be case managers, occupational health practitioners, infection control practitioners, etc. This person should

be current with the latest issues regarding occupational exposures and are responsible to comply with 63 O.S. Supp. 2001, Section 1-502.1 et seq.

"Emergency responder" means fire fighters, certified or designated first responders, emergency medical technicians and peace officers.

"Funeral worker" means any person who prepares a corpse for burial or other disposition.

"Good Samaritan" means where no prior contractual relationship exists, any person who in good faith renders or attempts to render emergency care consisting of artificial respiration, restoration of breathing, or preventing or retarding the loss of blood, or aiding or restoring heart action or circulation of blood to the victim or victims of an accident or emergency, wherever required, shall not be liable for any civil damages as a result of any acts or omissions by such person in rendering the emergency care.

"Health care facility" means any hospital, medical center, clinic, medical examiner, ambulatory surgical center, home care agency, hospice, nursing facility, assisted living facility and residential care facility or other inpatient or outpatient health care supplier to which a source patient is transported after a risk exposure.

"Health care facility designated person" means the person authorized by law and designated by the health care facility to be responsible for following up reported risk exposures.

"Health care worker" means any health care facility employee, physician, nurse or other health care provider whose job activities involve contact with patients or with any blood or body fluids from patients in an inpatient or outpatient health care facility, including the patient's home.

"Licensed health care professional" means a physician, a registered nurse, or a physician assistant (PA).

"Occupational Risk disease" for the purpose of these rules, are those infectious diseases which are transmitted from person-to-person by close or intimate contact with blood or body secretions and which may pose an occupational risk to emergency responders, health care workers, and funeral workers. Such diseases include, but are not limited to, Hepatitis B (HBV), Hepatitis C (HCV), Human Immunodeficiency Virus (HIV), meningococcus, measles, pertussis and tuberculosis.

"Potentially infectious body fluids" means blood or blood products; semen or vaginal secretions; pleural, synovial, cerebrospinal, pericardial, peritoneal and amniotic fluids; any fluid visibly contaminated with blood; and all body fluids in situations where it is difficult or impossible to differentiate between body fluids.

"Risk exposure" means an exposure which has been epidemiologically demonstrated to pose a risk for transmission of an occupational risk disease. Such an exposure would include a parenteral (e.g. needle stick or cut), permucosal (e.g. mouth-to-mouth resuscitation or splash to the eye or mouth) exposure to blood or other body fluids, or contact with blood to skin which is chapped, abraded or afflicted with dermatitis or exposure to respiratory secretions.

"Source patient" means the person to whom the health care worker, emergency responder, or funeral worker has had a risk exposure.

310:555-1-3. Applicability

The notification system established in this Chapter shall apply to employers of health care workers, emergency responders, ~~and~~ funeral workers, and Good Samaritans for risk exposures not occurring during employment at a health care facility.

310:555-1-4. Notification system

(a) Any health care worker, emergency responder, ~~or funeral worker or Good Samaritan~~ who sustains a risk exposure, not occurring during employment at a health care facility, is responsible for immediately reporting that exposure. To initiate this notification system, the exposed ~~worker~~ person shall complete Part I of the OSDH Communicable Disease Risk Exposure Report Form (ODH #207) and submit it to their employer or employer's designated person. Good Samaritans submit the form directly to health care facility where the source patient was transferred.

(b) For exposures happening while on duty, The employer shall be responsible for having the circumstances of the exposure reviewed by a licensed health care professional to determine if a risk exposure occurred. The licensed health care professional should use guidelines of the Centers for Disease Control and Prevention to make this determination. The facility where the source patient was transported will determine if a risk exposure occurred for Good Samaritans.

(c) If the licensed health care professional determines that a valid risk exposure has occurred, then the employer /Good Samaritan shall be responsible to submit within 24 hours of exposure, if possible, the Risk Exposure Report to:

- (1) The health care facility's designated person at the institution to which the source patient was transported, or
- (2) The source patient's attending physician, if the source patient was being cared for outside of a health care facility, or
- (3) The health care facility that last had responsibility for a deceased source patient, such as hospital of death, medical examiner or attending physician.

(d) The health care facility or the source patient's attending physician, if the source patient was being cared for outside of a health care facility, shall be responsible for designating an appropriate person authorized by law (and at least one back-up person) to provide confidential follow-up of the Risk Exposure Report. Follow-up should include:

- (1) Review of the source patient's medical record and consultation with the patient's attending physician to determine if the patient is known to have an occupational risk disease or if the source patient has risk factors for HBV, HCV, and/or HIV infection.
- (2) Testing of the source patient for HBV, HCV and/or HIV should be pursued upon request of the exposed worker's employer or Good Samaritan under the following conditions:

- (A) the health care facility has been provided with a completed written report of occupational or Good Samaritan exposure utilizing ODH Form 207, and
- (B) ODH Form 207 has been signed by a licensed health care professional verifying that a risk exposure

to the source patient's blood or other potentially infectious body fluid has occurred. In accordance with 63 O.S. 2001, Section 1-502.3(A), testing of a source patient's blood may be performed:

- (i) with their written consent,
- (ii) without consent when ODH Form 207 is presented to the health care facility as noted above, or
- (iii) upon court order.

(3) The source patient's blood, whenever available, shall be submitted for testing within 24 hours after ODH Form 207 has been received. When Rapid HIV Testing of the source patient is available and appropriate, efforts shall be made to have these results communicated to the health care facility's designated person immediately. All other test results shall be communicated to the health care facility's designated person within the next 5 days. In some instances, special arrangements (e.g., telephone call) may need to be made in order to have results within 5 days.

(4) Positive test results for HIV, HBV, and HCV from source patients should be made available by the health care facility designee immediately, and not more than 24 hours of receipt of the results to the physician or designee providing post-exposure follow-up to the exposed worker /Good Samaritan named on ODH Form 207. In addition, the health care facility designated person may (without consent) release the results of the source patient's HIV, HBV and HCV tests to:

- (A) the source patient (and his/her physician);
- (B) the exposed worker / Good Samaritan named on ODH Form 207; and/or
- (C) Oklahoma State Department of Health.

(e) The health care facility designated person shall complete Part II of the Risk Exposure Report and mail it to the Oklahoma State Department of Health within six (6) working days.

(f) The physician or designee providing post-exposure follow-up to the exposed worker /Good Samaritan shall be responsible for ensuring the exposed worker/Good Samaritan has been informed whether or not he or she has been exposed to an occupational risk disease and make recommendations for appropriate follow-up.

(g) All reasonable costs associated with follow-up and testing of the source patient or exposed worker(s) as directed by these rules shall be paid by the exposed worker's employer, with the exception of a Good Samaritan who is responsible for all costs themselves, unless such costs to the source patient are borne by other payment sources.

(h) All information on the OSDH Risk Exposure Report shall be strictly confidential in accordance with applicable state laws.

SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 11, 2020:**

SUBCHAPTER 11. STAFFING REQUIREMENTS

310:605-11-1. Staffing requirements

Each adult day care center shall have a staff adequate in number, and appropriately qualified and trained to provide the essential services of the center.

(1) Each adult day care center shall have the following positions:

- (A) A director who shall have the authority and responsibility for managing and implementing the day care program.
- (B) An activity director.
- (C) A social services coordinator or case manager.
- (D) A dietary supervisor. Centers that are a part of larger organization which provides food service to the center, or centers that contract with an outside service for food service may employ a part time dietary supervisor.

(2) Each center shall employ additional staff, such as nurses, therapists, consultants, drivers, etc., as needed.

(3) Staff who serve in more than one staff position shall meet the minimum qualifications for each position served.

(4) Centers that administer medication shall have a registered nurse (R.N.), licensed practical nurse (L.P.N.), certified medication aide (CMA), or a medication administration technician (MAT) who has successfully completed a course of training in administration of medications approved by the Department. Monthly consultation by an R.N. or L.P.N. shall be required for centers where medications are administered by a certified medication aide (CMA), or a medication administration technician.

(5) Staff who have direct contact with participants shall be free of communicable disease.

(6) Each center shall be in compliance with the criminal arrest check, training, examination, application, registration and certification requirements in 63 O.S. Section 1-1950.1, 1-1950.3, 1-1950.4, and 1-1951.

(7) Each paid day care center staff person (professional or non-professional) shall arrange for an employment examination within 72 hours of employment which shall include but not be limited to a tuberculin skin test for tuberculosis. ~~(The Mantoux test is recommended by the Oklahoma State Department of Health). A tuberculin skin test shall be repeated annually unless the individual has already had a positive reaction to a previous skin test.~~ All tests and examinations shall be in conformance with the 2019 Guidelines for preventing the transmission of *mycobacterium tuberculosis* in healthcare settings as published by the Centers for Disease Control and Prevention.

**SUBCHAPTER 5. DRUG SCREEN TESTING
FACILITIES**

310:638-5-2. Personnel

The drug screen testing facility shall contract with, or employ, the following personnel to perform, supervise, and report drug screen tests:

- (1) **Director.** The drug screen testing facility shall have a qualified individual to assume professional, organizational, educational, and administrative responsibility for the drug screen testing facility. The director shall possess the following minimum qualifications:

Permanent Final Adoptions

- (A) A bachelor's degree from an accredited institution in the chemical, biological, or physical sciences or medical ~~technology~~ laboratory science; and ~~two (2)~~ or more years of full-time drug testing experience; or
- (B) ~~Subsequent to graduation have had two (2) A bachelor's degree from an accredited institution; and four (4)~~ or more years of full-time drug testing experience; or
- (C) ~~An associate's degree from an accredited institution in the chemical, biological, or physical sciences or a medical laboratory science; and three (3) or more years of full-time drug testing experience.~~
- (2) **Director responsibilities.** The director shall be engaged in, and be responsible for, the management of the drug screen testing facility even where another individual has overall responsibility for an entire multispecialty testing facility.
- (A) The director shall be responsible for ensuring that there are sufficient personnel with adequate training and experience to supervise and conduct the work of the drug screen testing facility. The director shall ensure the continued competency of drug screen testing facility personnel by documenting their inservice training, reviewing their work performance, and verifying their skills.
- (B) The director shall be responsible for the drug screen testing facility having a procedure manual which is complete, up-to-date, available for personnel performing tests, and followed by those personnel. The procedure manual shall be reviewed, signed, and dated by the director whenever procedures are first placed into use, or changed, or when a new individual assumes responsibility for direction of the drug screen testing facility. Copies of all procedures and dates on which they are in effect shall be maintained.
- (C) The director shall be responsible:
- for maintaining a quality assurance program to ensure the proper performance and reporting of all test results;
 - for maintaining acceptable analytical performance for all controls and standards;
 - for maintaining quality control testing; and
 - for assuring and documenting the validity, reliability, accuracy, precision, and performance characteristics of each test and test system.
- (D) The director shall be responsible for assuring all necessary action is taken to maintain satisfactory operation and performance of the drug screen testing facility in response to quality control systems not being within performance specifications, errors in result reporting or in analysis of performance testing results. The director shall ensure that sample results are not reported until all corrective actions have been taken and he or she can ensure that the test results provided are accurate and reliable.
- (3) **General supervisor.** A qualified general supervisor shall be on the premises during all hours in which tests

are performed. The general supervisor shall be responsible for day-to-day operations and supervision of analysts. The general supervisor shall possess the following minimum qualifications:

- (A) A high school diploma or equivalent and documented training by the manufacturer, or other qualified person, in the operation and maintenance of the test system utilized, to include the instrumentation, test reagents, calibration and quality control materials, and any other equipment or supplies required in the performance of the drug screen testing procedure; and
- (B) Have training and experience in the theory and practice of the procedures used in the drug screen testing facility, resulting in a thorough understanding of:
- quality control practices and procedures;
 - the review, interpretation, and reporting of test results;
 - maintenance of chain of custody; and
 - proper remedial actions to be taken in response to test systems being out of control limits or detecting aberrant test or quality control results.
- (4) **Test validation.** The drug screen testing facility shall have a qualified individual(s) who reviews all pertinent data and quality control results in order to attest to the validity of the drug screen testing facility's test reports. A drug screen testing facility may designate more than one person to perform this function. This individual(s) shall be any employee who is qualified as director or general supervisor.
- (5) **Other personnel.** Other technical or nontechnical staff shall have the necessary training and skills for the tasks assigned, and shall perform only those procedures that require a degree of skill commensurate with their training, education, and technical ability.
- (6) **Training.** The drug screen testing facility shall make available continuing education programs to meet the needs of facility personnel.
- (7) **Personnel records.** Personnel records shall include at least the following:
- verification of education;
 - initial skills orientation program;
 - resume of training and experience;
 - documentation of continuing education;
 - certification or license, if any;
 - references;
 - job descriptions;
 - records of performance evaluation and advancement;
 - incident reports; and
 - results of tests which establish employee competency.

SUBCHAPTER 1. GENERAL EMS PROGRAMS

PART 1. GENERAL PROVISIONS

310:641-1-7. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"**ACLS**" means Advanced Cardiac Life Support.

"**Act**" means the "Oklahoma Emergency Response Systems Development Act".

"**Advanced Emergency Medical Technician**" means an AEMT as licensed pursuant to the Act or this chapter.

"**Advanced Life Support (ALS) Emergency Medical Services Training Program**" means an organization approved by the Department to conduct the following ALS training: Emergency Medical Responder, Emergency Medical Responder Refresher, Emergency Medical Technician, Emergency Medical Technician Refresher, Advanced Emergency Medical Technician, Advanced Emergency Medical Technician Refresher, Intermediate Refresher, Paramedic, Paramedic Refresher, Continuing Education at the Intermediate and Paramedic Levels, and such other courses of instruction that may be designated by the Department.

"**Agency**" means a Ground Ambulance Service, Specialty Care Ambulance Service, Stretcher ~~Aid~~-Van Service, Air Ambulance Service, or Emergency Medical Response Agency.

"**AHA**" means the American Heart Association.

"**Ambulance**" means any ground, air or water vehicle which is or should be approved by the Commissioner of Health, designed and equipped to transport a patient or patients and to provide appropriate on-scene and en route patient stabilization

Permanent Final Adoptions

and care as required. Vehicles used as ambulances shall meet such standards as may be required by the State Board of health for approval, and shall display evidence of such approval at all times. [Title 63 O.S. Section ~~1-2501(1)~~1-2503].

"AMLS" means Advanced Medical Life Support.

"ATLS" means Advanced Trauma Life Support.

"Base Station" means the primary location from which ambulances and crews respond to emergency calls on a twenty-four (24) hour basis. The Base Station may include the principal business office, living quarters for personnel, training institution, and/or communications center.

"Basic Life Support (BLS) Emergency Medical Services Training Program" means an organization approved by the Department to conduct the following BLS training: Emergency Medical Responder, Emergency Medical Responder Refresher, Emergency Medical Technician Basic, Emergency Medical Technician Basic Refresher, Continuing Education at the Emergency Medical Technician Basic level, and such other courses of instruction that may be designated by the Department.

"BLS" means Basic Life Support, and includes cardiopulmonary resuscitation (CPR) and utilization of Semi-Automated Advisory Defibrillator (SAAD).

"BTLS" means Basic Trauma Life Support.

"Board" means the State Board of Health.

"Call Log" means a summary of all requests for service that an agency receives, regardless of disposition.

"Call Received" means that a call has been received by an agency when enough information has been received to begin responding to a request for service.

"Certificate" means any certification or certificate issued by the Department, pursuant to the Act or this Chapter.

"Clinical Coordinator" means the individual designated in writing by a training program as responsible for coordination and supervision of clinical experiences.

"Clinical Experience" means all supervised learning experiences required and included as part of a training course in which the student provides or observes direct patient care. This includes vehicular experiences with a licensed ambulance service.

"Council" means the Oklahoma Trauma and Emergency Response Advisory Council.

"Critical Care Paramedic" means an Oklahoma licensed Paramedic that has received additional training to provide specialized care to patients during interfacility transfers and has provided his or her registration information to the Department.

"Department" means the State Department of Health.

"Distance Learning" is instruction of didactic portions of curriculum which requires participation of the instructor and students but does not require the students to be physically present in the same location as the instructor.

"Distributive Education" means educational activity, in which the learner, the instructor, and the educational materials are not all present in the same place at the same time, e.g., continuing education activities that are offered on the Internet, via CD ROM or video, or through journal articles or audio tapes.

"Documents, Records, or Copies" means an electronic or paper copy maintained at the agency, on units, or provided to receiving facilities.

"DOT" means the United States Department of Transportation.

"Division" means the Emergency Medical Services Division.

"Emergency Medical Dispatcher (EMD)" means a person trained using a Department-approved curriculum for the management of calls for emergency medical care.

"Emergency Medical Personnel" means all certified and licensed personnel which provide emergency medical care for an ambulance service.

"Emergency Medical Responder" means a person who has successfully completed a state-approved course using the national standard Emergency Medical Responder curriculum and passed a competency-based examination from a state approved testing agency such as the National Registry of EMTs.

"Emergency Medical Response Agency" or "EMRA" means a person, company, or governmental entity that will utilize certified or licensed emergency medical personnel to provide emergency care but does not transport or transfer patients to a facility. The Department will provide two types of certification.

(A) Pre-hospital EMRAs will operate as part of an Emergency Medical System, responding to requests for service within a response area, supporting and being supported by a licensed ambulance service.

(B) Event Stand-by EMRAs will operate or contract for on-site medical care at locations that are open to the public or that will respond to the public. These types of EMRAs are certified to standby at a location or site and provide medical care to the public.

"EMS" means Emergency Medical Services.

"Emergency Medical System" means a network of hospitals, different ambulance services, and other healthcare providers that exist in the state.

"Emergency Medical Technician (EMT)" means an individual licensed by the Department as an Emergency Medical Technician, formerly known as an EMT-B or Basic.

"Emergency transfer" means the movement of an acutely ill or injured patient from the scene to a health care facility (pre-hospital), or the movement of an acutely ill or injured patient from one health care facility to another health care facility (interfacility).

"Emergency Vehicle Operators Course" means a course that is meant to improve existing driving skills and familiarize an emergency vehicle operator or driver with the unique characteristics of driving emergency vehicles.

"En route Time" means the elapsed time from the time the emergency call is received by the EMS agency until the ambulance and complete crew is en route to the scene of the emergency.

"FDA Class One Device" means a device that is not life-supporting or life-sustaining and does not present a reasonable source of injury through normal usage. In the regulatory context, this applies to the stretcher/gurney and its locking system within the unit or vehicle.

"Ground ambulance service" means an ambulance service licensed at the basic, intermediate, advanced or paramedic life support level as provided in Subchapter 3. It does not mean a specialty care service licensed pursuant to Subchapter 11 or a stretcher and van service licensed pursuant to Subchapter 17.

"Initial Certification or Initial Licensure" means the first certification or license that an applicant receives after an initial course, or the license or certification an applicant receives after the previous license or certification expired.

"Intermediate" means an Emergency Medical Technician-Intermediate as licensed pursuant to the Act or this chapter.

"Instructor" means a Department approved instructor that provides instruction for initial courses, but may also teach refresher and continuing education courses.

"Lapse in Medical Direction" means the Medical Director for an agency has not been accessible to the agency for a period of time as detailed with the agency's policies and agreement.

"License" means any license issued by the Department, pursuant to the Act or this Chapter.

"Licensed Service Area" means the contiguous geographical area identified in an initial ambulance service application or in an amendment to an existing license. The geographic area is identified by the application and supported with documents provided by the local governmental jurisdictions. For ground ambulance services, this is the geographic area the ambulance service has a duty to act within.

"Medical Control Physician or Medical Director" means the licensed physician (M.D. or D.O.) that authorizes certified or licensed emergency medical personnel to perform procedures and interventions detailed in the agency's approved protocols.

"NHTSA" means National Highway Traffic Safety Administration.

"National Registry" means the National Registry of Emergency Medical Technicians (NREMT), Columbus, Ohio.

"Non-emergency transfer" means the movement of any patient in an ambulance other than an emergency transfer.

"PALS" means Pediatric Advanced Life Support.

"Patient" means the person who requests assistance or the person for whom assistance is being requested from an agency.

"Paramedic" means an individual licensed by the Department as a Paramedic, formerly known as an EMT-P.

"PEPP" means Pediatric Education for the Prehospital Professional.

"PHTLS" means Prehospital Trauma Life Support.

"PIC" means Pilot in Command.

"PPC" means Prehospital Pediatric Care.

"Post" means a location where an ambulance may be positioned for an unspecified period of time while awaiting dispatch.

"Preceptor" means an individual with education, experience, and expertise in healthcare and approved by a training program to supervise and provide instruction to EMS students during clinical experiences.

"Program Administrator" means the individual designated in writing by a training program as responsible for all aspects of EMS training.

"Program Coordinator" means the individual designated in writing by a training program as responsible for all aspects of a specified course(s) or EMS program. This individual shall have at least two (2) years experience of full-time equivalent employment as a healthcare practitioner.

"Response time" means the time from which a call is received by the EMS agency until the time the ambulance and complete crew arrives at the scene, unless the call is scheduled in advance.

"State Interoperability Governing Body" or "SIGB" means the formal group of public safety officials from across the State working with the Oklahoma Office of Homeland Security to improve communication interoperability.

"Semi-Automated Advisory Defibrillator" or "SAAD" means a defibrillator that is part of the Basic Life Support curriculum and is also known as Automated External Defibrillator (AED) and Semi-Automated External Defibrillator (SAED).

"Specialty Care Transports" or (SCT) means inter-facility transfers of critically ill or injured patients by an agency with the provision of medically necessary supplies and equipment, above the level of care of the Paramedic. SCT is necessary when a patient's condition requires ongoing care that must be provided by one or more healthcare providers in an appropriate specialty area. Examples include emergency or critical care nursing, emergency medicine, respiratory care, cardiovascular care, or a Paramedic with additional training in IV infusions including vasopressors, vasoactive compounds, antiarrhythmics, fibrinolytics, tocolytics, and/or any other parenteral pharmaceutical unique to the patient's special health care needs or special monitors or procedures such as mechanical ventilation, multiple monitors, cardiac balloon pump, external cardiac support (ventricular assist devices, etc.), or any other specialized device or procedure outside the Paramedic scope of practice certified by the referring physician as unique to the patient's health care needs.

"Statewide Ambulance coverage area" means a map of all ambulance response areas, maintained by the Department.

"State Designated Resource Status Reporting and Communication Tool" means the electronic system utilized to communicate in near real time status of the emergency medical system.

"Stretcher and van" means any ground vehicle *which is or should be approved by the State Commissioner of Health, which is designed and equipped to transport individuals on a stretcher or gurney type apparatus* [Title 63 O.S. Section 1-2503 (48) and (25)].

"Stretcher and van patientpassenger" means any person who is or will be transported in a reclining position on a stretcher or gurney, who is medically stable, nonemergent and does not require any medical monitoring equipment or assistance during transport [Title 63 O.S. Section 1-2503 (26)].

"Substation" means a permanent structure where an ambulance(s) is/are stationed and available for calls on a twenty-four (24) hour basis.

Permanent Final Adoptions

"Tax Hold" means an individual with an Oklahoma certification or license who is not in compliance with Title 68 O.S. Section 238.1 and the Oklahoma Administrative Code 710:95-9 as it pertains to professional licensing compliance.

"Title 47" means the Oklahoma Motor Vehicle statutes.

"Training" means that education which is received through training programs as authorized by emergency medical services rule for training programs (Subchapter 7 of this Chapter).

"Training Manager" means an instructor or manager that provides or oversees the training that occurs at an agency, such as continuing education or refresher courses.

"Transfer" means the movement of a patient in an ambulance.

"Trauma transfer and referral center" means an organization certified by the Department and staffed and equipped for the purpose of directing trauma patient transfers within a region that consists of a county with a population of three hundred thousand (300,000) or more and its contiguous communities, and facilitating the transfer of trauma patients into and out of the region for definitive trauma care at medical facilities that have the capacity and capability to appropriately care for the emergent medical needs of the patient.

SUBCHAPTER 3. GROUND AMBULANCE SERVICE

PART 5. GROUND TRANSPORT VEHICLES

310:641-3-20. Ground ambulance vehicles

(a) ~~A used vehicle which has new ownership, or a new vehicle which is of first registration, either leased, contracted for, or purchased on or after July 18, 1991, shall conform to the General Services Administration (GSA) specifications KKK A-1822 in effect at the time of manufacture. An ambulance manufactured prior to January 1, 2021 shall meet or exceed the standards established in the U.S. General Services Administration Federal Specification for the Star-of-Life Ambulance (GSA KKK-A-1822) in effect on November 1, 1994.~~

(b) ~~Copies of the GSA KKK A-1822, and their respective dates of effect, may be obtained from the Department. These several specifications are as follows:~~

- ~~(1) KKK A-1822, effective January 2, 1974;~~
- ~~(2) KKK A-1822A, effective April 1, 1980;~~
- ~~(3) KKK A-1822B, effective June 1, 1985;~~
- ~~(4) KKK A-1822C, effective January 1, 1990;~~
- ~~(5) KKK A-1822D, effective November 1, 1994;~~
- ~~(6) KKK A-1822E, effective June 1, 2002;~~
- ~~(7) KKK A-1822F, effective August 1, 2007.~~ A new or remounted production ground ambulance that is ordered or purchased after January 1, 2021 shall comply fully with the ambulance design criteria in either:

(1) The Commission on Accreditation of Ambulance Services Ground Vehicle Standard for Ambulances (GVS), effective July 1, 2019. A decal or letter of verification from the manufacturer certifying that the vehicle

meets the GVS standard, if ordered after January 1, 2021, shall be made available upon inspection; or

(2) The National Fire Protection Association (NFPA) 1917 Standard for Automotive Ambulances - 2019 Edition. A decal or letter of verification from the manufacturer certifying that the vehicle meets the NFPA standard, if ordered after January 1, 2021, shall be made available upon inspection;

(c) Additionally, each ground ambulance service vehicle purchased or ordered after January 1, 2021 will meet the following requirements:

(1) the business name, and/or a logo of the licensed ambulance service or acceptable legal abbreviation of the name of the service shall be placed on each side and the rear of the vehicle, and shall be at least three (3") inch high letters,

(2) the purchaser of any vehicle that is not compliant with this section shall be responsible for corrective action, and A minimum of one Star of Life emblem that is a minimum of three (3) inches in diameter shall be placed on the front, sides, and rear of the vehicle.

(3) A decal, notice, or other documentation showing the ambulance meets the manufacturing standard at the time of manufacture will be affixed to the vehicle. The word "Ambulance", "Emergency Medical Services", "EMS", or licensure level shall be on the sides and rear of the vehicle in at least three (3) inch high letters. If nomenclature is placed on a vehicle relating to a license level as defined in 63 O.S. § 1-2503, the nomenclature must reflect the agency license level of the agency operating the vehicle.

(4) Ambulance vehicles shall be exempt from the sections of GVS and NFPA specifications which specify color, emblems, and markings except for (c) of this sub-chapter.

(d) If while waiting delivery of a new, remounted, or refurbished vehicle, a manufacturer or dealer provides a service with a vehicle on a temporary loan or lease, such temporarily loaned or leased vehicle shall comply with specification KKK-A-1822 in effect at the time of manufacture and shall be inspected and permitted by the Department prior to utilization as an ambulance.

(e) A vehicle may not be permitted by the Department as an ambulance prior to the submission and approval of all required documentation, fees, and a Department inspection.

(f) The purchaser of any vehicle that is not compliant with this section shall be responsible for corrective action.

(g) A decal, notice, or other documentation showing the ambulance meets the manufacturing standard at the time of manufacture will be affixed to the vehicle.

(h) Ambulances purchased after January 1, 2021 by Federal healthcare systems such as Department of Defense or Indian Health Services shall meet one of the following standards:

(1) The Commission on Accreditation of Ambulance Services Ground Vehicle Standard for Ambulances (GVS), effective July 1, 2019. A decal or letter of verification from the manufacturer certifying that the vehicle

meets the GVS standard, if ordered after January 1, 2021, shall be made available upon inspection ;

(2) The National Fire Protection Association (NFPA) 1917 Standard for Automotive Ambulances - 2019 Editions. A decal or letter of verification from the manufacturer certifying that the vehicle meets the NFPA standard, if ordered after January 1, 2021, shall be made available upon inspection; or

(3) U.S. General Services Administration Federal Specification for the Star-of-Life Ambulance (GSA KKK-A-1822) Version F with change orders 1 through 10.

SUBCHAPTER 5. PERSONNEL LICENSES AND CERTIFICATION

PART 3. EMERGENCY MEDICAL PERSONNEL LICENSES

310:641-5-11.1. Military reciprocity certification and license qualifications

(a) Emergency medical personnel while on duty will have a copy of their certification or license.

(b) Persons applying for a Military Reciprocity Certification or License shall submit an application to the Department using Department approved forms.

(c) Persons applying for shall meet the requirements for qualification, application, and procedure as follows:

(1) Emergency Medical Responder certification:

(A) Applicant shall be at least eighteen (18) years of age.

(B) Applicant shall submit the following documentation:

(i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.

(ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Emergency Medical Responder.

(iii) A signed "Affidavit of Lawful Presence" form.

(iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as an Emergency Medical Responder.

(2) Emergency Medical Technician, or EMT:

(A) Applicant shall be at least eighteen (18) years of age.

(B) Applicant shall submit the following documentation:

(i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or

other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.

(ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Emergency Medical Technician.

(iii) A signed "Affidavit of Lawful Presence",
(iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as an Emergency Medical Technician.

(3) Intermediate

(A) Applicant shall be at least eighteen (18) years of age.

(B) Applicant shall submit the following documentation:

(i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.

(ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Intermediate.

(iii) A signed "Affidavit of Lawful Presence",
(iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as an Intermediate.

(4) Advanced EMT:

(A) Applicant shall be at least eighteen (18) years of age.

(B) Applicant shall submit the following documentation:

(i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.

(ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Advanced EMT.

(iii) A signed "Affidavit of Lawful Presence",
(iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as an Advanced EMT.

(5) Paramedic

(A) Applicant shall be at least eighteen (18) years of age.

(B) Applicant shall submit the following documentation:

(i) A copy of their orders or their spouses orders, their honorable discharge to Oklahoma, or other evidence of their affiliation with the Department of Defense and their requirement to serve within the State of Oklahoma.

(ii) Documentation showing that the applicant is Certified or Licensed in another State or Territory as an Advanced EMT.

Permanent Final Adoptions

- (iii) a signed "Affidavit of Lawful Presence",
 - (iv) Documentation describing the scope of practice authorized by the State issuing the certification or license as Paramedic.
- (d) Initial licensure and certification shall be from the date of issue through the second June 30 after the initial date.
- (e) Any certification or license application submitted to the Department under this subchapter may be denied on the basis of a felony conviction, adjudication, or plea of guilty or nolo contendere for any of the following offenses:
 - (1) assault, battery, or assault and battery with a dangerous weapon; aggravated assault and battery;
 - (2) murder or attempted murder; manslaughter, except involuntary manslaughter;
 - (3) rape, incest, or sodomy; indecent exposure and indecent exhibition; pandering;
 - (4) child abuse; abuse, neglect, or financial exploitation of any person entrusted to his care or possession;
 - (5) burglary in the first or second degree; robbery in the first or second degree; robbery or attempted robbery with a dangerous weapon, or imitation firearm;
 - (6) arson, substance abuse, or any such other conviction, adjudication, or plea of guilty or nolo contendere, or circumstances which in the opinion of the Department would render the applicant unfit to provide emergency medical care to the public;
 - (7) Each decision shall be determined on a case-by-case basis.
- (f) A license application may be denied on the basis of any falsification. Application for initial licensure pursuant to the Act shall constitute authorization for an investigation by the Department.
- (g) Applicants will be notified in writing of the status of their application. The notification will be completed by either issuing the certification or license or by providing a denial to the application with an explanation of the denial and what steps are required to make the application acceptable.
- (h) An applicant may request a review of adverse decisions, made within this section, by applying in writing within thirty (30) calendar days after the notice of rejection. Review, by the Department, shall be held in accordance with the Administrative Procedures Act.
- (i) The Department shall maintain a registry of all qualified Emergency Medical Responders.

310:641-5-13.1. Issuance of a military reciprocity license and certification

- (a) Upon successful completion of the application and submission of supporting documentation, a Military Reciprocity Certification or License shall be issued at the most appropriate Oklahoma Certification or License level that can be verified.
- (b) Initial licensure and certification shall be from the date of issue through the second June 30 after the initial date.
- (c) If the applicant has a current certification from the National Registry of Emergency Medical Technicians, a Military Reciprocity Certification or License may be provided to the applicant at that certification same level.

310:641-5-20. Scope of practice authorized by certification or licensure

- (a) The Department shall establish a scope of practice for each certificate and license level.
- (b) The medical control physician may limit an individual certificate or license holder's scope of practice.
- (c) Certified and licensed emergency medical personnel may perform authorized skills and procedures when authorized by medical control. When emergency medical personnel are without medical control, the scope of practice for any level of emergency medical personnel is limited to first aid, CPR, and the use of the AED.
- (d) Certified Emergency Medical Responders may perform to the following level or within this scope of practice:
 - (1) patient assessment, including the determination of vital signs, and triage,
 - (2) oxygen administration and airway management,
 - (3) basic wound management, including hemorrhage controls to include the use of tourniquets; treatment of shock,
 - (4) cardiopulmonary resuscitation (CPR) and the use of only adjunctive airway devices and the use of a semi-automated external defibrillator (SAED),
 - (5) splinting of suspected fractures;
 - (6) rescue and extrication procedures,
 - (7) assistance of patient prescribed medications including sublingual nitroglycerin, epinephrine auto injector and hand held aerosol inhalers,
 - (8) administration of agency supplied oral glucose, activated charcoal, aspirin, agency supplied epinephrine auto injector, albuterol or approved substitute per medical direction, and nasally administered or atomized naloxone,
 - (9) such other emergency medical care skills and measures included in the instructional guidelines adopted by the Department, and,
 - (10) upon the approval of the Department additional skills may be authorized upon the written request of a local medical director,
- (e) A licensed Emergency Medical Technician may perform to the following level or within this scope of practice:
 - (1) all skills listed for the Emergency Medical Responder,
 - (2) patient assessment, determination of vital signs, diagnostic signs, and triage,
 - (3) bandaging, splinting, control of hemorrhage, and shock management,
 - (4) Administration of medications per medical direction and approved by the Department,
 - (5) maintenance of established intravenous fluids without medications,
 - (6) CPR, use of adjunctive airway devices to include supraglottic airway devices, and the use of the AED,
 - (7) Upon the approval of the Department, additional skills may be authorized upon the written request of a local medical director.
- (f) A licensed Intermediate may perform to the following level or within this scope of practice,

- (1) all skills listed within the Emergency Medical Responder and Emergency Medical Technician scope of practice,
 - (2) establishment of vascular or intraosseous access for the administration of fluids without medications. Approved fluids include; lactated ringers, normal saline, $\frac{1}{2}$ normal saline, dextrose 5%, and dextrose 10%,
 - (3) administration of medications per medical direction and approved by the Department,
 - (4) venipuncture to obtain blood samples per local medical control,
 - (5) the use and placement of definitive airway adjuncts for adults, children, and infants,
 - (6) all other emergency medical care skills and measures included in the instructional guidelines adopted by the Department which are not specifically listed above, and
 - (7) Upon the approval of the Department, additional skills may be authorized upon the written request of a medical director.
- (g) A licensed Advanced Emergency Medical Technician may perform to the following level and within this scope of practice:
- (1) all skills listed for the Emergency Medical Responder, Emergency Medical Technician and Intermediate,
 - (2) other skills and procedures included in the instructional guidelines adopted by the Department, and
 - (3) upon approval of the Department, additional skills may be authorized upon the written request of the medical director.
- (h) A licensed Paramedic may perform to the following level or within this scope of practice:
- (1) all skills listed for the other certified or licensed emergency medical personnel
 - (2) recognitions, interpretation, treatment of cardiac arrhythmias using a cardiac monitor/defibrillator/external pacemaker,
 - (3) advanced management of pediatric emergencies, including resuscitation, airway placement, and medication,
 - (4) advanced management of obstetric and gynecologic emergency including medication administration,
 - (5) advanced interventions of psychiatric patients including medication administration,
 - (6) all other emergency medical skills and measures included in the instructional guidelines adopted by the Department, and
 - (7) upon approval of the Department, additional skills may be authorized upon the written request of a medical director.
- (i) Pursuant to 63 O.S. § 1-502.1, emergency medical personnel shall assist Good Samaritans who may have been exposed to a communicable disease. This includes, but is not limited to:
- (1) Providing OSDH information relating to communicable disease exposure, and
 - (2) Assistance with completing OSDH approved forms.
- (j) Emergency medical personnel may also consult with a Good Samaritan for potential exposures based on OSDH Guidance.
- (k) The Department will provide support to emergency medical personnel through educational material to ensure evidence based material is available.
- 310:641-5-20.1. Scope of practice authorized by military reciprocity certification or licensure**
- (a) As part of the Military Reciprocity Certification or License Application process, the applicant is required to submit documentation that details the Scope of Practice for their level that is authorized by the source state.
- (b) The Department will review and compare the source state scope of practice with the Scope of Practice detailed in O.A.C. 310:641-5-20.
- (c) Based on the submitted documentation, the Department will issue a certification or license to the applicant that most closely matches an OSDH Emergency Personnel certification or license as described in this subchapter.
- PART 5. PROCEDURES AUTHORIZED**
- 310:641-5-33. Certification and licensure enforcement actions**
- (a) The Department may revoke, suspend, place on probation, fine, or deny ~~any~~ license or certificate, or renewal of any license or certificate for the following:
- (1) Violations of any provision of Oklahoma statutes, the Act, or this Chapter;
 - (2) permitting, aiding, abetting, or conspiring with a person to violate or circumvent a law relating to licensure or certification;
 - (3) fraud, misrepresentation, deception, or concealment of a material fact in applying for or assisting in securing a license or license renewal or in taking an examination required for licensure;
 - (4) signing or issuing, in the licensee's professional capacity, a document or statement that the licensee knows or reasonably ought to know contains a false or misleading statement;
 - (5) a misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;
 - (6) offering, giving, or promising anything of value or benefit, as prohibited in Oklahoma law or rule, to a Federal, state, or local government employee or official for the purpose of influencing the employee or official to circumvent a Federal, state, or local law, rule, or ordinance governing the licensee's profession or occupation;
 - (7) conviction, adjudication, or plea of guilty or nolo contendere, for an offense involving moral turpitude, whether a misdemeanor or felony, and whether or not an appeal is pending;
 - (8) permitting, aiding, or abetting any illegal act;
 - (9) conduct of any practice that is detrimental to the welfare of the patient or potential users of the service;

(10) conduct likely to deceive, defraud, or harm the public including, but not limited to, practicing while subject to a physical or mental condition which renders the licensee unable to safely engage in activities required of a licensee under this subchapter;

(11) acting in such a manner as to present a danger to public health or safety, or to any patient including, but not limited to incompetence, negligence, malpractice, or engaging in conduct in the course of one's practice while suffering from a contagious or infectious disease involving serious risk to public health without taking adequate precautions;

(12) engaging in any act which is designed or intended to hinder, impede, or obstruct an investigation of any matter governed by the Act or by lawful authority;

(13) making a false or misleading statement regarding the licensee's skill in connection with the activities required of a licensee under this subchapter;

(14) use of a false, fraudulent, or deceptive statement, whether written or verbal, in connection with the activities required of a licensee under this subchapter;

(15) knowingly make a false statement of material fact;

(16) failure to disclose a fact necessary to correct a misapprehension known by the licensee to have arisen in the application or the matter under investigation;

(17) failure to respond to a demand for information made by the Department or any designated representative thereof;

(18) interference with an investigation or disciplinary proceeding by willful misrepresentation of facts, by use of threats or harassment against or inducement to a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action, or by use of threats or harassment against or inducement to a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed;

(19) having been subject to disciplinary action of another state or jurisdiction against a license or other authorization, based upon acts or conduct by the licensee similar to acts or conduct that would constitute grounds for disciplinary action. A report from the National Practitioners Database (NPDB) or a certified copy of the record of the action taken by the other state or jurisdiction is evidence of unprofessional conduct;

(20) having voluntarily relinquished or surrendered a professional or occupational license, certificate, or registration in this state or in another state;

(21) having withdrawn an application for licensure, certification, or registration while under investigation or prior to a determination of the completed application in this state or in another state or jurisdiction;

(22) failure to practice within the scope of practice of the certificate or license as established by the Department or by the medical director;

(23) failure to practice within adopted protocols and procedures established and approved by the Department and the medical director;

(24) failure to practice within the protocols set forth by the medical director and approved by the Department;

(25) habitual intemperance or excessive use of an addictive drug, alcohol, or other substance to the extent that the use impairs the user physically or mentally; this provision does not apply to a licensee who is in compliance with an approved therapeutic regimen under a physicians' care;

(26) filing a complaint with or providing information to the Department which the licensee knows, or ought to know, is false or misleading. This provision does not apply to any filing of a complaint or providing information to the board when done in good faith;

(27) failing to report to the Department any adverse judgement or award arising from a medical liability claim or other unprofessional conduct;

(28) committing any act of sexual abuse, misconduct, or exploitation by the licensee whether or not related to the practice;

(29) failing to exercise technical competence in carrying out medically authorized skills, medication administration, or procedures related to their scope of practice;

(30) unauthorized possession of patient care reports, falsifying, or altering patient care reports, intentionally documenting patient records incorrectly, failing to document patient care records, or prepare patient care reports;

(31) revealing confidential information obtained as the result of a professional relationship without the prior consent of the recipient of services except as authorized or required by law;

(32) diversion of a medication for any purpose or a violation of state or Federal laws governing the administration of medications;

(33) failing as a clinical preceptor or lead instructor, to supervise, manage or train students practicing under the licensee's supervision, according to:

(A) scope of practice,

(B) generally accepted standards of patient care,

(C) board approved instructional guidelines,

(D) protocols, policies, and procedures,

(34) willfully harassing, abusing, or intimidating a patient or student, either physically or verbally;

(35) practicing as an emergency medical professional at any level without a current, active Oklahoma certification or license;

(36) failing to comply with administrative orders, to include probation, suspension, or revocation orders;

(37) failure to comply with a term, condition, or limitation of a certificate or license by final order of the Department;

(38) any other act, whether specifically enumerated or not, that in fact constitutes unprofessional conduct;

(39) failing to report to the Department the unprofessional conduct or noncompliance of regulations of other certified or licensed emergency medical providers;

(40) conduct that does not meet the generally accepted standards of practice, which may be, but not required to be, supported by malpractice judgements, or tort judgements; and

(41) Failing to report the institution of or final action on a malpractice action, including a final decision on appeal, against the licensee or of an action against the licensee by a:

- (A) peer review committee;
- (B) professional association; or
- (C) local, state, Federal, territorial, provincial, or tribal government.

(b) Any license or certificate issued by the Department may voluntarily be surrendered at any time during the license period for any reason by the license/certificate holder. The voluntary surrender of a license or certificate does not preclude the Department's authority to complete any pending action against said license/certificate holder. A surrendered license/certificate shall be treated as if revoked by the Department.

(c) The Department may require a one (1) year period from the date of revocation before the license / certificate holder may apply for a license or certificate from the Department.

(d) If in the course of an investigation the Department determines that a license/certificate/permit holder or applicant has engaged in conduct that is detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent further harm, the Commissioner may order a summary suspension of the license/certificate/permit holder's license, certificate, or permit respectively. A presumption of imminent harm to the public shall exist if the Department determines probable cause for conduct of any practice that is detrimental to the welfare of the patient or potential users of the service exists.

(e) In addition to any other penalties, a civil fine of not more than one hundred (\$100.00) dollars per violation per day may be assessed, for violations of the Act or this Chapter.

SUBCHAPTER 13. AIR AMBULANCE SERVICE

310:641-13-9. Air ambulance vehicle

(a) An air ambulance vehicle (aircraft) may be fixed wing, single or multi-engine, or rotary wing, single or multi-engine.

(b) Operations of the aircraft shall be under the appropriate provisions of the Federal Aviation Regulations (FAR) within 14 CFR, Part 1 et seq.

(c) The interior of the patient compartment of their aircraft shall have the capability of being climate controlled to avoid adverse effects on patients and medical personnel on board by a means other than flight operations and flying to an altitude.

(d) The aircraft design and configuration shall not compromise patient stability in loading, unloading or in-flight operations.

(1) The aircraft shall have an entry that allows loading and unloading without excessive maneuvering (no more than 45 degrees about the lateral axis and 30 degrees about the longitudinal axis) of the patient, and does not compromise functioning of monitoring systems, intravenous lines, and manual or mechanical ventilation.

(2) A minimum of one stretcher shall be provided that can be carried to the patient.

(3) Aircraft stretchers and the means of securing it in-flight must be consistent with FAR's.

(4) The type and model of stretcher indicates the maximum gross weight allowed (inclusive of patient and equipment) as labeled on the stretcher.

(5) The stretcher shall be large enough to carry an American adult male.

(6) The stretcher shall be sturdy and rigid enough that it can support cardiopulmonary resuscitation. If a back-board or equivalent device is required to achieve this, such device will be readily available.

(7) The head of the stretcher is capable of being elevated at least 30 degrees for patient care and comfort.

(8) If the ambulance stretcher is floor supported by its own wheels, there is a mechanism to secure it in position under all conditions. These restraints permit quick attachment and detachment for patient transfer.

(e) Patients transported by air will be restrained with a minimum of three straps, including shoulder straps that must comply with FAA regulations. The following additional requirements shall apply to achieve patient stability.

(1) Patients less than 60 pounds (27kg) shall be provided with an appropriately sized restraining device (for patient's height and weight) which is further secured by a locking device. All patients less than 40 pounds must be secured in a five-point safety strap device that allows good access to the patient from all sides and permits the patient's head to be raised at least 30 degrees. Velcro straps are not encouraged for use on pediatric devices.

(2) If a car seat is used, it shall have an FAA approved sticker.

(3) There shall be some type of restraining device within the isolette to protect the infant in the event of air turbulence.

(f) A Supplemental lighting system shall be installed in the aircraft in which standard lighting is insufficient for patient care and a self-contained lighting system powered by a battery pack or portable light with a battery source must be available.

(g) Medical transport personnel shall be able to determine if medical oxygen is on the patient care area.

(1) Each gas outlet shall be clearly marked for identification.

(2) Oxygen flow shall be capable of being started and stopped at or near the oxygen source from inside the aircraft.

(3) The following indicators shall be accessible to medical transport personnel while en route:

(A) Quantity of oxygen remaining.

(B) Measurement of liter flow.

(h) A variety of medical oxygen delivery devices consistent with the service's medical protocols shall be available.

(i) An appropriately secured portable medical oxygen tank with a delivery device shall be carried on the aircraft. Portable medical oxygen tank may not be secured between patient's legs while the aircraft is in motion.

(j) There shall be a back-up source of medical oxygen sufficient to allow completion of the transport in the event the main system fails. For air transports, this back-up source can be the

Permanent Final Adoptions

required portable tank as long as the portable tank is accessible in the patient care area during flight.

(k) Storage of oxygen shall comply with applicable OSHA standards within 29 CFR, Part 19 D.

(l) Oxygen flow meters and outlets shall be located to prevent injury to medical transport personnel to the extent possible.

(m) ~~In the event the licensee will be utilizing shall notify the Department prior to placing a substitute aircraft not previously permitted by the Department for a period of more than five (5) days, the licensee shall notify the Department to have the aircraft inspected and permitted by the Department.~~ into operation.

(1) Licensees with a substitute aircraft utilized for periods of five (5) days or less, the licensee shall complete an agency specific equipment log documenting the transfer of all required equipment onto the substitute aircraft at the time of transfer.

(2) The agency will maintain documentation of the transfer in accordance with 310:641-13-21 Air ambulance service records and files.

(n) Any vehicle initially placed in service after a purchase, lease, contract and/or refurbish shall be inspected, approved, and permitted by the Department as detailed within this section of 310:641 Subchapter 13.

SUBCHAPTER 15. EMERGENCY MEDICAL RESPONSE AGENCY

310:641-15-11. Prehospital emergency medical response agency equipment

(a) The tampering, modification, or removal of the manufacturer's expiration date is prohibited.

(b) Certified agencies shall ensure that all, recalled, outdated, misbranded, adulterated, or deteriorated fluids, supplies, and medications are removed from the response vehicles immediately.

(c) The unit checklist will establish the equipment, supplies, and medications for each unit. A list of the equipment, supplies, and medication will be included in the application. For medications this is to include the number, weight, and volume of the containers.

(d) At a minimum, the following equipment and supplies will be present on for each emergency medical response:

- (1) one (1) each adult, pediatric, and infant size bag-valve-mask resuscitators;
- (2) one (1) complete set of oropharyngeal airways, single wrapped for sanitation purposes;
- (3) portable oxygen system with two (2) each oxygen masks in adult, pediatric, and infant sizes;
- (4) two (2) adult nasal cannulas;
- (5) portable suction device with age and size appropriate tubing and tips;
- (6) one (1) bulb syringe with saline drops, sterile, in addition to any bulb syringes in an obstetric kit;

(7) instant cold packs;

(8) sterile dressing and bandages, to include:

- (A) sterile burn sheets,
- (B) sterile 4"x4" dressings,
- (C) sterile 6"x8" or 8"x10" dressings,
- (D) roller bandages, 2" or larger,
- (E) rolls of tape (minimum of one (1) inch width),
- (F) sterile occlusive dressings, 3" x 8" or larger,
- (G) triangular bandages, and
- (H) scissors;

(9) blood pressure cuff kit in adult, pediatric, and infant sizes;

(10) obstetrics kit;

(11) blankets;

(12) universal precaution kit for each person attending a patient;

(13) blood-glucose measurement equipment per medical direction and Department approval;

(14) AED with adult and pediatric capability;

(15) adult and pediatric upper and lower extremity splints;

(16) spinal immobilization equipment per medical control authorization;

(17) adult traction splint per medical control authorization and;

(18) patient care reports;

~~(19) digital thermometer.~~

(e) A list of equipment in addition to the minimum equipment will be sent to the Department with the application.

(f) The agency will have the equipment to support the procedures and interventions detailed within the protocols as authorized by the medical director.

(g) An electronic or paper copy of patient care protocols will be available to responding agency members.

(h) All assessment and medical equipment utilized for patient care will be maintained in accordance with the manufacturer's guidelines. Documentation will be maintained at the agency showing the periodic tests, maintenance, and calibration are being conducted in accordance with manufacturer's requirements. Equipment shall include, but not be limited to suction devices, pulse oximetry, glucometers, end-tidal Co2 and capnography monitors, CPAP/BiPAP devices, ventilators, and blood pressure monitors.

SUBCHAPTER 17. STRETCHER AND VAN SERVICE

310:641-17-1. Purpose

(a) This Subchapter incorporates the authorization, licensure, and minimum requirements for operating a ~~Stretcher Aid Van Ambulance Service~~ that transports patients/passengers that are medically stable, but need to be transported in a reclining position, and

(b) provide standards for the enforcement of the provisions of the Act and this Chapter.

310:641-17-2. Stretcher ~~aid~~ van service license required

- (a) No person, company, governmental entity or trust authority shall operate, advertise, or hold themselves out as providing any type of stretcher ~~aid~~ van service without first obtaining a license to operate a stretcher ~~aid~~ van service from the Department. The Department shall have sole discretion to approve or deny an application for a stretcher ~~aid~~ van service license based on the ability of the applicant to meet the requirements of this rule.
- (b) State and Federal agencies that respond to stretcher ~~aid~~ van transports off State and Federal property are required to become licensed by the Department.
- (c) Persons, companies, and governmental entities which operate on their own premises are exempt from this licensing requirement, unless the stretcher ~~aid~~ van ~~patient(s)~~ passenger(s) is/are transported on the public streets or highways of Oklahoma or outside of their own premises.
- (d) An application to operate a stretcher ~~aid~~ van service shall be submitted on forms prescribed and provided by the Department.
- (e) The application shall be signed under oath by the party or parties seeking to secure the license.
- (f) The party or parties who sign the application shall be considered the owner or agent (licensee) and responsible for compliance to the Act and this Chapter.
- (g) The application shall contain, but not be limited to the following:
 - (1) a statement of ownership which shall include the name, address, telephone number, occupation and/or other business activities of all owners or agents who shall be responsible for the service.
 - (A) If the owner is a partnership or corporation, a copy of incorporation documents and the name of all partner(s) or stockholder(s) with an ownership interest of five (5%) percent or more (principal), and the name and addresses of any other ambulance service in which any partner or stockholder holds an interest shall also be included.
 - (B) If the owner is an entity of government, governmental trust, trust authority, or non-profit corporation, the name of each board member, or the chief administrative officer and/or chief operation officer shall be included.
 - (2) proof of vehicle insurance, at least in the amount of one million dollars (\$1,000,000.00) or to the amount provided for in "The Governmental Tort Claims Act", Title 51 O.S. Section 151 et seq. This insurance requirement shall remain in effect at all times while the service is licensed;
 - (3) proof of professional liability insurance, at least in the amount of one million dollars (\$1,000,000) or to the amount provided for in "The Governmental Tort Claims Act", Title 51 O.S. Sections 151 et seq. This insurance requirement shall remain in effect at all times while the service is licensed;
 - (4) participation in a workers' compensation insurance program for employees who are subject to pertinent labor laws. This insurance requirement shall remain in effect at all times while the service is licensed;

- (5) copy of any contract(s) for vehicles, medical equipment, and/or personnel if such exist;
- (6) a written communication policy addressing:
 - (A) the receiving and dispatching of calls;
 - (B) ensuring compliance with State and local EMS Communication Plans; and
 - (C) applicants for this license will provide documentation that a screening process is in place to ensure a request for the transport of a stretcher ~~aid~~ van ~~patient~~ passenger will meet the agency's capability, capacity, and licensure requirements. Documentation of the screening will be retained as part of the ~~patient~~ passenger care report or call log.
- (7) Provide a response plan that includes:
 - (A) providing for and receiving mutual aid with all surrounding, contiguous, or overlapping service areas; and
 - (B) providing for and receiving disaster assistance in accordance with local and regional plans and command structures.
- (8) confidentiality policy ensuring confidentiality of all documents and communications regarding protected ~~patient~~ passenger health information;
- (9) an application for an initial or new license shall be accompanied by a non-refundable fee of six hundred (\$600.00) dollars plus twenty (\$20.00) dollars for each vehicle in excess of two (2) vehicles utilized for ~~patient~~ passenger transport. An additional fee of one hundred fifty (\$150.00) dollars shall be included for each stretcher ~~aid~~ van substation in addition to the base station.
- (10) A map or narrative description which identifies the proposed service area;
- (11) evidence that the proposed service area is an emergency medical service region, ambulance district, or county with a population in excess of five hundred thousand (500,000) people;
- (12) the defined hours of operation for the service; and
- (13) Stretcher Vans are prohibited from carrying medications other than oxygen and those other medications which are passenger supplied and administered. The passenger must have a current physician prescription and/or order for the administration of oxygen. A copy of the order shall be maintained in agency files.
- (14) A quality assurance plan or policy that includes:
 - (A) The Department may require quality assurance documentation for review and shall protect the confidentiality of that information.
 - (B) The quality assurance documentation shall be maintained by the agency for three (3) years.
 - (C) The quality assurance policy shall include, but not be limited to:
 - (i) Any passenger condition where the passenger entered the 911 system.
 - (ii) If oxygen is continued, the physician order must be maintained with the trip report or passenger report;
 - (iii) policy to review other selected passenger reports not specifically included, and

Permanent Final Adoptions

(iv) policy to provide internal and external feedback of findings determined through reviews. Documentation of the feedback will be maintained as part of the quality assurance documentation.

(h) Stretcher ~~aid~~ van license applicants will provide documentation that reflects compliance with existing sole-source ordinances.

(i) Stretcher ~~aid~~ van services are exempt from a duty to act requirements and continuous staffing coverage.

(j) A business plan which includes a financial disclosure statement showing evidence of the ability to sustain the operation for at least one (1) year.

310:641-17-3. Issuance of a stretcher ~~aid~~ van service license

(a) The Department shall have sole discretion to approve or deny an application for a stretcher ~~aid~~ van service license based on the ability of the applicant to meet the requirements of this Chapter.

(b) A license may be issued for a stretcher ~~aid~~ van service.

(c) The license shall be issued only for the name, service area, and service provided. The license is not transferable or assignable.

(d) The initial license period shall expire the second June 30th; following the date of issue. Subsequent renewal periods shall be twenty-four (24) months, or two (2) years.

(e) The original, or a copy of the original, license shall be posted in a conspicuous place in the principal business office. If an office or other public place is not available, then the license shall be available to anyone requesting to see the license; during regular business hours.

(f) The stretcher ~~aid~~ van service is limited to the transportation of stable ~~patients~~ passengers that can only be transported in a reclining position. As such, the medical interventions the staff members can provide are that of first aid, BLS CPR, and AED interventions. Agency supplied medications are prohibited for this license type.

310:641-17-4. Renewal of a stretcher ~~aid~~ van license

(a) The Department shall provide to all licensed stretcher ~~aid~~ van services a "Survey/Renewal Form" in December each year. This form shall be considered and utilized as a renewal application if due. The "Survey/Renewal Form" along with proof of the required types of insurance shall be returned to the Department by January 31st each year.

(1) Upon receipt of a complete and correct renewal application, a renewal fee statement shall be mailed by the Department to each licensee in need of renewal.

(2) A non-refundable fee for the renewal of a stretcher ~~aid~~ van service license shall be one hundred dollars (\$100.00), fifty dollars (\$50.00) for each substation, plus twenty dollars (\$20.00) for each vehicle in excess of two (2).

(3) A stretcher ~~aid~~ van service license shall be renewed if:

(A) the service has applied for such renewal;

(B) the service has no outstanding deficiencies or is in need of correction as may be identified during inspection of the service, and;

(C) the proper fee has been received by the Department.

(b) A stretcher ~~aid~~ van service license; if not renewed by midnight June 30 of the expiration year, shall be considered non-renewed.

(1) A grace period of thirty (30) days is permitted under 63 O.S. Section 1-1702.

(2) Thereafter a new application shall be required for the continuation of any such license, and the applicant shall be subject to initial application procedures. An extension may be granted by the Department for the purpose of renewal, subject to a determination by the Department of the following:

(A) the safety, need, and well-being of the public and general populace to be served by the stretcher ~~aid~~ van service;

(B) the availability of personnel, equipment, and the financial ability of the applicant to meet the minimum standards of emergency medical services law;

(C) the number of estimated runs to be made by the stretcher ~~aid~~ van service;

(D) the desire of the community(ies) to be served.

310:641-17-5. Denial for an initial stretcher ~~aid~~ van license

(a) A stretcher ~~aid~~ van license application may be denied for any of the following reasons:

(1) a felony conviction, adjudication, or plea of guilty or nolo contendere of any person, member of the firm, partnership, corporation or the person designated to supervise the service; to include, but not be limited to, fraud, grand larceny, child abuse, sexual offense(s), drug offense(s), or a conviction, adjudication, or plea of guilty or nolo contendere which might otherwise have a bearing on the operation of the service;

(2) falsification of Department required information;

(3) ownership, management, or administration by principals of an entity whose license has been revoked; and

(4) licensure or re-licensure may not be in the best interest of the public as determined by the Department.

(b) An applicant shall be notified in writing within sixty (60) days from the date the Department receives a complete application of the granting or denial of a license. In the event of a denial, the specific reason(s) shall be noted and indications of the corrective action necessary to obtain a license or renewal shall be given, if applicable. A license application may be re-submitted, but each resubmission shall be considered an initial application.

310:641-17-8. Stretcher ~~aid~~ van staffing

(a) Each stretcher ~~aid~~ van service shall be staffed by a minimum of two (2) persons.

(b) The ~~patient~~ passenger shall be accompanied by a minimum of:

- (1) an attendant that has a current Oklahoma Emergency Medical Responder certification and maintains current BLS certification and
- (2) the driver shall hold a valid Oklahoma driver's license, possess a current BLS certification, and have completed an agency defensive driving course that includes driving a vehicle similar to a stretcher aid van.
- (c) Under no circumstance during the transport of a stretcher aid van ~~patient~~ passenger shall the attendant be less than an Oklahoma certified Emergency Medical Responder.
- (d) Each stretcher aid van service shall provide to each attendant and driver an orientation designed to familiarize these individuals with the local and regional emergency medical system and other Oklahoma public safety resources.
- (e) Agencies will maintain training records demonstrating competency in emergency procedures, ~~patient~~ passenger handling, and vehicle operations for all personnel utilized by the agency prior to ~~patient~~ passenger contact or vehicle operations.

310:641-17-9. Stretcher aid van vehicles

- (a) A stretcher aid van vehicle may not be permitted by the Department prior to the submission and approval of all required documentation, fees, and a Department inspection.
- (b) Authorized stretcher aid van vehicles of licensed services shall be in good mechanical and serviceable condition at all times, so as to not be hazardous to the ~~patient(s)~~ passenger(s) or crewmembers. If, in the determination of the Department, a vehicle does not meet this requirement, it may be removed from service until repairs are made.
- (c) Authorized stretcher aid van vehicles of licensed services shall be tested for interior carbon monoxide, in a manner acceptable to the Department. Carbon monoxide levels of more than ten parts per million (10ppm) shall be considered in excess and shall render the vehicle "out of compliance". Vehicles shall be removed from service if carbon monoxide levels exceed fifty parts per million (50ppm) and until repairs are made to reduce the amounts of carbon monoxide below ten parts per million (10ppm).
- (d) A class "S" permit shall be affixed to a vehicle in compliance and utilized as a stretcher aid van vehicle.
- (e) Stretcher aid van vehicles shall place a permit or inspection decal affixed by the Department. These decals shall be placed in the driver side rear window unless it is impossible or impractical to place in this area.
- (f) Stretcher aid van vehicles are not ambulances, and may not be authorized as emergency vehicles within Title 47, relating to definitions of emergency vehicles.
- (g) Violations that may justify immediate removal of a vehicle permit include:
 - (1) inadequate sanitation, including the presence of contamination by blood and or bodily fluids,
 - (2) inoperable heater or air conditioner as detailed within the vehicle manufacturing standards and specifications,
 - (3) inoperable AED,
 - (4) tires that do not meet Oklahoma Statutes Title 47, Chapter 12 requirements,

- (5) carbon monoxide levels greater than fifty (50) parts per million,
- (6) lapse of vehicle liability insurance,
- (7) lapse of worker compensation insurance,
- (8) inability to affix a class S" permit to the vehicle,
- (9) vehicle that does not comply with statutory safety equipment found in Title 47.
- (10) If such violation is not or cannot be corrected immediately, any affected vehicle shall be removed from service and the ambulance permit shall be removed until such time the vehicle is compliant and has been re-inspected and permitted by the Department.
- (h) The stretcher aid van vehicle must utilize a stretcher or gurney and locking system that meets or manufactures standards
- (i) ~~The stretcher aid van vehicle shall have:~~ Stretcher van vehicles purchased after the effective date of these amendments shall comply with the following:
 - (1) a mounted seat with seatbelts for the ~~patient~~ passenger are attendant in the passenger compartment or area of the vehicle,
 - (2) mounted cabinets for the purpose of storing supplies and equipment,
 - (3) mounted and rear loading lights,
 - (4) the capability to contact 911 should an emergency arise while transporting a passenger, and
 - (5) display exterior markings identifying the vehicle as a stretcher aid van and the business name in six (6) inch letters in a contrasting color on the rear and sides of the vehicle,
 - (6) brackets or other retaining system for securing oxygen cylinders on the gurney and within the stretcher van, and
 - (7) modifications made to stretcher van vehicles after initial testing may require the vehicle to undergo new AMD 004, 012, and/or 013 standard testing.
- (j) ~~All stretcher aid van vehicles purchased after the effective date of this Chapter's amendments shall comply with OAC 310:641-3-20 except for~~
 - (1) ~~oxygen systems,~~
 - (2) ~~emergency lights, and~~
 - (3) ~~sirens.~~ A stretcher van shall meet Ambulance Manufacturers Division (AMD) Standards 004, 012, and 013, and shall pass corresponding safety tests. Stretcher vans must not have functioning emergency lights or sirens.
- (k) ~~Stretcher aid van vehicles shall comply with the guidelines for displaying the Star of Life as set out in Star of Life Emergency Medical Care Symbol, Background, Specifications, and Criteria, U.S. Department of Transportation, National Highway Traffic Safety Administration, DOT HS 808 721, revised June 1995. Documentation of vehicle safety testing or manufacturer certification must be maintained in agency files.~~

310:641-17-10. Equipment for stretcher aid van vehicles

Each stretcher aid van vehicle shall carry, at a minimum the following:

Permanent Final Adoptions

- ~~(1) one (1) each pediatric and adult size bag valve mask resuscitators;~~
- ~~(2) one suction unit (portable or vehicle mounted) which is capable of delivering adequate suction to clear the airway, with wide bore tubing (one quarter inch) (1/4"), and rigid and soft catheters for the types of patients the agency transports.~~
- ~~(3) one (1) emesis basin;~~
- ~~(4) one (1) pair of scissors or shears;~~
- ~~(5) body substance isolation kits with gowns, gloves, eye protection, and masks;~~
- ~~(6) latex or equivalent gloves separate from body substance isolation kits;~~
- ~~(7) pediatric and adult oropharyngeal airways;~~
- ~~(8) extra blankets, sheets, pillow cases;~~
- ~~(9) two (2) five (5) pound fire extinguishers, secured, with one (1) accessible to the driver and one (1) accessible to the patient/passenger care attendant;~~
- ~~(10) one (1) elevating gurney with locking equipment that complies with AMD 004;~~
- ~~(11) an AED with adult and pediatric capabilities if the agency transports pediatric passengers;~~
- ~~(12) if the agency transports children, then the agency is required to provide a child restraint system;~~
- (8) portable and spare oxygen cylinders shall be appropriately secured;
- (9) one (1) stretcher mount portable oxygen securing device; and
- (10) Stretcher van agencies may carry and provide oxygen and utilize equipment necessary for the provision of oxygen as prescribed by the physician, excluding agency supplied ventilator equipment.

310:641-17-11. Stretcher aid van medical control

As the scope of practice by the patient care attendant employed at a stretcher aid van service is limited to first aid, BLS CPR, and the use of an AED, a medical director or Department approved protocols are not required.

- (a) As defined in 63 O.S. § 1-2503, Stretcher van agencies may carry and provide oxygen and utilize any equipment necessary for the provision of oxygen.
- (b) As defined in 63 O.S. § 1-2503, Stretcher van passengers transported in or by Stretcher vans are to be medically stable, non-emergent, and do not require medical monitoring equipment or assistance during transport except oxygen.
- (c) As defined in 63 O.S. § 1-2503, all passengers transported by stretcher vans must be screened by a certified medical dispatching protocol approved by the Department.
- (d) Passengers that will continue oxygen during their Stretcher van transport will need to have a prescription or physician order for oxygen. This physician order or prescription completes the requirement for an agency specific medical director or medical control. This physician order completes the requirement for certified and licensed agencies and personnel to have medical control as defined in 63 O.S. § 1-2503.

310:641-17-12. Sanitation requirements

(a) The following shall apply regarding sanitation standards for all stretcher aid van services facilities, vehicles, and personnel:

- (1) the interior of the vehicle and the equipment within the vehicle shall be sanitary and maintained in good working order at all times;
- (2) the exterior of the vehicle shall be clean and maintained in good working order to ensure the vehicle can operate safely and in accordance with applicable sections of Title 47 of the Oklahoma Statutes;
- (3) linen shall be changed after each ~~patient~~passenger is transported, and the used linen will be bagged and stored in an outside or separate compartment;
- (4) clean linen, blankets, washcloths, and hand-towels shall be stored in a closed interior cabinet free of dirt and debris;
- (5) freshly laundered linen or disposable linen shall be used on the cots and pillows and changed between ~~patients~~passenger;
- (6) pillows and mattresses shall be kept clean and in good repair and any repairs made to pillows, mattresses, and padded seats shall be permanent;
- (7) soiled linen shall be placed in a container that deters accidental exposure. Any linen which is suspected of being contaminated with bodily fluids or other potentially hazardous infectious waste shall be placed in an appropriately marked closed container for disposal;
- (8) contaminated disposable supplies shall be placed in appropriately marked or designated containers in a manner that deters accidental exposure.
- (9) exterior and interior surfaces of vehicles shall be cleaned routinely;
- (10) blankets and hand towels used in any vehicle shall be clean;
- ~~(11) implements inserted into the patient's nose or mouth shall be single service wrapped and properly stored and handled. When multi use items are utilized, the local health care facilities should be consulted for instructions in sanitation and handling of such items;~~
- ~~(12) when a vehicle has been utilized to transport a patient(s) known to the operator to have a communicable disease, the vehicle shall be cleansed and all contact surfaces shall be washed with soap and water and appropriate disinfectant. The vehicle should be placed "out of service" until a thorough cleansing is conducted;~~
- ~~(13) all storage spaces used for storage of linens, equipment, medical supplies and other supplies at the base station shall be kept clean;~~
- ~~(14) personnel shall:~~
 - (A) be clean, especially hands and fingernails, and well groomed;
 - (B) clothing worn by personnel shall be clean;
 - (C) while on duty, employees shall wear an identifiable uniform or agency specific photo identification;
 - (D) The licensee shall provide in each vehicle a means of hand washing for the attendants;

(14) expired supplies and equipment shall be discarded appropriately. Tampering, removing, or altering expiration dates on medications, supplies, and equipment is prohibited; and

(15) the station facility, ambulance bays, living quarters, and office areas shall be clean, orderly, and free of safety and health hazards.

(b) Stretcher ~~aid~~ van vehicles and service facilities shall be free of any evidence of use of lighted or smokeless tobacco products except in designated smoking areas consistent with the provisions of 310:641-1-4 (c).

310:641-17-13. Inspections

(a) The Department shall conduct unannounced inspections of every licensed stretcher ~~aid~~ van service. Inspection may include a review of any requirements of the Act and rules promulgated thereunder. The Department may require copies of such records as deemed necessary consistent with the files section of this subchapter.

(b) All inspection reports will be sent to the agency director and license owner.

(c) A representative of the agency will be with the Department employee during the inspection.

310:641-17-14. Stretcher ~~aid~~ van notice of violation

(a) A violation of the Act or this Chapter is ground for the Department to issue a written order, sent via certified mail, citing the violation, affording the agency an opportunity to demonstrate compliance, and indicating the time no less than fifteen (15) days after receipt of the notice in which any needed correction shall be made. The fifteen-day notice period may be reduced as, in the opinion of the Department, may be necessary to render an order of compliance reasonably effectual.

(b) Unless the Department specifies a reduced period, within thirty (30) days after receipt of the notice of violation, the agency shall submit to the Department a written demonstration of compliance and/or plan of correction.

(c) A plan of correction shall include at least the following:

- (1) When the correction was or will be completed;
- (2) How the correction was or will be made;
- (3) What measures will prevent a recurrence; and
- (4) Who will be accountable to ensure future compliance.

(d) The Department shall ensure that the agency is afforded due process in accordance with the Procedures of the State Department of Health, Oklahoma Administrative Code, Title 310, Chapter 2, and the Administrative Procedures Act, Title 75 O.S. Section 250 et seq.

(e) Violations found by the Department which require immediate correction shall be handled in compliance with Title 75 of the Oklahoma Statutes, Section 314.1 and the Oklahoma Administrative Code, Title 310, Chapter 2, specifically 310:2-21-23.

310:641-17-16. Operational protocols

(a) Stretcher ~~aid~~ van vehicles are to be used for stretcher ~~aid~~ van ~~patients or~~ passengers only.

(1) Emergency transfers are prohibited.

(2) Stretcher ~~aid~~ vans are prohibited from conducting ~~patient—passenger~~ transfers or providing transportation from the pre-hospital setting.

(b) Stretcher ~~aid~~—van services are limited to providing non-emergency transportation to medically stable, nonemergent individuals who need to be transported in a reclining position on a stretcher but who do not require any type of monitoring or administration of medical care.

(c) Passenger supplied medications for self-administration are permitted.

(d) ~~Patient care~~ Passenger attendants are limited to first aid, BLS CPR, and AED interventions, and the continuation of oxygen.

(e) Stretcher ~~aid~~ vans shall define the days and hours of operation in which transportation is provided.

(f) When a facility requests a stretcher ~~aid~~ van, the agency will provide an accurate estimated time of arrival and ensure the ~~patient~~ passenger needs will be able to be met for the service being requested within the scope of the licensure capabilities and capacity.

(g) Stretcher ~~aid~~ van transports may be made to and from any State or Federal Veteran Centers.

(h) When a stretcher ~~aid~~ vans passenger develops an emergency condition, the service shall:

- (1) contact 911 or the local emergency number;
- (2) proceed to the closest hospital or to a rendezvous point;
- (3) provide appropriate first aid, BLS CPR, and AED interventions; and
- (4) submit an incident report to the Department within 48 hours of the incident;

(i) Mutual aid plan(s), regarding interfacility transports only, with licensed services shall be developed and placed in the agency files for inspection. Plans will be periodically reviewed to ensure accuracy and completeness. Licensed stretcher ~~aid~~—vans agencies shall provide mutual aid if the agency has the capability and if the requested activity is within the licensure requirements.

310:641-17-17. Transfer protocols

(a) ~~Patients~~ Passengers transported by stretcher ~~aid~~—van services may originate from a location other than a medical setting provided the ~~patient's~~ passenger's condition is appropriately screened to ensure the ~~patient~~ passenger condition is within the service's licensure capabilities.

(b) Transports that occur between medical facilities will be screened to ensure that any care and treatment at the sending facility has been discontinued prior to discharge or transport.

(c) Direct admits from a pre-hospital setting or admissions through the emergency room at a receiving facility are prohibited.

310:641-17-18. Stretcher ~~aid~~ van service records and files

(a) All required records for licensure will be maintained for a minimum of three years.

Permanent Final Adoptions

(b) Each licensed stretcher ~~aid~~ van service shall maintain electronic or paper records about the operation, maintenance, and such other required documents at the business office. These files shall be available for review by the Department during normal work hours. Files which shall be maintained include the following:

- (1) a record of each ~~patient~~passenger transport to include, but not be limited to:
 - (A) personal information such as name, date of birth and address;
 - (B) contact information;
 - (C) originating location;
 - (D) destination;
 - (E) reason for the transport; and
 - (F) ~~a call log that contains:~~
 - (i) ~~time requested;~~
 - (ii) ~~time arrived;~~
 - (iii) ~~time departed;~~
 - (iv) ~~time at destination;~~
 - (v) ~~time transport was complete;~~
 - (vi) ~~unit number; and~~
 - (vii) ~~staff members on transport. if oxygen was continued.~~
- (2) Records shall be submitted to the Department as required.
- (c) All passenger ~~and patient~~ transport reports and information shall be considered as confidential.
- (d) All stretcher ~~aid~~ van agencies shall maintain electronic or paper records on the maintenance and regular inspections of each vehicle. Each vehicle must be inspected and a checklist completed after each call or on a daily basis, whichever is less frequent.
- (e) All stretcher ~~aid~~ van agencies shall maintain a licensure or credential file for licensed and certified emergency medical personnel employed by or associated with the service to include:
 - (1) Oklahoma license and certification,
 - (2) Basic Life Support certification that meets or exceeds American Heart Association standards,
 - (3) Incident Command System or National Incident Management Systems training at the 100, 200, and 700 levels or their equivalent,
 - (4) verification of an Emergency Vehicle Operations Course or other agency approved defensive driving course,
- (f) The electronic or paper copies of the licenses and credentials described in this section shall be kept separate from other personnel records to ensure confidentiality of records that do not pertain to the documents relating to ~~patient care~~ the passenger.
- (g) Copies of staffing patterns, schedules, or staffing reports.
- (h) Copies of in-service training and continuing education records.
- (i) Copies of the stretcher ~~aid~~ van service's:
 - (1) operational policies, guidelines, or employee handbook;
 - (2) OSHA and/or Department of Labor exposure plan, policies, or guidelines.

(j) A log of each request for service call received and/or initiated, to include the:

- (1) disposition of the request and the reason for declining the request, if applicable;;
- (2) ~~patient~~passenger care report number;;
- (3) date of request;;
- (4) ~~patient care report times;~~
- (5) location of the incident;;
- (6) where the ambulance originated, ~~and;~~
- (7) nature of the call;;
- (8) time requested;
- (9) time arrived;
- (10) time departed;
- (11) time at destination;
- (12) time transport complete;
- (13) unit number;
- (14) staff member on transport; and
- (15) medical screening documentation.
- (k) Documentation that verifies an ongoing quality assurance program.
 - (1) Such other documents which may be determined necessary by the Department. Such documents can only be required after a thorough, reasonable, and appropriate notification by the Department to the services and agencies.
 - (2) The standardized data set and an electronic submission standard for EMS data as developed by the Department shall be mandatory for each licensed service as defined in the Act. Reports of the data standard shall be forwarded to the Department by the last business day of the following month. Exceptions to the monthly reporting requirements shall be granted only by the Department, in writing.
 - (3) Review and the disclosure of information contained in the stretcher ~~aid~~ van service files shall be confidential, except for information which pertains to the requirements for license, certification, or investigation issued by the Department.
 - (4) Department representatives shall have prompt access to files, records, and property as necessary to appropriately survey the provider. Refusal to allow access by representatives of Department to records, equipment, or property may result in summary suspension of licensure by the Commissioner of Health.
 - (5) All information submitted and/or maintained in files for review shall be accurate and consistent with Department requirements.
 - (6) A representative of the agency will be present during the record review.

INCORPORATIONS BY REFERENCE:

n/a

GIST/ANALYSIS:

Throughout Subchapter 17, "Stretcher Aid Vans" is renamed to "Stretcher Vans" and "patient" is changed to "passenger" pursuant to current statutory definitions and nomenclature.

CONTACT PERSON:

Audrey C. Talley, Audience Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 17. STRETCHER AID VAN SERVICE

310:641-17-19. Sole source ordinances

- (a) A stretcher aid van service which operates as a sole source provider established by EMS regions, ambulance service districts, or municipalities shall file with the Department a copy of the ordinance or regulation and a copy of the contract to operate as a sole source provider. This requirement shall be retroactive and includes all established sole source ordinances and resolutions.
- (b) A stretcher aid van service which operates as a sole source provider for a "region" as established pursuant to the Oklahoma Interlocal Cooperation Act (Title 74, Section 1001, et seq.), shall file with the Department, a copy of the interlocal agreement and any ordinance or other regulations or contract or agreement established by the region for ambulance service provision.
- (c) Violation of contracts established herein may be cause for enforcement action by the Department.

310:641-17-20. Suspension, revocation, probation, or non-renewal of a licensee

(a) The Department may suspend or revoke a license and/or fine or place on probation a license or licensee for the following:

- (1) violations of any of the provision of the Oklahoma Statutes, the Act, or this chapter;
- (2) permitting, aiding, or abetting in any illegal act in connection with the ambulance service;
- (3) conduct of any practice that is detrimental to the welfare of the ~~patient~~ passenger or potential users of the service;
- (4) responding to requests for service or completing transports that are not permitted by the type of license issued by the Department;
- (5) placing a vehicle into service before it is properly inspected, approved, and permitted by the Department;
- (6) failure to comply with a written order issued by the Department within the time frame specified by the Department;
- (7) engaging in any act which is designed or intended to hinder, impede, or obstruct the investigation of any matter governed by the Act or by any lawful authority;
- (8) a stretcher aid van service who fails to renew their Oklahoma license within the time frame and other requirements as specified in these rules shall be considered an expired or lapsed licensee and therefore no longer licensed as an ambulance service in the State of Oklahoma;
- (9) a misleading, deceptive, false, or fraudulent advertisement or other representation in the conduct of the profession or occupation;
- (10) offering, giving, promising anything of value or benefit, as defined in Oklahoma Statutes or Department Policy to a Federal, state, or local governmental official for the purpose of influencing the employee or official to circumvent a Federal, state, or local law, rule, or ordinance governing the licensee's profession or occupations;
- (11) interference with an investigation disciplinary proceeding by willful misrepresentation of facts, by the use of threats or harassment against or inducement to a client or witness to prevent them from providing evidence in a disciplinary proceeding or other legal action, or by use of threats or harassment against or inducement to a person to prevent or attempt to prevent a disciplinary proceeding or other legal action from being filed, prosecuted, or completed;
- (12) failure to report the unprofessional conduct or non-compliance of regulations by individually licensed and certified personnel as defined in this Chapter.

(b) No person, company, governmental entity or trust authority may operate an ambulance service or emergency medical response agency except in accordance with the Act and the rules as promulgated by the State Board. The Commissioner, District Attorney of the county wherein a violation occurs, or the Attorney General of this State, shall have the authority to enforce provisions of the law.

Permanent Final Adoptions

(c) A license/certificate/permit holder or applicant in connection with a license application or an investigation conducted by the Department pursuant to this rule shall not:

- (1) knowingly make a false statement of material fact;
- (2) fail to disclose a fact necessary to correct a misapprehension known by the licensee to have arisen in the application or the matter under investigation; or
- (3) fail to respond to a demand for information made by the Department or any designated representative thereof.

(d) If in the course of an investigation, the Department determines that a license/certificate/permit holder or applicant has engaged in conduct that is detrimental to the health, safety, or welfare of the public, and which conduct necessitates immediate action to prevent further harm, the Commissioner may order a summary suspension of the license/certificate/permit holder's license, certificate, or permit respectively. A presumption of imminent harm to the public shall exist if the Department determines probable cause for conduct of any practice that is detrimental to the welfare of the ~~patient~~passenger or potential users of the service.

(e) In addition to any other penalties, a civil fine of not more than one hundred (\$100.00) dollars per violation per day may be assessed, for violations of the Act or this Chapter.

INCORPORATIONS BY REFERENCE:

n/a

GIST/ANALYSIS:

Currently, 310:642-3-1(a) (3) (A) (i)-(iv) requires a panel of nine volunteers who have drawn lots to determine their eligibility to participate in the proposal review.

The amended language will: 1) decrease the panel membership from nine to five persons; and 2) the panelists will be appointed by the Commissioner. The purpose for amending the current regulations is to decrease the difficulty of Department staff in recruiting nine volunteers willing to serve on this panel. Additionally, by changing the selection to an appointment by the Commissioner, the opportunity for highly qualified panelists to be appointed increases.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 3. PROPOSALS

310:642-3-1. Proposal review and disposition

(a) **General procedures.** The general procedure to be followed in the funding proposal, review and consideration process for financial assistance under the OERSSIRF program shall be as follows:

(1) Pre-proposal conference.

(A) All potential applicants are encouraged to participate in a pre-proposal conference. The Department shall summarize available funding, areas of need identified by any state assessment, and the status of previous OERSSIRF-funded projects.

(B) At the pre-proposal conference, preliminary matters may be generally discussed to familiarize all concerned parties with the proposal period, requirements and procedures.

(2) **Proposal.** An applicant shall initiate proposal review and consideration by submission to the Department of applicant's proposal for financial assistance. A proposal shall be submitted by the qualified entity using forms described in 310:642-7-1 (relating to content of application), within the application period specified in OAC 310:642-3-2 (relating to deadlines for filing.)

(3) **Scoring and selection.** Eligible proposals shall be scored by the following process.

(A) A public meeting shall be scheduled for the purpose of scoring the eligible OERSSIRF proposals and awarding the funds that have been identified by the Department as the balance available for distribution on the last day of the preceding calendar year.

(i) A ~~nine (9)~~five (5) person review panel shall be ~~appointed by the Commissioner, selected by lot each year from volunteers present at the awards meeting.~~

- (ii) Each ~~panel appointed~~ member ~~so selected~~ will sign an attestation stating the ~~volunteer ap-~~
~~pointee~~ has no financial or other direct personal interest in any of the project proposals before the Department.
- (iii) ~~Only a single representative from a profes-~~
~~sional or business entity may serve on the review~~
~~panel at the same time.~~
- (iv) ~~If a selected volunteer is determined by De-~~
~~partment staff to have any such interest in the se-~~
~~lection, the volunteer will be disqualified and an-~~
~~other name shall be selected by the same method,~~
~~until nine members are empanelled.~~
- (B) The panel shall be seated and the reviews will begin under the direction of Department staff.
- (i) Department staff will distribute proposals and scoring tools, collect the completed scoring tools for each proposal from the panelists, and tally the scores for each proposal at the end of the process.
- (ii) The tallied scores shall be posted as soon as the totals are computed.
- (C) The project with the highest score of total points shall be selected for funding, and the projected cost of the project deducted from the balance of the fund.
- (D) The project with the next highest score of total points shall be selected for funding, and the cost deducted from the balance of the fund and continuing in like manner until insufficient funds remain to fund the next highest-scoring project.
- (E) Any remaining funding shall be retained by the fund and distributed the next year.
- (b) **Criteria applicability.**
- (1) The criteria set forth in subsections (c) and (d) of this Section shall constitute guidelines and standards for proposal review and consideration by the Department.
- (2) The criteria and standards set forth in subsections (c) and (d) of this Section shall be applied to each proposal without exception.
- (c) **General approval standards and criteria.** The Department shall be under a continuing obligation to ensure the following standards and criteria are satisfied before any proposal is approved for funding and may determine compliance with these standards and criteria during preliminary review, scoring and selection or during a post selection review:
- (1) **Compliance with applicable law.** The proposed project must be found to be in compliance with 63 O.S. § 1-2512.1, and applicant must possess all necessary and incidental legal rights and privileges necessary to project commencement and operation.
- (2) **Eligibility.** The applicant must be a qualified entity and the proposed project must be for a qualified purpose as defined in 63 O.S. § 1-2512.1.
- (3) **Local need, support and priority.** The applicant shall demonstrate that the project is needed in the area to be served and is sufficient, as proposed, to serve such needs. Applicant shall demonstrate local support, interest and commitment in and to the proposed project.
- (4) **Availability of other assistance.** Applicant shall demonstrate appropriate due diligence to ensure no alternative sources of revenue could be obtained and utilized for project financing.
- (5) **Economic feasibility.** The applicant shall demonstrate the overall economic viability and feasibility of the project.
- (6) **Project feasibility.** The applicant shall demonstrate that the project is feasible and cost effective.
- (7) **Statewide needs and public interest.** The applicant shall demonstrate the relationship between the proposed project and the overall EMS development needs within the State of Oklahoma and show that proposed project will serve the public interest and welfare.
- (d) **Criteria for denying a proposal.** The Department may deny a proposal for OERSSIRF funding for any of the following reasons:
- (1) The applicant is not an eligible entity.
- (2) The project does not serve the goals of 63 O.S. § 1-2512.1.
- (3) Insufficient availability of funding.
- (4) The proposal is received after the deadline.
- (e) **Department action.**
- (1) After reviewing and considering the submitted proposal, the Department may take one of the following actions:
- (A) The Department may approve and fund the proposal as submitted.
- (B) The Department may reject and deny the proposal based upon any applicable criteria described in subsection (d) of this Section.
- (2) Upon approval of a proposal, the Department may authorize the execution of all necessary funding documents and instruments, and may accordingly authorize and provide for disbursements and such further or additional action as may be necessary to complete and implement the approved transaction.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 3. ADMINISTRATION

310:662-3-4. Organization

(a) **Governing body.** The home care agency shall have an organized governing body which is legally responsible for the conduct of the agency. The ownership of the agency shall be fully disclosed to the Department. Agency staff shall be currently licensed or registered in accordance with applicable laws of the State of Oklahoma. The governing body shall be responsible for periodic administrative and professional evaluations of the agency.

(b) **Financial.** Sufficient financial resources shall be maintained sufficient to ensure the agency's ability to provide adequate home care services. The agency shall have an annual operating budget which ensures sufficient resources to meet operating costs at all times and to maintain the standards required by this Chapter.

(c) **Administrator.** The governing body shall be legally responsible for the appointment of a qualified administrator and

the delegation of responsibility and authority. The administrator shall organize and direct the agency's ongoing functions, employ qualified personnel, ensure adequate staff in-service, continuing education, and evaluations. The administrator shall ensure the accuracy of public information materials and activities, and that agency practices are consistent with written agency policies. The administrator shall be properly certified as required by the Department. Proof of current certification for the administrator shall be posted in a conspicuous place at each licensed agency.

(d) **Supervising physician or nurse.** Each home care agency providing skilled care shall employ a physician or a qualified supervising registered nurse. An agency providing personal care only shall employ or contract with a supervising physician or registered nurse who shall be available to the agency to advise the client care staff whenever personal care is provided. Services of a supervising physician or registered nurse in an agency only providing personal care may be provided on an on-call basis. A physician or a qualified registered nurse alternate shall be designated in writing to serve in the supervising registered nurse's absence.

(e) **Personnel policies.** The agency shall implement and follow appropriate written policies. Personnel policies shall include at least the following:

- (1) Employment procedures.
- (2) Orientation of all personnel to the policies and objectives of the agency, and participation by all personnel in appropriate employee in-service programs.
- (3) Job descriptions (statement of those functions and responsibilities which constitute job requirements) and job qualifications (specific education and training necessary to perform the job).
- (4) Periodic evaluations of employee performance.
- (5) Provision for disciplinary action(s) and procedures.
- (6) Health screening requirements for staff with direct client contact including but not limited to ~~initial and annual Tuberculin skin tests~~ tuberculosis testing/tuberculin skin tests. All tests and examinations shall be in conformance with the "Tuberculosis Controllers Association and CDC, 2019" guidelines for preventing the transmissions of mycobacterium tuberculosis in healthcare settings as published by the Centers for Disease Control and Prevention. Any employee with a proven history of a positive tuberculin skin test may be excluded from this requirement if the employee has had a documented negative chest x-ray and no symptoms suggestive of tuberculosis.
- (7) Each home care agency shall have an annual influenza vaccination program consistent with the recommendations of the Centers for Disease Control and Prevention Advisory Committee on Immunization Practices that shall include at least the following:

- (A) The offer of influenza vaccination onsite, at no charge to all employees and/or workers in the home care agency or acceptance of documented evidence of current season vaccination from another vaccine source or hospital;

(B) Documentation of vaccination for each employee and/or worker or a signed declination statement on record from each individual who refuses the influenza vaccination for other than medical contraindications; and

(C) Education of all employees and/or workers about the following:

- (i) Influenza vaccination;
- (ii) Non-vaccine influenza control measures; and
- (iii) The symptoms, transmission, and potential impact of influenza.

(D) Each home care agency influenza vaccination program shall conduct an annual evaluation of the program including the reasons for non-participation.

(F) The requirements to complete vaccinations or declination statements for each employee and/or worker may be suspended by the agency's medical director in the event of a shortage of vaccine as recognized by the Commissioner of Health.

(f) **Personnel records.** Personnel records shall include, but not be limited to qualifications, employment history, records of orientation and in-service provided, verification that health screening was performed as required, performance evaluations, as required by policy, record of disciplinary actions and verification of current licensure/certification, if appropriate.

(g) **Contracted services.**

(1) If a home care agency contracts to provide home care services(s), there shall be a written agreement defining the nature and scope of services provided. The agreement shall include but not be limited to the following:

- (A) The services to be provided.
- (B) The manner in which services shall be coordinated, evaluated and supervised by the primary home care agency.
- (C) The process for development, review, and revision of the plan of care.
- (D) The process for scheduling of visits or hours.
- (E) The procedures for submitting clinical and/or progress notes or other entries to the clinical record which shall be maintained by the primary home care agency.

(2) Any home care agency providing home care service(s) on a contract basis shall require the contractor to provide verification of current licensure/certification of personnel as appropriate. Documentation of this verification shall be maintained in the home care agency.

(h) **Nurse registry.** A nurse registry which provides home care services shall function and be licensed as a home care agency.

Definitions have been updated to include definitions in SB 142. Rules updated to reflect statute prohibiting prescribing and administration of antipsychotic drugs to long-term care facility residents except under certain conditions; requiring informed consent; setting forth provisions related to prescriptions and administration; setting forth certain patient protections.

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 11, 2020:**

SUBCHAPTER 1. GENERAL PROVISIONS

310:663-1-2. Definitions

When used in this Chapter, the following words or terms shall have the following meaning unless the context of the sentence requires another meaning:

"Abuse" means the willful infliction of injury, unreasonable confinement, intimidation or punishment, with resulting physical harm, impairment or mental anguish.

Permanent Final Adoptions

"Act" means the Continuum of Care and Assisted Living Act, Title 63 O.S. Sections 1-890.1 et seq. of the Oklahoma Statutes.

"Antipsychotic drug" means a drug, sometimes called a major tranquilizer, used to treat symptoms of severe psychiatric disorders, including but not limited to schizophrenia and bipolar disorder.

"Assisted living center" means any home or establishment offering, coordinating or providing services to two (2) or more persons who:

- (A) are domiciled therein;
- (B) are unrelated to the operator;
- (C) by choice or functional impairments, need assistance with personal care or nursing supervision;
- (D) may need intermittent or unscheduled nursing care;
- (E) may need medication assistance; and
- (F) may need assistance with transfer and/or ambulation; ~~Intermittent nursing care and home health aids services may be provided in an assisted living facility by a home health agency~~ [63:1-890.2(1)].

"Chemical restraint" means the use of a medication for the purpose of discipline, convenience, or in an emergency situation to control mood or behavior and not required to treat the resident's symptoms. Chemical restraint does not mean medication prescribed to maintain emotional stability.

"Commissioner" means the Commissioner of Health.

"Continuum of care facility" means a home, establishment or institution providing nursing facility services as defined in Section 1-1902 of Title 63 of the Oklahoma Statutes and one or both of the following:

- (A) assisted living center services as defined in the Continuum of Care and Assisted Living Act; and
- (B) adult day care center services as defined in Section 1-872 of Title 63 of the Oklahoma Statutes [63:1-890.2.4].

"Department" means the Oklahoma State Department of Health.

"Direct care staff" in an assisted living center means qualified nursing, activity, social and therapy staff employed by or under the direct supervisory control of the assisted living center.

"Intermittent or unscheduled nursing care" means skilled nursing care given by a licensed practical nurse or registered nurse that is not required twenty-four (24) hours a day.

"Long-term care facility" means:

- (A) a nursing facility as defined by Section 1-1902 of Title 63 of the Oklahoma Statutes;
- (B) a continuum of care facility as defined under the Continuum of Care and Assisted Living Act; or
- (C) the nursing care component of a life care community as defined by the Long-term Care Insurance Act.

"Misappropriation of resident's property" means the taking, sequestration, misapplication, deprivation, transfer, or attempted transfer to any person not entitled to receive any property, real or personal, or anything of value belonging to or under the legal authority, or the taking of any action contrary to

any duty imposed by federal or state law prescribing conduct relating to the custody or disposition of resident's property.

"Neglect" means a failure to provide goods and services necessary to avoid physical harm, mental anguish or mental illness.

"Personal care" means assistance with meals, dressing, movement, bathing or other personal needs or maintenance, or general supervision of the physical and mental well-being of a person [63:1-1902.17] and includes assistance with toileting.

"Prescribing clinician" means:

(A) an allopathic or osteopathic physician licensed by and in good standing with the Oklahoma State Board of Medical Licensure and Supervision or the Oklahoma State Board of Osteopathic Examiners, as appropriate;

(B) a physician assistant licensed by and in good standing with the Oklahoma State Board of Medical Licensure and Supervision; or

(C) an Advanced Practice Registered Nurse licensed by and in good standing with the Oklahoma Board of Nursing.

"Qualified nutritionist" is a Department approved person who holds a baccalaureate with major studies in food and nutrition, dietetics, or food service management; has one year experience in the dietetic service of a health care institution; and participates in continuing education annually.

"Representative" means an agent under a durable power of attorney for health care, or a court-appointed guardian or, if there is no court-appointed guardian, the parent of a minor, a relative, or other person, designated in writing by the resident.

"Resident" means anyone accepted for care through contractual agreement and who meets the admission criteria established pursuant to OAC 310:663-3-2.

"Physical restraint" means any manual method or physical or mechanical device, material or equipment attached or adjacent to the resident's body that the resident cannot remove easily, that is not used for the purpose of therapeutic intervention or body alignment as determined by resident assessment and care planning, and which restricts the resident's desired freedom of movement and access to his or her body.

"Significant change" is defined as a major change in the resident's status that is not self limiting; affects more than one area of the resident's health status; and requires interdisciplinary review and/or revision of the care plan.

SUBCHAPTER 19. ADMINISTRATION, RECORDS AND POLICIES

310:663-19-2. Medication administration

(a) Each assisted living center shall adopt written procedures to ensure safe administration of medications.

(1) Medications shall be administered only on a physician's order.

(2) The person responsible for administering medications shall personally prepare the dose, observe the swallowing of oral medication, and record the medication.

Medications shall be prepared within one hour prior to administration.

(3) An accurate written record of medications administered shall be maintained. The medication record shall include:

- (A) The identity and signature of the person administering the medication.
- (B) The medication administered within one hour of the scheduled time.
- (C) Medications administered as the resident's condition may require (p.r.n.) are recorded immediately, including the date, time, dose, medication, and administration method.
- (D) Adverse reactions or results.
- (E) Injection sites.
- (F) An individual inventory record shall be maintained for each Schedule II medication prescribed for a resident.
- (G) Medication error incident reports.

(4) A resident's adverse reactions shall be reported at once to the attending physician.

(b) An assisted living center may maintain nonprescription drugs for dispensing from a common or bulk supply if all of the following are accomplished.

- (1) The assisted living center shall have and follow a written policy and procedure to assure safety in dispensing and documenting medications given to each resident.
- (2) The assisted living center shall maintain records which document the name of the medication acquired, the acquisition date, the amount and the strength received for each medication maintained in bulk.
- (3) Only a licensed nurse, physician, pharmacist, certified medication aide or medication aide technician may dispense for administration these medications and only upon a physician's written order for as needed or non-scheduled dosage regimens. The physician's written order shall be maintained in the resident's clinical record.
- (4) Bulk medications shall be stored in the medication area and not in resident rooms.
- (5) The assisted living center shall maintain records of all bulk medications that are dispensed on an individual signed medication administration record.
- (6) The assisted living center shall maintain the original label on the container as it comes from the manufacturer or on the unit-of-use or blister package.
- (7) The assisted living center shall establish in its policy and procedure the maximum size of packaging and shall ensure that each resident receives the correct dosage. The assisted living center shall not acquire nor maintain a liquid medication in a package size that exceeds 16 fluid ounces.
- (8) An assisted living center shall have only oral analgesics, antacids, and laxatives for bulk dispensing. No other category of medication shall be maintained as bulk medication.

(c) Antipsychotic drug administration shall be consistent with 63 O.S. § 1-881.

INCORPORATIONS BY REFERENCE:

Incorporated standards:

The "Tuberculosis Screening, Testing, and Treatment of U.S. Health Care Personnel: Recommendations from the National Tuberculosis Controllers Association and CDC, 2019" guidelines for preventing the transmissions of mycobacterium tuberculosis in healthcare settings as published by the Centers for Disease Control and Prevention.

Incorporating rules:

310:667-5-4(b)

Availability:

8:00 a.m. to 5:00 p.m., Monday through Friday, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-4200

GIST/ANALYSIS:

An amendment is provided to align with SB156, signed into law in 2019, effective 11/1/2019, at 310:667-59-1. This amendment specifies the inclusion of the requirement for hospitals to submit data into the ST-Elevated Myocardial Infarction (STEMI) registry in addition to stroke and trauma related illness and injury. This amendment will update tuberculosis (TB) workplace testing requirements to align with federal recommendations. An amendment is provided at 310:667-5-4(a)2 and 310:667-5-4(b) to align with the most current guidelines for preventing the transmission of mycobacterium tuberculosis in healthcare settings as published by the Centers for Disease Control and Prevention.

Permanent Final Adoptions

CONTACT PERSON:

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 5. COMPLIANCE WITH FEDERAL, STATE, AND LOCAL LAWS

310:667-5-4. Employee and/or worker health examinations

(a) **Pre-employment.** Each employee and/or worker (with or without patient care responsibilities, paid or volunteer, full-time or part-time: physicians, nurses, emergency medical personnel, dental professionals and students, medical and nursing students, laboratory and pharmacy workers, hospital volunteers, and administrative staff, including food service workers) in the hospital shall have a pre-employment health examination, which shall include (but not be limited to):

(1) An immunization history shall be part of each pre-employment examination or application for hospital privileges. The immunization history shall include documentation of immunity to measles, mumps, rubella and varicella.

(A) Birth before 1957 is considered acceptable evidence of immunity to measles, mumps, and rubella, with the exception that birth before 1957 is not acceptable evidence of immunity to rubella for female employees and/or workers born before 1957 who can become pregnant.

(B) Persons born in 1957 or later can be considered immune to measles, mumps or rubella only if they have documentation of one of the following:

- (i) measles or mumps disease diagnosed by a physician or licensed independent practitioner;
- (ii) laboratory evidence of measles, mumps, or rubella immunity; or
- (iii) vaccination on or after the first birthday with two doses of live measles vaccine separated by at least 28 days, at least one dose of live mumps vaccine, and at least one dose of live rubella vaccine.

(C) Persons can be considered immune to varicella if they have a reliable history of having had varicella or if they have received one dose of varicella vaccine on or after the first birthday prior to the 13th birthday, or two doses of varicella vaccine separated by at least 28 days on or after the 13th birthday.

(D) Serologic screening need not be done before vaccinating against measles, mumps, rubella and varicella unless the facility considers it cost-effective.

(E) Serologic screening is not necessary for persons who have documentation of appropriate vaccination or other acceptable evidence of immunity to measles, mumps, rubella, and varicella.

(F) Contraindications to MMR or varicella vaccines should be followed.

(2) ~~A tuberculin skin test utilizing the Mantoux technique shall be included as part of the pre-employment health examination or application for hospital privileges. Only a previous reactive tuberculin skin test or documented evidence of tuberculin skin testing within the previous twelve (12) months as a part of another licensed health care facility's tuberculosis control program would negate this requirement. If PPD (Purified Protein Derivative) is less than 10 mm., repeat PPD in one to two (1-2) weeks, if it has been more than a year since the employee's and/or worker's last non-reactive tuberculin test (Booster Effect). A history of vaccination with BCG (Bacillus of Calmette and Guérin) does not preclude initial tuberculin skin testing, and a reaction of ten (10) mm. or more should be managed in the same manner as it would be in a patient with no history of BCG vaccination.~~

(3) Hepatitis B vaccine shall be offered consistent with 29 CFR Section 1910.1030 (Occupational Exposure to Bloodborne Pathogens).

(34) Each hospital shall meet Occupational Safety and Health Act standards applicable to the facility.

(b) **Periodic health examinations.** ~~A tuberculin skin test utilizing the Mantoux technique shall be repeated at regular intervals on those employees and/or workers who have potential for exposure to Mycobacterium tuberculosis unless the employee and/or worker has a previous documented reactive skin test on file. Such periodic tuberculin skin testing shall be part of a documented tuberculosis control program that is based on a facility specific risk assessment that considers at a minimum: the type and size of the facility, the prevalence of tuberculosis in the community, the patient population served by the facility, the occupational group the person represents, the area of the facility where the person works, and the effectiveness of the facility's tuberculosis control program. The following guidelines shall be used for the information and education of facilities with regard to their tuberculosis control program: "Centers for Disease Control and Prevention. Guidelines for preventing the transmission of Mycobacterium tuberculosis in health care facilities, 1994. MMWR 1994;43(No. RR-13)". A test for tuberculosis shall be performed. All tests and examinations shall be in conformance with the "Tuberculosis Screening, Testing, and Treatment of U.S. Health Care Personnel: Recommendations from the National Tuberculosis Controllers Association and CDC, 2019" guidelines for preventing the transmissions of mycobacterium tuberculosis in healthcare settings as published by the Centers for Disease Control and Prevention.~~

(1) Follow-up examinations for employees and/or workers who react significantly to a tuberculin skin test shall be conducted.

(2) Employees and/or workers with an initial negative chest x-ray, whether they take appropriate preventive

therapy (treatment of latent tuberculosis infection) or not, shall be exempt from yearly, routine chest x-rays unless signs or symptoms suggestive of tuberculosis develop.

(3) Employees and/or workers with a documented reactive skin test and a proven negative chest x-ray, whether they have taken appropriate preventive therapy (treatment of latent tuberculosis infection) or not, shall be exempt from yearly, routine chest x-rays unless signs or symptoms suggestive of tuberculosis develop.

(4) Employees and/or workers with documented prior reactive tuberculin skin tests shall be seen yearly by medical personnel to determine if signs or symptoms are present. The results of such examinations shall be recorded on the individual employee's and/or worker's health record.

(c) **Interim health examinations.** Employees and/or workers, when found to be likely to transmit a communicable disease as determined by a physician or licensed independent practitioner, shall be removed from patient contact duties, consistent with state and federal laws, until such time as a physician or licensed independent practitioner certifies that the risk of transmission of communicable disease is within acceptable limits as defined by the infection control program in its written policies and procedures.

(d) **Follow-up examinations.** Follow-up of an employee and/or workers, who, while employed at the facility, is a contact to active tuberculosis:

(1) An employee and/or worker who is a known tuberculosis contact shall have a tuberculin skin test. If this test is reactive for the first time, the individual shall have a chest x-ray. If the individual with a reactive skin test does not take preventive medication (treatment of latent tuberculosis infection), the employee and/or worker shall be monitored.

(2) If an employee and/or worker is a known, recent tuberculosis contact, he or she shall have a tuberculin skin test and, if non-reactive, and if the individual is asymptomatic for tuberculosis, then a repeat tuberculin skin test shall be done in three (3) months. If the employee and/or worker is symptomatic, an x-ray shall be done immediately.

(3) If an employee and/or worker is a contact to active tuberculosis and has a documented previous reactive skin test, he or she shall be exempt from yearly, routine x-rays unless signs or symptoms develop suggestive of tuberculosis.

(e) **Annual influenza vaccination program.** Each hospital shall have an annual influenza vaccination program consistent with the recommendations of the Centers for Disease Control and Prevention Advisory Committee on Immunization Practices that shall include at least the following:

(1) The offer of influenza vaccination onsite, at no charge to all employees and/or workers in the hospital or acceptance of documented evidence of current season vaccination from another vaccine source or hospital;

(2) Documentation of vaccination for each employee and/or worker or a signed declination statement on record from each individual who refuses the influenza vaccination for other than medical contraindications; and

(3) Education of all employees and/or workers about the following:

- (A) Influenza vaccination;
- (B) Non-vaccine influenza control measures; and
- (C) The symptoms, transmission, and potential impact of influenza.

(4) Each hospital influenza vaccination program shall conduct an annual evaluation of the program including the reasons for non-participation.

(5) The requirements to complete vaccinations or declination statements for each employee and/or worker may be suspended by the hospital's medical staff executive in the event of a shortage of vaccine as recognized by the Commissioner of Health.

(f) **Health examination records.** A file shall be maintained for each employee and/or worker, containing the results of the evaluations and examinations specified at OAC 310:667-5-4 (a) through (d) and the dates of illnesses as relate to employment.

(g) **Credentialing records.** For credentialed non-employee workers, including physicians, hospitals may meet these requirements if as part of the credentialing process such workers provide evidence of an immunization history and tuberculin skin test, consistent with the tuberculosis control program required at 310:667-5-4(b), in the form of a signed attestation statement from the non-employee worker that documents the worker's immunization history and the date and results of the latest tuberculin skin test.

SUBCHAPTER 59. CLASSIFICATION OF HOSPITAL EMERGENCY SERVICES

310:667-59-1. General

(a) All hospitals that treat emergency patients shall identify the extent of the stabilizing and definitive emergency services they provide. For each of the clinical areas listed in OAC 310:667-59-7 for which a hospital provides emergency services, the hospital shall designate which classification level of service it provides.

(b) All hospitals shall participate in the state-wide trauma, stroke, and ST-Elevated Myocardial Infarction (STEMI) and stroke registries and shall submit the related data on stroke and trauma-related injury and illness to the Department as required. Hospitals shall submit data on the other emergency medical services they provide as required by the Department as the data collection tools to capture this information become available.

GIST/ANALYSIS:

Definitions have been updated to include definitions in SB 142. Rules updated to reflect statute prohibiting prescribing and administration of antipsychotic drugs to long-term care facility residents except under certain conditions and to implement changes regarding 24-hour staff scheduling. The amendments update language from "tuberculin skin test" to "tests for tuberculosis" and also update the reference for guidance on administration of the test from a specific reference to broader guidance provided by the Centers for Disease Control and Prevention.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED**

**FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 11, 2020:**

SUBCHAPTER 1. GENERAL PROVISIONS

310:675-1-2. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning unless the context clearly indicates otherwise:

"**Act**" means Title 63 of the Oklahoma Statutes, Sections 1-1901 and following as amended also known as the Nursing Home Care Act.

"**Allied health professional**" means one of the following persons: physician assistant, physical, speech, or occupational therapist, occupational therapy assistant, physical therapy assistant, or qualified social worker.

"**Antipsychotic drug**" means a drug, sometimes called a major tranquilizer, used to treat symptoms of severe psychiatric disorders, including but not limited to schizophrenia and bipolar disorder.

"**Attendant**" means the person having control of an animal/pet visiting or in residence in a facility.

"**Approval**" means the mandatory state government process by which an agency or program is reviewed, and publicly proclaimed, to render a service worthy of note.

"**CEP**" means the nurse aide competency evaluation program.

"**Certification**" means the process by which a non-governmental agency, or association, or governmental agency attests that an individual or facility has met certain predetermined standards specified by the certifying body.

"**Certified medication aide**" means a person who has passed a Department approved program for administering medications.

"**Certified nurse aide**" means any person who provides, for compensation, nursing care or health-related services to residents of a facility, who is not a licensed health professional and has completed a Department approved training and competency program.

"**Charge nurse**" means a registered nurse or licensed practical nurse responsible for supervising nursing services on a specific shift.

"**Chemical restraints**" means the use of a medication for the purpose of discipline, convenience, or in an emergency situation to control mood or behavior and not required to treat the resident's symptoms.

"**Consultant registered nurse**" means a registered nurse who provides consultation to the director of nursing and administrator concerning the delivery of nursing care for all residents in the facility.

"**Denial**" means a decision made by the appropriate body to disapprove an application.

"**Direct care staff**" means nursing, activity, social and therapy staff.

"Director of nursing" means either a registered nurse or licensed practical nurse, who has the authority and responsibility to administer nursing services within the facility.

"Emergency" means, for the purposes of Title 63 O.S. § 1-1912, a serious, potentially life-threatening or life-endangering situation in which immediate action is necessary to ensure the health, safety, or welfare of residents, and for which the facility:

- (A) does not have a plan acceptable to the Department to ensure health, safety or welfare of residents; or
- (B) refuses to remedy the situation.

"Health related services" means any medically directed service provided by any person in a facility that may include but is not limited to, the following:

- (A) Positioning and turning of residents;
- (B) Self-help skill training;
- (C) Assistance with prosthetic/assistive devices;
- (D) Medication administration;
- (E) Nutrition and hydration;
- (F) Monitoring of resident vital signs;
- (G) Catheter and nasogastric care;
- (H) Behavior modification programs;
- (I) Administering a medically related care plan; and
- (J) Restorative services.

"In charge" and **"supervision"** means the administrator must have the requisite authorization from the licensee to make those purchases and incur those necessarily attendant debts in order to comply with the rules promulgated by the Board and all pertinent state statutes.

"Inservice education" means activities intended to assist the individual to acquire, maintain, and/or increase competence in fulfilling the assigned responsibilities specific to the employer's expectations.

"Licensed health professional" means one of the following: a physician; dentist, podiatrist, chiropractor, physician assistant, nurse practitioner; pharmacist; physical, speech, or occupational therapist; registered nurse, licensed practical nurse; licensed or certified social worker; or licensed/registered dietitian.

"Licensed nurse" means a registered nurse or a licensed practical nurse who is currently licensed by the Oklahoma Board of Nursing.

"Licensed pharmacist" means a person who is a graduate of an accredited pharmacy program and is currently licensed by the Oklahoma Board of Pharmacy.

"Licensed practical nurse" means a person who is a graduate of a state approved practical nursing education program, or who meets other qualifications established by the Oklahoma Board of Nursing, and is currently licensed by the Oklahoma Board of Nursing.

"Licensure" means the process by which the Department grants to persons or entities the right to establish, operate, or maintain any facility.

"Local law enforcement" means:

(A) The municipal police department, if the facility is within the jurisdiction of any municipality of this state, or

(B) The county sheriff, if the facility is outside the jurisdiction of any municipality within this state.

"Long-term care facility" means:

(A) a nursing facility as defined in 63 O.S. § 1-1902;

(B) a continuum of care facility as defined under the Continuum of Care and Assisted Living Act; or

(C) the nursing care component of a life care community as defined by the Long-term Care Insurance Act.

"Manager" or "supervisor" means the person or entity which performs administrative services for the licensee. The manager or supervisor is not legally responsible for the decisions and liabilities of the licensee, and does not stand to gain or lose financially as a result of the operation of the facility. The manager is paid a fee or salary for services, and the primary remuneration shall not be based upon the financial performance of the facility.

"Misappropriation of resident's property" means the taking, secretion, misapplication, deprivation, transfer, or attempted transfer to any person not entitled to receive any property, real or personal, or anything of value belonging to or under the legal control of a resident, without the effective consent of the resident or other appropriate legal authority, or the taking of any action contrary to any duty imposed by federal or state law prescribing conduct relating to the custody or disposition of resident's property.

"Nurse aide" means any person providing nursing or nursing related services to residents in a facility, but does not include an individual who is a licensed health professional, or who volunteers to provide such services without monetary compensation.

"Nurse aide trainee" means any person who has been employed by a facility to provide nursing care or health related services, and is enrolled in but has not completed a Department approved training and competency program.

"Orientation" means the training for a particular job activity given to all employees.

"Perishables" means food supplies, to include dietary supplements and intravenous feedings, medical supplies, and medications.

"Physical restraints" means any manual method or physical or mechanical device, material or equipment attached or adjacent to the resident's body that the resident cannot remove easily, that is not used for the purpose of therapeutic intervention or body alignment as determined by resident assessment and care planning, and which restricts the resident's desired freedom of movement and access to his or her body.

"Prescribing clinician" means:

(A) an allopathic or osteopathic physician licensed by and in good standing with the Oklahoma State Board of Medical Licensure and Supervision or the Oklahoma State Board of Osteopathic Examiners, as appropriate;

(B) a physician assistant licensed by and in good standing with the Oklahoma State Board of Medical Licensure and Supervision; or

(C) an Advanced Practice Registered Nurse licensed by and in good standing with the Oklahoma Board of Nursing.

"Qualified nutritionist" is a Department approved person who holds a baccalaureate with major studies in food and nutrition, dietetics, or food service management; has one year experience in the dietetic service of a health care institution; and participates in continuing education annually.

"Registered/licensed dietitian" means a person who is registered as a dietitian by the American Dietetic Association and licensed by the Oklahoma Board of Medical Licensure and Supervision.

"Registered nurse" means a person who is a graduate of a state approved registered nursing education program, and who is currently licensed by the Oklahoma Board of Nursing.

"Registry" means a Department maintained list of individuals who have successfully completed a nurse aide training and competency evaluation program, or a competency evaluation program, approved by the Department.

"Representative of a resident" means a representative of a resident as defined by 63 O.S. § 1-1902.

"Resident" means a resident as defined by 63 O.S. § 1902.

"Revoke" means to rescind approval of a previous action.

"Specialized facility" means any facility which offers or provides inpatient long-term care services on a twenty-four hour basis to a limited category of persons requiring such services, including, but not limited to, a facility providing health or habilitation services for developmentally disabled persons, infants and/or children, or Alzheimer's and dementia residents.

"Standards of nursing practice" means an authoritative statement that describes a level of care or performance common to the profession of nursing by which the quality of nursing practice can be judged. Standards of nursing practice include both standards of care and standards of professional performance.

"Standards of care" means a description of a competent level of care demonstrated by a process of accurate assessment and diagnosis, planning, appropriate interventions, and predicted patient outcomes. (Appendix B of this Chapter.)

"Standards of professional performance" means a description of a competent level of behavior in the professional role including activities related to quality assurance, education, consultation, research, ethics, resource utilization, accountability, peer review, and interdisciplinary collaboration.

"Suspended license" means a license that is issued for a period not to exceed three years to a facility which has temporarily closed or ceased operations.

"Training and competency evaluation program" means a program approved by the Department to instruct and evaluate individuals to act as nurse aides.

"Transfer" means the move of a resident from one facility to another facility.

"Intra-facility transfer" means the moving of a resident from one room to another within a facility.

"Transfer of ownership" means a change of substantial, or controlling interest, in the ownership of a facility. A change of less than five percent (5%) of the interest of the owner does not constitute a transfer of ownership unless it also results in a change of control of the owner.

"Willful violation" means:

(A) a pattern of violation of ~~the direct care~~ staffing requirement;

(B) a violation of ~~the direct care~~ staffing requirement in which the facility knew or should have known staffing would be insufficient to meet the requirement yet took no action to avert the violation; or

(C) the reporting of materially inaccurate or misleading information of ~~direct care~~ staffing to the Health Care Authority.

SUBCHAPTER 7. ADMINISTRATION

310:675-7-4.1. Resident admission and continued residency based on administration of antipsychotic drugs

(a) **Reasons for denial of admission or continued residency.** No long-term care facility shall deny admission or continued residency to a person on the basis of the person's or his or her representative's refusal to the administration of antipsychotic drugs, unless:

(1) The prescribing clinician or care facility can demonstrate that the resident's refusal would place the health and safety of the resident, the facility staff, other residents or visitors at risk.

(2) The alleged risk shall be documented in detail and presented to the resident or the representative of the resident, to the State Department of Health and to the Long-Term Care Ombudsman; and shall inform the resident or the representative of the resident of the resident's right to appeal.

(b) **Procedures.** Procedures for resident appeal are as follows:

(1) Written documentation of the alleged risk associated with the administration of antipsychotic drugs shall be provided to the resident or representative of the resident, to the State Department of Health and to the Long-Term Care Ombudsman; and shall inform the resident or the representative of the resident of the resident's right to appeal the denial of admission or denial of continued residency to the State Department of Health. The documentation of the alleged risk shall include:

(A) A description of all nonpharmacological or alternative care options attempted; and

(B) Why all nonpharmacological or alternative care options attempted were unsuccessful; and

(C) Why the prescribing clinician determined alternative treatments were not medically appropriate for the condition following a physical examination.

(2) Procedures for antipsychotic drug refusal and the facility's notice of admission denial or continued residency are as follows:

(A) If a resident or a resident's representative is aggrieved by the facility's decision to deny admission or continued residency regarding the refusal of antipsychotic drugs at 63 O.S. 1-881(E)(2) the resident or resident's representative may file within ten (10) days of notice a written request for a hearing with the Department by sending a letter to the Hearing Clerk, Oklahoma State Department of Health, 1000 NE Tenth Street, Oklahoma City, OK 73117.

(B) The written notice shall include:

- (i) A full explanation of the reason for the denial of admission of residency or denial of continued residency;
- (ii) The date of the notice; and
- (iii) The date notice was given to the resident and the resident's representative.

(3) Failure of the facility to give the notice as substantially specified shall result in an order without hearing from the Department denying the right of the facility to discharge or deny admission to the resident.

(4) If a written request for a hearing is properly filed by an eligible aggrieved party, the Department shall convene a hearing within ten working days of receipt of the request. The request may be in the form of a letter or a formal request for hearing from the resident or resident's representative. In the event that the resident is unable to write, a verbal request made to the hearing clerk shall be sufficient. The Department shall reduce the verbal request to writing and send a copy to the resident. The request shall state the objection to the notice of denial of admission of residency or denial of continued residency and attach a copy of the notice from the facility.

(5) During the pendency of the hearing, the facility shall not discharge or deny admission or readmission for the resident unless the discharge or admission denial was required by the Department or is an emergency situation. If the resident relocates from the facility but wants to be admitted or readmitted, the Department may proceed with the hearing and the facility shall be required to admit or readmit the resident to the first available bed in a semi-private room if the discharge is found not to meet the requirements of the Nursing Home Care Act and OAC 310:675.

(6) The Department shall provide the Administrative Law Judge and the space for the hearing. The parties, including the resident and the facility, may be represented by counsel or may represent themselves.

(7) The hearing shall be conducted at the Oklahoma State Department of Health building unless there is a request for the hearing to be held at the facility or at another place. Providing the hearing room in such a case shall be the responsibility of the parties. The Department shall maintain a record on the case as it does for any other individual proceeding.

(8) The hearing shall be conducted in accordance with the Department's procedures, Chapter 2 of this Title. The Administrative Law Judge's order shall include findings of fact, conclusions of law and an order as to whether or not the transfer or discharge was according to law. If a facility

receives federal funds for services, it shall also comply with the certification standards. The more restrictive rule toward the facility shall be applied.

(9) If the Administrative Law Judge finds the notice of continued residency or denied admission was not according to law, the Department shall review, investigate and issue deficiencies as appropriate.

(10) If the notice of continued residency or denied admission is according to law, the order shall give the facility the right to discharge or deny admission to the resident.

(11) The scope of the hearing may include:

- (A) Inadequate notice;
- (B) Continued residency or admission denial based on reason not stated in the law;
- (C) Sufficiency of the evidence to support the continued residency or admission denial; or
- (D) The finding of emergency.

(12) The Administrative Law Judge shall render a written decision within ten working days of the close of the record.

(13) If the Administrative Law Judge sustains the facility, the facility may proceed with the discharge. If the Administrative Law Judge finds in favor of the resident, the facility shall withdraw its notice of intent to transfer, discharge or deny admission of the resident. The decision of the Administrative Law Judge shall be final and binding on all parties unless appealed under the Administrative Procedures Act.

310:675-7-17.1. Infection Control

(a) The facility shall have an infection control policy and procedures to provide a safe environment. The policy shall address the prevention and transmission of disease and infection. The facility, and its personnel, shall practice the universal precautions identified by the Centers for Disease Control. All personnel shall demonstrate their knowledge of universal precautions through performance of duties.

(b) The facility shall maintain a sanitary environment and prevent the development and transmission of infection in the following areas.

- (1) Food handling practices;
- (2) Laundry practices including linen handling.
- (3) Disposal of environmental and resident wastes.
- (4) Pest control measures.
- (5) Traffic control for high-risk areas.
- (6) Visiting rules for high-risk residents.
- (7) Sources of air-borne infections.
- (8) Health status of all employees and residents.
- (9) Isolation area for residents with communicable diseases.

(c) Infection control policies to prevent the transmission of infection shall include the following:

- (1) Excluding Personnel and visitors with communicable infections.
- (2) Limiting traffic in dietary and medication rooms.
- (3) Using aseptic and isolation techniques including hand washing techniques.
- (4) Bagging each resident's trash and refuse.

Permanent Final Adoptions

- (5) Issuing daily damp wipe cloths, treated dust cloths and clean wet mops, as needed.
 - (6) Laundering the used wet mops and cleaning cloths every day.
 - (7) Cleaning the equipment for resident use daily, and the proper disposal of infected materials.
 - (8) Providing properly identifiable plastic bags for the proper disposal of infected materials.
 - (9) **Tuberculosis risk assessment.** An annual facility tuberculosis risk assessment is to be performed by a licensed nurse or physician using a Department approved risk assessment tool.
- (d) When scheduled to be cleaned, the toilet areas, utility rooms, and work closets, shall be cleaned with a disinfectant solution and fresh air shall be introduced to deodorize.
- (e) **~~Tuberculin~~Test for tuberculosis and tuberculinskin test for residents.** Within thirty (30) days from admission, all residents admitted to the facility after the adoption of this rule shall receive a ~~two-step tuberculin skin test in conformance with the "guidelines for preventing the transmission of Mycobacterium tuberculosis in Health Care Settings;" Centers for Disease Control and Prevention Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in health care settings, 2005. MMWR 2005; 54 (No. RR-17)-test for tuberculosis.~~ All tests and examinations shall be in conformance with the "Tuberculosis Screening, Testing, and Treatment of U.S. Health Care Personnel: Recommendations from the National Tuberculosis Controllers Association and CDC, 2019" guidelines for preventing the transmissions of mycobacterium tuberculosis in healthcare settings as published by the Centers for Disease Control and Prevention.
- (1) ~~Tuberculin skin tests~~Tests for tuberculosis shall be administered by a licensed nurse or physician.
 - (2) Where a skin test is contra-indicated, a chest radiograph, interpreted by a medical consultant in collaboration with the city, county or state health department, is acceptable.
 - (3) Residents claiming a prior positive tuberculin skin test shall have documentation in their medical record, obtained from a licensed health care professional, of their test results and interpretation; otherwise, a two-step tuberculin skin test shall be done.

310:675-7-18.1. Personnel records

Each facility shall maintain a personnel record for each current employee containing:

- (1) **Application for employment.** An application for employment which contains employee's full name, social security number, professional license or registration number, if any, employment classification, and information about past employment, including: place of employment, position held, length of employment, and reason for leaving.
- (2) **Employee time records.** Copies of current employee time records, signed by the employee, shall be maintained by the facility for at least thirty-six (36) months.

- (3) **Training, arrest check, and certification.** Documentation of orientation and training (may be kept in separate file), continuing education, a copy of the criminal arrest check, and appropriate certification and licensure.
- (4) **Health examination on hire.** Record of health examination conducted within thirty days of employment which shall include, but not be limited to, a complete medical history, physical examination by body system and, a ~~two-step tuberculin skin test in conformance with the "Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in Health Care Settings;" Centers for Disease Control and Prevention. Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in Health Care Settings, 2005. MMWR 2005; 54(No. RR-17)-test for tuberculosis.~~ All tests and examinations shall be in conformance with the "Tuberculosis Screening, Testing, and Treatment of U.S. Health Care Personnel: Recommendations from the National Tuberculosis Controllers Association and CDC, 2019" guidelines for preventing the transmission of mycobacterium tuberculosis in healthcare settings as published by the Centers for Disease Control and Prevention.

(A) ~~Tuberculin skin tests~~Tests for tuberculosis shall be administered by a licensed nurse or physician.

(B) Where a skin test is contra-indicated, a chest radiograph, interpreted by a medical consultant in collaboration with the city, county or state health department, is acceptable.

(C) Employees claiming a prior positive tuberculin skin test shall have documentation in their file, obtained from a licensed health care professional, of their test results and interpretation, otherwise, a two-step tuberculin skin test shall be done.

- (5) **Tests for tuberculosis.** Results of subsequent ~~tuberculin tests for tuberculosis~~ performed based on facility TB risk classification established in OAC 310:675-7-17(c)(9) (relating to annual facility tuberculosis risk assessment) or results of a physician's examination for signs and symptoms of tuberculosis for those employees who react significantly to a tuberculin skin test. ~~All tests and examinations shall be in conformance with the "Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in Health Care Settings;" Centers for Disease Control and Prevention Guidelines for Preventing the Transmission of Mycobacterium tuberculosis in health care settings, 2005. MMWR 2005; 54 (No. RR-17)-All tests and examinations shall be in conformance with the "Tuberculosis Screening, Testing, and Treatment of U.S. Health Care Personnel: Recommendations from the National Tuberculosis Controllers Association and CDC, 2019" guidelines for preventing the transmissions of mycobacterium tuberculosis in healthcare settings as published by the Centers for Disease Control and Prevention.~~

SUBCHAPTER 9. RESIDENT CARE SERVICES

310:675-9-6.1. Restraints

(a) The resident has the right to be free from any physical or chemical restraints imposed for discipline or convenience. Restraints may be used in emergency situations, or for the purpose of treating a resident's medical condition. All physical restraints shall allow for quick release. Locked restraints shall not be used.

(b) In an emergency situation, physical restraints may be used only to ensure the physical safety of the resident, staff, or other residents. When restraints are used in an emergency, the facility shall comply with the following process:

(1) A licensed nurse may use physical restraints, without a physician's order, if necessary to prevent injury to the resident, or to other residents, when alternative measures are not effective. The licensed nurse shall document in the clinical record the application of the physical restraint and the alternative measures that were not effective. A licensed nurse shall contact the physician for physical restraint orders within six hours after application.

(2) The facility staff shall continually monitor the resident during the restraint period. An interdisciplinary team shall evaluate alternative placement if the resident requires physical restraints for longer than forty-eight consecutive hours.

(3) Circumstances requiring the physical restraints shall be re-evaluated every thirty minutes and documented in the clinical record.

(4) A resident who is physically restrained shall have the restraints released for at least ten minutes every two hours. Such residents shall also be repositioned, exercised and toileted as needed.

(c) In an emergency situation, chemical restraints may be used only to ensure the physical safety of the resident, staff, or other residents. When chemical restraints are used, the facility shall comply with the following process:

(1) The written order for the use of a chemical restraint shall be signed by a physician who specifies the duration and circumstances under which the chemical restraint is to be used.

(2) The physician's orders may be oral when an emergency necessitates parenteral administration of the chemical restraint but is valid only until a written order can be obtained within forty-eight hours.

(3) An emergency order for chemical restraints shall not be in effect for more than twelve hours and may be administered only if the resident is continually monitored for the first thirty minutes after administration and every fifteen minutes until such time as the resident appears stable to ensure that any adverse side effects are noticed and appropriate action taken as soon as possible. The clinical record shall accurately reflect monitoring.

(4) A licensed nurse shall document in the resident's clinical record any alternative measures that were not effective and precipitated the use of the chemical restraint.

(5) An interdisciplinary evaluation shall be made to consider alternative placement if the resident requires chemical restraints for longer than twelve continuous hours.

(d) When restraints are required for the resident's medical symptoms, the nursing staff shall ensure that physical and chemical restraints are administered only in accordance with the resident's care plan and under the following circumstances.

(1) When restraints are used to prevent falling, or for the purpose of positioning the resident, the resident and resident's representative shall be informed of the risk and benefits, and written consent shall be obtained.

(2) Restraints may be applied only on a physician's written order and shall identify the type and reason for the restraint. The physician shall also specify the period of time, and the circumstances under which the restraint may be applied.

(3) Alternative measures to the use of restraints shall be evaluated prior to their use. Circumstances requiring the restraints, and alternative measures, shall be re-evaluated and documented in the clinical record every thirty days.

(4) A restrained resident shall have the restraints released every two hours for at least ten minutes; and the resident shall be repositioned, exercised, or provided range of motion and toileted as necessary.

(e) Antipsychotic drug administration shall be consistent with 63 O.S. 1-881.

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-944, ext. 56535. AudreyT@health.ok.gov.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 13. STAFF REQUIREMENTS

310:675-13-14. Flexible Twenty-four-hour-based staff-scheduling and eligibility requirements

(a) **Implementing flexible twenty-four-hour-based staff scheduling.** Each facility seeking to implement the flexible staff scheduling provisions of 63:1-1925.2(B)(5) shall request in writing a determination from the Department that the facility is in compliance with the staffing requirements of 63:1-1925.2(B)(3). Nursing facilities subject to the Nursing Home Care Act and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs/IID) with seventeen or more beds may implement twenty-four-hour-based staff scheduling consistent with the requirements established by law at 63 O.S. 1-1925.2(B)(5).

(b) **Requirements for eligibility.** Loss of twenty-four-hour-based staffing privileges. Determination of flexible staff scheduling privileges shall be based on compliance with the requirements at 63:1-1925.2(B)(6) and review of the staffing hours reported to the Oklahoma Health Care Authority. Reports shall be submitted to the Oklahoma Health Care Authority either through electronic mail or three and one quarter inch diskette in an electronic format approved by that agency. The reviewed hours shall be for the previous three (3) calendar months from the date the request for determination is received. The Department shall require a facility to maintain the shift based staff-to-resident ratios provided in 63 O.S. 1-1925(B)(3), if the facility has been determined by the Department to meet the disqualifying criteria in 63 O.S. 1-1925.2(B)(6), relating to staffing levels, fraudulent Quality of Care reports, or findings of substandard quality of care as a result of insufficient staffing. For intermediate care facilities for individuals with intellectual disabilities, loss of eligibility shall include findings of non-compliance with the Condition of Participation at 42 CFR 483.430 (2011), Facility Staffing.

(c) **Determination of compliance.** Eligibility requirements following loss of twenty-four-hour-based staffing. A determination of compliance with the requirements at 63:1-1925.2(B)(6)(a)(2) (4) will be based on staffing reports and surveys for the three (3) months preceding the date the request for determination is received by the Department. For intermediate care facilities for individuals with intellectual disabilities loss of eligibility shall include findings of

non-compliance with the Condition of Participation at 42 CFR 483.430, Facility Staffing. Prior to a facility resuming eligibility for twenty-four-hour-based staffing privileges, the Department shall require that the facility maintain the shift-based, staff-to-resident ratios in 63 O.S. 1-1925.2(B)(3) for at least three (3) months and has corrected any deficiency described in (b) of this section.

(d) **Failure to meet the direct care service rate.** Right to Appeal. Facilities that have been granted flexible staff scheduling privileges and receive a determination they have not met the direct care service rate shall lose their flexible staff scheduling privileges until the facility re-establishes their eligibility under the requirements at 63:1-1925.2(B)(6)(b) and (c). Facilities shall have the right to appeal and to the informal dispute resolution process with regard to penalties and sanctions imposed due to staffing noncompliance. [63:1-1925.2(E)].

(e) **Loss of eligibility based on surveys or fraud.** Quality of Care Report Requirement. Facilities seeking to re-establish flexible staff scheduling privileges after a loss of eligibility under 63:1-1925.2(B)(7) shall be subject to the requirements at OAC 310:675-13-14(a), (b) and (c). For intermediate care facilities for the mentally retarded loss of eligibility shall include findings of non-compliance with the Condition of Participation at 42 CFR 483.430, Facility Staffing. Staffing hours reported to the Oklahoma Health Care Authority shall be submitted electronically through OHCA's Quality of Care (QOC) portal.

(f) **Minimum staff in flexible staffing.** Twenty-four-hour-based staffing in intermediate care facilities for individuals with intellectual disabilities (ICFs/IIDs) with sixteen or less beds. A facility failing to meet the flexible staff scheduling requirement at 63:1-1925.2(B)(5)(b) shall be ineligible for flexible staff scheduling privileges until the facility re-establishes their eligibility under the requirements at 63:1-1925.2(B)(6)(b) and (c). ICFs/IIDs with sixteen or less beds shall be authorized to use the twenty-four-hour-based staffing requirements specified in (c) and (d) of 42 CFR 483.430 (2011).

(g) **Notification requirements.** The Department shall notify the facility and Oklahoma Health Care Authority on all decisions of eligibility.

(h) **Re-establishing eligibility.** A facility seeking to re-establish eligibility shall submit a written request to the Department. A request to re-establish eligibility is subject to the requirements at OAC 310:675-13-14(b).

(i) **Shift-based ratios for noncompliant facilities.** This paragraph implements 63:1-1925.2(F)(4).

(1) When the provisions of 63:1-1925.2(F)(1) are in effect, pursuant to 63:1-1925.2(B)(7), the following minimum direct-care-staff-to-resident ratios for non-compliant facilities shall apply in addition to other state and federal requirements related to the staffing of nursing facilities:

(A) From 7:00 a.m. to 3:00 p.m., one direct-care staff to every five residents,

(B) From 3:00 p.m. to 11:00 p.m., one direct-care staff to every seven residents, and

(C) From 11:00 p.m. to 7:00 a.m., one direct-care staff to every thirteen residents.

(2) When the provisions of 63:1-1925.2(F)(2) are in effect, pursuant to 63:1-1925.2(B)(7), the following minimum direct-care-staff-to-resident ratios for non-compliant facilities shall apply in addition to other state and federal requirements related to the staffing of nursing facilities:

- (A) From 7:00 a.m. to 3:00 p.m., one direct-care staff to every five residents,
- (B) From 3:00 p.m. to 11:00 p.m., one direct-care staff to every six residents, and
- (C) From 11:00 p.m. to 7:00 a.m., one direct-care staff to every eleven residents.

(3) When the provisions of 63:1-1925.2(F)(3) are in effect, pursuant to 63:1-1925.2(B)(7), the following minimum direct-care-staff-to-resident ratios for non-compliant facilities shall apply in addition to other state and federal requirements related to the staffing of nursing facilities:

- (A) From 7:00 a.m. to 3:00 p.m., one direct-care staff to every four residents,
- (B) From 3:00 p.m. to 11:00 p.m., one direct-care staff to every six residents, and
- (C) From 11:00 p.m. to 7:00 a.m., one direct-care staff to every eleven residents.

INCORPORATIONS BY REFERENCE:

n/a

GIST/ANALYSIS:

This action proposes to amend numerous sections within this chapter. The current Rule uses the terms "Mental Retardation", "Mentally Retarded" and "Qualified Mental Retardation Professional". These terms are outdated and may be considered disrespectful. This proposal replaces the aforementioned terms with "Individuals with Intellectual Disabilities", "Individuals with Developmental Disabilities", or "Qualified Intellectual Disability Professional". Pursuant to Title 25 O.S. § 40, statutes and administrative rules should avoid language that equates persons with their condition and should replace nonrespectful language by referring to persons with disabilities as persons first. Further, national organizations such as the Americans with Disabilities Act National Network, American Association on Intellectual and Developmental Disabilities and Centers for Medicare and Medicaid encourage use of more respectful language that has gained wide acceptance in recent disability laws.

This action proposes to amend the classification of Developmentally Disabled Direct Care Aides to ICF/IID Care Aides. "ICF/IID" is defined to mean an Intermediate Care Facility for Individuals with Intellectual Disabilities.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

310:677-1-2. Definitions

The following words and terms, when used in this chapter, shall have the following meanings, unless the context clearly indicates otherwise. The singular includes the plural as necessary.

"Abuse" means *any intentional physical or mental injury or sexual assault on a resident of a facility; by any person.* [63 O.S. 1991 §1-1902].

"Certified medication aide" means a certified nurse aide who has passed a Department approved program for administering medications.

"Client" means an individual receiving services from a home care agency or employer.

"Clinical skills observer" means a registered nurse, qualified ~~mental retardation~~ intellectual disability professional,

Permanent Final Adoptions

licensed practical nurse, registered pharmacist or other qualified professional who has at least one (1) year experience and has successfully completed a Department approved clinical skills observer training program.

"Commissioner" or **"Commissioner of Health"** means the Oklahoma State Commissioner of Health, the chief executive officer of the Department.

"Deemed" means meeting specified requirements to qualify for other categories of nurse aide certification.

"Department" means the *State Department of Health*. [63 O.S. 1991, § 1-1902(7)].

"Direct supervision" means a licensed nurse or other qualified individual actually observes a trainee performing tasks.

"Educational based program" means a nurse aide training and competency examination program sponsored by a State approved educational entity including, but not limited to, vocational technical schools, schools of higher learning or State certified educational facilities.

"Employer" means any of the following entities: facilities, agencies or programs including, but not limited to, nursing facilities, specialized facilities, residential care homes, adult day care centers, assisted living centers, or a nurse registry or a home care agency.

"Employer based program" means a nurse aide training and competency examination program sponsored by, or offered in, a nursing facility, a residential care home, an adult day care center, a home care agency, or a specialized facility.

"Entity" means the provider of a Department-approved nurse aide training and competency evaluation program including but not limited to an employer based or an educational based program provider.

"Examination" means a competency examination that includes a written portion and/or a clinical skills portion.

"Health related services" means those services provided to patients, clients, or residents that include but are not limited to the following: personal hygiene, transferring, range of motion, supervision or assistance in activities of daily living, basic nursing care such as taking temperature, pulse or respiration, positioning, incontinent care, identification of signs and symptoms of disease, and behavior management.

"ICF/IID" means an Intermediate Care Facility for Individuals with Intellectual Disabilities.

"Inservice education" means activities intended to assist the nurse aide to acquire, maintain, and/or increase competence in fulfilling the assigned responsibilities specific to the employer's expectations.

"Instructor" means a qualified professional who teaches in an approved training program.

"Licensed health professional" means a physician, dentist, podiatrist, chiropractor, physician assistant, nurse practitioner, pharmacist, physical, speech, or occupational therapist, registered nurse, licensed practical nurse, licensed social worker or licensed registered dietitian.

"Licensed nurse" means a registered nurse or a licensed practical nurse that is currently licensed by the Oklahoma Board of Nursing.

"Misappropriation of property" means the taking, misapplication, deprivation, transfer, or attempted transfer to any person not entitled to receive any property, real or personal, or anything of value belonging to or under the legal control of a resident or client without the effective consent of the resident or client or other appropriate legal authority, or the taking of any action contrary to any duty imposed by federal or state law prescribing conduct relating to the custody or disposition of a resident's/client's property.

"Mistreatment" means a negligent act or personal wrong against a resident or client which causes the resident or client actual physical pain, discomfort or mental anguish. This type of personal wrong does not necessarily have to present external or visible signs of existence but does not include actions which are unavoidable.

"Neglect" means a failure to provide adequate medical or personal care or maintenance which results in physical or mental injury to a resident. [63 O.S. 1991, §1-1902.].

"Orientation" means the training for a particular job activity given to a new employee.

"Performance record" means a list of the major duties and skills to be learned in a nurse aide training program and the trainee's performance of each.

"Qualified professional" means an individual qualified to perform training and skills testing in an approved nurse aide training and competency program.

"Reciprocity" means the process that allows a certified nurse aide from another state to be listed in the Department's nurse aide registry.

"Reconsideration" means a process that allows an applicant to obtain reconsideration of an adverse decision on an application by submission of clarifying materials to the original decision-making body.

"Registry" means a Department maintained list of individuals who have successfully completed a nurse aide training and competency examination program or a competency examination program approved by the Department or who have been deemed or waived to meet the requirements.

"Specialized facility" means any home, establishment, or institution which offers or provides inpatient long-term care services on a twenty-four-hour basis to a limited category of persons requiring such services, including but not limited to a facility providing health or habilitation services for ~~mentally retarded or developmentally disabled persons~~ individuals with intellectual or developmental disabilities. [63:1-1902(11)]

"Supervised practical training" means training in a laboratory or other setting in which the trainee demonstrates knowledge while performing tasks on an individual.

"Trainee" means an individual who is enrolled in and has begun, but has not completed, a nurse aide training program.

"Trainer" means a qualified person who teaches in a nurse aide training and competency examination program.

"Training and competency examination program" means a program approved by the Department to teach and evaluate individuals to work as a nurse aide.

"Waiver" means a process that allows an individual with acceptable qualifications to be placed in the Department's registry without meeting other required qualifications.

310:677-1-3. Applicability

(a) This Chapter shall apply to specified employers, nurse aides, certified medication aides and other unlicensed employees providing health related services, and training and competency evaluation programs.

(b) An employer shall not use an individual as a nurse aide unless the employer has consulted the Oklahoma Nurse Aide Registry to determine whether the individual is listed on the nurse aide registry and whether the individual has no confirmed findings of abuse, neglect or misappropriation of patient/resident/client property.

(c) The Department shall grant an exception to the nurse aide training requirements in 310:677-9-4 for home health aides, 310:677-11-4 for long term care aides, 310:677-13-4 for certified medication aides, 310:677-15-3 for ~~developmentally disabled direct~~ ICF/IID care aides, 310:677-17-3 for residential care aides and 310:677-19-3 for adult day care aides, and allow an individual to sit for the competency examination if the individual submits all information specified on the Training Exception Application (ODH Form 832), which requires the following:

- (1) Individual's full name and personal identifying information;
- (2) Telephone number and address to include street, city, state, and zip code;
- (3) Copy of official transcript documenting classroom and clinical training equal to or greater than the classroom and clinical training as prescribed in 310:677-9-4, 310:677-11-4, 310:677-13-4, 310:677-15-3, 310:677-17-3 and 310:677-19-3; and
- (4) Type of nurse aide training to be excepted.

(d) The Department shall grant to a graduate of an approved practical or registered nurse program located in the United States a waiver to be placed on the nurse aide registry if the following criteria are met:

- (1) The individual submits all information specified on the Department's Nurse Aide Training and Competency Evaluation Program Waiver Application (ODH Form 844), which requires the following:
 - (A) Individual's full name and personal identifying information;
 - (B) Telephone number and address to include street, city, state, and zip code;
 - (C) Photocopy of diploma from an approved practical or registered nurse program;
 - (D) Type of nurse aide training and competency testing requesting to be waived; and
 - (E) Identification of all states, territories and districts of the United States and other countries where the individual has practiced or been licensed, certified or registered as a nurse; and
- (2) The individual does not have a denied, revoked or suspended license or certificate or an administrative penalty or disciplinary action imposed by the Oklahoma Board of Nursing or similar agency in another state, territory or district of the United States or in another country, to be evidenced by the individual's attestation.

(e) The Department shall allow a graduate of an approved practical or registered nurse program located outside the United States a training exception and shall be authorized to sit for a nurse aide competency examination if the following criteria are met:

- (1) The individual submits the Foreign Graduate Training Exception Application (ODH Form 843), which requires the following:
 - (A) Individual's full name;
 - (B) Telephone number and address to include street, city, state, and zip code;
 - (C) The location outside of the United States where the individual received their nursing education and licensing examination if applicable;
 - (D) The type of nurse aide training requesting to be excepted;
 - (E) Documentation verifying legal entry and resident status in the United States including but not limited to a photocopy of a Social Security Card, Visa, Green Card or naturalization papers; and
 - (F) A photocopy of a certified, translated diploma and transcript in English; and
- (2) The individual does not have a denied, revoked or suspended license or certificate or an administrative penalty or disciplinary action imposed by the Oklahoma Board of Nursing or similar agency in another state, territory or district of the United States, to be evidenced by the individual's attestation.

(f) An individual who has not completed an approved Oklahoma Nurse Aide Training program and is submitting an application to be included on the Oklahoma Nurse Aide Registry as a certified nurse aide shall submit the following nonrefundable fee with the required completed application:

- (1) Deeming Application, fifteen dollar (\$15.00) fee applicable to each of the following deeming applications except (A) of this paragraph;
 - (A) Home Health Aide ~~Deemed~~ deemed to Long Term Care Aide (ODH Form 755) with no fee required;
 - (B) Home Health Aide ~~Deemed~~ deemed to ~~Developmentally Disabled Direct~~ ICF/IID Care Aide (ODH Form 836);
 - (C) Home Health Aide ~~Deemed~~ deemed to residential Care Aide (ODH Form 837);
 - (D) Home Health Aide ~~Deemed~~ deemed to Adult Day Care Aide (ODH Form 838);
 - (E) Long Term Care Aide ~~Deemed~~ deemed to ~~Developmentally Disabled Direct~~ ICF/IID Care Aide (ODH Form 830);
 - (F) Long Term Care Aide ~~Deemed~~ deemed to ~~residential~~ Residential Care Aide, (ODH Form 831);
 - (G) Long Term Care Aide ~~Deemed~~ deemed to Adult Day Care Aide, (ODH Form 839);
 - (H) ~~Developmentally Disabled Direct~~ ICF/IID Care Aide ~~Deemed~~ deemed to Residential Care Aide (ODH Form 834); and

Permanent Final Adoptions

- (I) ~~Developmentally Disabled Direct ICF/IID Care Aide Deemed~~ Deemed to Adult Day Care Aide (ODH Form 835);
- (2) Home Health Aide Reciprocity Application (ODH Form 735), \$15.00 fee;
- (3) Training Exception Application (ODH Form 832), or Foreign Graduate Training Exception Application (ODH Form 843), \$15.00 fee; or
- (4) Nurse Aide Training and Competency Evaluation Program Waiver Application (ODH Form 844), \$15.00 fee.
- (5) The fees specified in (1) through (4) of this subsection apply to applications for home health aides, certified medication aides, ~~developmentally disabled direct ICF/IID~~ care aides, residential care aides, and adult day care aides. A fee shall not be charged on an application requesting certification as a long term care aide only.
- (g) An individual who has previously completed a Department approved Nurse Aide Training and Competency Evaluation Program and is unable to renew certification may obtain approval to take a retest by filing a Certified Nurse Aide Retest Application (ODH Form 841) if any of the following criteria are met:
- (1) The individual did not provide eight (8) hours of nursing or health related services for compensation during the twenty-four (24) months prior to expiration of the certification;
 - (2) The individual did not provide eight (8) hours of nursing or health related services for compensation up to twenty-four (24) months after expiration; or
 - (3) The individual's nurse aide certification has been expired for over two (2) years but less than three (3) years.
 - (4) A Certified Nurse Aide Retest Application (ODH Form 841) submitted by a home health aide, ~~developmentally disabled direct ICF/IID~~ care aide, residential care aide, or adult day care aide shall be accompanied by a fifteen dollar (\$15.00) nonrefundable fee.
 - (5) An individual who fails the approved retest shall be required to retrain before taking any subsequent retests.
- (h) An individual may request a duplicate or amended certification card by submitting a Duplicate or Amended Nurse Aide Card Application (ODH Form 738) with a nonrefundable ten dollar (\$10.00) fee. A fee shall not be charged on an application requesting a duplicate or amended long term care aide certification card.

SUBCHAPTER 3. NURSE AIDE TRAINING AND COMPETENCY EXAMINATION PROGRAM

310:677-3-4. Program requirements

- (a) Before the Department approves a nurse aide training and competency examination program or a competency examination program, the Department shall determine whether the nurse aide training and competency examination program or the competency examination program meets the minimum requirements.

- (b) The Department shall not approve, or shall withdraw approval, of an employer based program when the employer has been assessed the following penalties or actions by the Department:

- (1) License suspended or revoked or had a conditional license issued.
 - (2) An administrative money penalty of five thousand dollars (\$5,000) or more for deficiencies cited under state licensure.
 - (3) Closed or had its residents or clients transferred pursuant to the Department's action.
 - (4) Enforcement actions based on the Department's authority under Medicare and Medicaid certification programs, except for facilities certified as Intermediate Care Facilities for ~~the Mentally Retarded~~ Individuals with Intellectual Disabilities.
 - (5) For Intermediate Care Facilities for ~~the Mentally Retarded~~ Individuals with Intellectual Disabilities, repeated enforcement actions based on the Department's authority.
- (c) The Department may withdraw approval of a nurse aide training and competency examination program sponsored by an entity when the following occurs:
- (1) The entity has been determined by the Department to have a competency examination failure rate greater than fifty (50) per cent during a calendar year.
 - (2) The entity no longer meets, at a minimum, the following requirements to be a certified program:
 - (A) The training program falls below the required clock hours of training;
 - (B) The curriculum does not include at least the subjects specified under 310:677-9-4 Home Health Aides, 310:677-11-4 Long Term Care Aides, 310:677-13-4 Certified Medication Aides, 310:677-15-3 ~~Developmentally Disabled Direct ICF/IID~~ Care Aides, 310:677-17-3 Residential Care Aides, and or 310:677-19-3 Adult Day Care Aides;
 - (C) A minimum of 16 hours of specified training for Long Term Care Aides is not provided prior to direct contact with residents;
 - (D) At least sixteen (16) hours of supervised practical training under the direct supervision of a registered nurse or a licensed practical nurse. The sixteen (16) hours does not include the administration of the skills examination.
 - (3) The entity uses an uncertified individual as a nurse aide for longer than four months. To use an uncertified individual as a nurse aide for four months or less, an entity must have a temporary emergency waiver approved pursuant to 63 O.S. Section 1-1950.3.
 - (4) The onsite review determines the training program is out of compliance with the requirements of 63 O.S. Section 1-1950.1, 1-1950.3 or 1-1951, or OAC 310:677.
- (d) The Department shall withdraw approval of a nurse aide training and competency evaluation program if:
- (1) The entity refuses to permit the Department to make unannounced visits; or

- (2) The entity falsifies records of competency or training.
- (e) Withdrawal of approval shall be for a period of two (2) years or until the Department is assured through review that the entity complies with the requirements.
- (f) If the Department withdraws approval of a nurse aide training and competency examination program, the Department shall:
 - (1) Notify the entity in writing, indicating the reason for withdrawal of approval.
 - (2) Allow the trainees who have started a training and competency examination program to complete the program or allow the trainees who have started the program to transfer to another approved program.
- (g) A program entity may request reconsideration of the Department's decision in accordance to Chapter 2 of this Title and appealed according to the Administrative Procedures Act.
- (h) The entity shall notify the trainee in writing, that successful completion of the nurse aide training and competency examination program shall result in the individual being listed in the Department's nurse aide registry and shall retain a copy of such notice, signed by the trainee, in the trainee's file.
- (i) A trainee shall not perform any services for which the trainee has not been trained and found proficient by an instructor.

SUBCHAPTER 5. NURSE AIDE REGISTRY

310:677-5-2. Registry operation

- (a) The Department shall maintain overall operation of the registry.
- (b) Only the Department may place in the registry findings of abuse, neglect, mistreatment or misappropriation of property.
- (c) The nurse aide registry shall indicate which individuals:
 - (1) Successfully completed a nurse aide training and competency examination;
 - (2) Were given a training exception to bypass training requirements and sit for the competency examination;
 - (3) Had the nurse aide training and competency examination program requirements waived; or
 - (4) Were placed on the Oklahoma Nurse Aide Registry via reciprocity from another state.
- (d) A home health aide, long term care aide, ~~developmentally disabled direct~~ICF/IID care aide, residential care aide, and adult day care aide shall renew individual certification once every two (2) years. The individual certified as a home health aide, ~~developmentally disabled direct~~ICF/IID care aide, residential care aide, or adult day care aide shall file a Recertification Application (ODH Form 717). The individual certified as a long term care aide shall file a Recertification Application for Long Term Care Aide (ODH Form 840). Each recertification application requires:
 - (1) Personal identifying and contact information for the applicant;
 - (2) Documentation that the applicant has provided at least eight (8) hours of nursing or health related services for compensation during the preceding 24 months. On

and after July 1, 2008, the documentation shall consist of one of the following:

- (A) A statement signed by the administrator or the administrator's representative for the licensed nursing facility, specialized facility, residential care home, home health or home care agency, adult day care center, assisted living center, continuum of care facility, Oklahoma Department of Veterans Affairs nursing facility, or Oklahoma correctional facility where the applicant provided services;
- (B) A statement signed by a physician or nurse under whose supervision the applicant provided services; or
- (C) A check stub, IRS Form W-2 or similar proof of wages paid to the applicant by a licensed nursing facility, specialized facility, residential care home, home health or home care agency, adult day care center, assisted living center, continuum of care facility, Oklahoma Department of Veterans Affairs nursing facility, or Oklahoma correctional facility; and
- (3) An oath of truthfulness and completeness to be signed by the applicant.
- (e) A home health aide, ~~developmentally disabled direct~~ICF/IID care aide, residential care aide, or adult day care aide shall pay a ten dollar (\$10.00) fee for the processing and renewal of certifications and for replacement of a wallet card for change of name or other reason.

SUBCHAPTER 13. CERTIFIED MEDICATION AIDES

310:677-13-1. General requirements

- (a) An individual shall be able to read, write, and speak English and be certified in good standing as a home health aide, a long term care aide, or a ~~developmentally disabled direct~~ICF/IID care aide listed in the Department's Nurse Aide Registry, prior to admission to a State approved certified medication aide training program. The Department shall make available an attestation form that training programs may use for admission to certified medication aide training.
- (b) A certified medication aide shall complete at least eight (8) hours of continuing education every twelve (12) months, excluding the first year of certification, from a State approved program. A record of successful completion shall be kept in the certified medication aide's personnel file.
- (c) An employer shall not use as a certified medication aide any individual who does not comply with 63 O.S. Section 1-1950.3(E), OAC 310:677, and the employer's policies and procedures.
- (d) A certified medication aide shall renew certification every 12 months. Recertification requires the following:
 - (1) Documentation of completion of at least eight (8) hours of continuing education every twelve (12) months, excluding the first year after certification as a medication aide. Classroom and supervised practical training hours completed by a CMA in a Department-approved advanced

training program may count towards the eight required hours of continuing education;

(2) Current certification as a long term care aide, home health aide or ~~developmentally disabled direct~~ ICF/IID care aide. CMAs may also be certified in the other two (2) categories in addition to the required certification as a long term care aide, home health aide and ~~developmentally disabled direct~~ ICF/IID care aide; and

(3) Current listing in the nurse aide registry.

(e) The Department shall approve certified medication aide training programs that meet the requirements of OAC 310:677-13-3 through 13-5, and 310:677-13-9.

(f) The Department shall review, approve or disapprove a Certified Medication Aide Continuing Education Program application and notify the entity of its action within thirty (30) days of the request or receipt of additional information from the applicant.

(g) The following words or terms when used in this subchapter shall have the following meaning unless the context clearly indicates otherwise:

(1) "Stable diabetes" means diabetes associated with a blood glucose level consistently between 80 and 140 milligrams per deciliter (mg/dl) fasting and less than or equal to 180 mg/dl after a meal, and/or a Hemoglobin A1c (HbA1c) at or below 7.0 within the last three months.

(2) "Unstable diabetes" means:

(A) A non-acutely ill person with blood glucose levels more than three times over a six week period that are under 80 mg/dl or more than 140 mg/dl fasting, or more than 180 mg/dl two hours after a meal;

(B) A person with diabetes who has prescriptions for both insulin and glucagon;

(C) A person with Type I diabetes who experiences hypoglycemia unawareness;

(D) A person who is newly diagnosed with diabetes and for whom insulin is prescribed; or

(E) A person who has been previously diagnosed with diabetes and now requires insulin administration for management. They may be considered stable again when their glucose is maintained in the stable range specified in subsection (g)(1) of this section, which may include maintaining an HbA1c at or below 7.0.

(3) "Newly diagnosed" means a person who now has a diagnosis of either Type I or Type II diabetes, has a new prescription for insulin, has not been diagnosed with diabetes in the past and who does not have stable diabetes.

SUBCHAPTER 15. ~~DEVELOPMENTALLY DISABLED DIRECT~~ ICF/IID CARE AIDES

310:677-15-1. Deemed to meet state certification requirements

(a) A certified ~~developmentally disabled~~ ICF/IID care aide is deemed to meet the nurse aide certification requirements for the following employers after successful completion of at least sixteen (16) hours of orientation specific to the facility

population. Documentation of the sixteen (16) hours of orientation shall be submitted to the Department and the certified ~~developmentally disabled~~ ICF/IID care aide will be placed on the registry as a certified residential care aide or a certified adult day care aide. The employers to which this subsection applies are:

(1) Residential care.

(2) Adult day care.

(b) The Department shall deem a certified long term care aide or a home care aide who has at least sixteen (16) hours of training specific to ~~the developmentally disabled client population~~ individuals with intellectual or developmental disabilities to meet the requirements for a ~~developmentally disabled direct~~ ICF/IID care aide. Documentation of the sixteen (16) hours of training shall be submitted to the Department and the certified long term care nurse aide or the certified home care nurse aide will be added to the registry as being certified as a ~~developmentally disabled direct~~ ICF/IID care aide.

310:677-15-2. Instructor qualifications

(a) The instructor for training ~~developmentally disabled direct~~ ICF/IID care aides shall be a licensed nurse or a qualified ~~mental retardation~~ intellectual disability professional who has at least one (1) year experience in the provision of services in a facility for the developmentally disabled.

(b) Other personnel from the health professions may supplement the instructor as required by the curriculum.

310:677-15-3. Curriculum

(a) The ~~developmentally disabled direct~~ ICF/IID care aide training program shall include at least seventy-five (75) hours of classroom and supervised practical training or the equivalent.

(b) The ~~developmentally disabled direct~~ ICF/IID care aide training program shall include, but is not limited to, each of the following subject areas:

(1) Ethical conduct.

(2) Resident's rights.

(3) Principles of safety.

(4) Infection control techniques.

(5) Nutrition and hydration.

(6) Elements and changes of body functions.

(7) Basic nursing skills.

(8) Communication skills.

(9) Mobility.

(10) Hygiene, personal care, and comfort.

(11) Terminology, principles, and concepts of cognitive impairment.

(A) Characteristics of cognitive impairment.

(B) Discern between different levels of ~~mental retardation~~ intellectual disability.

(C) Principles of assessment tools.

(D) Terminology of active treatment.

(12) Psychosocial needs.

(A) Behavioral management techniques.

(B) Identification of psychosocial needs.

(C) Death and dying.

- (D) Recognizing deviant behavior.
- (E) Socialization skills.
- (13) Independent living skills.
 - (A) Promoting physical and mental independence.
 - (B) Promoting principles of normalization and community integration.
- (14) Active treatment components.
 - (A) Interdisciplinary team concepts and roles.
 - (B) Components of individual program plans.
 - (C) Using individual program plans.
 - (D) Proper documentation techniques.

310:677-15-4. Competency and skills examination

- (a) The written or oral examination shall be administered by a Department approved program. The skills examination shall be performed in a facility or laboratory setting comparable to the setting in which the individual will function as a ~~developmentally disabled direct~~ ICF/IID care aide.
- (b) The clinical skills observer shall be a licensed nurse or a qualified ~~mental retardation~~ intellectual disability professional.

310:677-15-5. Recertification

- (a) The training program shall inform the certified ~~developmentally disabled direct~~ ICF/IID care aide that they shall complete a new nurse aide training and competency examination or competency examination if, upon applying for renewal of certification, the nurse aide has not provided at least eight (8) hours of nursing or health related services for compensation during the previous twenty-four (24) months.
- (b) The ~~specialized facility~~ ICF/IID shall ensure that all certifications are current and not expired.

SUBCHAPTER 17. RESIDENTIAL CARE AIDES

310:677-17-1. Deemed to meet state certification requirements

- (a) The Department shall deem a certified residential care aide to meet the adult day care program aides certification requirements after successful completion of at least sixteen (16) hours of training specific to the facility population.
- (b) The Department shall deem a certified long term care aide, a certified home care aide or a certified ~~developmentally disabled direct~~ ICF/IID care aide who has at least sixteen (16) hours of training specific to the residential care population to meet the requirements for a certified residential care aide. Documentation of the sixteen (16) hours of training shall be submitted to the Department and the certified nurse aide will be listed on the registry as a certified residential care aide.

SUBCHAPTER 19. ADULT DAY CARE PROGRAM AIDES

310:677-19-1. Deemed to meet state certification requirements

- (a) The Department shall deem a certified adult day care program aide to meet the nurse aide certification requirements for a residential care employer after successful completion of at least sixteen (16) hours of training specific to the facility population. Documentation of the sixteen (16) hours shall be submitted to the Department and the certified adult day care aide will be placed on the registry as a certified residential care aide.
- (b) The Department shall deem a certified long term care aide, a certified home care aide or a certified ~~developmentally disabled direct~~ ICF/IID care aide who has at least sixteen (16) hours of training specific to the adult day care population to meet the requirements for certification as an adult day care aide. Documentation of the sixteen (16) hours of training shall be submitted to the Department and the certified long term care aide, certified home care aide or certified ~~developmentally disabled direct~~ ICF/IID care aide shall be certified as a certified adult day care aide.

GIST/ANALYSIS:

The Title of Chapter 681 is changed to Medical Marijuana Regulations. The proposed new and amended rules contain emergency rules that the Oklahoma State Department of Health proposes to adopt as permanent rules. The proposed rulemaking would make permanent the 2019 emergency rules at OAC 310:681 which the Department adopted to fulfill requirements and to provide procedures and processes necessary to implement legislative changes mandated by SB162, HB2612, HB2601, SB882, HB2613, SB 532, and SB1030, as codified under 63 O.S. §§ 420 *et seq.*, 63 O.S. §§ 427.1 *et seq.*, 63 O.S. §§ 427a *et seq.* Patient license changes include the removal of board certification as a requirement for physicians recommending medical marijuana, as well as the addition of physicians licensed by the Board of Podiatric Medical Examiners as physicians that can provide recommendations. The requirement that patients smile with their mouth closed in their picture has been removed. The processing time for patient licenses changed from 14 calendar days to 14 business days, and a reduced application fee for 100% disabled veterans has been established. Medical marijuana business changes that are addressed in the proposed permanent rules include adding a definition for business licensee to be consistent with 63 O.S. §427.14, the increased application processing timeline, renewal application process, new residency documentation requirements, and approved waste disposal method to destroy root balls, stems, fan leaves, and seeds. Additionally, medical marijuana businesses will need to provide a certificate of compliance with zoning classifications, municipal ordinances, and all applicable safety, electrical, fire, plumbing, waste, construction, and building specification codes. The definition of school is modified to now include preschools for the purposes of the 1,000 feet requirement for dispensaries. The proposed rules establish new business compliance components that include the authority for certain business types to sell to other business types, the requirement

to participate in a seed-to-sale inventory tracking system, to test harvest and product batches, and to comply with new packaging and labeling requirements. The proposed permanent rules address several new license categories: transporter, transporter agent, short-term patient, research facility, education facility, testing laboratory, and waste disposal facility (including waste disposal permits). The rule proposals include provisions for testing laboratory operating requirements and sampling requirements. It also modifies testing requirements and testing thresholds and provides provisions regarding remediation of medical marijuana and medical marijuana products. The proposed rules also include provisions related to a quality assurance laboratory for oversight of licensed testing laboratories and inventory management for current and new license.

Audrey C. Talley, Agency Rules Liaison, Oklahoma State Department of Health, 1000 N.E. 10th Street, Oklahoma City, OK 73117-1299, 405-271-9444, ext. 56535. AudreyT@health.ok.gov.

DUE TO EXCESSIVE LENGTH OF THESE RULES (AS DEFINED IN OAC 655:10-7-12), THE FULL TEXT OF THESE RULES WILL NOT BE PUBLISHED. THE RULES ARE AVAILABLE FOR PUBLIC INSPECTION AT THE OKLAHOMA STATE DEPARTMENT OF HEALTH, 1000 NORTHEAST TENTH STREET, OKLAHOMA CITY, OKLAHOMA 73117-1207 AND AT THE SECRETARY OF STATE'S OFFICE OF ADMINISTRATIVE RULES. THE FOLLOWING SUMMARY HAS BEEN PREPARED PURSUANT TO 75 O.S., SECTION 255(B).:

The proposed new and amended rules contain emergency rules that the Oklahoma State Department of Health proposes to adopt as permanent rules. The proposed rulemaking would make permanent the 2019 emergency rules at OAC 310:681 which the Department adopted to fulfill requirements and to provide procedures and processes necessary to implement legislative changes mandated by SB162, HB2612, HB2601, SB882, HB2613, SB 532, and SB1030, as codified under 63 O.S. §§ 420 *et seq.*, 63 O.S. §§ 427.1 *et seq.*, 63 O.S. §§ 427a *et seq.* Patient license changes include the removal of board certification as a requirement for physicians recommending medical marijuana, as well as the addition of physicians licensed by the Board of Podiatric Medical Examiners as physicians that can provide recommendations. The requirement that patients smile with their mouth closed in their picture has been removed. The processing time for patient licenses changed from 14 calendar days to 14 business days, and a reduced application fee for 100% disabled veterans has been established. Medical marijuana business changes that are addressed in the proposed permanent rules include adding a definition for business licensee to be consistent with 63 O.S. §427.14, the increased application processing timeline, renewal application process, new residency documentation requirements, and approved waste disposal method to destroy root balls, stems, fan leaves, and seeds. Additionally, medical marijuana businesses will need to provide a certificate of compliance with zoning classifications, municipal ordinances, and all applicable safety, electrical, fire, plumbing, waste, construction, and building specification codes. The definition of school is modified to now include preschools for the purposes of the 1,000 feet requirement for dispensaries. The proposed rules establish new business compliance components that include the authority for certain business types to sell to other business types, the requirement to participate in a seed-to-sale inventory tracking system, to test harvest and product batches, and to comply with new packaging and labeling requirements. The proposed permanent rules address several new license categories: transporter, transporter agent, short-term patient, research facility, education facility, testing laboratory, and waste disposal facility (including waste disposal permits). The rule proposals include provisions for testing laboratory operating requirements and sampling requirements. It also modifies testing requirements and testing thresholds and provides provisions regarding remediation of medical marijuana and medical marijuana products. The proposed rules also include provisions related to a quality assurance laboratory for oversight of licensed testing laboratories and inventory management for current and new license. The name of the rules is changed to "Medical Marijuana Regulations". The full text of the rule may be obtained from the "Contact Person" at the Oklahoma State Department of Health.

GIST/ANALYSIS:

The proposed revisions will comply with Oklahoma Senate Bill (SB) 456, which directed the reorganization of the OHCA Board. The seven-member Board was replaced with a nine-member Board. Further revisions establish that the chair and vice-chair elections are held at the last regular meeting before January 1 of each year. Other revisions are needed to correct outdated language.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 1. ORGANIZATION AND ADMINISTRATION

317:1-1-4. Organization and meetings

(a) The Authority Board consists of ~~seven (7)~~nine (9) members. Section 5007 of Title 63 of the Oklahoma Statutes (O.S.) provides for their appointment and service.

(b) A chair and a ~~Vice Chair~~vice-chair shall be elected by a majority of the members of the Board. The terms of office of the ~~Chair and Vice Chair~~chair and vice-chair shall be one (1) year beginning July/January 1 of each year. A member elected to serve as ~~Chair or Vice Chair~~chair or vice-chair may be elected to serve more than one (1) term. Elections will be held at the last regular meeting before July/January 1. However, in the event the last regular meeting before July/January 1 shall be canceled for any reason, the election may be held at a specially-scheduled meeting or, if it is not possible to schedule a special meeting, at the next ~~regularly scheduled~~regularly-scheduled meeting. In the event an election ~~can~~cannot be conducted prior to July/January 1 of any year, the ~~Chair and Vice Chair~~chair and vice-chair who are in office ~~June 30~~December 31 shall continue their terms until an election is held.

(c) The chair will preside over meetings and perform other duties as required by the Authority ~~{65:5008(A)}~~.

(d) A majority of the members of the Board shall constitute a quorum for the transaction of business and for taking any official action. Any action or decision of the Board requires an affirmative vote of at least a majority of the members present ~~{63:5007(D)}~~[63 O.S. § 5007(D)].

(e) All meetings of the Authority Board will be conducted in accordance with the Open Meetings Meeting Act, ~~Sections 301 through 314 of Title 25 of the Oklahoma Statutes~~25 O.S. §§ 301 - 314.

317:1-1-6. ~~Cancellation~~Emergency cancellation of meetings

The ~~Chairman~~chair, or the vice-chair in the chair's absence, shall have the power to cancel or reschedule any regular or special meeting of the Authority due to anticipated lack of quorum, inclement weather, or other emergency. Notice ~~of cancellation of said meeting~~thereof shall be ~~posted~~filed with the Secretary of State and publicly posted as soon as reasonably possible ~~and in the same manner as the agenda~~.

317:1-1-7. Minutes of the Authority

A summary shall be made of all proceedings before the Authority which shall show those members present and absent, all matters considered, all actions taken, and the vote of each member on any motion, and shall be made public, ~~as prescribed in OAC 317:1-1-10(e)~~on the Authority's website.

GIST/ANALYSIS:

The proposed revisions will comply with Oklahoma Senate Bill (SB) 509, which was signed into law on April 16, 2019. SB 509 directed the OHCA to revise current step therapy protocols for medications approved by the Drug Utilization Review (DUR) Board and provide for exceptions to the drug step therapy protocol. The exception applies to cases when: the required prescribed drug will likely cause an adverse reaction or harm; the prescription drug will likely be ineffective; the patient has already tried the prescription drug and discontinued use; the prescription drug is not in the best interest of the patient; or the patient is stable on another prescription drug. Finally, revisions will establish an appeals process for step therapy exception requests that have been denied. Other revisions are needed to correct outdated language.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,**

**SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

317:2-1-2. Appeals

(a) Request for ~~Appeal~~appeals.

(1) For the purpose of calculating the timeframe for requesting an administrative appeal of an agency action, the date on the written notice shall not be included. The last day of the ~~thirty day~~ (30 day) timeframe shall be included, unless it is a legal holiday as defined by Title 25 of the Oklahoma Statutes (O.S.) § Section (§) 82.1, or any other day the Oklahoma Health Care Authority (OHCA) is closed or closes early, in which case, the timeframe runs until the close of the next full business day.

(2) An appeals request that an aggrieved member or provider sends via mail is deemed filed on the date that the agency receives it.

(b) ~~Member Process Overview~~process overview.

(1) The appeals process allows a member to appeal a decision relating to program benefits. Examples are decisions involving medical services, prior authorizations for medical services, or discrimination complaints.

(2) In order to initiate an appeal, the member must file a LD-1 (Member Complaint/Grievance Form) within thirty (30) calendar days of the date the OHCA sends written notice of its action, in accordance with Oklahoma Administrative Code (OAC) 317:2-1-2(a), above, or, in matters in which a formal notice is not sent by the agency, within thirty (30) days of the date on which the member knew or should have known the facts or circumstances serving as the basis for appeal.

(3) If the LD-1 form is not received timely, the ~~Administrative Law Judge~~administrative law judge (ALJ) will cause to be issued a letter stating the appeal will not be heard. In the case of tax warrant intercept appeals, if the LD-1 form is not received by OHCA within the timeframe pursuant to 68 O.S. § 205.2, OHCA similarly will cause to be issued a letter stating the appeal will not be heard because it is untimely.

(4) If the LD-1 form is not completely filled out or if necessary documentation is not included, then the appeal will not be heard.

(5) OHCA will advise members that if assistance is needed in reading or completing the grievance form, arrangements will be made to provide such assistance.

(6) Upon receipt of the member's appeal, a fair hearing before the ALJ will be scheduled. The member will be notified in writing of the date and time of the hearing. The member must appear at the hearing, either in person or telephonically. Requests for a telephone hearing must be received in writing on OHCA's LD-4 (Request for Telephonic Hearing) form no later than ten (10) calendar days prior to the scheduled hearing date. Telephonic hearing requests will only be granted by the OHCA's ~~Chief Executive Officer~~chief executive officer (CEO) or his/her designee, at his/her sole discretion, for good cause shown, including, for example, the member's physical condition, travel distances, or other limitations that either preclude

Permanent Final Adoptions

an in-person appearance or would impose a substantial hardship on the member.

(7) The hearing shall be conducted according to OAC 317:2-1-5. The ALJ's decision may be appealed to the CEO of the OHCA, which is a record review at which the parties do not appear (OAC 317:2-1-13).

(8) Member appeals are ordinarily decided within ninety (90) days from the date on which the member's timely request for a fair hearing is received, ~~unless, in accordance with Section 431.244(f) of Title 42 of the Code of Federal Regulations:~~

(A) ~~The Appellant~~appellant was granted an expedited appeal pursuant to OAC 317:2-1-2.5;

(B) ~~The~~ OHCA cannot reach a decision because the ~~Appellant~~appellant requests a delay or fails to take a required action, as reflected in the record; ~~or~~

(C) There is an administrative or other emergency beyond OHCA's control, as reflected in the record; ~~or~~

(D) The appellant filed a request for an appeal of a denied step therapy exception request, pursuant to OAC 317:2-1-18.

(9) Tax warrant intercept appeals will be heard directly by the ALJ. A decision is normally rendered by the ALJ within twenty (20) days of the hearing before the ALJ.

(c) **~~Provider Process Overview~~process overview.**

(1) The proceedings as described in this subsection contain the hearing process for those appeals filed by providers. These appeals encompass all subject matter cases contained in OAC 317:2-1-2(d)(2).

(2) All provider appeals are initially heard by the OHCA ALJ under OAC 317:2-1-2(d)(2).

(A) In order to initiate an appeal, a provider must file the appropriate LD form within thirty (30) calendar days of the date the OHCA sends written notice of its action, in accordance with OAC 317:2-1-2(a), above. LD-2 forms should be used for Program Integrity audit appeals; LD-3 forms are to be used for all other provider appeals.

(B) Except for OHCA Program Integrity audit appeals, if the appropriate LD form is not received timely, the ALJ will cause a letter to be issued stating that the appeal will not be heard.

(C) A decision ordinarily will be issued by the ALJ within forty-five (45) days of the close of all evidence in the appeal.

(D) Unless otherwise limited by OAC 317:2-1-7 or 317:2-1-13, the ALJ's decision is appealable to OHCA's CEO.

(d) **ALJ jurisdiction.** The ALJ has jurisdiction of the following matters:

(1) **~~Member Appeals~~appeals.**

(A) Discrimination complaints regarding the SoonerCare program;

(B) Appeals which relate to the scope of services, covered services, complaints regarding service or care, enrollment, disenrollment, and reenrollment in the SoonerCare Program;

(C) ~~Fee for Service~~Fee-for-service appeals regarding the furnishing of services, including prior authorizations;

(D) Appeals which relate to the tax warrant intercept system through the OHCA. Tax warrant intercept appeals will be heard directly by the ALJ. A decision will be rendered by the ALJ within twenty (20) days of the hearing;

(E) Proposed administrative sanction appeals pursuant to OAC 317:35-13-7. Proposed administrative sanction appeals will be heard directly by the ALJ. A decision by the ALJ will ordinarily be rendered within twenty (20) days of the hearing before the ALJ. This is the final and only appeals process for proposed administrative sanctions;

(F) Appeals which relate to eligibility determinations made by OHCA; ~~and~~

(G) Appeals of insureds participating in Insure Oklahoma which are authorized by OAC 317:45-9-8; ~~and~~

(H) Appeals which relate to a requested step therapy protocol exception as provided by 63 O.S. § 7310.

(2) **~~Provider Appeals~~appeals.**

(A) Whether Pre-admission Screening and Resident Review (PASRR) was completed as required by law;

(B) Denial of request to disenroll member from provider's SoonerCare Choice panel;

(C) Appeals by ~~Long Term Care~~long-term care facilities for administrative penalty determinations as a result of findings made under OAC 317:30-5-131.2(b)(5)(B) and (d)(8);

(D) Appeals of Professional Service Contract awards and other matters related to the Central Purchasing Act pursuant to Title 74 O.S. § 85.1 et seq.;

(E) Drug rebate appeals;

(F) Provider appeals of OHCA Program Integrity audit findings pursuant to OAC 317:2-1-7. This is the final and only appeals process for appeals of OHCA Program Integrity audit findings;

(G) Oklahoma Electronic Health Records Incentive program appeals related only to incentive payments, incentive payment amounts, provider eligibility determinations, and demonstration of adopting, implementing, upgrading, and meaningful use eligibility for incentives;

(H) Supplemental Hospital Offset Payment Program (SHOPP) annual assessment, ~~Supplemental Payments~~supplemental payment, fees or penalties as specifically provided in OAC 317:2-1-15; ~~and~~

(I) The Nursing Facility Supplemental Payment Program (NFSPP) and its issues consisting of the amount of each component of the ~~Intergovernmental~~intergovernmental transfer, the Upper Payment Limit payment, the Upper Payment Limit gap, and the penalties specifically provided in OAC 317:30-5-136. This is the final and only process for appeals regarding NFSPP; ~~and~~

(J) Appeals from any adjustment made to a long-term care facility's cost report pursuant to OAC 317:30-5-132, including any appeal following a request for reconsideration made pursuant to OAC 317:30-5-132.1.

317:2-1-6. Other grievance procedures and processes [REVOKED]

~~Other grievance procedures and processes include those set out in Oklahoma Administrative Code (OAC) 317:2-1-7 (Program Integrity Audit Appeals); OAC 317:2-1-9 (OHCA's Designated Agent's Appeal Process for QIO Services); OAC 317:2-1-10 (Drug Rebate Appeal Process); OAC 317:2-1-11 (Medicaid Drug Utilization Review Board (DUR) Appeal Process); OAC 317:2-1-12 (For Cause and Immediate Provider Contract Termination Appeals Process); OAC 317:2-1-14 (Contract Award Protest Process); and OAC 317:2-1-15 (Supplemental Hospital Offset Payment Program (SHOPP) Appeals).~~

317:2-1-13. Appeal to the Chief Executive Officer/Chief executive officer

(a) The Oklahoma Health Care Authority offers approximately forty (40) different types of administrative appeals. Some of the appeals are appealable to the ~~Chief Executive Officer~~ chief executive officer (CEO) and some are not. The following appeals may be heard by the CEO following the decision of an ~~Administrative Law Judge~~ administrative law judge:

- (1) Appeals under Oklahoma Administrative Code (OAC) 317:2-1-2(d)(1)(A) to (d)(1)(~~G~~)(H), with the exception of subsection (d)(1)(E);
- (2) Appeals under OAC 317:2-1-2(d)(2)(A) to (d)(2)(I), with the exceptions of subsections (d)(2)(F) and (G); and
- (3) Appeals under 317:2-1-10.

- (b) Appeals to the CEO must be filed with the OHCA within thirty (30) days of the date of the Order, or decision by OHCA.
- (c) No new evidence may be presented to the CEO.
- (d) Appeals to the CEO under (a) of this Section may be filed by the provider, member, or agency. The CEO will ordinarily render decisions within sixty (60) days of the receipt of the appeal.

317:2-1-18. Step therapy protocol exception appeals

This rule describes a member's rights to administratively appeal the denial of a requested exception to a step therapy protocol, in accordance with Title 63 of the Oklahoma Statutes (O.S.) § 7310 and Oklahoma Administrative Code (OAC) 317:30-5-77.4.

- (1) Appeals will be heard by the Oklahoma Health Care Authority (OHCA) administrative law judge (ALJ).
- (2) Appeals must be filed by the member within thirty (30) days of the date of the denial of a requested exception. Appeals must be filed electronically using a form LD-5 and must set forth the basis for the appeal. The form

LD-5 shall be made available on the OHCA's public web-site. If the LD-5 is not completely filled out or if necessary documentation is not included, the appeal will not be considered.

(3) Appeals shall be heard at a time and place and in a manner as may be decided by the ALJ. Hearings may be conducted telephonically.

(4) The docket clerk will send the member or his/her authorized representative an electronic notice setting forth the location, date, and time of the hearing.

(5) A member can waive the right to an evidentiary hearing and permit the ALJ to consider and rule on the appeal based upon the parties' submissions.

(6) The member shall have the burden of proof by the preponderance of the evidence standard as defined by the Oklahoma Supreme Court.

(7) Absent exigent circumstances, as defined in OAC 317:30-5-77.4(a), the ALJ shall respond to any request for appeal within seventy-two (72) hours of receipt of the request. In the case of exigent circumstances, the ALJ shall respond within twenty-four (24) hours of receipt. Provided, however, that if the timeframe for response ends on a weekend, or on any other day the OHCA is closed or closes early, including, but not limited to, legal holidays as defined by 25 O.S. § 82.1, the timeframe for response shall run until the close of the next full business day. An appeal request that is not responded to within this timeframe shall be deemed granted.

(8) All orders shall be considered non-precedential decisions.

(9) The hearing shall be digitally recorded.

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

317:2-1-16. Nursing Facility Supplemental Payment Program appeals [REVOKED]

~~In accordance with Oklahoma Administrative Code (OAC) 317:30-5-136, the Oklahoma Health Care Authority (OHCA) is authorized to promulgate rules for appeals of the Nursing Facility Supplemental Payment Program (NFSPP). The rules in this section describe those appeal rights.~~

~~(1) The following are appealable issues of the program: the assessed amount for each component of the intergovernmental transfer (IGT), the Upper Payment Limit (UPL) payment, the UPL Gap payment, and penalties for the non-state government owned entity (NSGO). This is the final and only process for appeals regarding NFSPP. Suspensions or terminations from the program are not appealable in the administrative process.~~

~~(2) Appeals are heard by the OHCA Administrative Law Judge (ALJ).~~

~~(3) To file an appeal, the NSGO (appellant is the NSGO who files an appeal) shall file an LD-2 form within thirty (30) days from the date of the OHCA letter which advises the NSGO of component of IGT, UPL payment, UPL Gap payment and/or a penalty. An IGT that is not received by the date specified by OHCA, or that is not in the total amount indicated on the notice of program reimbursement (NPR) shall be subject to penalty and suspension from the program. Any applicable penalties shall also be deducted from the UPL payment regardless of any appeal action requested by the facility. Any change in the payment amount resulting from an appeals decision in which a recoupment or additional allocation is necessary will be adjusted in the future from any SoonerCare payments.~~

~~(4) The LD-2 shall only be filed by the NSGO or the NSGO's attorney in accordance with (5) below.~~

~~(5) Consistent with Oklahoma rules of practice, the non-state government owned (NSGO) entity shall be represented by an attorney licensed to practice within the~~

~~State of Oklahoma. Attorneys not licensed to practice in Oklahoma shall comply with Article II, Section 5 of Title 5 of the Oklahoma Statutes (O.S.), and rules of the Oklahoma Bar Association.~~

~~(6) The hearing will be conducted in an informal manner, without formal rules of evidence or procedure. However, parties who fail to appear at a hearing, after notification of said hearing date, will have their cases dismissed for failure to prosecute.~~

~~(7) The appellant has the burden of proof by the preponderance of the evidence standard as defined by the Oklahoma Supreme Court.~~

~~(8) The docket clerk will send the appellant and any other necessary party a notice which states the hearing location, date, and time.~~

~~(9) The ALJ may:~~

~~(A) Identify and rule on issues being appealed which will be determined at the administrative hearing;~~

~~(B) Require the parties to state their positions concerning appeal issue(s);~~

~~(C) Require the parties to produce for examination those relevant witnesses and documents under their control;~~

~~(D) Rule on whether witnesses have knowledge of the facts at issue;~~

~~(E) Establish time limits for the submission of motions or memoranda;~~

~~(F) Rule on relevant motions, requests, and other procedural items; limiting all decisions to procedure matters and issues directly related to the contested determination resulting from OAC 317:30-5-136;~~

~~(G) Rule on whether discovery requests are relevant;~~

~~(H) Strike or deny witnesses, documents, exhibits, discovery requests, and other requests or motions which are cumulative, not relevant, not material, or used as a means of harassment, unduly burdensome, or not timely filed;~~

~~(I) Schedule pre-hearing conferences to settle, simplify, or identify issues in a proceeding or to consider other matters that may end the appeal;~~

~~(J) Impose appropriate sanctions against any party failing to obey an order of the ALJ;~~

~~(K) Rule on any requests for extension of time;~~

~~(L) Dismiss an issue or appeal if:~~

~~(i) it is not timely filed or is not within the OHCA's jurisdiction or authority;~~

~~(ii) it is moot or there is insufficient evidence to support the allegations;~~

~~(iii) the appellant fails or refuses to appear for a scheduled meeting, conference or hearing; or~~

~~(iv) the appellant refuses to accept a settlement offer which affords the relief the party could reasonably expect if the party prevailed in the appeal;~~

~~(M) Set and/or limit the time frame for the hearing.~~

~~(10) After the hearing:~~

(A) The ALJ should attempt to make the final hearing decision within ninety (90) days from the date of the hearing and send a copy of the ALJ's decision to both parties outlining their rights to appeal the decision. Any appeal of the final order pursuant to 12 O.S. § 951 shall be filed with the District Court of Oklahoma County within thirty (30) days.

(B) It shall be the duty of the appellant in any District Court appeal to order a written transcript of proceedings to be used on appeal. The transcript must be ordered within thirty (30) days of the filing of an appeal in the District Court and any costs associated with the preparation of the transcript shall be borne by the appellant.

(11) All orders and settlements are non-precedential decisions.

(12) The hearing shall be digitally recorded and closed to the public.

(13) The case file and any audio recordings shall remain confidential.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

317:2-1-17. Long-term care facility cost report appeals

This rule describes a long-term facility's rights to administratively appeal any cost adjustment(s) made by the Oklahoma Health Care Authority (OHCA) to the facility's annual cost report, in accordance with the Oklahoma Administrative Code (OAC) 317:30-5-132, or any cost report reconsideration, in accordance with OAC 317:30-5-132.1.

(1) The following are appealable issues of the program:

(A) Any disputed adjustment(s) that are made by the OHCA to the facility's annual cost report, in accordance with OAC 317:30-5-132(5); or

(B) Any disputed cost report adjustment reconsideration decision, made by OHCA's chief financial officer or his/her designee in accordance with OAC 317:30-5-132.1.

(2) Appeals are heard by the OHCA administrative law judge (ALJ).

(3) To file an appeal, the provider shall submit an LD-2 form within thirty (30) days of the date of the written notice of the OHCA's report adjustment(s) that resulted from an on-site audit, or a cost report reconsideration decision, as applicable.

(4) The LD-2 shall only be filed by the provider or the provider's attorney in accordance with five (5) below.

(5) Consistent with Oklahoma rules of practice, the provider shall be represented by an attorney licensed to practice within the State of Oklahoma. Attorneys not licensed to practice in Oklahoma shall comply with Article II, Section (§) 5 of Title 5 of the Oklahoma Statutes (O.S.), and rules of the Oklahoma Bar Association.

(6) Parties who fail to appear at a hearing, after notification of said hearing date, will have their cases dismissed for failure to prosecute.

(7) The long-term care facility has the burden of proof by the preponderance of the evidence standard as defined by the Oklahoma Supreme Court.

(8) The docket clerk will send the long-term care facility and any other necessary party a notice which states the hearing location, date, and time.

- (9) The ALJ may:
- (A) Identify and rule on issues being appealed which will be determined at the administrative hearing;
 - (B) Require the parties to state their positions concerning appeal issue(s);
 - (C) Require the parties to produce for examination those relevant witnesses and documents under their control;
 - (D) Rule on whether witnesses have knowledge of the facts at issue;
 - (E) Establish time limits for the submission of motions or memoranda;
 - (F) Rule on relevant motions, requests, and other procedural items, limiting all decisions to procedural matters and issues directly related to the contested determination resulting from OAC 317:30-5-132 and/or 317:30-5-132.1;
 - (G) Rule on whether discovery requests are relevant;
 - (H) Strike or deny witnesses, documents, exhibits, discovery requests, and other requests or motions which are cumulative, not relevant, not material, or used as a means of harassment, unduly burdensome, or not timely filed;
 - (I) Schedule pre-hearing conferences to settle, simplify, or identify issues in a proceeding or to consider other matters that may end the appeal;
 - (J) Impose appropriate sanctions against any party failing to obey an order of the ALJ;
 - (K) Rule on any requests for extension of time;
 - (L) Dismiss an issue or appeal if:
 - (i) It is not timely filed or is not within the OHCA's jurisdiction or authority; and/or
 - (ii) It is moot or there is insufficient evidence to support the allegations; and/or
 - (iii) The appellant fails or refuses to appear for a scheduled meeting, conference, or hearing; and/or
 - (iv) The appellant refuses to accept a settlement offer which affords the relief the party could reasonably expect if the party prevailed in the appeal; and/or
 - (M) Set and/or limit the time frame for the hearing.
- (10) After the hearing:
- (A) The ALJ should attempt to make the final hearing decision within ninety (90) days from the date of the hearing and send a copy of the ALJ's decision to both parties outlining their rights to appeal the decision. Any appeal of the final order pursuant to 12 O.S. § 951 shall be filed with the District Court of Oklahoma County within thirty (30) days.
 - (B) It shall be the duty of the appellant in any District Court appeal to order a written transcript of proceedings to be used on appeal, as required by 12 O.S. § 951.
- (11) All orders and settlements are non-precedential decisions.

- (12) The hearing shall be digitally recorded.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

317:2-1-2.5. Expedited appeals

- (a) ~~An Appellant may request an expedited hearing request may be granted within three (3) working days of the request for hearing, if the time otherwise permitted for a hearing as described in OAC~~ Oklahoma Administrative Code (OAC) 317:2-1-2(a)(8) could jeopardize the Appellant's life or health or ability to attain, maintain, or regain maximum function.

Any request for expedited consideration should be made to the Administrative Law Judge (ALJ), with a copy to the Oklahoma Health Care Authority (OHCA) Legal division and shall be ruled upon within three (3) working days of the date of the request. The request shall specify the reason for the appeal and the specific basis for the Appellant's assertion that a delay will jeopardize the Appellant's life or health.

(b) If ~~OHCA~~ the ALJ determines that ~~the request meets the criteria for an expedited hearing is warranted, it~~ he or she shall:

(1) ~~Initiate the hearing process as described in Schedule the matter for hearing pursuant to OAC 317:2-1-5; Telephonic hearings may be scheduled as appropriate under the particular facts of the case; and~~

(2) ~~All matters relating to the hearing must be heard and disposed of~~ Issue a preliminary or final decision as expeditiously as possible, but no later than three (3) working days after OHCA has received the request for an ~~the close of the expedited hearing.~~

(c) If ~~OHCA~~ the ALJ determines that the request does not meet the criteria for an expedited hearing consideration, ~~it~~ he or she shall:

(1) ~~Initiate the ordinary hearing process~~ Schedule the appeal for hearing within the ordinary timeframe, in accordance with OAC 317:2-1-2(a)(8); and

(2) Notify the Appellant of the denial orally or through an ~~electronic~~ written notice as described in OAC 317:35-5-66. If oral notification is provided, ~~OHCA the ALJ will follow up with~~ shall issue a written ~~notice~~ notification within three (3) calendar days of the denial.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 7. SOONERCARE

PART 1. GENERAL PROVISIONS

317:25-7-2. SoonerCare Choice: overview

(a) The Oklahoma Health Care Authority (OHCA) operates a Primary Care Case Management (PCCM) system for SoonerCare Choice eligible members. PCCM is a managed care model in which each enrollee has a medical home with a primary care provider (PCP). Enrollees may select their own primary care provider or clinic as their PCP if that provider is enrolled with OHCA as a PCP and as a SoonerCare provider. ~~For those~~ Those who do not choose a PCP, ~~they will~~ may be assigned to one- (1). Members may change PCPs at any time.

(b) The PCP is paid a monthly care coordination payment in accordance with the conditions in the PCP's SoonerCare

Permanent Final Adoptions

Choice contract to provide or otherwise assure the delivery of medically-necessary preventive and primary care medical services, including securing referrals for specialty services and prior authorizations for an enrolled group of eligible members, with the exception of services described in subsection (c) of this Section for which authorization is not required. The PCP assists the member in gaining access to the health care system and monitors the member's condition, health care needs and service delivery.

(c) Services which do not require a referral from ~~the~~ PCP include preventive or primary care services rendered by another SoonerCare contracted provider, such as: outpatient behavioral health ~~agency~~ services; vision services for children; dental services; child abuse/sexual abuse examinations; prenatal and obstetrical services; family planning services; emergency physician and hospital services; ~~disease management services, chronic disease prevention and management programs and other care coordination programs;~~ and services delivered to Native Americans at ~~IHS, Indian Health Service,~~ tribal, or urban Indian clinics. Female members may access a SoonerCare women's health specialist without a referral for covered routine and preventive health care services. This is in addition to the enrollee's PCP if that source is not a woman's health specialist.

(d) SoonerCare Choice covered services delivered by ~~the~~ PCP are reimbursed at the SoonerCare fee schedule rate under the procedure code established for each individual service. ~~To the extent~~ If services are provided or authorized by ~~the Primary Care Provider,~~ a PCP, the OHCA does not make SoonerCare Choice payments for services delivered outside the scope of coverage of the SoonerCare Choice program; thus, a referral by ~~the~~ PCP does not guarantee payment.

(e) ~~The~~ PCP may charge a co-payment for services provided to SoonerCare members in accordance with ~~OAC~~ Oklahoma Administrative Code (OAC) 317:30-3-5(d).

(f) Members with chronic conditions may elect to enroll in a health management program to improve their health.

(g) PCPs may elect to participate in Health Access Networks pursuant to Subchapter 9 to improve access to care.

(h) PCPs may elect to participate in a Health Management Program pursuant to Subchapter 11 to improve access to care.

317:25-7-3. Definitions

The following words and terms, when used in this Subchapter, have the following meaning, unless the context clearly indicates otherwise:

~~"Aged, Blind and Disabled"~~ "Aged, Blind and Disabled (ABD)" means the Medicaid covered populations under 42 U.S.C., United States Code (U.S.C.) Section 1396a (a)(10)(A)(i) and (F).

"Board" means the board designated by the Oklahoma legislature to establish policies and adopt and promulgate rules for the Oklahoma Health Care Authority.

"CEO" means the Chief Executive Officer of the Oklahoma Health Care Authority.

"Custody" means the custodial status, as reported by the Oklahoma Department of Human Services.

"Medicaid" means the medical assistance program authorized by 42 U.S.C., Section 1396a et seq. The program provides medical benefits for certain low-income persons. It is jointly administered by the federal and state governments.

"Medicare" means the program defined at 42 U.S.C. § 1395 et seq.

"OHCA" means the Oklahoma Health Care Authority.

"OKDHS" means the Oklahoma Department of Human Services.

"PCCM" means Primary Care Case Management.

~~"PCP" means Primary Care Provider, including a Provider or Physician Group.~~

"Primary Care Case Management" means a managed care health service delivery system in which health services are delivered and coordinated by Primary Care Providers.

~~"Primary Care Provider"~~ "Primary care provider (PCP)" means a Primary Care Provider, including a provider or physician group, ~~a provider~~ under contract with the ~~Oklahoma Health Care Authority~~ OHCA to provide primary care services and case management, including securing all medically-necessary referrals for specialty services and prior authorizations.

~~"Provider" or Physician Group~~ "physician group" means a partnership, limited partnership, limited liability company, corporation or professional corporation, composed of doctors of medicine and/or doctors of osteopathy and/or advanced practice registered nurses, and/or physician assistants who provide health care of the nature provided by independent practitioners and are permitted by state and federal law and regulations to receive SoonerCare provider payments.

"SoonerCare" means the Medicaid program administered by the ~~Oklahoma Health Care Authority~~ OHCA.

"SoonerCare Choice" means a comprehensive medical benefit plan featuring a medical home including a ~~Primary Care Provider~~ PCP for each member.

317:25-7-5. Primary care providers (PCPs)

For provision of health care services, the OHCA contracts with qualified ~~Primary Care Providers~~ PCPs. All providers serving as PCPs must have a valid SoonerCare Fee-for-Service contract as well as an exercised SoonerCare Choice addendum. Additionally, all PCPs, excluding ~~Provider~~ provider or ~~Physician Groups~~ physician groups must agree to accept a minimum capacity of patients; provided, however, this does not guarantee PCPs a minimum patient volume. ~~Primary Care Providers~~ PCPs are limited to:

(1) **Physicians.** Any physician licensed to practice medicine in the state in which he or she practices who is engaged in a general practice or in family medicine, general internal medicine or general pediatrics may serve as a PCP. ~~The Chief Executive Officer (CEO) of the OHCA may designate physicians to serve as PCPs who are licensed to practice medicine in the state in which they practice who are specialized in areas other than those described above. In making this determination, the CEO may consider such factors as the percentage of primary care services delivered in the physician's practice, the availability of primary care providers in~~

the geographic area of the state in which the physician's practice is located, the extent to which the physician has historically provided services to SoonerCare members, and the physician's medical education and training.

(A) For physicians serving as SoonerCare Choice PCPs, the State caps the number of members per physician at 2,500 two thousand, five hundred (2,500). However, the CEO in his/her discretion may increase this number in under served areas based on a determination that this higher cap is in conformance with usual and customary standards for the community. If a physician practices at multiple sites, the capacity at each site is determined based on the number of hours per week the physician holds office hours, not to exceed one (1) FTE. Thus, the physician cannot exceed a maximum total capacity of 2500 two thousand, five hundred (2,500) members.

(B) In areas of the ~~State~~ state where cross-state utilization patterns have developed because of limited provider capacity in the ~~State~~ state the ~~CEO~~ OHCA may authorize contracts with out-of-state providers for PCP services. ~~Out of State~~ Out-of-state PCPs are required to comply with all access standards imposed on Oklahoma physicians, as well as Oklahoma Administrative Code (OAC) 317:30-3-89 through 317:30-3-92.

(2) **Advanced Practice Registered Nurses (APRNs).** ~~Advanced Practice Nurses~~ APRNs who have prescriptive authority may serve as PCPs for the Primary Care Case Management delivery system if licensed to practice in the state in which he or she practices. ~~Advanced Practice Nurses~~ APRNs who have prescriptive authority may serve as PCPs for a maximum number of 1,250 one thousand, two hundred and fifty (1,250) members. However, the CEO in his/her discretion may increase this number.

(3) **Physician Assistants (PAs).** ~~Physician Assistants~~ PAs may serve as PCPs if licensed to practice in the state in which he or she practices. ~~Physician Assistants~~ PAs may serve as PCPs for a maximum number of 1,250 one thousand, two hundred and fifty (1,250) members. However, the CEO in his/her discretion may increase this number.

(4) **Indian Health Service (IHS) Facilities and Federally Qualified Health Center (FQHC) provider groups and Rural Health Clinics (RHC).**

(A) ~~Indian Health Service~~ IHS facilities whose professional staff meet the general requirements in paragraphs (1) through (3) of this Section and the provider participation requirements at OAC 317:30-5-1088 may serve as PCPs.

(B) ~~Federally Qualified Health Centers~~ FQHCs whose professional staff meet the general requirements in paragraphs (1) through (3) of this Section and the provider participation requirements in OAC 317:30-5-660.2 may serve as PCPs.

(C) RHCs whose professional staff meet the general requirements in paragraphs (1) through (3) of this

Section and the provider participation requirements in OAC 317:30-5-355 may serve as PCPs.

(5) **Provider or physician group capacity and enrollment.**

(A) Provider or physician groups must agree to accept a minimum enrollment capacity and may not exceed 2,500 two thousand, five hundred (2,500) members per physician participating in the provider group.

(B) If licensed ~~physician assistants~~ PAs or ~~advanced practice nurses~~ APRNs are members of a group, the capacity may be increased by 1,250 one thousand, two hundred and fifty (1,250) members if the provider is available full-time.

(C) Provider or physician groups must designate a medical director to serve as the primary contact with OHCA.

PART 3. ENROLLMENT CRITERIA

317:25-7-10. Enrollment with a Primary Care Provider (PCP)

(a) All SoonerCare Choice members described in ~~OAC~~ Oklahoma Administrative Code (OAC) 317:25-7-12 may enroll with a PCP. SoonerCare Choice applicants have the opportunity to select a PCP during the application process. Enrollment with a PCP may begin any day of the month.

(1) The OHCA offers all members the opportunity to choose a PCP from a directory which lists available PCPs.

(2) When a notice of PCP enrollment is sent to a member, the member is advised of the right to change ~~the~~ a PCP at any time.

(b) Members may receive services from ~~the~~ a PCP or from a provider to which the member has been referred by ~~the~~ a PCP. Notwithstanding this provision, subject to limitations which may be placed on services by the OHCA, members may ~~self refer~~ self-refer for preventive or primary care services rendered by another SoonerCare contracted provider, outpatient behavioral health ~~agency~~ services, vision services for children, dental services, child abuse/sexual abuse examinations, prenatal and obstetrical services, family planning services, services delivered to Native Americans at ~~IHS~~ Indian Health Service, tribal, or urban Indian clinics, chronic disease prevention and management programs and other care coordination programs, and emergency physician and hospital services.

317:25-7-13. Enrollment ineligibility

Members in certain categories are excluded from participation in the SoonerCare Choice program. All other members ~~are may be~~ enrolled in the SoonerCare Choice program and subject to the provisions of this Subchapter. Members excluded from participation in SoonerCare Choice include:

(1) Individuals receiving services in a ~~nursing~~ long-term care facility, in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID), or through a Home and Community Based Waiver;

(2) ~~Individuals privately enrolled in an HMO.~~

(3) ~~Individuals who would be traveling more than 45 miles or an average of 45 minutes to obtain primary care services.~~

(42) Individuals in the former foster care children's group ~~(see OAC 317:35-5-2)~~ [see Oklahoma Administrative Code (OAC) 317:35-5-2];

(53) ~~Individuals who are eligible for SoonerCare solely due to presumptive eligibility in benefit programs with limited scope, such as Tuberculosis, Family Planning, or pregnancy only;~~

(64) Non-qualified or ineligible aliens;

(75) Children in subsidized adoptions;

(86) Individuals who are dually-eligible for SoonerCare and Medicare;

(97) Individuals who are in an Institution for Mental Disease (IMD); and/or

(108) ~~Individuals who have other primary medical insurance-creditable coverage.~~

PART 5. ENROLLMENT PROCESS

317:25-7-25. Member enrollment process

(a) SoonerCare eligible individuals whose eligibility is based on one (1) of the aid categories ~~included in the program as defined in OAC Oklahoma Administrative Code (OAC) 317:25-7-12~~ must be eligible to enroll with a PCP-primary care physician (PCP). Parents or guardians will choose on behalf of minor members in the household. Families with more than one (1) enrollee may choose a different PCP for each family member.

(b) Until the effective date of enrollment with a PCP, services for a newborn are reimbursed at a fee-for-service rate. Upon eligibility determination, newborns may enroll with a PCP who is in general practice, family practice, or general pediatrics. Enrollment materials will advise the parent or guardian of the right to change ~~the~~ PCP after the effective date of enrollment.

(c) A description of the PCCM program and the PCP directory is ~~provided by the OHCA to OKDHS for distribution to OKDHS county offices~~ are available on the Oklahoma Health Care Authority's (OHCA) website.

(d) For purposes of determining the member's choice of PCP, the most recent PCP selection received by the OHCA determines the PCP with which the member is enrolled ~~with~~, as long as capacity is available. If capacity is not available or the member does not choose, the member is assigned according to the assignment mechanism as defined by the OHCA. A member who is eligible for SoonerCare Choice but is not assigned, may request enrollment with a PCP by contacting the SoonerCare Helpline, or through the member's mySoonerCare.org account, if applicable.

(e) PCPs may not refuse an assignment, seek to disenroll a member, or otherwise discriminate against a member on the basis of age, sex, race, physical or mental disability, national origin, or type of illness or condition, unless that condition can be better treated by another provider type, except that ~~IHS, Indian Health Service,~~ tribal or urban Indian programs may

provide services to ~~Native American IHS~~ members consistent with federal law.

317:25-7-26. Automatic re-enrollment

SoonerCare members who become disenrolled from a PCP solely by virtue of becoming temporarily ~~(for 365 days or less)~~ [for three hundred and sixty-five (365) days or less] ineligible for SoonerCare services, ~~are automatically~~ may be re-enrolled with their previously-selected PCP, subject to capacity. The member is notified of the automatic re-enrollment and any right to disenroll from that PCP, or change to another PCP.

317:25-7-27. Changing PCPs Primary care providers (PCPs)

(a) The ~~OHCA~~ Oklahoma Health Care Authority (OHCA) is responsible for changing a member's enrollment from one (1) PCP to another:

(1) ~~without~~ Without cause upon the member's request; or

(2) ~~upon~~ Upon demonstration of good cause. For purposes of this paragraph, good cause means:

(A) ~~those~~ Those members who are habitually non-compliant with the documented medical directions of the provider; or

(B) ~~those~~ Those members who pose a threat to employees, or other patients of the PCP; or

(C) ~~as~~ As a result of a grievance determination by the OHCA; or

(D) ~~in~~ In those cases where reliable documentation demonstrates that the physician-patient relationship has so deteriorated that continued service would be detrimental to the member, the provider or both; or

(E) ~~the~~ The member's illness or condition would be better treated by another type of provider; or

(3) when the state imposes an intermediate sanction.

(b) A written request by the PCP to change the enrollment of a member is acted upon by the OHCA within ~~30~~ thirty (30) days of its receipt. The decision to change PCPs for cause is made at the discretion of the OHCA, subject to appeals policies delineated at ~~OAC~~ Oklahoma Administrative Code 317:2-1. The effective date of change is set so as to avoid the issue of abandonment.

(c) In the event a SoonerCare PCP contract is terminated by OHCA for any reason, or the PCP terminates participation in the SoonerCare Choice program ~~the CEO may, at his or her discretion, assign members to a participating PCP when it is determined to be in the best interests of the member whose PCP has terminated the panel members formerly aligned with the terminating PCP shall be enrolled with a different PCP.~~

317:25-7-28. Disenrolling a member from SoonerCare Choice

(a) The ~~OHCA~~ Oklahoma Health Care Authority (OHCA) may disenroll a member from SoonerCare Choice if:

(1) ~~the~~ The member is no longer eligible for SoonerCare Choice services;

- (2) ~~the~~The member ~~has been~~is incarcerated;
 - (3) ~~the~~The member dies;
 - (4) ~~disenrollment~~Disenrollment is determined to be necessary by the OHCA;
 - (5) ~~the~~The status of the member changes, rendering him/her ineligible for SoonerCare;
 - (6) ~~the~~The member is authorized to receive services in a nursing facility, in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) or through a Home and Community Based Waiver;
 - (7) ~~the~~The member becomes dually-eligible for SoonerCare and Medicare; or
 - (8) ~~the~~The member becomes covered under other ~~primary medical insurance-creditable coverage~~.
- (b) The OHCA may disenroll the member at any time if the member is disenrolled for good cause, as it is defined in ~~OAC~~Oklahoma Administrative Code (OAC) 317:25-7-27. The OHCA will inform the PCP of any disenrollments from his or her member roster.
- (c) OHCA may disenroll a member upon the PCP's request as described in (1) through (5) of this subsection.
- (1) ~~The A~~PCPprimary care provider (PCP) may file a written request asking OHCA to take action, including, but not limited to, disenrolling a member when the member:
 - (A) ~~is~~Is physically or verbally abusive to office staff, providers, and/or other patients;
 - (B) ~~is~~Is habitually non-compliant with the documented medical directions of ~~the~~a PCP; or
 - (C) ~~regularly~~Regularly fails to arrive for scheduled appointments without cancelling and the PCP has made all reasonable efforts to accommodate the member.
 - (2) The request from ~~the~~a PCP for disenrollment of a member must include ~~one of one~~ (1) or more of the following:
 - (A) ~~documentation~~Documentation of the difficulty encountered with the member, including the nature, extent, and frequency of abusive or harmful behavior, violence, and/or inability to treat or engage the member;
 - (B) ~~identification~~Identification and documentation of unique religious or cultural issues that may be ~~effecting~~affecting~~the~~a PCP's ability to provide treatment effectively to the member; or
 - (C) ~~documentation~~Documentation of special assistance or intervention offered.
 - (3) ~~The A~~PCP may not request disenrollment because of a change in the member's health status, the member's utilization of medical services, diminished mental capacity, or uncooperative or disruptive behavior resulting from the member's special needs except when the member's enrollment with ~~the~~a PCP seriously impairs his/her ability to furnish services to this member or other members.
 - (4) ~~The A~~PCP must document efforts taken to inform the member orally or in writing of any actions that have interfered with the effective provision of covered services, as well as efforts to explain what actions or language of the member are acceptable and unacceptable and the

consequences of unacceptable behavior, including disenrollment from ~~the~~a PCP.

- (5) The OHCA will give written notice of the disenrollment request to the member.

PART 7. COORDINATION AND CONTINUITY OF CARE

317:25-7-29. Screening, diagnosis and preventive benefits [REVOKED]

- (a) ~~The PCP is responsible for coordinating or delivering preventive and primary care services which are medically necessary to all SoonerCare members enrolled with him/her.~~
- (b) ~~School and health department clinics may conduct EPSDT screening examinations on children who have not been screened by their PCP pursuant to the EPSDT periodicity schedule. If it is ascertained that a child is not current, the school or health department clinic must first contact the PCP and attempt to set up an appointment for the child within three weeks. If the PCP cannot meet this condition, the clinic will be permitted to conduct the screen and bill fee for service.~~
- (1) ~~The school or health department clinic must submit a claim for reimbursement, as well as documentation that:~~
 - (A) ~~the PCP was contacted and an examination could not be conducted by the PCP within the specified guidelines; and~~
 - (B) ~~the PCP has forwarded information for the patient file regarding the diagnosis, services rendered and need for follow up. This documentation must be returned to the child's record for verification that PCPs have first been contacted and that school and health department clinics are providing PCPs with the information necessary to ensure continuity of care.~~
 - (2) ~~The school-based clinic or health department must conduct the screening examination within three weeks from the date the determination was made that the PCP could not conduct the exam within the specified guidelines.~~

317:25-7-30. Obtaining SoonerCare Choice services

- (a) Medical services which are not the responsibility of the ~~PCP~~primary care provider (PCP) to authorize under the care coordination component of SoonerCare, Choice, as described in ~~OAC~~Oklahoma Administrative Code (OAC) 317:25-7-10(b), are obtained in the same manner as under the regular SoonerCare fee-for-service program.
- (b) ~~Authorization for out-of-state transportation for primary care and specialty care is determined by the OHCA Medical Director. For policy regarding out-of-state transportation for primary and specialty care, refer to OAC 317:30-3-89 through 317:30-3-92.~~
- (c) An American Indian/Alaska Native (AI/AN) eligible SoonerCare member may choose a PCP from the provider directory, including the ~~IHS~~Indian Health Service (IHS), tribal and ~~Urban~~urban Indian clinics that participate as SoonerCare PCPs. ~~The member needs to have the Certified Degree of Indian Blood information in order to enroll.~~ An American

~~Indian~~AI/AN member in SoonerCare may enroll with a PCP who is not an IHS, tribal, or urban Indian clinic and still use the IHS, tribal, or urban Indian clinic for medical care. A referral from ~~the~~ PCP is needed for services that the clinic cannot provide, except for self-referred services.

(d) If an IHS, tribal, or urban Indian clinic is unable to deliver a service to a SoonerCare enrollee and must refer the member for the service to a non-IHS, tribal, or urban Indian clinic, SoonerCare reimbursement is made only to the specialist when the service ~~is has been~~ referred by ~~the~~ PCP, unless PCP authorization is not required under OAC 317:25-7-10(b). 317:25-7-2(c).

(e) ~~The~~A PCP is not obligated to provide emergency services and is not responsible for authorization or approval for payment for members seen in the emergency room. ~~The~~A PCP may not require members to seek prior authorization (PA) for emergency services. However, ~~the~~ PCP may provide emergency care in an emergency setting, within his/her legal scope of practice.

(f) ~~Some outpatient procedures require prior authorization. The PCP is responsible for obtaining a list before an outpatient procedure is done. A PA is required for some medical procedures, equipment, medications, and specialty services. The PCP and/or requesting provider are responsible for submitting the PA request to SoonerCare. The member and requesting provider will be notified of SoonerCare's decision to authorize the requested services. A PA is not a guarantee of payment.~~

PART 9. REIMBURSEMENT

317:25-7-40. SoonerCare Choice reimbursement

(a) **Care coordination component.** Participating ~~PCPs~~primary care providers (PCPs) are paid a monthly care coordination payment to assure the delivery of medically-necessary preventive and primary care medical services, including referrals for specialty services for an enrolled group of eligible members. The PCP assists the member in gaining access to the health care system and monitors the member's condition, health care needs and service delivery.

(b) **Visit-based fee-for-service component.** SoonerCare Choice covered services provided by ~~the~~ PCP are reimbursed at the SoonerCare fee schedule rate under the procedure code established for each individual service. To the extent services are authorized by ~~the~~ PCP, the ~~OHCA~~Oklahoma Health Care Authority (OHCA) does not make SoonerCare Choice payments for services delivered outside the scope of coverage of the SoonerCare Choice program, ~~thus, In other words, a referral by the PCP does not guarantee payment.~~

(c) **Incentive program component.** Subject to the availability of funds, OHCA will develop a bonus payment program to encourage coordination of services, to reward improvement in health outcome and promote efficiency.

(d) **SoonerCare networks.** For every PCP who participates in an OHCA approved ~~health care access network~~Health Access Network, a per-member-per-month payment is established by OHCA and paid to the network.

SUBCHAPTER 9. HEALTH ACCESS NETWORKS

317:25-9-1. Purpose

The purpose of this Subchapter is to describe the rules governing the Health Access Networks (~~HAN's~~)(HANs) participating in the statewide SoonerCare program. The rules provide assurances that ~~Health Access Networks~~HANs will work with providers to coordinate and improve the quality of care for SoonerCare members. ~~The use of Health Access Networks is a limited pilot program with the purpose of enhancing the development of comprehensive medical homes for Oklahoma SoonerCare Choice members.~~

317:25-9-2. Requirements

(a) ~~HAN's~~Health Access Networks (HANs) are non-profit, administrative entities that work with providers to coordinate and improve the quality of care for SoonerCare members. The HAN must:

(1) ~~be~~Be organized for the purpose of restructuring and improving the access, quality, and continuity of care to SoonerCare members;

(2) ~~offer patients~~Facilitate members' access to all levels of care, including primary, outpatient, specialty, certain ancillary services, and acute inpatient care, within a community or across a broad spectrum of providers across a service region or the ~~State~~state through improved access to specialty care, telehealth, and expended quality improvement strategies;

(3) ~~submit an application to the OHCA as specified in (e) of this Section;~~

(4) ~~offer core components of electronic medical records, improved access to specialty care, telemedicine, and expended quality improvement strategies;~~

(5) ~~have an organized and systematic quality improvement process, including the identification of measurable performance targets; and~~

(6) ~~offer~~Offer care management/care coordination to persons in the HANs. This includes care management for specified members with complex health care needs as approved by OHCA. The HAN will not provide care management services to HMP members in the HAN, as these members will receive care management from HMP health coaches or from the OHCA internal Chronic Care Unit with complex health care needs as specified in the state-HAN provider agreement.

(b) ~~Networks must meet at least two of the following:~~

(1) ~~have a formal affiliation agreement/partnership at the community level with traditional and non-traditional providers;~~

(2) ~~have a formal program to promote public health principles, community development, and local educational programs to address the challenges of rural and underserved populations; and~~

(3) ~~have 501(c)3 or not for profit status.~~

(c) ~~In order to qualify to participate as a SoonerCare contracted HAN's, the network must submit an application to the OHCA that details how the network plans to:~~

- (1) reduce costs associated with the provision of health care services to SoonerCare, uninsured and underinsured individuals;
 - (2) improve access to, and the availability of, health care services provided to individuals served by the health access network;
 - (3) enhance the quality and coordination of health care services provided to such individuals through mutually defined quality improvement initiatives;
 - (4) improve the health status of communities served by the health access network;
 - (5) reduce health disparities in such communities;
 - (6) identify all PCPs, specialty providers, and other provider types affiliated with the health access network.
- (d) The application to participate as a SoonerCare contracted HAN's will be accepted and approved at the sole discretion of OHCA with implementation initiated after completion of a readiness review by OHCA staff and approval by OHCA's Medical Advisory Taskforce (MAT).

317:25-9-3. Reimbursement

- (a) In order to be eligible for payment, HAN's Health Access Networks (HANs) must have on file with OHCA, the Oklahoma Health Care Authority (OHCA) an approved Provider Agreement. Through this agreement, the HAN assures that OHCA's requirements are met and assures compliance with all applicable Federal federal and State state regulations. These agreements are renewed annually with each provider.
- (b) The HAN will be reimbursed a per member per month (PMPM) rate based on the number of member months paid to the PCPs affiliated with the HAN. OHCA reserves the right to limit reimbursement based on availability of funds.

SUBCHAPTER 11. HEALTH MANAGEMENT PROGRAM

317:25-11-1. Purpose

The purpose of this Subchapter is to describe the rules governing the Health Management Program (HMP) participating in the statewide SoonerCare program. The rules provide assurances that the HMP will work with providers to coordinate and improve the quality of care for SoonerCare members.

317:25-11-2. Requirements

- (a) The Health Management Program (HMP) is a voluntary program offered statewide and serves SoonerCare Choice members ages four (4) through sixty-three (63) with or at risk for chronic illness who are at the highest risk for adverse outcome and increased health care expenditures.
- (b) HMP services are grounded in motivational interviewing and evidence-based guidelines. The HMP services are designed by the HMP vendor and approved by the Oklahoma Health Care Authority (OHCA). The HMP vendor's activities may include services delivered directly to SoonerCare Choice members or activities in connection with health care providers

that are designed to benefit SoonerCare Choice members. HMP activities/services can include:

- (1) Health coaching;
- (2) Practice facilitation;
- (3) Health navigation;
- (4) Performance improvement projects; and
- (5) Transition of care assistance.

317:25-11-3. Reimbursement

The Health Management Program (HMP) vendor must have an approved Provider Agreement on file. Through this agreement, the HMP assures that the Oklahoma Health Care Authority's requirements are met and assures compliance with all applicable federal and state regulations. HMPs are not a service delivery system.

Permanent Final Adoptions

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 1. GENERAL PROVISIONS

317:30-1-3. Description of rules

How to use this Chapter. This Chapter contains basic information concerning the ~~Oklahoma Title XIX Medical Assistance/SoonerCare Program (Medicaid)~~. It is intended for use by all providers of medical and health related services participating in the program.

(1) The Chapter contains Sections dealing with ~~the organization, administration and financing of the program, recipient eligibility, provider policies, coverage of medical and health services, and other general program policies and procedures applicable to all providers. Rules and procedures applicable to particular provider groups and billing instructions are distributed to providers according to the type of services rendered.~~

(2) Providers and their office staff are urged to familiarize themselves with the contents of this Chapter and to refer to it when questions arise. Use of the Chapter will ~~do much to eliminate~~ reduce misunderstandings concerning the coverage, ~~status and reimbursement of SoonerCare services, recipient eligibility and proper billing procedures all of which can result in delays in payment, incorrect payment or denial of payment and the Agency's expectations of providers.~~ As users of the rules in this Chapter, OHCA also solicits suggestions and comments from providers.

317:30-1-4. Definitions

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Adult" means an individual twenty-one (21) years of age or older, unless otherwise specified by statute, regulation, and/or policy adopted by the Oklahoma Health Care Authority (OHCA). For eligibility criteria policy for children and adults, please refer to Oklahoma Administrative Code (OAC) 317:35-5-2.

"Child" means an individual under twenty-one (21) years of age, unless otherwise specified by statute, regulation, and/or policy adopted by the OHCA. For eligibility criteria policy for children and adults, please refer to OAC 317:35-5-2.

GIST/ANALYSIS:

The proposed revisions will comply with House Bill (HB) 2591 which creates the Defunding Statutory Rape Cover-Up Act. The new law requires the OHCA to deny an application for a new or renewed provider agreement, or terminate an existing agreement, if a provider is investigated and found by a court to have failed to report statutory rape. The new rule outlines how an individual can report a complaint on a provider, and the actions OHCA can take if the complaint has been found valid.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 3. GENERAL PROVIDER POLICIES

PART 1. GENERAL SCOPE AND ADMINISTRATION

317:30-3-19.6. Complaints related to the Defunding Statutory Rape Cover-up Act

(a) In accordance with Title 56 of the Oklahoma Statutes (O.S.) § 1007.4, the Oklahoma Health Care Authority (OHCA) shall investigate complaints made pursuant to the Defunding Statutory Rape Cover-up Act that are submitted in writing to OHCA's Legal Division, and that include:

- (1) The name and contact information of the person submitting the complaint;
- (2) The name of the health care provider and/or affiliate, as that term is defined by 56 O.S. § 1007.1, who is alleged:

(A) To have been found by a court of law to have failed to report statutory rape; or

(B) To have failed to report statutory rape where the statutory rape resulted in a conviction against the assailant;

- (3) The name of the SoonerCare member who allegedly was the victim of statutory rape (if the member is an adult), or of the member's parent(s) or legal guardian (if the member is a minor); and
- (4) A short summary of any other relevant information.

(b) A complaint made pursuant to the Defunding Statutory Rape Cover-up Act may result in a denial of an application for a new or renewed provider enrollment contract, pursuant to Oklahoma Administrative Code (OAC) 317:30-3-19.3, or termination of an existing provider agreement, pursuant to OAC 317:30-3-19.5.

(c) A complaint made pursuant to the Defunding Statutory Rape Cover-up Act may also result in a referral to local law enforcement authorities, where appropriate.

GIST/ANALYSIS:

The proposed revisions will remove prescription limits of certain frequently monitored prescription drugs and medication-assisted treatment (MAT) drugs for opioid use disorder. The proposed rule changes will also remove co-payments for MAT drugs. Additional rule changes will amend prescription quantity limits when a product is on the maintenance drug list. The proposed rule changes will allow certain products to be dispensed in quantities of up to a 90-day supply. Other revisions will align administrative rules regarding cost sharing exemptions for AI/AN members with Oklahoma's Medicaid State Plan language and federal regulation at 42 CFR § 447.56(a)(x). Finally, revisions will align policy with current practice and correct grammatical errors.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 3. GENERAL PROVIDER POLICIES

PART 1. GENERAL SCOPE AND ADMINISTRATION

317:30-3-5. Assignment and ~~Cost Sharing~~cost sharing

(a) **Definitions.** The following words and terms, when used in subsection (c) of this Section, shall have the following meaning, unless the context clearly indicates otherwise:

- (1) **"Fee-for-service contract"** means the provider agreement specified in ~~OAC~~Oklahoma Administrative

Permanent Final Adoptions

Code (OAC) 317:30-3-2. This contract is the contract between the Oklahoma Health Care Authority (OHCA) and medical providers which provides for a fee with a specified service involved.

(2) **"Within the scope of services"** means the set of covered services defined at OAC 317:25-7 and the provisions of the SoonerCare Choice contracts in the SoonerCare Program.

(3) **"Outside of the scope of the services"** means all medical benefits outside the set of services defined at OAC 317:25-7 and the provisions of the SoonerCare Choice contracts in the SoonerCare Program.

(b) **Assignment in fee-for-service.** The OHCA's Oklahoma's Medicaid State Plan provides that participation in the medical program is limited to providers who accept, as payment in full, the amounts paid by OHCA plus any deductible, coinsurance, or co-payment required by the State Plan to be paid by the member and make no additional charges to the member or others.

(1) OHCA presumes acceptance of assignment upon receipt of an assigned claim. This assignment, once made, cannot be rescinded, in whole or in part by one party, without the consent of the other party.

(2) Once an assigned claim has been filed, the member must not be billed and the member is not responsible for any balance except the amount indicated by OHCA. The only amount a member may be responsible for is a co-payment, or the member may be responsible for services not covered under the medical programs. In any event, the member should not be billed for charges on an assigned claim until the claim has been adjudicated or other notice of action received by the provider. Any questions regarding amounts paid should be directed to OHCA, Provider Services.

(3) When potential assignment violations are detected, the OHCA will contact the provider to assure that all provisions of the assignment agreement are understood. When there are repeated or uncorrected violations of the assignment agreement, the OHCA is required to suspend further payment to the provider.

(c) **Assignment in SoonerCare.** Any provider who holds a ~~fee for service~~ fee-for-service contract and also executes a contract with a provider in the SoonerCare Choice program must adhere to the rules of this subsection regarding assignment.

(1) If the service provided to the member is outside of the scope of the services outlined in the SoonerCare ~~Contract~~ contract, then the provider may bill or seek collection from the member.

(2) In the event there is a disagreement whether the services are in or out of the scope of the contracts referenced in (1) of this subsection, the ~~Oklahoma Health Care Authority~~ OHCA shall be the final authority for this decision.

(3) Violation of this provision shall be grounds for a contract termination in the fee-for-service and SoonerCare programs.

(d) **Cost Sharing Copayments sharing/co-payment.** Section 1902(a)(14) of the Social Security Act permits states

to require certain members to share some of the costs of SoonerCare by imposing upon them such payments as enrollment fees, premiums, deductibles, coinsurance, co-payments, or similar cost sharing charges. OHCA requires a co-payment of some SoonerCare members for certain medical services provided through the ~~fee for service~~ fee-for-service program. A co-payment is a charge which must be paid by the member to the service provider when the service is covered by SoonerCare. Section 1916(e) of the Act requires that a provider participating in the SoonerCare program may not deny care or services to an eligible individual based on such individual's inability to pay the co-payment. A person's assertion of their inability to pay the co-payment establishes this inability. This rule does not change the fact that a member is liable for these charges, and it does not preclude the provider from attempting to collect the co-payment.

(1) Co-payment is not required of the following members:

(A) Individuals under age ~~24~~ twenty-one (21). Each member's date of birth is available on the REVS system or through a commercial swipe card system.

(B) Members in nursing facilities (NF) and intermediate care facilities for individuals with intellectual disabilities (ICF/IID).

(C) Home and ~~Community Based Service~~ Community-Based Services (HCBS) waiver members except for prescription drugs.

(D) ~~Native Americans providing documentation of ethnicity in accordance with OAC 317:35-5-25 who receive items and services furnished by the Indian Health Service, an Indian Tribe, Tribal Organization, or Urban Indian Organization or through referral under contract health services~~ American Indian and Alaska Native members, per Section 5006 of the American Recovery and Reinvestment Act of 2009 and as established in the federally-approved Oklahoma Medicaid State Plan.

(E) Individuals who are categorically eligible for SoonerCare through the Breast and Cervical Cancer Treatment program.

(F) Individuals receiving hospice care, as defined in section 1905(o) of the Social Security Act.

(2) Co-payment is not required for the following services:

(A) Family planning services. This includes all contraceptives and services rendered.

(B) Emergency services provided in a hospital, clinic, office, or other facility.

(C) Services furnished to pregnant women, if those services relate to the pregnancy or to any other medical condition which may complicate the pregnancy, including prenatal vitamins.

(D) Smoking and ~~Tobacco Cessation~~ tobacco cessation counseling and products.

(E) ~~Diabetic supplies~~ Blood glucose testing supplies and insulin syringes.

(F) Medication-assisted treatment (MAT) drugs.

(3) Co-payments are required in an amount not to exceed the federal allowable for the following:

- (A) Inpatient hospital stays.
- (B) Outpatient hospital visits.
- (C) Ambulatory surgery visits including free-standing ambulatory surgery centers.
- (D) Encounters with the following rendering providers:
 - (i) Physicians;
 - (ii) ~~Advanced Practice Nurses, practice registered nurses;~~
 - (iii) ~~Physician Assistants, assistants;~~
 - (iv) ~~Optometrists;~~
 - (v) ~~Home Health Agencies, health agencies;~~
 - (vi) ~~Certified Registered Nurse Anesthetists, registered nurse anesthetists;~~
 - (vii) ~~Anesthesiologist Assistants, assistants;~~
 - (viii) ~~Durable Medical Equipment, medical equipment providers;~~ and
 - (ix) Outpatient behavioral health providers.

(E) Prescription drugs.

(F) Crossover claims. Dually eligible Medicare/SoonerCare members must make a co-payment in an amount that does not exceed the federal allowable per visit/encounter for all Part B covered services. This does not include dually eligible HCBS waiver members.

(4) Medicaid premiums and cost sharing incurred by all individuals in the Medicaid household may not exceed an aggregate limit of five percent (5%) of the family's income applied on a monthly basis, as specified by the agency.

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 5. PHARMACIES

317:30-5-72. Categories of service eligibility

(a) **Coverage for adults.** Prescription drugs for categorically needy adults are covered as set forth in this subsection.

(1) With the exception of (2) and (3) of this subsection, categorically needy adults are eligible for a maximum of six (6) covered prescriptions per month with a limit of two (2) brand name prescriptions. A prior authorization may be granted for a third brand name if determined to be medically necessary by OHCA and if the member has not already utilized their six (6) covered prescriptions for the month.

(2) Subject to the limitations set forth in ~~OCAC~~Oklahoma Administrative Code (OAC) 317:30-5-72.1, 317:30-5-77.2, and 317:30-5-77.3, exceptions to the six (6) medically necessary prescriptions per month limit are:

(A) ~~unlimited~~Unlimited monthly medically necessary prescriptions for categorically related individuals who are residents of nursing facilities (NF) or ~~ICF/IID~~intermediate care facilities for individuals with an intellectual disability (ICF/IID); and

(B) ~~seven~~Seven (7) additional medically necessary prescriptions which are generic products per month to the six (6) covered under the State Plan ~~(including three (3) brand name prescriptions)~~[including three (3) brand name prescriptions] are allowed for adults receiving services under the 1915(c) ~~HCBS Waivers~~Home and Community-Based Services (HCBS) waivers. Medically necessary prescriptions beyond the three (3) brand name or thirteen (13) total prescriptions will be covered with prior authorization.

(3) ~~Drugs exempt from the prescription limit include: Antineoplastics, anti-retroviral agents for persons diagnosed with Acquired Immune Deficiency Syndrome (AIDS) or who have tested positive for the Human Immunodeficiency Virus (HIV), certain prescriptions that require frequent laboratory monitoring, birth control prescriptions, over the counter contraceptives, hemophilia drugs, compensable smoking cessation products, naloxone for use in opioid overdose, certain carrier or diluent solutions used in compounds (i.e. sodium chloride, sterile water, etc.), and drugs used for the treatment of tuberculosis. For purposes of this Section, exclusion from the prescription limit means claims filed for any of these prescriptions will not count toward the prescriptions allowed per month. For purposes of this Section, "exempt from the prescription limit" means claims filed for any of these prescriptions will not count toward the prescriptions allowed per month. Drugs exempt from the prescription limit include:~~

- (A) Antineoplastics;
- (B) Anti-retroviral agents for persons diagnosed with Acquired Immune Deficiency Syndrome (AIDS) or who have tested positive for the Human Immunodeficiency Virus (HIV);
- (C) Frequently monitored prescription drugs. A complete list of the selected drugs considered as frequently monitored can be viewed on the agency's website at www.okhca.org.
- (D) Medication-assisted treatment (MAT) drugs for opioid use disorder;
- (E) Contraceptives;
- (F) Hemophilia drugs;
- (G) Compensable smoking and tobacco cessation products;
- (H) Naloxone for use in opioid overdose;
- (I) Certain carrier or diluent solutions used in compounds (i.e. sodium chloride, sterile water, etc.);
- (J) Drugs used for the treatment of tuberculosis; and
- (K) Prenatal vitamins.

(4) When a brand drug is preferred over its generic equivalent due to lower net cost, that drug shall not count

Permanent Final Adoptions

toward the brand limit; however, it will count toward the monthly prescription limit.

(b) **Coverage for children.** Prescription drugs for SoonerCare eligible individuals under twenty-one (21) years of age are not limited in number per month, but may be subject to prior authorization, quantity limits or other restrictions.

(c) **Individuals eligible for Part B of Medicare.** Individuals eligible for Part B of Medicare are also eligible for the Medicare Part D prescription drug benefit. Coordination of benefits between Medicare Part B and Medicare Part D is the responsibility of the pharmacy provider. The SoonerCare pharmacy benefit does not include any products which are available through either Part B or Part D of Medicare.

(d) **Individuals eligible for a prescription drug benefit through a Prescription Drug Plan (PDP) or Medicare Advantage - Prescription Drug (MA-PD) plan as described in the Medicare Modernization Act (MMA) of 2003.** Individuals who qualify for enrollment in a PDP or MA-PD are specifically excluded from coverage under the SoonerCare pharmacy benefit. This exclusion applies to these individuals in any situation which results in a loss of Federal Financial Participation for the SoonerCare program. This exclusion shall not apply to items covered at OAC 317:30-5-72.1(2) unless those items are required to be covered by the prescription drug provider in the MMA or subsequent federal action.

317:30-5-77.1. Dispensing ~~Quantity~~quantity

(a) Prescription quantities ~~are to~~ shall be limited to a ~~34~~thirty-four (34) day supply, except in the following situations:

(1) The Drug Utilization Review (DUR) Board has recommended a different day supply or quantity limit based on published medical data, including the manufacturer's package insert, ~~provided the Chief Executive Officer of the OHCA has approved the recommendation;~~

(2) The product is included on the Maintenance List of medications, which are ~~exempt~~exempted from this limit, and may be dispensed up to ~~100 units~~a ninety (90) day supply;

(3) The manufacturer of the drug recommends a dispensing quantity less than a ~~34~~thirty-four (34) day supply;

(b) Refills are to be provided only if authorized by the prescriber, allowed by law, and should be in accordance with the ~~best~~current medical and pharmacological practices. A provider may not generate automated refills unless the member has specifically requested such service. Documentation of this request must be available for review by OHCA auditors.

(c) ~~The Drug Utilization Review~~DUR Board shall develop a Maintenance List of medications which are used in general practice on a continuing basis. These drugs shall be made available through the ~~vendor drug program~~Vendor Drug Program in quantities up to ~~100 units~~a ninety (90) day supply when approved by the prescriber. ~~The Drug Utilization Review~~DUR Board shall review the Maintenance List at least annually. ~~The Maintenance List shall be approved by the Chief Executive Officer of OHCA.~~ When approved by the prescriber, all maintenance medications must be filled at the maximum quantity allowed after a sufficient stabilization period when

dispensed to SoonerCare members who do not reside in a ~~long term~~long-term care facility. For members residing in a ~~long term~~long-term care facility, chronic medications, including all products on the Maintenance List, must be dispensed in quantities of not less than a ~~28~~twenty-eight (28) day supply.

(d) For products covered by the Oklahoma Vendor Drug Program, the metric quantity shown on the claim form must be in agreement with the descriptive unit of measure applicable to the specific ~~NDC~~National Drug Code (NDC). Only numeric characters should be entered. Designations, such as the form of drug, i.e., ~~Tabs, Caps, Suppositories,~~tabs, caps, suppositories, etc., must not be used. Products should be billed in a manner consistent with quantity measurements.

SUBCHAPTER 3. GENERAL PROVIDER POLICIES

PART 1. GENERAL SCOPE AND ADMINISTRATION

317:30-3-20. Claim inquiry procedures (excluding nursing homes and hospitals)

A medical provider may request a review of the decision of the amount paid or the non-payment of medical services provided to an eligible member. If the medical provider does not agree with the original payment from the Fiscal Agent adjudication of the original claim, he/she may submit a written explanation on HCA 17 (Claim Inquiry Form) as to why the adjustment is being requested and what action is to be taken, a copy of the paid remittance statement and/or detailed explanation of the paid information and a copy of the original claim with the corrections to be made for consideration of additional payment. The claim should be submitted in accordance with the instructions in the OHCA Provider Billing and Procedures Manual, an electronic request for review on the Oklahoma Health Care Authority (OHCA) provider portal in accordance with the instructions in the Provider Billing and Procedures Manual, available on OHCA's website, www.okhca.org. Documentation, including but not limited to, supporting medical documentation and/or proof of timely filing as outlined in Oklahoma Administrative Code (OAC) 317:30-3-11, must be included with each submission.

GIST/ANALYSIS:

The proposed revisions will comply with Oklahoma Senate Bill (SB) No. 575, which amended 25 Oklahoma Statutes (O.S.), Section 2004 and 2005. Revisions outline and further define the following requirements: parental consent for telehealth services; confidentiality and security of protected health information in order to comply with state and federal law; that services provided or received outside of Oklahoma may require prior authorization; and that services provided must be within the scope of the practitioner's license or certification. Revisions also define that program restrictions and coverage for telehealth services mirror those which exist for the same services when not provided through telehealth, provided, however, that only certain telehealth codes are reimbursable by SoonerCare.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 3. GENERAL PROVIDER POLICIES

PART 1. GENERAL SCOPE AND ADMINISTRATION

317:30-3-27. Telehealth

(a) **Definitions.** The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise.

(1) **"Remote patient monitoring"** means the use of digital technologies to collect medical and other forms of health data (e.g. vital signs, weight, blood pressure, blood sugar) from individuals in one (1) location and

electronically transmit that information securely to health care providers in a different location for assessment and recommendations.

(2) **"School-based services"** means medically necessary health-related and rehabilitative services that are provided by a qualified school provider to a student under the age of twenty-one (21), pursuant to an Individualized Education Program (IEP), in accordance with the Individuals with Disabilities Education Act. See Oklahoma Administrative Code (OAC) 317:30-5-1020.

(23) **"Store and forward technologies"** means the acquisition (storing) of clinical information (e.g., data, document, image, sound, video) that is then electronically transmitted (forwarded to or retrieved by) to another site for clinical evaluation. transmission of a patient's medical information from an originating site to the health care provider at the distant site; provided, photographs visualized by a telecommunications system shall be specific to the patient's medical condition and adequate for furnishing or confirming a diagnosis or treatment plan. Store and forward technologies shall not include consultations provided by telephone audio-only communication, electronic mail, text message, instant messaging conversation, website questionnaire, nonsecure video conference, or facsimile transmission.

(34) **"Telehealth"** means the ~~mode of delivering healthcare services via information and communication technologies to facilitate the diagnosis, consultation, treatment, education, care management, and self management of patients, at a distance from health care providers.~~ practice of health care delivery, diagnosis, consultation, evaluation and treatment, transfer of medical data or exchange of medical education information by means of a two-way, real-time interactive communication, not to exclude store and forward technologies, between a patient and a health care provider with access to and reviewing the patient's relevant clinical information prior to the telemedicine visit. Telehealth shall not include consultations provided by telephone audio-only communication, electronic mail, text message, instant messaging conversation, website questionnaire, nonsecure video conference, or facsimile transmission.

(5) **"Telehealth medical service"** means, for the purpose of the notification requirements of OAC 317:30-3-27(d)(2), telehealth services that expressly do not include physical therapy, occupational therapy, and/or speech and hearing services.

(b) **Applicability and scope.** The purpose of this Section is to implement telehealth policy that improves access to health care services, while complying with all applicable ~~Federal and State laws~~ state and federal laws and regulations. Telehealth services are not an expansion of ~~SoonerCare covered~~ SoonerCare-covered services, but an option for the delivery of certain covered services. However, if there are technological difficulties in performing an objective, thorough medical assessment, or problems in the member's understanding of telehealth, hands-on-assessment and/or ~~in person~~ in-person care must be provided for the member. Any

service delivered using telehealth technology must be appropriate for telehealth delivery and be of the same quality and otherwise on par with the same service delivered in person. A telehealth encounter must ~~comply with the Health Information Portability and Accountability Act (HIPAA)~~ maintain the confidentiality and security of protected health information in accordance with applicable state and federal law, including, but not limited to, 42 Code of Federal Regulations (CFR) Part 2, 45 CFR Parts 160 and 164, and 43A Oklahoma Statutes (O.S.) § 1-109. For purposes of SoonerCare reimbursement, telehealth is the use of interactive audio, video, or other electronic media for the purpose of diagnosis, consultation, or treatment that ~~occurs~~ occurs in real-time and when the member is actively participating during the transmission. ~~Telehealth does not include the use of audio only telephone, electronic mail or facsimile transmission.~~

(c) **Conditions Requirements.** The following ~~conditions~~ requirements apply to all services rendered via telehealth.

(1) Interactive audio and video telecommunications must be used, permitting encrypted, real-time communication between the physician or practitioner and the SoonerCare member. The telecommunication service must be secure and adequate to protect the confidentiality and integrity of the telehealth information transmitted. As a condition of payment the member must actively participate in the telehealth visit.

(2) The telehealth equipment and transmission speed and image must be technically sufficient to support the service billed. If a peripheral diagnostic scope is required to assess the member, it must provide adequate resolution or audio quality for decision making. Staff involved in the telehealth visit need to be trained in the use of the telehealth equipment and competent in its operation.

(3) The medical or behavioral health related service must be provided at an appropriate site for the delivery of telehealth services. An appropriate telehealth site is one that has the proper security measures in place; the appropriate administrative, physical, and technical safeguards should be in place that ensures the confidentiality, integrity, and security of electronic protected health information. The location of the room for the encounter at both ends should ensure comfort, privacy, and confidentiality. Both visual and audio privacy are important, and the placement and selection of the rooms should consider this. Appropriate telehealth equipment and networks must be used considering factors such as appropriate screen size, resolution, and security. Providers and/or members may provide or receive telehealth services outside of Oklahoma when medically necessary; however, prior authorization may be required, per OAC 317:30-3-89 through 317:30-3-91.

(4) The provider must be contracted with SoonerCare and appropriately licensed ~~for the service to be provided or certified, in good standing.~~ Services that are provided must be within the scope of the practitioner's license or certification. If the provider is outside of Oklahoma, the provider must comply with all laws and regulations of the

provider's location, including health care and telehealth requirements.

(5) ~~If the member is a minor child, a parent/guardian must present the minor child for telehealth services unless otherwise exempted by State or Federal law.~~ If the member is a minor, the provider must obtain the prior written consent of the member's parent or legal guardian to provide services via telehealth, that includes, at a minimum, the name of the provider; the provider's permanent business office address and telephone number; an explanation of the services to be provided, including the type, frequency, and duration of services. Written consent must be obtained annually, or whenever there is a change in the information in the written consent form, as set forth above.

The ~~parent/guardian~~ parent or legal guardian need not attend the telehealth session unless attendance is therapeutically appropriate. The requirements of subsection OAC 317:30-3-27(c)(5), however, do not apply to telehealth services provided in a primary or secondary school setting.

(6) If the member is a minor, the telehealth provider shall notify the parent or legal guardian that a telehealth service was performed on the minor through electronic communication whether a text message or email.

(67) The member retains the right to withdraw at any time.

(78) All telehealth activities must comply with ~~the HIPAA Security Standards, OHCA~~ Oklahoma Health Care Authority (OHCA) policy, and all other applicable State and Federal laws and regulations, including, but not limited to, 59 O.S. § 478.1.

(89) The member has access to all transmitted medical information, with the exception of live interactive video as there is often no stored data in such encounters.

(910) There will be no dissemination of any member images or information to other entities without written consent from the member or member's parent or legal guardian, if the member is a minor.

(11) A telehealth service is subject to the same SoonerCare program restrictions, limitations, and coverage which exist for the service when not provided through telehealth; provided, however, that only certain telehealth codes are reimbursable by SoonerCare. For a list of the SoonerCare-reimbursable telehealth codes, refer to the OHCA's Behavioral Health Telehealth Services and Medical Telehealth Services, available on OHCA's website, www.okhca.org.

(12) Where there are established service limitations, the use of telehealth to deliver those services will count towards meeting those noted limitations. Service limitations may be set forth by Medicaid and/or other third party payers.

(d) **Additional requirements specific to telehealth services in a school setting.** In order for OHCA to reimburse medically necessary telehealth services provided to SoonerCare members in a primary or secondary school setting, all of the requirements in (c) above must be met, with the exception of (c)(5), as well as all of the requirements shown below, as applicable.

(1) **Consent requirements.** Advance parent or legal guardian consent for telehealth services must be obtained for minors, in accordance with 25 O.S. §§ 2004 through 2005. Additional consent requirements shall apply to school-based services provided pursuant to an IEP, per OAC 317:30-5-1020.

(2) **Notification requirements.** For telehealth medical services provided in a primary or secondary school setting, the telehealth practitioner must provide a summary of the service, including, but not limited to, information regarding the exam findings, prescribed or administered medications, and patient instructions, to:

(A) The SoonerCare member, if he or she is an adult, or the member's parent or legal guardian, if the member is a minor; or

(B) The SoonerCare member's primary care provider, if requested by the member or the member's parent or legal guardian.

(3) **Requirements specific to physical therapy, occupational therapy, and/or speech and hearing services.** Even though physical therapy, occupational therapy, and/or speech and hearing services are not subject to the notification requirements of OAC 317:30-3-27(d)(2), said services must still comply with all other State and Federal Medicaid requirements, in order to be reimbursable by Medicaid. Accordingly, for those physical therapy, occupational therapy, and/or speech and hearing services that are provided in a primary or secondary school setting, but that are not school-based services (i.e., not provided pursuant to an IEP), providers must adhere to all state and federal requirements relating to prior authorization and prescription or referral, including, but not limited to, 42 C.F.R. § 440.110, OAC 317:30-5-291, 317:30-5-296, and 317:30-5-676.

(de) **Reimbursement.**

(1) Health care services delivered by telehealth such as Remote Patient Monitoring, Store and Forward, or any other telehealth technology, must be compensable by OHCA in order to be reimbursed.

(2) Services provided by telehealth must be billed with the appropriate modifier.

(3) If the technical component of an X-ray, ultrasound or electrocardiogram is performed during a telehealth transmission, the technical component can be billed by the provider that provided that service. The professional component of the procedure and the appropriate visit code should be billed by the provider that rendered that service.

(4) The cost of telehealth equipment and transmission is not reimbursable by SoonerCare.

(ef) **Documentation.**

(1) Documentation must be maintained by the rendering provider to substantiate the services rendered.

(2) Documentation must indicate the services were rendered via telehealth, and the location of the services.

(3) All other SoonerCare documentation guidelines apply to the services rendered via telehealth. Examples include but are not limited to:

(A) Chart notes;

Permanent Final Adoptions

- (B) Start and stop times;
- (C) Service provider's credentials; and
- (D) Provider's signature.

(f) **Final authority.** The OHCA has discretion and the final authority to approve or deny any telehealth services based on agency and/or SoonerCare members' needs.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED**

**FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 3. GENERAL PROVIDER POLICIES

PART 4. EARLY AND PERIODIC SCREENING, ~~DIAGNOSIS~~DIAGNOSTIC AND TREATMENT (EPSDT) PROGRAM/CHILD-HEALTH SERVICES

317:30-3-65. Early and Periodic Screening, ~~Diagnosis~~Diagnostic and Treatment (EPSDT) Program/Child-health Services

Payment is made to eligible providers for Early and Periodic Screening, ~~Diagnosis~~Diagnostic and Treatment (EPSDT) services on behalf of eligible individuals under the age of ~~21~~twenty-one (21).

(1) The EPSDT program is a comprehensive child-health program, designed to ensure the availability of, and access to, required health care resources and help parents and guardians of Medicaid-eligible children and adolescents use these resources. An effective EPSDT program assures that health problems are diagnosed and treated early before they become more complex and their treatment more costly. The physician plays a significant role in educating parents and guardians about all services available through the EPSDT program. The receipt of an identified EPSDT screening makes the member eligible for all necessary follow-up care that is within the scope of the SoonerCare program. Early and Periodic Screening, ~~Diagnosis~~Diagnostic and Treatment (EPSDT) covers services, supplies, or equipment that are determined to be medically necessary for a child or adolescent, and which are included within the categories of mandatory and optional services in Section 1905(a) of Title XIX, regardless of whether such services, supplies, or equipment are listed as covered in ~~Oklahoma's State Plan~~Oklahoma's Medicaid State Plan.

(2) Federal regulations also require that the State set standards and protocols for each component of EPSDT services. The standards must provide for services at intervals which meet reasonable standards of medical and dental practice. The standards must also provide for EPSDT services at other intervals as medically necessary to determine the existence of certain physical or behavioral health illnesses or conditions.

(3) SoonerCare providers who perform EPSDT screenings must assure that the screenings they provide meet the minimum standards established by the Oklahoma Health Care Authority in order to be reimbursed at the level established for EPSDT services.

(4) An EPSDT screening is considered a comprehensive examination. A provider billing SoonerCare for an EPSDT screen may not bill any other Evaluation and Management Current Procedure Terminology (CPT) code

for that patient on that same day. It is expected that the screening provider will perform necessary treatment as part of the screening charge. However, there may be other additional diagnostic procedures or treatments not normally considered part of a comprehensive examination, including diagnostic tests and administration of immunizations, required at the time of screening. Additional diagnostic procedures or treatments may be billed independently from the screening. Some services as set out in this section may require prior authorization.

(5) For an EPSDT screening to be considered a completed reimbursable service, providers must perform, and document, all required components of the screening examination. Documentation of screening services performed must be retained for future review.

(6) All comprehensive screenings provided to individuals under age ~~21~~ twenty-one (21) must be filed on HCFA-1500 using the appropriate preventive medicine procedure code or an appropriate Evaluation and Management code from the Current Procedural Terminology Manual (CPT) accompanied by the appropriate "V" diagnosis code.

(7) For EPSDT services in a school-based setting that are provided pursuant to an IEP, please refer to Part 103, Qualified Schools As Providers Of Health-Related Services, in Oklahoma Administrative Code 317:30-5-1020 through 317:30-5-1028.

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 103. QUALIFIED SCHOOLS AS PROVIDERS OF HEALTH-RELATED SERVICES

317:30-5-1022. Periodicity schedule [REVOKED]

(a) ~~The SoonerCare program has adopted the recommendations of the American Academy of Pediatrics' Bright Futures' periodicity schedule for services.~~

(b) ~~Children and adolescents enrolled in SoonerCare are referred to their SoonerCare provider for services. In cases where the SoonerCare provider authorizes the school to perform the screen or fails to schedule an appointment within three (3) weeks and a request has been made and documented by the school, the school may then furnish the Early and Periodic Screening, Diagnosis and Treatment child health screening and bill it as a fee for service activity. Results of the child health screening are forwarded to the member's SoonerCare provider.~~

317:30-5-1023. Coverage by category

(a) **Adults.** There is no coverage for services rendered to adults twenty-one (21) years of age and older.

(b) **Children.** For non-Individualized Education Program (IEP) medical services that can be provided in a school setting, refer to Part 4, Early and Periodic Screening, Diagnostic and Treatment program, of Oklahoma Administrative Code at

317:30-3-65 through 317:30-3-63.12. Payment is made for the following compensable services rendered by qualified school providers:

(1) **Child health screening.** ~~An initial screening may be requested by an eligible member at any time and must be provided without regard to whether the member's age coincides with the established periodicity schedule. Coordination referral is made to the SoonerCare provider to assure at a minimum, that periodic screens are scheduled and provided in accordance with the periodicity schedule following the initial screening. Child health screening must adhere to the following requirements:~~

(A) ~~Children and adolescents enrolled in SoonerCare must be referred to their SoonerCare provider for child health screenings. In cases where the SoonerCare provider authorizes the school to perform this screen or fails to schedule an appointment within three (3) weeks and a request has been made and documented by the school, the school may then furnish the Early and Periodic Screening, Diagnosis and Treatment (EPSDT) child health screening. Written notification must be mailed to the SoonerCare member's primary care provider (PCP) prior to the school's intent to furnish and bill for the screen. Results of this screening must be forwarded to the member's SoonerCare provider.~~

(B) ~~Child health screenings must be provided by a state licensed physician (M.D. or D.O.), state licensed nurse practitioner with prescriptive authority, or state licensed physician assistant. Screening services must include the following:~~

- ~~(i) Comprehensive health and developmental history, including assessment of both physical and mental health development;~~
- ~~(ii) Comprehensive unclothed physical exam;~~
- ~~(iii) Appropriate immunizations according to the age and health history;~~
- ~~(iv) Laboratory test, including blood level assessment; and~~
- ~~(v) Health education, including anticipatory guidance.~~

(C) ~~Mass screenings for any school-based service are not billable to SoonerCare, nor are screenings that are performed as a child or adolescent find activity pursuant to an Individuals with Disabilities Education Act (IDEA) requirement. There must be a documented referral in place that indicates the child or adolescent has an individualized need that warrants a screening to be performed.~~

(2) **Child health encounter.** ~~The child health encounter may include a diagnosis and treatment encounter, a follow up health encounter, or a home visit. A child health encounter may include any of the following services:~~

- ~~(A) vision;~~
- ~~(B) hearing;~~
- ~~(C) dental;~~
- ~~(D) a health history;~~

- ~~(E) physical examination;~~
- ~~(F) developmental assessment;~~
- ~~(G) nutrition assessment and counseling;~~
- ~~(H) social assessment and counseling;~~
- ~~(I) genetic evaluation and counseling;~~
- ~~(J) indicated laboratory and screening tests;~~
- ~~(K) screening for appropriate immunizations; or~~
- ~~(L) health counseling and treatment of childhood illness and conditions.~~

(31) **Diagnostic encounters.** Diagnostic encounters are defined as those services necessary to fully evaluate defects, physical or behavioral health illnesses, or conditions discovered by the screening. Approved diagnostic encounters may include the following:

(A) **Hearing and hearing aid evaluation.** Hearing evaluation includes pure tone air, bone, and speech audiometry. Hearing evaluations must be provided by a state-licensed audiologist who:

- (i) ~~holds~~Holds a Certificate of Clinical Competence from the American Speech-Language-Hearing Association (ASHA); or
- (ii) ~~has~~Has completed the equivalent educational requirements and work experience necessary for the certificate; or
- (iii) ~~has~~Has completed the academic program and is acquiring supervised work experience to qualify for the certificate.

(B) **Audiometry test.** Audiometric test (Immittance [Impedance] audiometry or tympanometry) includes bilateral assessment of middle ear status and reflex studies (when appropriate) provided by a state-licensed audiologist who:

- (i) ~~holds~~Holds a Certificate of Clinical Competence from ASHA; or
- (ii) ~~has~~Has completed the equivalent educational requirements and work experience necessary for the certificate; or
- (iii) ~~has~~Has completed the academic program and is acquiring supervised work experience to qualify for the certificate.

(C) **Ear impression (for earmold).** Ear impression (for earmold) includes taking an impression of a member's ear and providing a finished earmold ~~which is to be used~~ with the member's hearing aid as provided by a state-licensed audiologist who:

- (i) ~~holds~~Holds a Certificate of Clinical Competence from the ASHA; or
- (ii) ~~has~~Has completed the equivalent educational requirements and work experience necessary for the certificate; or
- (iii) ~~has~~Has completed the academic program and is acquiring supervised work experience to qualify for the certificate.

(D) **Vision screening.** Vision screening in schools includes application of tests and examinations to identify visual defects or vision disorders. The vision screening may be performed by a Registered Nurse (RN) or Licensed Practical Nurse (LPN) under the

supervision of an RN, ~~or state certified vision impairment teacher.~~ The service can be billed when a SoonerCare member has an individualized documented concern that warrants a screening. A vision examination must be provided by a state-licensed Doctor of Optometry (O.D.) or licensed physician specializing in ophthalmology (M.D. or D.O.). This vision examination, at a minimum, includes diagnosis and treatment for defects in vision.

(E) **Speech-language evaluation.** Speech-language evaluation is for the purpose of identification of children or adolescents with speech or language disorders and the diagnosis and appraisal of specific speech and language services. Speech-language evaluations must be provided by state-licensed speech-language pathologist who:

- (i) ~~holds~~Holds a Certificate of Clinical Competence from the ASHA; or
- (ii) ~~has~~Has completed the equivalent educational requirements and work experience necessary for the certificate; or
- (iii) ~~has~~Has completed the academic program and is acquiring supervised work experience to qualify for the certificate.

(F) **Physical therapy evaluation.** Physical therapy evaluation includes evaluating the student's ability to move throughout the school and to participate in classroom activities and the identification of movement dysfunction and related functional problems ~~and must be provided by a state-licensed physical therapist. It must be provided by a state-licensed physical therapist.~~ Physical therapy evaluations must adhere to guidelines found at OAC 317:30-5-291.

(G) **Occupational therapy evaluation.** Occupational therapy evaluation services include determining what therapeutic services, assistive technology, and environmental modifications a student requires for participation in the special education program and must be provided by a state-licensed occupational therapist.

(H) ~~**Psychological evaluation and testing.** Psychological evaluation and testing are for the purpose of diagnosing and determining if emotional, behavioral, neurological, or developmental issues are affecting academic performance and for determining recommended treatment protocol. Evaluation/testing for the sole purpose of academic placement (e.g. diagnosis of learning disorders) is not a compensable service. Psychological evaluation and testing must be provided by state licensed, board certified psychologist or school psychologist certified by Oklahoma State Department of Education (OSDE).~~ **Evaluation and testing.** Evaluation and testing by psychologists and certified school psychologists are for the purpose of assessing emotional, behavioral, cognitive, or developmental issues that are affecting academic performance and for determining recommended treatment protocol. Evaluation or testing for the sole

purpose of academic placement (e.g., diagnosis of learning disorders) is not a compensable service. These evaluations and tests must be provided by a state-licensed, board-certified psychologist or a certified school psychologist certified by the State Department of Education (SDE).

(42) **Child-guidance treatment encounter.** A child-guidance treatment encounter may occur through the provision of individual, family, or group treatment services to children and adolescents who are identified as having specific disorders or delays in development, emotional or behavioral problems, or disorders of speech, language, or hearing. These types of encounters are initiated following the completion of a diagnostic encounter and subsequent development of a treatment plan, or as a result of an ~~Individualized Education Program (IEP)~~IEP and may include the following:

(A) **Hearing and vision services.** Hearing and vision services may include provision of habilitation activities, such as: auditory training; aural and visual habilitation training; including Braille, and communication management; orientation and mobility; and counseling for vision and hearing losses and disorders. Services must be provided by or under the direct guidance of one (1) of the following individuals practicing within the scope of his or her practice under state law:

(i) state-licensed, ~~Master's Degree Audiologist~~master's degree audiologist who:

(I) ~~holds~~Holds a Certificate of Clinical Competence from the ASHA; or

(II) ~~has~~Has completed the equivalent educational requirements and work experience necessary for the certificate; or

(III) ~~has~~Has completed the academic program and is acquiring supervised work experience to qualify for the certificate;

(ii) ~~state-licensed~~State-licensed, ~~Master's Degree Speech-Language Pathologist~~master's degree speech-language pathologist who:

(I) ~~holds~~Holds a Certificate of Clinical Competence from the ASHA; or

(II) ~~has~~Has completed the equivalent educational requirements and work experience necessary for the certificate; or

(III) ~~has~~Has completed the academic program and is acquiring supervised work experience to qualify for the certificate; and

(iii) ~~state-certified deaf education teacher;~~

(iv) ~~certified~~Certified orientation and mobility specialists; and

(v) ~~state-certified vision impairment teachers.~~

(B) **Speech-language therapy services.** Speech-language therapy services include provisions of speech and language services for the habilitation or prevention of communicative disorders. Speech-language therapy services must be provided by or under the direct guidance and supervision of a state-licensed

~~Speech-Language Pathologist~~speech-language pathologist within the scope of his or her practice under state law who:

(i) ~~holds~~Holds a Certificate of Clinical Competence from the ASHA; or

(ii) ~~has~~Has completed the equivalent educational requirements and work experience necessary for the certificate; or

(iii) ~~has~~Has completed the academic program and is acquiring supervised work experience to qualify for the certificate; or

(C) **Physical therapy services.** Physical therapy services are provided for the purpose of preventing or alleviating movement dysfunction and related functional problems that adversely affect the member's education. Physical therapy services must adhere to guidelines found at OAC 317:30-5-291 and must be provided by or under the direct guidance and supervision of a state-licensed physical therapist; services may also be provided by a ~~Physical Therapy Assistant~~physical therapy assistant who has been authorized by the Board of Examiners working under the supervision of a licensed ~~Physical Therapist~~physical therapist. The licensed ~~Physical Therapist~~physical therapist may not supervise more than ~~three~~Physical Therapy Assistants~~three (3) physical therapy assistants.~~

(D) **Occupational therapy services.** Occupational therapy may include provision of services to improve, develop, or restore impaired ability to function independently. Occupational therapy services must be provided by or under the direct guidance and supervision of a state-licensed ~~Occupational Therapist~~occupational therapist; services may also be provided by an ~~Occupational Therapy Assistant~~occupational therapy assistant who has been authorized by the Board of Examiners, working under the supervision of a licensed ~~Occupational Therapist~~occupational therapist.

(E) **Nursing services.** Nursing services may include provision of services to protect the health status of children and adolescents, correct health problems and assist in removing or modifying health-related barriers, and must be provided by a RN or LPN under supervision of a RN. Services include medically necessary procedures rendered at the school site, such as catheterization, suctioning, tube feeding, and administration and monitoring of medication.

(F) **Psychotherapy/Counseling services.** ~~Psychotherapy services are the provision of counseling for children and parents.~~All services must be for the direct benefit of the member. ~~Psychotherapy/Counseling~~services must be provided by a state-licensed ~~Social Worker~~social worker, a state-licensed ~~Professional Counselor~~professional counselor, a state-licensed ~~Psychologist~~psychologist or ~~School Psychologist~~certified by the OSDE~~SDE-certified school psychologist~~, a state-licensed ~~Marriage~~

~~and Family Therapist~~ marriage and family therapist, or a state-licensed ~~Behavioral Practitioner~~ behavioral health practitioner, or under Board supervision to be licensed in one (1) of the above-stated areas.

(G) **Assistive technology.** Assistive technology ~~are~~ is the provision of services that help to select a device and assist a student with disability(ies) to use an assistive technology device, including coordination with other therapies and training of member and caregiver. Services must be provided by a:

(i) ~~state licensed, Speech Language Pathologist~~ State-licensed speech-language pathologist who:

(I) ~~holds~~ Holds a Certificate of Clinical Competence from the ASHA; or

(II) ~~has~~ Has completed the equivalent educational requirements and work experience necessary for the certificate; or

(III) ~~has~~ Has completed the academic program and is acquiring supervised work experience to qualify for the certificate;

(ii) ~~state licensed Physical Therapist~~ State-licensed physical therapist; or

(iii) ~~state licensed Occupational Therapist~~ State-licensed occupational therapist.

(H) **Personal care.** Provision of personal care services (PCS) allow students with disabilities to safely attend school; ~~includes, but is not limited to, assistance with toileting, oral feeding, positioning, hygiene, and riding the school bus, to handle medical or physical emergencies.~~ Services include, but are not limited to: dressing, eating, bathing, assistance with transferring and toileting, positioning, and instrumental activities of daily living such as preparing meals and managing medications. PCS also includes assistance while riding a school bus to handle medical or physical emergencies. Services must be provided by registered paraprofessionals/assistants that have completed training approved or provided by OSDESDE, or Personal Care Assistants personal care assistants, including LPNs, who have completed on-the-job training specific to their duties. ~~Personal Care services do~~ PCS does not include behavioral monitoring. Paraprofessionals are not allowed to administer medication, nor are they allowed to assist with or provide therapy services to SoonerCare members. Tube feeding of any type may only be reimbursed if provided by a RN or LPN. Catheter insertion and Catheter/Ostomy care may only be reimbursed when done by a RN or LPN. All PCS must be prior authorized.

(I) **Therapeutic behavioral services (TBS).** ~~Therapeutic behavioral services are interventions to modify the non adaptive behavior necessary to improve the student's ability to function in the community as identified on the plan of care. Medical necessity must be identified and documented~~

~~through assessment and annual evaluations/re-evaluations. Services encompass behavioral management, redirection, and assistance in acquiring, retaining, improving, and generalizing socialization, communication and adaptive skills. Services are goal-directed activities for each client to restore, retain and improve the self-help, socialization, communication, and adaptive skills necessary to reside successfully in home and community-based settings. It also includes problem identification and goal setting, medication support, restoring function, and providing support and redirection when needed. TBS activities are behavioral interventions to complement more intensive behavioral health services and may include the following components: basic living and self-help skills; social skills; communication skills; organization and time management; and transitional living skills.~~ This service must be provided by a ~~Behavioral Health School Aide~~ behavioral health school aide (BHSA) who has a high school diploma or equivalent and has successfully completed the ~~paraprofessional~~ training approved by the OSDE and a training curriculum in behavioral interventions for pervasive developmental disorders as recognized by OHCA.SDE, and in collaboration with the Oklahoma Department of Mental Health and Substance Abuse Services, along with corresponding continuing education. BHSA must be supervised by a bachelor's level individual with a special education certification. BHSA must have CPR and First Aid certification. Six (6) additional hours of related continuing education are required per year.

~~(J) **Immunization.** Immunizations must be coordinated with the PCP for children and adolescents enrolled in SoonerCare. An administration fee, only, can be paid for immunizations provided by the schools.~~

(c) **Members eligible for Part B of Medicare.** EPSDT school health-related services provided to Medicare eligible members are billed directly to the fiscal agent.

317:30-5-1024. Periodic screening examination [REVOKED]

~~At a minimum, referrals to SoonerCare providers for periodic screening must be completed and provided in accordance with the periodicity schedule following the initial screening.~~

317:30-5-1025. Interperiodic screening examination [REVOKED]

~~Interperiodic screenings must be provided when medically necessary to determine the existence of suspected physical or mental illnesses or conditions. They may include physical, mental or dental conditions. The determination of whether an interperiodic screen is medically necessary may be made by a health, developmental or educational professional who comes into contact with the child outside of the formal health care system. Children enrolled in SoonerCare are referred to their SoonerCare provider for these services. In cases where~~

the SoonerCare provider authorizes the School to perform the screen or fails to schedule an appointment within three weeks and a request has been made and documented by the School, the School may then furnish the EPSDT child health screening and bill it as a fee for services activity. Results of this interperiodic screening are forwarded to the child's SoonerCare provider.

317:30-5-1026. Reporting of suspected child abuse/neglect

Instances of child abuse and/or neglect discovered through screenings and regular examinations are to be reported in accordance with State law. Section 7103 of Title 10 of the Oklahoma Statutes mandates reporting suspected abuse or neglect to the Oklahoma Department of Human Services. Section 7104 of Title 10 of the Oklahoma Statutes further requires reporting of criminally injurious conduct to the nearest law enforcement agency. Instances of child abuse and/or neglect are to be reported in accordance with state law, including, but not limited to, Section (§) 1-2-101 of Title 10A of the Oklahoma Statutes and 43A O.S. § 10-104. Any person suspecting child abuse or neglect shall immediately report it to the Oklahoma Department of Human Services (OKDHS) hotline, at 1-800-522-3511; any person suspecting abuse, neglect, or exploitation of a vulnerable adult shall immediately report it to the local DHS County Office, municipal or county law enforcement authorities, or, if the report occurs after normal business hours, the OKDHS hotline. Health care professionals who are requested to report incidents of domestic abuse by adult victims with legal capacity shall promptly make a report to the nearest law enforcement agency, per 22 O.S. § 58.

317:30-5-1027. Billing

~~(a)~~ Each service has a specified unit of service (unit) for billing purposes which represents the actual time spent providing a direct service. Direct service must be face-to-face with the child. There is no reimbursement for time reviewing/completing paperwork and/or documentation related to the service or for staff travel to/from the site of service, unless otherwise specified.

(1) Most units of service are time-based, meaning that the service must be of a minimum duration in order to be billed. A unit of service that is time-based is continuous minutes; the time cannot be aggregated throughout the day.

(2) There are no minimum time requirements for evaluation services, for which the unit of service is generally a completed evaluation. The only exception is the Psychological Evaluation/evaluation and testing (OAC 317:30-5-1023(b)(1)(H), which is billed in hourly increments.

~~(b) The following units of service are billed on the appropriate claim form:~~

- ~~(1) Service: Child Health Screening; Unit: Completed comprehensive screening.~~
- ~~(2) Service: Interperiodic Child Health Screening; Unit: Completed interperiodic screening.~~

~~(3) Service: Child Health Encounter; Unit: per encounter; limited to 3 encounters per day.~~

~~(4) Service: Individual Treatment Encounter; Unit: 15 minutes, unless otherwise specified.~~

~~(A) Hearing and Vision Services.~~

~~(B) Speech Language Therapy; Unit: per session, limited to one per day.~~

~~(C) Physical Therapy.~~

~~(D) Occupational Therapy.~~

~~(E) Nursing Services; Unit: up to 15 minutes; maximum 32 units per day.~~

~~(F) Psychotherapy Services; maximum 8 units per day.~~

~~(G) Assistive Technology.~~

~~(H) Therapeutic Behavioral Services.~~

~~(5) Service: Group Treatment Encounter; no more than 5 members per group, Unit: 15 minutes, unless otherwise specified. A daily log/list must be maintained and must identify the SoonerCare participants for each group therapy session.~~

~~(A) Hearing and Vision Services.~~

~~(B) Speech Language Therapy; Unit: per session, limited to one per day.~~

~~(C) Physical Therapy.~~

~~(D) Occupational Therapy.~~

~~(E) Psychotherapy Services; maximum 8 units per day.~~

~~(6) Service: Administration only, Immunization; Unit: one administration.~~

~~(7) Service: Hearing Evaluation; Unit: Completed Evaluation.~~

~~(8) Service: Hearing Aid Evaluation; Unit: Completed Evaluation.~~

~~(9) Service: Audiometric Test (Impedance); Unit: Completed Test (Both Ears).~~

~~(10) Service: Tympanometry and acoustic reflexes.~~

~~(11) Service: Ear Impression Mold; Unit: 2 molds (one per ear).~~

~~(12) Service: Vision Screening; Unit: one examination, by state licensed O.D., M.D., or D.O.~~

~~(13) Service: Speech Language Evaluation; Unit: one evaluation.~~

~~(14) Service: Physical Therapy Evaluation; Unit: one evaluation.~~

~~(15) Service: Occupational Therapy Evaluation; Unit: one evaluation.~~

~~(16) Service: Psychological Evaluation and Testing; Unit: one hour.~~

~~(17) Service: Personal Care Services; Unit: 10 minutes, 32 units daily.~~

~~(18) Service: Nursing Assessment/Evaluation (Acute episodic care); Unit: one assessment/evaluation, 18 yearly.~~

~~(19) Service: Psychological Evaluation and Testing; Unit: per hour of psychologist time, 8 hours yearly.~~

GIST/ANALYSIS:

The proposed revisions will define scope of service, medical necessity, prior authorization and extension requests for continued services. The proposed rule changes will define provider criteria and credentialing requirements for Board Certified Behavior Analyst® (BCBA®), Board Certified Assistant Behavior Analyst® (BCaBA®), Registered Behavior Technician™ (RBT®) and human services professionals. Additionally, SoonerCare will set prior authorization limits for ABA treatment. Authorizations will be granted for up to thirty (30) hours per week within a six (6) month period. SoonerCare recognizes that in some cases additional hours may be medically necessary; therefore, providers must submit a prior authorization request with supporting documentation for a secondary medical review. Other revisions will involve limited rewriting aimed at clarifying medical necessity criteria and updating outdated policy sections. These rules are currently in place as emergency rules. Further rule changes will clarify how Indian Health Services, Tribal Programs, and Urban Indian Clinics (I/T/Us) obstetrical (OB) providers should bill for OB care. I/T/Us have the option of either billing for OB encounters or a bundled rate for total OB care. The clarification will require I/T/Us to be specific when choosing a billing method as they are only allowed to choose one of the billing methods.

CONTACT PERSON:

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 3. GENERAL PROVIDER POLICIES

PART 4. EARLY AND PERIODIC SCREENING, ~~DIAGNOSIS~~DIAGNOSTIC AND TREATMENT (EPSDT) PROGRAM/CHILD-HEALTH SERVICES

317:30-3-65.12. Applied behavior analysis (ABA) services
(a) **Purpose and general provisions.** The purpose of this Section is to establish guidelines for the provision of ABA services under the EPSDT benefit.

(1) ABA focuses on the analysis, design, implementation, and evaluation of instructional and other environmental modifications to produce meaningful changes in human behavior. ABA services include the use of direct observation, measurement, and functional analysis of the relations between the environment and behavior. Common ABA-based techniques include, but are not limited to: discrete trial training; pivotal response training; and verbal behavioral intervention.

(2) ABA may be provided in a variety of settings, including home, community, or a clinical setting. It involves

development of an individualized treatment plan that includes transition and aftercare planning, and family/caregiver involvement.

(3) At an initial assessment, target symptoms are identified. A treatment plan is developed that identifies core deficits and aberrant behaviors, and includes designated interventions intended to address these deficits and behaviors and achieve individualized goals.

(4) ABA services require prior authorization [refer to Oklahoma Administrative Code (OAC) 317:30-3-31 and 317:30-3-65.12(e)].

(b) Functional behavior assessment (FBA) and treatment plan components.

(1) The FBA serves as a critical component of the treatment plan and is conducted by a board certified behavior analyst (BCBA) to identify the specific behavioral needs of the member. The FBA consists of:

- (A) Description of the problematic behavior (topography, onset/offset, cycle, intensity, severity);
- (B) History of the problematic behavior (long-term and recent);
- (C) Antecedent analysis (setting, people, time of day, events);
- (D) Consequence analysis; and
- (E) Impression and analysis of the function of the problematic behavior.

(2) The treatment plan is developed by a BCBA from the FBA. The treatment plan shall:

- (A) Be person-centered and individualized;
- (B) Delineate the baseline levels of target behaviors;
- (C) Specify long and short term objectives that are defined in observable, measureable behavioral terms;
- (D) Specify criteria that will be used to determine achievement of objectives;
- (E) Include assessment and treatment protocols for addressing each of the target behaviors;
- (F) Clearly identify the schedule of services planned and the individuals responsible for delivering the services, including frequent review of data on target behaviors and adjustments in the treatment plan and/or protocols by the BCBA as needed;
- (G) Include training and supervision to enable board certified assistant behavior analysts (BCaBAs) and registered behavior technicians (RBTs) to implement assessment and treatment protocols;
- (H) Include training and support to enable parents and other caregivers to participate in treatment planning and successfully reinforce the established treatment plan;
- (I) Include care coordination involving the parents or caregiver(s), school, state disability programs, and others as applicable; and
- (J) Ensure that services are consistent with applicable professional standards and guidelines relating to the practice of applied behavior analysis as well as state Medicaid laws and regulations.

(c) **Eligible providers.** Eligible ABA provider types include:

(1) Board certified behavior analyst® (BCBA®) - A master's or doctoral level independent practitioner who is certified by the national-accrediting Behavior Analyst Certification Board, Inc.® (BACB®) and licensed by Oklahoma Department of Human Services' (OKDHS) Developmental Disabilities Services Division (DDS) to provide behavior analysis services. A BCBA may supervise the work of board certified assistant behavior analysts and registered behavior technicians implementing behavior analytic interventions;

(2) Board certified assistant behavior analyst® (BCaBA®) - A bachelor's level practitioner who is certified by the national-accrediting BACB and certified by OKDHS DDS to provide behavior analysis services under the supervision of a BCBA;

(3) Registered behavior technician™ (RBT®) - A high school level or higher paraprofessional who is certified by the national-accrediting BACB and practices under the close and ongoing supervision of a BCBA. The RBT works under the license number of a BCBA and is primarily responsible for the direct implementation of BCBA designed and prescribed behavior-analytic services; and

(4) Human services professional - A practitioner who is licensed by the State of Oklahoma pursuant to (A) - (H), and certified by the national-accrediting BACB, and who is working within the scope of his or her practice, to include:

- (A) A licensed physical therapist;
- (B) A licensed occupational therapist;
- (C) A licensed clinical social worker or social worker candidate under the supervision of a licensed clinical social worker;
- (D) A licensed psychologist;
- (E) A licensed speech-language pathologist or licensed audiologist;
- (F) A licensed professional counselor or professional counselor candidate under the supervision of a licensed professional counselor;
- (G) A licensed marital and family therapist or marital and family therapist candidate under the supervision of a licensed marital and family therapist; or
- (H) A licensed behavioral practitioner or behavioral practitioner candidate under the supervision of a licensed behavioral practitioner.

(d) **Provider criteria.** To direct, supervise, and/or render ABA services, the following conditions shall be met.

- (1) A BCBA shall:
 - (A) Be currently licensed by OKDHS DDS as a BCBA;
 - (B) Have no sanctions or disciplinary actions by OKDHS DDS or the BACB;
 - (C) Have no current overpayment(s) due to SoonerCare, and no Medicare or Medicaid sanctions or exclusions from participation in federally funded programs; and
 - (D) Be fully contracted with SoonerCare as a provider.

Permanent Final Adoptions

- (2) A BCaBA shall:
 - (A) Be currently certified by OKDHS DDS as a BCaBA;
 - (B) Work under the supervision of a SoonerCare-contracted BCBA provider;
 - (C) Have no current overpayment(s) due to SoonerCare, and no Medicare or Medicaid sanctions or exclusions from participation in federally funded programs; and
 - (D) Be fully contracted with SoonerCare as a provider.
- (3) An RBT shall:
 - (A) Be currently certified by the national-accrediting BACB as an RBT;
 - (B) Work under the supervision of a SoonerCare-contracted BCBA provider;
 - (C) Have no current overpayment(s) due to SoonerCare, and no Medicare or Medicaid sanctions or exclusions from participation in federally funded programs; and
 - (D) Be fully contracted with SoonerCare as a provider.
- (4) A human services professional shall:
 - (A) Be currently licensed or certified by the State of Oklahoma, in accordance with Section 1928 of Title 59 of the Oklahoma Statutes;
 - (B) Be currently certified by the national-accrediting BACB;
 - (C) Have no sanctions or disciplinary actions by the applicable state licensing board or the BACB;
 - (D) If working under supervision within the scope of his or her practice, have a documented relationship with a fully-licensed human service professional working in a supervisory capacity;
 - (E) Have no current overpayment(s) due to SoonerCare, and no Medicare or Medicaid sanctions or exclusions from participation in federally funded programs; and
 - (F) Be fully contracted with SoonerCare as a provider.
- (e) **Medical necessity criteria for members under twenty-one (21) years of age.** ABA services are considered medically necessary when all of the following conditions are met:
 - (1) The member is under twenty-one (21) years of age with a definitive diagnosis of an Autism Spectrum Disorder (ASD) from the following providers:
 - (A) Pediatric neurologist or neurologist;
 - (B) Developmental pediatrician;
 - (C) Licensed psychologist;
 - (D) Psychiatrist or neuropsychiatrist; or
 - (E) Other licensed physician experienced in the diagnosis and treatment of autism.
 - (2) A comprehensive diagnostic evaluation completed by one (1) of the above identified professionals must:
 - (A) Be completed within the last two (2) years;
 - (B) Include a complete pertinent medical and social history, including pre-and perinatal, medical, developmental, family, and social elements; and
 - (C) Be based on criteria outlined in the Diagnostic and Statistical Manual of Mental Disorders (DSM-V) or the most current version of the DSM for ASD and/or may also include scores from the use of formal diagnostic tests such as the Autism Diagnostic Interview-Revised (ADI-R), Autism Diagnostic Observation Schedule-2 (ADOS-2), Childhood Autism Rating Scale (CARS) or other tools with acceptable psychometric properties. Screening scales are not sufficient to make a diagnosis and will not be accepted as the only formal scale.
 - (3) There must be a reasonable expectation that the member will benefit from ABA. The member must exhibit:
 - (A) The ability/capacity to learn and develop generalized skills to assist with his or her independence; and
 - (B) The ability to develop generalized skills to assist in addressing maladaptive behaviors associated with ASD.
 - (4) The member is medically stable and does not require twenty-four (24) hour medical/nursing monitoring or procedures provided in a hospital or intermediate care facility for individuals with intellectual disabilities (ICF/IID).
 - (5) The member exhibits atypical or disruptive behavior within the most recent thirty (30) calendar days that significantly interferes with daily functioning and activities. Such atypical or disruptive behavior may include, but is not limited to:
 - (A) Impulsive aggression toward others;
 - (B) Self-injury behaviors; or
 - (C) Intentional property destruction.
 - (6) The focus of treatment is not custodial in nature (which is defined as care provided when the member "has reached maximum level of physical or mental function and such person is not likely to make further significant improvement" or "any type of care where the primary purpose of the type of care provided is to attend to the member's daily living activities which do not entail or require the continuing attention of trained medical or paramedical personnel.")
 - (7) It has been determined that there is no other appropriate service which can be safely and effectively provided.
- (f) **Prior authorization.** Eligible providers must submit an initial prior authorization request to the Oklahoma Health Care Authority (OHCA) or its designated agent. Prior authorization requests shall be granted up to six (6) months of ABA treatment services at one (1) time unless a longer duration of treatment is clinically indicated. The number of hours authorized may differ from the hours requested on the prior authorization request based on the review by an OHCA reviewer and/or physician. If the member's condition necessitates a change in the treatment plan, the provider must request a new prior authorization. The

prior authorization request must meet the following Sooner-Care criteria for ABA services.

(1) The criteria includes a comprehensive behavioral and FBA outlining the behaviors consistent with the diagnosis of ASD and its associated comorbidities. In addition to completing the initial request form, providers will be required to submit documentation that will consist of the following:

(A) Information about relevant medical status, prior assessment results, response to prior treatment, and other relevant information gathered from review of records and past assessments.

(B) Information gathered from interview of family and/or caregivers, rating scales, and social validity measures to assess perceptions of the client's skill deficits and behavioral excesses, and the extent to which these deficits impede the daily life of the member and the family.

(C) Direct assessment and observation, including any data related to the identified problem behavior. The analysis of such data serves as the primary basis for identifying pretreatment levels of functioning, developing and adapting treatment protocols, and evaluating response to treatment and progress towards goals.

(D) Functional assessment of problem behavior that includes antecedent factors, skill deficits, and consequences contributing to the problem behavior. The treatment plan should address all three (3) areas, including antecedent interventions, teaching replacement skills, and modification of consequences.

(2) The prior authorization for ABA treatment will be time limited for up to thirty (30) hours per week unless other hours are deemed medically necessary and authorized through a prior authorization request and must:

(A) Be a one-on-one encounter (face to face between the member and ABA provider) except in the case of family adaptive treatment guidance;

(B) Be child-centered and based upon individualized goals that are strengths-specific, family focused, and community based;

(C) Be culturally competent and the least intrusive as possible;

(D) Clearly define in measurable and objective terms the specific target behaviors that are linked to the function of (or reason for) the behavior;

(E) Record the frequency, rate, symptom intensity/duration, or other objective measures of baseline levels;

(F) Set quantifiable criteria for progress;

(G) Establish and record behavioral intervention techniques that are appropriate to target behaviors. The detailed treatment plan utilizes reinforcement and other behavioral principles and excludes the use of methods or techniques that lack consensus about their effectiveness based on evidence in peer-reviewed publications;

(H) Specify strategies for generalization of learned skills;

(I) Document planning for transition through the continuum of interventions, services, and settings, as well as discharge criteria;

(J) Include parent(s)/legal guardian(s) in behavioral training techniques so that they can practice additional hours of intervention on their own. The treatment plan is expected to achieve the parent(s)/legal guardian(s) ability to successfully reinforce the established plan of care. Frequency of parental involvement will be determined by the treatment provider and listed on the treatment plan;

(K) Document parent(s)/legal guardian(s) participation in the training of behavioral techniques in the member's medical record. Parent(s)/legal guardian(s)' participation is critical to the generalization of treatment goals to the member's environment; and

(L) Ensure that recommended ABA services do not duplicate or replicate services received in a member's primary academic education setting, or provided within an Individualized Education Plan (IEP), Individualized Service Plan (ISP), or any other individual plan of care.

(g) **ABA extension requests.** Extension requests for ABA services must be submitted to the OHCA or its designated agent. Extension requests must contain the appropriate documentation validating the need for continued treatment and establish the following:

(1) Eligibility criteria in OAC 317:30-3-65.12(d) 1-6;

(2) The frequency of the target behavior has diminished since last review, or if not, there has been modification of the treatment or additional assessments have been conducted;

(3) If progress has not been measurable after two (2) extension requests, a functional analysis will be completed which records the member's maladaptive serious target behavioral symptom(s), and precipitants, as well as makes a determination of the function a particular maladaptive behavior serves for the member in the environmental context;

(4) Appropriate consultations from other staff or experts have occurred (psychiatric consults, pediatric evaluation for other conditions) and interventions have been changed, including the number of hours per week of service or setting (higher level of care);

(5) Parent(s)/legal guardian(s) have received re-training on these changed approaches; and

(6) The treatment plan documents a gradual tapering of higher intensities of intervention and shifting to supports from other sources (i.e., schools) as progress occurs.

(h) **Reimbursement methodology.** SoonerCare shall provide reimbursement for ABA services in accordance with the Medicaid State Plan.

(1) Payment shall only be made to SoonerCare-contracted groups or qualified individual providers who are currently licensed and in good standing. Payment is not

made to under supervision ABA practitioners/paraprofessionals, including but not limited to, BCaBAs and RBTs.

(2) Reimbursement for ABA services is only made on a fee-for-services basis. The maximum allowable fee for a unit of service has been determined by OHCA to be a reasonable fee, consistent with efficiency, economy, and quality of care. Payment for covered services is the lower of the provider's actual billed charges, consistent with the provider's usual and customary charge to the general public for the service, or the maximum allowable per unit of service.

(3) Reimbursement shall only be made for services that have been prior-authorized by OHCA or its designee; and performed on an individualized basis and not in a group setting except for family adaptive behavior treatment guidance by a qualified ABA provider [OAC 317:30-3-65.12(b)].

(4) Reimbursement for ABA services shall not be made to or for services rendered by a parent, legal guardian, or other legally responsible person.

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 1. PHYSICIANS

317:30-5-2. General coverage by category

(a) **Adults.** Payment for adults is made to physicians for medical and surgical services within the scope of the Oklahoma Health Care Authority's (OHCA) SoonerCare program, provided the services are reasonable and necessary for the diagnosis and treatment of illness or injury, or to improve the functioning of a malformed body member. Coverage of certain services must be based on a determination made by the OHCA's medical consultant in individual circumstances.

(1) Coverage includes the following medically necessary services:

(A) Inpatient hospital visits for all SoonerCare covered stays. All inpatient services are subject to post-payment review by the OHCA, or its designated agent.

(B) Inpatient psychotherapy by a physician.

(C) Inpatient psychological testing by a physician.

(D) One (1) inpatient visit per day, per physician.

(E) Certain surgical procedures performed in a Medicare certified free-standing ambulatory surgery center (ASC) or a Medicare certified hospital that offers outpatient surgical services.

(F) Therapeutic radiology or chemotherapy on an outpatient basis without limitation to the number of treatments per month for members with proven malignancies.

(G) Physician services on an outpatient basis include:

(i) ~~A maximum of four (4) primary care visits per member per month.~~ visits per member per

month, including primary care or specialty, with the exception of SoonerCare Choice members, or,

~~(ii) A maximum of four (4) specialty visits per member per month.~~

~~(iii)~~ Additional visits are allowed per month for treatment related to emergency medical conditions and family planning services.

(H) Direct physician services in a nursing facility.

(i) A maximum of two (2) nursing facility visits per month are allowed; and if the visit (s) is for psychiatric services, it must be provided by a psychiatrist or a physician with appropriate behavioral health training.

(ii) To receive payment for a second nursing facility visit in a month denied by Medicare for a Medicare/SoonerCare member, attach the explanation of Medicare benefits (EOMB) showing denial and mark "carrier denied coverage."

(I) Diagnostic x-ray and laboratory services.

(J) Mammography screening and additional follow-up mammograms as per current guidelines.

(K) Obstetrical care.

(L) Pacemakers and prostheses inserted during the course of a surgical procedure.

(M) Prior authorized examinations for the purpose of determining medical eligibility for programs administered by OHCA. A copy of the authorization, Oklahoma Department of Human Services ~~(DHS)~~ ~~(OKDHS)~~ form 08MA016E, Authorization for Examination and Billing, must accompany the claim.

(N) If a physician renders direct care to a member on the same day as a dialysis treatment, payment is allowed for a separately identifiable service unrelated to the dialysis.

(O) Family planning includes sterilization procedures for legally competent members twenty-one (21) years of age and over who voluntarily request such a procedure and execute the federally mandated consent form with his/her physician. A copy of the consent form must be attached to the claim form. Separate payment is allowed for the insertion and/or implantation of contraceptive devices during an office visit. Certain family planning products may be obtained through the Vendor Drug Program. Reversal of sterilization procedures for the purposes of conception is not allowed. Reversal of sterilization procedures are allowed when medically indicated and substantiating documentation is attached to the claim.

(P) Genetic counseling.

(Q) Laboratory testing.

(R) Payment for ultrasounds for pregnant women as specified in Oklahoma Administrative Code (OAC) 317:30-5-22.

(S) Payment to the attending physician in a teaching medical facility for compensable services when the physician signs as claimant and renders personal and identifiable services to the member in conformity with federal regulations.

(T) Payment to the attending physician for the services of a currently Oklahoma licensed physician in training when the following conditions are met:

- (i) Attending physician performs chart review and signs off on the billed encounter;
- (ii) Attending physician is present in the clinic/or hospital setting and available for consultation; and
- (iii) Documentation of written policy and applicable training of physicians in the training program regarding when to seek the consultation of the attending physician.

(U) Payment for services rendered by medical residents in an outpatient academic setting when the following conditions are met:

- (i) The resident has obtained a medical license or a special license for training from the appropriate regulatory state medical board; and
- (ii) has the appropriate contract on file with the OHCA to render services within the scope of their licensure.

(V) The payment to a physician for medically directing the services of a certified registered nurse anesthetist (CRNA) or for the direct supervision of the services of an anesthesiologist assistant (AA) is limited. The maximum allowable fee for the services of both providers combined is limited to the maximum allowable had the service been performed solely by the anesthesiologist.

(W) Screening and follow up pap smears as per current guidelines.

~~(X) Medically necessary solid organ and bone marrow/stem cell transplantation services for children and adults are covered services based upon the conditions listed in (i)-(iv) of this subparagraph:~~

- ~~(i) Transplant procedures, except kidney and cornea, must be prior authorized to be compensable.~~
- ~~(ii) To be prior authorized all procedures are reviewed based on appropriate medical criteria.~~
- ~~(iii) To be compensable under the SoonerCare program, all organ transplants must be performed at a facility which meets the requirements contained in Section 1138 of the Social Security Act.~~
- ~~(iv) Procedures considered experimental or investigational are not covered. Medically necessary organ and tissue transplantation services for children and adults are covered services based upon the conditions listed in (i)-(v) of this subparagraph:~~

- (i) All transplantation services, except kidney and cornea, must be prior authorized;
- (ii) All transplant procedures are reviewed and prior authorization is based upon appropriate medical criteria;
- (iii) All organ transplants must be performed at a Medicare-approved transplantation center;
- (iv) Procedures considered experimental or investigational are not covered; and

(v) Donor search and procurement services are covered for transplants consistent with the methods used by the Medicare program for organ acquisition costs.

~~(Y) Donor search and procurement services are covered for transplants consistent with the methods used by the Medicare program for organ acquisition costs.~~

~~(ZY)~~ Donor expenses incurred for complications are covered only if they are directly and immediately attributable to the donation procedure. Donor expenses that occur after the ninety (90) day global reimbursement period must be submitted to the OHCA for review.

~~(AAZ)~~ Total parenteral nutritional (TPN) therapy for identified diagnoses and when prior authorized.

~~(BBAA)~~ Ventilator equipment.

~~(CCBB)~~ Home dialysis equipment and supplies.

~~(DDCC)~~ Ambulatory services for treatment of members with tuberculosis (TB). This includes, but is not limited to, physician visits, outpatient hospital services, rural health clinic visits and prescriptions. Drugs prescribed for the treatment of TB beyond the prescriptions covered under SoonerCare require prior authorization by the University of Oklahoma College of Pharmacy Help Desk using form "Petition for TB Related Therapy." Ambulatory services to members infected with TB are not limited to the scope of the SoonerCare program, but require prior authorization when the scope is exceeded.

~~(EEDD)~~ Smoking and tobacco use cessation counseling for treatment of members using tobacco.

(i) Smoking and tobacco use cessation counseling consists of the 5As:

- (I) Asking the member to describe their smoking use;
- (II) Advising the member to quit;
- (III) Assessing the willingness of the member to quit;
- (IV) Assisting the member with referrals and plans to quit; and
- (V) Arranging for follow-up.

(ii) Up to eight (8) sessions are covered per year per individual.

(iii) Smoking and tobacco use cessation counseling is a covered service when performed by physicians, physician assistants (PA), advanced registered nurse practitioners (ARNP), certified nurse midwives (CNM), dentists, Oklahoma State Health Department (OSDH) and Federally Qualified Health Center (FQHC) nursing staff, and maternal/child health licensed clinical social worker trained as a certified tobacco treatment specialist (CTTS). It is reimbursed in addition to any other appropriate global payments for obstetrical care, primary care provider (PCP) care coordination payments, evaluation and management codes, or other appropriate services rendered. It must be a

significant, separately identifiable service, unique from any other service provided on the same day.

(iv) Chart documentation must include a separate note that addresses the 5A's and office note signature along with the member specific information addressed in the five (5) steps and the time spent by the practitioner performing the counseling. Anything under three (3) minutes is considered part of a routine visit and not separately billable.

(~~FFEE~~) Immunizations as specified by the Advisory Committee on Immunization Practices (ACIP) guidelines.

(~~GGFF~~) Genetic testing and other molecular pathology services are covered when medically necessary. Genetic testing may be considered medically necessary when the following conditions are met:

(i) The member displays clinical features of a suspected genetic condition, is at direct risk of inheriting the genetic condition in question (e.g., a causative familial variant has been identified) or has been diagnosed with a condition where identification of specific genetic changes will impact treatment or management; and

(ii) Clinical studies published in peer-reviewed literature have established strong evidence that the result of the test will positively impact the clinical decision-making or clinical outcome for the member; and

(iii) The testing method is proven to be scientifically valid for the identification of a specific genetically-linked inheritable disease or clinically important molecular marker; and

(iv) A medical geneticist, physician, or licensed genetic counselor provides documentation that supports the recommendation for testing based on a review of risk factors, clinical scenario, and family history.

(2) General coverage exclusions include the following:

(A) Inpatient admission for diagnostic studies that could be performed on an outpatient basis.

(B) Services or any expense incurred for cosmetic surgery.

(C) Services of two (2) physicians for the same type of service to the same member on the same day, except when supplemental skills are required and different specialties are involved.

(D) Routine eye examinations for the sole purpose of prescribing glasses or visual aids, determination of refractive state, treatment of refractive errors or purchase of lenses, frames or visual aids.

(E) Pre-operative care within twenty-four (24) hours of the day of admission for surgery and routine post-operative care as defined under the global surgery guidelines promulgated by Current Procedural Terminology (CPT) and the Centers for Medicare and Medicaid Services (CMS).

(F) Payment to the same physician for both an outpatient visit and admission to hospital on the same date.

(G) Sterilization of members who are under twenty-one (21) years of age, mentally incompetent, or institutionalized or reversal of sterilization procedures for the purposes of conception.

(H) Non-therapeutic hysterectomies.

(I) Medical services considered experimental or investigational.

(J) Payment for more than four (4) outpatient visits per member (home or office) per month, except visits in connection with family planning, services related to emergency medical conditions, or primary care services provided to SoonerCare Choice members.

(K) Payment for more than two (2) nursing facility visits per month.

(L) More than one (1) inpatient visit per day per physician.

(M) Physician services which are administrative in nature and not a direct service to the member including such items as quality assurance, utilization review, treatment staffing, tumor board review or multidisciplinary opinion, dictation, and similar functions.

(N) Charges for completion of insurance forms, abstracts, narrative reports or telephone calls.

(O) Payment for the services of social workers, licensed family counselors, registered nurses or other ancillary staff, except as specifically set out in OHCA rules.

(P) Induced abortions, except when certified in writing by a physician that the abortion was necessary due to a physical disorder, injury or illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would place the woman in danger of death unless an abortion is performed, or that the pregnancy is the result of an act of rape or incest. (Refer to OAC 317:30-5-6 or 317:30-5-50).

(Q) Speech and hearing services.

(R) Mileage.

(S) A routine hospital visit on the date of discharge unless the member expired.

(T) Direct payment to perfusionist as this is considered part of the hospital reimbursement.

(U) Inpatient chemical dependency treatment.

(V) Fertility treatment.

(W) Payment for removal of benign skin lesions.

(X) Sleep studies.

(b) **Children.** Payment is made to physicians for medical and surgical services for members under the age of twenty-one (21) within the scope of the SoonerCare program, provided the services are medically necessary for the diagnosis and treatment of illness or injury, or to improve the functioning of a malformed body member. Medical and surgical services for children are comparable to those listed for adults. For services rendered to a minor child, the child's parent or court-appointed legal guardian must provide written authorization prior to

the service being rendered, unless there is an explicit state or federal exception to this requirement. In addition to those services listed for adults, the following services are covered for children.

(1) **Pre-authorization of inpatient psychiatric services.** All inpatient psychiatric services for members under twenty-one (21) years of age must be prior authorized by an agency designated by the OHCA. All psychiatric services are prior authorized for an approved length of stay. Non-authorized inpatient psychiatric services are not SoonerCare compensable.

(A) All ~~residential and acute~~ inpatient psychiatric services are authorized based on the medical necessity criteria as described in OAC 317:30-5-95.25, 317:30-5-95.27 and 317:30-5-95.29.

(B) For out of state placements, refer to OAC 317:30-3-89 through 317:30-3-92.

(2) **General ~~acute care~~ Acute inpatient service limitations.** All general ~~acute care~~ Acute inpatient hospital services for members under the age of twenty-one (21) are not limited. All inpatient care must be medically necessary.

(3) **Procedures for requesting extensions for inpatient services.** The physician and/or facility must provide necessary justification to enable OHCA, or its designated agent, to make a determination of medical necessity and appropriateness of treatment options. Extension requests for psychiatric admissions must be submitted to the OHCA or its designated agent. Extension requests must contain the appropriate documentation validating the need for continued treatment in accordance with the medical necessity criteria described in OAC 317:30-5-95.26, 317:30-5-95.28 and 317:30-5-95.30. Requests must be made prior to the expiration of the approved inpatient stay. All decisions of OHCA or its designated agent are final.

(4) **Utilization control requirements for psychiatric beds.** Utilization control requirements for inpatient psychiatric services for members under twenty-one (21) years of age apply to all hospitals and residential psychiatric treatment facilities.

(5) **Early and periodic screening diagnosis and treatment (EPSDT) program.** Payment is made to eligible providers for EPDST of members under age twenty-one (21). These services include medical, dental, vision, hearing and other necessary health care. Refer to OAC 317:30-3-65.2 through ~~317:30-3-65.11~~ 317:30-3-65.12 for specific guidelines.

(6) **Reporting suspected abuse and/or neglect.** Instances of child abuse and/or neglect are to be reported in accordance with state law, including, but not limited to, ~~10A Oklahoma Statute (O.S.) § 1-2-101~~ Section 1-2-101 of Title 10A of the Oklahoma Statutes and 43A O.S. § 10-104. Any person suspecting child abuse or neglect shall immediately report it to the Oklahoma Department of Human Services (~~DHS~~) (OKDHS) hotline, at 1-800-522-3511; any person suspecting abuse, neglect, or exploitation of a vulnerable adult shall immediately report it to the local ~~DHS~~ OKDHS county office, municipal or

county law enforcement authorities, or, if the report occurs after normal business hours, the ~~DHS~~ OKDHS hotline. Health care professionals who are requested to report incidents of domestic abuse by adult victims with legal capacity shall promptly make a report to the nearest law enforcement agency, per 22 O.S. § 58.

(7) **General exclusions.** The following are excluded from coverage for members under the age of twenty-one (21):

(A) Inpatient admission for diagnostic studies that could be performed on an outpatient basis.

(B) Services or any expense incurred for cosmetic surgery unless the physician certifies the procedure emotionally necessary.

(C) Services of two (2) physicians for the same type of service to the same member on the same day, except when supplemental skills are required and different specialties are involved.

(D) Pre-operative care within twenty-four (24) hours of the day of admission for surgery and routine post-operative care as defined under the global surgery guidelines promulgated by CPT and CMS.

(E) Payment to the same physician for both an outpatient visit and admission to hospital on the same date.

(F) Sterilization of members who are under twenty-one (21) years of age, mentally incompetent, or institutionalized or reversal of sterilization procedures for the purposes of conception.

(G) Non-therapeutic hysterectomies.

(H) Medical services considered experimental or investigational.

(I) More than one (1) inpatient visit per day per physician.

(J) Induced abortions, except when certified in writing by a physician that the abortion was necessary due to a physical disorder, injury or illness, including a life-endangering physical condition caused by or arising from the pregnancy itself, that would place the woman in danger of death unless an abortion is performed, or that the pregnancy is the result of an act of rape or incest. (Refer to OAC 317:30-5-6 or 317:30-5-50).

(K) Physician services which are administrative in nature and not a direct service to the member including such items as quality assurance, utilization review, treatment staffing, tumor board review or multidisciplinary opinion, dictation, and similar functions.

(L) Payment for the services of social workers, licensed family counselors, registered nurses or other ancillary staff, except as specifically set out in OHCA rules.

(M) Direct payment to perfusionist as this is considered part of the hospital reimbursement.

(N) Charges for completion of insurance forms, abstracts, narrative reports or telephone calls.

(O) Mileage.

Permanent Final Adoptions

(P) A routine hospital visit on date of discharge unless the member expired.

(c) **Individuals eligible for Part B of Medicare.** Payment is made utilizing the OHCA allowable for comparable services. Claims filed with Medicare Part B should automatically cross over to OHCA. The EOMB reflects a message that the claim was referred to SoonerCare. If such a message is not present, a claim for coinsurance and deductible must be filed with the OHCA within ninety (90) days of the date of Medicare payment and within one (1) year of the date of service in order to be considered timely filed.

(1) In certain circumstances, some claims do not automatically "cross over." Providers must file a claim for coinsurance and/or deductible to SoonerCare within ninety (90) days of the Medicare payment and within one (1) year from the date of service.

(2) If payment was denied by Medicare Part B and the service is a SoonerCare covered service, mark the claim "denied by Medicare" and attach the EOMB showing the reason for the denial.

PART 35. RURAL HEALTH CLINICS

317:30-5-355.1. Definition of services

The ~~RHC~~Rural Health Clinic (RHC) benefit package, as described in Title 42 of the Code of Federal Regulations (~~CFR~~C.F.R.), ~~part~~ §440.20, consists of two (2) components: ~~RHC Services and Other Ambulatory Services~~services and other ambulatory services.

(1) **RHC services.** RHC services are covered when furnished to a member at the clinic or other location, including the member's place of residence. These services are described in this Section.

(A) **Core services.** As set out in ~~Federal Regulations at 42 CFR~~C.F.R. §440.20(b), RHC "core" services include, but are not limited to:

- (i) Physician's services;
- (ii) Services and supplies incident to a physician's services;
- (iii) Services of advanced practice registered nurses (APNs)(APRNs), physician assistants (PAs), certified nurse midwives (CNMs), or specialized advanced practice nurse practitioners;
- (iv) Services and supplies incident to the services of ~~APNs~~APRNs and PAs (including services furnished by ~~certified nurse midwives~~CNMs);
- (v) Visiting nurse services to the homebound;
- (vi) Clinical psychologist (CP) and clinical social worker (CSW) services;
- (vii) Services and supplies incident to the services of CPs and CSWs.

(B) **Physicians' services.** In addition to the professional services of a physician, and services provided by an ~~APN~~APRN, PA, and ~~NM~~CNM which would be covered as RHC services under Medicare, certain primary preventive services are covered under the

SoonerCare RHC benefit. The services must be furnished by or under the direct supervision of ~~an~~ RHC practitioner who is a clinic employee:

- (i) ~~prenatal~~Prenatal and postpartum care;
- (ii) ~~screening~~Screening examination under the Early and Periodic Screening, ~~Diagnostic~~Diagnostic and Treatment (EPSDT) Program for members under ~~24~~twenty-one (21);
- (iii) ~~family~~Family planning services;
- (iv) ~~medically~~Medically necessary screening mammography and follow-up mammograms ~~when medically necessary~~.

(C) **Services and supplies "incident to".** Services and supplies incident to the service of a physician, ~~physician assistant, advanced practice nurse, clinical psychologist, or clinical social worker~~PA, APRN, CP, or CSW are covered if the service or supply is:

- (i) ~~a~~A type commonly furnished in physicians' offices;
- (ii) ~~a~~A type commonly rendered either without charge or included in the rural health clinic's bill;
- (iii) ~~furnished~~Furnished as an incidental, although integral, part of a physician's professional services; or
- (iv) Drugs and biologicals which cannot be self-administered or are specifically covered by Medicare law, are included within the scope of RHC services. Drugs and biologicals commonly used in life saving procedures, such as analgesics, anesthetics (local), antibiotics, anticonvulsants, antidotes and emetics, serums and toxoids are not billed separately.

(D) **Visiting nurse services.** Visiting nurse services are covered if:

- (i) ~~the~~The RHC is located in an area in which the Centers for Medicare and Medicaid Services (CMS) has determined there is a shortage of home health agencies;
- (ii) ~~the~~The services are rendered to members who are homebound;
- (iii) ~~the~~The member is furnished nursing care on a part-time or intermittent basis by a registered nurse, licensed practical nurse, or licensed vocational nurse who is employed by or receives compensation for the services from the RHC; and
- (iv) ~~the~~The services are furnished under a written plan of treatment.

(E) **RHC encounter.** RHC "core" services (including preventive services, i.e., prenatal, EPSDT, or family planning) are part of an all-inclusive visit. A "visit" means a face-to-face encounter between a clinic patient and ~~an~~ RHC health professional (~~i.e., physicians, physician assistants, advanced practice nurses, certified nurse midwives, clinical psychologists and clinical social workers~~)(physicians, PAs, APRNs, CNMs, CPs, and CSWs). Encounters with more than one (1) health professional and multiple

encounters with the same health professional that takes place on the same day and a single location, constitute a single visit except when the member, after the first encounter, suffers illness or injury requiring additional diagnosis or treatment. Payment is made for one (1) encounter per member per day. Medical review will be required for additional visits for children. Payment is also limited to four (4) visits per member per month for adults.

(F) **Off-site services.** RHC services provided off-site of the clinic are covered as long as the RHC has a compensation arrangement with the RHC practitioner that SoonerCare reimbursement is made to the RHC and the RHC practitioner receives his or her compensation from the RHC. The ~~rural health clinic~~RHC must have a written contract with the physician and other RHC "core" practitioners that specifically identify how the ~~rural health clinic~~RHC services provided off-site are to be billed to SoonerCare. It is expected that services provided in off-site settings are, in most cases, temporary and intermittent, i.e., when the member cannot come to the clinic due to health reasons.

(2) **Other ambulatory services.** A ~~Rural Health Clinic~~An RHC must provide other items and services which are not "RHC services" as described in ~~(a)~~(1) of this Section, and are separately billable to the SoonerCare program within the scope of the SoonerCare fee-for-service (FFS) contract. Coverage of services are based upon the scope of coverage under the SoonerCare program.

(A) Other ambulatory services include, but are not limited to:

- (i) ~~dental~~Dental services for members under age ~~21~~the age of twenty-one (21);
- (ii) ~~optometric~~Optometric services;
- (iii) ~~clinical~~Clinical lab tests performed in the RHC lab, including the lab tests required for RHC certification;
- (iv) ~~technical~~Technical component of diagnostic tests such as x-rays and EKGs (interpretation of the test provided by the RHC physician is included in the encounter rate);
- (v) ~~durable~~Durable medical equipment;
- (vi) ~~emergency—ambulance—transportation~~Transportation by ambulance [refer to Oklahoma Administrative Code (OAC) 317:30-5-335];
- (vii) ~~prescribed~~Prescribed drugs;
- (viii) ~~prosthetic~~Prosthetic devices (other than dental) which replace all or part of an internal body organ (including colostomy bags) and supplies directly related to colostomy care and the replacement of such devices;
- (ix) ~~specialized~~Specialized laboratory services furnished away from the clinic;
- (x) ~~inpatient~~Inpatient services;
- (xi) ~~outpatient~~Outpatient hospital services; and

(xii) Applied behavior analysis (ABA) [refer to OAC 317:30-3-65.12].

(xiii) Diabetes self-management training (DSMT) (refer to OAC 317:30-5-1080 - 1084).

(B) Payment is made directly to the RHC on an encounter basis for on-site dental services by a licensed dentist or optometric services by a licensed optometrist for members under age ~~21~~the age of twenty-one (21). Encounters are billed as one (1) of the following:

(i) **EPSDT dental screening.** An EPSDT dental screening includes oral examination, prophylaxis and fluoride treatment, charting of needed treatment, and, if necessary, x-rays (including two bite wing films). This service must be filed on claim form ADM-36-D for EPSDT reporting purposes.

(ii) **Dental encounter.** A dental encounter consists of all dental treatment other than a dental screening. This service must be billed on the ADM-36-D.

(iii) **Visual analysis.** Visual analysis (initial or yearly) for a child with glasses, or a child who needs glasses, or a medical eye exam. This includes the refraction and medical eye health evaluation. Glasses must be billed separately. Payment is limited to two (2) glasses per year. Any glasses beyond this limit must be prior authorized and determined to be medically necessary.

(C) Services listed in ~~(a)~~(2)(A), (v)-(viii), of this Section, furnished on-site, require separate provider agreements with the ~~OHCA~~Oklahoma Health Care Authority (OHCA). Service item ~~(a)~~(2)(A)(iii) does not require a separate contract when furnished on-site, however, certain conditions of participation apply. (Refer to OAC 317:30-5-361 for conditions.)

(D) Other ambulatory services provided off-site by independent practitioners (through subcontracting agreements or arrangements for services not available at the clinic) must be billed to the SoonerCare program by the provider rendering the service. Independent practitioners must meet provider eligibility criteria and must have a current contract with the OHCA.

317:30-5-357. Coverage for children

Coverage for rural health clinic (RHC) services and other ambulatory services for children include the same services as for adults in addition to the following:

- (1) The receipt of an Early and Periodic Screening, Diagnosis and Treatment (EPSDT) examination by a Medicaid eligible individual under age 21 renders that individual child eligible for all necessary follow up care, whether or not the medically necessary services are covered under the Medicaid Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services are covered for eligible members under twenty-one (21) years of age in accordance with Oklahoma Administrative Code

(OAC) 317:30-3-65. An EPSDT exam performed by ~~an~~ RHC must be billed on the appropriate claim form with the appropriate ~~Preventative Medicine~~ preventive medicine procedure code from the Current Procedural Terminology Manual (CPT) manual. If an EPSDT screening is billed, ~~an~~ RHC encounter should not be billed on the same day. ~~Refer to OAC 317:30-3-47 through 317:30-3-54 for coverages under EPSDT.~~ Refer to OAC 317:30-3-65 through 317:30-3-65.12.

(2) Under EPSDT, coverage is allowed for visual screenings and eyeglasses to correct visual defects. Payment is limited to two (2) glasses per year. Any glasses beyond this limit must be prior authorized and determined to be medically necessary.

(3) An EPSDT screening is considered a comprehensive examination. A provider billing the Medicaid program for an EPSDT ~~screen~~ screening may not bill any other visits for that patient on that same day. It is expected that the screening provider will perform necessary treatment as part of the screening charge. Additional services such as tests, immunizations, etc., required at the time of screening may be billed independently from the screening.

(4) The administration fee for immunizations should be billed if provided at the same time as a scheduled EPSDT examination.

(5) Payment may be made directly to the RHC for the professional services of physician assistants performing EPSDT screenings within the certified RHC. The claim form must include the signature of the supervising physician.

PART 37. ADVANCED PRACTICE REGISTERED NURSE

317:30-5-376. Coverage by category

Payment is made to ~~Advanced Practice Nurse~~ advanced practice registered nurses (APRNs) as set forth in this Section.

(1) **Adults.** Payment for adults is made for primary care health services, within the scope of practice of ~~Advanced Practice Nurse~~ an APRN and within the scope of the Oklahoma Health Care Authority (OHCA) medical programs.

(2) **Children.** Payment for children is made for primary care health services, within the scope of practice of ~~Advanced Practice Nurse~~ an APRN, to ~~children and adolescents under 21~~ members under twenty-one (21) years of age, including ~~EPSDT~~ Early and Periodic Screening, Diagnostic and Treatment (EPSDT) screening services ~~and within the scope of the Oklahoma Health Care Authority medical programs.~~

(A) Payment is made to eligible providers for ~~Early and Periodic Screening, Diagnosis and Treatment of individuals under age 21~~ EPSDT services to members under twenty-one (21) years of age. Specific guidelines for the EPSDT program including the periodicity schedule are found in ~~OAC~~ Oklahoma

Administrative Code (OAC) 317:30-3-65 through ~~317:30-3-65.11~~ 317:30-3-65.12.

(B) Comprehensive screening examinations are to be performed by a provider qualified under State law to furnish primary health care services.

(3) **Individuals eligible for Part B of Medicare.** Payment is made utilizing the Medicaid allowable for comparable services.

PART 75. FEDERALLY QUALIFIED HEALTH CENTERS

317:30-5-664.1. Provision of other health services outside of the Health Center core services

(a) If the Center chooses to provide other ~~Sooner Care~~ Oklahoma Medicaid State Plan covered health services which are not included in the Health Center core service definition in ~~OAC~~ Oklahoma Administrative Code (OAC) 317:30-5-661.1, the practitioners of those services are subject to the same program coverage limitations, enrollment, and billing procedures described by the ~~OHCA~~ Oklahoma Health Care Authority (OHCA), and these services (e.g., home health services) are not included in the PPS settlement methodology in OAC 317:30-5-664.12.

(b) Other medically necessary health services that will be reimbursed at the fee-for-service (FFS) rate include, but are not limited to:

(1) ~~dental~~ Dental services (refer to OAC 317:30-5-696) except for primary preventive dental services;

(2) ~~eyeglasses~~ (OAC 317:30-5-430 and OAC 317:30-5-450) Eyeglasses (refer to OAC 317:30-5-431, 317:30-5-432.1 and 317:30-5-451);

(3) ~~clinical~~ Clinical lab tests performed in the Center lab (other than the specific laboratory tests set out for Health Centers' certification and covered as Health Center services);

(4) ~~technical~~ Technical component of diagnostic tests such as x-rays and EKGs (interpretation of the test provided by the Center physician is included as physician professional services);

(5) ~~durable~~ Durable medical equipment (refer to OAC 317:30-5-210);

(6) ~~emergency ambulance transportation~~ Transportation by ambulance (refer to OAC 317:30-5-335);

(7) ~~prescribed~~ Prescribed drugs (refer to OAC 317:30-5-70);

(8) ~~prosthetic~~ Prosthetic devices (other than dental) which replace all or part of an internal body organ (including colostomy bags) and supplies directly related to colostomy care and the replacement of such devices;

(9) ~~specialized~~ Specialized laboratory services furnished away from the clinic;

(10) Psychosocial ~~Rehabilitation Services~~ rehabilitation services [refer to OAC 317:30-5-241.3] (refer to OAC 317:30-5-241.3); and

- (11) ~~behavioral~~Behavioral health related case management services (refer to OAC 317:30-5-241.6); and
 (12) Applied behavior analysis (ABA) (refer to OAC 317:30-3-65.12).
 (13) Diabetes self-management training (DSMT) (refer to OAC 317:30-5-1080 through 317:30-5-1084).

PART 108. NUTRITION SERVICES

317:30-5-1076. Coverage by category

Payment is made for ~~Nutritional Services~~nutritional services as set forth in this ~~section~~Section.

- (1) **Adults.** Payment is made for six (6) hours of medically necessary nutritional counseling per year by a licensed registered dietitian. All services must be prescribed by a physician, physician assistant (PA), advanced practice registered nurse (APRN), or certified nurse midwife (CNW), and be ~~face-to-face~~face-to-face encounters between a licensed registered dietitian and the member. Services must be expressly for diagnosing, treating or preventing, or minimizing the effects of illness. Nutritional services for the treatment of obesity is not covered unless there is documentation that the obesity is a contributing factor in another illness.
- (2) **Children.** Payment is made for medically necessary nutritional counseling as described above for adults. Nutritional services for the treatment of obesity may be covered for children as part of the ~~EPSDT~~Early and Periodic Screening, Diagnostic and Treatment (EPSDT) benefit. Additional services which are deemed medically necessary and allowable under federal regulations may be covered by the EPSDT benefit found at OAC 317:30-3-65 and ~~through 317:30-3-65.11~~317:30-3-65.12.
- (3) ~~Home and Community Based Waiver Services~~community-based services (HCBS) waiver for the intellectually disabled~~intellectually disabled~~. All providers participating in the ~~Home and Community Based Waiver Services~~HCBS waiver for the intellectually disabled program must have a separate contract with ~~OHCA~~the Oklahoma Health Care Authority (OHCA) to provide ~~Nutrition Services~~nutrition services under this program. All services are specified in the individual's plan of care.
- (4) **Individuals eligible for Part B of Medicare.** Payment is made utilizing the Medicaid allowable for comparable services. Services which are not covered under Medicare should be billed directly to OHCA.
- (5) **Obstetrical patients.** Payment is made for a maximum of six (6) hours of medically necessary nutritional counseling per year by a licensed registered dietitian for members at risk for or those who have been recently diagnosed with gestational diabetes. The initial consultation may be in a group setting for a maximum of two (2) hours of class time. Thereafter, four (4) hours of nutritional counseling by a licensed registered dietitian may be provided to the individual if deemed medically necessary, which may include a post-partum visit, typically done

at ~~six~~ (6) weeks after delivery. All services must be prescribed by a physician, ~~physician assistant, advanced practice nurse or a certified nurse midwife~~PA, APRN, or CNM and be ~~face-to-face~~face to face between a licensed registered dietitian and the member(s). Services must be solely for the prevention, diagnosis, or treatment of gestational diabetes.

PART 110. INDIAN HEALTH SERVICES, TRIBAL PROGRAMS, AND URBAN INDIAN CLINICS(I/T/US)

317:30-5-1090. Provision of other health services outside of the I/T/U encounter

(a) Medically necessary SoonerCare covered services that are not included in the I/T/U outpatient encounter rate may be billed outside the encounter rate within the scope of the SoonerCare fee-for-service (FFS) contract. The services will be reimbursed at the ~~fee-for-service~~FFS rate, and will be subject to any limitations, restrictions, or prior authorization requirements. Examples of these services include, but are not limited to:

- (1) ~~durable~~Durable medical equipment [refer to Oklahoma Administrative Code (OAC) 317:30-5-210];
 (2) ~~glasses~~Eyeglasses (refer to OAC 317:30-5-431, 317:30-5-432.1 and 317:30-5-451);
 (3) ~~ambulance~~Transportation by ambulance (refer to OAC 317:30-5-335);
 (4) ~~home~~Home healthrefer to OAC 317:30-5-546;
 (5) ~~inpatient~~Inpatient practitioner services (refer to OAC 317:30-5-1100);
 (6) ~~non-emergency~~Non-emergency transportation refer to OAC 317:35-3-2;
 (7) ~~behavioral~~Behavioral health case management refer to OAC 317:30-5-241.6;
 (8) ~~psychosocial~~Psychosocial rehabilitative services refer to OAC 317:30-5-241.3; and
 (9) ~~psychiatric~~Psychiatric residential treatment facility services[refer to OAC 317:30-5, Part 6, Inpatient Psychiatric Hospitals], (refer to OAC 317:30-5-95 through 317:30-5-97);
 (10) Applied behavior analysis (ABA) (refer to OAC 317:30-3-65.12); and
 (11) Diabetes self-management training (DSMT) (refer to OAC 317:30-5-1080 through 317:30-5-1084).

(b) If the I/T/U facility chooses to provide other ~~SoonerCare~~Oklahoma Medicaid State Plan covered health services which are not included in the I/T/U encounter definition, those service providers must be contracted with ~~OHCA~~the Oklahoma Health Care Authority (OHCA) and bill for those services under their assigned provider number consistent with program coverage limitations and billing procedures described by the OHCA.

Permanent Final Adoptions

(c) Providers may bill for antepartum and postpartum visits, and a cesarean or vaginal delivery as individual encounters, or a provider can bill the packaged/bundled rate for total obstetrical care (OB) (which includes antepartum/postpartum visits and delivery). Providers may not bill for both antepartum/postpartum visits and a packaged/bundled rate for total OB care for the same episode of care. Refer to OAC 317:30-5-22 for more detailed obstetrical care policy.

PART 112. PUBLIC HEALTH CLINIC SERVICES

317:30-5-1154. ~~CHD/CCHD~~County health department (CHD)and city-county health department (CCHD) services/limitations

CHD/CCHD service limitations are:

- (1) Child ~~Guidance~~ guidance services (~~see OAC 317:30-3-65 through OAC 317:30-3-65.11 for specifics regarding program requirements~~)(refer to Oklahoma Administrative Code (OAC)317:30-5-1023).
- (2) Dental services [~~OAC 317:30-3-65.4(7)~~](refer to OAC 317:30-3-65.4(7) for specific coverage).
- (3) Early and Periodic Screening, ~~Diagnosis~~Diagnosis and Treatment (EPSDT) services (~~including blood lead testing and follow-up services~~), including blood lead testing and follow-up services (~~see refer to OAC 317:30-3-65 through OAC 30-3-65.11~~317:30-3-65.12 for specific coverage).
- (4) Environmental investigations.
- (5) Family ~~Planning~~planning and SoonerPlan ~~Family Planning~~family planning services (~~see refer to OAC 317:30-5-12 for specific coverage guidelines~~).
- (6) Immunizations (adult and child).
- (7) Blood lead testing (~~see refer to OAC 317:30-3-65.4 for specific coverage~~).
- (8) Newborn hearing screening.
- (9) Newborn metabolic screening.
- (10) Maternity services (~~see refer to OAC 317:30-5-22 for specific coverage~~).
- (11) Public health nursing services.
- (12) Tuberculosis case management and directly observed therapy.
- (13) Laboratory services.
- (14) Targeted case management.

GIST/ANALYSIS:

The proposed revisions will update policy by removing the word "urine", in order to clarify that this policy applies to multiple specimens and not just urine specimens. Additionally, the proposed revisions will update laboratory services policy to clarify that laboratory testing for routine diagnostic or screening purposes are compensable when they are recommended by the clinical guidelines of nationally recognized professional medical academies or societies, and those sources meet medical necessity criteria, as outlined in OHCA rules.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 1. PHYSICIANS

317:30-5-20. Laboratory services

This Section covers the guidelines for payment of laboratory services by a provider in his/her office, a certified laboratory and for a pathologist's interpretation of laboratory procedures.

- (1) **Compensable services.** Providers may be reimbursed for compensable clinical diagnostic laboratory services only when they personally perform or supervise the performance of the test. If a provider refers specimen to a certified laboratory or a hospital laboratory serving

outpatients, the certified laboratory or the hospital must bill for performing the test.

(A) Reimbursement for lab services is made in accordance with the Clinical Laboratory Improvement Amendment of 1988 (CLIA). These regulations provide that payment may be made only for services furnished by a laboratory that meets CLIA conditions, including those furnished in physicians' offices. Eligible providers must be certified under the CLIA program and have obtained a CLIA ID number from Centers for Medicare and Medicaid Services and have a current contract on file with the Oklahoma Health Care Authority (OHCA). Providers performing laboratory services must have the appropriate CLIA certification specific to the level of testing performed.

(B) Only medically necessary laboratory services are compensable.

(i) Testing must be medically indicated as evidenced by patient-specific indications in the medical record.

(ii) Testing is only compensable if the results will affect patient care and are performed to diagnose conditions and illnesses with specific symptoms.

(iii) Testing is only compensable if the services are performed in furtherance of the diagnosis and/or treatment of conditions that are covered under SoonerCare.

(C) Laboratory testing must be ordered by the physician or non-physician provider, and must be individualized to the patient and the patient's medical history or assessment indicators as evidenced in the medical documentation.

(D) Laboratory testing for routine diagnostic or screening tests following clinical guidelines such as those found in the American Academy of Pediatrics (AAP) Bright Futures' periodicity schedule, the United States Preventive Services Task Force (USPSTF) A and B recommendations, the American Academy of Family Practitioners (AAFP), or other nationally recognized medical professional academy or society standards of care, is compensable. Additionally, such sources as named in this subdivision should meet medical necessity criteria as outlined in Oklahoma Administrative Code (OAC) 317:30-3-1(f).

(2) **Non-compensable laboratory services.**

(A) Laboratory testing for routine diagnostic or screening tests not supported by the clinical guidelines of a nationally recognized medical professional academy or society standard of care, and/or testing that is performed without apparent relationship to treatment or diagnosis of a specific illness, symptom, complaint or injury is not covered.

(B) Non-specific, blanket panel or standing orders for laboratory testing, custom panels particular to the ordering provider, or lab panels which have no impact on the patient's plan of care are not covered.

(C) Split billing, or dividing the billed services for the same patient for the same date of service by the same ~~rendering~~rendering laboratory into two or more claims is not allowed.

(D) Separate payment is not made for blood specimens obtained by venipuncture or urine specimens collected by a laboratory. These services are considered part of the laboratory analysis.

(E) Claims for inpatient full service laboratory procedures are not covered since this is considered a part of the hospital rate.

(F) Billing multiple units of nucleic acid detection for individual infectious organisms when testing for more than one infectious organism in a specimen is not permissible. Instead, OHCA considers it appropriate to bill a single unit of a procedure code indicated for multiple organism testing.

(G) Billing multiple Current Procedural Terminology (CPT) codes or units for molecular pathology tests that examine multiple genes or incorporate multiple types of genetic analysis in a single run or report is not permissible. Instead, OHCA considers it appropriate to bill a single CPT code for such test. If an appropriate code does not exist, then one unit for an unlisted molecular pathology procedure may be billed.

(3) **Covered services by a pathologist.**

(A) A pathologist may be paid for the interpretation of inpatient surgical pathology specimen when the appropriate CPT procedure code and modifier is used.

(B) Full service or interpretation of surgical pathology for outpatient surgery performed in an outpatient hospital or ambulatory surgery center setting.

(4) **Non-compensable services by a pathologist.** The following are non-compensable pathologist services:

(A) Experimental or investigational procedures.

(B) Interpretation of clinical laboratory procedures.

317:30-5-20.1. ~~Urine drug~~Drug screening and testing

(a) **Purpose.** ~~Urine~~Drug Testing (UDT) is performed for undisclosed drug use and/or abuse, and to verify compliance with treatment. Testing for drugs of abuse to monitor treatment compliance should be included in the treatment plan for pain management when chronic opioid therapy is involved.

(1) Qualitative (presumptive) drug testing may be used to determine the presence or absence of a drug or drug metabolite in the ~~urine~~ sample and is expressed as a positive or negative result. Qualitative testing can be performed by a CLIA waived or moderate complexity test, or by a high complexity testing method.

(2) Quantitative (definitive) drug testing is specific to the drug or metabolite being tested and is expressed as a numeric result or numeric level which verifies concentration.

(3) Specimen validity testing is used to determine if a ~~urine~~ specimen has been diluted, adulterated or substituted. Specimen validity tests include, but are not limited

to, creatinine, oxidants, specific gravity, urine pH, nitrates and alkaloids.

(b) **Eligible providers.** Providers performing ~~urine~~ drug testing should have CLIA certification specific to the level of testing performed as described in 317:30-5-20(1)(A).

(c) **Compensable services.** ~~Urine drug~~ Drug testing must be ordered by the physician or non-physician provider and must be individualized to the patient and the patient's medical history or assessment indicators as evidenced in the medical documentation.

(1) Compensable testing must be medically indicated as evidenced by patient specific indications in the medical record.

(A) Testing is only compensable if the results will affect patient care.

(B) Drugs or drug classes being tested should reflect only those likely to be present.

(2) The frequency of ~~urine~~ drug screening and/or testing is determined by the patient's history, patient's physical assessment, behavioral assessment, risk assessment, treatment plan and medication history.

(3) Quantitative (definitive) ~~urine~~ drug testing may be indicated for the following:

(A) To identify a specific substance or metabolite that is inadequately detected or undetectable by a qualitative (presumptive) test; or

(B) To definitively identify specific drugs in a large family of drugs; or

(C) To identify drugs when a definitive concentration of a drug is needed to guide management; or

(D) To identify a negative, or confirm a positive, qualitative (presumptive) result that is inconsistent with a patient's self-report, presentation, medical history or current prescribed medication plan; or

(E) To identify a non-prescribed medication or illicit use for ongoing safe prescribing of controlled substances.

(d) **Non-compensable services.** The following tests are not medically necessary and therefore not covered by the OHCA:

(1) Specimen validity testing is considered a quality control measure and is not separately compensable;

(2) Drug testing for patient sample sources of saliva, oral fluids, or hair;

(3) Testing of two different specimen types (urine and blood) from the same patient on the same date of service;

(4) Drug testing for medico-legal purposes (court ordered drug screening) or for employment purposes;

(5) Non-specific, blanket panel or standing orders for ~~urine~~ drug testing, custom panels specific for the ordering provider, routine testing of therapeutic drug levels or drug panels which have no impact to the member's plan of care;

(6) Scheduled and routine ~~urine~~ drug testing (i.e. testing should be random);

(7) Reflex testing for any drug is not medically indicated without specific documented indications;

(8) Confirmatory testing exceeding three specific drug classes at an interval of greater than every ~~30~~thirty (30)

days will require specific documentation in the medical record to justify the medical necessity of testing; and

(9) Quantitative (definitive) testing of multiple drug levels that are not specific to the patient's medical history and presentation are not allowed. Justification for testing for each individual drug or drug class level must be medically indicated as reflected in the medical record documentation.

(e) **Documentation requirements.** The medical record must contain documents to support the medical necessity of drug screening and/or testing. Medical records must be furnished on request and may include, but are not limited to, the following:

(1) A current treatment plan;

(2) Patient history and physical;

(3) Review of previous medical records if treated by a different physician for pain management;

(4) Review of all radiographs and/or laboratory studies pertinent to the patient's condition;

(5) Opioid agreement and informed consent of ~~UDT~~ drug testing, as applicable;

(6) List of prescribed medications;

(7) Risk assessment, as identified by use of a validated risk assessment tool/questionnaire, with appropriate risk stratification noted and utilized;

(8) Office/provider monitoring protocols, such as random pill counts; and

(9) Review of prescription drug monitoring data or pharmacy profile as warranted.

GIST/ANALYSIS:

The proposed revisions will comply with Senate Bill (SB) 280. Revisions provide the OHCA's website for cost report instructions, establishes procedures for annual cost report submission extension requests for long-term care facilities, outline the processes when, based on onsite audit findings, the cost report may be adjusted, and define allowable and unallowable costs for long-term care facilities. Finally, the proposed policy changes will establish new quality measures and criteria, as well as, recalculate the incentive reimbursement rate plan for nursing facilities participating in the pay-for-performance program. These rules are currently in place as emergency rules.

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 9. LONG-TERM CARE FACILITIES

317:30-5-132. Cost reports

Each Medicaid-participating ~~long-term~~ long-term care facility is required to submit an annual uniform cost report, designed by ~~OHCA, the Oklahoma Health Care Authority (OHCA)~~ for the state fiscal year just completed. The state fiscal year is July 1 through June 30. The reports must be submitted to the OHCA on or before ~~the last day of October of the subsequent year.~~ October 31st following the end of the state fiscal year just completed.

(1) The report must be prepared on the basis of generally accepted accounting principles and the accrual basis of accounting, except as otherwise specified in the cost

report instructions. The OHCA's cost report instructions are publicly available on the OHCA's website (www.okhca.org), in the Nursing Home Cost Report Instruction Manual: A Guide for Entering Annual Nursing Home Cost Report Data via the OHCA Secure Site (hereinafter referred to as "Cost Report Instruction Manual").

(2) ~~The cost report must be filed using the Secure Website. The instructions and data entry screen simulations will be made available on the OHCA public website, as set forth in the Cost Report Instruction Manual.~~

(3) When there is a change of operation or ownership, the selling or closing ownership is required to file a cost report for that portion of the fiscal year it was in operation. The successor ownership is correspondingly required to file a cost report for that portion of the fiscal year it was in operation. These "Partial Year Reports" must be filed on paper or electronically by e-mail (not on the ~~secure website~~ Secure Website system) to the Finance Division of the OHCA on the forms and by the instructions found ~~on the OHCA public website (see directions as noted above).~~ in the Cost Report Instruction Manual.

(4) ~~Normally, all ordinary and necessary expenses net of any offsets of credits incurred in the conduct of an economical and efficiently operated business are recognized as allowable. Allowable costs include all items of Medicaid covered expense which nursing facilities incur in the provision of routine services. "Routine services" include, but are not limited to, regular room, dietary and nursing services, minor medical and surgical supplies, over the counter medications, transportation, dental examinations, dentures and related services, eye glasses, routine eye examinations, and the use and maintenance of equipment and facilities essential to the provision of routine care. Allowable costs must be considered reasonable, necessary and proper, and shall include only those costs that are considered allowable for Medicare purposes and that are consistent with federal Medicaid requirements. (The guidelines for allowable costs in the Medicare program are set forth in the Medicare Provider Reimbursement Manual ("PRM"), HCFA Pub. 15-). Ancillary items reimbursed outside the nursing facility rate are not included in the cost report and are not allowable costs. A long-term care facility may request an extension of time to submit an annual cost report, not to exceed fifteen (15) calendar days. Extensions of time shall be requested by a letter addressed to the Finance Division or by email, as is set forth in the Cost Report Instruction Manual. Any such request must be received by October 31, and must explain the good faith reason for the extension. OHCA shall provide a written notice of any denial of a request for an extension, which shall become effective on the date it is sent to the long-term care facility. Decisions to deny requests for extensions are solely within the discretion of the OHCA and are not administratively appealable.~~

(5) ~~All reports are may be subject to on-site audits and are deemed public records. An on-site audit may result in cost adjustment(s), by which the OHCA, or its designee, identifies and corrects for costs that were included in the~~

Permanent Final Adoptions

cost report. The OHCA or its designee shall provide written notice of any cost adjustment(s) it makes to a cost report, to the long-term care facility affected by the cost adjustment(s). Such notice shall contain, but is not limited to, a written list of the audit findings with a summary explanation of why any cost is deemed non-allowable.

(6) In accordance with 63 Oklahoma Statute § 1-1925.2, a long-term care facility may contest any cost adjustment(s) it disagrees with by requesting reconsideration of the cost adjustment(s), and/or by requesting an administrative appeal of the cost adjustment(s), pursuant to Oklahoma Administrative Code (OAC) 317:30-5-132.1 and OAC 317:2-1-17, respectively.

317:30-5-132.1. Reconsideration of cost report adjustments

(a) A long-term care facility may request reconsideration of cost report adjustment(s)/finding(s) within thirty (30) calendar days of the date of notification of the cost adjustment(s) by submitting a request for reconsideration to the Oklahoma Health Care Authority (OHCA), Chief Financial Officer (CFO), Finance/NF Cost Reporting, 4345 North Lincoln Boulevard, Oklahoma City, Oklahoma 73105.

(b) Simultaneous with the request for reconsideration, the long-term care facility shall submit a statement as to why the request for reconsideration is being made and may submit any new or additional information that he or she wishes the CFO or his/her designee to consider. Any request for an informal meeting according to subsection (c), below, must be made at the same time as the request for reconsideration.

(c) At the request of the long-term care facility, the reconsideration may be conducted by the CFO or his/her designee as:

(1) An informal meeting between the long-term care facility and the CFO or his/her designee; or

(2) A review by the CFO or his/her designee of the information described below:

(A) A review of all information submitted by the long-term care facility; and

(B) A review of the cost report adjustments made by the OHCA, in order to determine the accuracy of the adjustments.

(d) The CFO or his/her designee shall send a written decision of the reconsideration to the long-term care facility within thirty (30) calendar days of the date of OHCA's receipt of the reconsideration request, or the date of any informal meeting, whichever occurs later.

(e) If the provider disagrees with the decision rendered by the CFO or his or her designee, the provider may utilize the administrative appeals process in accordance with Oklahoma Administrative Code 317:2-1-17.

317:30-5-132.2. Allowable costs

The Oklahoma Health Care Authority (OHCA) shall reimburse long-term care facilities in accordance with its federally-approved Oklahoma Medicaid Plan. According to the Oklahoma Medicaid Plan, per-diem rates for long-term care

facilities are established on, among other things, analyses of annual uniform cost reports. These reports may only include allowable costs, as follows:

(1) To be allowable, the costs shall be reasonable and necessary for services related to resident care, and pertinent to the operation of the long-term care facility. More specifically:

(A) To be reasonable, costs shall be such as would ordinarily be incurred for comparable services provided by comparable facilities, for example, facilities of similar size and level of care; and

(B) To be necessary, costs related to patient care must be common and accepted occurrences; and,

(C) Allowable costs for services and items directly related to resident care include routine services, as established by Oklahoma Administrative Code (OAC) 317:30-5-133.1, and quality of care assessment fees, as established by OAC 317:30-5-131.2. Ancillary services, as established by OAC 317:30-5-133.2, are not allowable costs, but may be reimbursed outside the long-term care facility rate, unless reimbursement is available from Medicare or other insurance or benefit programs.

(2) The following costs shall not be allowable:

(A) Costs resulting from inefficient operations;

(B) Costs resulting from unnecessary or luxurious care;

(C) Costs related to activities not common and accepted in a long-term care facility, as determined by OHCA or its designee;

(D) Costs that are not actually paid by the provider, including, but not limited to, costs that are discharged in bankruptcy; forgiven; or converted to a promissory note;

(E) Costs that are paid to a related party that has not been identified on the reports;

(F) Cost of services, facilities, and supplies furnished by organizations related to the provider, by common ownership or control, that exceed the price of comparable services, facilities, or supplies purchased by independent providers in Oklahoma, in accordance with 42 Code of Federal Regulations § 413.17; and,

(G) Costs or financial transactions used to circumvent OHCA's applicable reimbursement rules.

(3) Allowable costs shall include only those costs that are considered allowable for Medicare purposes and that are consistent with federal Medicaid requirements. The guidelines for allowable costs in the Medicare program are set forth in the Medicare Provider Reimbursement Manual, HCFA-Pub. 15.

317:30-5-136.1. ~~Focus on Excellence~~ Pay-for-Performance program

(a) **Purpose.** The ~~Focus on Excellence (FOE)~~ Pay-for-Performance (PFP) program was established through Oklahoma State Statute, Title 56, Section 56-1011.5, as amended. ~~FOE's~~ PFP's mission is to enhance the quality of

life for target citizens by delivering effective programs and facilitating partnerships with providers and the community they serve. The program has a full commitment to the very best in quality, service and value which will lead to measurably improved quality outcomes, healthier lifestyles; greater satisfaction and confidence for our members.

(b) **Eligible Providers.** Any Oklahoma long-term care nursing facilities that are licensed and certified by the Oklahoma State Department of Health and accommodate SoonerCare members at their facility as defined in Oklahoma Administrative Code (OAC) 317:30-5-120.

(c) **Quality measure care criteria.** To maintain status in the FOEPFP program, each nursing facility ~~must enter quality data either monthly, quarterly, annually for the following care criteria metrics. All metrics in detail can be found on the Oklahoma Health Care Authority's (OHCA) FOE website or on FOE/QOC (Quality of Care) Data Collection Portal.~~ shall submit documentation as it relates to program metrics (below) quarterly or upon the request of the Oklahoma Health Care Authority (OHCA). The program metrics can be found on the OHCA's PFP website or on PFP/Quality of Care (QOC) data collection portal. For the period beginning October 1, 2019 and until changed by amendment, qualifying facilities participating in the PFP program have the potential to earn an average of the five dollars (\$5.00) quality incentive per Medicaid patient per day. Facility(s) baseline is calculated annually and will remain the same for the twelve (12) month period. Facility(s) will meet or exceed five-percent (5%) relative improvement or the Centers for Medicare and Medicaid Services national average each quarter for the following metrics:

- (1) Decrease percent of high risk pressure ulcers for long stay residents.
- (2) Decrease percent of unnecessary weight loss for long stay residents.
- (3) Decrease percent of use of anti-psychotic medications for long stay residents.
- (4) Decrease percent of urinary tract infection for long stay residents.

(1) **Person-Centered Care.** Facility must meet six (6) out of ten (10) of the established measurement criteria for this metric to receive the points. This metric is measured quarterly and must be completed by the 15th of the month following the close of the quarter.

(2) **Direct Care Staffing.** Facility must maintain a direct care staffing ratio of three and a half (3.5) hours per patient day to receive the points for this metric. This metric must be completed monthly by the 15th of each month.

(3) **Resident/Family Satisfaction.** Facility must maintain a score of 76 of a possible 100 points on overall satisfaction to receive the points for this metric. This metric is collected in a survey format and must be completed once a year in the fall. Surveys are to be completed by the resident, power of attorney and/or with staff assistance.

(4) **Employee Satisfaction.** Facility must maintain a score of 70 points or higher in order to receive the points for this metric. Surveys are completed by FOE facility employees and must be completed once a year in the fall.

(5) **Licensed Nurse Retention.** Facility must maintain a one year tenure rate of 60 percent (60%) or higher of its licensed nursing staff to receive the points for this metric. This metric must be completed monthly by the 15th of the month.

(6) **Certified Nurse Assistant (CNA) Retention.** Facility must maintain a one year tenure rate of 50 percent (50%) or higher of its CNA staff to receive the points for this metric. This metric must be completed monthly by the 15th of the month.

(7) **Distance Learning Program Participation.** Facility must contract and use an approved distance learning vendor for its frontline staff in order to receive points for this metric. This metric is measured quarterly and must be completed by the 15th of the month following the close of the quarter.

(8) **Peer Mentoring.** Facility must establish a peer mentoring program in accordance with OHCA guidelines. This metric is measured quarterly and must be completed by the 15th of the month following the close of the quarter.

(9) **Leadership Commitment.** Facility must meet six (6) out of ten (10) of the established measurement criteria for this metric to receive the points. This metric is measured quarterly and must be completed by the 15th of the month following the close of the quarter.

(d) **Payment.** The amount of eligible dollars is reimbursable based on the SoonerCare FOE nursing facility meeting the quality metric thresholds listed in (b). Facilities must meet a minimal of 100 points to even be eligible for reimbursement. Payment to long-term care facilities for meeting the metrics will be awarded quarterly. A facility may earn a minimum of \$1.25 per Medicaid patient per day for each qualifying metric. A facility receiving a deficiency of "I" or greater related to a targeted quality measure in the program is disqualified from receiving an award related to that measure for that quarter.

(1) **Distribution of Payment.** OHCA will notify the FOEPFP facility of the quality reimbursement amount on a quarterly basis.

(2) **Penalties.** Facilities that do not submit on the appropriated due dates will not receive reimbursable dollars. Facilities that do not submit quality measures will not receive reimbursable dollars for those specific measures. Due dates can be found on the OHCA FOE webpage. shall have performance review(s) and provide documentation upon request from OHCA to maintain program compliance. Program payments will be withheld from facilities that fail to submit the requested documentation within fifteen (15) business days of the request.

(e) **Appeals.** Facilities can file an appeal with the Quality Review Committee and in accordance, with the grievance procedures found at OAC 317:2-1-2(c) and 317:2-1-16.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 1. PHYSICIANS

317:30-5-20.2. Molecular diagnostic testing utilizing polymerase chain reaction for infectious diseases

(a) **Definitions.** The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise.

(1) **"Polymerase Chain Reaction (PCR)"** means a biochemical laboratory technique used to make thousands or even millions of copies of a segment of DNA. It is commonly used to amplify a small amount of specifically targeted DNA from among a mixture of DNA samples. It is also known as Nucleic Acid Amplification Test (NAAT).

(2) **"Direct Probe Technique"** means detection methods where nucleic acids are detected without initial amplification processing.

(3) **"Amplified Probe Technique"** means technique without quantification, a detection method in which the sensitivity of the assay is improved over direct probe techniques.

(4) **"Probe with Quantification Technique"** means methods used to report absolute or relative amounts of nucleic acid sequences in the original sample.

(b) **Medical necessity.**

(1) PCR testing for infectious diseases, following clinical guidelines such as those set forth by the Infectious Disease Society of America's (IDSA) or other nationally recognized medical professional academy or society standards of care, may be compensable.

(2) For the full PCR guideline which includes medically necessity and prior authorization criteria, and a list of codes that require authorization, please refer to www.okhca.org.

(c) **Documentation.**

(1) The medical record must contain documentation that the testing is expected to influence treatment of the condition towards which the testing is directed.

(2) The laboratory or billing provider must have on file the physician requisition which sets forth the diagnosis or condition that warrants the test(s).

(3) Examples of documentation requirements for the ordering provider include, but are not limited to, history and physical exam findings that support the decision making, problems/diagnoses, relevant data (e.g., lab testing results).

(4) Documentation requirements for the performing laboratory include, but are not limited to, lab accreditation, test requisition, test records, preliminary and final report, and quality control record.

(5) Documentation requirements for lab developed tests/protocols include diagnostic test/assay, lab manufacturer, names of comparable assays/services (if relevant), descriptions of assay, analytical validity evidence, clinical validity evidence, and clinical utility.

(6) Billing providers are required to code specificity; however, if an unlisted or not otherwise specified Current Procedural Terminology (CPT) code is used, the documentation must clearly identify the unique procedure performed. When multiple procedure codes are submitted

(unique, unlisted, and/or not otherwise specified), the documentation supporting each code should be easily identifiable. If on review the billed code cannot be linked to the documentation, this service may be denied.

(7) When the documentation does not meet the criteria for the service rendered/requested or the documentation does not establish the medical necessity for the service, the service may be denied as not reasonable and necessary.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 1. PHYSICIANS

317:30-5-22.1. Enhanced services for medically high risk pregnancies

(a) **Enhanced services.** Enhanced services are available for pregnant women eligible for SoonerCare and are in addition to services for uncomplicated maternity cases. Women deemed high risk based on criteria established by the ~~OHCA~~Oklahoma Health Care Authority (OHCA) must receive prior authorization for medically necessary enhanced benefits which include:

- (1) ~~prenatal~~Prenatal at risk antepartum management;
- (2) ~~a~~A combined maximum of five (5) fetal non stress test(s) and biophysical profiles (additional units can be prior authorized for multiple fetuses)with one (1) test per week beginning at ~~32~~thirty-two (32) weeks gestation and continuing to ~~38~~thirty-eight (38) weeks; and
- (3) ~~a~~A maximum of three (3) follow-up ultrasounds not covered under OAC 317:30-5-22(b)(2).

(b) **Prior authorization.** To receive enhanced services, the following documentation must be received by the OHCA Medical ~~Authorizations~~Authorization Unit for review and approval:

- (1) ~~ACOGA~~ACOG comprehensive prenatal assessment from the American College of Obstetricians and Gynecologist (ACOG) or other comparable comprehensive prenatal assessment; and
- (2) ~~appropriate~~Appropriate documentation supporting medical necessity from a ~~Board—Eligible/Board Certified~~board eligible/board certified Maternal Fetal Medicine (MFM) specialist, ~~or a Board—Eligible/Board Certified~~board eligible/board certified Obstetrician-Gynecologist (OB-GYN), ~~or a board eligible/board certified~~Family Practice Physician who has completed an Accreditation Council for Graduate Medical Education (ACGME) approved residency. The medical residency program must include appropriate obstetric training, and the physician must be credentialed by the hospital at which they provide obstetrical services in order to perform such services. The documentation must include information identifying and detailing the qualifying high risk condition. Non-MFM obstetrical providers requesting enhanced services are

limited to a specific set of diagnoses as outlined on the OHCA website (www.okhca.org).

(c) **Reimbursement.** When prior authorized, enhanced benefits will be reimbursed as follows:

(1) Antepartum management for high risk is reimbursed to the primary obstetrical provider. If the primary provider of obstetrical care is not the MFM and wishes to request authorization of the antepartum management fee, the treatment plan must be signed by the primary provider of OB care. Additionally, reimbursement for enhanced at risk antepartum management is not made during an in-patient hospital stay.

(2) Non stress tests, biophysical profiles and ultrasounds [in addition to those covered under OAC 317:30-5-22(a)(2) subparagraphs (A) through (C)] are reimbursed when prior authorized.

(3) Reimbursement for enhanced at risk antepartum management is not available to physicians who already qualify for enhanced reimbursement as state employed physicians.

PART 3. HOSPITALS

317:30-5-42.11. Observation/treatment

(a) Payment is made for the use of a treatment room associated with outpatient observation services. Observation services must be ordered by a physician or other individual authorized by state law. Observation services are furnished by the hospital on the hospital's premises and include use of the bed and periodic monitoring by hospital staff. Observation services must include a minimum of ~~eight~~ (8) hours of continuous care. Outpatient observation services are not covered when they are provided:

- (1) On the same day as an emergency department visit.
- (2) Prior to an inpatient admission, as those observation services are considered part of the inpatient DRG.
- (3) For the convenience of the member, member's family or provider.
- (4) When specific diagnoses are not present on the claim.
- (5) As part of another service, i.e. for post operative monitoring; recovery after diagnostic testing or concurrently with therapeutic services such as chemotherapy.

(b) Payment is made for observation services in a labor or delivery room. Observation services must include a minimum of eight (8) hours of continuous care. Specific pregnancy-related diagnoses are required. ~~During active labor, a fetal non-stress test is covered in addition to the labor and delivery room charge.~~

September 14, 2020

SUPERSEDED EMERGENCY ACTIONS:

Not applicable

INCORPORATIONS BY REFERENCE:

n/a

GIST/ANALYSIS:

The proposed revisions will comply with 59 Oklahoma Statutes (O.S.) § 567.21, which allows Oklahoma to enter into the enhanced Nurse Licensure Compact (eNLC). The eNLC is an agreement between states that allows a nurse's licensure to be portable to other member-states of the Compact. These revisions amend references that narrowly tie a nurse's license to the Oklahoma Board of Nursing and align SoonerCare rules with the eNLC.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 21. OUTPATIENT BEHAVIORAL HEALTH AGENCY SERVICES

317:30-5-240.3. Staff ~~Credentials~~credentials

(a) ~~Licensed Behavioral Health Professional~~behavioral health professional (LBHPs). LBHPs are defined as follows~~any of the following practitioners~~:

(1) ~~Allopathic or Osteopathic Physicians~~An allopathic or osteopathic physician with a current license and board certification in psychiatry or board eligible in the state in which services are provided, or a current resident in psychiatry practicing as described in OAC 317:30-5-2.

(2) ~~Practitioners~~A practitioner with a current license to practice in the state in which services are provided, ~~issued by one of the licensing boards~~within one (1) of the areas of practice listed in (A) through (F). The exemptions from licensure under 59 O.S. § 1353(4) (Supp. 2000) and (5), 59 O.S. § 1903(C) and (D) (Supp. 2000), 59 O.S. § 1925.3(B) (Supp. 2000) and (C), and 59 O.S. § 1932(C) (Supp. 2000) and (D) do not apply to Outpatient Behavioral Health Servicesoutpatient behavioral health services.

(A) Psychology;

(B) Social ~~Workwork~~ (clinical specialty only);

(C) Professional Counselor,counselor;

(D) Marriage and Family Therapist,family therapist;

(E) Behavioral Practitioner,or practitioner; or

(F) Alcohol and ~~Drug Counselor~~drug counselor.

(3) ~~Advanced Practice Nurse (certified in a psychiatric mental health specialty)~~An advanced practice registered nurse (APRN) certified in a psychiatric mental health specialty, and licensed as a registered nurse (RN) with a current certification of recognition from the board of nursing in the state in which services are provided.

(4) A ~~Physician Assistant~~physician assistant who is licensed and in good standing in ~~this~~the state in which services are provided and has received specific training for and is experienced in performing mental health therapeutic, diagnostic, or counseling functions.

(b) ~~Licensure Candidates~~candidates. Licensure candidates are practitioners actively and regularly receiving ~~board approved~~board-approved supervision, and extended supervision by a fully licensed clinician if board's supervision requirement is met but the individual is not yet licensed, to become licensed by one (1) of the licensing boards~~areas of practice listed in (2)(A) through (F) above~~. The supervising LBHP responsible for the member's care must:

(1) ~~staff~~Staff the member's case with the candidate;

(2) ~~be~~Be personally available, or ensure the availability of an LBHP to the licensure candidate for consultation while they are providing services;

(3) ~~agree~~Agree with the current plan for the member; and;

(4) ~~confirm~~Confirm that the service provided by the candidate was appropriate; and

(5) The member's medical record must show that the requirements for reimbursement were met and the LBHP

responsible for the member's care has reviewed, countersigned, and dated the service plan and any updates thereto so that it is documented that the licensed professional is responsible for the member's care.

(c) ~~Certified Alcohol and Drug Counselors~~alcohol and drug counselors (CADCs). CADCs are defined as having a current certification as a CADC in the state in which services are provided.

(d) ~~Multi-Systemic Therapy (MST) Providers~~systemic therapy (MST) provider. ~~Masters~~Master's level therapist who works on a team established by ~~OJA~~the Oklahoma Juvenile Affairs Office (OJA) which may include ~~Bachelor~~bachelor's level staff.

(e) ~~Peer Recovery Support Specialist~~recovery support specialist (PRSS). The ~~Peer Recovery Support Specialist~~PRSS must be certified by ODMHSAS pursuant to requirements found in OAC 450:53.

(f) ~~Family Support and Training Provider (FSP)~~. FSPs are defined as follows:

(1) Have a high school diploma or equivalent;

(2) be 21 years of age and have successful experience as a family member of a child or youth with serious emotional disturbance, or a minimum of 2 years' experience working with children with serious emotional disturbance or be equivalently qualified by education in the human services field or a combination of work experience and education with one year of education substituting for one year of experience (preference is given to parents or care givers of child with SED);

(3) successful completion of ODMHSAS Family Support Training;

(4) pass background checks;

(5) service plans must be overseen and approved by an LBHP or Licensure Candidate; and

(6) must function under the general direction of an LBHP, or Licensure Candidate or systems of care team, with an LBHP or Licensure Candidate available at all times to provide back up, support, and/or consultation.Family support and training provider (FSP). FSPs must:

(1) Have a high school diploma or equivalent;

(2) Be twenty-one (21) years of age and have a successful experience as a family member of a child/adolescent with serious emotional disturbance, or a minimum of have lived experience as the primary caregiver of a child/adolescent who has received services for substance use disorder and/or co-occurring substance use and mental health, or have lived experience being the caregiver for a child/adolescent with Child Welfare/Child Protective Services involvement;

(3) Successfully complete family support training according to a curriculum approved by ODMHSAS and pass the examination with a score of eighty percent (80%) or better;

(4) Pass Oklahoma State Bureau of Investigation (OSBI) background check;

Permanent Final Adoptions

- (5) Have treatment plans be overseen and approved by a licensed behavioral health professional (LBHP) or licensure candidate; and
- (6) Function under the general direction of an LBHP, licensure candidate or systems of care team, with an LBHP or licensure candidate available at all times to provide back up, support, and/or consultation.
- (g) ~~Behavioral Health Aide (BHA). BHAs are defined as follows:~~
- (1) ~~Behavioral Health Aides must have completed 60 hours or equivalent of college credit; or~~
- (2) ~~may substitute one year of relevant employment and/or responsibility in the care of children with complex emotional needs for up to two years of college experience; and~~
- (3) ~~must have successfully completed the specialized training and education curriculum provided by the ODMHSAS; and~~
- (4) ~~must be supervised by a bachelor's level individual with a minimum of two years case management or care coordination experience; and~~
- (5) ~~service plans must be overseen and approved by an LBHP or Licensure Candidate; and~~
- (6) ~~must function under the general direction of an LBHP, or Licensure Candidate and/or systems of care team, with an LBHP or Licensure Candidate available at all times to provide back up, support, and/or consultation.~~
- Qualified behavioral health aide (QBHA). QBHAs must:
- (1) Have completed sixty (60) hours or equivalent of college credit; or may substitute one (1) year of relevant employment and/or responsibility in the care of children with complex emotional needs for up to two (2) years of college experience; and
- (2) Have successfully completed the specialized training and education curriculum provided by the ODMHSAS; and
- (3) Be supervised by a bachelor's level individual with a minimum of two (2) years case management or care coordination experience; and
- (4) Have service plans be overseen and approved by an LBHP or licensure candidate; and
- (5) Function under the general direction of an LBHP, or licensure candidate and/or systems of care team, with an LBHP or licensure candidate available at all times to provide back up, support, and/or consultation.
- (h) ~~Behavioral Health Case Manager~~health case manager. For behavioral health case management services to be compensable by SoonerCare, the provider performing the services must be an LBHP, ~~Licensure Candidate~~licensure candidate, CADC or have and maintain a current certification as a ~~Case Manager~~case manager II (CM II) or Case Managercase manager I (CM I) from ODMHSAS. The requirements for obtaining these certifications are as follows:
- (1) ~~Certified Behavioral Health Case Manager II (CM II)~~The CM II must meet the requirements in (A), (B), (C) or (D) below:

- (A) Possess a ~~Bachelor's or Master's~~bachelor's or master's degree in a behavioral health related field earned from a regionally accredited college or university recognized by the United States Department of Education (USDE) or a ~~Bachelor's or Master's~~bachelor's or master's degree in education; and complete web-based training for behavioral health case management and behavioral health rehabilitation as specified by ODMHSAS; and complete one (1) day of face-to-face behavioral health case management training and two (2) days of face-to-face behavioral health rehabilitation training as specified by ODMHSAS; and pass web-based competency exams in behavioral health case management and behavioral health rehabilitation.
- (B) ~~Possess a current license as a registered nurse in the State of Oklahoma~~Be licensed and in good standing as a registered nurse in the state in which services are provided, with experience in behavioral health care; complete web-based training for behavioral health case management and behavioral health rehabilitation as specified by ODMHSAS; complete one (1) day of face-to-face behavioral health case management training and two (2) days of face-to-face behavioral health rehabilitation training as specified by ODMHSAS; and pass web-based competency exams for behavioral health case management and behavioral health rehabilitation.
- (C) Possess a ~~Bachelor's or Master's~~bachelor's or master's degree in any field earned from a regionally accredited college or university recognized by the USDE and a current certification or Children's Certificate in Psychiatric Rehabilitation from the US Psychiatric Rehabilitation Association (USPRA); complete the behavioral health case management web-based training as specified by ODMHSAS; complete one (1) day of face-to-face behavioral health case management training; and pass web-based competency exams for behavioral health case management. Applicants who have not received a certificate in children's psychiatric rehabilitation from the ~~US Psychiatric Association (USPRA)~~USPRA must also complete the behavioral health rehabilitation web-based training as specified by ODMHSAS.
- (D) Possess a ~~Bachelor's or Master's~~bachelor's or master's degree in any field and proof of active progression toward obtaining a clinical licensure ~~Master's or Doctoral~~master's or doctoral degree at a regionally accredited college or university recognized by the USDE and complete web-based training for behavioral health case management and behavioral health rehabilitation as specified by ODMHSAS; complete one (1) day of face-to-face behavioral health case management training and two (2) days of face-to-face behavioral health rehabilitation training as specified by ODMHSAS; and pass web-based competency exams in behavioral health case management and behavioral health rehabilitation.

(2) ~~Certified Behavioral Health Case Manager~~The CM meets the requirements in either (A) or (B) and (C):

(A) ~~completed 60~~Completed sixty (60) college credit hours; or

(B) ~~has~~Possesses a high school diploma with ~~36~~thirty-six (36) total months of experience working with persons who have a mental illness and/or substance abuse. Documentation of experience on file with ODMHSAS; and

(C) ~~completes~~Completes two (2) days of ODMHSAS specified behavioral health case management training and passes a web-based competency exam for behavioral health case management.

(3) ~~Wraparound Facilitator Case Manager~~facilitator case manager is ~~an~~an LBHP, ~~Licensure Candidate~~licensure candidate or CADC that meets the qualifications for CM II and has the following:

(A) ~~successful~~Successful completion of the ODMHSAS training for wraparound facilitation within six (6) months of employment; and

(B) ~~participate~~Participate in ongoing coaching provided by ODMHSAS and employing agency; and

(C) ~~successfully~~Successfully complete wrap-around credentialing process within nine (9) months of beginning process; and

(D) ~~direct~~Direct supervision or immediate access and a minimum of one (1) hour weekly clinical consultation with a ~~Qualified Mental Health Professional~~qualified mental health professional, as required by ODMHSAS.

(4) ~~Intensive Case Manager~~case manager is ~~an~~an LBHP, ~~Licensure Candidate~~licensure candidate, or CADC that meets the provider qualifications of a ~~Case Manager~~CM II and has the following:

(A) A minimum of two (2) years ~~Behavioral Health Case Management~~behavioral health case management experience, crisis diversion experience, and

(B) ~~must~~Must have attended the ODMHSAS six (6) hours ~~Intensive~~intensive case management training.

PART 37. ADVANCED PRACTICE REGISTERED NURSE

317:30-5-375. Eligible providers

The Advanced Practice Nurse must be a registered nurse in good standing with the Oklahoma Board of Nursing, and have acquired knowledge and clinical skills through the completion of a formal program of study approved by the Oklahoma Board of Nursing Registration and have obtained professional certification through the appropriate National Board recognized by the Oklahoma Board of Nursing. Advanced Practice Nurse services are limited to the scope of their practice as defined in 59 O.S. 567.3a and corresponding rules and regulations at OAC 485:10-5-1 through 10-16-9. Rules regarding Certified

Nurse Midwives are referenced in OAC 317:30-5-225. Advanced Practice Nurses who practice in states other than Oklahoma must be appropriately licensed in the state in which they practice. In addition, all providers must have a current contract on file with the Oklahoma Health Care Authority.

(a) The advanced practice registered nurse (APRN) must:

(1) Be licensed and in good standing in the state in which services are provided;

(2) Have completed an accredited graduate level advanced practice registered nursing education program approved by the board of nursing in the state in which services are provided; and

(3) Possess a current national certification by a national certifying body recognized by the board of nursing in the state in which services are provided.

(b) APRN services are limited to the scope of practice defined in 59 O.S. § 567.3a and corresponding administrative rules at Oklahoma Administrative Code (OAC) 485:10-5-1 through 485:10-16-9. Rules regarding certified nurse midwives are referenced in OAC 317:30-5-225. APRNs who practice in states other than Oklahoma must be appropriately licensed in the state in which they practice. In addition, all providers must have a current contract on file with the Oklahoma Health Care Authority.

PART 39. SKILLED NURSING SERVICES

317:30-5-390. Home and Community-Based Services ~~Waivers~~waivers for adults with an intellectual disability or certain adults with related conditions

(a) **Introduction to waiver services.** Each Home and Community-Based Services (HCBS) ~~Waiver~~waiver that includes services for adults with an intellectual disability or certain adults with related conditions allows payment for home health care services as defined in the waiver approved by the Centers for Medicare and Medicaid Services.

(1) Home health care services are skilled nursing services provided to a member by a registered nurse (RN) or a licensed practical nurse (LPN) that include:

(A) ~~direct~~Direct nursing care;

(B) ~~assessment~~Assessment and documentation of health changes;

(C) ~~documentation~~Documentation of significant observations;

(D) ~~maintenance~~Maintenance of nursing plans of care;

(E) ~~medication~~Medication administration;

(F) ~~training~~Training of the member's health care needs;

(G) ~~preventive~~Preventive and health care procedures; and

(H) ~~preparing~~Preparing, analyzing, and presenting nursing assessment information regarding the member.

(2) The first ~~36~~^{thirty-six} (36) visits provided by the home health care agency are covered by the Oklahoma Medicaid State Plan.

(b) **Eligible providers.** Skilled nursing services providers must enter into contractual agreements with the Oklahoma Health Care Authority (OHCA) to provide HCBS for adults with an intellectual disability or certain adults with related conditions.

(1) Individual providers must be currently licensed ~~in Oklahoma as a~~ and in good standing in the state in which services are provided as a:

- (A) ~~registered nurse~~RN; or
- (B) ~~licensed practical nurse~~LPN.

(2) Agency providers must:

- (A) ~~have~~Have a current Medicaid HCBS home health care agency contract; or
- (B) ~~be~~Be certified by the Oklahoma State Department of Health (OSDH) as a home health care agency.

317:30-5-391. Coverage for Skilled Nursing Services ~~Skilled nursing services~~

(a) All ~~Skilled Nursing Services~~skilled nursing services must be ordered and prescribed by a physician, supported by a nursing plan of care, included in the individual plan as described in ~~OAC~~Oklahoma Administrative Code (OAC) 340:100-5-53 and reflected in the ~~Plan of Care~~plan of care approved in accordance with OAC 340:100-3-33 and ~~OAC~~ 340:100-3-33.1. For purposes of this Section, a physician is defined as all licensed medical and osteopathic physicians, physician assistants (PAs) and advanced practice registered nurses (APRNs) in accordance with the rules and regulations covering the OHCA's medical care program. Arrangements for waiver ~~Skilled Nursing Services~~skilled nursing services are made through the personal support team with the specific involvement of the assigned Oklahoma Department of Human Services (OKDHS) Developmental Disabilities Services Division (DDSD) registered nurse (RN). The DDSD RN develops a nursing service support plan subject to review and authorization by the DDSD state nursing director or designee.

(b) ~~Skilled Nursing Services~~nursing services are rendered in such a manner as to provide the service recipient as much autonomy as possible.

- (1) ~~Skilled Nursing Services~~nursing services must be flexible and responsive to changes in the service recipient's needs.
- (2) Providers are expected to participate in annual personal support team meetings and other team meetings as required.
- (3) Appropriate supervision of ~~Skilled Nursing Services~~skilled nursing services including services provided by licensed practical nurses (LPNs) is provided pursuant to State law and regulatory board requirements.
- (4) Individual service providers must be RNs or LPNs currently licensed ~~to practice in the State of Oklahoma~~ and in good standing in the state in which services are provided.

PART 85. ADVANTAGE PROGRAM WAIVER SERVICES

317:30-5-763. Description of services

Services included in the ADvantage ~~Program~~program are:

(1) Case management.

(A) Case management services, regardless of payment source, assist a member to gain access to medical, social, educational, or other services that may benefit him or her to maintain health and safety. Case managers:

- (i) ~~initiate~~Initiate and oversee necessary assessments and reassessments to establish or reestablish waiver program eligibility;
- (ii) ~~develop~~Develop the member's comprehensive person-centered service plan, listing only the services necessary to prevent institutionalization of the member, as determined through the assessments;
- (iii) ~~initiate~~Initiate the addition of necessary services or deletion of unnecessary services, as dictated by the member's condition and available support; and
- (iv) ~~monitor~~Monitor the member's condition to ensure delivery and appropriateness of services and initiate person-centered service plan reviews. Case managers submit an individualized Form 02CB014, Services Backup Plan, on all initial service plans, annually at reassessment, and on updates as appropriate throughout the year, reflecting risk factors and measures in place to minimize risks. When a member requires hospital or nursing facility (NF) services, the case manager:

- (I) ~~assists~~Assists the member in accessing institutional care and, as appropriate, periodically monitors the member's progress during the institutional stay;
- (II) ~~helps~~Helps the member transition from institution to home by updating the person-centered service plan;
- (III) ~~prepares~~Prepares services to start on the date the member is discharged from the institution; and
- (IV) ~~must~~Must meet ADvantage ~~Program~~program minimum requirements for qualification and training prior to providing services to ADvantage members.

(B) Providers of ADvantage services for the member or for those who have an interest in or are employed by an ADvantage provider for the member must not provide case management or develop the person-centered service plan, except when the ADvantage Administration (AA) demonstrates the only willing and qualified entity to provide case management and/or develop person-centered service plans in a geographic area, also provides other ADvantage services. Prior to providing services to members receiving Consumer-Directed Personal Assistance

Services and Supports (CD-PASS), case manager supervisors, and case managers are required to receive training and demonstrate knowledge regarding the CD-PASS service delivery model, "Independent Living Philosophy," and demonstrate competency person-centered planning.

(C) Providers may only claim time for billable case management activities, described as:

(i) ~~any~~Any task or function, per Oklahoma Administrative Code (OAC) 317:30-5-763(1)(A) that only an ADvantage case manager can perform on behalf of the member, because of skill, training, or authority can perform on behalf of a member; and

(ii) ~~ancillary~~Ancillary activities, such as clerical tasks, including, but not limited to, mailing, copying, filing, faxing, driving time, or supervisory and administrative activities are not billable case management activities. The administrative cost of these activities and other normal and customary business overhead costs are included in the reimbursement rate for billable activities.

(D) Case management services are prior authorized and billed per ~~fifteen minute (15 minute)~~fifteen (15) minute unit of service using the rate associated with the location of residence of the member served.

(i) ~~Standard rate. — case~~Case management services are billed using a standard rate for reimbursement for billable service activities provided to a member who resides in a county with a population density greater than twenty-five (25) persons per square mile.

(ii) ~~Very rural/difficult service area rate. — case~~Case management services are billed using a very ~~rural/difficult~~rural/outside providers' service area rate for billable service activities provided to a member who resides in a county with a population density equal to, or less than twenty-five (25) persons per square mile. Exceptions are services to members who reside in Oklahoma Department of Human Services (~~DHS~~)(OKDHS) Aging Services identified zip codes in Osage County adjacent to the metropolitan areas of Tulsa and Washington counties. Services to these members are prior authorized and billed using the standard rate.

(iii) The latest United States Census, Oklahoma counties population data is the source for determination of whether a member resides in a county with a population density equal to, or less than twenty-five (25) persons per square mile, or resides in a county with a population density greater than twenty-five (25) persons per square mile.

(2) **Respite.**

(A) Respite services are provided to members who are unable to care for themselves. Services are provided on a short-term basis due to the primary caregiver's absence or need for relief. Payment for respite care does not include room and board costs

unless more than seven (7) hours are provided in a NF. Respite care is only utilized when other sources of care and support are exhausted. Respite care is only listed on the service plan when it is necessary to prevent institutionalization of the member. Units of services are limited to the number of units approved on the service plan.

(B) In-home respite services are billed per ~~fifteen minute (15 minute) units~~fifteen (15) minute unit of service. Within any ~~one day (1 day)~~one (1) day period, a minimum of eight (8) units [two (2) hours] must be provided with a maximum of twenty-eight (28) units [seven (7) hours] provided. The service is provided in the member's home.

(C) Facility-based extended respite is filed for a per diem rate when provided in a NF. Extended respite must be at least eight (8) hours in duration.

(D) In-home extended respite is filed for a per diem rate. A minimum of eight (8) hours must be provided in the member's home.

(3) **Adult day health (ADH) care.**

(A) ADH is furnished on a regularly-scheduled basis for one (1) or more days per week in an outpatient setting. It provides both health and social services necessary to ensure the member's optimal functioning. Most assistance with activities of daily living (ADLs), such as eating, mobility, toileting, and nail care are integral services to ADH care service and are covered by the ADH care basic reimbursement rate.

(B) ADH care is a ~~fifteen minute (15 minute)~~fifteen (15) minute unit of service. No more than ~~eight (8) hours, thirty-two (32) units [eight (8) hours]~~eight (8) hours, [thirty-two (32) units] are authorized per day. The number of units of service a member may receive is limited to the number of units approved on the member's approved service plan.

(C) Physical, occupational, and speech therapies are only provided as an enhancement to the basic ADH care service when authorized by the service plan and are billed as a separate procedure. ADH care therapy enhancement is a maximum of one (1) session unit per day of service.

(D) Meals provided as part of this service do not constitute a full nutritional regimen. One (1) meal, that contains at least one-third (1/3) of the current daily dietary recommended intake (DRI), as established by the Food and Nutrition Board of the ~~Institute of Medicine of the National Academy~~Academies of Sciences, Engineering, and Medicine, is provided to those participants who are in the center for four (4) or more hours per day, and does not constitute a full nutritional regimen. Member's access to food at any time must also be available in addition to the required meal and is consistent with an individual not receiving Medicaid-funded services and supports.

(E) Personal-care service enhancement in ADH is assistance in bathing, hair care, or laundry service, authorized by the person-centered service plan and

billed as separate procedures. This service is authorized when an ADvantage ~~Waiver~~waiver member who uses ADH requires assistance with bathing, hair care, or laundry to maintain health and safety. Assistance with bathing, hair care, or laundry service is not a usual and customary ADH care service. ADH personal care enhancement is a maximum of one (1) unit per day of bathing, hair care, or laundry service.

(F) ~~DHS~~OKDHS Home and Community-Based Services (HCBS) ~~Waiver~~waiver settings have qualities defined in ~~federal regulation, per Section (§) 441.301 (c)(4) of Title 42 of Code of Federal Regulations (CFR)~~Home and Community-Based Services: Waiver Requirements, 42 Code of Federal Regulations, Section (§) 441.301 (c)(4) based on the individual's needs, defined in the member's authorized service plan.

(i) The ADH center is integrated and supports full access of ADvantage members to the greater community, including opportunities to:

- (I) ~~seek~~Seek employment and work in competitive integrated ADH Center, not a requirement for persons that are retirement age;
- (II) ~~engage~~Engage in community life;
- (III) ~~control~~Control personal resources; and
- (IV) ~~receive~~Receive services in the community, to the same degree as individuals not receiving ADvantage Program or other Medicaid HBCS ~~Waiver~~waiver services.

(ii) The ADH is selected by the member from all available service options and given the opportunity to visit and understand the options.

(iii) The ADH ensures the member's rights of privacy, dignity, respect, and freedom from coercion and restraint.

(iv) The ADH optimizes the member's initiative, autonomy, and independence in making life choices including, but not limited to:

- (I) ~~daily~~Daily activities;
- (II) ~~the~~The physical environment; and
- (III) ~~with whom to interact~~Social interactions.

(v) The ADH facilitates the member's choice regarding services and supports including the provider.

(vi) Each member has the freedom and support to control his or her own schedules, activities, and access to food at any time.

(vii) Each member may have visitors whenever he or she chooses.

(viii) The ADH center is physically accessible to the member.

(G) ADH centers that are presumed not to be HCBS settings per 42 ~~CFR~~C.F.R. § 441.301(c)(5)(v) include, ADH centers:

(i) in a publicly- or privately-owned facility providing inpatient treatment;

(ii) on the grounds of or adjacent to a public institution; and

(iii) with the effect of isolating individuals from the broader community of individuals not receiving ADvantage ~~Program~~program or another Medicaid HCBS;

(H) When the ADH is presumed not HCBS, according to 42 ~~CFR~~C.F.R. § 441.301(c)(5)(v), it may be subject to heightened scrutiny by AA, ~~OHCA~~the Oklahoma Health Care Authority (OHCA), and the Centers for Medicare and Medicaid Services (CMS). The ADH must provide evidence that the ADH portion of the facility has clear administrative, financial, programmatic, and environmental distinctions from the institution and comply with additional monitoring by the AA.

(4) **Environmental modifications.**

(A) Environmental modifications are physical adaptations to the home, required by the member's person-centered service plan that are necessary to ensure the member's health, welfare, and safety or enable the member to function with greater independence in the home, and that without such, the member would require institutionalization. Adaptations or improvements to the home but not of direct medical or remedial benefit to the waiver member are excluded.

(B) All services require prior authorization.

(5) **Specialized medical equipment and supplies.**

(A) Specialized medical equipment and supplies are devices, controls, or appliances specified in the person-centered service plan that enable members to increase their abilities to perform ADLs, or to perceive, control, or communicate with the environment in which they live. Necessary items for life support, ancillary supplies, and equipment necessary for the proper functioning of such items, and durable and non-durable medical equipment not available under the Oklahoma Medicaid State Plan are also included. This service excludes any equipment and/or supply items not of direct medical or remedial benefit to the waiver member and necessary to prevent institutionalization.

(B) Specialized medical equipment and supplies are billed using the appropriate HealthCare Common Procedure Code (HCPC). Reoccurring supplies shipped and delivered to the member are compensable only when the member remains eligible for ~~Waiver~~waiver services, continues to reside in the home, and is not institutionalized in a hospital, skilled nursing facility, or nursing home. It is the provider's responsibility to verify the member's status prior to shipping and delivering these items. Payment for medical supplies is limited to the SoonerCare (Medicaid) rate when established, to the Medicare rate, or to actual acquisition cost, plus ~~thirty (30) percent~~thirty percent (30%). All services must have prior authorization.

(6) **Advanced supportive/restorative assistance.**

(A) Advanced supportive/restorative assistance services are maintenance services used to assist a member who has a chronic, yet stable condition. These services assist with ADLs that require devices and procedures related to altered body functions. These services are for maintenance only and are not utilized as treatment services.

(B) Advanced supportive/restorative assistance service is billed per ~~fifteen minute (15 minute)~~ fifteen (15) minute unit of service. The number of units of service a member may receive is limited to the number of units approved on the person-centered service plan.

(7) **Nursing.**

(A) Nursing services are services listed in the person-centered service plan that are within the scope of the ~~Oklahoma Nursing Practice Act~~ state's Nurse Practice Act. These services are provided by a registered nurse (RN), a licensed practical nurse (LPN), or a licensed vocational nurse (LVN) under the supervision of an RN licensed to practice and in good standing in the state in which services are provided. Nursing services may be provided on an intermittent or part-time basis or may be comprised of continuous care. The provision of the nursing service works to prevent or postpone the institutionalization of the member.

(B) Nursing services are services of a maintenance or preventative nature provided to members with stable, chronic conditions. These services are not intended to treat an acute health condition and may not include services reimbursable under either the Medicaid or Medicare ~~Home Health Program~~ home health program. This service primarily provides nurse supervision to the personal care assistant or to the advanced supportive/restorative assistance aide and assesses the member's health and prescribed medical services to ensure they meet the member's needs as specified in the person-centered service plan. A nursing assessment/evaluation, on-site visit is made to each member, with additional visits for members with advanced supportive/restorative assistance services authorized to evaluate the condition of the member and medical appropriateness of services. An assessment/evaluation report is forwarded to the ADvantage ~~Program~~ program case manager and the skilled nurse in accordance with review schedule determined between the case manager and the skilled nurse and outlined in the member's person-centered service plan, to report the member's condition or other significant information concerning each ADvantage member.

(i) The ADvantage ~~Program~~ program case manager may recommend authorization of nursing services as part of the interdisciplinary team planning for the member's person-centered service plan and/or assessment/evaluation of the:

(I) ~~member's~~ Member's general health, functional ability, and needs; and/or

(II) ~~adequacy~~ Adequacy of personal care and/or advanced supportive/restorative assistance services to meet the member's needs, including providing on-the-job training and competency testing for personal care or advanced supportive/restorative care aides per rules and regulations for the delegation of nursing tasks established by the ~~Oklahoma Board of Nursing~~ board of nursing in the state in which services are provided.

(ii) In addition to assessment/evaluation, the ADvantage ~~Program~~ program case manager may recommend authorization of nursing services to:

(I) ~~prepare a one week (1 week)~~ Prepare a one (1) week supply of insulin syringes for a person who is blind and has diabetes and can safely self-inject the medication but cannot fill his or her own syringe. This service includes monitoring the member's continued ability to self-administer the insulin;

(II) ~~prepare~~ Prepare oral medications in divided daily compartments for a member who self-administers prescribed medications but needs assistance and monitoring due to a minimal level of disorientation or confusion;

(III) ~~monitor~~ Monitor a member's skin condition when a member is at risk for skin breakdown due to immobility or incontinence or the member has a chronic stage II decubitus ulcer requiring maintenance care and monitoring;

(IV) ~~provide~~ Provide nail care for the member with diabetes or member who has circulatory or neurological compromise; and

(V) ~~provide~~ Provide consultation and education to the member, member's family, or other informal caregivers identified in the person-centered service plan, regarding the nature of the member's chronic condition. Skills training, including return skills demonstration to establish competency, to the member, family, or other informal caregivers as specified in the person-centered service plan for preventive and rehabilitative care procedures are also provided.

(C) Nursing service includes interdisciplinary team planning and recommendations for the member's person-centered service plan development and/or assessment/evaluation or for other services within the scope of the ~~Oklahoma Nursing Practice Act~~ nurse's license, including private duty nursing. Nursing services are billed per ~~fifteen minute (15 minute)~~ fifteen (15) minute unit of service. A specific procedure code is used to bill for interdisciplinary team planning and recommendations for the member's person-centered service plan, but other procedure codes may be used to bill for all other authorized nursing services. A maximum of eight (8) units, ~~two (2) hours~~ two

(2) hours], per day of nursing for service plan development and assessment evaluation are allowed. An agreement by a provider to perform a nurse evaluation is also an agreement to provide the Medicaid in-home care services for which the provider is certified and contracted. Reimbursement for a nurse evaluation is denied when the provider that produced the nurse evaluation fails to provide the nurse assessment identified in the Medicaid in-home care services for which the provider is certified and contracted.

(8) **Skilled nursing services.**

(A) Skilled nursing services listed in the person-centered service plan that are within the scope of the state's Nurse Practice Act and are ordered by a licensed physician, osteopathic physician, physician assistant, or an advanced practice nurse and are provided by an RN, LPN, or LVN under the supervision of an RN, licensed to practice and in good standing in the state in which services are provided. Skilled nursing services provided in the member's home or other community setting are services requiring the specialized skills of a licensed nurse. The scope and nature of these services are intended for treatment of a disease or a medical condition and are beyond the scope of ADvantage nursing services. These intermittent nursing services are targeted toward a prescribed treatment or procedure that must be performed at a specific time or other predictable rate of occurrence. The RN contacts the member's physician to obtain necessary information or orders pertaining to the member's care. When the member has an ongoing need for service activities requiring more or less units than authorized, the RN must recommend, in writing, that the service plan be revised.

(B) Skilled nursing services are provided on an intermittent or part-time basis, and billed per ~~fifteen minute (15 minute) units~~ fifteen (15) minute unit of service. Skilled nursing services are provided when nursing services are not available through Medicare or other sources or when SoonerCare plan nursing services limits are exhausted. Amount, frequency, and duration of services are prior-authorized in accordance with the member's person-centered service plan.

(9) **Home-delivered meals.**

(A) Home-delivered meals provide one (1) meal per day. A home-delivered meal is a meal prepared in advance and brought to the member's home. Each meal must have a nutritional content equal to at least one-third (1/3) of the dietary reference intakes as established by the Food and Nutrition Board of the ~~National Academy of Sciences~~ Academies of Sciences, Engineering and Medicine. Home-delivered meals are only provided to members who are unable to prepare meals and lack an informal provider to do meal preparation.

(B) Home-delivered meals are billed per meal, with one (1) meal equaling one (1) unit of service.

The limit of the number of units a member is allowed to receive is in accordance with the member's person-centered service plan. The provider must obtain a signature from the member or the member's representative at the time the meal is delivered. In the event the member is temporarily unavailable, such as at a doctor's appointment and the meal is left at the member's home, the provider must document the reason a signature was not obtained. The signature logs must be available for review.

(10) **Occupational therapy services.**

(A) Occupational therapy services are services that increase functional independence by enhancing the development of adaptive skills and performance capacities of members with physical disabilities and related psychological and cognitive impairments. Services are provided in the member's home and are intended to help the member achieve greater independence enabling him or her to reside and participate in the community. Treatment involves the therapeutic use of self-care, work and play activities, and may include modification of the tasks or environment to enable the member to achieve maximum independence, prevent further disability, and maintain health. Under a physician's order, a licensed occupational therapist evaluates the member's rehabilitation potential and develops an appropriate written, therapeutic regimen. The regimen utilizes paraprofessional, occupational therapy assistant services, within the limitations of his or her practice, working under the supervision of a licensed occupational therapist. The regimen includes education and training for informal caregivers to assist with and/or maintain services when appropriate. The occupational therapist ensures monitoring and documentation of the member's rehabilitative progress and reports to the member's case manager and physician to coordinate the necessary addition or deletion of services, based on the member's condition and ongoing rehabilitation potential.

(B) Occupational therapy services are billed per ~~fifteen minute (15 minute) units~~ fifteen (15) minute unit of service. Payment is not allowed solely for written reports or record documentation.

(11) **Physical therapy services.**

(A) Physical therapy services are those services that maintain or improve physical disability through the evaluation and rehabilitation of members disabled by pain, disease, or injury. Services are provided in the member's home and are intended to help the member achieve greater independence to reside and participate in the community. Treatment involves the use of physical therapeutic means, such as massage, manipulation, therapeutic exercise, cold and/or heat therapy, hydrotherapy, electrical stimulation, and light therapy. Under a physician's order, a licensed physical therapist evaluates the member's rehabilitation potential and develops an appropriate, written, therapeutic regimen. Under the Oklahoma

Physical Therapy Practice Act, a physical therapist may evaluate a member's rehabilitation potential and develop and implement an appropriate, written, therapeutic regimen without a referral from a licensed health care practitioner for a period not to exceed ~~thirty calendar (30 calendar) thirty (30) calendar~~ days. Any treatment required after the ~~thirty calendar (30 calendar) thirty (30) calendar~~ day period requires a prescription from a physician or the physician's assistant of the licensee. The regimen utilizes paraprofessional physical therapy assistant services, within the limitations of his or her practice, working under the supervision of the licensed physical therapist. The regimen includes education and training for informal caregivers to assist with and/or maintain services when appropriate. The licensed physical therapist ensures monitoring and documentation of the member's rehabilitative progress and reports to the member's case manager and physician to coordinate the necessary addition or deletion of services, based on the member's condition and ongoing rehabilitation potential.

(B) Physical therapy services are authorized as ADH care therapy enhancement and are a maximum of one (1) session unit per day of service. Payment is not allowed solely for written reports or record documentation.

(12) **Speech and language therapy services.**

(A) Speech and language therapy services are those that maintain or improve speech and language communication and swallowing disorders/disability through the evaluation and rehabilitation of members disabled by pain, disease, or injury. Services are provided in the member's home and are intended to help the member achieve greater independence to reside and participate in the community. Services involve the use of therapeutic means, such as evaluation, specialized treatment, or development and oversight of a therapeutic maintenance program. Under a physician's order, a licensed speech and language pathologist evaluates the member's rehabilitation potential and develops an appropriate, written, therapeutic regimen. The regimen utilizes ~~Speech Language Pathology Assistant~~ speech language pathology assistant services within the limitations of his or her practice, working under the supervision of the licensed ~~Speech and Language Pathologist~~ speech and language pathologist. The regimen includes education and training for informal caregivers to assist with, and/or maintain services when appropriate. The ~~Speech and Language Pathologist~~ speech and language pathologist ensures monitoring and documentation of the member's rehabilitative progress and reports to the member's case manager and physician to coordinate the necessary addition and/or deletion of services, based on the member's condition and ongoing rehabilitation potential.

(B) Speech and language therapy services are authorized as ADH care-therapy enhancement and are a maximum of one (1) session unit per day of service. Payment is not allowed solely for written reports or record documentation.

(13) **Hospice services.**

(A) Hospice services are palliative and comfort care provided to the member and his or her family when a physician certifies the member has a terminal illness, with a life expectancy of six (6) months or less, and orders hospice care. ADvantage hospice care is authorized for a ~~six month (6 month) six (6) month~~ period and requires physician certification of a terminal illness and orders of hospice care. When the member requires more than six (6) months of hospice care, a physician or nurse practitioner must have a face-to-face visit with the member ~~thirty calendar (30 calendar) thirty (30) calendar~~ days prior to the initial hospice authorization end-date, and re-certify that the member has a terminal illness, has six (6) months or less to live, and orders additional hospice care. After the initial authorization period, additional periods of ADvantage hospice may be authorized for a maximum of ~~sixty calendar (60 calendar) sixty (60) calendar~~ day increments with physician certification that the member has a terminal illness and six (6) months or less to live. A member's person-centered service plan that includes hospice care must comply with Waiver requirements to be within total person-centered service plan cost limits.

(B) A hospice program offers palliative and supportive care to meet the special needs arising out of the physical, emotional, and spiritual stresses experienced during the final stages of illness, through the end of life, and bereavement. The member signs a statement choosing hospice care instead of routine medical care with the objective to treat and cure the member's illness. Once the member has elected hospice care, the hospice medical team assumes responsibility for the member's medical care for the illness in the home environment. Hospice care services include nursing care, physician services, medical equipment and supplies, drugs for symptom and pain relief, home health aide and personal care services, physical, occupational and speech therapies, medical social services, dietary counseling, and grief and bereavement counseling to the member and/or the member's family.

(C) A hospice person-centered service plan must be developed by the hospice team in conjunction with the member's ADvantage case manager before hospice services are provided. The hospice services must be related to the palliation or management of the member's terminal illness, symptom control, or to enable the member to maintain ADL and basic functional skills. A member who is eligible for Medicare hospice provided as a Medicare Part A benefit, is not eligible to receive ADvantage hospice services.

(D) Hospice services are billed per diem of service for days covered by a hospice person-centered service plan and while the hospice provider is responsible for providing hospice services as needed by the member or member's family. The maximum total annual reimbursement for a member's hospice care within a ~~twelve-month (12-month)~~ twelve (12) month period is limited to an amount equivalent to ~~eighty-five (85) percent~~ eighty-five percent (85%) of the Medicare hospice cap payment, and must be authorized on the member's person-centered service plan.

(14) ADvantage personal care.

(A) ADvantage personal care is assistance to a member in carrying out ADLs, such as bathing, grooming, and toileting or in carrying out instrumental activities of daily living (IADLs), such as preparing meals and laundry service, to ensure the member's personal health and safety, or to prevent or minimize physical health regression or deterioration. Personal care services do not include service provision of a technical nature, such as tracheal suctioning, bladder catheterization, colostomy irrigation, or the operation and maintenance of equipment of a technical nature.

(B) ADvantage home care agency skilled nursing staff working in coordination with an ADvantage case manager is responsible for the development and monitoring of the member's personal care services.

(C) ADvantage personal care services are prior-authorized and billed per ~~fifteen-minute (15-minute)~~ fifteen (15) minute unit of service, with units of service limited to the number of units on the ADvantage approved person-centered service plan.

(15) Personal emergency response system (PERS).

(A) PERS is an electronic device that enables members at high risk of institutionalization, to secure help in an emergency. Members may also wear a portable "help" button to allow for mobility. PERS is connected to the person's phone and programmed to signal, per member preference, a friend, relative, or a response center, once the "help" button is activated. For an ADvantage member to be eligible for PERS service, the member must meet all of the service criteria in (i) through (vi). The member:

- (i) ~~member has a recent~~ Has a recent history of falls as a result of an existing medical condition that prevents the member from getting up unassisted from a fall;
- (ii) ~~member lives~~ Lives alone and without a regular caregiver, paid or unpaid, and therefore is left alone for long periods of time;
- (iii) ~~member demonstrates~~ Demonstrates the capability to comprehend the purpose of and activate the PERS;
- (iv) ~~member has~~ Has a health and safety plan detailing the interventions beyond the PERS to ensure the member's health and safety in his or her home;

(v) ~~member~~ Has has a disease management plan to implement medical and health interventions that reduce the possibility of falls by managing the member's underlying medical condition causing the falls; and

(vi) ~~PERS service avoids~~ Will likely avoid premature or unnecessary institutionalization ~~of the member as a result of PERS.~~

(B) PERS services are billed using the appropriate ~~Healthcare Common Procedure Coding System (HCPCS)~~ HCPC procedure code for installation, monthly service, or PERS purchase. All services are prior authorized per the ADvantage approved service plan.

(16) CD-PASS.

(A) CD-PASS are personal services assistance (PSA) and advanced personal services assistance (APSA) that enables a member in need of assistance to reside in his or her home and community of choice, rather than in an institution; and to carry out functions of daily living, self-care, and mobility. CD-PASS services are delivered as authorized on the person-centered service plan. The member becomes the employer of record and employs the PSA and the APSA. The member is responsible, with assistance from ADvantage ~~Program~~ Administrative program administrative Financial Management Services (FMS), for ensuring the employment complies with state and federal labor law requirements. The member/employer may designate an adult family member or friend, who is not a PSA or APSA to the member, as an "authorized representative" to assist in executing the employer functions. The member/employer:

- (i) ~~recruits~~ Recruits, hires, and, as necessary, discharges the PSA or APSA;
- (ii) ~~is solely responsible to provide instruction and training to the PSA or APSA on tasks and works with the consumer directed agent/case manager (CDA) to obtain ADvantage skilled nursing services assistance with training, when necessary~~ Ensures that the PSA or APSA has received sufficient instruction and training. If needed, the member/employer will work with the consumer-directed agent/case manager (CDA) to obtain training assistance from ADvantage skilled nurses. Prior to performing an APSA task for the first time, the APSA must demonstrate competency in the tasks in an on-the-job training session conducted by the member, and the member must document the attendant's competency in performing each task in the APSA's personnel file;
- (iii) ~~determines~~ Determines where and how the PSA or APSA works, hours of work, what is to be accomplished and, within individual budget allocation limits, wages to be paid for the work;
- (iv) ~~supervises~~ Supervises and documents employee work time; and

- (v) ~~provides~~Provides tools and materials for work to be accomplished.
- (B) The services the PSA may provide include:
 - (i) ~~assistance~~Assistance with mobility and transferring in and out of bed, wheelchair, or motor vehicle, or all;
 - (ii) ~~assistance~~Assistance with routine bodily functions, such as:
 - (I) ~~bathing~~Bathing and personal hygiene;
 - (II) ~~dressing~~Dressing and grooming; and
 - (III) ~~eating~~Eating, including meal preparation and cleanup;
 - (iii) ~~assistance~~Assistance with home services, such as shopping, laundry, cleaning, and seasonal chores;
 - (iv) ~~companion~~Companion assistance, such as letter writing, reading mail, and providing escort or transportation to participate in approved activities or events. "Approved activities or events," means community, civic participation guaranteed to all citizens including, but not limited to, exercise of religion, voting or participation in daily life activities in which exercise of choice and decision making is important to the member, and may include shopping for food, clothing, or other necessities, or for participation in other activities or events specifically approved on the person-centered service plan.
- (C) An APSA provides assistance with ADLs to a member with a stable, chronic condition, when such assistance requires devices and procedures related to altered body function if such activities, in the opinion of the attending physician or licensed nurse, may be performed if the member were physically capable, and the procedure may be safely performed in the home. Services provided by the APSA are maintenance services and are never used as therapeutic treatment. Members who develop medical complications requiring skilled nursing services while receiving APSA services are referred to his or her attending physician, who ~~when appropriate, orders~~may order home health services, ~~as appropriate~~. APSA includes assistance with health maintenance activities that may include:
 - (i) ~~routine~~Routine personal care for persons with ostomies, including tracheotomies, gastrotomies, and colostomies with well-healed stoma, external, indwelling, and suprapubic catheters that include changing bags and soap and water hygiene around the ostomy or catheter site;
 - (ii) ~~removing~~Removing external catheters, inspecting skin, and reapplication of same;
 - (iii) ~~administering~~Administering prescribed bowel program, including use of suppositories and sphincter stimulation, and enemas pre-packaged only without contraindicating rectal or intestinal conditions;
 - (iv) ~~applying~~Applying medicated prescription lotions or ointments and dry, non-sterile dressings to unbroken skin;
 - (v) ~~using~~Using a lift for transfers;
 - (vi) ~~manually~~Manually assisting with oral medications;
 - (vii) ~~providing~~Providing passive range of motion (non-resistive flexion of joint) therapy, delivered in accordance with the person-centered service plan unless contraindicated by underlying joint pathology;
 - (viii) ~~applying~~Applying non-sterile dressings to superficial skin breaks or abrasions; and
 - (ix) ~~using~~Using universal precautions as defined by the Centers for Disease Control and Prevention.
- (D) FMS are program administrative services provided to participating CD-PASS members/employers by AA. FMS are employer-related assistance that provides Internal Revenue Service (IRS) fiscal reporting agent and other financial management tasks and functions, including, but not limited to:
 - (i) ~~processing~~Processing employer payroll, after the member/employer has verified and approved the employee timesheet, at a minimum of semi-monthly, and associated withholding for taxes, or for other payroll withholdings performed on behalf of the member as employer of the PSA or APSA;
 - (ii) ~~other employer-related~~Other employer-related payment disbursements as agreed to with the member/employer and in accordance with the member/employer's individual budget allocation;
 - (iii) ~~responsibility~~Responsibility for obtaining criminal and abuse registry background checks on prospective hires for PSA or APSA on the member/employer's behalf;
 - (iv) ~~providing~~Providing orientation and training regarding employer responsibilities, as well as employer information and management guidelines, materials, tools, and staff consultant expertise to support and assist the member successfully perform employer-related functions; and
 - (v) ~~making~~Making Hepatitis B vaccine and vaccination series available to PSA and APSA employees in compliance with Occupational Safety and Health Administration (OSHA) standards.
- (E) The PSA service is billed per ~~fifteen minute~~ (15 minute) fifteen (15) minute unit of service. The number of units of PSA a member may receive is limited to the number of units approved on the person-centered service plan.
- (F) The APSA service is billed per ~~fifteen minute~~ (15 minute) fifteen (15) minute unit of service. The number of units of APSA a member may receive is limited to the number of units approved on the person-centered service plan.

(17) **Institutional transition services.**

Permanent Final Adoptions

(A) Institutional transition services are those services necessary to enable a member to leave the institution and receive necessary support through ADvantage waiver services in his or her home and community.

(B) Transitional case management services are services per OAC 317:30-5-763(1) required by the member and included on the member's person-centered service plan that are necessary to ensure the member's health, welfare, and safety, or to enable the member to function with greater independence in the home, and without which, the member would continue to require institutionalization. ADvantage transitional case management services assist institutionalized members who are eligible to receive ADvantage services in gaining access to needed ~~Waiver~~ waiver and other State ~~plan~~ Plan services, as well as needed medical, social, educational, and other services to assist in the transition, regardless of the funding source for the services to which access is gained. Transitional case management services may be authorized for periodic monitoring of an ADvantage member's progress during an institutional stay and for assisting the member transition from institution to home by updating the person-centered service plan, including necessary institutional transition services to prepare services and supports to be in place or to start on the date the member is discharged from the institution. Transitional case management services may be authorized to assist individuals that have not previously received ADvantage services, but were referred by ~~DHS~~ OKDHS AS to the case management provider for assistance in transitioning from the institution to the community with ADvantage services support.

(i) Institutional transition case management services are prior authorized and billed per ~~ff-teen minute (15 minute)~~ fifteen (15) minute unit of service using the appropriate HCPC procedure code and modifier associated with the location of residence of the member served, per OAC 317:30-5-763(1)(C).

(ii) A unique modifier code is used to distinguish transitional case management services from regular case management services.

(C) Institutional transition services may be authorized and reimbursed, per the conditions in (i) through (iv).

(i) The service is necessary to enable the member to move from the institution to his or her home.

(ii) The member is eligible to receive ADvantage services outside of the institutional setting.

(iii) Institutional transition services are provided to the member within one-hundred and eighty (180) calendar-days of discharge from the institution.

(iv) Services provided while the member is in the institution are claimed as delivered on the day of discharge from the institution.

(D) When the member receives institutional transition services but fails to enter the waiver, any institutional transition services provided are not reimbursable.

(18) Assisted living services (ALS).

(A) ALS are personal care and supportive services furnished to waiver members who reside in a homelike, non-institutional setting that includes twenty-four (24) hour on-site response capability to meet scheduled or unpredictable member needs and to provide supervision, safety, and security. Services also include social and recreational programming and medication assistance, to the extent permitted under State law. The ALS provider is responsible for coordinating services provided by third parties to ADvantage members in the assisted living center (ALC). Nursing services are incidental rather than integral to the provision of ALS. ADvantage reimbursement for ALS includes services of personal care, housekeeping, laundry, meal preparation, periodic nursing evaluations, nursing supervision during nursing intervention, intermittent or unscheduled nursing care, medication administration, assistance with cognitive orientation, assistance with transfer and ambulation, planned programs for socialization, activities, and exercise, and for arranging or coordinating transportation to and from medical appointments. Services, except for planned programs for socialization, activities, and exercise are to meet the member's specific needs as determined through the individualized assessment and documented on the member's person-centered service plan.

(B) The ADvantage ALS philosophy of service delivery promotes member choice, and to the greatest extent possible, member control. A member has control over his or her living space and his or her choice of personal amenities, furnishings, and activities in the residence. The ADvantage member must have the freedom to control his or her schedule and activities. The ALS provider's documented operating philosophy, including policies and procedures, must reflect and support the principles and values associated with the ADvantage assisted living philosophy and approach to service delivery emphasizing member dignity, privacy, individuality, and independence.

(C) ADvantage ALS required policies for admission and termination of services and definitions.

(i) ADvantage-certified assisted living centers (ALC) are required to accept all eligible ADvantage members who choose to receive services through the ALC, subject only to issues relating to, one (1) or more of the following:

(I) ~~rental~~ Rental unit availability;

(II) ~~the~~ The member's compatibility with other residents;

- (III) ~~the~~The center's ability to accommodate residents who have behavior problems, wander, or have needs that exceed the services the center provides; or
- (IV) ~~restrictions~~Restrictions initiated by statutory limitations.
- (ii) The ALC may specify the number of units the provider is making available to service ADvantage members. At minimum, the ALC must designate ten (10) residential units for ADvantage members. Residential units designated for ADvantage may be used for other residents at the ALC when there are no pending ADvantage members for those units. Exceptions may be requested in writing subject to the approval of AA.
- (iii) Mild or moderate, cognitive impairment of the applicant is not a justifiable reason to deny ALC admission. Centers are required to specify whether they are able to accommodate members who have behavior problems or wander. Denial of admission due to a determination of incompatibility must be approved by the case manager and the AA. Appropriateness of placement is not a unilateral determination by the ALC. The ADvantage case manager, the member, or member's designated representative, and the ALC in consultation determine the appropriateness of placement.
- (iv) The ALC is responsible for meeting the member's needs for privacy, dignity, respect, and freedom from coercion and restraint. The ALC must optimize the member's initiative, autonomy, and independence in making life choices. The ALC must facilitate member choices regarding services and supports, and who provides them. Inability to meet those needs is not recognized as a reason for determining an ADvantage member's placement is inappropriate. The ALC agrees to provide or arrange and coordinate all of the services listed in the Oklahoma State Department of Health (OSDH) regulations, per OAC 310:663-3-3, except for specialized services.
- (v) In addition, the ADvantage participating ALC agrees to provide or coordinate the services listed in (I) through (III).
- (I) Provide an emergency call system for each participating ADvantage member.
- (II) Provide up to three (3) meals per day plus snacks sufficient to meet nutritional requirements, including modified special diets, appropriate to the member's needs and choices; and provide members with twenty-four (24) hour access to food by giving members control in the selection of the foods they eat, by allowing the member to store personal food in his or her room, by allowing the member to prepare and eat food in his or her room, and allowing him or her to decide when to eat.
- (III) Arrange or coordinate transportation to and from medical appointments. The ALC must assist the member with accessing transportation for integration into the community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, and control his or her personal resources and receive services in the community to the same degree of access as residents not receiving ADvantage services.
- (vi) The provider may offer any specialized service or rental unit for members with Alzheimer's disease and related dementias, physical disabilities, or other special needs the facility intends to market. Heightened scrutiny, through additional monitoring of the ALC by AA, is utilized for those ALC's that also provide inpatient treatment; settings on the grounds of or adjacent to a public institution and/or other settings that tend to isolate individuals from the community. The ALC must include evidence that the ALC portion of the facility has clear administrative, financial, programmatic and environmental distinctions from the institution.
- (vii) When the provider arranges and coordinates services for members, the provider is obligated to ensure the provision of those services.
- (viii) Per OAC 310:663-1-2, "personal care" is defined as "assistance with meals, dressing, movement, bathing or other personal needs or maintenance, or general supervision of the physical and mental well-being of a person; [Title 63 of the Oklahoma Statutes (O.S.), Section (§) 1-1902.17] and includes assistance with toileting." For ADvantage ALS, assistance with "other personal needs" in this definition includes assistance with grooming and transferring. The term "assistance" is clarified to mean hands-on help, in addition to supervision.
- (ix) The specific ALS assistance provided along with amount and duration of each type of assistance is based upon the member's assessed need for service assistance and is specified in the ALC's service plan that is incorporated as supplemental detail into the ADvantage comprehensive person-centered service plan. The ADvantage case manager in cooperation with ALC professional staff, develops the person-centered service plan to meet member needs. As member needs change, the person-centered service plan is amended consistent with the assessed, documented need for change in services.
- (x) Placement, or continued placement of an ADvantage member in an ALC, is inappropriate when any one (1) or more of the conditions exist.
- (I) The member's needs exceed the level of services the center provides. Documentation must support ALC efforts to provide or arrange

for the required services to accommodate participant needs.

(II) The member exhibits ~~behaviors~~ or actions that repeatedly and substantially ~~interferes~~ interfere with the rights or well-being of other residents, and the ALC documented efforts to resolve behavior problems including medical, behavioral, and increased staffing interventions. Documentation must support the ~~ALC~~ ALC's attempted interventions to resolve behavior problems.

(III) The member has a complex, unstable, or unpredictable medical condition and treatment cannot be developed and implemented appropriately in the assisted living environment. Documentation must support the ~~ALC~~ ALC's attempts to obtain appropriate member care.

(IV) The member fails to pay room and board charges and/or ~~DHS~~ OKDHS determined vendor payment obligation.

(xi) Termination of residence when inappropriately placed. Once a determination is made that a member is inappropriately placed, the ALC must inform the member, the member's representative, ~~when~~ if applicable, the AA, and the member's ADvantage case manager. The ALC must develop a discharge plan in consultation with the member, the member's representative, the ADvantage case manager, and the AA. The ALC and case manager must ensure the discharge plan includes strategies for providing increased services, when appropriate, to minimize risk and meet the higher care needs of members transitioning out of the ALC, when the reason for discharge is inability to meet member needs. When voluntary termination of residency is not arranged, the ALC must provide written notice to the member and to the member's representative, with a copy to the member's ADvantage case manager and the AA. The written notice provides intent to terminate the residency agreement and move the member to an appropriate care provider. The thirty (30) calendar-day requirement must not apply when emergency termination of the residency agreement is mandated by the member's immediate health needs or when the termination of the residency agreement is necessary for the physical safety of the member or other ALC residents. The written involuntary termination of residency notice for reasons of inappropriate placement must include:

(I) ~~a~~ A full explanation of the reasons for the termination of residency;

(II) ~~the~~ The notice date;

(III) ~~the~~ The date notice was given to the member and the member's representative, the ADvantage case manager, and the AA;

(IV) ~~the~~ The date the member must leave ALC; and

(V) ~~notification~~ Notification of appeal rights and the process for submitting appeal of termination of Medicaid ALS to OHCA.

(D) ADvantage ALS provider standards in addition to licensure standards.

(i) **Physical environment.**

(I) The ALC must provide lockable doors on the entry door of each rental unit and an attached, lockable compartment within each member unit for valuables. Members must have exclusive rights to his or her unit with lockable doors at the entrance of the individual or shared rental unit. Keys to rooms may be held by only appropriate ALC staff as designated by the member's choice. Rental units may be shared only when a request to do so is initiated by the member. Members must be given the right to choose his or her roommate.

(II) The member has a legally enforceable agreement, or lease, with the ALC. The member must have the same responsibilities and protections from eviction as all tenants under the ~~landlord-tenant~~ landlord-tenant law of the state, county, city, or other designated entity.

(III) The ALC must provide each rental unit with a means for each member to control the temperature in the residential unit through the use of a damper, register, thermostat, or other reasonable means under the control of the member and that preserves privacy, independence, and safety, provided that the OSDH may approve an alternate means based on documentation that the design of the temperature control is appropriate to the special needs of each member who has an alternate temperature control.

(IV) For ALCs built prior to January 1, 2008, each ALC individual residential unit must have a minimum total living space, including closets and storage areas, of two-hundred and fifty (250) square feet; for ALCs built after December 31, 2007, each ALC individual residential unit must have a minimum total living space, including closets and storage areas, of three-hundred and sixty (360) square feet.

(V) The ALC must provide a private bathroom for each living unit that must be equipped with one (1) lavatory, one (1) toilet, and one (1) bathtub or shower stall.

(VI) The ALC must provide at a minimum; a kitchenette, defined as a space containing a refrigerator, adequate storage space for utensils, and a cooking appliance, ~~a~~ A microwave is an acceptable cooking appliance.

(VII) The member is responsible for furnishing the rental unit. When a member is unable to supply basic furnishings defined as a bed, dresser, nightstand, chairs, table, trash can, and lamp, or if ~~member-supplied~~ member-supplied furnishings pose a

health or safety risk, the member's ADvantage case manager in coordination with the ALC, must assist the member in obtaining basic furnishings for the rental unit. The member must have the freedom to furnish and decorate the rental unit within the scope of the lease or residency agreement.

(VIII) The ALC must meet the requirements of all applicable federal and state laws and regulations including, but not limited to, state and local sanitary codes, state building and fire safety codes, and laws and regulations governing use and access by persons with disabilities.

(IX) The ALC must ensure the design of common areas accommodates the special needs of the resident population and that the rental unit accommodates the special needs of the member in compliance with the Americans with Disabilities Act accessibility guidelines per ~~28 Code of Federal Regulations, Part 36, Appendix A~~ Nondiscrimination on the Basis of Disability By Public Accommodations and in Commercial Facilities, 28 Code of Federal Regulations, Appendix A, at no additional cost to the member.

(X) The ALC must provide adequate and appropriate social and recreational space for residents and the common space must be proportionate to the number of residents and appropriate for the resident population.

(XI) The ALC must provide appropriately monitored outdoor space for resident use.

(XII) The ALC must provide the member with the right to have visitors of his or her choosing at any time. Overnight visitation is allowed as permissible by the Landlord/Tenant Agreement.

(XIII) The ALC must be physically accessible to members.

(ii) **Sanitation.**

(I) The ALC must maintain the facility, including its individual rental units in a clean, safe, and sanitary manner ~~and be ensuring that they are~~ insect and rodent free, odorless, and in good repair at all times.

(II) The ALC must maintain buildings and grounds in a good state of repair, in a safe and sanitary condition, and in compliance with the requirements of applicable regulations, bylaws, and codes.

(III) The ALC stores clean laundry in a manner that prevents contamination and changes linens at time intervals necessary to avoid health issues.

(IV) The ALC must provide housekeeping in member rental units to maintain a safe, clean, and sanitary environment.

(V) The ALC must have policies and procedures for members' pets.

(iii) **Health and Safety.**

(I) The ALC must provide building security that protects members from intruders with security measures appropriate to building design, environmental risk factors, and the resident population.

(II) The ALC must respond immediately and appropriately to missing members, accidents, medical emergencies, or deaths.

(III) The ALC must have a plan in place to prevent, contain, and report any diseases considered to be infectious or are listed as diseases that must be reported to the OSDH.

(IV) The ALC must adopt policies for the prevention of abuse, neglect, and exploitation that include screening, training, prevention, investigation, protection during investigation, and reporting.

(V) The ALC must provide services and facilities that accommodate the needs of members to safely evacuate in the event of fires or other emergencies.

(VI) The ALC must ensure staff is trained to respond appropriately to emergencies.

(VII) The ALC must ensure that fire safety requirements are met.

(VIII) The ALC must offer meals that provide balanced and adequate nutrition for members.

(IX) The ALC must adopt safe practices for the preparation and delivery of meals.

(X) The ALC must provide a twenty-four (24) hour response to personal emergencies appropriate to the needs of the resident population.

(XI) The ALC must provide safe transportation to and from ALC sponsored social or recreational outings.

(iv) **Staff to resident ratios.**

(I) The ALC must ensure a sufficient number of trained staff are on duty, awake, and present at all times, twenty-four (24) hours a day, and seven (7) days a week, to meet the needs of residents and to carry out all of the processes listed in the ALC's written emergency and disaster preparedness plan for fires and other disasters.

(II) The ALC must ensure staffing is sufficient to meet ADvantage ~~Program~~ program members' needs in accordance with each member's ADvantage person-centered service plan.

(III) The ALC must have plans in place to address situations where there is a disruption to the ALC's regular work force.

(v) **Staff training and qualifications.**

- (I) The ALC must ensure staff has qualifications consistent with their job responsibilities.
- (II) All staff assisting in, or responsible for, food service must have attended a food service training program offered or approved by OSDH.
- (III) The ALC must provide staff orientation and ongoing training to develop and maintain staff knowledge and skills. All direct care and activity staff receive at least eight (8) hours of orientation and initial training within the first month of employment and at least four (4) hours annually thereafter. Staff providing direct care on a dementia unit must receive four (4) additional hours of dementia specific training. Annual first aid and cardiopulmonary resuscitation (CPR) certification do not count toward the four (4) hours of annual training.
- (vi) **Staff supervision.**
- (I) The ALC must ensure delegation of tasks to non-licensed staff is consistent and in compliance with all applicable state regulations including, but not limited to, the ~~Oklahoma State's~~ Nurse Practice Act and OSDH Nurse Aide Certification rules.
- (II) The ALC must ensure that, where the monitoring of food intake or therapeutic diets is provided at the prescribed services level, a registered dietitian monitors member health and nutritional status.
- (vii) **Resident rights.**
- (I) The ALC must provide to each member and each member's representative, at the time of admission, a copy of the resident statutory rights listed in ~~Section 1-1918 of Title 63 of the Oklahoma Statutes~~ 63 O.S. § 1-1918 amended to include additional rights and the clarification of rights as listed in the ADvantage ~~Member Assurance~~ member assurances. A copy of resident rights must be posted in an easily accessible, conspicuous place in the facility. The facility must ensure that staff is familiar with and observes, the resident rights.
- (II) The ALC must conspicuously post for display in an area accessible to residents, employees, and visitors, the ALC's complaint procedures and the name, address, and phone number of a person authorized to receive complaints. A copy of the complaint procedure must also be given to each member, the member's representative, or the legal guardian. The ALC must ensure all employees comply with the ALC's complaint procedure.
- (III) The ALC must provide to each member and member's representative, at the time of admission, information about Medicaid grievance and appeal rights, including a description of the process for submitting a grievance or appeal of any decision that decreases Medicaid services to the member.
- (viii) **Incident reporting.**
- (I) The ALC must maintain a record of incidents that occur and report incidents to the member's ADvantage case manager and to the AA, utilizing the AA Critical Incident Reporting form. Incident reports are also made to Adult Protective Services (APS) and to the OSDH, as appropriate, per ALC licensure rules, utilizing the specific reporting forms required.
- (II) Incidents requiring report by licensed ~~ALCALC's~~ are those defined by OSDH, per OAC 310:663-19-1 and listed on the AA Critical Incident Reporting form.
- (III) Reports of incidents must be made to the member's ADvantage case manager and to the AA via electronic submission within one (1) business day of the reportable incident's discovery utilizing the AA Critical Incident Reporting form. When required, a follow-up report of the incident must be submitted via electronic submission to the member's ADvantage case manager and to the AA. The follow-up report must be submitted within ~~five business (5 business)~~ five (5) business days of the incident. The final report must be filed with the member's ADvantage case manager and the AA when the investigation is complete, not to exceed ~~ten business (10 business)~~ ten (10) business days after the incident.
- (IV) Each ALC having reasonable cause to believe that a member is suffering from abuse, neglect, exploitation, or misappropriation of member property must make a report to APS as soon as the person is aware of the situation per ~~O.S. 43A § 10-104.A~~ 43A O.S. § 10-104.A. Reports are also made to OSDH, as appropriate, per ALC licensure rules.
- (V) The preliminary incident report must at the minimum, include who, what, when, where, and the measures taken to protect the member and resident(s) during the investigation. The follow-up report must, at the minimum, include preliminary information, the extent of the injury or damage, ~~when~~ if any, and preliminary investigation findings. The final report, at a minimum, includes preliminary and follow-up information, a summary of investigative actions representing a thorough investigation, investigative findings and conclusions ~~based on findings~~, and corrective measures to prevent future occurrences. When it is necessary to omit items, the final report must include why such items were omitted and when they will be provided.

(ix) Provision of or arrangement for necessary health services. The ALC must:

- (I) ~~arrange~~Arrange or coordinate transportation for members to and from medical appointments; and
- (II) ~~provide~~Provide or coordinate with the member and the member's ADvantage case manager for delivery of necessary health services. The ADvantage case manager is responsible for monitoring that all health-related services required by the member as identified through assessment and documented on the person-centered service plan, are provided in an appropriate and timely manner. The member has the freedom to choose any available provider qualified by licensure or certification to provide necessary health services in the ALC.

(E) ~~ALS~~ALCs are billed per diem of service for days covered by the ADvantage member's person-centered service plan and during which the ALS provider is responsible for providing ALS for the member. The per diem rate for ADvantage ~~assisted living services~~ALS for a member is one (1) of three (3) per diem rate levels based on a member's need for type of, intensity of, and frequency of service to address member ADLs, instrumental activities of the daily living (IADLs), and health care needs. The rate level is based on the Uniform Comprehensive Assessment Tool (UCAT) assessment by the member's ADvantage case manager employed by a case management agency independent of the ALS provider. The determination of the appropriate per diem rate is made by the AA clinical review staff.

(F) The ALC must notify AA ~~ninety calendar (90-calendar)~~ninety (90) calendar days before terminating or not renewing the ALC's ADvantage contract.

(i) The ALC must give notice in writing to the member, the member's representative(s), the AA, and the member's ADvantage case manager ~~ninety calendar (90-calendar)~~ninety (90) calendar days before:

- (I) ~~voluntary~~Voluntary cessation of the ALC's ADvantage contract; or
- (II) ~~closure~~Closure of all or part of the ALC.

(ii) The notice of closure must include:

- (I) ~~the~~The proposed ADvantage contract termination date;
- (II) ~~the~~The termination reason;
- (III) ~~an~~An offer to assist the member secure an alternative placement; and
- (IV) ~~available~~Available housing alternatives.

(iii) The facility must comply with all applicable laws and regulations until the closing date, including those related to resident transfer or discharge.

(iv) Following the last move to the last ADvantage member, the ALC must provide in writing to the AA:

- (I) ~~the~~The effective date of closure based on the discharge date of the last resident;
- (II) ~~a~~A list of members transferred or discharged and where they relocated; and
- (III) ~~the~~The plan for storage of resident records per OAC 310:663-19-3(g), relating to preservation of resident records and the name, address, and phone numbers of the person responsible for the records.

PART 105. RESIDENTIAL BEHAVIORAL MANAGEMENT SERVICES IN GROUP SETTINGS

317:30-5-1043. Coverage by category

(a) **Adults.** Residential Behavioral Management Services (RBMS) in group settings are not covered for adults.

(b) **Children.** RBMS in group settings are covered for children as set forth in this subsection.

(1) **Description.** RBMS are provided by Organized Health Care Delivery Systems (OHCDs) for children in the care and custody of the State who have special psychological, behavioral, emotional and social needs that require more intensive care than can be provided in a family or foster home setting. The behavior management services are provided in the least restrictive environment and within a therapeutic milieu. The group setting is restorative in nature, allowing children with emotional and psychological problems to develop the necessary control to function in a less restrictive setting. RBMS are reimbursed in accordance with established rate methodology as described in the Oklahoma Medicaid State Plan. It is expected that RBMS in group settings are an all-inclusive array of treatment services provided in one (1) day. In the case of a child who needs additional specialized services, under the Rehabilitation Option or by a psychologist, prior authorization by the OHCA or designated agent is required. Only specialized rehabilitation or psychological treatment services to address unique, unusual or severe symptoms or disorders will be authorized. If additional services are approved, the OHCDs collaborates with the provider of such services as directed by the OHCA or its agent. Any additional specialized behavioral health services provided to children in state custody are funded in the normal manner. The OHCDs must provide concurrent documentation that these services are not duplicative. The OHCDs determines the need for RBMS.

(2) **Medical necessity criteria.** The following medical necessity criteria must be met for RBMS.

(A) Any Diagnostic and Statistical Manual of Mental Disorders (DSM) primary diagnosis, with the exception of V codes, with a detailed description of the symptoms supporting the diagnosis. A detailed

description of the child's emotional, behavioral and psychological condition must be on file.

(B) The child is medically stable and not actively suicidal or homicidal and not in need of substance abuse detoxification services.

(C) It has been determined by the OHCDs that the current disabling symptoms could not have been or have not been manageable in a less intensive treatment program.

(D) Documentation that the child's presenting emotional and/or behavioral problems prevent the child from living in a traditional family home. The child requires the availability of twenty-four (24) hour crisis response/behavior management and intensive clinical interventions from professional staff.

(E) The agency which has permanent or temporary custody of the child agrees to active participation in the child's treatment needs and planning.

(F) All of the medical necessity criteria must also be met for continued stay in residential group settings.

(3) **Treatment components.**

(A) **Individual plan of care development.** A comprehensive individualized plan of care for each resident shall be formulated by the provider agency staff within thirty (30) days of admission, for intensive treatment services (ITS) level within seventy-two (72) hours, with documented input from the agency which has permanent or temporary custody of the child and when possible, the parent. This plan must be revised and updated at least every three (3) months, every seven (7) days for ITS, with documented involvement of the agency which has permanent or temporary custody of the child. Documented involvement can be written approval of the individual plan of care by the agency which has permanent or temporary custody of the child and indicated by the signature of the agency case worker or liaison on the individual plan of care. It is acceptable in circumstances where it is necessary to fax a service plan to someone for review and then have him/her fax back his/her signature; however, the provider obtains the original signature for the clinical file within thirty (30) days. No stamped or Xeroxed signatures are allowed. An individual plan of care is considered inherent in the provision of therapy and is not covered as a separate item of behavior management services. The individual plan of care is individualized taking into account the child's age, history, diagnosis, functional levels, and culture. It includes appropriate goals and time limited and measurable objectives. Each member's individual plan of care must also address the provider agency's plans with regard to the provision of services in each of the following areas:

- (i) Group therapy;
- (ii) Individual therapy;
- (iii) Family therapy;
- (iv) Alcohol and other drug counseling;
- (v) Basic living skills redevelopment;

(vi) Social skills redevelopment;

(vii) Behavior redirection; and

(viii) The provider agency's plan to access appropriate educational placement services. (Any educational costs are excluded from calculation of the daily rate for behavior management services.)

(B) **Individual therapy.** The provider agency must provide individual therapy on a weekly basis with a minimum of one (1) or more sessions totaling one (1) hour or more of treatment per week to children and youth receiving RBMS in group homes. Individual therapy must be age appropriate and the techniques and modalities employed relevant to the goals and objectives of the individual's plan of care. Individual counseling is a face-to-face, one-to-one service, and must be provided in a confidential setting.

(C) **Group therapy.** The provider agency must provide group therapy to children and youth receiving RBMS. Group therapy must be a face-to-face interaction, age appropriate and the techniques and modalities employed relevant to the goals and objectives of the individual's plan of care. The minimum expected occurrence would be one (1) hour per week in group homes. Group size should not exceed six (6) members and group therapy sessions must be provided in a confidential setting. ~~One half hour (30 min)~~ Thirty (30) minutes of individual therapy may be substituted for one (1) hour of group therapy.

(D) **Family therapy.** Family therapy is a face-to-face interaction between the therapist/counselor and family, to facilitate emotional, psychological or behavioral changes and promote successful communication and understanding. The provider agency must provide family therapy as indicated by the resident's individual plan of care. The agency must work with the caretaker to whom the resident will be discharged, as identified by the OHCDs custody worker. The agency must seek to support and enhance the child's relationships with family members (nuclear and appropriate extended), if the custody plan for the child indicates family reunification. The RBMS provider must also seek to involve the child's parents in treatment team meetings, plans and decisions and to keep them informed of the child's progress in the program. Any service provided to the family must have the child as the focus.

(E) **Alcohol and other drug abuse treatment education, prevention, therapy.** The provider agency must provide alcohol and other drug abuse treatment for residents who have emotional or behavioral problems related to substance abuse/chemical dependency, to begin, maintain and enhance recovery from alcoholism, problem drinking, drug abuse, drug dependency addiction or nicotine use and addiction. This service is considered ancillary to any other formal treatment program in which the child participates for treatment and rehabilitation. For residents who

have no identifiable alcohol or other drug use, abuse, or dependency, age appropriate education and prevention activities are appropriate. These may include self-esteem enhancement, violence alternatives, communication skills or other skill development curriculums.

(F) **Basic living skills redevelopment.** The provider agency must provide goal-directed activities designed for each resident to restore, retain, and improve those basic skills necessary to independently function in a family or community. Basic living skills redevelopment is age appropriate and relevant to the goals and objectives of the individual plan of care. This may include, but is not limited to food planning and preparation, maintenance of personal hygiene and living environment, household management, personal and household shopping, community awareness and familiarization with community resources, mobility skills, job application and retention skills.

(G) **Social skills redevelopment.** The provider agency must provide goal-directed activities designed for each resident to restore, retain and improve the self-help, communication, socialization, and adaptive skills necessary to reside successfully in home and community based settings. These are age appropriate, culturally sensitive and relevant to the goals of the individual plan of care. For ITS level of care, the minimum skill redevelopment per day is three (3) hours. Any combination of basic living skills and social skills redevelopment that is appropriate to the need and developmental abilities of the child is acceptable.

(H) **Behavior redirection.** The provider agency must be able to provide behavior redirection management by agency staff as needed twenty-four (24) hours a day, seven (7) days per week. The agency must ensure staff availability to respond in a crisis to stabilize residents' behavior and prevent placement disruption. In addition, ITS group homes will be required to provide crisis stabilization interaction and treatment for new residents twenty-four (24) hours a day, seven (7) days a week.

(4) **Providers.** For eligible RBMS agencies to bill the OHCA for services provided by their staff for behavior management therapies (individual, group, family) as of July 1, 2007, providers must have the following qualifications:

(A) Be licensed in the state in which the services are delivered as a licensed psychologist, social worker (clinical specialty only), professional counselor, marriage and family therapist, or behavioral practitioner, alcohol and drug counselor or under Board approved ~~Supervision~~ supervision to be licensed in one (1) of the above stated areas; or

(B) Be licensed as an advanced practice registered nurse (APRN) certified in a psychiatric mental health specialty, and licensed as a registered nurse (RN) with a current certification of recognition from the Board

of Nursing in the state in which services are provided; ~~AND; and~~

(C) Demonstrate a general professional or educational background in the following areas:

- (i) Case management, assessment and treatment planning;
- (ii) Treatment of victims of physical, emotional, and sexual abuse;
- (iii) Treatment of children with attachment disorders;
- (iv) Treatment of children with hyperactivity or attention deficit disorders;
- (v) Treatment methodologies for emotionally disturbed children and youth;
- (vi) Normal childhood development and the effect of abuse and/or neglect on childhood development;
- (vii) Treatment of children and families with substance abuse and chemical dependency disorders;
- (viii) Anger management; and
- (ix) Crisis intervention.

(D) Staff providing basic living skills redevelopment, social skills redevelopment, and alcohol and other substance abuse treatment, must meet one (1) of the following areas:

- (i) Bachelor's or master's degree in a behavioral health related field including but not limited to, psychology, sociology, criminal justice, school guidance and counseling, social work, occupational therapy, family studies, alcohol and drug; or
- (ii) ~~A current license as an RN in Oklahoma~~ Currently licensed and in good standing as an RN in the state in which services are provided; or
- (iii) Certification as an alcohol and drug counselor to provide substance abuse rehabilitative treatment to those with alcohol and/or other drug dependencies or addictions as a primary or secondary DSM diagnosis; or
- (iv) Current certification as a behavioral health case manager from the Oklahoma Department of Mental Health and Substance Abuse (ODMH-SAS) and meets OHCA requirements to perform case management services, as described in Oklahoma Administrative Code (OAC) 317:30-5-240 through 317:30-5-249.

(E) Staff providing behavior redirection services must have current certification and required updates in nationally recognized behavior management techniques, such as Controlling Aggressive Patient Environment (CAPE) or MANDT. Additionally, staff providing these services must receive initial and ongoing training in at least one (1) of the following areas:

- (i) Trauma-informed methodology;
- (ii) Anger management;
- (iii) Crisis intervention;

- (iv) Normal child and adolescent development and the effect of abuse;
 - (v) Neglect and/or violence on such development;
 - (vi) Grief and loss issues for children in out of home placement;
 - (vii) Interventions with victims of physical, emotional and sexual abuse;
 - (viii) Care and treatment of children with attachment disorders;
 - (ix) Care and treatment of children with hyperactive, or attention deficit, or conduct disorders;
 - (x) Care and treatment of children, youth and families with substance abuse and chemical dependency disorders;
 - (xi) Passive physical restraint procedures; or
 - (xii) Procedures for working with delinquents or the Inpatient Mental Health and Substance Abuse Treatment of Minors Act.
- (F) In addition, behavior management staff must have access to consultation with an appropriately licensed mental health professional.

GIST/ANALYSIS:

The proposed revisions will increase new TCM monthly limits that are reimbursable by SoonerCare, at the request of the Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS). The TCM limits will be increased from sixteen (16) units per member per year to twelve (12) units per member per month. Other revisions will align case management policy with current practice and correct grammatical errors. These rules are currently in place as emergency rules.

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 21. OUTPATIENT BEHAVIORAL HEALTH AGENCY SERVICES

317:30-5-241.6. Behavioral Health Case Management health targeted case management

Payment is made for behavioral health targeted case management services as set forth in this Section. The limitations set forth in this Section do not apply to case management provided in programs and service delivery models which are not reimbursed for case management on a fee-for-service basis.

(1) **Description of behavioral health case management services.** Behavioral health case management services are provided to assist eligible individuals in gaining access to needed medical, social, educational and other services essential to meeting basic human needs. Services under behavioral health targeted case management are not comparable in amount, duration and scope. The target ~~group~~groups for behavioral health case management services are persons under age twenty-one (21) who are in imminent risk of out-of-home placement for psychiatric or substance abuse reasons or are in out-of-home placement due to psychiatric or substance abuse reasons, and chronically and/or severely mentally ill adults who are institutionalized or are at risk of institutionalization. All behavioral health case management services will be authorized ~~for the target group~~ based on established medical necessity criteria.

(A) ~~Behavioral health case management services are provided to assist eligible individuals in gaining~~

~~access to needed medical, social, educational and other services essential to meeting basic human needs.~~—The behavioral health case manager provides assessment of case management needs, development of a case management care plan, referral, linkage, monitoring and advocacy on behalf of the member to gain access to appropriate community resources. The behavioral health case manager must monitor the progress in gaining access to services and continued appropriate utilization of necessary community resources. Behavioral case management is designed to promote recovery, maintain community tenure, and to assist individuals in accessing services for themselves following the case management guidelines established by ~~Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS)~~ ODMHSAS. In order to be compensable, the service must be performed utilizing the Strengths Based model of case management. This model of case management assists individuals in identifying and securing the range of resources, both environmental and personal, needed to live in a normally interdependent way in the community. The focus for the helping process is on strengths, interests, abilities, knowledge and capacities of each person, not on their diagnosis, weakness or deficits. The relationship between the service member and the behavioral health case manager is characterized by mutuality, collaboration, and partnership. Assistive activities are designed to occur primarily in the community, but may take place in the behavioral health case manager's office, if more appropriate.

(B) The provider will coordinate transition services with the member and family (if applicable) by phone or ~~face to face~~ face to face, to identify immediate needs for return to home/community no more than seventy-two (72) hours after notification that the member/family requests case management services. For members discharging from a higher level of care than outpatient, the higher level of care facility is responsible for scheduling an appointment with a case management agency for transition and post discharge services. The case manager will make contact with the member and family (if applicable) for transition from the higher level of care other than outpatient back to the community, within seventy-two (72) hours of discharge, and then conduct a follow-up appointment/contact within seven (7) days. The case manager will provide linkage/referral to physicians/medication services, psychotherapy services, rehabilitation and/or support services as described in the case management service plan.

(C) Case ~~Managers~~ managers may also provide crisis diversion (unanticipated, unscheduled situation requiring supportive assistance, ~~face to face~~ face to face or telephone, to resolve immediate problems before they become overwhelming and severely impair the individual's ability to function or maintain in

the community) to assist member(s) from progression to a higher level of care. During the follow-up phase of these referrals or links, the behavioral health case manager will provide aggressive outreach if appointments or contacts are missed within two (2) business days of the missed appointments. Community/home based case management to assess the needs for services will be scheduled as reflected in the case management service plan, but not less than one (1) time per month. The member/parent/guardian has the right to refuse behavioral health case management and cannot be restricted from other services because of a refusal of behavioral health case management services.

(BD) An eligible member/parent/guardian will not be restricted and will have the freedom to choose a behavioral health case management provider as well as providers of other medical care.

(CE) In order to ensure that behavioral health case management services appropriately meet the needs of the member and family and are not duplicated, behavioral health case management activities will be provided in accordance with an individualized plan of care.

(DF) The individual plan of care must include general goals and objectives pertinent to the overall recovery of the member's (and family, if applicable) needs. Progress notes must relate to the individual plan of care and describe the specific activities to be performed. The individual plan of care must be developed with participation by, as well as, reviewed and signed by the member, the parent or guardian [if the member is under eighteen (18)], the behavioral health case manager, and ~~a licensed behavioral health professional (LBHP)~~ an LBHP or licensure candidate as defined in OAC 317:30-5-240.3(a) and (b).

(EG) SoonerCare reimbursable behavioral health case management services include the following:

- (i) Gathering necessary psychological, educational, medical, and social information for the purpose of individual plan of care development.
- (ii) Face-to-face meetings with the member and/or the parent/guardian/family member for the implementation of activities delineated in the individual plan of care.
- (iii) Face-to-face meetings with treatment or service providers, necessary for the implementation of activities delineated in the individual plan of care.
- (iv) Supportive activities such as ~~non face to face~~ non face-to-face communication with the member and/or parent/guardian/family member.
- (v) Non face-to-face communication with treatment or service providers necessary for the implementation of activities delineated in the individual plan of care.

(vi) Monitoring of the individual plan of care to reassess goals and objectives and assess progress and or barriers to progress.

(vii) Crisis diversion (unanticipated, unscheduled situation requiring supportive assistance, ~~face to face~~ to face or telephone, to resolve immediate problems before they become overwhelming and severely impair the individual's ability to function or maintain in the community) to assist member(s) from progression to a higher level of care.

(viii) ~~Behavioral Health Case Management~~ health targeted case management is available to individuals transitioning from institutions to the community [except individuals ages twenty-two (22) to sixty-four (64) who reside in an institution for mental diseases (IMD) ~~IMD~~ or individuals who are inmates of public institutions]. Individuals are considered to be transitioning to the community during the last thirty (30) consecutive days of a covered institutional stay. This time is to distinguish case management services that are not within the scope of the institution's discharge planning activities from case management required for transitioning individuals with complex, chronic, medical needs to the community. Transition services provided while the individual is in the institution are to be claimed as delivered on the day of discharge from the institution.

(2) **Levels of Case Management.**

(A) ~~Resource coordination services are targeted to adults with serious mental illness and children and adolescents with mental illness or serious emotional disturbance, and their families, who need assistance in accessing, coordination, and monitoring of resources and services. Services are provided to assess an individual's strengths and meet needs in order to achieve stability in the community. Standard managers have caseloads of thirty (30) to thirty five (35) members. Basic case management/resource coordination is limited to sixteen (16) units per member per year. Additional units may be authorized up to twenty five (25) units per member per month if medical necessity criteria are met.~~

(B) ~~Intensive Case Management (ICM) is targeted to adults with serious and persistent mental illness in PACT programs and Wraparound Facilitation Case Management (WFCM) is targeted to children with serious mental illness and emotional disorders being treated in a System of Care Network who are deemed high risk and in need of more intensive CM services. It is designed to ensure access to community agencies, services, and people whose functions are to provide the support, training and assistance required for a stable, safe, and healthy community life, and decreased need for higher levels of care. To produce a high fidelity wraparound process, a facilitator can facilitate~~

~~between eight (8) and ten (10) families. To ensure that these intense needs are met, case manager caseloads are limited between ten (10) to fifteen (15) caseloads. The ICM shall be a Certified Behavioral Health Case Manager, have a minimum of two (2) years Behavioral Health Case Management experience, crisis diversion experience, must have attended the ODMH SAS six (6) hours ICM training, and twenty four (24) hour availability is required. ICM/WFCM is limited to fifty four (54) units per member per month.~~

(3) **Excluded Services.** ~~SoonerCare reimbursable behavioral health case management does not include the following activities:~~

- (A) ~~physically escorting or transporting a member or family to scheduled appointments or staying with the member during an appointment;~~
- (B) ~~managing finances;~~
- (C) ~~providing specific services such as shopping or paying bills;~~
- (D) ~~delivering bus tickets, food stamps, money, etc.;~~
- (E) ~~counseling, rehabilitative services, psychiatric assessment, or discharge planning;~~
- (F) ~~filling out forms, applications, etc., on behalf of the member when the member is not present;~~
- (G) ~~filling out SoonerCare forms, applications, etc.;~~
- (H) ~~mentoring or tutoring;~~
- (I) ~~provision of behavioral health case management services to the same family by two separate behavioral health case management agencies;~~
- (J) ~~non face to face time spent preparing the assessment document and the service plan paperwork;~~
- (K) ~~monitoring financial goals;~~
- (L) ~~services to nursing home residents;~~
- (M) ~~psychotherapeutic or rehabilitative services, psychiatric assessment, or discharge; or~~
- (N) ~~services to members residing in ICF/IID facilities.~~
- (O) ~~leaving voice or text messages for clients and other failed communication attempts.~~

(4) **Excluded Individuals.** ~~The following SoonerCare members are not eligible for behavioral health case management services:~~

- (A) ~~children/families for whom behavioral health case management services are available through Oklahoma Department of Human Services (OKDHS) and Oklahoma Office of Juvenile Affairs (OJA) staff without special arrangements with OKDHS, OJA, and the Oklahoma Health Care Authority (OHCA);~~
- (B) ~~members receiving Residential Behavior Management Services (RBMS) in a foster care or group home setting unless transitioning into the community;~~
- (C) ~~residents of Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) and nursing facilities unless transitioning into the community;~~

- (D) members receiving services under a Home and Community Based services (HCBS) waiver program; or
- (E) members receiving services in the Health Home program.

(5) **Filing Requirements.** Case management services provided to Medicare eligible members should be filed directly with the fiscal agent.

(6) **Documentation requirements.** The service plan must include general goals and objectives pertinent to the overall recovery needs of the member. Progress notes must relate to the service plan and describe the specific activities performed. Behavioral health case management service plan development is compensable time if the time is spent communicating with the member and it must be reviewed and signed by the member, the behavioral health case manager, and a licensed behavioral health professional or licensure candidate as defined at OAC 317:30-5-240.3(a) and (b). All behavioral health case management services rendered must be reflected by documentation in the records. In addition to a complete behavioral health case management service, plan documentation of each session must include but is not limited to:

- (A) date;
- (B) person(s) to whom services are rendered;
- (C) start and stop times for each service;
- (D) original signature of the service provider [original signatures for faxed items must be added to the clinical file within thirty (30) days];
- (E) credentials of the service provider;
- (F) specific service plan needs, goals and/or objectives addressed;
- (G) specific activities performed by the behavioral health case manager on behalf of the child related to advocacy, linkage, referral, or monitoring used to address needs, goals and/or objectives;
- (H) progress and barriers made towards goals, and/or objectives;
- (I) member (family when applicable) response to the service;
- (J) any new service plan needs, goals, and/or objectives identified during the service; and
- (K) member satisfaction with staff intervention.

(7) **Case Management Travel Time.** The rate for case management services assumes that the case manager will spend some amount of time traveling to the member for the face to face service. The case manager must only bill for the actual face to face time that they spend with the member and not bill for travel time. This would be considered duplicative billing since the rate assumes the travel component already.

(2) **Levels of case management.**

(A) Standard case management/resource coordination services are targeted to adults with serious mental illness or children with serious emotional disturbance, or who have or are at-risk for mental disorders, including substance use disorders (SUD), and their

families, who need assistance in accessing, coordination, and monitoring of resources and services. Services are provided to assess an individual's strengths and meet needs in order to achieve stability in the community. Standard case managers have caseloads of thirty (30) to thirty-five (35) members. Standard case management/resource coordination is limited to twelve (12) units per member per month. Additional units may be authorized up to twenty-five (25) units per member per month if medical necessity criteria for transitional case management are met.

(B) Intensive case management (ICM) is targeted to adults with serious and persistent mental illness in PACT programs. To ensure that these intense needs are met, caseloads are limited to between ten (10) to fifteen (15) members. The ICM shall: be a certified behavioral health case manager II; have a minimum of two (2) years' behavioral health case management experience; have crisis diversion experience; have attended the ODMHSAS six (6) hour ICM training and be available twenty-four (24) hours a day. ICM is limited to fifty-four (54) units per member per month.

(C) Wraparound facilitation case management (WFCM) is targeted to children with significant mental health conditions being treated in a System of Care (SOC) Network who are deemed at imminent risk of out-of-home placement due to psychiatric or SUD reasons and in need of more intensive case management services. It is designed to ensure access to community agencies, services, and people whose functions are to provide the support, training and assistance required for a stable, safe, and healthy community life, and decreased need for higher levels of care. To produce a high fidelity wraparound process, a facilitator can facilitate between eight (8) and ten (10) families. Staff providing WFCM must meet the requirements for the SOC/WFCM. WFCM is limited to fifty-four (54) units per member per month.

(3) **Excluded services.** SoonerCare reimbursable behavioral health case management does not include the following activities:

- (A) Physically escorting or transporting a member or family to scheduled appointments or staying with the member during an appointment;
- (B) Managing finances;
- (C) Providing specific services such as shopping or paying bills;
- (D) Delivering bus tickets, food stamps, money, etc.;
- (E) Counseling, rehabilitative services, psychiatric assessment, or discharge planning;
- (F) Filling out forms, applications, etc., on behalf of the member when the member is not present;
- (G) Filling out SoonerCare forms, applications, etc.;
- (H) Mentoring or tutoring;

- (I) Provision of behavioral health case management services to the same family by two (2) separate behavioral health case management agencies;
 - (J) Non-face-to-face time spent preparing the assessment document and the service plan paperwork;
 - (K) Monitoring financial goals;
 - (L) Leaving voice or text messages for clients and other failed communication attempts.
- (4) **Excluded individuals.** The following SoonerCare members who are receiving similar services through another method are not eligible for behavioral health case management services without special arrangements with the Oklahoma Department of Human Services (OKDHS), OJA, OHCA or ODMHSAS as applicable, in order to avoid duplication in payment. Services/programs include, but may not be limited to:
- (A) Members/families (when applicable) for whom at-risk case management services are available through OKDHS and OJA staff;
 - (B) Members in out-of-home placement and receiving targeted case management services through staff in a foster care or group home setting, unless transitioning into the community;
 - (C) Residents of ICF/IIDs and nursing facilities unless transitioning into the community;
 - (D) Members receiving targeted case management services under a Home and Community Based Services (HCBS) waiver program;
 - (E) Members receiving services in the health home program;
 - (F) Members receiving case management through the ADvantage waiver program;
 - (G) Members receiving targeted case management available through a Certified Community Behavioral Health Center (CCBHC);
 - (H) Members receiving case management services through Programs of All-Inclusive Care for the Elderly (PACE); or
 - (I) Members receiving Early Intervention case management (EICM);
 - (J) Members receiving case management services through certified school-based targeted case management (SBTCM) providers;
 - (K) Members receiving partial hospitalization services; or
 - (L) Members receiving MST.
- (5) **Filing requirements.** Case management services provided to Medicare eligible members should be filed directly with the fiscal agent.
- (6) **Documentation requirements.** The service plan must include general goals and objectives pertinent to the overall recovery needs of the member. Progress notes must relate to the service plan and describe the specific activities performed. Behavioral health case management service plan development is compensable time if the time is spent communicating with the member and it must be reviewed and signed by the member, the behavioral health

case manager, and an LBHP or licensure candidate as defined at OAC 317:30-5-240.3(a) and (b). All behavioral health case management services rendered must be reflected by documentation in the records. In addition to a complete behavioral health case management service, plan documentation of each session must include but is not limited to:

- (A) Date;
 - (B) Person(s) to whom services are rendered;
 - (C) Start and stop times for each service;
 - (D) Original signature or the service provider [original signatures for faxed items must be added to the clinical file within thirty (30) days];
 - (E) Credentials of the service provider;
 - (F) Specific service plan needs, goals, and/or objectives addressed;
 - (G) Specific activities performed by the behavioral health case manager on behalf of the member related to advocacy, linkage, referral, or monitoring used to address needs, goals, and/or objectives;
 - (H) Progress and barriers made towards goals, and/or objectives;
 - (I) Member/family (when applicable) response to the service;
 - (J) Any new service plan needs, goals, and/or objectives identified during the service; and
 - (K) Member satisfaction with staff intervention.
- (7) **Case management travel time.** The rate for case management services assumes that the case manager will spend some amount of time traveling to the member for the face-to-face service. The case manager must only bill for the actual face-to-face time that they spend with the member and not bill for travel time. This would be considered duplicative billing since the rate assumes the travel component already.

GIST/ANALYSIS:

The proposed revisions will sustain the Certified Community Behavioral Health Clinics (CCBHC) project beyond its demonstration period in Oklahoma. The services provided include nine types of behavioral health treatment services with an emphasis on the provision of 24-hour crisis care, utilization of evidence based practices, care coordination, and integration with physical health. The proposed new rules will outline CCBHC member eligibility, provider participation requirements, and program scope.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 24. CERTIFIED COMMUNITY BEHAVIORAL HEALTH CLINICS

317:30-5-263. Definitions

The following words or terms, when used in this Part, shall have the following meaning, unless the context clearly indicates otherwise:

"Advanced practice registered nurse (APRN)" means a registered nurse in good standing with the board of nursing in the state in which services are provided, who has completed an accredited graduate level advanced practice registered nursing education program approved by the board of nursing in the state in which services are provided, and possesses a current national certification by a national certifying body recognized by the board of nursing in the state in which services are provided. APRN services are limited to the scope of their practice as defined in Title 59 of the Oklahoma Statutes (O.S.) § 567.3a and corresponding rules and regulations at Oklahoma Administrative Code (OAC) 485:10-5-1 through 485:10-16-9.

"Behavioral health rehabilitation (BHR) services" means goal-oriented outpatient interventions that target the maximum reduction of mental and/or behavioral health impairments and strive to restore the members to their best possible mental and/or behavioral health functioning.

"Centers for Medicare and Medicaid Services (CMS)" means the federal agency within the United States Department of Health and Human Services (HHS) that administers the Medicare program and works in partnership with state governments to administer Medicaid.

"Certified alcohol and drug counselor (CADC)" means an individual with an Oklahoma certification as an alcohol and drug counselor.

"Certified behavioral health case manager (CM)" means an individual who is certified by the ODMH-SAS as a behavioral health case manager pursuant to OAC, Title 450, Chapter 50. Refer to OAC 317:30-5-240.3(h).

"Certified community behavioral health clinics (CCBHC)" means a service delivery model designed to provide a comprehensive range of mental health and/or substance abuse rehabilitative services. Services are furnished by an interdisciplinary and mobile mental health team that functions interchangeably.

"C.F.R." means the Code of Federal Regulations.

"Facility-based crisis stabilization (FBCS)" means emergency psychiatric and substance abuse services aimed at resolving crisis situations. The services provided are emergency stabilization, which includes a protected environment, chemotherapy, detoxification, individual and group treatment, and medical assessment.

"Family support and training provider (FSP)" means an individual who provides a system of care that is child-centered with the needs of the child and family dictating the types and mix of services provided, to assist in keeping the family together and preventing an out-of-home placement. FSP providers must:

(A) Have a high school diploma or equivalent;

(B) Be twenty-one (21) years of age and have a successful experience as a family member of a child or youth with serious emotional disturbance, or have lived experience as the primary caregiver of a child or youth who has received services for substance use disorder and/or co-occurring substance use and mental health, or have lived experience being the caregiver for a child with Child Welfare/Child Protective Services involvement;

(C) Successfully complete family support training according to a curriculum approved by the Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS) and pass the examination with a score of eighty percent (80%) or better;

(D) Pass Oklahoma State Bureau of Investigation (OSBI) background check;

(E) Have treatment plans be overseen and approved by a licensed behavioral health professional (LBHP) or licensure candidate; and

(F) Function under the general direction of an LBHP, licensure candidate or systems of care team, with an LBHP or licensure candidate available at all times to provide back up, support, and/or consultation.

"Illness/wellness management and recovery (IMR/WMR)" means evidence-based practice models designed to help people who have experienced psychiatric symptoms. Elements include: developing personalized strategies for managing their mental illness and moving forward with their lives; setting and pursuing personal goals; learning information and skills to develop a sense of mastery over their psychiatric illness; and helping clients put strategies into action in their everyday lives.

"Institution for mental disease (IMD)" means a hospital, nursing facility, or other institution of more than sixteen (16) beds that is primarily engaged in providing diagnosis, treatment, or care of persons with mental diseases, including medical attention, nursing care, and related services, as defined by 42 C.F.R. § 435.1010.

"Intermediate care facility for individuals with intellectual disabilities (ICF/IID)" means a facility which primarily provides health-related care and services above the level of custodial care to intellectually disabled individuals but does not provide the level of care available in a hospital or skilled nursing facility.

"Licensed behavioral health professional (LBHP)" means any of the following practitioners:

(A) An allopathic or osteopathic physician with a current license and board certification in psychiatry or board eligible in the state in which services are provided, or a current medical resident in psychiatry;

(B) A practitioner with a current license to practice in the state in which services are provided, within one (1) of the following areas of practice:

- (i) Psychology;
- (ii) Social work (clinical specialty only);
- (iii) Professional counselor;
- (iv) Marriage and family therapist;
- (v) Behavioral practitioner; or
- (vi) Alcohol and drug counselor.

(C) An APRN, certified in a psychiatric mental health specialty, and licensed as a registered nurse with a current certification of recognition from the board of nursing in the state in which services are provided; or

(D) A physician assistant (PA) with a current license to practice and in good standing in the state in

which services are provided and has received specific training for and is experienced in performing mental health therapeutic, diagnostic, or counseling functions.

"Licensure candidate" means a practitioner who is actively and regularly receiving board approved supervision, and extended supervision by a fully licensed clinician if the board's supervision requirement is met but the individual is not yet licensed, to become licensed in a specific area of practice as outlined in (B)(i) through (vi) above. The supervising LBHP responsible for the member's care must:

(A) Staff the member's case with the candidate;

(B) Be personally available, or ensure the availability of an LBHP to the candidate for consultation while they are providing services;

(C) Agree with the current plan for the member;

(D) Confirm that the service provided by the candidate was appropriate; and

(E) Show that the member's medical record meet the requirements for reimbursement and the LBHP responsible for the member's care has reviewed, countersigned, and dated the service plan and any updates thereto so that it is documented that the licensed professional is responsible for the member's care.

"OAC" means Oklahoma Administrative Code, the publication authorized by Section 256 of Title 75 of the Oklahoma Statutes known as The Oklahoma Administrative Code, or, prior to its publication, the compilation of codified rules authorized by 75 O.S. § 256(A)(1)(a) and maintained in the Office of Administrative Rules.

"ODMHSAS" means the Oklahoma Department of Mental Health and Substance Abuse Services.

"OHCA" means the Oklahoma Health Care Authority.

"O.S." means Oklahoma Statutes.

"Peer recovery support specialist (PRSS)" means an individual certified by ODMHSAS as a peer recovery support specialist pursuant to requirements found in OAC 450:53.

"Program of All-Inclusive Care for the Elderly (PACE)" means a home and community based acute and long-term care services program for eligible individuals who meet the medical requirements for nursing facility care and can be served safely and appropriately in the community.

"Psychiatric residential treatment facility (PRTF)" means a non-hospital facility contracted with the OHCA to provide inpatient psychiatric services to SoonerCare-eligible members under the age of twenty-one (21), as defined by 42 C.F.R. § 483.352.

"Psychosocial rehabilitation services (PSR)" means face-to-face Behavioral Health Rehabilitation services which are necessary to improve the member's ability to function in the community. They are performed to improve the skills and abilities of members to live independently in the community, improve self-care and social skills, and promote lifestyle change and recovery practices.

"Qualified behavioral health aide (QBHA)" means a behavioral health aide who must meet requirements described in OAC 317:30-5-240.3.

"Registered nurse (RN)" means an individual who is a graduate of an approved school of nursing and is appropriately licensed in the state in which he or she practices.

"Serious emotional disturbance (SED)" means a condition experienced by persons from birth to eighteen (18) who have a diagnosable mental, behavioral, or emotional disorder of sufficient duration to meet diagnostic criteria outlined in OAC 317:30-5-240.1.

"Serious mental illness (SMI)" means a condition experienced by persons age eighteen (18) and over that have a diagnosable mental, behavior, or emotional disorder that causes serious functional impairment that substantially interferes with or limits one or more major life activities. Specific diagnostic criteria is outlined in OAC 317:30-5-240.1.

"System of care values" means a philosophy, which embraces a family-driven, child-centered model of care that integrates and coordinates the efforts of different agencies and providers to individualize care in the least restrictive setting that is clinically appropriate.

"Wellness recovery action plans (WRAP)" means a self-management and recovery system designed to:

- (A) Decrease intrusive or troubling feelings and behaviors;
- (B) Increase personal empowerment;
- (C) Improve quality of life; and
- (D) Assist people in achieving their own life goals and dreams.

"Wraparound approach" means a team-based planning and implementation process to improve the lives of children with complex needs and their families by developing individualized plans of care. The key characteristics of the process are that the plan is developed by a family centered team, is individualized based on the strengths and culture of the child and his or her family, and is driven by needs rather than services.

317:30-5-264. Purpose

Certified community behavioral health clinic is a service delivery model designed to provide a comprehensive range of mental health and substance use disorder services. Services are furnished by an interdisciplinary and mobile mental health team that functions interchangeably to provide the rehabilitation and treatment designed to enable the member to live successfully in the community.

317:30-5-265. Eligible providers

(a) **Agency requirements.** CCBHCs are responsible for providing services to qualifying individuals within the provider's specified service area. Qualifying providers must:

- (1) Be certified by the ODMHSAS as a community mental health center under OAC 450:17 and have provider specific credentials from ODMHSAS for CCBHCs (OAC 450:17-5-170 et seq.);
- (2) Be under the direction of a licensed physician;
- (3) Provide mobile crisis care twenty-four (24) hours, seven (7) days a week and have a twenty-four (24) hours, seven (7) days a week walk-in crisis clinic or a psychiatric

urgent care, or have an agreement in place with a State-sanctioned alternative;

(4) Actively use an Office of National Coordinator (ONC) certified Electronic Health Record (EHR) as demonstrated on the ONC Certified Health IT Product List;

(5) Have a contract with a Health Information Exchange (HIE) and demonstrate staff use of obtaining and sending data through the HIE as well as policy stating frequency of use and security protocols; and

(6) Report on encounter, clinical outcomes, and quality improvement. This includes meeting all federal and State specifications of the required CMS quality measure reporting, as well as performance improvement reports outlining activities taken to improve outcomes.

(b) **Interdisciplinary team.** CCBHCs will utilize an interdisciplinary team of professionals and paraprofessionals to identify an individual's strengths and needs, create a unified plan to empower a person toward self-management, and coordinate the individual's varied healthcare needs. CCBHC teams will vary in size depending on the size of the member panel and acuity of the member. The treatment team includes the member, the family/caregiver of child members, the adult member's family to the extent the member does not object, and any other person the member chooses. Each CCBHC shall maintain a core staff comprised of employed and, if needed, contracted staff, as appropriate to the needs of the member as stated in the member's individual service plan.

(1) Teams shall at a minimum, include the following positions:

- (A) Licensed psychiatrist;
- (B) Licensed nurse care manager (RN or licensed practical nurse);
- (C) Consulting primary care physician, APRN, or physician assistant (PA);
- (D) At least one (1) LBHP and may include additional LBHPs and licensure candidates (see OAC 317:30-5-263);
- (E) Peer recovery support specialist (see OAC 317:30-5-263);
- (F) Family support provider for child members (see OAC 317:30-5-263);
- (G) Certified behavioral health case manager II or certified alcohol and drug counselor (see OAC 317:30-5-263); and
- (H) Qualified behavioral health aide.

(2) Optional team members may include the following:

- (A) Certified behavioral health case manager I (see OAC 317:30-5-263);
- (B) Licensed nutritionist;
- (C) Occupational therapist; and/or
- (D) Occupational therapist assistant under the supervision of a licensed occupational therapist.

317:30-5-266. Covered services

CCBHCs provide a comprehensive array of services that create access, stabilize people in crisis, and provide the needed treatment and recovery support services for those with

Permanent Final Adoptions

the most serious and complex mental health and substance use disorders. CCBHCs integrate additional services to ensure an approach to health care that emphasizes recovery, wellness, trauma-informed care, and physical-behavioral health integration. Initial screening, assessment, and diagnosis must be completed in order to receive a covered service. Services must be medically necessary and recommended by an LBHP or licensure candidate (see OAC 317:30-5-263). Services are covered when provided in accordance with a person-centered and family-centered service plan. Coverage includes the following services:

(1) **Crisis assessment and intervention services.**

(A) **Service requirements.** This service is an immediately available service designed to meet the psychological, physiological, and environmental needs of individuals who are experiencing mental health and/or substance use disorder crises. Services include the following:

- (i) Twenty-four (24) hours mobile crisis teams [see OAC 317:30-5-241.4(a) for service definition]. Reimbursement is triggered by the LBHP/licensure candidate crisis assessment;
- (ii) Emergency crisis intervention service [see OAC 317:30-5-241.4(a) for service definition]; and
- (iii) Facility-based crisis stabilization [see OAC 317:30-5-241.4(b) for service definition], provided directly by the CCBHC or by a State-sanctioned alternative.

(B) **Qualified professionals.** Twenty-four (24) hours mobile crisis intervention is provided by either a team consisting of an LBHP/licensure candidate and a CM II or CADC, or just an LBHP/licensure candidate. Emergency crisis intervention is provided by an LBHP/licensure candidate. Facility-based crisis stabilization is provided by a team, directed by a physician, and consisting of an LBHP/licensure candidate, licensed nurses, CM II or CADC, and PRSS staff.

(2) **Behavioral health integrated (BHI) services.**

(A) **Service requirements.** This service includes activities provided that have the purpose of coordinating and managing the care and services furnished to each member, assuring a fixed point of responsibility for providing treatment, rehabilitation, and support services. This service includes, but is not limited to:

- (i) Care coordination for primary health care, specialty health care, and transitional care from emergency departments, hospitals, and PRTFs;
- (ii) Ensuring integration and compatibility of mental health and physical health activities;
- (iii) Providing on-going service coordination and linking members to resources;
- (iv) Tracking completion of mental and physical health goals in member's comprehensive care plan;

(v) Coordinating with all team members to ensure all objectives of the comprehensive care plan are progressing;

(vi) Appointment scheduling;

(vii) Conducting referrals and follow-up monitoring;

(viii) Participating in hospital discharge processes; and

(ix) Communicating with other providers and members/family.

(B) **Qualified professionals.** This service is performed by an LBHP/licensure candidate, nurse, CM II or CADC, and/or PRSS staff.

(3) **Person-centered and family-centered treatment planning.**

(A) **Service requirements.** This service is a process in which the information obtained in the initial screenings and assessments are used to develop a treatment plan that has individualized goals, objectives, activities, and services that will enable the member to improve. For children assessed as SED with significant behavioral needs, treatment planning is a wraparound process consistent with System of Care values. A wraparound planning process supports children and youth in returning to or remaining in the community.

(B) **Qualified professionals.** This service is conducted by LBHPs/licensure candidates, nurses, CM II or CADC, and/or PRSS staff. Treatment planning must include the member and involved practitioners.

(4) **Psychotherapy (individual / group / family).**

(A) **Service requirements.** See OAC 317:30-5-241.2 for service definitions and requirements. Fee-for-service billing limitations do not apply.

(B) **Qualified professionals.** This service is conducted by an LBHP/licensure candidate.

(5) **Medication training and support.**

(A) **Service requirements.** This service includes:

- (i) A review and educational session focused on the member's response to medication and compliance with the medication regimen and/or medication administration;
- (ii) Prescription administration and ordering of medication by appropriate medical staff;
- (iii) Assisting the member in accessing medications;
- (iv) Monitoring medication response and side effects; and
- (v) Assisting members with developing the ability to take medications with greater independence.

(B) **Qualified professionals.** This service is performed by an RN, APRN, or a physician assistant (PA) as a direct service under the supervision of a physician.

(6) **Psychosocial rehabilitation services (PSR).**

(A) **Service requirements.** PSR services are face-to-face behavioral health rehabilitation (BHR)

services which are necessary to improve the member's ability to function in the community. They are performed to improve the skills and abilities of members to live independently in the community, improve self-care and social skills, and promote lifestyle change and recovery practices. Rehabilitation services may be provided individually or in group sessions through the format of curriculum-based education and skills training. This service is generally performed with only the member and the qualified provider, but may include a member and the member's family/support system when providing educational services from a curriculum that focuses on the member's diagnosis, symptom management, and recovery. A member who, at the time of service, is not able to cognitively benefit from the treatment due to active hallucinations, substance abuse, or other impairments, is not suitable for this service. Family involvement is allowed for support of the member and education regarding his/her recovery but does not constitute family therapy, which requires a licensed provider. Eligibility requirements and billing limits found in OAC 317:30-5-241.3 do not apply.

(B) **Qualified professionals.** This service is solely restorative in nature and may be performed by a behavioral health CM II, CADC, LBHP, or licensure candidate, following development of a service plan and treatment curriculum approved by an LBHP or licensure candidate. The behavioral health CM II and CADC must have immediate access to an LBHP who can provide clinical oversight and collaborate with the qualified PSR provider in the provision of services.

(7) **Psychoeducation and counseling.**

(A) **Service requirements.** This service is designed to restore, rehabilitate, and support the individual's overall health and wellness. Services are intended for members to provide purposeful and ongoing psychoeducation and counseling that are specified in the individual's person-centered, individualized plan of care. Components include:

- (i) Delivery of manualized wellness management interventions via group and individual work such as WRAP or IMR/WMR; and
- (ii) Emotional support, education, resources during periods of crisis, and problem-solving skills.

(B) **Qualified professionals.** This service is provided by a licensed nurse, licensed nutritionist, or CM II or CADC within the scope of their licensure, certification, and/or training.

(8) **Peer recovery support services.**

(A) **Service requirements.** See OAC 317:30-5-241.5(d) for service requirements.

(B) **Qualified professionals.** PRSS must be certified through ODMHSAS pursuant to OAC 450:53.

(9) **Family support and training.**

(A) **Service requirements.** See OAC 317:30-5-241.5(c) for service requirements.

(B) **Qualified professionals.** Family support providers must be trained/credentialed through ODMHSAS.

(10) **Screening, assessment, and service planning.**

(A) **Service requirements.** See OAC 317:30-5-241.1 for service requirements. Service billing limitations found in OAC 317:30-5-241.1 do not apply.

(B) **Qualified professionals.** Screenings can be performed by any qualified team member as listed in OAC 317:30-5-265(b). Assessment and service planning can only be performed by an LBHP or licensure candidate.

(11) **Occupational therapy.**

(A) **Service requirements.** This service includes the therapeutic use of everyday life activities (occupations) with an individual or groups for the purpose of participation in roles and situations in home, school, workplace, community, and other settings for the purpose of promoting health and wellness. Occupational therapy services are provided to those who have developed an illness, injury, disease, disorder, condition, impairment, disability, activity limitation, or participation restrictions. Occupational therapy addresses the physical, cognitive, psychosocial, sensory, and other aspects of performance in a variety of contexts to support engagement in everyday life activities that affect health, well-being, and quality of life.

(B) **Qualified professionals.** This service is solely restorative in nature and provided by a qualified occupational therapist who is contracted with the OHCA or an occupational therapist assistant who is working under the supervision of a licensed occupational therapist (see OAC 317:30-5-295).

(C) **Coverage limitations.** In order to be eligible for SoonerCare reimbursement, occupational therapy services must be prior authorized and/or prescribed by a physician or other licensed practitioner of the healing arts, in accordance with State and federal law, including, but not limited to, OAC 317:30-5-296, OAC 317:30-5-1020, and 42 C.F.R. § 440.110.

317:30-5-267. Reimbursement

(a) In order to be eligible for payment, CCBHCs must have an approved provider agreement on file with the OHCA. Through this agreement, the CCBHC assures that OHCA's requirements are met and assures compliance with all applicable federal and state Medicaid law, including, but not limited to, OHCA administrative rules, ODMHSAS administrative rules, the Code of Federal Regulations, and the Oklahoma State Medicaid Plan. These agreements are renewed annually with each provider.

(b) Reimbursement is made using a provider-specific prospective payment system (PPS) rate developed based on provider-specific cost report data. The PPS rate varies by category and level of service intensity and is paid when a CCBH program delivers at least one (1) CCBHC covered service, and when a valid individual procedure code is reported for

Permanent Final Adoptions

the calendar month. Care coordination services do not trigger a PPS payment when billed alone in a calendar month. For reimbursement purposes, members are categorized as follows, and are assigned to special populations by the State:

- (1) Standard population;
- (2) Special population 1. This population includes individuals eighteen (18) years of age and over with SMI and complex needs including those with co-occurring substance use disorder (SUD). Individuals between eighteen (18) and twenty-one (21) years of age can be served in either special population 1 or 2 depending on the member's individualized needs; and
- (3) Special population 2. This population includes children and youth [ages six (6) through twenty-one (21)] with SED and complex needs, including those with co-occurring mental health and SUD.
- (c) Payments for services provided to non-established clients will be separately billable. Non-established CCBH clients are those who receive crisis services directly from the CCBHC without receiving a preliminary screening and risk assessment by the CCBHC and those referred to the CCBHC directly from other outpatient behavioral health agencies for pharmacologic management.
- (d) Additional reimbursement may be made to the CCBHC once in the same calendar month as the PPS payment for care coordination provided by CCBHC staff to members who are involved in a drug court or other specialty court program. Physician services provided to these members by the CCBHC are reimbursable using the SoonerCare fee schedule.
- (e) Reimbursement rates will be reviewed bi-annually and updated as necessary by the Medicare Economic Index (MEI).

317:30-5-268. Limitations

- (a) The following are non-billable opportunities for CCBHCs serving eligible members:
 - (1) Employment services;
 - (2) Personal care services;
 - (3) Childcare
 - (4) Respite services; and
 - (5) Care coordination.
- (b) The following SoonerCare members are not eligible for CCBHC services:
 - (1) Members receiving care in an IM;
 - (2) Members residing in a nursing facility or ICF/IID;
 - (3) Inmates of a public correctional institution; and
 - (4) SoonerCare members being served by a PACE provider.
- (c) SoonerCare members receiving services from a CCBHC are not eligible for enrollment in a SoonerCare behavioral health home.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 35. RURAL HEALTH CLINICS

317:30-5-359.1. Cost reports

(a) Provider-based ~~RHCs~~Rural Health Clinics (RHC) are required to report each RHC on a separate clinic line cost center on the Medicare Cost Report (HCFA 2552). A copy of the HCFA 2552, including the Medicaid Supplemental Worksheet S-2, is submitted to the ~~OHCA~~Oklahoma Health Care Authority (OHCA) as part of the year-end cost report process of the parent hospital. ~~(Refer to OAC 317:30-5-48).~~

(b) Independent RHCs are required to submit to the OHCA a completed copy of the Medicare Cost Report for the annual cost reporting period (HCFA 222-92) within the due date for filing the cost report to the fiscal intermediary. Preventive services, i.e., prenatal, EPSDT and family planning visits, should not be counted in total visits in the Medicare cost report. The associated cost for the ~~rural health clinic~~RHC services covered by Medicaid only should be reported as a non-reimbursable cost on the clinic's Medicare cost report.

~~(c) If the clinic does not submit an adequate annual report on time, the OHCA may reduce or suspend payments to preclude excess payment to the clinic.~~

317:30-5-359.2. Reimbursement

(a) **Provider-based clinics.** ~~Interim payments for provider-based clinics will be made for RHC "core" services based on an all-inclusive visit fee established by reference to payments to other Rural Health Clinics in the same or adjacent areas or by cost reporting methods. The interim rate for core services will be reviewed and revised as appropriate, based on cost data from an initial cost report. Costs will be determined from the parent hospital's cost to charge ratios per the HCFA 2552 Medicare (or Medicaid, when filed) Worksheet C, Part 1, Computation of Ratio of Costs to Charges. Lower of cost or charge provision will be calculated using the lesser of costs or two times charges (as determined by averaged cost to charge ratios based on FY 95 cost reports). After the initial year and the per visit rate are established, the rate will be updated annually by the increase in the MEI. Payments for provider-based clinics will be made for RHC "core" services based on an all-inclusive visit fee established by one of the following:~~

- (1) An interim rate established by calculating a statewide average rate for RHCs in the state; and
- (2) The statewide average rate will be updated annually by the increase in the Medicare Economic Index (MEI); or
- (3) An Alternative Payment Methodology (APM) established by the RHC periodic rate notification from the Medicare Fiscal Intermediary. In order to receive this rate, the RHC must submit a copy of the periodic rate notification letter for its most recent full cost reporting year received from the fiscal intermediary to the state. The APM rate cannot be lower than mentioned above in (a)(1) or (a)(2).

(b) **Independent clinics.** ~~Interim payments for independent clinics will be made for RHC "core" services based on the all-inclusive rate established by reference to payments to other Rural Health Clinics in the same or adjacent areas or by cost reporting methods. The interim rate for core services will be reviewed and revised as appropriate, based on cost data from~~

~~an initial 12-month cost report and payments may be subject to adjustment at the end of the reporting period. After the initial year and the per visit rate are established, the rate will be updated annually by the increase in the MEI. For clinics that offer "other ambulatory" services and preventive services, payment will be made on a reasonable charge basis in accordance with Medicaid fee schedule guidelines. Payments for independent clinics will be made for RHC "core" services based on an all-inclusive visit fee established by one of the following:~~

- (1) An interim rate established by calculating a statewide average rate for RHCs in the state; and
- (2) The statewide average rate will be updated annually by the increase in the MEI; or
- (3) An APM established by the RHCs periodic rate notification from the Medicare Fiscal Intermediary. In order to receive this rate, the RHC must submit a copy of the periodic rate notification letter for its most recent full cost reporting year received from the fiscal intermediary to the state. The APM rate cannot be lower than mentioned above in (b)(1) or (b)(2).

GIST/ANALYSIS:

The proposed revisions will establish diabetes self-management training (DSMT) as a new benefit in the SoonerCare program for members with diabetes. DSMT is an educational disease management benefit designed to teach members how to successfully manage and control his/her diabetes. The proposed revisions will outline member eligibility, program coverage and limitations, provider requirements, and reimbursement. These rules are currently in place as emergency rules.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 3. HOSPITALS

317:30-5-42.1. Outpatient hospital services

(a) Hospitals providing outpatient hospital services are required to meet the same requirements that apply to ~~OHCA~~ the Oklahoma Health Care Authority (OHCA) contracted, non-hospital providers performing the same services. Outpatient services performed outside the hospital facility are not reimbursed as hospital outpatient services.

(b) Covered outpatient hospital services must meet all of the criteria listed in (1) through (4) of this subsection.

- (1) The care is directed by a physician or dentist.
- (2) The care is medically necessary.
- (3) The member is not an inpatient ~~(see — OAC 317:30-5-41)~~ [refer to Oklahoma Administrative Code (OAC) 317:30-5-41].
- (4) The service is provided in an approved hospital facility.

(c) Covered outpatient hospital services are those services provided for a member who is not a hospital inpatient. A member in a hospital may be either an inpatient or an outpatient, but not both (see OAC 317:30-5-41).

(d) In the event a member is admitted as an inpatient, but is determined to not qualify for an inpatient payment based on OHCA criteria, the hospital may bill on an outpatient claim for the ancillary services provided during that time.

(e) Separate payment is made for prosthetic devices inserted during the course of surgery when the prosthetic devices are not integral to the procedure and are not included in the reimbursement for the procedure itself.

(f) Physical, occupational, and speech therapy services are covered when performed in an outpatient ~~hospital based~~ hospital-based setting. Coverage is limited to one (1) evaluation/re-evaluation visit (unit) per discipline per calendar year and ~~15~~ fifteen (15) visits (units) per discipline per date of service per calendar year. Claims for these services must include the appropriate revenue code(s).

(g) Diabetes self-management training (DSMT) is provided to members diagnosed with diabetes. DSMT services are comprised of one (1) hour of individual instruction (face-to-face encounters between the certified diabetes educator and the member) and nine (9) hours of group instruction on diabetes self-management. Members shall receive up to ten (10) hours of services during the first twelve (12) month period beginning with the initial training date. After the first twelve (12) month period has ended, members shall only be eligible for two (2) hours of individual instruction on DSMT per calendar year. Refer to OAC 317:30-5-1080 through 317:30-5-1084 for specific provider and program requirements, and reimbursement methodology.

PART 109. DIABETES SELF-MANAGEMENT TRAINING

317:30-5-1080. Definitions

The following words or terms, when used in this Part, shall have the following meaning, unless the context clearly indicates otherwise:

"AADE" means American Association of Diabetes Educators.

"ADA" means American Diabetes Association.

"CDE" means certified diabetes educator.

"DSMT" means diabetes self-management training.

"OAC" means Oklahoma Administrative Code.

"OHCA" means Oklahoma Health Care Authority.

"Qualified non-physician provider" means a physician assistant or advanced practice registered nurse.

317:30-5-1081. Eligible providers and requirements

(a) Eligible DSMT providers include any of the following professionals:

(1) A registered dietitian (RD) who is licensed and in good standing in the state in which s/he practices, and who is:

(A) Certified as a CDE; and

- (B) Fully contracted with SoonerCare as a CDE provider.
- (2) A registered nurse (RN) who is licensed and in good standing in the state in which s/he practices, and who is:
 - (A) Certified as a CDE; and
 - (B) Fully contracted with SoonerCare as a CDE provider.
- (3) A pharmacist who is licensed and in good standing in the state in which s/he practices, and who is:
 - (A) Certified as a CDE; and
 - (B) Fully contracted with SoonerCare as a CDE provider.
- (b) In order to receive Medicaid reimbursement for DSMT services, professional service groups, outpatient hospitals, Indian Health Services, Tribal Programs and Urban Indian Clinics (I/T/Us), Rural Health Clinics (RHCs), and Federally Qualified Health Centers (FQHCs) must have a DSMT program that meets the quality standards of one (1) of the following accreditation organizations:
 - (1) The ADA; or
 - (2) The AADE.
- (c) All DSMT programs must adhere to the national standards for diabetes self-management education.
 - (1) Each member of the instructional team must:
 - (A) Be a CDE; or
 - (B) Have documentation of at least fifteen (15) hours of recent diabetes education or diabetes management experience.
 - (2) At a minimum, every instructional team must consist of at least one (1) of the CDE professionals listed in subsection a, above.
- (d) All members of the instructional team must obtain the nationally recommended annual continuing education hours for diabetes management.

317:30-5-1082. Scope of services

- (a) **General provisions.** The OHCA covers medically necessary DSMT services when all the following criteria are met:
 - (1) The member has been diagnosed with diabetes by a physician or qualified non-physician provider working within the scope of his/her licensure;
 - (2) The services have been ordered by a physician or qualified non-physician provider who is actively managing the member's diabetes;
 - (3) The services are provided by a qualified DSMT provider [Refer to OAC 317:30-5-1081(b)(2)]; and
 - (4) The program meets the current ADA or ADE training standards.
- (b) **Training.** DSMT services shall provide one (1) initial assessment per lifetime. Initial DSMT shall be comprised of up to ten (10) hours [can be performed in any combination of thirty (30) minute increments] of diabetes training within a consecutive twelve (12) month period beginning with the initial training date, including:
 - (1) One (1) hour of individual instruction, consisting of face-to-face encounters between the CDE and the member; and
 - (2) Nine (9) hours of group instruction.

- (c) **Follow-up DSMT.** After the first twelve (12) month period has concluded, members shall only be eligible for two (2) hours of individual or group DSMT instruction per calendar year.

317:30-5-1083. Coverage by category

The purpose of DSMT services must be to provide the member with the knowledge, skill, and ability necessary for diabetes self-care.

- (1) **Adults.** Payment is made for medically necessary DSMT provided by a registered nurse (RN), registered dietitian (RD), or pharmacist certified as a diabetes educator, as described in OAC 317:30-5-1081. Refer to OAC 317:30-5-1082 for units of DSMT training allowed.
- (2) **Children/adolescents.** Payment is made for medically necessary DSMT for members under twenty-one (21) years of age provided by a RN, RD, or pharmacist certified as a diabetes educator, as described in OAC 317:30-5-1081. DSMT coverage for children is the same as for adults. Additional DSMT services may be covered under EPSDT provisions if determined to be medically necessary.

317:30-5-1084. Reimbursement methodology

SoonerCare shall provide reimbursement for DSMT services as follow:

- (1) Payment shall be made to fully-contracted providers. If the rendering provider operates through an enrolled SoonerCare provider, or is contracted to provide services by an enrolled SoonerCare provider, payment may be made to that enrolled SoonerCare provider.
- (2) Reimbursement for DSMT services is only made on a fee-for-service basis. The maximum allowable fee for a unit of service has been determined by OHCA to be a reasonable fee, consistent with efficiency, economy, and quality of care. Payment for covered services is the lower of the provider's actual billed charges, consistent with the provider's usual and customary charge to the general public for the service, or the maximum allowable per unit of service.

GIST/ANALYSIS:

The proposed revisions will comply with 42 United States Code (U.S.C.) § 1396a(o), which requires state Medicaid agencies to implement newly-required DUR activities to better monitor opioid prescribing and dispensing patterns. Opioid safety edits will be implemented to alert pharmacists of potential concerns with a medication prescribed for a member, that have to be resolved before it can be dispensed and safely taken by the member. Additionally, a claims review automated process will be in place to identify refills in excess of state limits and monitor concurrent prescribing of opioids and benzodiazepines and/or antipsychotics. Furthermore, the OHCA will implement a program to monitor the use of antipsychotic medications by members aged eighteen (18) and younger, including foster children. Lastly, the OHCA will implement a process to identify potential fraud and abuse of controlled substances by members, health care professionals prescribing drugs to members, and pharmacies dispensing drugs to members. Other revisions will align and reorganize DUR policy section with current practice. These rules are currently in place as emergency rules.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 5. PHARMACIES

317:30-5-86. Drug Utilization Review (DUR) Program

(a) ~~OHCA is authorized by federal statute to conduct prospective and retrospective review of pharmacy claims to insure that prescriptions are:~~

- ~~(1) appropriate,~~
- ~~(2) medically necessary, and~~
- ~~(3) not likely to result in adverse medical results.~~

(b) ~~OHCA is authorized to use this program to educate physicians, other prescribers, pharmacists, and patients and also to conserve program funds and personal expenditures and prevent fraud, abuse and misuse of prescriptions.~~

(c) ~~OHCA utilizes a DUR Board managed by an outside contractor to review and analyze clinical and economic data available. The DUR Board reviews and makes recommendations based on predetermined standards submitted to them by the OHCA contractor(s) and, in concert with the retrospective review of claims data, makes recommendations for educational interventions, prospective DUR and the prior authorization process.~~

(a) The Oklahoma Health Care Authority (OHCA) Drug Utilization Review (DUR) program is authorized by regulations contained in the Omnibus Budget Reconciliation Act of 1990 (OBRA 90) to conduct prospective and retrospective review of pharmacy claims to ensure that prescriptions are:

- (1) Appropriate;
- (2) Medically necessary; and
- (3) Not likely to result in adverse medical results.

(b) The OHCA is authorized to use this program to educate physicians, other prescribers, pharmacists, and patients and also to conserve program funds and personal expenditures and prevent fraud, abuse, and misuse of prescriptions.

(c) The OHCA utilizes a DUR Board managed by an outside contractor to review and analyze clinical and economic data available. The DUR Board reviews and makes recommendations based on predetermined standards submitted to it by the OHCA contractor(s) and, in concert with the retrospective review of claims data, makes recommendations for educational interventions, prospective DUR, and the prior authorization process.

(d) The DUR Board assesses data on drug use in accordance with predetermined standards, including, but not limited to:

- (1) Monitoring for therapeutic appropriateness;
- (2) Overutilization and underutilization;
- (3) Appropriate use of generic products;
- (4) Therapeutic duplication;
- (5) Drug-disease contraindications;
- (6) Drug-drug interaction;
- (7) Incorrect drug dosage or duration of drug treatment;
- and
- (8) Clinical abuse or misuse.

(e) The DUR Board is comprised of ten (10) members that are appointed according to 63 O.S. § 5030.1. DUR Board members with a conflict of interest with respect to OHCA, Medicaid members, and/or pharmaceutical manufacturers must recuse themselves/abstain from voting on any DUR actions related to the conflict of interest.

(f) The DUR program shall adhere to the provisions of Section 1396a(o) of Title 42 of the United States Code.

(1) The OHCA has implemented the following claims review requirements:

(A) Opioid safety edits at the point-of-sale, including, but not limited to, day supply, early refills, duplicate fills, quantity limitations, and maximum daily morphine milligram equivalent (MME) safety edits. MME safety edits will automatically decline reimbursement of prescription drugs that exceed an established daily MME limit.

(B) Claims review automated process that monitors concurrent use of opioid(s) with benzodiazepine(s) and/or antipsychotic(s).

(C) The prescriptions in (A) and (B) may be reimbursed upon a showing of medical necessity, as evidenced by a prior authorization approved by OHCA or its designee or contractor.

(2) The OHCA has implemented a program to monitor the appropriate use of antipsychotic prescribing for children. The OHCA, or its contractor or designee, regularly reviews a sample of all antipsychotics prescribed to members aged eighteen (18) and younger, including, but not limited to, foster children, that were reimbursed by Medicaid, for safety and appropriate utilization.

(3) The OHCA has implemented a process to identify potential fraud or abuse of controlled substances by members, pharmacies, and prescribing clinicians.

(g) All prescribing clinicians and/or pharmacists shall adhere to appropriate prescribing practices that are consistent with state and federal regulations or may be subject to agency review processes, audits, recoupment, and/or termination of Medicaid contracts [refer to the Oklahoma Administrative Code (OAC), including, but not limited to, 317:30-3-2.1, 317:30-3-19.5, 317:30-3-33, and 317:30-5-70.1].

GIST/ANALYSIS:

he proposed revisions will establish consistency with the Oklahoma Medicaid State Plan which outlines the Ground Emergency Medical Transportation (GEMT) Supplemental Payment Program. The GEMT program is a voluntary program which provides supplemental payments to eligible providers for specific allowable and uncompensated costs incurred for providing ground ambulance services to SoonerCare recipients and certified on an annual cost report. Payments are made in the form of an interim payment and a later reconciliation payment (i.e. settle-up payment).

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 33. TRANSPORTATION BY AMBULANCE

317:30-5-344. Ground Emergency Medical Transportation (GEMT) supplemental payment program

(a) Definitions. The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise:

- (1) "Advanced life support" means emergency medical care and services which are provided by a licensed ground ambulance services provider in accordance with Oklahoma Administrative Code (OAC) 310:641, to include, but not limited to, advanced airway management, intravenous therapy, administration of drugs and other medicinal preparations, and other invasive medical procedures and specified techniques that are limited to the Intermediate, Advanced EMT, and Paramedic scope of practice in accordance with OAC 310:641, Subchapter 5.
- (2) "Allowable costs" means an expenditure that complies with the regulatory principles as listed in Title 2 of the Code of Federal Regulations (C.F.R.), Section 200.
- (3) "Basic life support" means emergency medical care and services which are provided by a licensed ground

ambulance service in accordance with OAC 310:641 to include, but not limited to, cardiopulmonary resuscitation procedures (CPR), hemorrhage control, stabilization of actual or possible skeletal injuries, spinal immobilization, extrication, transportation, and other non-invasive medical care.

(4) "Contracts with a local government" means contracts pursuant to a county plan for ambulance and emergency medical services with a:

(A) City, county, or an Indian tribe as defined in Section 4 of the Indian Self-Determination and Education Assistance Act; or

(B) Local service district, including, but not limited to, a rural fire protection district, or all administrative subdivisions of such city, county, or local service district.

(5) "Eligible GEMT provider" means a GEMT provider that meets all eligibility requirements in OAC 317:30-5-344 and the Oklahoma Medicaid State Plan (State Plan).

(6) "Federal financial participation (FFP)" means the portion of medical assistance expenditures for emergency medical services that are paid or reimbursed by the Centers for Medicare and Medicaid Services (CMS) in accordance with the State Plan.

(7) "GEMT services" means the act of transporting an individual by ground from any point of origin to the nearest medical facility capable of meeting the emergency medical needs of the patient, as well as the advanced, limited-advanced, and basic life support services provided to an individual by eligible GEMT providers before or during the act of transportation.

(8) "Governmental unit" means the entire state, local, or federally-recognized Indian tribal government, including any component thereof.

(9) "Publically owned or operated" means a unit of government that is a state, a city, a county, a special purpose district, or other governmental unit in a state that has taxing authority, has direct access to tax revenues, or is an Indian tribe as defined in Section 4 of the Indian Self-Determination and Education Assistance Act.

(b) Purpose. In accordance with 63 Oklahoma Statutes (O.S.) § 3242, the GEMT Supplemental Payment Program is a voluntary program which makes supplemental payments above the Medicaid fee schedule reimbursement rate to eligible GEMT providers for specific allowable, certified, and uncompensated costs incurred for providing GEMT Services to SoonerCare members.

(c) Provider eligibility. To be eligible for supplemental payments, a GEMT provider must meet all of the following requirements:

(1) Be enrolled as an Oklahoma SoonerCare provider for the time period claimed on its annual cost report;

(2) Provide ground ambulance transportation services to SoonerCare members;

(3) Be classified as a governmental unit provider in accordance with 2 C.F.R. 200;

(4) Comply with all applicable state and federal law;

(5) Be an organization that:

(A) Is publicly owned or operated; or

(B) Is under contract with a local government unit. A copy of any such contract must be submitted to the Oklahoma Health Care Authority (OHCA) simultaneous with the submission of the GEMT provider's annual cost report; and

(6) Timely submit all relevant information requested by the OHCA, in the format as prescribed by the OHCA, including, but not limited to, a certification that conforms with 42 C.F.R. § 433.51 that certifies that the claimed expenditures for GEMT Services are eligible for FFP.

(d) Allowable costs.

(1) Supplemental payments provided by this program are available only for the specific allowable costs per medical transport of a SoonerCare member that are in excess of the reimbursement paid by Medicaid and all other insurers and/or third-party resources.

(2) Total reimbursement from SoonerCare, including the supplemental payment, when combined with all other sources of reimbursement, must not exceed one-hundred percent (100%) of actual costs of providing services to SoonerCare members.

(e) Payments and recoupment.

(1) The OHCA will make annual supplemental payments after the conclusion of each state fiscal year (SFY) and in accordance with the methodology outlined in the State Plan. The payments will be made in the form of an interim payment and a later reconciliation payment (i.e., settle-up payment). The payments are not an increase to current fee-for-service (FFS) reimbursement rates.

(2) The interim supplemental payment will be equal to seventy-five percent (75%) of the total allowable costs as indicated on the annual approved cost report.

(3) The reconciliation payment will be computed by the OHCA based on the difference between the interim supplemental payment and total allowable costs from the approved cost report.

(4) Any excess payments determined in the reconciliation process are recouped and the federal share is returned to CMS.

(5) Cost reconciliation and cost settlement processes will be completed within twelve (12) months of the end of the cost reporting period.

(f) Reporting requirements.

(1) Eligible GEMT providers will:

(A) Submit a CMS-approved cost report annually, no later than ninety (90) days after the close of the SFY, on a form approved by the OHCA, unless a provider has made a written request for an extension and such request is granted by the OHCA;

(i) After the ninety (90) day deadline, an extension of no more than fifteen (15) calendar days can be granted; and

(ii) Extensions of time shall be requested by a letter addressed to the Finance Division. Any such request must be received by October 1, and must explain the good faith reason for the extension.

OHCA shall provide a written notice of any denial of a request for an extension, which shall become effective on the date it is mailed.

(B) Provide supporting documentation simultaneous with the cost report, as required by the OHCA;

(C) Keep, maintain, and have readily retrievable, such records as specified by the OHCA to fully disclose reimbursement amounts to which the eligible governmental entity is entitled, and any other records required by CMS; and

(D) Comply with the allowable cost requirements provided in 42 C.F.R. Part 413, 2 C.F.R. Part 200, and federal Medicaid non-institutional reimbursement policy.

(2) Penalties for false statements or misrepresentations made by or on behalf of the provider are established by 42 U.S.C. Section 1320a-7b which states, in part, "Whoever... (2) at any time knowingly and willfully makes or causes to be made any false statement or representation of a material fact for use in determining rights to such benefit or payment...shall (i) in the case of such a statement, representation, concealment, failure, or conversion by any person in connection with the furnishing (by that person) of items or services for which payment is or may be under the program, be guilty of a felony and upon conviction thereof fined not more than \$100,000 or imprisoned for not more than 10 years or both, or (ii) in the case of such a statement, representation, concealment, failure, conversion, or provision of counsel or assistance by any other person, be guilty of a misdemeanor and upon conviction thereof fined not more than \$20,000 or imprisoned for not more than one (1) year, or both."

(g) **Agency responsibilities.** The OHCA will:

(1) Submit claims to CMS based on total computable certified expenditures for GEMT services provided, that are allowable and in compliance with federal laws and regulations and Medicaid non-institutional reimbursement policy;

(2) Submit on an annual basis, any necessary materials to the federal government to provide assurances that claims will include only those expenditures that are allowable under federal law; and

(3) Complete the audit and final reconciliation process of the interim cost settlement payments for the services provided within twelve (12) months of the postmark date of the cost report and conduct on-site audits as necessary.

GIST/ANALYSIS:

The proposed revisions will align therapeutic foster care (TFC) policy with current business practice. Revisions will also add new language establishing a more intensive treatment program for children in Oklahoma Department of Human Services (OKDHS) and Office of Juvenile Affairs (OJA) custody known as Intensive Treatment Family Care (ITFC). ITFC is a TFC model that addresses children's complex/severe behavioral and emotional health needs and/or disorders. ITFC utilizes a team approach of professionals including therapists, care coordinators, and foster parents to provide the intensive treatment services in a family care setting. The proposed revisions will define ITFC, member criteria for the provision of ITFC services, provider participation and credentialing requirements, program coverage, and program limitations. Lastly, the proposed revisions will establish reimbursement methodology and applicable rates for ITFC services. These rules are currently in place as emergency rules.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 83. RESIDENTIAL BEHAVIOR MANAGEMENT SERVICES THERAPEUTIC FOSTER CARE

317:30-5-740. Eligible providers Definitions

(a) **Definitions.** The following words or terms used in this Part shall have the following meaning, unless the context clearly indicates otherwise:

- (1) **Therapeutic foster care (TFC) agencies.** A foster care agency is an agency that provides foster care as defined in the Code of Federal Regulations (CFR) as "24-hour substitute care for children outside their own homes." Therapeutic foster care settings are foster family homes.
- (2) **Therapeutic foster care homes.** Agency supervised private family homes in which foster parents have been trained to provide individualized, structured services in a safe, nurturing family living environment for children and adolescents with significant emotional or behavioral problems who require a higher level of care than is found in a conventional foster home but do not require placement in a more restrictive setting. Therapeutic foster care homes are considered the least restrictive out of home placement for children with severe emotional disorders.

(b) **TFC Agency Requirements.** Eligible TFC agencies must have:

- (1) ~~current certification from the Oklahoma Department of Human Services (OKDHS) as a child placing agency;~~
- (2) ~~a contract with the Division of Children and Family Services of the Oklahoma Department of Human Services, or OJA;~~
- (3) ~~a contract with the Oklahoma Health Care Authority; and~~
- (4) ~~a current accreditation status appropriate to provide behavioral health services in a foster care setting from:~~
 - (A) ~~The Joint Commission formerly the Joint Commission on Accreditation (JCAHO), or~~
 - (B) ~~the Rehabilitation Accreditation Commission (CARF), or~~
 - (C) ~~the Council on Accreditation (COA), or~~
 - (D) ~~the American Osteopathic Association (AOA).~~

"Therapeutic foster" care (TFC) agency means a foster care agency that provides foster care as defined in Section 1355.20 of Title 45 of the Code of Federal Regulation as twenty-four (24) hour substitute care for children placed away from their parents or guardians and for whom the title IV-E agency has placement and care responsibility. TFC settings are foster family homes.

"TFC home" means an agency-supervised, private family home in which foster parents have been trained to provide individualized, structured services in a safe, nurturing family-living environment. The children receiving services in this setting have moderate behavioral and emotional health needs, and may also present secondary physical, developmental, intellectual, and/or social disorder that is supported alongside the mental health needs. TFC homes are considered the least restrictive out-of-home placement for these children.

"Therapeutic foster care (TFC) model" means a model in which children in the TFC environment receive increased individualized behavioral health and other support services from qualified staff. Because TFC members require exceptional levels of skill, time, and supervision, the number of unrelated children placed per home is limited; no more than two (2) TFC members may be placed in a home at any one (1) time unless additional cases are specifically authorized by Child Welfare Services (CWS) of the Oklahoma Department of Human Services (OKDHS), or Oklahoma Office of Juvenile Affairs (OJA).

317:30-5-740.1. Provider qualifications and requirements Eligible providers and requirements

(a) **Therapeutic foster care model.** Children in the TFC environment receive intensive individualized behavioral health and other support services from qualified staff. Because TFC children require exceptional levels of skill, time and supervision, the number of unrelated children placed per home is limited; no more than two TFC children in a home at any one time unless additional cases are specifically authorized by OKDHS, Division of Children and Family Services or OJA.

(b) **Treatment team.** TFC agencies are primarily responsible for treatment planning and coordination of the child's treatment team. This team is typically composed of an OKDHS or OJA caseworker, the child, the child's parents, others closely involved with the child and family. It also includes the following:

(1) **Certified Behavioral Health Case Manager II (CM).** A bachelors level team member that may provide support services and case management. In addition to the minimum requirements at OAC 317:30-5-240.3 (c), the CM must have:

- (A) a minimum of one year of experience in providing direct care and/or treatment to children and/or families; and
- (B) have access to weekly consultation with a licensed behavioral health professional or Licensure Candidate.
- (C) CM must also follow requirements at OAC 317:30-5-241.3 for providing psychosocial rehabilitation services.

(2) **Licensed Behavioral Health Professional (LBHP).** A masters level professional that provides treatment and supervision for the treatment staff to maintain clinical standards of care and provide direct clinical services. In addition to the requirements at OAC 317:30-5-240.3(a) and (b), the LBHP or Licensure Candidate in a TFC setting must demonstrate a general professional or educational background in the following areas:

- (A) case management, assessment and treatment planning;
- (B) treatment of victims of physical, emotional, and sexual abuse;
- (C) treatment of children with attachment disorders;
- (D) treatment of children with hyperactivity or attention deficit disorders;
- (E) treatment methodologies for emotionally disturbed children and youth;
- (F) normal childhood development and the effect of abuse and/or neglect on childhood development;
- (G) anger management;
- (H) crisis intervention; and
- (I) trauma informed methodology.

(3) **Licensed Psychiatrist and/or psychologist.** TFC agencies must provide staff with access to professional psychiatric or psychological consultation as deemed necessary for the planning, implementation and appropriate management of the resident's treatment. See OAC 317:30-5-240.3(a) and OAC 317:25-275.

(4) **Treatment Parent Specialist (TPS).** The TPS serve as integral members of the team of professionals providing services for the child. The TPS receives special training in mental health issues, behavior management and parenting techniques; and implements the in-home portion of the treatment plan with close supervision and support. They provide services for the child, get the child to therapy and other treatment appointments, write

daily notes about interventions and attend treatment team meetings. The TPS must be under the supervision of a licensed behavioral health professional of the foster care agency and meet the following criteria:

- (A) have a high school diploma or equivalent;
- (B) have an employment relationship with the foster care agency as a foster parent complete with OSBI and OKDHS background screening;
- (C) completion of therapeutic foster parent training outlined in this section;
- (D) have a minimum of twice monthly face to face supervision with the licensed, or under supervision for licensure, LBHP, independent of the child's family therapy;
- (E) have weekly contact with the foster care agency professional staff; and
- (F) complete required annual trainings.

(e) **Agency assurances.** The TFC agency must ensure that each individual that renders treatment services (whether employed by or contracted by the agency) meets the minimum provider qualifications for the service. Individuals eligible for direct enrollment must have a contract on file with the Oklahoma Health Care Authority.

(d) **Policies and Procedures.** Eligible TFC agency providers that are defined in section OAC 317:30-5-740(a) shall have written policies and procedures for the orientation of new staff and foster parents which is reviewed and updated annually, for the following:

- (1) pre service training of foster parents in treatment methodologies and service needs of emotionally and behaviorally disturbed children;
- (2) treatment of victims of physical, emotional, and sexual abuse;
- (3) treatment of children with attachment disorders;
- (4) treatment of children with hyperactive or attention deficit disorders;
- (5) normal childhood development and the effect of abuse and/or neglect on childhood development;
- (6) treatment of children and families with substance use disorders;
- (7) the Inpatient Mental Health and Substance Abuse Treatment of Minors Act;
- (8) anger management;
- (9) inpatient authorization procedures;
- (10) crisis intervention;
- (11) grief and loss issues for children in foster care;
- (12) the significance/value of birth families to children receiving behavioral health services in a foster care setting; and
- (13) trauma informed methodology.

(a) **TFC Agency.** Eligible TFC agencies must have:

- (1) Current certification from the Oklahoma Department of Human Services (OKDHS) as a child placing agency;
- (2) A contract with the Child Welfare Division of OKDHS, or Oklahoma Office of Juvenile Affairs (OJA);
- (3) A contract with the Oklahoma Health Care Authority (OHCA); and

Permanent Final Adoptions

(4) A current accreditation status appropriate to provide behavioral health services in a foster care setting from:

- (A) The Joint Commission; or
- (B) The Commission on Accreditation of Rehabilitative Facilities (CARF); or
- (C) The Council on Accreditation (COA).

(b) **Treatment team.** TFC agencies are primarily responsible for treatment planning and coordination of the member's treatment team. This team is typically composed of an OKDHS or OJA caseworker, the member, the member's foster parent(s), as well as others closely involved with the member and family, including the biological parents when applicable.

(1) The team must include the following providers:

(A) **Licensed behavioral health professional (LBHP) and/or licensure candidate.** An LBHP is a master's level professional that provides treatment and supervises other treatment staff in maintaining clinical standards of care and providing direct clinical services. A licensure candidate is a practitioner actively and regularly receiving board-approved supervision, or extended supervision by a fully-licensed clinician if the board's supervision requirement is met but the individual is not yet licensed. In addition to the requirements at OAC 317:30-5-240.3(a) and (b), the LBHP or licensure candidate in a TFC setting must demonstrate a general professional or educational background in the following areas:

- (i) Case management, assessment, and treatment planning;
- (ii) Treatment of victims of physical, emotional, and sexual abuse;
- (iii) Treatment of children with attachment disorders;
- (iv) Treatment of children with hyperactivity or attention deficit disorders;
- (v) Treatment methodologies for emotionally disturbed children;
- (vi) Normal childhood development and the effect of abuse and/or neglect on childhood development;
- (vii) Anger management;
- (viii) Crisis intervention; and
- (ix) Trauma-informed methodology.

(B) **Treatment parent specialist (TPS).** The TPS serves as an integral member of the team of professionals providing services for the member. The TPS receives extensive training in diagnosed mental health issues, and behavior management/modification and skill-based parenting techniques; and implements the in-home portion of the treatment plan with close supervision and support. The TPS renders services for the member, provides or arranges suitable transportation for therapy and other treatment appointments, writes daily detailed notes regarding interventions and practical applications of learned skills, and attends treatment team meetings. The TPS must be under the supervision of an LBHP

or licensure candidate of the foster care agency and meet the following criteria:

(i) **Qualifications.**

- (I) Have a high school diploma or equivalent;
- (II) Have an employment and/or contractual relationship with the foster care agency as a foster parent, and have successfully met all required background screening requirements, including, but not limited to, fingerprint screenings conducted by the Oklahoma State Bureau of Investigation (OSBI) and Federal Bureau of Investigation (FBI), and OKDHS background screenings;
- (III) Complete the initial thirty-six (36) hours of pre-service training, prior to becoming a TFC parent;

(ii) **Responsibilities.**

- (I) Have a minimum of twice monthly face-to-face supervision with the licensed, or under-supervision for licensure, LBHP, independent of the member's family therapy;
- (II) Have weekly contact with the foster care agency professional staff;
- (III) Complete the required eighteen (18) hours of in-service training per calendar year; and
- (IV) Work with the multidisciplinary team and the member's biological family toward reunification, if appropriate, or other permanency plan.

(2) The team may also include the following providers:

(A) **Certified alcohol and drug counselor (CADC).** A bachelor's level team member with a current certification as a CADC in the state in which services are provided.

(B) **Certified behavioral health case manager (CM II).** A bachelor's level team member that may provide support services and case management. In addition to the minimum requirements at Oklahoma Administrative Code (OAC) 317:30-5-240.3(h)(1), the CM II must:

- (i) Have a minimum of one (1) year of experience in providing direct care and/or treatment to children and/or families; and
- (ii) Have access to weekly consultation with a licensed behavioral health professional (LBHP) or licensure candidate.
- (iii) The CM II must also follow requirements at OAC 317:30-5-241.3 for providing psychosocial rehabilitation (PSR) services.

(C) **Licensed psychiatrist and/or psychologist.** TFC agencies must provide staff with access to professional psychiatric or psychological consultation as deemed necessary for the planning, implementation, and appropriate management of the member's treatment. See OAC 317:30-5-240.3(a) and 317:25-7-5.

(c) **Agency assurances.** The TFC agency must ensure that each individual who renders treatment services meets the minimum provider qualifications for the service and, if eligible for direct enrollment, is fully contracted with the OHCA. Additionally, the TFC agency must comply with all state and federal Medicaid law, including, but not limited to, OHCA administrative rules, the Code of Federal Regulations (C.F.R.), and the Oklahoma State Medicaid Plan.

(d) **Policies and procedures.** Eligible TFC agency providers shall have written policies and procedures for the orientation of new staff and foster parents which is reviewed and updated annually, for the following:

- (1) Pre-service training of foster parents in treatment methodologies and service needs of emotionally and behaviorally disturbed children;
- (2) Treatment of victims of physical, emotional, and sexual abuse;
- (3) Treatment of children with attachment disorders;
- (4) Treatment of children with hyperactive or attention deficit disorders;
- (5) Normal childhood development and the effect of abuse and/or neglect on childhood development;
- (6) Treatment of children and families with substance use disorders;
- (7) The Inpatient Mental Health and Substance Abuse Treatment of Minors Act;
- (8) Anger management;
- (9) Inpatient authorization procedures;
- (10) Crisis intervention;
- (11) Grief and loss issues for children in foster care;
- (12) The significance/value of birth families to children receiving behavioral health services in a foster care setting; and
- (13) Trauma-informed methodology.

317:30-5-740.2. Provider selection

Parents who retain legal custody of a client may select any eligible contractor as the provider of services. In the case of children in the custody of the State of Oklahoma, the State, acting in its custodial role, selects the provider agency. Parents who retain legal custody of a TFC child may select any eligible TFC agency as the provider of services. In the case of members in the custody of the State of Oklahoma, the State, acting in its custodial role, selects the TFC agency.

317:30-5-741. Coverage by category

- (a) **Adults.** Behavioral health services in therapeutic foster care settings are not covered for adults.
- (b) **Children.** Behavioral health services are allowed in therapeutic foster care settings for certain children and youth as medically necessary. The children and youth receiving services in this setting have special psychological, social and emotional needs, requiring more intensive, therapeutic care than can be found in the traditional foster care setting. The designated children and youth must continually meet medical necessity criteria to be eligible for coverage in this setting.

(e) **Medical necessity criteria.** Medical necessity criteria is delineated as follows:

- (1) A diagnosis from the most recent edition of "The Diagnostic and Statistical Manual of Mental Disorders" (DSM), with the exception of V codes and adjustment disorders, with a detailed description of the symptoms supporting the diagnosis. Children with a provisional diagnosis may be admitted for a maximum of 30 days. An assessment must be completed by a Licensed Behavioral Health Professional (LBHP) or Licensure Candidate as defined in OAC 317:30-5-240.3(a) and (b) within the 30-day period resulting in a diagnosis from the most recent edition of "the Diagnostic and Statistical Manual of Mental Disorders" (DSM) with the exception of V codes and adjustments disorders, with a detailed description of the symptoms supporting the diagnosis to continue RBMS in a foster care setting.
- (2) Conditions are directly attributed to a mental illness/serious emotional disturbance as the primary need for professional attention.
- (3) It has been determined by the inpatient authorization reviewer that the current disabling symptoms could not have been or have not been manageable in a less intensive treatment program.
- (4) Evidence that the child's presenting emotional and/or behavioral problems prohibit full integration in a family/home setting without the availability of 24 hour crisis response/behavior management and intensive clinical interventions from professional staff, preventing the child from living in a traditional family home.
- (5) The child is medically stable and not actively suicidal or homicidal and not in need of substance abuse detoxification services.
- (6) The legal guardian/parent of the child (OKDHS/OJA if custody child) agrees to actively participate in the child's treatment needs and planning.

(a) **Adults.** Behavioral health services in TFC settings are not covered for adults.

(b) **Children.** Behavioral health services are allowed in TFC settings for children under twenty-one (21) as medically necessary. Members receiving services in this setting have moderate behavioral and emotional health needs, and may also present secondary physical, developmental, intellectual, and/or social disorder that is supported alongside the mental health needs. The designated members must continually meet medical necessity criteria to be eligible for coverage in this setting. Requests for behavioral health services in a TFC setting must be prior authorized and may be approved up to a maximum of six (6) month extensions.

(c) **Medical necessity criteria.** In order to satisfy medical necessity criteria, all of the following conditions must be met:

- (1) The member must have a diagnosis from the Diagnostic and Statistical Manual of Mental Disorders (DSM-V), with the exception of V codes and adjustment disorders, with a detailed description of the symptoms supporting the diagnosis. Members with a provisional diagnosis may receive TFC services for a maximum of thirty (30) days.

(2) An assessment must be completed by a licensed behavioral health professional (LBHP) or licensure candidate as defined in Oklahoma Administrative Code (OAC) 317:30-5-240.3(a) and (b) within the thirty (30) day provisional period described above, that confirms a diagnosis from the DSM-V with the exception of V codes and adjustments disorders, and that includes a detailed description of the symptoms supporting the diagnosis to continue treatment in a TFC setting.

(3) Conditions are directly attributed to moderate behavioral and emotional needs as the primary need for professional attention.

(4) The current disabling symptoms could not have been/have not been manageable in a less intensive treatment program, or the level of care is warranted in order to reduce the risk of regression of symptoms and/or sustain the gains made at a higher level of care.

(5) Evidence that the members' needs prohibit full integration in a family/home setting without the availability of twenty-four (24) hour crisis response/behavior management and clinical interventions from professional staff, preventing the member from living in a traditional family home.

(6) The member is medically stable and not actively suicidal or homicidal and not in need of substance abuse detoxification services.

(7) The legal guardian [Oklahoma Department of Human Services (OKDHS)/Oklahoma Office of Juvenile Affairs (OJA) if custody member] or parent of the member agrees to actively participate in the member's treatment needs and planning.

317:30-5-742. Description of services

~~(a) Treatment services must be provided in the least restrictive, non-institutional therapeutic milieu. The foster care setting is restorative in nature, allowing children with emotional and psychological problems to develop the necessary control to function in a less restrictive setting.~~

~~(b) Behavioral health services must include an individual plan of care for each member served. The individual plan of care requirements are set out in OAC 317:30-5-742.2(b)(1). Treatment services in a therapeutic foster care setting may include an array of services listed in (1)–(6) of this subsection as provided in the individual plan of care. Services include, but may not be limited to:~~

- ~~(1) Individual, family and group therapy;~~
- ~~(2) Substance abuse/chemical dependency education, prevention, and therapy;~~
- ~~(3) Psychosocial rehabilitation and support services;~~
- ~~(4) Behavior management~~
- ~~(5) Crisis intervention; and~~
- ~~(6) Case Management.~~

(a) Treatment services must be provided in the least restrictive, non-institutional therapeutic environment. The TFC setting is restorative in nature, allowing members with moderate behavioral and emotional health needs who may also have a secondary physical, developmental, intellectual, and/or social disorder that is supported alongside the mental health needs to

develop the necessary control to function in a less restrictive setting.

(b) Behavioral health services must include an individual plan of care (IPC) for each member served. The IPC requirements are set out in Oklahoma Administrative Code (OAC) 317:30-5-742.2.

(c) Treatment services in a TFC setting must include at least one (1) hour of individual, family, and/or group therapy per week, as set forth in OAC 317:30-5-742.2(3). Treatment may also include, but is not limited to, an array of the following services:

- (1) Substance abuse/chemical dependency education, prevention, and therapy;
- (2) Psychosocial rehabilitation and support services;
- (3) Behavior management;
- (4) Crisis intervention; and
- (5) Case management.

317:30-5-742.1. Reimbursement

~~Services provided to a member without a written individual plan of care as described in OAC 317:30-5-742.2(b)(1) will not be reimbursed.~~

(a) TFC services will be paid at the current fee-for-service (FFS) rate. Services provided to a member without a written individual plan of care (IPC) as described in Oklahoma Administrative Code (OAC) 317:30-5-742.2 will not be reimbursed.

(b) Additional services may require prior authorization by the OHCA, or its designated agent. Refer to OAC 317:30-3-31. Documentation must be provided to ensure that services are not duplicative. If additional services are approved for a member in state custody, the Oklahoma Department of Human Services (OKDHS), or Oklahoma Office of Juvenile Affairs (OJA) will collaborate with the provider of such services as directed by the OHCA.

(c) Reimbursement for TFC services is not available for the following:

- (1) Room and board;
- (2) Educational costs;
- (3) Supported employment;
- (4) Inpatient psychiatric services;
- (5) Respite care;
- (6) Day treatment services;
- (7) Partial hospitalization services; and
- (8) Intensive outpatient services.

(d) Case management services are reimbursed to government providers as per the methodology in the approved Oklahoma Medicaid State Plan.

317:30-5-742.2. Individual plan of care (IPC) and prior authorization of services

~~(a) All behavioral health services must be prior authorized by the designated agent of the Oklahoma Health Care Authority (OHCA) before the service is rendered by an eligible service provider. Without prior authorization, payment is not authorized. Requests for behavioral health services in a foster care setting may be approved for a maximum of three (3) months per extension request.~~

(b) All behavioral health services in a foster care setting are provided as a result of an individual assessment of the members needs and documented in the individual plan of care.

(1) **Assessment.**

(A) **Definition.** Gathering and assessment of historical and current bio psycho social information which includes face to face contact with the person and/or the person's family or other persons resulting in a written summary report, diagnosis and recommendations. All agencies must assess the medical necessity of each individual to determine the appropriate level of care.

(B) **Qualified professional.** This service is performed by an LBHP or Licensure Candidate.

(C) **Limitations.** Assessments are compensable on behalf of a member who is seeking services for the first time from the therapeutic foster care agency. This service is not compensable if the member has previously received or is currently receiving services from the agency unless there has been a gap in service of more than six (6) months and it has been more than one (1) year since the previous assessment.

(D) **Documentation requirements.** The assessment must include all elements and tools required by the OHCA. In the case of children under the age of eighteen (18), it is performed with the direct, active face to face participation of the child and parent or guardian. The child's level of participation is based on age, developmental and clinical appropriateness. The assessment must include all related diagnoses from the most recent DSM edition. The assessment must contain but is not limited to the following:

- (i) Date, to include month, day and year of the assessment session(s);
- (ii) Source of information;
- (iii) Member's first name, middle initial and last name;
- (iv) Gender;
- (v) Birth date;
- (vi) Home address;
- (vii) Telephone number;
- (viii) Referral source;
- (ix) Reason for referral;
- (x) Person to be notified in case of emergency;
- (xi) Presenting reason for seeking services;
- (xii) Start and stop time for each unit billed;
- (xiii) Dated signature of parent or guardian participating in the face to face assessment. Signatures are required for members over the age of fourteen (14);
- (xiv) Bio Psychosocial information which must include:
 - (I) Identification of the member's strengths, needs, abilities and preferences;
 - (II) History of the presenting problem;
 - (III) Previous psychiatric treatment history, include treatment for psychiatric; substance

use; drug and alcohol addiction; and other addictions;

(IV) Health history and current biomedical conditions and complications;

(V) Alcohol, drug, and/or other addictions history;

(VI) Trauma, abuse, neglect, violence, and/or sexual assault history of self and/or others, including Department of Human Services (DHS) involvement;

(VII) Family and social history including psychiatric, substance use, drug and alcohol addiction, other addictions, and trauma/abuse/neglect;

(VIII) Educational attainment, difficulties and history;

(IX) Cultural and religious orientation;

(X) Vocational, occupational and military history;

(XI) Sexual history, including HIV, AIDS, and STD at risk behaviors;

(XII) Marital or significant other relationship history;

(XIII) Recreation and leisure history;

(XIV) Legal or criminal record, including the identification of key contacts, (e.g. attorneys, probation officers);

(XV) Present living arrangements;

(XVI) Economic resources; and

(XVII) Current support system, including peer and other recovery supports.

(xv) Mental status and Level of Functioning information, including questions regarding but not limited to the following:

(I) Physical presentation, such as general appearance, motor activity, attention and alertness;

(II) Affective process, such as mood, affect, manner and attitude;

(III) Cognitive process, such as intellectual ability, social adaptive behavior, thought processes, thought content, and memory; and

(IV) All related diagnoses from the most recent addition of the DSM.

(xvi) Pharmaceutical information to include the following for both current and past medications;

(I) Name of medication;

(II) Strength and dosage of medication;

(III) Length of time on the medication; and

(IV) Benefit(s) and side effects of medication.

(xvii) LBHP's interpretation of findings and diagnosis;

(xviii) Dated signature and credentials of the qualified practitioner who performed the face to face behavioral assessment. If performed by a licensure candidate, it must be countersigned

by the licensed behavioral health professional who is responsible for the member's care.

(2) **Individual plan of care requirement.**

(A) **Signature Requirement.** A written individual plan of care following a comprehensive evaluation for each member must be formulated by the provider agency staff within thirty (30) days of admission with documented input from the member, legal guardian (OKDHS/Office of Juvenile Affairs (OJA) staff), the foster parent (when applicable) and the treatment provider(s). An individual plan of care is not valid until all dated signatures are present, including signatures from the member (if fourteen (14) or over), the legal guardian, the foster parent (when applicable) and the treatment provider(s). If necessary, an individual plan of care may be faxed to a required signatory to have them review, sign and fax it back to the provider before its implementation; however, the provider must obtain the original signature for the clinical file within thirty (30) days. No stamped or photocopied signatures are allowed. This plan must be revised and updated every three (3) months with documented involvement of the legal guardian and resident.

(B) **Individualization.** The individual plan of care must be individualized and take into account the member's age, history, diagnosis, assessed functional levels, culture, and the effect of past and current traumatic experiences in the life of the member. It includes the member's documented diagnosis, appropriate goals, and corresponding reasonable and attainable objectives and action steps within the expected time lines. Each member's individual plan of care is to also address the provider agency's plans with regard to the provision of services. Each plan of care must clearly identify the type of services required to meet the child's treatment needs and frequency over a given period of time.

(C) **Qualified professional.** This service is performed by an LBHP or Licensure Candidate.

(D) **Time requirements.** Individual plan of care updates must be conducted face to face and are required every three (3) months during active treatment. However, updates can be conducted whenever it is clinically needed as determined by the qualified practitioner and member.

(E) **Documentation requirements.** Comprehensive and integrated service plan content must address the following:

- (i) member strengths, needs, abilities, and preferences (SNAP);
- (ii) identified presenting challenges, problems, needs and diagnosis;
- (iii) specific goals for the member;
- (iv) objectives that are specific, attainable, realistic, and time limited;
- (v) each type of service and estimated frequency to be received;

(vi) the practitioner(s) name and credentials that will be providing and responsible for each service;

(vii) any needed referrals for service;

(viii) specific discharge criteria; and

(ix) description of the member's involvement in, and responses to, the treatment plan, and his/her signature and date.

(F) **Amendments.** Amendment of an existing individual plan of care to revise or add goals, objectives, service provider, service type, and service frequency, must be documented in either a scheduled three (3) month plan update or within the existing individual plan of care through an addendum until the review/update is due. Any changes must, prior to implementation, be signed and dated by the member (if fourteen (14) or over), the legal guardian, the foster parent (if applicable), as well as the primary LBHP and any new provider(s). Individual plan of care updates must address the following:

(i) update to the bio psychosocial assessment, re-evaluation of diagnosis, individual plan of care goals and/or objectives;

(ii) progress, or lack of, on previous individual plan of care goals and/or objectives;

(iii) a statement documenting a review of the current individual plan of care and an explanation if no changes are to be made to the individual plan of care and a statement addressing the status of identified problem behaviors that lead to placement must be included;

(iv) change in goals and/or objectives (including target dates) based upon member's progress or identification of new need, challenges and problems;

(v) change in frequency and/or type of services provided;

(vi) change in practitioner(s) who will be responsible for providing services on the plan;

(vii) change in discharge criteria;

(viii) description of the member's involvement in, and responses to, the treatment plan, and his/her signature and date.

(3) **Description of Services.** Agency services include:

(A) **Individual, family and group therapy.** See OAC 317:30-5-241.2(a), (b), and (c).

(B) **Crisis/behavior management and redirection.** The provider agency must provide crisis/behavior redirection by agency staff as needed twenty four (24) hours per day, seven (7) days per week. The agency must ensure staff availability to respond to the residential foster parents in a crisis to stabilize members' behavior and prevent placement disruption. This service is to be provided to the member by an LBHP.

(C) **Discharge planning.** The provider agency must develop a discharge plan for each member. The discharge plan must be individualized, child specific

and include an after care plan that is appropriate to the member's needs, identifies the member's needs, includes specific recommendations for follow up care and outlines plans that are in place at the time of discharge. The plan for children in parental custody must include, when appropriate, reunification plans with the parent(s)/legal guardian. The plan for children who remain in the custody of the OKDHS or the OJA must be developed in collaboration with the case worker and in place at the time of discharge. The discharge plan is to include at a minimum, recommendations for continued treatment services, educational services, and other appropriate community resources. Discharge planning provides a transition from foster care placement into a lesser restrictive setting within the community.

(D) Substance use/chemical dependency use therapy. Substance use/chemical dependency therapy can be provided if a member is identified by diagnosis or documented social history as having emotional or behavioral problems directly related to substance use and/or chemical dependency. The modalities employed are provided in order to begin, maintain and enhance recovery from alcoholism, problem drinking, addiction or nicotine use and addiction. This service is to be provided to the member by an LBHP or Licensure Candidate.

(E) Substance Use Rehabilitation Services. Covered substance use rehabilitation services are provided in non-residential settings in regularly scheduled sessions intended for individuals not requiring a more intensive level of care or those who require continuing services following more intensive treatment regimes. The purpose of substance use rehabilitation services is to begin, maintain, and/or enhance recovery from alcoholism, problem drinking, drug use, drug dependency addiction or nicotine use and addiction. Rehabilitation services may be provided individually or in group sessions, and they take the format of an agency approved curriculum based education and skills training. This service is to be provided to the member by a CM II.

(F) Psychosocial rehabilitation (PSR).

(i) Definition. PSR services are face to face Behavioral Health Rehabilitation services which are necessary to improve the member's ability to function in the community. They are performed to improve the skills and abilities of members to live interdependently in the community, improve self care and social skills, and promote lifestyle change and recovery practices. Rehabilitation services may be provided individually or in group sessions, and they take the format of an agency approved curriculum based education and skills training.

(ii) Clinical Restrictions. This service is generally performed with only the members and the qualified provider, but may include a member and

the member's family/support system group that focuses on the member's diagnosis, symptom management, and recovery based curriculum. A member who at the time of service is not able to cognitively benefit from the treatment due to active hallucinations, substance use, or other impairments is not suitable for this service. Family involvement is allowed for support of the member and education regarding his/her recovery, but does not constitute family therapy, which requires a licensed provider.

(iii) Qualified Practitioners. CM II, LBHP or a Licensure Candidate and LBHP may perform PSR, following development of an individual plan of care curriculum approved by an LBHP or Licensure Candidate. PSR staff must be appropriately and currently trained in a recognized behavioral/management intervention program such as MANDT or Controlling Aggressive Patient Environment (CAPE) or trauma informed methodology. The CM II must have immediate access to an LBHP who can provide clinical oversight of the CM II and collaborate with the CM II in the provision of services. A minimum of one (1) monthly face to face consultation with an LBHP is required.

(iv) Group Sizes. The maximum staffing ratio is eight (8) to one (1) for children under the age of eighteen (18).

(v) Limitations.

(I) In order to develop and improve the member's community and interpersonal functioning and self care abilities, PSR services may take place in settings away from the behavioral health agency site as long as the setting protects and assures confidentiality. When this occurs, the qualified provider must be present and interacting, teaching, or supporting the defined learning objectives of the member for the entire claimed time.

(II) PSR services are intended for children with Serious Emotional Disturbance (SED), and children with other emotional or behavioral disorders. Children under age six (6), unless a prior authorization for children ages four (4) and five (5) has been granted by OHCA or its designated agent based on a finding of medical necessity, are not eligible for PSR services.

(III) PSR services are time limited services designed to be provided over the briefest and most effective period possible and as adjunct (enhancing) interventions to complement more intensive behavioral health therapies. Service limits are based on the member's needs according to the Client Assessment Record (CAR) or other approved tool, the requested placement based on the level of functioning rating, medical necessity, and best practice. Service limitations are designed to help prevent rehabilitation

diminishing return by remaining within reasonable age and developmentally appropriate daily limits.

(vi) **Progress Notes.** In accordance with OAC 317:30-5-241.1, the behavioral health individual plan of care developed by the LBHP must include the member's strengths, functional assets, weaknesses or liabilities, treatment goals, objectives and methodologies that are specific and time limited, and defines the services to be performed by the practitioners and others who comprise the treatment team. When PSR services are prescribed, the plan must address objectives that are specific, attainable, realistic, measurable, and time limited. The plan must include the appropriate treatment coordination to achieve the maximum reduction of the mental and/or behavioral health disability and to restore the member to their best possible functional level.

(I) Start and stop times for each day attended and the physical location in which the service was rendered;

(II) Specific goal(s) and objectives addressed during the session/group;

(III) Type of Skills Training provided each day and/or during the week including the specific curriculum used with member;

(IV) Member satisfaction with staff intervention(s);

(V) Progress, or barriers made towards goals, objectives;

(VI) New goal(s) or objective(s) identified;

(VII) Dated signature of the qualified provider; and

(VIII) Credentials of the qualified provider;

(vii) **Additional documentation requirements.** Documentation of ongoing consultation and/or collaboration with an LBHP or Licensure Candidate related to the provision of PSR services.

(viii) **Non-Covered Services.** The following services are not considered PSR and are not reimbursable:

(I) room and board;

(II) educational costs;

(III) supported employment; and

(IV) respite.

(G) **Social skills redevelopment.** Goal directed activities for each member to restore, retain and improve the self help, communication, socialization, and adaptive skills necessary to reside successfully in home and community based settings. These will be daily activities that are age appropriate, culturally sensitive and relevant to the goals of the individual plan of care. These may include self esteem enhancement, violence alternatives, communication skills or other related skill development. This service is to be provided to the member by the Treatment

Parent Specialist (TPS). Services rendered by the TPS are limited to one and one half (1.5) hours daily.

All behavioral health services in a TFC setting are provided as a result of an individual assessment of the member's needs and documented in the IPC.

(1) **Assessment.**

(A) **Definition.** Gathering and assessment of historical and current bio-psycho-social information which includes face-to-face contact with the member and the member's foster parent(s) or legal guardian or other person, including biological parent(s) when applicable, who have pertinent information about the member resulting in a written summary report, diagnosis, and recommendations. All TFC agencies must assess each individual to determine whether he or she could be an appropriate candidate for TFC services.

(B) **Qualified professional.** This service is performed by a licensed behavioral health professional (LBHP) or licensure candidate.

(C) **Limitations.** Assessments are compensable on behalf of a member who is seeking services for the first time from the TFC agency. This service is not compensable if the member has previously received or is currently receiving services from the agency, unless there has been a gap in service of more than six (6) months and it has been more than one (1) year since the previous assessment.

(D) **Documentation requirements.** The assessment must include all elements and tools required by the OHCA. In the case of members under the age of eighteen (18), it is performed with the direct, active, face-to-face participation of the member and foster parent(s) or legal guardian or other persons, including biological parent(s) when applicable. The member's level of participation is based on age, developmental, and clinical appropriateness. The assessment must include all related diagnoses from the Diagnostic and Statistical Manual of Mental Disorders (DSM-V). The assessment must contain, but is not limited to, the following:

(i) Date, to include month, day, and year of the assessment session(s);

(ii) Source of information;

(iii) Member's first name, middle initial, and last name;

(iv) Gender;

(v) Birth date;

(vi) Home address;

(vii) Telephone number;

(viii) Referral source;

(ix) Reason for referral;

(x) Person to be notified in case of emergency;

(xi) Presenting reason for seeking services;

(xii) Start and stop time for each unit billed;

(xiii) Dated signature of foster parent(s) or legal guardian [Oklahoma Department of Human Services (OKDHS) or Oklahoma Office of Juvenile

Affairs (OJA)] or other persons, including biological parents(s) (when applicable) participating in the face-to-face assessment. Signatures are required for members fourteen (14) years of age and over;

(xiv) Bio-psychosocial information which must include:

- (I) Identification of the member's strengths, needs, abilities, and preferences;
- (II) History of the presenting problem;
- (III) Previous psychiatric treatment history, including treatment of psychiatric issues, substance use, drug and alcohol addiction, and other addictions;
- (IV) Health history and current biomedical conditions and complications;
- (V) Alcohol, drug, and/or other addictions history;
- (VI) Trauma, abuse, neglect, violence, and/or sexual assault history of self and/or others, including OKDHS involvement;
- (VII) Family and social history, including psychiatric, substance use, drug and alcohol addiction, other addictions, and trauma/abuse/neglect;
- (VIII) Educational attainment, difficulties, and history;
- (IX) Cultural and religious orientation;
- (X) Vocational, occupational, and military history;
- (XI) Sexual history, including human immunodeficiency virus (HIV), acquired immune deficiency syndrome (AIDS), other sexually transmitted diseases (STDs), and at-risk behaviors;
- (XII) Marital or significant other relationship history;
- (XIII) Recreation and leisure history;
- (XIV) Legal or criminal record, including the identification of key contacts (e.g. attorneys, probation officers);
- (XV) Present living arrangements;
- (XVI) Economic resources; and
- (XVII) Current support system, including peer and other recovery supports.

(xv) Mental status and level of functioning information, including, but not limited to, questions regarding the following:

- (I) Physical presentation, such as general appearance, motor activity, attention, and alertness;
- (II) Affective process, such as mood, affect, manner, and attitude;
- (III) Cognitive process, such as intellectual ability, social-adaptive behavior, thought processes, thought content, and memory; and
- (IV) All related diagnoses from the DSM-V.

(xvi) Pharmaceutical information for both current and past medications, to include the following:

- (I) Name of medication;
- (II) Strength and dosage of medication;
- (III) Length of time on the medication; and
- (IV) Benefit(s) and side effects of medication.

(xvii) LBHP's interpretation of findings and diagnosis; and

(xviii) Dated signature and credentials of the qualified practitioner who performed the face-to-face behavioral assessment. If performed by a licensure candidate, it must be countersigned by the LBHP who is responsible for the member's care.

(2) **IPC requirements.**

(A) **Signature requirement.** A written IPC following a comprehensive evaluation for each member must be formulated by the TFC agency staff within thirty (30) days of admission to the program with documented input from the member, the legal guardian (OKDHS/ OJA), the foster parent(s), the treatment provider(s), and the biological parent(s) when applicable. An IPC is not valid until all dated signatures are present, including signatures from the member [if fourteen (14) years of age and over], the legal guardian, the foster parent, and the treatment provider (s). If the service is performed by a licensure candidate, it must be countersigned by the LBHP who is responsible for the member's care. This plan must be revised and updated every three (3) months with documented involvement of the legal guardian and member.

(B) **Individualization.** The IPC must be individualized and take into account the member's age, history, diagnosis, assessed functional levels, culture, and the effect of past and current traumatic experiences in the life of the member. It includes the member's documented diagnosis, appropriate goals, and corresponding reasonable and attainable treatment objectives, and action steps within the expected timelines. Each member's IPC needs to address the TFC agency's plans with regard to the provision of services. Each plan of care must clearly identify the type of services required to meet the member's treatment needs and frequency over a given period of time.

(C) **Qualified professional.** This service is performed by an LBHP or licensure candidate.

(D) **Time requirements.** IPC updates must be conducted face-to-face and are required at least every ninety (90) days during active treatment. However, updates can be conducted whenever it is clinically needed, as determined by the qualified practitioner and member.

Permanent Final Adoptions

(E) **Documentation requirements.** Comprehensive and integrated service plan content must identify:

- (i) Member strengths, needs, abilities, and preferences (SNAP);
- (ii) Identified presenting challenges, problems, needs, and diagnosis;
- (iii) Specific goals for the member;
- (iv) Objectives that are specific, attainable, realistic, and time-limited;
- (v) Each type of service and estimated frequency to be received;
- (vi) The name and credentials of all the practitioners who will be providing and responsible for each service;
- (vii) Any needed referrals for service;
- (viii) Specific discharge criteria; and
- (ix) Member's involvement in, and responses to, the treatment plan, and his/her signature and date [if fourteen (14) years of age and over].

(F) **Amendments and updates.** Amendment of an existing IPC to revise or add goals, objectives, service provider(s), service type, and service frequency, must be documented in either a scheduled three (3) month plan update or within the existing IPC through an addendum until the review/update is due. Any changes must, prior to implementation, be signed and dated by the member [if fourteen (14) years of age and over], the legal guardian, the foster parent, as well as the primary LBHP and any new provider(s). If the service is performed by a licensure candidate, it must be countersigned by the LBHP who is responsible for the member's care. IPC updates must address the following:

- (i) Update to the bio-psychosocial assessment, re-evaluation of diagnosis, and IPC goals and/or objectives;
- (ii) Progress, or lack of, on previous IPC goals and/or objectives;
- (iii) A statement documenting a review of the current IPC, and, if no changes are needed, an explanation and a statement addressing the status of the identified problem behavior that led to TFC placement must be included;
- (iv) Change in goals and/or objectives (including target dates) based upon member's progress or identification of new needs, challenges, and problems;
- (v) Change in frequency and/or type of services provided;
- (vi) Change in practitioner(s) who will be responsible for providing services on the plan;
- (vii) Change in discharge criteria; and
- (viii) Description of the member's involvement in, and responses to, the treatment plan, and his/her signature and date [if fourteen (14) years of age and over] Refer to Oklahoma Administrative Code (OAC) 317:30-5-742.2. (2)(A).

(3) **Description of services.** Agency services include:

(A) **Individual, family, and/or group therapy.** See Oklahoma Administrative Code (OAC) 317:30-5-241.2(a), (b), and (c). A member must receive one (1) hour of individual, family, and/or group therapy each week that is provided by an LBHP or licensure candidate, and may receive up to two (2) hours each week, if medically needed.

(B) **Crisis intervention.** The provider agency must provide crisis intervention by agency staff as needed twenty-four (24) hours per day, seven (7) days per week. The agency must ensure staff availability to respond to the residential foster parent(s) in a crisis to stabilize a member's behavior and prevent placement disruption. This service is to be provided to the member by an LBHP or a licensure candidate. The licensure candidate must have immediate access to an LBHP who can provide oversight of the licensure candidate and conduct an emergency detention evaluation.

(C) **Discharge planning.** The TFC agency must develop a discharge plan for each member. The discharge plan must be individualized, member-specific, and include an after care plan that is appropriate to the member's needs, identifies the member's needs, includes specific recommendations for follow-up care, and outlines plans that are in place at the time of discharge. The plan for members in parental custody must include, when appropriate, reunification plans with the parent(s)/legal guardian. The plan for members who remain in the custody of OKDHS or OJA must be developed in collaboration with the case worker and finalized at the time of discharge. The discharge plan is to include, at a minimum, recommendations for continued treatment services, educational services, and other appropriate community resources. Appointments for outpatient therapy and medication management (when applicable) should be scheduled prior to discharge. Discharge planning provides a transition from TFC placement into a less restrictive setting within the community. Discharge planning is performed in partnership between Child Welfare Services (CWS) of the OKDHS and an LBHP within the TFC agency.

(D) **Substance use/chemical dependency use therapy.** Substance use/chemical dependency therapy can be provided if a member is identified by diagnosis or documented social history as having emotional or behavioral problems directly related to substance use and/or chemical dependency. The modalities employed are provided in order to begin, maintain, and enhance recovery from problem drinking, alcoholism, nicotine use and addiction, and/or drug use, drug dependency, and/or drug addiction. This service is to be provided to the member by an LBHP or licensure candidate.

(E) **Substance use rehabilitation services.** Covered substance use rehabilitation services are

provided in non-residential settings in regularly scheduled sessions intended for individuals not requiring a more intensive level of care or those who require continuing services following more intensive treatment regimes. The purpose of substance use rehabilitation services is to begin, maintain, and/or enhance recovery from problem drinking, alcoholism, nicotine use and addiction, and/or drug use, drug dependency, and/or drug addiction. Rehabilitation services may be provided individually or in group sessions, and they take the format of an agency-approved, curriculum-based education and skills training. This service is to be provided to the member by a certified behavioral health case manager (CM) II, certified alcohol drug counselor (CADC) or LBHP.

(F) Psychosocial rehabilitation (PSR).

(i) Definition. PSR services are face-to-face behavioral health rehabilitation services which are necessary to improve the member's ability to function in the community. They are performed to improve the skills and abilities of members to live independently in the community, improve self-care and social skills, and promote lifestyle change and recovery practices. Rehabilitation services may be provided individually or in group sessions, and they take the format of an agency-approved, curriculum-based education, and skills training.

(ii) Clinical restrictions. This service is generally performed with only the member and the qualified provider, but may also include a member and the member's family/support system group that focuses on the member's diagnosis, symptom management, and recovery based curriculum. A member who, at the time of service, is not able to cognitively benefit from the treatment due to active hallucinations and/or substance use, or other impairments is not suitable for this service. Family involvement is allowed for support of the member and education regarding his/her recovery, but does not constitute family therapy, which requires an LBHP or licensure candidate.

(iii) Qualified practitioners. A CM II, an LBHP, or a licensure candidate may perform PSR, following development of an IPC curriculum approved by an LBHP or licensure candidate. The CM II must have immediate access to an LBHP who can provide clinical oversight of the CM II and collaborate with the CM II in the provision of services. A minimum of one (1) monthly face-to-face consultation with an LBHP is required.

(iv) Group sizes. The maximum staffing ratio is eight (8) members to one (1) practitioner for members under the age of twenty-one (21).

(v) Limitations.

(I) In order to develop and improve the member's community and interpersonal functioning and self-care abilities, PSR services may take place in settings away from the behavioral health agency site as long as the setting protects and assures confidentiality. When this occurs, the qualified provider must be present and interacting, teaching, or supporting the defined learning objectives of the member for the entire claimed time.

(II) PSR services are intended for children with Serious Emotional Disturbance (SED), and children with moderate behavioral and emotional health needs who may also have a secondary physical, developmental, intellectual, and/or social disorder that is supported alongside the mental health needs. Members, ages four (4) and five (5), are not eligible for PSR services unless a prior authorization has been granted by OHCA or its designated agent based on a finding of medical necessity.

(III) PSR services are time-limited services designed to be provided over the briefest and most effective period possible and as adjunct (enhancing) interventions to complement more intensive behavioral health therapies. Service limits are based on the member's needs according to the Client Assessment Record (CAR) or other approved tools. Service limitations are designed to maximize efficacy by remaining within reasonable age and developmentally appropriate daily limits.

(vi) Progress notes. In accordance with OAC 317:30-5-241.1, the behavioral health IPC developed by the LBHP or licensure candidate must include the member's strengths, functional assets, weaknesses or liabilities, treatment goals, objectives, and methodologies that are specific and time-limited, and defines the services to be performed by the practitioners and others who comprise the treatment team. When PSR services are prescribed, the plan must address objectives that are specific, attainable, realistic, measurable, and time-limited. The plan must include the appropriate treatment coordination to achieve the maximum reduction of the moderate behavioral and emotional health conditions, and any other secondary physical, developmental, intellectual, and/or social disorder and to restore the member to his or her best possible functional level. Progress notes for PSR services must include:

(I) Start and stop times for each day attended and the physical location in which the service was rendered;

(II) Specific goal(s) and objectives addressed during the session/group;

- (III) Type of skills training provided each day and/or during the week including the specific curriculum used with the member;
 - (IV) Member satisfaction with staff intervention(s);
 - (V) Progress, towards attaining, or barriers affecting the attainment of, goals and objectives;
 - (VI) New goal(s) or objective(s) identified;
 - (VII) Dated signature of the qualified provider; and
 - (VIII) Credentials of the qualified provider.
- (vii) **Additional documentation requirements.** Documentation of ongoing consultation and/or collaboration with an LBHP or licensure candidate related to the provision of PSR services.
- (G) **Therapeutic behavioral services (TBS).** Goal directed social skills redevelopment activities for each member to restore, retain, and improve the self-help, communication, socialization, and adaptive skills necessary to reside successfully in home and community based settings. These will be daily activities that are age appropriate, culturally sensitive, and relevant to the goals of the IPC. These may include self-esteem enhancement, violence alternatives, communication skills, or other related skill development. This service is to be provided to the member by the treatment parent specialist (TPS). Services rendered by the TPS are limited to one and one half (1.5) hours daily.

317:30-5-743.1. Service Quality Reviewquality review (SQR)

There will be an ~~on-site~~ Service Quality Review (SQR) performed by the ~~OHCA~~Oklahoma Health Care Authority (OHCA) or its designated agent of each ~~Therapeutic Foster Care (TFC)~~TFC agency that provides care to members. The OHCA will designate the members of the ~~SQR Team~~team. This team will consist of at least two ~~(2)~~ team members and will be comprised of ~~Licensed Behavioral Health Professionals and/or Registered Nurses~~licensed behavioral health professionals (LBHPs) and/or registered nurses (RNs). The SQR will consist of a survey of current members receiving services, as well as members for which claims have been filed with OHCA for TFC services. Observation and contact with members may be incorporated. The review includes validation of certain factors, all of which must be met for the services to be compensable. Following the ~~on-site inspection~~review, the ~~SQR Team~~team will report its findings to the ~~TFC~~ agency. The ~~TFC~~ agency will be provided with written notification if the findings of the SQR have resulted in any deficiencies. A copy of the final report will be sent to the ~~TFC~~ agency's accrediting body. Deficiencies found during the SQR may result in a recoupment of the compensation received for that service. The individual plan of care (IPC) is considered to be critical to the integrity of care and treatment and must be completed within the ~~time lines~~timelines designated at ~~OAC~~Oklahoma Administrative Code (OAC) 317:30-5-742.2. If the individual

~~plan of care~~IPC is missing, or it is found that the ~~child~~member did not meet medical necessity criteria at any time, all paid services will be recouped for each day the ~~individual plan of care~~IPC was missing from the date the plan of care was due for completion or the date from which medical necessity criteria was no longer met.

317:30-5-744. Billing

- (a) Claims must be submitted in accordance with guidelines found at ~~OAC~~Oklahoma Administrative Code (OAC) 317:30-3-11 and, 317:30-3-11.1, and 317:30-3-20.
- (b) Claims for dually eligible individuals (Medicare/Medicaid) should be filed directly with the ~~OHCA~~Oklahoma Health Care Authority (OHCA).

317:30-5-745. Documentation of records

~~All services must be reflected by documentation in the records including the date the service was provided, the beginning and ending time the service was provided, the location in which the service was provided, a description of the resident's response to the service and whether the service provided was an individual, group or family session, group rehabilitative treatment, social skills (re)development, basic living skills (re)development, crisis behavior management and redirection, or discharge planning, and the dated signature with credentials of the person providing the service.~~

Providers must maintain an appropriate records system. Current individual plans of care, case files, and progress notes are maintained in the provider's files during the time the member is receiving services. All services must be reflected by documentation in the records. Documentation of services must include all of the following:

- (1) The date the service was provided;
- (2) The beginning and ending time the service was provided;
- (3) A description of the member's response to the service;
- (4) The type of service provided (individual, group, or family session; group rehabilitative treatment; social skills (re)development; basic living skills (re)development; crisis behavior management and redirection; or discharge planning); and
- (5) The dated signature with credentials of the person providing the service. If the service is performed by a licensure candidate, it must be countersigned by the licensed behavioral health professional (LBHP) who is responsible for the member's care. Refer to Oklahoma Administrative Code (OAC) 317:30-5-742.2. (2)(A).

317:30-5-746. Appeal of Prior Authorization DecisionPrior authorization and appeal of prior authorization decision

If a denial decision is made, an appeal may be initiated by the member or the member's legal guardian. The denial can be appealed to the Oklahoma Health Care Authority within thirty (30) calendar days of the receipt of the notification of the denial by the OHCA or its designated agent.

(a) All behavioral health services must be prior authorized by the Oklahoma Health Care Authority (OHCA) or its designated agent before the service is rendered by an eligible provider. Without prior authorization, payment is not authorized.

(b) If a denial decision is made, an appeal may be initiated by the member or the member's legal guardian. The denial can be appealed to the OHCA within thirty (30) calendar days of the receipt of the notification of the denial by the OHCA or its designated agent.

PART 84. INTENSIVE TREATMENT FAMILY CARE

317:30-5-750. Definitions

The following words or terms used in this Part shall have the following meaning, unless the context clearly indicates otherwise:

"Intensive treatment family care (ITFC) agency" means an agency that provides foster care as defined in Section 1355.20 of Title 45 of the Code of Federal Regulation, as twenty-four (24) hour substitute care for children placed away from their parents or guardians and for whom the title IV-E agency has placement and care responsibility. ITFC settings are foster family homes.

"Intensive treatment family care (ITFC) home" means an agency-supervised, private family home in which foster parents [at least one (1) parent must be a stay-at home parent] have been trained to provide individualized, structured services in a safe, nurturing family-living environment. These services are provided to children with severe behavioral and emotional health needs. They may also present a secondary physical, developmental, intellectual, and/or social disorder that is supported alongside the mental health needs of the member. These members require a higher level of care that cannot be provided in the traditional foster care or TFC home. ITFC homes provide the higher level of care needed for these children and help prevent placement in a more restrictive setting, including an inpatient setting.

"Intensivetreatment family care (ITFC) model" means a model in which children in the ITFC environment receive intensive individualized behavioral health and other support services from qualified staff. Because ITFC members require exceptional levels of skill, time, and supervision, the number of unrelated children placed per home is limited; no more than one (1) ITFC member may be placed in a home at any one (1) time unless additional cases are specifically authorized by Child Welfare Services (CWS) of the Oklahoma Department of Human Services (OKDHS), or Oklahoma Office of Juvenile Affairs (OJA).

317:30-5-750.1. Eligible providers and requirements

(a) **ITFC agency.** Eligible ITFC agencies must have:

(1) Current certification from the Oklahoma Department of Human Services (OKDHS) as a child placing agency;

(2) A contract with the Child Welfare Division of OKDHS, or Oklahoma Office of Juvenile Affairs (OJA);

(3) A contract with the Oklahoma Health Care Authority (OHCA); and

(4) A current accreditation status appropriate to provide behavioral health services in a foster care setting from:

(A) The Joint Commission; or

(B) The Commission on Accreditation of Rehabilitative Facilities (CARF); or

(C) The Council on Accreditation (COA).

(b) **Treatment team.** ITFC agencies are primarily responsible for treatment planning and coordination of the member's treatment team. This team is typically composed of an OKDHS or OJA caseworker, the member, the member's foster parent(s), as well as others closely involved with the member and family, including the biological parents when applicable.

(1) The team must include the following providers:

(A) **Licensed behavioral health professional (LBHP).** A master's level professional who provides treatment and supervises other treatment staff in maintaining clinical standards of care and providing direct clinical services. In addition to the requirements at OAC 317:30-5-240.3(a), the LBHP in an ITFC setting must demonstrate a general professional or educational background in the following areas:

(i) Case management, assessment, and treatment planning;

(ii) Treatment of victims of physical, emotional, and sexual abuse;

(iii) Treatment of children with attachment disorders;

(iv) Treatment of children with hyperactivity or attention deficit disorders;

(v) Treatment methodologies for emotionally disturbed children;

(vi) Normal childhood development and the effect of abuse and/or neglect on childhood development;

(vii) Anger management;

(viii) Crisis intervention; and

(ix) Trauma-informed methodology.

(B) **Treatment parent specialist (TPS).** The TPS serves as an integral member of the team of professionals providing services for the members. The TPS receives extensive training in diagnosed mental health issues, and behavior management/modification and skill-based parenting techniques; and implements the in-home portion of the treatment plan with close supervision and support. The TPS renders services for the member, provides or arranges suitable transportation for therapy and other treatment appointments, writes daily detailed notes regarding interventions and practical applications of learned skills, and attends treatment team meetings. The TPS must be under the supervision of an LBHP of the ITFC agency and meet the following criteria:

(i) **Qualifications.**

(I) Have a high school diploma or equivalent, and either some post-secondary education and/or a combination of at least two (2) years of personal/professional experience working with children with significant needs;

(II) Have an employment and/or contractual relationship with the ITFC agency as a foster parent, and have successfully met all required background screening requirements, including, but not limited to, fingerprint screenings conducted by the Oklahoma State Bureau of Investigation (OSBI) and Federal Bureau of Investigation (FBI), and OKDHS background screenings;

(III) Completed all evidence-informed ITFC foster parent training, as outlined in this Section;

(IV) Complete a minimum of twenty (20) hours of required annual continuing education trainings. Six (6) hours of the twenty (20) training hours must be clinical in nature;

(V) Agree to have at least one (1) parent in the ITFC home serve as a full-time, stay-at-home parent in order to sufficiently meet the significant needs of the member placed in the ITFC home; and

(ii) **Responsibilities.**

(I) Have a minimum of twice monthly face-to-face supervision with the LBHP, independent of the member's family therapy;

(II) Have weekly contact with the ITFC agency professional staff;

(III) Utilize individualized curriculum-based education and support materials with the member to support the member's skill development outside of the clinical setting;

(IV) Agree, by contract with the ITFC agency, to serve the member in his or her ITFC home through completion of the treatment designated on his or her individual plan of care (IPC), and without disruption to the service array; and

(V) Work with the multidisciplinary team and the member's biological family toward reunification, if appropriate, or other permanency plan.

(2) The team may also include the following providers:

(A) **Certified alcohol and drug counselor (CADC).** A bachelor's level team member with a current certification as a CADC in the state in which services are provided.

(B) **Certified behavioral health case manager (CM) II.** A bachelor's level team member who may provide support services and case management. In addition to the minimum requirements at Oklahoma Administrative Code (OAC) 317:30-5-240.3(h)(1), the CM II must:

(i) Have a minimum of one (1) year of experience in providing direct care and/or treatment to children and/or families; and

(ii) Have access to weekly consultation with a licensed behavioral health professional (LBHP).

(iii) The CM II must also follow requirements at OAC 317:30-5-241.3 for providing psychosocial rehabilitation (PSR) services.

(C) **Licensed psychiatrist and/or psychologist.** ITFC agencies must provide staff with access to professional psychiatric or psychological consultation as deemed necessary for the planning, implementation, and appropriate management of the member's treatment. See OAC 317:30-5-240.3(a) and 317:25-7-5.

(c) **Agency assurances.** The ITFC agency must ensure that each individual who renders treatment services meets the minimum provider qualifications for the service and is fully contracted with the OHCA. Additionally, the ITFC agency must comply with all state and federal Medicaid law, including, but not limited to, OHCA administrative rules, the Code of Federal Regulations (C.F.R.), and the Oklahoma State Medicaid Plan.

(d) **Policies and procedures.** Eligible ITFC agencies shall have written policies and procedures for the orientation of new staff and foster parents which is reviewed and updated annually, for the following:

(1) Pre-service training of foster parents in treatment methodologies and service needs of emotionally and behaviorally disturbed children;

(2) Treatment of victims of physical, emotional, and sexual abuse;

(3) Treatment of children with attachment disorders;

(4) Treatment of children with hyperactive or attention deficit disorders;

(5) Normal childhood development and the effect of abuse and/or neglect on childhood development;

(6) Treatment of children and families with substance use disorders;

(7) The Inpatient Mental Health and Substance Abuse Treatment of Minors Act;

(8) Anger management;

(9) Inpatient authorization procedures;

(10) Crisis intervention;

(11) Grief and loss issues for children in foster care;

(12) The significance/value of birth families to children receiving behavioral health services in a foster care setting; and

(13) Trauma-informed methodology.

317:30-5-750.2. Provider selection

Parents who retain legal custody of an ITFC member may select any eligible ITFC agency as the provider of services. In the case of members in the custody of the State of Oklahoma, the State, acting in its custodial role, selects the ITFC agency.

317:30-5-751. Coverage by category

(a) **Adults.** Behavioral health services in ITFC settings are not covered for adults.

(b) **Children.** Behavioral health services are allowed in ITFC settings for children under twenty-one (21) as medically necessary. Members receiving services in this setting have severe behavioral and emotional health needs and may also present a secondary physical, developmental, intellectual, and/or social disorder that is supported alongside the mental health needs. ITFC homes provide the higher level of care needed for these children and help prevent placement in an inpatient or more restrictive setting. The designated members must continually meet medical necessity criteria to be eligible for coverage in this setting. Requests for behavioral health services in an ITFC setting must be prior authorized and may be approved up to a maximum of three (3) month extensions.

(c) **Medical necessity criteria.** In order to satisfy medical necessity criteria, all of the following conditions must be met:

(1) The member must have a diagnosis from the Diagnostic and Statistical Manual of Mental Disorders (DSM-V), with the exception of V codes and adjustment disorders, with a detailed description of the symptoms supporting the diagnosis. Members with a provisional diagnosis may receive ITFC services for a maximum of thirty (30) days.

(2) An assessment must be completed by a licensed behavioral health professional (LBHP) as defined in Oklahoma Administrative Code (OAC) 317:30-5-240.3(a) within the thirty (30) day provisional period described above, that confirms a diagnosis from the DSM-V with the exception of V codes and adjustments disorders, and that includes a detailed description of the symptoms supporting the diagnosis to continue treatment in an ITFC setting.

(3) Conditions are directly attributed to a primary medical diagnosis of a severe behavioral and emotional health need, and may also be attributed to a secondary medical diagnosis of a physical, developmental, intellectual and/or social disorder that is supported alongside the mental health needs.

(4) The current disabling symptoms could not have been/have not been manageable in a less intensive treatment program, or the level of care is warranted in order to reduce the risk of regression of symptoms and/or sustain the gains made at a higher level of care.

(5) Evidence that the members' needs prohibit full integration in a family/home setting without the availability of twenty-four (24) hour crisis response/behavior management and intensive clinical interventions from professional staff, preventing the member from living in a traditional or therapeutic foster home.

(6) The member is medically stable and not actively suicidal or homicidal and not in need of substance abuse detoxification services.

(7) The legal guardian [Oklahoma Department of Human Services (OKDHS)/Oklahoma Office of Juvenile Affairs (OJA) if custody member] or parent of the member agrees to actively participate in the member's treatment needs and planning.

317:30-5-752. Description of services

(a) Treatment services must be provided in the least restrictive, non-institutional therapeutic environment. The ITFC setting is restorative in nature, allowing members with severe behavioral and emotional health needs, who may also present a secondary physical, developmental, intellectual, and/or social disorder that is supported alongside the mental health needs, to develop the necessary control to function in a less restrictive setting.

(b) Behavioral health services must include an individual plan of care (IPC) for each member served. The IPC requirements are set out in Oklahoma Administrative Code (OAC) 317:30-5-753.

(c) Treatment services in an ITFC must include at least two (2) hours of individual, family, and/or group therapy per week, as set forth in OAC 317:30-5-753(3). Treatment may also include, but is not limited to, an array of the following services:

- (1) Substance abuse/chemical dependency education, prevention, and therapy;
- (2) Psychosocial rehabilitation and support services;
- (3) Behavior management;
- (4) Crisis intervention; and
- (5) Case management.

317:30-5-753. Individual plan of care (IPC) requirements

All behavioral health services in an ITFC setting are provided as a result of an individual assessment of the member's needs and documented in the IPC.

(1) Assessment.

(A) **Definition.** Gathering and assessment of historical and current bio-psychosocial information which includes face-to-face contact with the member and the member's foster parent(s) or legal guardian or other person, including biological parent(s) when applicable, who have pertinent information about the member resulting in a written summary report, diagnosis, and recommendations. All ITFC agencies must assess each individual to determine whether they could be an appropriate candidate for ITFC services.

(B) **Qualified professional.** This service is performed by a licensed behavioral health professional (LBHP).

(C) **Limitations.** Assessments are compensable on behalf of a member who is seeking services for the first time from the ITFC agency. This service is not compensable if the member has previously received or is currently receiving services from the agency, unless there has been a gap in service of more than six (6) months and it has been more than one (1) year since the previous assessment.

(D) **Documentation requirements.** The assessment must include all elements and tools required by the Oklahoma Health Care Authority (OHCA). In the case of members under the age of eighteen (18), it is performed with the direct, active, face-to-face participation of the member and foster parent(s) or

legal guardian or other persons, including biological parent(s) when applicable. The member's level of participation is based on age, developmental, and clinical appropriateness. The assessment must include all related diagnoses from the Diagnostic and Statistical Manual of Mental Disorders (DSM-V). The assessment must contain, but is not limited to, the following:

- (i) Date, including month, day, and year of the assessment session(s);
- (ii) Source of information;
- (iii) Member's first name, middle initial, and last name;
- (iv) Gender;
- (v) Birth date;
- (vi) Home address;
- (vii) Telephone number;
- (viii) Referral source;
- (ix) Reason for referral;
- (x) Person to be notified in case of emergency;
- (xi) Presenting reason for seeking services;
- (xii) Start and stop time for each unit billed;
- (xiii) Dated signature of foster parent(s) or legal guardian [Oklahoma Department of Human Services (OKDHS) or Oklahoma Office of Juvenile Affairs (OJA)] or other persons, including biological parent(s) (when applicable) participating in the face-to-face assessment. Signatures are required for members fourteen (14) years of age and over;
- (xiv) Bio-psychosocial information, which must include:

- (I) Identification of the member's strengths, needs, abilities, and preferences;
- (II) History of the presenting problem;
- (III) Previous psychiatric treatment history, including treatment of psychiatric issues, substance use, drug and alcohol addiction, and other addictions;
- (IV) Health history and current biomedical conditions and complications;
- (V) Trauma, abuse, neglect, violence, and/or sexual assault history of self and/or others, including OKDHS involvement;
- (VI) Family and social history, including psychiatric, substance use, drug and alcohol addiction, other addictions, and trauma/abuse/neglect;
- (VII) Educational attainment, difficulties, and history;
- (VIII) Cultural and religious orientation;
- (IX) Vocational, occupational, and military history;
- (X) Sexual history, including human immunodeficiency virus (HIV), acquired immune deficiency syndrome (AIDS), other sexually transmitted diseases (STDs), and at-risk behaviors;

(XI) Marital or significant other relationship history;

(XII) Recreation and leisure history;

(XIII) Legal or criminal record, including the identification of key contacts (e.g. attorneys, probation officers);

(XIV) Present living arrangements;

(XV) Economic resources; and

(XVI) Current support system, including peer and other recovery supports.

(xv) Mental status and level of functioning information, including, but not limited to, questions regarding the following:

(I) Physical presentation, such as general appearance, motor activity, attention, and alertness;

(II) Affective process, such as mood, affect, manner, and attitude;

(III) Cognitive process, such as intellectual ability, social-adaptive behavior, thought processes, thought content, and memory; and

(IV) All related diagnoses from the DSM-V.

(xvi) Pharmaceutical information for both current and past medications, to include the following:

(I) Name of medication;

(II) Strength and dosage of medication;

(III) Length of time on the medication; and

(IV) Benefit(s) and side effects of medication.

(xvii) LBHP's interpretation of findings and diagnosis; and

(xviii) Dated signature and credentials of the LBHP who performed the face-to-face behavioral assessment.

(2) IPC requirements.

(A) Signature requirement. A written IPC following a comprehensive evaluation for each member must be formulated by the ITFC agency staff within thirty (30) days of admission to the program with documented input from the member, the legal guardian (OKDHS/OJA), the foster parent(s), the treatment provider(s), and the biological parent(s) when applicable. An IPC is not valid until all dated signatures are present, including signatures from the member [if fourteen (14) years of age and over], the legal guardian, the foster parent, and the treatment provider(s). This plan must be reviewed every thirty (30) days with documented involvement of the legal guardian and member. The review includes an evaluation of the member's progress in the treatment setting, as well as in other environments, such as home, school, social engagements, etc.

(B) Individualization. The IPC must be individualized and take into account the member's age, history, diagnosis, functional levels, culture, and the effect of past and current traumatic experiences in

the life of the member. It includes the member's documented diagnosis, appropriate goals, corresponding reasonable and attainable treatment objectives, and action steps within the expected timelines. Each member's IPC needs to address the ITFC agency's plans with regard to the provision of services. Each plan of care must clearly identify the type of services required to meet the member's treatment needs and frequency over a given period of time.

(C) **Qualified professional.** This service is performed by an LBHP.

(D) **Time requirements.** IPC updates must be conducted face-to-face and are required at least every ninety (90) days during active treatment. However, updates can be conducted whenever it is clinically needed, as determined by an LBHP. Updates should reflect changes to treatment based on the members' progress or lack thereof.

(E) **Documentation requirements.** Comprehensive and integrated service plan content must address the following:

- (i) Member strengths, needs, abilities, and preferences (SNAP);
- (ii) Identified presenting challenges, problems, needs and diagnosis;
- (iii) Specific goals for the member;
- (iv) Objectives that are specific, attainable, realistic, and time-limited;
- (v) Each type of service and estimated frequency to be received;
- (vi) The name and credentials of all the practitioners who will be providing and responsible for each service;
- (vii) Any needed referrals for service;
- (viii) Specific discharge criteria; and
- (ix) Description of the member's involvement in, and responses to, the treatment plan, and his/her signature and date [if fourteen (14) years of age and older].

(F) **Amendments and updates.** Amendment of an existing IPC to revise or add goals, objectives, service provider(s), service type, and service frequency must be documented in the existing IPC through an addendum until the review/update is due. Any changes must, prior to implementation, be signed and dated by the member [if fourteen (14) years of age and over], the legal guardian, the foster parent, as well as the primary LBHP and any new provider(s). IPC updates must address the following:

- (i) Update to the bio-psychosocial assessment, re-evaluation of diagnosis, and IPC goals and/or objectives;
- (ii) Progress, or lack of, on previous IPC goals and/or objectives;
- (iii) A statement documenting a review of the current IPC, and, if no changes are needed, an explanation and a statement addressing the status

of identified problem behaviors that led to ITFC placement must be included;

(iv) Change in goals and/or objectives (including target dates) based upon member's progress or identification of new needs, challenges, and problems;

(v) Change in frequency and/or type of services provided;

(vi) Change in practitioner(s) who will be responsible for providing services on the plan;

(vii) Change in discharge criteria; and

(viii) Description of the member's involvement in, and responses to, the treatment plan, and his/her signature and date [if fourteen (14) years of age and older].

(3) **Description of services.** Agency services include:

(A) **Individual, family, and/or group therapy.** See OAC 317:30-5-241.2(a), (b), and (c). The number of units of individual, family, and/or group therapy within the ITFC setting differ from the number of units available in the outpatient setting. A member must receive two (2) hours of individual, family, and/or group therapy each week that is provided by an LBHP, and may receive up to three (3) hours each week, if medically needed.

(B) **Crisis intervention.** The provider agency must provide crisis intervention by ITFC agency staff as needed twenty-four (24) hours per day, seven (7) days per week. The agency must ensure staff is available to respond to the ITFC foster parent(s) in a crisis to stabilize a member's behavior and prevent placement disruption. This service is to be provided to the member by an LBHP.

(C) **Discharge planning.** The ITFC agency must develop a discharge plan for each member. The discharge plan must be individualized, member-specific, and include an after-care plan that is appropriate to the member's needs, identifies the member's needs, includes specific recommendations for follow-up care, and outlines plans that are in place at the time of discharge. The plan for members in parental custody must include, when appropriate, reunification plans with the parent(s)/legal guardian. The plan for members who remain in the custody of OKDHS or OJA must be developed in collaboration with the case worker and be finalized at the time of discharge. The discharge plan is to include, at a minimum, recommendations for continued treatment services, educational services, and other appropriate community resources. Appointments for outpatient therapy and medication management (when applicable) should be scheduled prior to discharge. Discharge planning provides a transition from ITFC placement into a lesser restrictive setting within the community. Discharge planning is performed in partnership between Child Welfare Services (CWS) of the Oklahoma Department of Human Services (OKDHS) and an LBHP within the ITFC agency.

(D) **Substance use/chemical dependency use therapy.** Substance use/chemical dependency therapy can be provided if a member is identified by diagnosis or documented social history as having emotional or behavioral problems directly related to substance use and/or chemical dependency. The modalities employed are provided in order to begin, maintain, and/or enhance recovery from problem drinking, alcoholism, nicotine use and addiction, and/or drug use, drug dependency, and/or drug addiction. This service is provided to the member by an LBHP.

(E) **Substance use rehabilitation services.** Covered substance use rehabilitation services are provided in non-residential settings in regularly scheduled sessions intended for individuals not requiring a more intensive level of care or those who require continuing services following more intensive treatment regimes. The purpose of substance use rehabilitation services is to begin, maintain, and/or enhance recovery from problem drinking, alcoholism, nicotine use and addiction, and/or drug use, drug dependency, and/or drug addiction. Rehabilitation services may be provided individually or in group sessions, and they take the format of an agency-approved, curriculum-based education and skills training. This service is provided to the member by a certified behavioral health case manager (CM) II, a certified alcohol drug counselor (CADC), or an LBHP.

(F) **Psychosocial rehabilitation (PSR).**

(i) **Definition.** PSR services are face-to-face behavioral health rehabilitation services which are necessary to improve the member's ability to function in the community. They are performed to improve the skills and abilities of members to live independently in the community, improve self-care and social skills, and promote lifestyle change and recovery practices. Rehabilitation services may be provided individually or in group sessions, and they take the format of an agency-approved, curriculum-based education and skills training.

(ii) **Clinical restrictions.** This service is generally performed with only the member and the qualified provider, but may also include the member's family/support system group that focuses on the member's diagnosis, symptom management, and recovery-based curriculum. A member who, at the time of service, is not able to benefit from the treatment due to active hallucinations and/or substance use, or other impairment, is not suitable for this service. Family involvement is allowed for support of the member and education regarding his/her recovery, but does not constitute family therapy, which requires an LBHP.

(iii) **Qualified practitioners.** A CM II or an LBHP may perform PSR, following development

of an IPC curriculum. The CM II must have immediate access to an LBHP who can provide clinical oversight of the CM II and collaborate with the CM II in the provision of services. A minimum of one (1) monthly face-to-face consultation with an LBHP is required.

(iv) **Group sizes.** The maximum staffing ratio is eight (8) members to one (1) service provider for members under the age of twenty-one (21).

(v) **Limitations.**

(I) In order to develop and improve the member's community and interpersonal functioning and self-care abilities, PSR services may take place in settings away from the behavioral health agency site as long as the setting protects and assures confidentiality. When this occurs, the qualified provider must be present and interacting, teaching, or supporting the defined learning objectives of the member for the entire claimed time.

(II) PSR services are intended for members with Serious Emotional Disturbance (SED), and members with severe behavioral and emotional health needs who may also have a secondary physical, developmental, intellectual, and/or social disorder that is supported alongside the mental health needs. Members, ages four (4) and five (5), are not eligible for PSR services unless a prior authorization has been granted by OHCA or its designated agent, based on a finding of medical necessity.

(III) PSR services are time-limited services designed to be provided over the briefest and most effective period possible and as adjunct (enhancing) interventions to complement more intensive behavioral health therapies. Service limits are based on the member's needs according to the Client Assessment Record (CAR) or other approved tools. Service limitations are designed to maximize efficacy by remaining within reasonable age and developmentally appropriate daily limits.

(vi) **Progress notes.** In accordance with OAC 317:30-5-241.1, the behavioral health IPC developed by the LBHP must include the member's strengths, functional assets, weaknesses or liabilities, treatment goals, objectives, and methodologies that are specific and time-limited, and defines the services to be performed by the practitioners and others who comprise the treatment team. When PSR services are prescribed, the plan must address objectives that are specific, attainable, realistic, measurable, and time-limited. The plan must include the appropriate treatment coordination to achieve the maximum reduction of the severe behavioral and emotional health conditions, and any other secondary physical, developmental, intellectual, and/or social disorders and to restore

the member to his or her best possible functional level. Progress notes for PSR services must include:

- (I) Start and stop times for each day attended and the physical location in which the service was rendered;
 - (II) Specific goal(s) and objectives addressed during the session/group;
 - (III) Type of skills training provided each day and/or during the week including the specific curriculum used with the member;
 - (IV) Member satisfaction with staff intervention(s);
 - (V) Progress towards attaining, or barriers affecting the attainment of, goals and objectives;
 - (VI) New goal(s) or objective(s) identified;
 - (VII) Dated signature of the qualified provider; and
 - (VIII) Credentials of the qualified provider.
- (vii) **Additional documentation requirements.** Documentation of ongoing consultation and/or collaboration with an LBHP related to the provision of PSR services.

(G) **Therapeutic behavioral services (TBS).** Goal-directed social skills redevelopment activities for each member to restore, retain, and improve the self-help, communication, socialization, and adaptive skills necessary to reside successfully in home and community based settings. These will be daily activities that are age appropriate, culturally sensitive, and relevant to the goals of the IPC. These may include self-esteem enhancement, violence alternatives, communication skills, or other related skill development. This service is to be provided to the member by the treatment parent specialist (TPS). Services rendered by the TPS are limited to one and a half (1.5) hours daily.

317:30-5-754. Service quality review (SQR)

(a) Providers must maintain an appropriate records system. Current individual plans of care, case files, and progress notes are maintained in the provider's files during the time the member is receiving services. All services must be reflected by documentation in the records. Documentation of services must include all of the following:

- (1) The date the service was provided;
- (2) The beginning and ending time the service was provided;
- (3) A description of the member's response to the service;
- (4) The type of service provided (individual, group, or family session; group rehabilitative treatment; social skills (re)development; basic living skills (re)development; crisis behavior management and redirection; or discharge planning); and
- (5) The dated signature with credentials of the person providing the service.

(b) There will be an SQR review performed by the Oklahoma Health Care Authority (OHCA) or its designated agent of each ITFC agency that provides care to members. The OHCA will designate the members of the SQR team. This team will consist of at least two (2) team members and will be comprised of licensed behavioral health professionals (LBHPs) and/or registered nurses (RNs). The SQR will consist of a survey of current members receiving services, as well as members for which claims have been filed with OHCA for ITFC services. Observation and contact with members may be incorporated. The review includes validation of certain factors, all of which must be met for the services to be compensable. Following the review, the SQR team will report its findings to the ITFC agency. The ITFC agency will be provided with written notification if the findings of the SQR have resulted in any deficiencies. A copy of the final report will be sent to the ITFC agency's accrediting body. Deficiencies found during the SQR may result in a recoupment of the compensation received for that service. The individual plan of care (IPC) is considered to be critical to the integrity of care and treatment and must be completed within the timelines designated at Oklahoma Administrative Code (OAC) 317:30-5-753. If the IPC is missing, or it is found that the member did not meet medical necessity criteria at any time, all paid services will be recouped for each day the IPC was missing from the date the plan of care was due for completion or the date from which medical necessity criteria was no longer met.

317:30-5-755. Billing

- (a) Claims must be submitted in accordance with guidelines found at Oklahoma Administrative Code (OAC) 317:30-3-11, 317:30-3-11.1 and 317:30-3-20.
- (b) Claims for dually eligible individuals (Medicare/Medicaid) should be filed directly with the Oklahoma Health Care Authority (OHCA).

317:30-5-756. Reimbursement

- (a) ITFC services will be paid at the current fee-for-service (FFS) rate. Services provided to a member without a written individual plan of care (IPC) as described in Oklahoma Administrative Code (OAC) 317:30-5-753 will not be reimbursed.
- (b) Additional services may require prior authorization by the OHCA, or its designated agent. Refer to OAC 317:30-3-31. Documentation must be provided to ensure that services are not duplicative. If additional services are approved for a member in state custody, the Oklahoma Department of Human Services (OKDHS), or Oklahoma Office of Juvenile Affairs (OJA) will collaborate with the provider of such services as directed by the OHCA.
- (c) Reimbursement for ITFC services is not available for the following:
 - (1) Room and board;
 - (2) Educational costs;
 - (3) Supported employment;
 - (4) Inpatient psychiatric services;
 - (5) Respite care;
 - (6) Day treatment services;

Permanent Final Adoptions

(7) Partial hospitalization services; and

(8) Intensive outpatient services.

(d) Case management services are reimbursed to government providers as per the methodology in the approved Medicaid State Plan.

317:30-5-757. Prior authorization and appeal of prior authorization decision

(a) All behavioral health services must be prior authorized by the Oklahoma Health Care Authority (OHCA) or its designated agent before the service is rendered by an eligible provider. Without prior authorization, payment is not authorized.

(b) If a denial decision is made, an appeal may be initiated by the member or the member's legal guardian. The denial can be appealed to the OHCA within thirty (30) calendar days of the receipt of the notification of the denial by the OHCA or its designated agent.

GIST/ANALYSIS:

The proposed revisions will comply with Senate Bill (SB) 509, which was signed into law on April 16, 2019. SB 509 directed the OHCA to revise current step therapy protocols for medications approved by the Drug Utilization Review (DUR) Board and provide for exceptions to the drug step therapy protocol. The exception applies to cases when: the required prescribed drug will likely cause an adverse reaction or harm; the prescription drug will likely be ineffective; the patient has already tried the prescription drug and discontinued use; the prescription drug is not in the best interest of the patient; or the patient is stable on another prescription drug. Further, revisions will establish an appeals process for step therapy exception requests that have been denied. Other revisions are needed to correct outdated language. These rules are currently in place as emergency rules.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 5. PHARMACIES

317:30-5-77.2. Prior authorization

(a) **Definition.** The term prior authorization in pharmacy means an approval for payment by ~~OHCA~~the Oklahoma Health Care Authority (OHCA) to the pharmacy before a prescription is dispensed by the pharmacy. An updated list of all products requiring prior authorization is available at the agency's website.

(b) **Process.** Because of the required interaction between a prescribing provider (such as a physician) and a pharmacist to receive a prior authorization, OHCA allows a pharmacist up to thirty (30) calendar days from the point of sale notification to provide the data necessary for OHCA to make a decision regarding prior authorization. Should a pharmacist fill a prescription prior to the actual authorization he/she takes a business risk that payment for filling the prescription will be denied. In the case that information regarding the prior authorization is not provided within the thirty (30) days, claims will be denied.

(c) **Documentation.** Prior authorization petitions with clinical exceptions must be mailed or faxed to the Medication Authorization Unit of OHCA's contracted prior authorization processor. Other authorization petitions, claims processing questions and questions pertaining to ~~DUR~~Drug Utilization

Review (DUR) alerts must be addressed by contacting the pharmacy help desk. Authorization petitions with complete information are reviewed and a response returned to the dispensing pharmacy within twenty-four (24) hours. Petitions and other claim forms are available on the OHCA public website.

(d) **Emergencies.** In an emergency situation, the OHCA will authorize a seventy-two (72) hour supply of medications to a member. The authorization for a seventy-two (72) hour emergency supply of medications does not count against the SoonerCare limit described in OAC 317:30-5-72(a)(1).

(e) **Utilization and scope.** There are three (3) reasons for the use of prior authorization: utilization controls, scope controls and product based controls. ~~Product based prior authorizations is~~ Product-based prior authorizations, including step therapy protocols as defined by Section 7310(A)(4) of Title 63 of the Oklahoma Statutes, are covered in OAC 317:30-5-77.3. The ~~Drug Utilization Review~~DUR Board recommends the approved clinical criteria and any restrictions or limitations.

(1) **Utilization controls.** Prior authorizations that fall under this category generally apply to the quantity of medication or duration of therapy approved.

(2) **Scope controls.** Scope controls are used to ensure a drug is used for an approved indication and is clinically appropriate, medically necessary and cost effective.

(A) Medications which have been approved by the ~~FDA~~Food and Drug Administration (FDA) for multiple indications may be subject to a scope-based prior authorization when at least one (1) of the approved indications places that drug into a therapeutic category or treatment class for which a prior authorization is required. Prior authorizations for these drugs may be structured as step therapy or a tiered approach as recommended by the ~~Drug Utilization Review~~DUR Board and approved by the OHCA ~~Board of Directors~~.

(B) Prior authorization may be required to assure compliance with FDA approved and/or medically accepted indications, dosage, duration of therapy, quantity, or other appropriate use criteria including pharmacoeconomic consideration.

(C) Prior authorization may be required for certain non-standard dosage forms of medications when the drug is available in standard dosage forms.

(D) Prior authorization may be required for certain compounded prescriptions if the allowable cost exceeds a predetermined limit as published on the agency's website.

317:30-5-77.3. ~~Product Based Prior Authorization~~Product-based prior authorization (PBPA)

~~The Oklahoma Health Care Authority utilizes a prior authorization system subject to their authority under 42 U.S.C. 1396r 8 and 63 O.S. 5030.3(B). The prior authorization program is not a drug formulary which is separately authorized in 42 U.S.C 1396r 8. Drugs are placed into two or more tiers~~

~~based on similarities in clinical efficacy, side effect profile and cost effectiveness after recommendation by the Drug Utilization Review Board and approved by the OHCA Board of Directors. Drugs placed in tier number one generally require no prior authorization. Drugs placed in any tier other than tier number one may require prior authorization.~~

~~(1) Three general exceptions exist to the requirement of prior authorization:~~

~~(A) inadequate response to one or more tier one products;~~

~~(B) a clinical exception for a certain product in the particular therapeutic category; or~~

~~(C) the manufacturer or labeler of a product may opt to participate in the state supplemental drug rebate program to move a product from a higher tier to a lower tier which will remove or reduce the prior authorization requirement for that product.~~

~~(i) After a drug or drug category has been added to the Prior Authorization program, OHCA or its contractor may establish a cost effective benchmark value for each therapeutic category or individual drug. The benchmark value may be calculated based on an average cost, an average cost per day, a weighted average cost per day or any other generally accepted economic formula. A single formula for all drugs or drug categories is not required. Supplemental rebate offers from manufacturers which are greater than the minimum required supplemental rebate will be accepted and may establish a new benchmark rebate value for the category.~~

~~(ii) Manufacturers of products assigned to tiers number two and higher may choose to pay a supplemental rebate to the state in order to remove or reduce a prior authorization requirement on their product or products assigned to the higher tier.~~

~~(iii) Supplemental rebate agreements shall be in effect for one year and may be terminated at the option of either party with a 60 day notice. Supplemental rebate agreements are subject to the approval of CMS. Termination of a Supplemental Rebate agreement will result in the specific product reverting to the previously assigned higher tier in the PBPA program.~~

~~(iv) The supplemental unit rebate amount for a tier two or higher product will be calculated by subtracting the federal rebate amount per unit from the benchmark rebate amount per unit.~~

~~(v) Supplemental rebates will be invoiced concurrent with the federal rebates and are subject to the same terms with respect to payment due dates, interest, and penalties for non payment as specified at 42 U.S.C. Section 1396r 8. All terms and conditions not specifically listed in federal or state law shall be included in the supplemental rebate agreement as approved by CMS.~~

~~(vi) Drugs or drug categories which are not part of the Product Based Prior Authorization program~~

as outlined in 63 O.S. Section 5030.5 may be eligible for supplemental rebate participation. The OHCA Drug Utilization Review Board shall recommend supplemental rebate eligibility for drugs or drug categories after considering clinical efficacy, side effect profile, cost effectiveness and other applicable criteria.

(2) All clinical exceptions are recommended by the Drug Utilization Review Board and demonstrated by documentation sent by the prescribing physician and/or pharmacist.

The Oklahoma Health Care Authority (OHCA) utilizes a PBPA system pursuant to its authority under Section 1396r-8 of Title 42 of the United States Code and Section 5030.3(A) of Title 63 of the Oklahoma Statutes. The PBPA program, which includes step therapy protocols as defined in 63 O.S. § 7310(A)(4), is not a drug formulary, which is separately authorized in 42 U.S.C. § 1396r-8. In the PBPA system, drugs are placed into two (2) or more tiers based on similarities in clinical efficacy, side-effect profile, and cost-effectiveness, after recommendation by the Drug Utilization Review (DUR) Board and approval by the OHCA Board. Drugs placed in tier one (1) generally require no prior authorization; however, drugs placed in any tier may be subject to prior authorization.

(1) Exceptions to the requirement of prior authorization shall be granted based upon a properly-supported justification submitted by the prescribing provider demonstrating one (1) or more of the bases for exception identified in Oklahoma Administrative Code (OAC) 317:30-5-77.4(b)(3).

(2) The manufacturer or labeler of a product may opt to participate in the state supplemental drug rebate program to move a product from a higher tier to a lower tier which will remove or reduce the prior authorization requirement for that product. Supplemental rebate negotiations are done through Sovereign States Drug Consortium (SSDC); a multi-state purchasing pool.

(A) Supplemental rebate agreements shall be in effect for one (1) year and may be terminated at the option of either party with a sixty (60) day notice. Supplemental rebate agreements are subject to the approval of the Centers for Medicare and Medicaid Services (CMS). Termination of a supplemental rebate agreement will result in the specific product reverting to the previously assigned higher tier in the PBPA program.

(B) Drugs or drug categories which are not part of the PBPA program as outlined in 63 O.S. § 5030.5 may be eligible for supplemental rebate participation. The OHCA DUR Board may recommend supplemental rebate eligibility for drugs or drug categories after considering clinical efficacy, side effect profile, cost-effectiveness, and other applicable criteria.

317:30-5-77.4. Step therapy exception process

(a) Definitions.

(1) **"Exigent circumstances"** means circumstances in which a delay in receiving a prescription drug will jeopardize the member's life or health or ability to attain, maintain, or regain maximum function.

(2) **"Step therapy" or "step therapy protocol"** means a protocol or program that establishes a specific sequence in which prescription drugs for a specified medical condition that are medically appropriate for a particular patient are covered by Medicaid. Step therapy protocols are based upon the recommendation of the Drug Utilization Review (DUR) Board, as approved by the Oklahoma Health Care Authority (OHCA) Board.

(3) A **"step therapy exception"** means the process by which a step therapy protocol is overridden in favor of immediate coverage of a SoonerCare provider's selected prescription drug.

(b) **Process.** The step therapy exception process shall be initiated by a SoonerCare provider on behalf of a SoonerCare member. An exception can be requested following a denial of a prior authorization request for the specified prescription drug(s), or can be requested at the outset. In either case, the provider shall:

(1) Submit the exception request using the step therapy exception request form, which is available on the OHCA website and/or provider portal; and

(2) Submit with the step therapy exception request form, documentation or other information adequate to support the medical necessity for overriding the otherwise-applicable step therapy protocol for the particular prescription drug.

(3) A properly-supported step therapy exception request will be granted if it demonstrates that any of the following circumstances exists:

(A) The required prescription drug is contraindicated or will likely cause an adverse reaction or physical or mental harm to the patient;

(B) The required prescription drug is expected to be ineffective based on the known clinical characteristics of the patient and the known characteristics of the prescription drug;

(C) The patient has tried the required prescription drug while under the patient's current or a previous health insurance plan and such prescription drug was discontinued due to lack of efficacy or effectiveness, diminished effect, or an adverse event;

(D) The required prescription drug is not in the best interest of the patient, based on medical necessity; or

(E) The patient is stable on a prescription drug selected by the patient's healthcare provider for the medical condition under consideration while on the patient's current or a previous health insurance plan.

(4) The OHCA or its contractor or designee may request additional information that is reasonably necessary to determine whether a step therapy exception request should be granted, as provided by Oklahoma law.

(c) **Notification.**

(1) The OHCA or its contractor or designee shall respond to any step therapy exception request within seventy-two (72) hours of the submission of a completed and properly-supported request. For exigent circumstances, the OHCA shall respond to the exception request within twenty-four (24) hours of receipt. Provided, however, that if the timeframe for response ends on a weekend, or on any other day the OHCA is closed or closes early, including, but not limited to, legal holidays as defined by 25 O.S. § 82.1, the timeframe for response shall run until the close of the next full business day. Any exception request not responded to within this timeframe shall be deemed granted.

(2) The OHCA shall respond to a request for a step therapy exception by:

- (A) Notifying the provider that the request is approved;
- (B) Notifying the provider that the request is not approved based on medical necessity;
- (C) Notifying the provider that the medical necessity of the requested exception cannot be approved or denied as a result of missing or incomplete documentation or information necessary to approve or disapprove the request;
- (D) Notifying the provider that the member is no longer eligible for coverage; or
- (E) Notifying the provider that the step therapy exemption request cannot be processed because it was not properly submitted using the required form.

(3) The rejection of a step therapy exception request based upon missing or incomplete documentation or other information, or because it was not properly submitted using the required form is not a denial, and shall not be subject to further appeal. It must, instead, be resubmitted as a new request for exception pursuant to this rule before it will be considered for approval.

(d) **Appeal.** If a step therapy exception request is denied, an appeal may be initiated by the member within thirty (30) days of the denial pursuant to Oklahoma Administrative Code (OAC) 317:2-1-18.

(Reference APA WF # 19-32)

AUTHORITY:

The Oklahoma Health Care Authority Act, Section 5007 (C)(2) of Title 63 of Oklahoma Statutes; The Oklahoma Health Care Authority Board

SUBMISSION OF PROPOSED RULES TO GOVERNOR AND CABINET SECRETARY:

December 18, 2019

COMMENT PERIOD:

January 16, 2020 through February 18, 2020

PUBLIC HEARING:

February 19, 2020

ADOPTION:

March 30, 2020

SUBMISSION OF ADOPTED RULES TO GOVERNOR AND LEGISLATURE:

March 31, 2020

APPROVED BY GOVERNOR'S DECLARATION:

Approved by Governor's declaration on June 25, 2020

FINAL ADOPTION:

June 25, 2020

EFFECTIVE:

September 14, 2020

SUPERSEDED EMERGENCY ACTIONS:

Not applicable

INCORPORATIONS BY REFERENCE:

n/a

GIST/ANALYSIS:

The proposed revisions will revise policy for members under twenty-one (21) to reflect current practice, update obsolete references, and reorganize sections for consistent application of policy. The proposed rule changes will also address Service Quality Review (SQR) findings of deficiency regarding inpatient psychiatric facilities' compliance with federal regulations and OHCA administrative rules. Additionally, the proposed rule changes will create a general specialty add-on payment for children and adolescents with specialized treatment needs who are being served in a psychiatric residential treatment facility (PRTF), Acute II unit of a psychiatric hospital and general hospital with an Acute II psychiatric.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 6. INPATIENT PSYCHIATRIC SERVICES

Permanent Final Adoptions

317:30-5-94. Definitions

The following words and terms, when used in this Part, shall have the following meaning, unless the context clearly indicates otherwise:

"Adult" means an individual twenty-one (21) and over, unless otherwise specified. Refer to Oklahoma Administrative Code (OAC) 317:30-1-4.

"C.F.R." means Code of Federal Regulations.

"Child" means an individual under the age of twenty (21) in an inpatient psychiatric setting as per 42 C.F.R. § 441.151(a)(3). If an individual is receiving services before he or she reaches twenty-one (21), then the individual can continue to receive services until the individual no longer requires the services or the date the individual turns twenty-two (22), whichever comes first. For services other than inpatient psychiatric services or otherwise specified by statute, regulation, and/or policy adopted by the Oklahoma Health Care Authority (OHCA), refer to OAC 317:30-1-4.

"C.M.S" means Centers for Medicare and Medicaid Services.

"General hospital" means a general medical surgical hospital, as defined by Section 1-701 (2) of Title 63 of the Oklahoma Statutes.

"Institution for Mental Diseases (IMD)" means a hospital, nursing facility, or other institution of more than sixteen (16) beds that is primarily engaged in providing diagnosis, treatment, or care of persons with mental diseases, including medical attention, nursing care, and related services, as defined by 42 C.F.R. § 435.1010.

"Licensed behavioral health professional (LBHP)" means any of the following practitioners:

(A) An allopathic or osteopathic physician with a current license and board certification in psychiatry or board eligible in the state in which services are provided, or a current resident in psychiatry practicing as described in OAC 317:30-5-2.

(B) A practitioner with a current license to practice in the state in which services are provided, within one (1) of the areas of practice listed in (i) through (vi).

- (i) Psychology;
- (ii) Social work (clinical specialty only);
- (iii) Professional counselor;
- (iv) Marriage and family therapist;
- (v) Behavioral practitioner; or
- (vi) Alcohol and drug counselor.

(C) An advanced practice registered nurse certified in a psychiatric mental health specialty, and licensed as a registered nurse (RN) with a current certification of recognition from the board of nursing in the state in which services are provided.

(D) A physician assistant who is licensed and in good standing in the state and has received specific training for and is experienced in performing mental health therapeutic, diagnostic, or counseling functions.

"Licensure candidate" means a practitioner actively and regularly receiving board approved supervision, and extended supervision by a fully licensed clinician if board's supervision

requirement is met but the individual is not yet licensed, to become licensed by one (1) of the areas of practice listed in (B)(i) through (vi) above. The supervising LBHP responsible for the member's care must:

- (A) Staff the member's case with the candidate;
- (B) Be personally available, or ensure the availability of an LBHP to the candidate for consultation while they are providing services;
- (C) Agree with the current plan for the member;
- (D) Confirm that the service provided by the candidate was appropriate; and
- (E) The member's medical record must show that the requirements for reimbursement were met and the LBHP responsible for the member's care has reviewed, countersigned, and dated the service plan and any updates thereto so that it is documented that the licensed professional is responsible for the member's care.

"OHCA" means Oklahoma Health Care Authority.

"OAC" means Oklahoma Administrative Code.

"O.S." means Oklahoma Statutes.

"Psychiatric hospital" means an institution which is primarily engaged in providing, by or under the supervision of a physician, psychiatric services for the diagnosis and treatment of mentally ill persons, as defined by Section 1395x(f) of Title 42 of the United States Code.

"Psychiatric residential treatment facility (PRTF)" means a non-hospital facility contracted with the OHCA to provide inpatient psychiatric services to SoonerCare-eligible members under the age of twenty-one (21), as defined by 42 C.F.R. § 483.352.

"U.S.C." means United States Code.

317:30-5-95. General provisions and eligible providers

(a) **Definitions.** The following words and terms, when used in this Part, shall have the following meaning, unless the context clearly indicates otherwise:

- (1) **"C.F.R."** means Code of Federal Regulations.
- (2) **"CMS"** means Centers for Medicare and Medicaid Services.
- (3) **"General Hospital"** means a general medical surgical hospital, as defined by 63 Oklahoma Statutes, Sec. 1-701(2).
- (4) **"Institution for Mental Diseases (IMD)"** means a hospital, nursing facility, or other institution of more than sixteen (16) beds that is primarily engaged in providing diagnosis, treatment, or care of persons with mental diseases, including medical attention, nursing care, and related services, as defined by 42 C.F.R. § 435.1010.
- (5) **"OHCA"** means Oklahoma Health Care Authority.
- (6) **"O.S."** means Oklahoma Statutes.
- (7) **"Psychiatric Hospital"** means an institution which is primarily engaged in providing, by or under the supervision of a physician, psychiatric services for the diagnosis and treatment of mentally ill persons, as defined by 42 United States Code, Sec. 1395x(f).

- (8) **"Psychiatric Residential Treatment Facility (PRTF)"** means a non hospital facility contracted with the OHCA to provide inpatient psychiatric services to SoonerCare eligible members under the age of twenty one (21), as defined by 42 C.F.R. § 483.352.
- (9) **"U.S.C."** means United States Code.
- (b) **Eligible settings for inpatient psychiatric services.** The following individuals may receive SoonerCare reimbursable inpatient psychiatric services in the following eligible settings:
- (1) Individuals twenty one (21) to sixty four (64) years of age may receive SoonerCare reimbursable inpatient psychiatric and/or chemical dependency/substance use/detoxification services in a psychiatric unit of a general hospital, provided that such hospital is not an IMD.
 - (2) Individuals sixty five (65) years of age or older may receive SoonerCare reimbursable inpatient psychiatric services in a psychiatric unit of a general hospital, or in a psychiatric hospital.
 - (3) Individuals under twenty one (21) years of age, in accordance with OAC 317:30-5-95.23, may receive SoonerCare reimbursable inpatient psychiatric services in a psychiatric unit of a general hospital, a psychiatric hospital, or a PRTF.
- (c) **Psychiatric hospitals and psychiatric units of general hospitals.** To be eligible for payment under this Part, inpatient psychiatric programs must be provided to eligible SoonerCare members in a hospital that:
- (1) is a psychiatric hospital that:
 - (A) successfully underwent a State survey to determine whether the hospital meets the requirements for participation in Medicare as a psychiatric hospital per 42 C.F.R. § 482.60; or
 - (B) is accredited by a national organization whose psychiatric accrediting program has been approved by CMS; or
 - (2) is a general hospital with a psychiatric unit that:
 - (A) successfully underwent a State survey to determine whether the hospital meets the requirements for participation in Medicare as a hospital as specified in 42 C.F.R. Part 482; or
 - (B) is accredited by a national accrediting organization whose accrediting program has been approved by CMS; and
 - (3) meets all applicable federal regulations, including, but not limited to:
 - (A) Medicare Conditions of Participation for Hospitals (42 C.F.R. Part 482), including special provisions applying to psychiatric hospitals (42 C.F.R. §§ 482.60-.62);
 - (B) Medicaid for Individuals Age 65 or over in Institutions for Mental Diseases (42 C.F.R. Part 441, Subpart C);
 - (C) Inpatient Psychiatric Services for Individuals under Age 21 in Psychiatric Facilities or Programs (42 C.F.R. Part 441, Subpart D); and/or
- (D) Utilization Control [42 C.F.R. Part 456, Subpart C (Utilization Control: Hospitals) or Subpart D (Utilization Control: Mental Hospitals)]; and
- (4) is contracted with the OHCA; and
 - (5) if located within Oklahoma and serving members under eighteen (18) years of age, is appropriately licensed by the Oklahoma Department of Human Services (DHS) as a residential child care facility (10 O.S. §§ 401 to 402) that is providing services as a residential treatment facility in accordance with OAC 340:110-3-168.
- (d) **PRTF.** Every PRTF must:
- (1) be individually contracted with OHCA as a PRTF;
 - (2) meet all of the state and federal participation requirements for SoonerCare reimbursement, including, but not limited to, 42 C.F.R. § 483.354, as well as all requirements in 42 C.F.R. 483 Subpart G governing the use of restraint and seclusion;
 - (3) be appropriately licensed by DHS as a residential child care facility (10 O.S. §§ 401 to 402) that is providing services as a residential treatment facility in accordance with OAC 340:110-3-168; and
 - (4) be accredited by TJC, the Council on Accreditation of Rehabilitation Facilities (CARF), or the Council on Accreditation (COA).
- (e) **Out-of-state PRTF.** Any out of state PRTF must be appropriately licensed and/or certified in the state in which it does business, and must provide an attestation to OHCA that the PRTF is in compliance with the condition of participation for restraint and seclusion, as is required by federal law. Any out of state PRTF must also be accredited in conformance with OAC 317:30-5-95(d)(4).
- (f) **Required documents.** The required documents for enrollment for each participating provider can be downloaded from the OHCA's website.
- (a) **Eligible settings for inpatient psychiatric services.** The following individuals may receive SoonerCare-reimbursable inpatient psychiatric services in the following eligible settings:
- (1) Individuals twenty-one (21) to sixty-four (64) years of age may receive SoonerCare-reimbursable inpatient psychiatric and/or chemical dependency/substance use/detoxification services in a psychiatric unit of a general hospital, provided that such hospital is not an IMD.
 - (2) Individuals sixty-five (65) years of age or older may receive SoonerCare-reimbursable inpatient psychiatric services in a psychiatric unit of a general hospital, or in a psychiatric hospital.
 - (3) Individuals under twenty-one (21) years of age, in accordance with OAC 317:30-5-95.23, may receive SoonerCare-reimbursable inpatient psychiatric services in a psychiatric unit of a general hospital, a psychiatric hospital, or a PRTF.
- (b) **Psychiatric hospitals and psychiatric units of general hospitals.** To be eligible for payment under this Part, inpatient psychiatric programs must be provided to eligible SoonerCare members in a hospital that:
- (1) Is a psychiatric hospital that:

- (A) Successfully underwent a State survey to determine whether the hospital meets the requirements for participation in Medicare as a psychiatric hospital per 42 C.F.R. § 482.60; or
- (B) Is accredited by a national organization whose psychiatric accrediting program has been approved by CMS; or
- (2) Is a general hospital with a psychiatric unit that:
 - (A) Successfully underwent a State survey to determine whether the hospital meets the requirements for participation in Medicare as a hospital as specified in 42 C.F.R. Part 482; or
 - (B) Is accredited by a national accrediting organization whose accrediting program has been approved by CMS; and
- (3) Meets all applicable federal regulations, including, but not limited to:
 - (A) Medicare Conditions of Participation for Hospitals (42 C.F.R. Part 482), including special provisions applying to psychiatric hospitals (42 C.F.R. § 482.60-.62);
 - (B) Medicaid for Individuals Age 65 or over in Institutions for Mental Diseases (42 C.F.R. Part 441, Subpart C);
 - (C) Inpatient Psychiatric Services for Individuals under Age 21 in Psychiatric Facilities or Programs (42 C.F.R. Part 441, Subpart D); and/or
 - (D) Utilization Control [42 C.F.R. Part 456, Subpart C (Utilization Control: Hospitals) or Subpart D (Utilization Control: Mental Hospitals)]; and
- (4) Is contracted with the OHCA; and
- (5) If located within Oklahoma and serving members under eighteen (18) years of age, is appropriately licensed by the Oklahoma Department of Human Services (OKDHS) as a residential child care facility (10 O.S. §§ 401 to 402) that is providing services as a residential treatment facility in accordance with OAC 340:110-3-168.
- (c) **PRTF.** Every PRTF must:
 - (1) Be individually contracted with OHCA as a PRTF;
 - (2) Meet all of the state and federal participation requirements for SoonerCare reimbursement, including, but not limited to, 42 C.F.R. § 483.354, as well as all requirements in 42 C.F.R. 483 Subpart G governing the use of restraint and seclusion;
 - (3) Be appropriately licensed by OKDHS as a residential child care facility (10 O.S. § 401 to 402) that is providing services as a residential treatment facility in accordance with OAC 340:110-3-168;
 - (4) Be appropriately certified by the State Survey Agency, the Oklahoma State Department of Health (OSDH) as meeting Medicare Conditions of Participation; and
 - (5) Be accredited by TJC, the Council on Accreditation of Rehabilitation Facilities (CARF), or the Council on Accreditation (COA).
- (d) **Out-of-state PRTF.** Any out-of-state PRTF must be appropriately licensed and/or certified in the state in which it does business, and must provide an attestation to OHCA that

the PRTF is in compliance with the condition of participation for restraint and seclusion, as is required by federal law. Any out-of-state PRTF must also be accredited in conformance with OAC 317:30-5-95(c)(5).

(e) **Required documents.** The required documents for enrollment for each participating provider can be downloaded from the OHCA's website.

317:30-5-95.4. Individual plan of care for adults aged twenty-one (21) to sixty-four (64)

(a) Before admission to a psychiatric unit of a general hospital or immediately after admission, the attending physician or staff physician must establish a written plan of care for each member aged twenty-one (21) to sixty-four (64). The plan of care must include:

- (1) Diagnoses, symptoms, complaints, and complications indicating the need for admission;
 - (2) A description of the functional level of the individual;
 - (3) Objectives;
 - (4) Any order for medication, treatments, restorative and rehabilitative services, activities, therapies, social services, diet, and special procedures recommended for the health and safety of the member;
 - (5) Plans for continuing care, including review and modification to the plan of care; and
 - (6) Plans for discharge.
- (b) The attending or staff physician and other treatment team personnel involved in the member's care must review each plan of care at least every seven (7) days.
- (c) All plans of care and plan of care reviews must be clearly identified as such in the member's medical records. All must be signed and dated by the physician, RN, LBHP or licensure candidate, member, and other treatment team members that provide individual, family, and group therapy in the required review interval. Licensure candidate signatures must be co-signed. All plans of care and plan of care reviews must be signed by the member upon completion, except when a member is too physically ill or his or her acuity level precludes him or her from signing. If the member has designated an advocate, the advocate's signature is also required on all plans of care and plan of care reviews. If the member was too physically ill or his or her acuity level precluded him or her from signing the plan of care and/or the plan of care review at the time of completion, the member must sign the plan when his or her condition improves, but before discharge.
- (d) The plan of care must document appropriate member participation in the development and implementation of the treatment plan.

317:30-5-95.14. Individual plan of care for persons sixty-five (65) years of age or older receiving inpatient acute psychiatric services

(a) Before admission to a psychiatric hospital or psychiatric unit of a general hospital or immediately after admission, the attending physician or staff physician must establish a written

plan of care for each applicant or member. The plan of care must include:

- (1) Diagnoses, symptoms, complaints, and complications indicating the need for admission;
 - (2) A description of the functional level of the individual;
 - (3) Objectives;
 - (4) Any order for medication, treatments, restorative and rehabilitative services, activities, therapies, social services, diet, and special procedures recommended for the health and safety of the member;
 - (5) Plans for continuing care, including review and modification to the plan of care; and
 - (6) Plans for discharge.
- (b) The attending or staff physician and other treatment team personnel involved in the member's care must review each plan of care at least every seven (7) days.
- (c) All plans of care and plan of care reviews must be clearly identified as such in the member's medical records. All must be signed and dated by the physician, RN, LBHP or licensure candidate, member, and other treatment team members that provide individual, family, and group therapy in the required review interval. Licensure candidate signatures must be co-signed. All plans of care and plan of care reviews must be signed by the member upon completion, except when a member is too physically ill or his or her acuity level precludes him or her from signing. If the member has designated an advocate, the advocate's signature is also required on all plans of care and plan of care reviews. If the member was too physically ill or his or her acuity level precluded him or her from signing the plan of care and/or the plan of care review at the time of completion, the member must sign the plan when his or her condition improves, but before discharge.
- (d) The plan of care must document appropriate member participation in the development and implementation of the treatment plan.

317:30-5-95.22. Coverage for children

(a) ~~In order for services to be covered, services in acute hospitals, free standing hospitals, and Psychiatric Residential Treatment Facilities must meet the requirements in OAC 317:30-5-95.25 through 317:30-5-95.30. OHCA rules that apply to inpatient psychiatric coverage for children are found in Sections OAC 317:30-5-95.24 through 317:30-5-95.42.~~

(b) **Definitions.** The following words and terms, when used in Sections OAC 317:30-5-95.22 through 317:30-5-95.42, shall have the following meaning, unless the context clearly indicates otherwise:

- (1) **"Acute care"** means care delivered in a psychiatric unit of a general hospital or free standing psychiatric hospital that provides assessment, medical management and monitoring, and short term intensive treatment and stabilization to individuals experiencing acute episodes of behavioral health disorders.
- (2) **"Border Placement"** means a placement in a facility that is in one of the states that borders Oklahoma (Arkansas, Colorado, Kansas, Missouri, New Mexico, and

Texas). Border "status" may include other states that routinely provide PRTF services. Providers are subject to the same OHCA rules and program requirements as in state providers, including claims submission procedures and are paid the same daily per diem as Oklahoma providers.

(3) ~~"Chemical Dependency/Substance Abuse services/ Detoxification"~~ means services offered to individuals with a substance related disorder whose biomedical and emotional/behavioral problems are sufficiently severe to require inpatient care.

(4) **"Community Based Extended"** means a PRTF with 16 beds or more but less than 30 beds. The typical facility is not a locked facility.

(5) ~~"Community based transitional residential treatment"~~ means a level of care designed for children that require the continued structure, psychiatric intervention of 24 hour care but are ready to begin transitioning from more intense residential treatment into the community. It is the intent that members admitted to this level of care should be able to attend public school. Community based transitional are non-secure PRTFs with 16 beds or less.

(6) **"Designated Agent"** means the entity contracted with the OHCA to provide certain services to meet federal and state statutory obligations of the OHCA.

(7) ~~"Enhanced Treatment Unit or Specialized Treatment Unit"~~ means an intensive residential treatment unit that provides a program of care to a population with a special need or issues requiring increased staffing requirements, co-morbidities, environmental accommodations, specialized treatment programs, and longer lengths of stay.

(8) **"Evidenced Based Practice (EBP)"** according to the Substance Abuse and Mental Health Services Administration (SAMHSA) means programs or practices that are supported by research methodology and have produced consistently positive patterns of results.

(9) **"Freestanding PRTFs"** are generally for profit secure facilities which range from 50 to over 100 beds and are generally staffed higher with RN personnel.

(10) **"Out-of-State Placement"** means a placement for intensive or specialized services not available in Oklahoma requiring additional authorization procedures and approval by the OHCA Behavioral Health Unit.

(11) **"Provider Based"** facilities are secure residential treatment facilities that are affiliated with private medical/surgical hospitals. The RN hours per day average 2.4 hours.

(12) ~~"Public facilities"~~ are Oklahoma government owned or operated facilities.

(13) **"Residential Treatment services"** means psychiatric services that are designed to serve children who need longer term, more intensive treatment, and a more highly structured environment than they can receive in family and other community-based alternatives to hospitalization.

(14) **"Trauma Informed"** means the recognition and responsiveness to the presence of the effects of past and current traumatic experiences in the lives of members.

(a) In order for services to be covered, services in psychiatric units of general hospitals, psychiatric hospitals, and PRTF programs must meet the requirements in OAC 317:30-5-95.25 through 317:30-5-95.30. OHCA rules that apply to inpatient psychiatric coverage for individuals aged twenty-one (21) and under are found in Sections OAC 317:30-5-95.22 through 317:30-5-95.42.

(b) The following words and terms, when used in OAC 317:30-5-95.22 through 317:30-5-95.42, shall have the following meaning, unless the context clearly indicates otherwise:

(1) "Acute" means care delivered in a psychiatric unit of a general hospital or psychiatric hospital that provides assessment, medical management and monitoring, and short-term intensive treatment and stabilization to individuals experiencing acute episodes of behavioral health disorders.

(2) "Acute II" means care delivered in a psychiatric unit of a general hospital or psychiatric hospital; however, services at this level of care are designed to serve individuals under twenty-one (21) who need longer-term, more intensive treatment, and a more highly-structured environment than they can receive in family and other community-based alternatives to hospitalization. However, care delivered in this setting is less intense than the care provided in Acute.

(3) "Border placement" means placement in an inpatient psychiatric facility that is in one (1) of the states that borders Oklahoma (Arkansas, Colorado, Kansas, Missouri, New Mexico, and Texas).

(4) "Border status" means placement in a facility in a state that does not border Oklahoma, but which facility routinely provides inpatient psychiatric services to SoonerCare members.

(5) "Chemical dependency/substance abuse services/detoxification" means services offered to individuals with a substance-related disorder whose biomedical and emotional/behavioral problems are sufficiently severe to require inpatient care.

(6) "Community-based extended" means a PRTF with sixteen (16) beds or more but less than thirty (30) beds. The typical facility is not a locked facility.

(7) "Community-based transitional (CBT)" means a PRTF level of care designed for individuals under twenty-one (21) who require the continued structure and psychiatric intervention of twenty-four (24) hour care, but are ready to begin transitioning from more intense residential treatment into the community. It is the intent that members admitted to this level of care should be able to attend public school. Community-based transitional facilities are non-secure PRTFs with sixteen (16) beds or less.

(8) "Enhanced treatment unit or specialized treatment" means an intensive residential treatment unit that provides a program of care to a population with special needs or issues requiring increased staffing requirements, co-morbidities, environmental accommodations, specialized treatment programs, and longer lengths of stay.

(9) "Evidence-based practice (EBP)" means programs or practices that are supported by research methodology and have produced consistently positive patterns of results in accordance with the Substance Abuse and Mental Health Services Administration (SAMHSA).

(10) "Out-of-state placement" means a placement for intensive or specialized services not available in Oklahoma requiring additional authorization procedures and approval by the OHCA Behavioral Health Unit.

(11) "Public facilities" means Oklahoma government owned or operated facilities.

(12) "Trauma-informed" means the recognition and responsiveness to the presence of the effects of past and current traumatic experiences in the lives of members.

317:30-5-95.24. Prior authorization of inpatient psychiatric services for children/individuals under twenty-one (21)

(a) ~~All inpatient psychiatric services for members under twenty one (21) years of age must be prior authorized by the Oklahoma Health Care Authority (OHCA) or its designated agent. All inpatient acute and residential psychiatric services will be prior authorized for an approved length of stay. Admission requirements for services must be provided in accordance with Code of Federal Regulations, Title 42 Public Health, Part 441 and 456. Additional information will be required for a SoonerCare compensable approval on enhanced treatment units or in special population programs.~~

(b) ~~Staffing ratios shall always be present for each individual unit not by facility or program. Patients shall be grouped for accommodation by gender, age, and treatment needs. At a minimum, children, adolescent, and adult treatment programs shall be separate with distinct units for each population. A unit is determined by separate and distinct sleeping, living, and treatment areas often separated by walls and/or doors. A unit that does not allow clear line of sight due to the presence of walls or doors is considered a separate unit. Each individual unit shall have assigned staff to allow for appropriate and safe monitoring of patients and to provide active treatment.~~

(c) ~~In an acute care setting, at least one Registered Nurse (RN) must be on duty per unit at all times, with additional RNs to meet program needs. RNs must adhere to Oklahoma Department of Health policy at Oklahoma Administrative Code (OAC) 310:667-15-3 and OAC 310:667-33-2(a)(3).~~

(d) ~~Regular residential treatment programs require a staffing ratio of 1:6 during routine waking hours and 1:8 during time residents are asleep with twenty four (24) hour nursing care supervised by an RN for management of behaviors and medical complications. At a minimum, the supervising RN must be available by phone and on site within one (1) hour. If the supervising RN is off site, then an RN or LPN must be on site to adhere to a twenty four (24) hour nursing care coverage ratio of 1:30 during routine waking hours and 1:40 during time residents are asleep.~~

(e) Specialty residential treatment at this level is a longer term treatment that requires a higher staff to member ratio because of the need for constant, intense, and immediate reinforcement of new behaviors to develop an understanding of the behaviors. The environment of specialized residential treatment centers requires special structure and configuration (e.g., sensory centers for autistic members) and specialized training for the staff in the area of the identified specialty. The physician will see the child at least one (1) time a week.

(f) A Psychiatric Residential Treatment Facility (PRTF) will not be considered a specialty treatment program for SoonerCare without prior approval of the OHCA behavioral health unit.

(g) A treatment program that has been approved as a specialized treatment program must maintain medical records that document the degree and intensity of the psychiatric care delivered to the children.

(h) Criteria for classification as a specialized PRTF will require a staffing ratio of 1:3 at a minimum during routine waking hours and 1:6 during time residents are asleep with twenty-four (24) hour nursing care supervised by a RN for management of behaviors and medical complications. The PRTF will be a secure unit, due to the complexity of needs and safety considerations. Admissions will be restricted to children that meet the medical necessity criteria for Residential Treatment Center (RTC) and also meet at least two or more of the following:

- (1) Have failed at other levels of care or have not been accepted at other levels of care;
- (2) Behavioral, emotional, and cognitive problems requiring secure residential treatment that includes 1:1, 1:2, or 1:3 staffing due to the member being a danger to themselves and others, for impairments in socialization problems, communication problems, and restricted, repetitive and stereotyped behaviors. These symptoms are severe and intrusive enough that management and treatment in a less restrictive environment places the child and others in danger but, do not meet acute medical necessity criteria. These symptoms which are exhibited across multiple environments must include at least two or more of the following:

- (A) Marked impairments in the use of multiple nonverbal behaviors such as eye to eye gaze, facial expression, body postures, and gestures to regulate social interaction;
- (B) Inability to regulate impulse control with frequent displays of aggression or other dangerous behavior toward self and/or others regularly;
- (C) Failure to develop peer relationships appropriate to developmental level;
- (D) Lack of spontaneously seeking to share enjoyment, interests, or achievements with other people;
- (E) Lack of social or emotional reciprocity;
- (F) Lack of attachment to caretakers;
- (G) Require a higher level of assistance with activities of daily living requiring multiple verbal cues 50 percent of the time to complete tasks;
- (H) Delay, or total lack of, the development of spoken language which is not accompanied by an attempt

to compensate through alternative modes of communication such as gesture or mime;

(I) Marked impairment in individuals with adequate speech in the ability to initiate or sustain a conversation with others;

(J) Stereotyped and repetitive use of language or idiosyncratic language;

(K) Lack of varied, spontaneous make-believe play or social imitative play appropriate to developmental level;

(L) Encompassing preoccupation with one or more stereotyped and restricted pattern and interest that is abnormal in intensity of focus;

(M) Inflexible adherence to specific, nonfunctional routines or rituals;

(N) Stereotyped and repetitive motor mannerisms (e.g., hand or finger flapping or twisting or complex whole body movements);

(O) Persistent occupation with parts of objects;

(3) Member is medically stable, but has co-morbid medical conditions which require specialized medical care during treatment;

(4) Full scale IQ below 40 (profound mental retardation intellectual disability).

(i) Non-authorized inpatient psychiatric services will not be SoonerCare compensable.

(j) The designated agent will prior authorize all services for an approved length of stay based on the medical necessity criteria described in OAC 317:30-5-95.25 through 317:30-5-95.31.

(k) For out of state placement policy, refer to OAC 317:30-3-89 through 317:30-3-92. A prime consideration for placements will be proximity to the family or guardian in order to involve the family or guardian in Active Treatment, including discharge and reintegration planning. Out of state facilities are responsible for insuring appropriate medical care as needed under SoonerCare provisions as part of the per diem rate.

(l) Inpatient psychiatric services in all acute hospitals and psychiatric residential treatment facilities are limited to the approved length of stay. OHCA, or its designated agent, will approve lengths of stay using the current OHCA Behavioral Health medical necessity criteria as described in OAC 317:30-5-95.25 through OAC 317:30-5-95.31. The approved length of stay applies to both hospital and physician services. The Child and Adolescent Level of Care Utilization System (CALOCUS®) is a level of care assessment that will be used as a tool to determine the most appropriate level of care treatment for a member by LBHPs in the community.

(a) All inpatient psychiatric services for members under twenty-one (21) years of age must be prior authorized by the OHCA or its designated agent. All inpatient Acute, Acute II, and PRTF services will be prior authorized for an approved length of stay. Admission requirements for services must be provided in accordance with 42 C.F.R. Part 441 and 456. Additional information will be required for SoonerCare-compensable approval on enhanced treatment units or in special population programs.

Permanent Final Adoptions

(b) Unit staffing ratios shall always meet the requirements in OAC 317:30-5-95.24 (c), (d) and (h). The facility cannot use staff that is also on duty in other units of the facility in order to meet the unit staffing ratios. Patients shall be grouped for accommodation by gender, age, and treatment needs. At a minimum, children, adolescent, and adult treatment programs shall be separate with distinct units for each population. A unit is determined by separate and distinct sleeping, living, and treatment areas often separated by walls and/or doors. A unit that does not allow clear line of sight due to the presence of walls or doors is considered a separate unit. Each individual unit shall have assigned staff to allow for appropriate and safe monitoring of patients and to provide active treatment.

(c) In Acute and Acute II settings, at least one (1) registered nurse (RN) must be on duty per unit at all times, with additional RNs to meet program needs. RNs must adhere to Oklahoma State Department of Health (OSDH) policy at OAC 310:667-15-3 and 310:667-33-2(a)(3).

(d) Acute, non-specialty Acute II, and non-specialty PRTF programs require a staffing ratio of one (1) staff: six (6) patients during routine waking hours and one (1) staff: eight (8) patients during time residents are asleep with twenty-four (24) hour nursing care supervised by an RN for management of behaviors and medical complications. For PRTF programs, at a minimum, a supervising RN must be available by phone and on-site within one (1) hour. If the supervising RN is off-site, then an RN or licensed practical nurse (LPN) must be on-site to adhere to a twenty-four (24) hour nursing care coverage ratio of one (1) staff: thirty (30) patients during routine waking hours and one (1) staff: forty (40) patients during time residents are asleep.

(e) Specialty treatment at Acute II or PRTF is a longer-term treatment that requires a higher staff-to-member ratio because of the need for constant, intense, and immediate reinforcement of new behaviors to develop an understanding of the behaviors. The environment of specialized residential treatment centers requires special structure and configuration (e.g., sensory centers for autistic members) and specialized training for the staff in the area of the identified specialty. The physician will see the child at least one (1) time a week.

(f) An Acute II or PRTF will not be considered a specialty treatment program for SoonerCare without prior approval of the OHCA behavioral health unit.

(g) A treatment program that has been approved as a specialized treatment program must maintain medical records that document the degree and intensity of the psychiatric care delivered to the members.

(h) Criteria for classification as a specialty Acute II or PRTF will require a staffing ratio of one (1) staff: three (3) patients at a minimum during routine waking hours and one (1) staff: six (6) patients during time residents are asleep with twenty-four (24) hour nursing care supervised by a RN for management of behaviors and medical complications. The specialty Acute II or PRTF will be a secure unit, due to the complexity of needs and safety considerations. Admissions will be restricted to members who meet the medical necessity criteria for the respective level of care and also meet at least two (2) or more of the following:

(1) Have failed at other levels of care or have not been accepted by other non-specialty levels of care;

(2) Have behavioral, emotional, and cognitive problems requiring secure treatment that includes one (1) staff: one (1) patient, one (1) staff: two (2) patients, or one (1) staff: three (3) patients staffing due to the member being a danger to themselves and others, for impairments in socialization problems, communication problems, and restricted, repetitive, and stereotyped behaviors. These symptoms must be severe and intrusive enough that management and treatment in a less restrictive environment places the member and others in danger but, do not meet acute medical necessity criteria. These symptoms must be exhibited across multiple environments and must include at least two (2) or more of the following:

(A) Marked impairments in the use of multiple nonverbal behaviors such as eye-to-eye gaze, facial expression, body postures, and gestures to regulate social interaction;

(B) Inability to regulate impulse control with frequent displays of aggression or other dangerous behavior toward self and/or others regularly;

(C) Failure to develop peer relationships appropriate to developmental level;

(D) Lack of spontaneously seeking to share enjoyment, interests, or achievements with other people;

(E) Lack of social or emotional reciprocity;

(F) Lack of attachment to caretakers;

(G) Require a higher level of assistance with activities of daily living requiring multiple verbal cues at least fifty (50) percent of the time to complete tasks;

(H) Delay, or total lack of, the development of spoken language which is not accompanied by an attempt to compensate through alternative modes of communication such as gesture or mime;

(I) Marked impairment in individuals with adequate speech in the ability to initiate or sustain a conversation with others;

(J) Stereotyped and repetitive use of language or idiosyncratic language;

(K) Lack of varied, spontaneous make-believe play or social imitative play appropriate to developmental level;

(L) Encompassing preoccupation with one (1) or more stereotyped and restricted pattern and interest that is abnormal in intensity of focus;

(M) Inflexible adherence to specific, nonfunctional routines or rituals;

(N) Stereotyped and repetitive motor mannerisms (e.g., hand or finger flapping or twisting or complex whole body movements); and/or

(O) Persistent occupation with parts of objects;

(3) Member is medically stable, but has co-morbid medical conditions which require specialized medical care during treatment; and/or

(4) Has full-scale IQ below forty (40) (profound intellectual disability).

(i) Non-authorized inpatient psychiatric services will not be SoonerCare compensable.

(j) The OHCA, or its designated agent, will prior authorize all services for an approved length of stay based on the medical necessity criteria described in OAC 317:30-5-95.25 through 317:30-5-95.30.

(k) For out-of-state placement policy, refer to OAC 317:30-3-89 through 317:30-3-92. A prime consideration for placements will be proximity to the family or guardian in order to involve the family or guardian in active treatment, including discharge and reintegration planning. Out-of-state facilities are responsible for insuring appropriate medical care, as needed under SoonerCare provisions, as part of the per-diem rate.

(l) Inpatient psychiatric services in all psychiatric units of general hospitals, psychiatric hospitals, and PRTFs are limited to the approved length of stay. OHCA, or its designated agent, will approve lengths of stay using the current OHCA Behavioral Health medical necessity criteria as described in OAC 317:30-5-95.25 through OAC 317:30-5-95.30. The approved length of stay applies to both facility and physician services.

317:30-5-95.29. Medical necessity criteria for admission ~~psychiatric residential treatment~~ Acute II and PRTF admissions for children

(a) Psychiatric Residential Treatment facility admissions for children must meet the terms and conditions in (1), (2), (3), (4), (6) and one of (5)(A) through (5)(D) of this subsection.

(1) A primary diagnosis from the most recent edition of "The Diagnostic and Statistical Manual of Mental Disorders" (DSM) with the exception of V codes, adjustment disorders, and substance related disorders, accompanied by detailed symptoms supporting the diagnosis. Children 18-20 years of age may have a diagnosis of any personality disorder. Adjustment or substance related disorders may be a secondary diagnosis.

(2) Conditions are directly attributed to a mental disorder as the primary reason for professional attention (this does not include placement issues, criminal behavior or status offenses).

(3) Patient has either received treatment in an acute care setting or it has been determined by the OHCA designated agent that the current disabling symptoms could not or have not been manageable in a less intensive treatment program.

(4) Child must be medically stable.

(5) Within the past 14 calendar days, the patient has demonstrated an escalating pattern of self injurious or assaultive behaviors as evidenced by any of (A) through (D) below. Exceptions to the 14 day requirement may be made in instances when evidence of the behavior could not have reasonably been discovered within 14 days (e.g., sexual offenses).

(A) Suicidal ideation and/or threat.

(B) History of or current self injurious behavior.

(C) Serious threats or evidence of physical aggression.

(D) Current incapacitating psychosis or depression.

(6) Requires 24 hour observation and treatment as evidenced by:

(A) Intensive behavioral management.

(B) Intensive treatment with the family/guardian and child in a structured milieu.

(C) Intensive treatment in preparation for re-entry into community.

(b) Community Based Transitional Residential Treatment (CBT) facility admissions for children must meet the terms and conditions in (1) through (6) of this subsection.

(1) A primary diagnosis from the most recent edition of the DSM with the exception of V codes, adjustment disorders, and substance related disorders, accompanied by detailed symptoms supporting the diagnosis. Children 18-20 years of age may have a diagnosis of any personality disorder.

(2) Conditions are directly attributed to a mental disorder as the primary reason for professional attention (this does not include placement issues, criminal behavioral or status offenses).

(3) Patient has either received treatment in an acute, RTC or children's crisis unit care setting or it has been determined by OHCA or its designated agent that the current disabling symptoms could not or have not been manageable in a less intensive treatment program.

(A) Patient must have tried and failed a lower level of care or is stepping down from a higher level of care.

(B) Clinical documentation must support need for CBT, rather than facility based crisis stabilization, therapeutic foster care, or intensive outpatient services.

(C) There is clear evidence to support a reasonable expectation that stepping down to a lower level of care would result in rapid and marked deterioration of functioning in at least 2 of the 5 critical areas, listed below, placing the member at risk of need for acute stabilization/inpatient care.

(i) Personal safety.

(ii) Cognitive functioning.

(iii) Family relations.

(iv) Interpersonal relations.

(v) Educational/vocational performance.

(4) Child must be medically stable and not require 24 hour on-site nursing or medical care.

(5) Within the past 14 calendar days, the patient must have demonstrated an escalating pattern of self injurious or assaultive behavior as evidenced by any of (a)(5)(A) through (D) above. Exceptions to the 14 day requirement may be made in instances when evidence of the behavior could not have reasonably been discovered within 14 days (e.g., sexual offenses).

(6) Within the past 14 calendar days, the patient's behaviors have created significant functional impairment.

(a) Acute II and PRTF admissions for individuals under twenty-one (21) must meet the terms and conditions in (1).

Permanent Final Adoptions

(2), (3), (4), (5) and one (1) of the terms and conditions of (6)(A) through (D) of this subsection.

(1) A primary diagnosis from the Diagnostic and Statistical Manual of Mental Disorders (DSM-V) with the exception of V-codes, adjustment disorders, and substance-related disorders, accompanied by detailed symptoms supporting the diagnosis. Members eighteen (18) to twenty (20) years of age may have a diagnosis of any personality disorder. Adjustment or substance-related disorders may be a secondary diagnosis.

(2) Conditions are directly attributed to a mental disorder as the primary reason for professional attention (this does not include placement issues, criminal behavior, or status offenses).

(3) Patient has either received treatment in an acute setting or it has been determined by the OHCA or its designated agent that the current disabling symptoms could not or have not been manageable in a less-intensive treatment program.

(4) Member must be medically stable.

(5) Requires twenty-four (24) hour observation and treatment as evidenced by:

(A) Intensive behavioral management;

(B) Intensive treatment with the family/guardian and child in a structured milieu; and

(C) Intensive treatment in preparation for re-entry into community.

(6) Within the past fourteen (14) calendar days, the patient has demonstrated an escalating pattern of self-injurious or assaultive behaviors as evidenced by any of (A) through (D) below. Exceptions to the fourteen (14) day requirement may be made in instances when evidence of the behavior could not have reasonably been discovered within fourteen (14) days (e.g., sexual offenses).

(A) Suicidal ideation and/or threat.

(B) History of/or current self-injurious behavior.

(C) Serious threats or evidence of physical aggression.

(D) Current incapacitating psychosis or depression.

(b) CBT admissions for children must meet the terms and conditions in (1) through (6) of this subsection.

(1) A primary diagnosis from the DSM-V with the exception of V-codes, adjustment disorders, and substance-related disorders, accompanied by detailed symptoms supporting the diagnosis. Members eighteen (18) to twenty (20) years of age may have a diagnosis of any personality disorder.

(2) Conditions are directly attributed to a mental disorder as the primary reason for professional attention (this does not include placement issues, criminal behavior, or status offenses).

(3) Patient has either received treatment in Acute, Acute II, PRTF or children's crisis unit setting (refer to OAC 317:30-5-241.4), or it has been determined by OHCA or its designated agent that the current disabling symptoms could not or have not been manageable in a less-intensive treatment program.

(A) Patient must have tried and failed a lower level of care or is stepping down from a higher level of care.

(B) Clinical documentation must support need for CBT, rather than facility-based crisis stabilization, therapeutic foster care, intensive treatment foster care, or intensive outpatient services.

(C) There is clear evidence to support a reasonable expectation that stepping down to a lower level of care would result in rapid and marked deterioration of functioning in at least two (2) of the five (5) critical areas, listed below, placing the member at risk of need for acute stabilization/inpatient care.

(i) Personal safety;

(ii) Cognitive functioning;

(iii) Family relations;

(iv) Interpersonal relations; or

(v) Educational/vocational performance.

(4) Child must be medically stable.

(5) Within the past fourteen (14) calendar days, the patient must have demonstrated an escalating pattern of self-injurious or assaultive behavior as evidenced by any of (a)(5)(A) through (D) above. Exceptions to the fourteen (14) day requirement may be made in instances when evidence of the behavior could not have reasonably been discovered within fourteen (14) days (e.g., sexual offenses).

(6) Within the past fourteen (14) calendar days, the patient's behaviors have created significant functional impairment.

317:30-5-95.30. Medical necessity criteria for ~~continued stay—psychiatric residential treatment center for children~~Acute II and PRTF continued stay for children

(a) For continued stay Psychiatric Residential Treatment Facilities for children, admissions must meet the terms and conditions contained in (1), (2), (5), (6), and either (3) or (4) of this subsection.

(1) A primary diagnosis from the most recent edition of "The Diagnostic and Statistical Manual of Mental Disorders" (DSM) with the exception of V codes, adjustment disorders, and substance abuse related disorders, accompanied by detailed symptoms supporting the diagnosis. In lieu of a qualifying primary diagnosis, children 18-20 years of age may have a secondary diagnosis of any personality disorder.

(2) Conditions are directly attributed to a psychiatric disorder as the primary reason for continued stay (this does not include placement issues, criminal behavior, status offenses).

(3) Patient is making measurable progress toward the treatment objectives specified in the treatment plan.

(A) Progress is measured in behavioral terms and reflected in the patient's treatment and discharge plans.

(B) Patient has made gains toward social responsibility and independence.

- (C) ~~There is active, ongoing psychiatric treatment and documented progress toward the treatment objective and discharge.~~
- (D) ~~There are documented efforts and evidence of active involvement with the family, guardian, child welfare worker, extended family, etc.~~
- (4) ~~Child's condition has remained unchanged or worsened.~~
 - (A) ~~Documentation of regression is measured in behavioral terms.~~
 - (B) ~~If condition is unchanged, there is evidence of re-evaluation of the treatment objectives and therapeutic interventions.~~
- (5) ~~There is documented continuing need for 24 hour observation and treatment as evidenced by:~~
 - (A) ~~Intensive behavioral management.~~
 - (B) ~~Intensive treatment with the family/guardian and child in a structured milieu.~~
 - (C) ~~Intensive treatment in preparation for re-entry into community.~~
- (6) ~~Documented efforts of working with child's family, legal guardian and/or custodian and other human service agencies toward a tentative discharge date.~~
- (b) ~~For continued stay Community Based Transitional Residential Treatment (CBT), children must meet the terms and conditions found in (1) through (5) of this subsection.~~
 - (1) ~~A primary diagnosis from the most recent DSM with the exception of V codes, adjustment disorders, and substance use disorders, accompanied by detailed symptoms supporting the diagnosis. Children 18-20 years of age may have a diagnosis of any personality disorder.~~
 - (2) ~~Conditions are directly attributed to a psychiatric disorder as the primary reason for continued stay (this does not include placement issues, criminal behavior, status offenses, etc.).~~
 - (3) ~~There is documented continued need for 24 hour observation and treatment as evidenced by:~~
 - (A) ~~Patient making measurable progress toward the treatment objectives specified in the treatment plan.~~
 - (B) ~~Clinical documentation clearly indicates continued significant functional impairment in two of the following five critical areas, as evidenced by specific clinically relevant behavior descriptors:~~
 - (i) ~~Personal safety.~~
 - (ii) ~~Cognitive functioning.~~
 - (iii) ~~Family relations.~~
 - (iv) ~~Interpersonal relations.~~
 - (v) ~~Educational/vocational performance.~~
 - (4) ~~Clinical documentation includes behavioral descriptors indicating patient's response to treatment and supporting patient's ability to benefit from continued treatment at this level of care.~~
 - (5) ~~Documented, clear evidence of consistent, active involvement by patient's primary caregiver(s) in the treatment process.~~
- (a) For continued stay in Acute II and PRTF programs, members must meet the terms and conditions contained in (1), (2), (3), (4), and either (5) or (6) of this subsection:
 - (1) A primary diagnosis from the Diagnostic and Statistical Manual of Mental Disorders (DSM-V) with the exception of V codes, adjustment disorders, and substance abuse-related disorders, accompanied by detailed symptoms supporting the diagnosis. In lieu of a qualifying primary diagnosis, members eighteen (18) to twenty (20) years of age may have a secondary diagnosis of any personality disorder.
 - (2) Conditions are directly attributed to a psychiatric disorder as the primary reason for continued stay (this does not include placement issues, criminal behavior, or status offenses).
 - (3) There is documented continuing need for twenty-four (24) hour observation and treatment as evidenced by:
 - (A) Intensive behavioral management.
 - (B) Intensive treatment with the family/guardian and child in a structured milieu.
 - (C) Intensive treatment in preparation for re-entry into community.
 - (4) Documented efforts of working with child's family, legal guardian and/or custodian and other human service agencies toward a tentative discharge date.
 - (5) Patient is making measurable progress toward the treatment objectives specified in the treatment plan.
 - (A) Progress is measured in behavioral terms and reflected in the patient's treatment and discharge plans.
 - (B) Patient has made gains toward social responsibility and independence.
 - (C) There is active, ongoing psychiatric treatment and documented progress toward the treatment objective and discharge.
 - (D) There are documented efforts and evidence of active involvement with the family, guardian, child welfare worker, extended family, etc.
 - (6) Child's condition has remained unchanged or worsened.
 - (A) Documentation of regression is measured in behavioral terms.
 - (B) If condition is unchanged, there is evidence of re-evaluation of the treatment objectives and therapeutic interventions.
- (b) For continued stay in a CBT, members must meet the terms and conditions found in (1) through (5) of this subsection.
 - (1) A primary diagnosis from the DSM-V with the exception of V codes, adjustment disorders, and substance use disorders, accompanied by detailed symptoms supporting the diagnosis. Members eighteen (18) to twenty (20) years of age may have a diagnosis of any personality disorder.
 - (2) Conditions are directly attributed to a psychiatric disorder as the primary reason for continued stay (this does not include placement issues, criminal behavior, or status offenses).
 - (3) There is documented continued need for twenty-four (24) hour observation and treatment as evidenced by:

(A) Patient making measurable progress toward the treatment objectives specified in the treatment plan.

(B) Clinical documentation clearly indicates continued significant functional impairment in two (2) of the following five (5) critical areas, as evidenced by specific clinically relevant behavior descriptors:

(i) Personal safety;

(ii) Cognitive functioning;

(iii) Family relations;

(iv) Interpersonal relations; or

(v) Educational/vocational performance.

(4) Clinical documentation includes behavioral descriptors indicating patient's response to treatment and supporting patient's ability to benefit from continued treatment at this level of care.

(5) Documented, clear evidence of consistent, active involvement by patient's primary caregiver(s) in the treatment process.

317:30-5-95.31. Prior ~~Authorization~~authorization and extension procedures for children

(a) Prior authorization for inpatient psychiatric services for children must be requested from the Oklahoma Health Care Authority (OHCA) or its designated agent. The OHCA or its designated agent will evaluate and render a decision within twenty-four (24) hours of receiving the request. A prior authorization will be issued by the OHCA or its designated agent, if the member meets medical necessity criteria. For the safety of SoonerCare members, additional approval from OHCA, or its designated agent is required for placement on specialty units or in special population programs or for members with special needs such as very low intellectual functioning.

(b) Extension requests (psychiatric) must be made through OHCA, or its designated agent. All requests are made prior to the expiration of the approved extension. Requests for the continued stay of a child who has been in an acute psychiatric program for a period of fifteen (15) days and in a psychiatric residential treatment facility for three (3) months will require a review of all treatment documentation completed by the OHCA designated agent to determine the efficiency of treatment.

(c) Providers seeking prior authorization will follow OHCA's, or its designated agent's, prior authorization process guidelines for submitting behavioral health case management requests on behalf of the SoonerCare member.

(d) In the event a member disagrees with the decision by OHCA, or its designated agent, the member receives an evidentiary hearing under Oklahoma Administrative Code 317:2-1-2(b). The member's request for such an appeal must be received within thirty (30) calendar days of the initial decision.

(a) Prior authorization for inpatient psychiatric services for members must be requested from the OHCA or its designated agent. The OHCA or its designated agent will evaluate and render a decision within twenty-four (24) hours of receiving the request. A prior authorization will be issued by the OHCA or its designated agent, if the member meets medical necessity criteria. For the safety of SoonerCare members, additional approval from OHCA, or its designated agent, is required for placement on specialty units or in special population programs

or for members with special needs such as very low intellectual functioning.

(b) Extension requests (psychiatric) must be made through OHCA or its designated agent. All requests are made prior to the expiration of the approved extension. Requests for the continued stay of a member who has been in an Acute psychiatric program for a period of fifteen (15) days and an Acute II or PRTF program for three (3) months will require a review of all treatment documentation completed by the OHCA, or its designated agent, to determine the efficiency of treatment.

(c) Providers seeking prior authorization will follow OHCA's, or its designated agent's, prior authorization process guidelines for submitting behavioral health case management requests on behalf of the SoonerCare member.

(d) In the event a member disagrees with the decision by OHCA, or its designated agent, the member may request an evidentiary hearing under OAC 317:2-1-2(b). The member's request for such an appeal must be received within thirty (30) calendar days of the date of the notice of the initial decision.

317:30-5-95.33. Individual plan of care for members under the age of twenty-one (21)children

(a) The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise:

(1) "~~Licensed behavioral health professional (LBHP)~~" means licensed psychologists, licensed clinical social workers (LCSW), licensed marital and family therapists (LMFT), licensed professional counselors (LPC), licensed behavioral practitioners (LBP), licensed alcohol and drug counselors (LADC), and advanced practice registered nurses (APRN).

(2) "~~Licensure candidate~~" means practitioners actively and regularly receiving board approved supervision, and extended supervision by a fully licensed clinician if board's supervision requirement is met but the individual is not yet licensed, to become licensed by one of the following licensing boards:

(A) Psychology,

(B) Social Work (clinical specialty only),

(C) Professional Counselor,

(D) Marriage and Family Therapist,

(E) Behavioral Practitioner, or

(F) Alcohol and Drug Counselor.

(3) "~~Individual plan of care (IPC)~~" means a written plan developed for each member within four (4) calendar days of admission to an acute psychiatric facility or a PRTF that directs the care and treatment of that member. The IPC must be recovery focused, trauma informed, and specific to culture, age, and gender and include:

(A) A primary diagnosis from the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM) with the exception of V Codes, adjustment disorders, and substance abuse related disorders, accompanied by a detailed description of the symptoms supporting the diagnosis. Members eighteen (18) to twenty (20) years of age may have a diagnosis of any personality disorder. Adjustment or

substance related disorders may be a secondary diagnosis;

(B) The current functional level of the individual;

(C) Treatment goals and measurable, time limited objectives;

(D) Any orders for psychotropic medications, treatments, restorative and rehabilitative services, activities, therapies, social services, diet, and special procedures recommended for the health and safety of the member;

(E) Plans for continuing care, including review and modification to the IPC; and

(F) Plan for discharge, all of which is developed to improve the member's condition to the extent that the inpatient care is no longer necessary.

(b) The IPC:

(1) Must be based on a diagnostic evaluation that includes examination of the medical, psychological, social, behavioral, and developmental aspects of the individual member and reflects the need for inpatient psychiatric care;

(2) Must be developed by a team of professionals in consultation with the member, his or her parents or legal guardians [for members under the age of eighteen (18)], or others in whose care he or she will be released after discharge. This team must consist of professionals as specified below:

(A) For a member admitted to a psychiatric hospital or PRTE, by the "interdisciplinary team" as defined by Oklahoma Administrative Code (OAC) 317:30-5-95.35(b)(2), per 42 C.F.R. §§ 441.155 and 483.354; or

(B) For a member admitted to a psychiatric unit of a general hospital, by a team comprised of at least:

(i) An allopathic or osteopathic physician with a current license and a board certification/eligible in psychiatry, or a current resident in psychiatry practicing as described in OAC 317:30-5-2(a)(1)(U); and

(ii) A registered nurse (RN) with a minimum of two (2) years of experience in a mental health treatment setting; and

(iii) An LBHP.

(3) Must establish treatment goals that are general outcome statements and reflective of informed choices of the member served. Additionally, the treatment goals must be appropriate to the member's age, culture, strengths, needs, abilities, preferences, and limitations;

(4) Must establish measurable and time limited treatment objectives that reflect the expectations of the member served and parents/legal guardians (when applicable), as well as being age, developmentally, and culturally appropriate. When modifications are being made to accommodate age, developmental level, or a cultural issue, the documentation must be reflected on the IPC. The treatment objectives must be achievable and understandable to the member and the parents/legal guardians (when applicable). The treatment objectives also must be appropriate

to the treatment setting and list the frequency of the service;

(5) Must prescribe an integrated program of therapies, activities, and experiences designed to meet the objectives;

(6) Must include specific discharge and after care plans that are appropriate to the member's needs and effective on the day of discharge. At the time of discharge, after care plans will include referral to medication management, outpatient behavioral health counseling, and case management, to include the specific appointment date(s), names, and addresses of service provider(s) and related community services to ensure continuity of care and reintegration for the member into his or her family, school, and community;

(7) Must be reviewed, at a minimum, every five (5) to nine (9) calendar days for members admitted to an acute care setting; every fourteen (14) calendar days for members admitted to a regular PRTE; every twenty one (21) calendar days for members admitted to an OHCA approved longer term treatment program or specialty PRTE; and every thirty (30) calendar days for members admitted to a Community Based Transitional PRTE. Review must be undertaken by the appropriate team specified in OAC 317:30-5-95.33(b)(2), above, to determine that services being provided are or were required on an inpatient basis, and to recommend changes in the IPC as indicated by the member's overall adjustment, progress, symptoms, behavior, and response to treatment;

(8) Development and review must satisfy the utilization control requirements for recertification [42 C.F.R. §§ 456.60(b), 456.160(b), and 456.360(b)], and establishment and periodic review of the IPC (42 C.F.R. §§ 456.80, 456.180, and 456.380); and,

(9) Each IPC and IPC review must be clearly identified as such and be signed and dated individually by the member, parents/legal guardians [for members under the age of eighteen (18)], and required team members. All IPCs and IPC reviews must be signed by the member upon completion, except when a member is too physically ill or the member's acuity level precludes him or her from signing. If the member is too physically ill or the member's acuity level precludes him or her from signing the IPC and/or the IPC review at the time of completion, the member must sign the plan when his or her condition improves, but before discharge. The documentation should indicate the reason the member was unable to sign and when the next review will occur to obtain the signature. IPCs and IPC reviews are not valid until completed and appropriately signed and dated. All requirements for the IPCs and IPC reviews must be met; otherwise, a partial per diem recoupment will be merited. If the member's parent/legal guardian is unable to sign the IPC or IPC review on the date it is completed, then within seventy two (72) hours the provider must in good faith and with due diligence attempt to telephonically notify the parent/legal guardian of the document's completion and review it with them. Documentation of reasonable efforts to make contact with the member's parent/legal guardian must be included in the

Permanent Final Adoptions

clinical file. In those instances where it is necessary to mail or fax an IPC or IPC review to a parent/legal guardian or Oklahoma Department of Human Services/Oklahoma Office of Juvenile Affairs (DHS/OJA) worker for review, the parent/legal guardian and/or DHS/OJA worker may fax back his or her signature. The provider must obtain the original signature for the clinical file within thirty (30) days. Stamped or photocopied signatures are not allowed for any parent/legal guardian or member of the treatment team.

(10) Medically necessary Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services shall be provided to members, under the age of twenty one (21), who are residing in an inpatient psychiatric facility, regardless of whether such services are listed on the IPC. Reimbursement for the provision of medically necessary EPSDT services to individuals under age twenty one (21), while the member is residing in an inpatient psychiatric facility, will be provided in accordance with the Oklahoma Medicaid State Plan.

(a) An individual plan of care (IPC) is a written plan developed for each member within four (4) calendar days of admission to an Acute, Acute II, or a PRTF that directs the care and treatment of that member. The IPC must be recovery-focused, trauma-informed, and specific to culture, age, and gender and include:

- (1) A primary diagnosis from the Diagnostic and Statistical Manual of Mental Disorders (DSM-V) with the exception of V-codes, adjustment disorders, and substance abuse-related disorders, accompanied by a detailed description of the symptoms supporting the diagnosis. Members eighteen (18) to twenty (20) years of age may have a diagnosis of any personality disorder. Adjustment or substance-related disorders may be a secondary diagnosis;
- (2) The current functional level of the individual;
- (3) Treatment goals and measurable, time-limited objectives;
- (4) Any orders for psychotropic medications, treatments, restorative and rehabilitative services, activities, therapies, social services, diet, and special procedures recommended for the health and safety of the member;
- (5) Plans for continuing care, including review and modification to the IPC; and
- (6) Plan for discharge, all of which is developed to improve the member's condition to the extent that the inpatient care is no longer necessary.

(b) The IPC:

- (1) Must be based on a diagnostic evaluation that includes examination of the medical, psychological, social, behavioral, and developmental aspects of the individual member and reflects the need for inpatient psychiatric care;
- (2) Must be developed by a team of professionals in consultation with the member, his or her parents or legal guardians [for members under the age of eighteen (18)], or others in whose care he or she will be released after discharge. This team must consist of professionals as specified below:

(A) For a member admitted to a psychiatric hospital or PRTF, by the "interdisciplinary team" as defined by OAC 317:30-5-95.35(b)(2), per 42 C.F.R. §§ 441.155 and 483.354; or

(B) For a member admitted to a psychiatric unit of a general hospital, by a team comprised of at least:

(i) An allopathic or osteopathic physician with a current license and a board certification/eligible in psychiatry, or a current resident in psychiatry practicing as described in OAC 317:30-5-2(a)(1)(U); and

(ii) A registered nurse (RN) with a minimum of two (2) years of experience in a mental health treatment setting; and

(iii) An LBHP.

(3) Must establish treatment goals that are general outcome statements and reflective of informed choices of the member served. Additionally, the treatment goals must be appropriate to the member's age, culture, strengths, needs, abilities, preferences, and limitations;

(4) Must establish measurable and time-limited treatment objectives that reflect the expectations of the member served and parents/legal guardians (when applicable), as well as being age, developmentally, and culturally appropriate. When modifications are being made to accommodate age, developmental level, or a cultural issue, the documentation must be reflected on the IPC. The treatment objectives must be achievable and understandable to the member and the parents/legal guardians (when applicable). The treatment objectives also must be appropriate to the treatment setting and list the frequency of the service;

(5) Must prescribe an integrated program of therapies, activities, and experiences designed to meet the objectives;

(6) Must include specific discharge and aftercare plans that are appropriate to the member's needs and effective on the day of discharge. At the time of discharge, aftercare plans will include referral to medication management, outpatient behavioral health counseling, and case management, to include the specific appointment date(s), names, and addresses of service provider(s) and related community services to ensure continuity of care and reintegration for the member into his or her family, school, and community;

(7) Must be reviewed, at a minimum, every nine (9) calendar days for members admitted to Acute; every fourteen (14) calendar days for members admitted to Acute II or non-specialty PRTF; every twenty-one (21) calendar days for members admitted to an OHCA-approved longer-term treatment program or specialty Acute II or PRTF; and every thirty (30) calendar days for members admitted to a CBT PRTF. Review must be undertaken by the appropriate team specified in OAC 317:30-5-95.33(b)(2), above, to determine that services being provided are or were required on an inpatient basis, and to recommend changes in the IPC as indicated by the member's overall adjustment, progress, symptoms, behavior, and response to treatment;

(8) Development and review must satisfy the utilization control requirements for recertification [42 C.F.R. §§ 456.60(b), 456.160(b), and 456.360(b)], and establishment and periodic review of the IPC (42 C.F.R. §§ 456.80, 456.180, and 456.380); and,

(9) Each IPC and IPC review must be clearly identified as such and be signed and dated individually by the member, parents/legal guardians [for members under the age of eighteen (18)], and required team members. All IPCs and IPC reviews must be signed by the member upon completion, except when a member is too physically ill or the member's acuity level precludes him or her from signing. If the member is too physically ill or the member's acuity level precludes him or her from signing the IPC and/or the IPC review at the time of completion, the member must sign the plan when his or her condition improves, but before discharge. The documentation should indicate the reason the member was unable to sign and when the next review will occur to obtain the signature. IPCs and IPC reviews are not valid until completed and appropriately signed and dated. All requirements for the IPCs and IPC reviews must be met; otherwise, a partial per diem recoupment will be merited. If the member's parent/legal guardian is unable to sign the IPC or IPC review on the date it is completed, then within seventy-two (72) hours the provider must in good faith and with due diligence attempt to telephonically notify the parent/legal guardian of the document's completion and review it with them. Documentation of reasonable efforts to make contact with the member's parent/legal guardian must be included in the clinical file. In those instances where it is necessary to mail or fax an IPC or IPC review to a parent/legal guardian or Oklahoma Department of Human Services/Oklahoma Office of Juvenile Affairs (OKDHS/OJA) worker for review, the parent/legal guardian and/or OKDHS/OJA worker may fax back his or her signature. The provider must obtain the original signature for the clinical file within thirty (30) days. Stamped or photocopied signatures are not allowed for any parent/legal guardian or member of the treatment team.

(10) Medically necessary Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services shall be provided to members, under the age of twenty-one (21), who are residing in an inpatient psychiatric facility, regardless of whether such services are listed on the IPC. Reimbursement for the provision of medically necessary EPSDT services to individuals under age twenty-one (21), while the member is residing in an inpatient psychiatric facility, will be provided in accordance with the Oklahoma Medicaid State Plan.

317:30-5-95.34. Active treatment for children

(a) The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise:

(1) **"Discharge/transition planning"** means a patient-centered, interdisciplinary process that begins with an initial assessment of the patient's potential needs at

the time of admission and continues throughout the patient's stay. Active collaboration with the patient, family and all involved outpatient practitioners and agencies should be ongoing throughout treatment so that effective connections remain intact. Needed services may consist of the wraparound process through Systems of Care, counseling, case management and other supports in their community. The linkages with these supports should be made prior to discharge to allow for a smooth transition.

(2) **"Expressive group therapy"** means art, music, dance, movement, poetry, drama, psychodrama, structured therapeutic physical activities, experiential (e.g. ropes course), recreational, or occupational therapies that encourage the member to express themselves emotionally and psychologically.

(3) **"Family therapy"** means interaction between a licensed behavioral health providers (LBHP) or licensure candidate, member and family member(s) to facilitate emotional, psychological or behavioral changes and promote successful communication and understanding.

(4) **"Group rehabilitative treatment"** means behavioral health remedial services, as specified in the individual care plan, which are necessary for the treatment of the existing primary behavioral health disorders and/or any secondary alcohol and other drug (AOD) disorders in order to increase the skills necessary to perform activities of daily living (ADL).

(5) **"Individual rehabilitative treatment"** means a face to face, one on one interaction which is performed to assist members who are experiencing significant functional impairment due to the existing primary behavioral health disorder and/or any secondary AOD disorder in order to increase the skills necessary to perform ADL.

(6) **"Individual therapy"** means a method of treating existing primary behavioral health disorders and/or any secondary AOD disorders using face to face, one on one interaction between an LBHP or licensure candidate and a member to promote emotional or psychological change to alleviate disorders.

(7) **"Process group therapy"** means a method of treating existing primary behavioral health disorders and/or secondary AOD disorders using the interaction between an LBHP or licensure candidate as defined in OAC 317:30-5-240.3, and two (2) or more members to promote positive emotional and/or behavioral change.

(b) Inpatient psychiatric programs must provide "active treatment." Active treatment involves the member and their family or guardian from the time of an admission throughout the treatment and discharge process. Families and/or guardians must be notified of the dates and times of treatment team meetings and be welcomed to attend. Family members must attend family therapy weekly for continued SoonerCare reimbursement. Reasons for exceptions to this requirement must be well documented in the member's treatment plan. For individuals in the age range of eighteen (18) up to twenty-one (21), it is understood that family members and guardians will not always be involved in the member's treatment. Active treatment also includes an ongoing program of assessment,

Permanent Final Adoptions

diagnosis, intervention, evaluation of care and treatment, and planning for discharge and aftercare under the direction of a physician. Evidence based practices such as trauma informed methodology should be utilized to minimize the use of restraint and seclusion.

(c) For individuals age eighteen (18) up to twenty one (21), the active treatment program must be appropriate to the needs of the member and be directed toward restoring and maintaining optimal levels of physical and psychiatric social functioning. The services and individual plan of care must be recovery focused, trauma informed, specific to culture, age and gender, and provided face to face. Services, including type and frequency, will be specified in the individual plan of care.

(d) For individuals under age eighteen (18), the components of active treatment consist of face to face integrated therapies that are provided on a regular basis and will remain consistent with the member's ongoing need for care. The services and individual plan of care must be recovery focused, trauma informed, and specific to culture, age, and gender. Individuals in acute care must receive seventeen (17) hours of documented active treatment services each week, with seven (7) of those hours being dedicated to core services as described in (1) below. Individuals in PRTFs must receive fourteen (14) hours of documented active treatment services each week, with four and a half (4.5) of those hours being dedicated to core services as described in (1) below. Individuals in Community Based Transitional (CBT) treatment must receive ten (10) hours of documented active treatment services each week, with four and a half (4.5) of those hours being dedicated to core services as described in (1) below. The remainder of the active treatment services may include any or all of the elective services listed in (2) below or additional hours of any of the core services. Sixty (60) minutes is the expectation to equal one (1) hour of treatment. When appropriate to meet the needs of the child, the sixty (60) minute timeframe may be split into sessions of no less than fifteen (15) minutes each on the condition that the active treatment requirements are fully met by the end of the treatment week. The following components meet the minimum standards required for active treatment, although an individual child's needs for treatment may exceed this minimum standard:

(1) Core Services.

(A) **Individual treatment provided by the physician.** Individual treatment provided by the physician is required three (3) times per week for acute care and one (1) time a week in PRTFs. Individual treatment provided by the physician will never exceed ten (10) calendar days between sessions in PRTFs, never exceed seven (7) calendar days in a specialty PRTF and never exceed thirty (30) calendar days in CBTs. Individual treatment provided by the physician may consist of therapy or medication management intervention for acute and residential programs.

(B) **Individual therapy.** LBHPs or licensure candidates performing this service must use and document an approach to treatment such as cognitive behavioral treatment, narrative therapy, solution focused brief therapy or another widely accepted

theoretical framework for treatment. Ongoing assessment of the member's status and response to treatment as well as psycho-educational intervention are appropriate components of individual therapy. Individual therapy must be provided in a confidential setting. The therapy must be goal directed utilizing techniques appropriate to the individual member's plan of care and the member's developmental and cognitive abilities. Individual therapy must be provided two (2) hours per week in acute care and one (1) hour per week in residential treatment by an LBHP or licensure candidate as described in OAC 317:30-5-240.3. One (1) hour of family therapy may be substituted for one (1) hour of individual therapy at the treatment team's discretion.

(C) **Family therapy.** The focus of family therapy must be directly related to the goals and objectives on the individual member's plan of care. Family therapy must be provided one (1) hour per week for acute care and residential. One (1) hour of individual therapy addressing relevant family issues may be substituted for a family session in an instance in which the family is unable to attend a scheduled session by an LBHP or licensure candidate as described in OAC 317:30-5-240.3.

(D) **Process group therapy.** The focus of process group therapy must be directly related to goals and objectives on the individual member's plan of care. The individual member's behavior and the focus of the group must be included in each member's medical record. This service does not include social skills development or daily living skills activities and must take place in an appropriate confidential setting, limited to the therapist, appropriate hospital staff, and group members. Group therapy must be provided three (3) hours per week in acute care and two (2) hours per week in residential treatment by an LBHP or licensure candidate as defined in OAC 317:30-5-240.3. In lieu of one (1) hour of process group therapy, one (1) hour of expressive group therapy provided by an LBHP, licensure candidate, or licensed therapeutic recreation specialist may be substituted.

(E) **Transition/discharge—planning.** Transition/discharge planning must be provided one (1) hour per week in acute care and thirty (30) minutes per week in residential and CBT. Transition/discharge planning can be provided by any level of inpatient staff.

(2) Elective services.

(A) **Expressive group therapy.** Through active expression, inner strengths are discovered that can help the member deal with past experiences and cope with present life situations in more beneficial ways. The focus of the group must be directly related to goals and objectives on the individual member's plan of care. Documentation must include how the member is processing emotions/feelings. Expressive therapy must be a planned therapeutic activity,

facilitated by staff with a relevant bachelor's degree and/or staff with relevant training, experience, or certification to facilitate the therapy.

(B) Group rehabilitative treatment. Examples of educational and supportive services, which may be covered under the definition of group rehabilitative treatment services, are basic living skills, social skills (re)development, interdependent living, self care, lifestyle changes and recovery principles. Each service provided under group rehabilitative treatment services must have goals and objectives, directly related to the individual plan of care.

(C) Individual rehabilitative treatment. Services will be for the reduction of psychiatric and behavioral impairment and the restoration of functioning consistent with the requirements of independent living and enhanced self sufficiency. This service includes educational and supportive services regarding independent living, self care, social skills (re)development, lifestyle changes and recovery principles and practices. Each individual rehabilitative treatment service provided must have goals and objectives directly related to the individualized plan of care and the member's diagnosis.

(D) Recreation therapy. Services will be provided to reduce psychiatric and behavioral impairment as well as to restore, remediate and rehabilitate an individual's level of functioning and independence in life activities. Services will also be provided in such a way as to promote health and wellness as well as reduce or eliminate the activity limitations and restrictions to participation in life situations caused by an illness or disabling condition. Recreational therapy can be provided in an individual or group setting. If the only activities prescribed for the individual are primarily diversional in nature, (i.e. to provide some social or recreational outlet for the individual), it will not be regarded as active treatment. If provided, recreational therapy must be a planned therapeutic activity, facilitated by a licensed therapeutic recreation specialist.

(E) Occupational therapy. Services will be provided to address developmental and/or functional needs related to the performance of self help skills, adaptive behavioral, and/or sensory, motor and postural development. Services include therapeutic goal directing activities and/or exercises used to improve mobility and ADL functions when such functions have been impaired due to illness or injury. Services must be provided by an occupational therapist appropriately licensed in the state in which they practice.

(F) Wellness resource skills development. Services include providing direction and coordinating support activities that promote good physical health. The focus of these activities should include areas such

as nutrition, exercise, support with averting or managing physical health concerns like heart disease, diabetes, and cholesterol, and support regarding the effects of medications have on physical health. Services can include support groups, exercise groups, and individual physical wellness plan development, implementation assistance and support.

(3) Modifications to active treatment. When a member is too physically ill or their acuity level precludes them from active behavioral health treatment, documentation must demonstrate that alternative clinically appropriate services were provided.

(e) The expectation is that active treatment will occur regularly throughout the treatment week. A treatment week in acute is based on the number of days of acute service, beginning the day of admission (day 1). Required active treatment components will be based upon the length of stay as described below. A treatment week in a residential treatment center (RTC), PRTE and CBT is considered to be a calendar week (i.e. Sunday through Saturday). When a child is admitted to RTC, PRTE or CBT level of care on a day other than Sunday, or discharges on a day other than Saturday, the week will be considered a partial week and services will be required as described below. Active treatment components may include assessments/evaluations to serve as the initial individual or family session if completed by an LBHP or licensure candidate. Start and stop time must be documented. Active treatment begins the day of admission. Days noted are calendar days.

(1) Individual treatment provided by the physician.

(A) In acute, by day two (2), one (1) visit is required. By day four (4), two (2) visits are required. By day seven (7), three (3) visits are required.

(B) In RTC, PRTE or CBT, one (1) visit during admission week is required. In RTCs, one (1) visit during the admission week is required, then once a week thereafter. In PRTEs, one (1) visit during the admission week is required, then once a week thereafter. In CBT, one (1) visit is required within seven (7) days of admission. Individual treatment provided by the physician will never exceed ten (10) days between sessions in PRTEs, never exceed seven (7) days in a specialty PRTE and never exceed thirty (30) days in CBTs. The completion of a psychiatric evaluation or a combined psychiatric evaluation and a history and physical (H&P) evaluation may count as the first visit by the physician if the evaluation was personally rendered by the psychiatrist. If the member is admitted on the last day of the admission week, then the member must be seen by a physician within sixty (60) hours of admission time.

(2) Individual therapy.

(A) In acute, by day three (3), thirty (30) minutes of treatment are required. By day five (5), one (1) hour of treatment is required. Beginning on day seven (7), two (2) hours of treatment are required each week. This does not include admission assessments/evaluations or psychosocial evaluations unless personally

(face to face) rendered by the LBHP or licensure candidate.

(B) In residential treatment (including PRTE and CBT), by day six (6), thirty (30) minutes of treatment must be documented. Beginning on day seven (7), one (1) hour of treatment is required each week. The treatment week is defined as Sunday through Saturday. Individual therapy may not exceed a total of ten (10) days between sessions. This does not include admission assessment/evaluation or psychosocial evaluations unless personally (face to face) rendered by the LBHP or licensure candidate.

(3) **Family therapy.**

(A) In acute, by day six (6), thirty (30) minutes of treatment must be documented. Beginning on day seven (7), one (1) hour of treatment is required each week. This does not include admission assessments/evaluation or psychosocial evaluations unless personally (face to face) rendered by the LBHP or licensure candidate and the assessments/evaluation or psychosocial evaluation has not been used to substitute the initial individual therapy requirement.

(B) In residential treatment (including PRTE and CBT), by day six (6), thirty (30) minutes of treatment must be documented. Beginning on day seven (7), one (1) hour of treatment is required each week. This does not include admissions assessment/evaluation or psychosocial evaluation unless personally (face to face) rendered by the LBHP or licensure candidate and the assessment/evaluation or psychosocial evaluation has not been used to substitute the initial individual therapy requirement. Family therapy provided by the LBHP or licensure candidate should not exceed ten (10) days in between sessions.

(4) **Process group therapy.**

(A) In acute, by day three (3), one (1) hour of treatment is required. By day five (5), two (2) hours of treatment are required. Beginning on day seven (7), three (3) hours of treatment are required each week.

(B) In residential treatment (including PRTE and CBT), by day five (5), one (1) hour of treatment is required. Beginning on day seven (7), two (2) hours of treatment are required each week.

(f) When an individual is determined to be too ill to participate in treatment, as determined by medical/nursing staff (registered nurse (RN)/licensed practical nurse (LPN)), documentation must be in the record clearly indicating the reason, limitations, and timeframe for those services to be excused without penalty.

(a) The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise:

(1) **"Active treatment"** means implementation of a professionally developed and supervised individual plan of care (IPC) that involves the member and his or her family or guardian from the time of an admission, and through the treatment and discharge process.

(2) **"Discharge/transition planning"** means a patient-centered, interdisciplinary process that begins with an initial assessment of the member's needs at the time of admission and continues throughout the member's stay. Active collaboration with the member, family, and all involved outpatient practitioners and agencies should be ongoing throughout treatment so that effective connections remain intact. Needed services may consist of the wraparound process through Systems of Care, counseling, case management, and other supports in the member's community. The linkages with these supports should be made prior to discharge to allow for a smooth transition.

(3) **"Expressive group therapy"** means art, music, dance, movement, poetry, drama, psychodrama, structured therapeutic physical activities, and experiential (e.g. ropes course), recreational, or occupational therapies that encourage the member to express themselves emotionally and psychologically.

(4) **"Family therapy"** means interaction between an LBHP or licensure candidate, member, and family member(s) to facilitate emotional, psychological, or behavioral changes and promote successful communication and understanding.

(5) **"Group rehabilitative treatment"** means behavioral health remedial services, as specified in the individual care plan, which are necessary for the treatment of the existing primary behavioral health disorders and/or any secondary alcohol and other drug (AOD) disorders in order to increase the skills necessary to perform activities of daily living (ADL).

(6) **"Individual rehabilitative treatment"** means a face-to-face, one-on-one interaction which is performed to assist a member who is experiencing significant functional impairment due to the existing primary behavioral health disorder and/or any secondary AOD disorder, in order to increase the skills necessary to perform ADL.

(7) **"Individual therapy"** means a method of treating existing primary behavioral health disorders and/or any secondary AOD disorders using face-to-face, one-on-one interaction between an LBHP or licensure candidate and a member to promote emotional or psychological change to alleviate disorders.

(8) **"Process group therapy"** means a method of treating existing primary behavioral health disorders and/or secondary AOD disorders using the interaction between an LBHP or licensure candidate, and two (2) or more members to promote positive emotional and/or behavioral change.

(b) Inpatient psychiatric programs must provide "active treatment". Families and/or guardians must be notified of the dates and times of treatment team meetings and be welcomed to attend. Family members must attend family therapy weekly for continued SoonerCare reimbursement. Reasons for exceptions to this requirement must be well-documented in the member's treatment plan. Family therapy attendance by family members is not a requirement for individuals in the age range of eighteen (18) up to twenty-one (21). Active treatment

also includes ongoing assessment, diagnosis, intervention, evaluation of care and treatment, and planning for discharge and aftercare under the direction of a physician.

(c) For individuals age eighteen (18) up to twenty-one (21), the active treatment program must be appropriate to the needs of the member and be directed toward restoring and maintaining optimal levels of physical and psychiatric-social functioning. The services and the IPC must be recovery-focused, trauma-informed, specific to culture, age, and gender, and provided face to face. Services, including type and frequency, will be specified in the IPC.

(d) A treatment week consists of seven (7) calendar days. In an Acute setting, the treatment week begins the day of admission. In Acute II and PRTF, the treatment week starts on Sunday and ends on Saturday. Active treatment service components are provided as per item (e) below if the services are provided within a seven (7) day treatment week. A chart outlining active treatment component requirements and timelines may also be found at www.okhca.org. If a member has a length of stay of less than seven (7) days, the treatment week is considered a partial treatment week. Active treatment requirements, when provided during a partial treatment week, are delivered as per item (f) below. An hour of treatment must be sixty (60) minutes. When appropriate to meet the needs of the child, the sixty (60) minute timeframe may be split into sessions of no less than fifteen (15) minutes each, on the condition that the active treatment requirements are fully met by the end of the treatment week.

(e) For individuals under age eighteen (18), the components of active treatment consist of face-to-face integrated therapies that are provided on a regular basis and will remain consistent with the member's ongoing need for care. The services and IPC must be recovery-focused, trauma-informed, and specific to culture, age, and gender. Individuals in Acute must receive seventeen (17) hours of documented active treatment services each week, with seven (7) of those hours dedicated to core services as described in (1) below. Individuals in Acute II and PRTFs must receive fourteen (14) hours of documented active treatment services each week, with four and a half (4.5) of those hours dedicated to core services as described in (1) below. Individuals in CBT PRTFs must receive ten (10) hours of documented active treatment services each week, with four and a half (4.5) of those hours dedicated to core services as described in (1) below. Upon fulfilling the core service hours requirement, the member may receive either the elective services listed in (2) below or additional core services to complete the total required hours of active treatment. The following components meet the minimum standards required for active treatment, although an individual child's needs for treatment may exceed this minimum standard:

(1) **Core services.**

(A) **Individual treatment provided by the physician.** Individual treatment provided by the physician is required three (3) times per week for Acute and one (1) time a week in Acute II and PRTFs. Individual treatment provided by the physician will never exceed ten (10) calendar days between sessions in Acute II and PRTFs, never exceed seven (7) calendar days in a

specialty Acute II and specialty PRTF, and never exceed thirty (30) calendar days in CBTs. Individual treatment provided by the physician may consist of therapy or medication management intervention for Acute, Acute II, and PRTF programs.

(B) **Individual therapy.** LBHPs or licensure candidates performing this service must use and document an approach to treatment such as cognitive behavioral treatment, narrative therapy, solution-focused brief therapy, or another widely accepted theoretical framework for treatment. Ongoing assessment of the member's status and response to treatment, as well as psycho-educational intervention, are appropriate components of individual therapy. Individual therapy must be provided in a confidential setting. The therapy must be goal-directed, utilizing techniques appropriate to the member's plan of care and the member's developmental and cognitive abilities. Individual therapy must be provided two (2) hours per week in Acute and one (1) hour per week in Acute II and PRTFs by an LBHP or licensure candidate. One (1) hour of family therapy may be substituted for one (1) hour of individual therapy at the treatment team's discretion.

(C) **Family therapy.** The focus of family therapy must be directly related to the goals and objectives on the individual member's plan of care. Family therapy must be provided one (1) hour per week in Acute, Acute II, and PRTFs. One (1) hour of individual therapy addressing relevant family issues may be substituted for a family session in an instance in which the family is unable to attend a scheduled session by an LBHP or licensure candidate.

(D) **Process group therapy.** The focus of process group therapy must be directly related to goals and objectives on the individual member's plan of care. The individual member's behavior and the focus of the group must be included in each member's medical record. This service does not include social skills development or daily living skills activities and must take place in an appropriate confidential setting, limited to the therapist, appropriate hospital staff, and group members. Group therapy must be provided three (3) hours per week in Acute and two (2) hours per week in Acute II and PRTFs by an LBHP or licensure candidate. In lieu of one (1) hour of process group therapy, one (1) hour of expressive group therapy provided by an LBHP, licensure candidate, or licensed therapeutic recreation specialist may be substituted.

(E) **Transition/discharge planning.** Transition/discharge planning must be provided one (1) hour per week in Acute and thirty (30) minutes per week in Acute II and PRTFs. Transition/discharge planning can be provided by any level of inpatient staff.

(2) **Elective services.**

(A) **Expressive group therapy.** Through active expression, inner-strengths are discovered that can help the member deal with past experiences and cope with present life situations in more beneficial ways. The focus of the group must be directly related to goals and objectives on the individual member's plan of care. Documentation must include how the member is processing emotions/feelings. Expressive therapy must be a planned therapeutic activity, facilitated by staff with a relevant bachelor's degree and/or staff with relevant training, experience, or certification to facilitate the therapy.

(B) **Group rehabilitative treatment.** Examples of educational and supportive services, which may be covered under the definition of group rehabilitative treatment services, are basic living skills, social skills (re)development, interdependent living, self-care, lifestyle changes, and recovery principles. Each service provided under group rehabilitative treatment services must have goals and objectives directly related to the IPC.

(C) **Individual rehabilitative treatment.** Services are provided to reduce psychiatric and behavioral impairment and to restore functioning consistent with the requirements of independent living and enhanced self-sufficiency. This service includes educational and supportive services regarding independent living, self-care, social skills (re)development, lifestyle changes, and recovery principles and practices. Each individual rehabilitative treatment service provided must have goals and objectives directly related to the IPC and the member's diagnosis.

(D) **Recreation therapy.** Services are provided to reduce psychiatric and behavioral impairment and to restore, remediate, and rehabilitate an individual's level of functioning and independence in life activities. Services are provided to promote health and wellness, as well as reduce or eliminate barriers caused by illness or disabling conditions that limit or restrict a member from participating in life activities. Recreational therapy can be provided in an individual or group setting. If the only activities prescribed for the individual are primarily diversional in nature, (i.e., to provide some social or recreational outlet for the individual), it will not be regarded as active treatment. If provided, recreational therapy must be a planned therapeutic activity, facilitated by a licensed therapeutic recreation specialist.

(E) **Occupational therapy.** Services are provided to address developmental and/or functional needs related to the performance of self-help skills, adaptive behavioral, and/or sensory, motor, and postural development. Services include therapeutic goal-directed activities and/or exercises used to improve mobility and ADL functions when such functions have been impaired due to illness or injury. Services must be

provided by an occupational therapist appropriately licensed in the state in which he or she practices.

(F) **Wellness resource skills development.** Services include providing direction and coordinating support activities that promote physical health. The focus of these activities should include areas such as nutrition, exercise, support to avert and manage physical health concerns like heart disease, diabetes, and cholesterol, and guidance on the effects that medications have on physical health. Services can include individual/ group support, exercise groups, and individual physical wellness plan development, implementation, and assistance.

(3) **Modifications to active treatment.** When a member is too physically ill, or his or her acuity level precludes him or her from active behavioral health treatment, documentation must demonstrate that alternative clinically-appropriate services were provided.

(f) Active treatment components, furnished during a partial treatment week, are provided as per item (1) through (4) below. A chart outlining active treatment component requirements and timelines may also be found at www.okhca.org. Assessments/evaluations may serve as the initial individual or family session if completed by an LBHP or licensure candidate. Start and stop time must be documented. Active treatment begins the day of admission. Days noted are calendar days.

(1) **Individual treatment provided by the physician.**

(A) In Acute, by day two (2), one (1) visit is required. By day four (4), two (2) visits are required. By day seven (7), three (3) visits are required.

(B) In Acute II and PRTFs, one (1) visit during admission week is required. In PRTFs, not including CBTs, one (1) visit during the admission week is required, then once a week thereafter. In CBT, one (1) visit is required within seven (7) days of admission, then once a month thereafter. Individual treatment provided by the physician will never exceed ten (10) days between sessions in Acute II and PRTFs, never exceed seven (7) days in specialty Acute II and specialty PRTFs and never exceed thirty (30) days in CBTs. The completion of a psychiatric evaluation or a combined psychiatric evaluation and a history and physical (H&P) evaluation may count as the first visit by the physician if the evaluation was personally rendered by the psychiatrist. If the member is admitted on the last day of the admission week, then the member must be seen by a physician within sixty (60) hours of admission time.

(2) **Individual therapy.**

(A) In Acute, by day three (3), thirty (30) minutes of treatment are required. By day five (5), one (1) hour of treatment is required. Beginning on day seven (7), two (2) hours of treatment are required each week. This does not include admission assessments/evaluations or psychosocial evaluations unless personally (face to face) rendered by the LBHP or licensure candidate.

(B) In Acute II and PRTFs, by day six (6), thirty (30) minutes of treatment must be documented. Beginning on day seven (7), one (1) hour of treatment is required each week. The treatment week is defined as Sunday through Saturday. Individual therapy may not exceed a total of ten (10) days between sessions. This does not include admission assessment/evaluation or psychosocial evaluations unless personally (face to face) rendered by the LBHP or licensure candidate.

(3) **Family therapy.**

(A) In Acute, by day six (6), thirty (30) minutes of treatment must be documented. Beginning on day seven (7), one (1) hour of treatment is required each week. This does not include admission assessments/evaluation or psychosocial evaluations unless personally (face to face) rendered by the LBHP or licensure candidate and the assessments/evaluation or psychosocial evaluation has not been used to substitute the initial individual therapy requirement.

(B) In Acute II and PRTFs, by day six (6), thirty (30) minutes of treatment must be documented. Beginning on day seven (7), one (1) hour of treatment is required each week. This does not include admissions assessment/evaluation or psychosocial evaluation unless personally (face to face) rendered by the LBHP or licensure candidate and the assessment/evaluation or psychosocial evaluation has not been used to substitute the initial individual therapy requirement. Family therapy provided by the LBHP or licensure candidate should not exceed ten (10) days in between sessions.

(4) **Process group therapy.**

(A) In Acute, by day three (3), one (1) hour of treatment is required. By day five (5), two (2) hours of treatment are required. Beginning on day seven (7), three (3) hours of treatment are required each week.

(B) In Acute II and PRTFs, by day five (5), one (1) hour of treatment is required. Beginning on day seven (7), two (2) hours of treatment are required each week.

(g) When an individual is determined to be too ill to participate in treatment, as determined by medical/nursing staff [registered nurse (RN)/licensed practical nurse (LPN)], documentation must be in the record clearly indicating the reason, limitations, and timeframe for those services to be excused without penalty.

317:30-5-95.35. Certificate of need requirements for members under the age of twenty-one (21) children in psychiatric hospital/hospitals and PRTFs

(a) **General requirements.** This Section establishes the requirements for certification of the need for inpatient psychiatric services provided to members under twenty-one (21) years of age in psychiatric hospitals, in accordance with Section 1905(a) 16 and (h) of the Social Security Act, and in PRTFs, in accordance with 42 C.F.R. § 483.354. Pursuant to this federal law, a team, consisting of physicians and other qualified personnel, shall determine that inpatient services are necessary and can reasonably be expected to improve the

member's condition. These requirements do not apply to an admission to a psychiatric unit of a general hospital.

(b) **Definitions.** The following words and terms, when used in this chapter, shall have the following meanings unless the context clearly indicates otherwise.

(1) **"Independent team"** means a team that is not associated with the facility, such that no team member has an employment or consultant relationship with the admitting facility. The independent team shall include a licensed physician who has competence in diagnosis and treatment of mental illness, preferably child psychiatry, and who has knowledge of the member's clinical condition and situation. The independent team shall also include at least one other licensed behavioral health professional, as defined by OAC 317:30-5-240.3.

(2) **"Interdisciplinary team"** as defined by 42 C.F.R. § 441.156, means a team of physicians and other personnel who are employed by, or who provide services to, SoonerCare members in the facility or program. The interdisciplinary team must include, at a minimum, either a board eligible or board certified psychiatrist; or, a licensed physician and a psychologist licensed by the Oklahoma State Board of Examiners of Psychologists (OSBED) who has a doctoral degree in clinical psychology; or, a licensed physician with specialized training and experience in the diagnosis and treatment of mental diseases; and a psychologist licensed by the OSBED. The interdisciplinary team must also include one of the following:

(A) a licensed clinical social worker;

(B) a Registered Nurse with specialized training or one (1) year of experience in treating mentally ill individuals;

(C) and a psychologist licensed by the OSBED who has a doctoral degree in clinical psychology; or,

(D) an occupational therapist who is licensed by the state in which the individual is practicing, if applicable, and who has specialized training or one (1) year of experience in treating mentally ill individuals.

(e) **Certification of the need for services.** As described in 42 C.F.R. § 441.152, the certification shall be made by a team, either independent or interdisciplinary, as specified in (d), below, and shall certify that:

(1) Ambulatory care resources available in the community do not meet the treatment needs of the member;

(2) Proper treatment of the member's psychiatric condition requires services on an inpatient basis under the direction of a physician; and

(3) Services can reasonably be expected to improve the member's condition or prevent further regression so that inpatient services would no longer be needed.

(d) **Certification for admission.** The certification of the need for services, as stated in (c), above, shall be made by the appropriate team, in accordance with 42 C.F.R. § 441.153 and as specified as follows:

(1) Certification for the admission of an individual who is a member when admitted to a facility or program shall be made by an independent team, as described in (b)(1), above.

- (2) Certification for an inpatient applying for SoonerCare while in the facility or program shall be made by an interdisciplinary team responsible for the plan of care and as described in (b)(2), above.
- (3) Certification of an emergency admission of a member shall be made by the interdisciplinary team responsible for the plan of care within fourteen (14) days after admission, in accordance with 42 C.F.R. § 441.156.
- (e) Services provided by treatment team members not meeting the above credentialing requirements are not SoonerCare compensable and can not be billed to the SoonerCare member.
- (a) **General requirements.** This Section establishes the requirements for certification of the need for inpatient psychiatric services provided to individuals under twenty-one (21) years of age in psychiatric hospitals, in accordance with Section 1905(a) 16 and (h) of the Social Security Act, and in PRTFs, in accordance with 42 C.F.R. § 483.354. Pursuant to this federal law, a team, consisting of physicians and other qualified personnel, shall determine that inpatient services are necessary and can reasonably be expected to improve the member's condition. These requirements do not apply to an admission to a psychiatric unit of a general hospital.
- (b) **Definitions.** The following words and terms, when used in this chapter, shall have the following meanings unless the context clearly indicates otherwise.
- (1) **"Independent team"** means a team that is not associated with the facility, such that no team member has an employment or consultant relationship with the admitting facility. The independent team shall include a licensed physician who has competence in diagnosis and treatment of mental illness, preferably child psychiatry, and who has knowledge of the member's clinical condition and situation. The independent team shall also include at least one (1) other LBHP.
- (2) **"Interdisciplinary team"** means, as defined by 42 C.F.R. § 441.156, a team of physicians and other personnel who are employed by, or who provide services to, SoonerCare members in the facility or program. The interdisciplinary team must include, at a minimum, either a board-eligible or board-certified psychiatrist; or, a licensed physician and a psychologist licensed by the Oklahoma State Board of Examiners of Psychologists (OSBEP) who has a doctoral degree in clinical psychology; or, a licensed physician with specialized training and experience in the diagnosis and treatment of mental diseases, and a psychologist licensed by the OSBEP. The interdisciplinary team must also include one (1) of the following:
- (A) A licensed clinical social worker;
- (B) A registered nurse (RN) with specialized training or one (1) year of experience in treating mentally ill individuals;
- (C) A psychologist licensed by the OSBEP who has a doctoral degree in clinical psychology; or
- (D) An occupational therapist who is licensed by the state in which the individual is practicing, if applicable, and who has specialized training or one (1) year of experience in treating mentally ill individuals.

(c) **Certification of the need for services.** As described in 42 C.F.R. § 441.152, the certification shall be made by a team, either independent or interdisciplinary, as specified in (d), below, and shall certify that:

- (1) Ambulatory care resources available in the community do not meet the treatment needs of the member;
- (2) Proper treatment of the member's psychiatric condition requires services on an inpatient basis under the direction of a physician; and
- (3) Services can reasonably be expected to improve the member's condition or prevent further regression so that inpatient services would no longer be needed.
- (d) **Certification for admission.** The certification of the need for services, as stated in (c), above, shall be made by the appropriate team, in accordance with 42 C.F.R. § 441.153 and as specified as follows:

- (1) Certification for the admission of an individual who is a member when admitted to a facility or program shall be made by an independent team, as described in (b)(1), above.
- (2) Certification for an inpatient applying for SoonerCare while in the facility or program shall be made by an interdisciplinary team responsible for the plan of care and as described in (b)(2), above.
- (3) Certification of an emergency admission of a member shall be made by the interdisciplinary team responsible for the plan of care within fourteen (14) days after admission, in accordance with 42 C.F.R. § 441.156.

317:30-5-95.37. Medical, psychiatric and social evaluations for inpatient services for children

The member's medical record must contain complete medical, psychiatric and social evaluations.

- (1) These evaluations are considered critical documents to the integrity of care and treatment and must be completed as follows:
- (A) History and physical evaluation must be completed within 24 hours of admission by a licensed independent practitioner (M.D., D.O., A.P.N., or P.A.) and within 7 days in a CBT.
- (B) Psychiatric evaluation must be completed within 60 hours of admission by an allopathic or osteopathic physician with a current license and a board certification/eligible in psychiatry and within 7 calendar days in a CBT.
- (C) Psychosocial evaluation must be completed within 72 hours of an acute admission, within seven calendar days of admission to a PRTF and within 7 calendar days in a CBT by a licensed independent practitioner (M.D., D.O., A.P.N., or P.A.), a licensed behavioral health professional (LBHP), or Licensure Candidate as defined in OAC 317:30-5-240.3.
- (2) Each of the evaluations must be clearly identified as such and must be signed and dated by the evaluators.
- (3) Each of the evaluations must be completed when the member changes levels of care if the existing evaluation is more than 30 calendar days from admission. For

continued stays at the same level of care, evaluations remain current for 12 months from the date of admission and must be updated annually within seven calendar days of that anniversary date.

(4) Existing evaluations of 30 days or less may be used when a member changes provider or level of care. The evaluation(s) must be reviewed, updated as necessary and signed and dated by the appropriate level of professional as defined by the type of evaluation.

The member's medical record must contain complete medical, psychiatric, and social evaluations.

(1) These evaluations are considered critical documents to the integrity of care and treatment and must be completed as follows:

(A) History and physical evaluation must be completed within twenty-four (24) hours of admission by a licensed independent practitioner (M.D., D.O., A.P.N., or P.A.) in Acute, Acute II, and PRTFs, excluding CBTs, and within seven (7) calendar days of admission in a CBT.

(B) Psychiatric evaluation must be completed within sixty (60) hours of admission by an allopathic or osteopathic physician with a current license and a board certification/eligible in psychiatry in Acute, Acute II, and PRTFs, excluding CBTs, and within seven (7) calendar days of admission in a CBT.

(C) Psychosocial evaluation must be completed within seventy-two (72) hours of an Acute admission, and within seven (7) calendar days of admission to Acute II and PRTFs, including CBTs, by a licensed independent practitioner (M.D., D.O., A.P.N., or P.A.), LBHP, or licensure candidate.

(2) Each of the evaluations must be clearly identified as such and must be signed and dated by the evaluators.

(3) Each of the evaluations must be completed when the member changes levels of care if the existing evaluation is more than thirty (30) calendar days from admission. For continued stays at the same level of care, evaluations remain current for twelve (12) months from the date of admission and must be updated annually within seven (7) calendar days of that anniversary date.

(4) Existing evaluations of thirty (30) days or less may be used when a member changes provider or level of care. The evaluation(s) must be reviewed, updated as necessary, and signed and dated by the appropriate level of professional as defined by the type of evaluation.

317:30-5-95.38. Nursing services for children

Each facility must have a qualified Director of Psychiatric Nursing. In addition to the Director of Nursing, there must be adequate numbers of registered nurses, licensed practical nurses, and mental health workers to provide nursing care necessary under the active treatment program and to maintain progress notes on each member. In a Community Based Transitional RTC, an RN must be on site at least one hour each day and be available 24 hours a day when not on site. A registered nurse must document member progress at least weekly except in a CBT where the requirement will be twice a month. The

progress note must contain recommendations for revisions in the individual plan of care, as needed, as well as an assessment of the member's progress as it relates to the individual plan of care goals and objectives.

Each facility must have a qualified director of psychiatric nursing. In addition to the director of nursing, there must be adequate numbers of registered nurses (RNs), licensed practical nurses (LPNs), and mental health workers to provide nursing care necessary under the active treatment program and to maintain progress notes on each member. In a CBT, an RN must be on site at least one (1) hour each day and be available twenty-four (24) hours a day when not on site. An RN must document member progress at least weekly, except in a CBT where the requirement will be twice a month. The progress note must contain recommendations for revisions in the individual plan of care (IPC), as needed, as well as an assessment of the member's progress as it relates to the IPC goals and objectives.

317:30-5-95.40. Other required standards

The provider is required to maintain all programs and services according to applicable Code of Federal Regulations (CFR) requirements, TJC/AOA standards for Behavioral Health care, State Department of Health's Hospital Standards for Psychiatric Care, and State of Oklahoma Department of Human Services Licensing Standards for Residential Treatment Facilities. Psychiatric Residential Treatment Facilities may substitute CARF accreditation in lieu of TJC or AOA accreditation.

The provider is required to maintain all programs and services according to applicable C.F.R. requirements, the Joint Commission' (TJC) and American Osteopathic Association' (AOA) standards for behavioral health care, Oklahoma State Department of Health's (OSDH) hospital standards for psychiatric care, and Oklahoma Department of Human Services' (OKDHS) licensing standards for residential treatment facilities. PRTFs may substitute the Commission on Accreditation of Rehabilitation Facilities (CARF) accreditation in lieu of TJC or AOA accreditation.

317:30-5-95.41. Documentation of records for ~~children's~~ children receiving inpatient services

(a) All documentation for services provided under active treatment must be documented in an individual note and reflect the content of each session provided. Individual, Family, Process Group, Expressive Group, Individual Rehabilitative and Group Rehabilitative Services documentation must include, at a minimum, the following:

- (1) date;
- (2) start and stop time for each session;
- (3) dated signature of the therapist and/or staff that provided the service;
- (4) credentials of the therapist;
- (5) specific problem(s) addressed (problems must be identified on the plan of care);
- (6) method(s) used to address problems;

Permanent Final Adoptions

- (7) progress made towards goals;
- (8) member's response to the session or intervention;
- and
- (9) any new problem(s) identified during the session.
- (b) Signatures of the member, parent/guardian for members under the age of 18, doctor, Licensed Behavioral Health Professional (LBHP), and RN are required on the individual plan of care and all plan of care reviews. The individual plan of care and plan of care review are not valid until signed and separately dated by the member, parent/legal guardian for members under the age of 18, doctor, RN, LBHP, and all other requirements are met. All treatment team staff providing individual therapy, family therapy and process group therapy must sign the individual plan of care and all plan of care reviews. All plans of care and plan of care reviews must be signed by the member upon completion, except when a member is too physically ill, or the member's acuity level precludes him/her from signing. If the member is too physically ill or the member's acuity level precludes him/her from signing the plan of care and/or the plan of care review at the time of completion, the member must sign the plan when his/her condition improves but before discharge. Documentation should indicate the reason the member was unable to sign and when the next review will occur to obtain the signature.
- (a) All documentation for services provided under active treatment must be documented in an individual note and reflect the content of each session provided. Individual, family, process group, expressive group, individual rehabilitative, and group rehabilitative services documentation must include, at a minimum, the following:
 - (1) Date;
 - (2) Start and stop time for each session;
 - (3) Dated signature of the therapist and/or staff that provided the service;
 - (4) Credentials of the therapist;
 - (5) Specific problem(s) addressed (problems must be identified on the plan of care);
 - (6) Method(s) used to address problems;
 - (7) Progress made towards goals;
 - (8) Member's response to the session or intervention;
 - and
 - (9) Any new problem(s) identified during the session.
- (b) Signatures of the member, parent/guardian for members under the age of eighteen (18), physician, LBHP, and registered nurse (RN) are required on the individual plan of care (IPC) and all plan of care reviews. The IPC and plan of care review are not valid until signed and separately dated by the member, parent/legal guardian for members under the age of eighteen (18), physician, RN, LBHP, and all other requirements are met. All treatment team staff providing individual therapy, family therapy, and process group therapy must sign the IPC and all plan of care reviews. All plans of care and plan of care reviews must be signed by the member upon completion, except when a member is too physically ill, or the member's acuity level precludes him/her from signing. If the member is too physically ill or the member's acuity level precludes him/her from signing the plan of care and/or the plan of care review at the time of

completion, the member must sign the plan when his/her condition improves but before discharge. Documentation should indicate the reason the member was unable to sign and when the next review will occur to obtain the signature.

(c) Candidates for licensure for licensed professional counselor, social work (clinical specialty only), licensed marital and family therapist, licensed behavioral practitioner, licensed alcohol and drug counselor, and psychology (mental health specialty only) can provide assessments, psychosocial evaluations, individual therapy, family therapy, and process group therapy as long as they are involved in supervision that complies with their respective, approved licensing regulations and licensing boards. Additionally, their work must be co-signed and dated by a fully-licensed LBHP in good standing, who is a member on the treatment team. Individuals who have met their supervision requirements and are waiting to be licensed in one (1) of the areas of practice in OAC 317:30-5-240.3(a)(2) must have their work co-signed by a fully-licensed LBHP in good standing, who is a member on the treatment team. All co-signatures by fully-licensed LBHPs in good standing, must be accompanied by the date that the co-signature was made. Documentation of the service is not considered complete until it is signed and dated by a fully-licensed LBHP in good standing.

317:30-5-95.42. Service quality review (SQR) of psychiatric facilities providing services to children

- (a) The Service Quality Review conducted by OHCA or its designated agent meets the utilization control requirements as set forth in 42 CFR 456.
- (b) There will be an on-site Service Quality Review (SQR) of each in-state psychiatric facility that provides care to SoonerCare eligible children which will be performed by the OHCA or its designated agent. Out of state psychiatric facilities that provide care to SoonerCare eligible children will be reviewed according to the procedures outlined in the Medical Necessity Manual. OHCA or its designated agent may conduct ad hoc reviews. Ad hoc reviews may be conducted at the discretion of the agency.
- (c) The Oklahoma Health Care Authority will designate the members of the Service Quality Review team. The SQR team will consist of one to three team members and will be comprised of Licensed Behavioral Health Professionals (LBHP) or Registered Nurses.
- (d) The review will include observation and contact with members. The Service Quality Review will consist of members present or listed as facility residents at the beginning of the Service Quality Review visit as well as members on which claims have been filed with OHCA for acute or PRTF levels of care. The review includes validation of certain factors, all of which must be met for the services to be compensable.
- (e) Following the on-site inspection, the SQR Team will report its findings to the facility. The facility will be provided with written notification if the findings of the review have resulted in any deficiencies. A copy of the final report will be sent to the facility's accrediting agency.

(f) Deficiencies found during the SQR may result in a partial per diem recoupment or a full per diem recoupment of the compensation received. The following documents are considered to be critical to the integrity of care and treatment, must be completed within the time lines designated in OAC 317:30-5-95.37, and cannot be substituted with any other evaluation/assessments not specifically mentioned:

- (1) History and physical evaluation;
- (2) Psychiatric evaluation;
- (3) Psychosocial evaluation; and
- (4) Individual Plan of Care.

(g) For each day that the History and Physical evaluation, Psychiatric evaluation, Psychosocial evaluation and/or Individual Plan of Care are not contained within the member's records, those days will warrant a partial per diem recoupment.

(h) If the review findings have resulted in a partial per diem recoupment of \$50.00 per event, the days of service involved will be reported in the notification. If the review findings have resulted in full per diem recoupment status, the non-compensable days of service will be reported in the notification. In the case of non-compensable days full per diem or partial per diem, the facility will be required to refund the amount.

(i) In the event that CMS recoups from OHCA an amount that exceeds the provider's liability for findings described in this Section, the provider will not be held harmless and will be required to reimburse OHCA the total federal amount identified by CMS and/or its designated audit contractor.

(j) Penalties of non-compensable days which are the result of the facility's failure to appropriately provide and document the services described herein, or adhere to applicable accreditation, certification, and/or state licensing standards, are not compensable or billable to the member or the member's family.

(a) The service quality review (SQR) conducted by the OHCA or its designated agent meets the utilization control requirements as set forth in 42 C.F.R. Part 456.

(b) There will be an SQR of each in-state psychiatric facility that provides services to SoonerCare members which will be performed by the OHCA or its designated agent. Out-of-state psychiatric facilities that provide services to SoonerCare members will be reviewed according to the procedures outlined in the Medical Necessity Manual. Ad hoc reviews may be conducted at the discretion of the agency.

(c) The OHCA will designate the members of the SQR team. The SQR team will consist of one (1) to three (3) team members and will be comprised of LBHPs or registered nurses (RNs).

(d) The SQR will include, but not be limited to, review of facility and clinical record documentation as well as observation and contact with members. The clinical record review will consist of those records of members present or listed as facility residents at the beginning of the visit as well as members on which claims have been filed with OHCA for acute or PRTE levels of care. The SQR includes validation of compliance with policy, which must be met for the services to be compensable.

(e) Following the SQR, the SQR team will report its findings to the facility. The facility will be provided with written notification if the findings of the review have resulted in any

deficiencies. A copy of the final report will be sent to the facility's accrediting agency, as well as the State Survey Agency and any licensing agencies.

(f) Deficiencies identified during the SQR may result in full or partial recoupment of paid claims. The determination of whether to assess full or partial recoupment shall be at the discretion of the OHCA based on the severity of the deficiencies.

(g) Any days during which the facility is determined to be out of compliance with Federal Conditions of Participation or in which a member does not meet medical necessity criteria will result in full recoupment. Full recoupment may also result from a facility's failure to provide requested documentation within the timeframes indicated on requests for such documents or if the SQR team is denied timely admittance to a facility and/or access to facility records during the on-site portion of the SQR.

(h) Items which may result in full or partial recoupment of paid claims shall include, but not be limited to:

(1) **Assessments and evaluations.** Assessments and evaluations must be completed, with dated signature(s), by qualified staff within the timeframes outlined in Oklahoma Administrative Code (OAC) 317:30-5-95.6 and 317:30-5-95.37.

(2) **Plan of care.** Plans of care must be completed, with all required dated signatures within the timeframes described in OAC 317:30-5-95.4 and 317:30-5-96.33.

(3) **Certification of need (CON).** CONs must be completed by the appropriate team and in the chart within the timeframes outlined in 42 C.F.R. §§ 441.152, 456.160, and 456.481.

(4) **Active treatment.** Treatment must be documented in the chart at the required frequency by appropriately qualified staff as described in OAC 317:30-5-95.5, 317:30-5-95.7, 317:30-5-95.8, 317:30-5-95.9, 317:30-5-95.10 and 317:30-5-95.34.

(5) **Documentation of services.** Services must be documented in accordance with OAC 317:30-5-95.5, 317:30-5-95.8, 317:30-5-95.10, 317:30-5-95.41 and 42 C.F.R. §§ 412.27(c)(4) and 482.61. Documentation with missing elements or documentation that does not clearly demonstrate the therapeutic appropriateness and benefit of the service may result in recoupment.

(6) **Staffing.** Staffing must meet the ratios described in OAC 317:30-5-95.24(b)-(d) & (h) and OAC 317:30-5-95.38 per unit/per shift; and credentialing requirements as outlined in OAC 317:30-5-95.8, 317:30-5-95.9, 317:30-5-95.35, 317:30-5-95.36, and 42 C.F.R. §§ 412.27(d), 441.153, 441.156, and 482.62.

(7) **Restraint/seclusion.** Orders for restraint and seclusion must be completely and thoroughly documented with all required elements as described in OAC 317:30-5-95.39 and 42 C.F.R. §482.13(e) & (f) and 42 C.F.R. Part 483. Documentation must support the appropriateness and necessity for the use of restraint/seclusion. For PRTFs, documentation must include evidence that staff and resident debriefings occurred as required by OAC 317:30-5-95.39 and 42 C.F.R. Part 483.

Permanent Final Adoptions

(i) If the review findings have resulted in a recoupment, the days and/or services involved will be reported in the notification.

(j) In the event that CMS recoups from OHCA an amount that exceeds the provider's liability for findings described in this Section, the provider will not be held harmless and will be required to reimburse OHCA the total federal amount identified by CMS and/or its designated audit contractor, limited to the amount of the original paid claim less any previously recouped amounts.

(k) Penalties of non-compensable days which are the result of the facility's failure to appropriately provide and document the services described herein, or adhere to applicable accreditation, certification, and/or state licensing standards, are not compensable or billable to the member or the member's family.

(l) Facilities that are determined to owe recoupment of paid claims will have the ability to request a reconsideration of the findings. Details and instructions on how to request a reconsideration will be part of the report documentation sent to the facility.

(m) Facilities that are determined by the SQR process to be out of compliance in significant areas will be required to submit a Corrective Action Plan (CAP) detailing steps being taken to bring performance in line with requirements. Facilities that are required to submit a CAP may be further assessed through a formal, targeted post-CAP review process.

317:30-5-96.2. Payments definitions

The following words and terms, when used in Sections OAC 317:30-5-96.3 through 317:30-5-96.7, shall have the following meaning, unless the context clearly indicates otherwise:

"Allowable costs" means costs necessary for the efficient delivery of member care.

"Ancillary Services" means the services for which charges are customarily made in addition to routine services. Ancillary services include, but are not limited to, physical therapy, speech therapy, laboratory, radiology and prescription drugs.

"Border Status" means a placement in a state that does not border Oklahoma but agrees to the same terms and conditions of in-state or border facilities.

"Developmentally disabled child" means a child with deficits in adaptive behavior originating during the developmental period. This condition may exist concurrently with a significantly subaverage general intellectual functioning.

"Eating Disorders Programs" means acute or intensive residential behavioral, psychiatric and medical services provided in a discreet unit to individuals experiencing an eating disorder.

"Professional services" means services of a physician, psychologist or dentist legally authorized to practice medicine and/or surgery by the state in which the function is performed.

"Psychiatric Residential Treatment Facility (PRTF)" means a non-hospital with an agreement to provide inpatient psychiatric services to individuals under the age of 21.

"Routine Services" means services that are considered routine in the freestanding PRTF setting. Routine services include, but are not limited to:

- (A) room and board;
- (B) treatment program components;
- (C) psychiatric treatment;
- (D) professional consultation;
- (E) medical management;
- (F) crisis intervention;
- (G) transportation;
- (H) rehabilitative services;
- (I) case management;
- (J) interpreter services (if applicable);
- (K) routine health care for individuals in good physical health; and
- (L) laboratory services for a substance abuse/detoxification program.

"Specialty treatment program/specialty unit" means acute or intensive residential behavioral, psychiatric and medical services that provide care to a population with a special need or issues such as developmentally disabled, intellectually disabled, autistic/Asperger's, eating disorders, sexual offenders, or reactive attachment disorders. These members require a higher level of care and staffing ratio than a standard PRTF and typically have multiple problems.

"Treatment Program Components" means therapies, activities of daily living and rehabilitative services furnished by physician/psychologist or other licensed mental health professionals.

"Usual and customary charges" refers to the uniform charges listed in a provider's established charge schedule which is in effect and applied consistently to most members and recognized for program reimbursement. To be considered "customary" for reimbursement, a provider's charges for like services must be imposed on most members regardless of the type of member treated or the party responsible for payment of such services.

The following words and terms, when used in OAC 317:30-5-96.3 through 317:30-5-96.7, shall have the following meaning, unless the context clearly indicates otherwise:

"Add-on payment" means an additional payment added to the per diem to recognize the increased cost of serving members with complex needs in a PRTF or Acute II.

"Allowable costs" means costs necessary for the efficient delivery of member care.

"Ancillary services" means the services for which charges are customarily made in addition to routine services. Ancillary services include, but are not limited to, physical therapy, speech therapy, laboratory, radiology, and prescription drugs.

"Border status" means a placement in a state that does not border Oklahoma. Reimbursement for out-of-state services is made in accordance with OAC 317:30-3-89 through 317:30-3-92 and the Oklahoma Medicaid State Plan.

"Developmentally disabled child" means a child with deficits in adaptive behavior originating during the developmental period. This condition may exist concurrently with a significantly subaverage general intellectual functioning.

"Eating disorder programs" means acute or intensive residential behavioral, psychiatric, and medical services provided in a discreet unit to individuals experiencing an eating disorder.

"Professional services" means services of a physician, psychologist, or dentist legally authorized to practice medicine and/or surgery by the state in which the function is performed.

"Routine services" means services that are considered routine in the Acute II and PRTF levels of care setting. Routine services include, but are not limited to:

- (A) Room and board;
- (B) Treatment program components;
- (C) Psychiatric treatment;
- (D) Professional consultation;
- (E) Medical management;
- (F) Crisis intervention;
- (G) Transportation;
- (H) Rehabilitative services;
- (I) Case management;
- (J) Interpreter services (if applicable);
- (K) Routine health care for individuals in good physical health; and
- (L) Laboratory services for a substance abuse/detoxification program.

"Specialty treatment program/specialty unit" means Acute or other intensive behavioral, psychiatric, and medical services that provide care to a population with special needs or issues such as developmentally disabled, intellectually disabled, autistic/Asperger's, eating disorders, sexual offenders, or reactive attachment disorders. These members require a higher level of care and staffing ratio than a standard PRTF and typically have multiple problems.

"Treatment program components" means therapies, activities of daily living, and rehabilitative services furnished by physician/psychologist or other licensed mental health professionals.

"Usual and customary charges" means the uniform charges listed in a provider's established charge schedule which is in effect and applied consistently to most members and recognized for program reimbursement. To be considered "customary" for reimbursement, a provider's charges for like services must be imposed on most members regardless of the type of member treated or the party responsible for payment of such services.

317:30-5-96.3. Methods of payment

(a) **Reimbursement.** Covered inpatient psychiatric and/or substance abuse services will be reimbursed using one of the following methodologies:

- (1) Diagnosis Related Group (DRG);
- (2) cost-based; or
- (3) a predetermined per diem payment.

(b) **Acute Level of Care.**

- (1) Psychiatric units within general medical-surgical hospitals and Critical Access hospitals. Payment will be made utilizing a DRG methodology. [See OAC 317:30-5-41(b)]. Psychiatric professional (physicians and psychologists) services provided in conjunction with the inpatient

stay are separately payable from the DRG paid to the hospital;

(2) Freestanding Psychiatric Hospitals. A predetermined statewide per diem payment will be made for all facility services provided during the inpatient stay. Psychiatric professional (physicians and psychologists) services provided in conjunction with the inpatient stay are separately payable from the per diem paid to the hospital. Rates vary for public and private providers.

(e) **Residential Level of Care**

(1) **Instate Services.**

(A) Psychiatric Hospitals or Inpatient Psychiatric Programs. A pre-determined all inclusive per diem payment will be made for routine, ancillary and professional services. Public facilities will be reimbursed using either the statewide or facility specific interim rates and settled to total allowable costs as determined by analyses of the cost reports (Form CMS 2552) filed with the OHCA.

(B) Psychiatric Residential Treatment Facilities. A pre-determined per diem payment will be made to private PRTFs with 16 beds or less for routine services. All other services are separately billable. A predetermined all inclusive per diem payment will be made for routine, ancillary and professional services to private facilities with more than 16 beds. Public facilities will be reimbursed using either the statewide or facility specific interim rates and settled to total allowable costs as determined by analyses of the cost reports (Form 2552) filed with the OHCA.

(2) **Out-of-state services.**

(A) Border and "border status" placements. Facilities are reimbursed in the same manner as in-state hospitals or PRTFs.

(B) Out-of-state placements. In the event comparable services cannot be purchased from an Oklahoma facility and the current payment levels are insufficient to obtain access for the member, the OHCA may negotiate a predetermined, all inclusive per diem rate for specialty programs/units. An incremental payment adjustment may be made for 1:1 staffing (if clinically appropriate and prior authorized). Payment may be up to, but no greater, than usual and customary charges. The 1:1 staffing adjustment is limited to 60 days annually.

(d) **Health Home Transitioning Services.** Health Home services for the provision of comprehensive transitional care to existing members are considered to be inpatient psychiatric services, when services exceed and do not duplicate ordinary inpatient discharge planning during the last 30 days of a covered acute or residential stay. Payment for Health Home transitioning services provided under arrangement with the inpatient provider will be directly reimbursed to the Health Home outside of the facility's per diem or DRG rate.

(a) **Reimbursement.**

(1) Covered inpatient psychiatric and/or substance use disorder services will be reimbursed using one (1) of the following methodologies:

Permanent Final Adoptions

- (A) Diagnosis related group (DRG);
 - (B) Cost-based; or
 - (C) A predetermined per diem payment.
 - (2) For members twenty-one (21) to sixty-four (64) years of age, payment shall not be made to any inpatient psychiatric facility that qualifies as an IMD, except as provided by OAC 317:30-5-95.23 and 317:30-5-95.11.
- (b) **Levels of care.**
- (1) **Acute.**
 - (A) Payment will be made to psychiatric units within general medical surgical hospitals and critical access hospitals utilizing a DRG methodology. [See OAC 317:30-5-41]. Psychiatric professional (physicians and psychologists) services provided in conjunction with the inpatient stay are separately payable from the DRG paid to the hospital;
 - (B) Payment will be made to psychiatric hospitals utilizing a predetermined statewide per diem payment for all facility services provided during the inpatient stay. Psychiatric professional (physicians and psychologists) services provided in conjunction with the inpatient stay are separately payable from the per diem paid to the hospital. Rates vary for public and private providers.
 - (2) **Acute II.**
 - (A) Payment will be made to in-state psychiatric hospitals or inpatient psychiatric programs utilizing a predetermined all-inclusive per diem payment for routine, ancillary, and professional services.
 - (B) Public facilities will be reimbursed using either the statewide or facility-specific interim rates and settled to total allowable costs as determined by analyses of the cost reports (Form CMS 2552) filed with the OHCA.
 - (3) **PRTFs.**
 - (A) A pre-determined per diem payment will be made to private PRTFs with sixteen (16) beds or less for routine services. All other services are separately billable.
 - (B) A predetermined all-inclusive per diem payment will be made for routine, ancillary, and professional services to private facilities with more than sixteen (16) beds.
 - (C) Public facilities will be reimbursed using either the statewide or facility-specific interim rates and settled to total allowable costs as determined by analyses of the cost reports (Form CMS 2552) filed with the OHCA.
- (c) **Out-of-state services.**
- (1) **Border and "border status" placements.** Facilities are reimbursed in the same manner as in-state hospitals or PRTFs. Refer to OAC 317:30-3-90 and 317:30-3-91.
 - (2) **Out-of-state placements.** In the event comparable services cannot be purchased from an Oklahoma facility and the current payment levels are insufficient to obtain
- access for the member, the OHCA may negotiate a pre-determined, all-inclusive per diem rate for specialty programs/units. An incremental payment adjustment may be made for one (1): one (1) staffing (if clinically appropriate and prior authorized). Payment may be up to, but no greater, than usual and customary charges. The one (1): one (1) staffing adjustment is limited to sixty (60) days annually. Refer to OAC 317:30-3-90 and 317:30-3-91.
- (d) **Add-on payments.**
- (1) Additional payment shall only be made for services that have been prior authorized by OHCA or its designee and determined to be medically necessary. For medical necessity criteria applicable for the add-on payment(s), refer to the SoonerCare Medical Necessity Criteria Manual for Inpatient Behavioral Health Services found on the OHCA website.
 - (2) SoonerCare shall provide additional payment for the following services rendered in an Acute II and PRTE, as per the Oklahoma Medicaid State Plan.
 - (A) **Intensive treatment services (ITS) add-on.** Payment shall be made for members requiring intensive staffing supports.
 - (B) **Prospective complexity add-on.** Payment shall be made to recognize the increased cost of serving members with a mental health diagnosis complicated with non-verbal communication.
 - (C) **Specialty add-on.** Payment shall be made to recognize the increased cost of serving members with complex needs.
- (e) **Services provided under arrangement.**
- (1) **Health home transitioning services.**
 - (A) Services for the provision of comprehensive transitional care to existing members are considered to be inpatient psychiatric services, when services exceed and do not duplicate ordinary inpatient discharge planning during the last thirty (30) days of a covered acute or residential stay.
 - (B) Payment for health home transitioning services provided under arrangement with the inpatient provider will be directly reimbursed to the health home outside of the facility's per diem or DRG rate.
 - (2) **Case management transitioning services.**
 - (A) Services for the provision of case management transitioning services to existing members are considered to be inpatient psychiatric services, when services exceed and do not duplicate ordinary inpatient discharge planning during the last thirty (30) days of a covered acute or residential stay.
 - (B) Payment for case management transitioning services provided under arrangement with the inpatient provider will be directly reimbursed to a qualified community-based provider.
 - (3) **Evaluation and psychological testing by a licensed psychologist.**
 - (A) Services for the provision of evaluation and psychological testing by a licensed psychologist to

existing members are considered to be inpatient psychiatric services, when services exceed and do not duplicate ordinary inpatient discharge planning during the last thirty (30) days of a covered acute or residential stay.

(B) Payment for evaluation and psychological testing by a licensed psychologist for services provided under arrangement with the inpatient provider will be directly reimbursed to a qualified provider in accordance with the Oklahoma Medicaid State Plan.

GIST/ANALYSIS:

The proposed revisions will increase the number of covered inpatient rehabilitation hospital days for adult SoonerCare members from twenty-four (24) days per state fiscal year to ninety (90) days per state fiscal year. These changes are necessary to meet the health care needs of SoonerCare members by increasing access to stabilization services in an inpatient rehabilitation setting.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,**

**SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 8. REHABILITATION HOSPITALS

317:30-5-111. Coverage for adults

For persons ~~21~~twenty-one (21) years of age or older, payment is made to hospitals for inpatient services as described in this section.

(1) All general inpatient hospital services which are not provided under the Diagnosis Related Group (DRG) payment methodology for all persons ~~21~~twenty-one (21) years of age or older is limited to ~~24~~ninety (90) days per person per state fiscal year (July 1 through June 30). The ~~24~~ninety (90) day limitation applies to both hospital and physician services. No exceptions or extensions will be made to the ~~24~~ninety (90) day inpatient services limitation.

(2) All inpatient stays are subject to post-payment utilization review by the ~~OHCA's~~Oklahoma Health Care Authority's (OHCA) designated Quality Improvement Organization (QIO). These reviews are based on severity of illness and intensity of treatment.

(A) It is the policy and intent of OHCA to allow hospitals and physicians the opportunity to present any and all documentation available to support the medical necessity of an admission and/or extended stay of a SoonerCare member. If the QIO, upon their initial review determines the admission should be denied, a notice is issued to the facility and the attending physician advising them of the decision. This notice also advises that a reconsideration request may be submitted within the specified time frame on the notice and consistent with the Medicare guidelines. Additional information submitted with the reconsideration request is reviewed by the QIO that utilizes an independent physician advisor. If the denial decision is upheld through this review of additional information, the QIO sends written notification of the denial decision to the hospital, attending physician and the OHCA. Once the OHCA has been notified, the overpayment is processed as per the final denial determination.

(B) If the hospital or attending physician did not request reconsideration from the QIO, the QIO informs OHCA there has been no request for reconsideration and as a result their initial denial decision is final. OHCA, in turn, processes the overpayment as per the denial notice sent to the OHCA by the QIO.

(C) If an OHCA, or its designated agent, review results in denial and the denial is upheld throughout the appeal process and refund from the hospital and

Permanent Final Adoptions

physician is required, the member cannot be billed for the denied services.

(3) If a hospital or physician believes that a hospital admission or continued stay is not medically necessary and thus not compensable but the member insists on treatment, the member should be informed that he/she will be personally responsible for all charges. If a claim is filed and paid and the service is later denied, the patient is not responsible.

(4) Payment is made to a participating hospital for hospital based physician's services. The hospital must have a Hospital-Based Physician's contract with OHCA for this method of billing.

(5) Outpatient services for adults are covered as listed in ~~OAC~~Oklahoma Administrative Code 317:30-5-42.1.

GIST/ANALYSIS:

The proposed revisions will remove rule sections that were created for the nursing home supplemental payment program, a program that was never implemented; the Centers for Medicare and Medicaid Services (CMS) did not ultimately approve the proposal.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 9. LONG-TERM CARE FACILITIES

317:30-5-136. Nursing Facility Supplemental Payment Program [REVOKED]

(a) **Purpose.** The Nursing Facility Supplemental Payment Program (NFSPP) is a supplemental payment, up to the Medicare upper payment limit (UPL), made to a non-state government owned entity that owns and as applicable has operating responsibility for a nursing facility(ies).

(b) **Definitions.** The following words and terms, when used in this Section have the following meaning, unless the context clearly indicates otherwise:

(1) **"Funds"** means a sum of money or other resources, as outlined in Public Funds as the State Share of Financial Participation, 42 Code of Federal Regulation (C.F.R.), Sec.433.51, appropriated directly to the State or local Medicaid agency, or funds that are transferred from other public agencies (including Indian tribes) to the State or local agency and under its administrative control, or funds certified by the contributing public agency as representing expenditures eligible for Federal Financial Participation (FFP).

(2) **"Intergovernmental transfer (IGT)"** means a transfer of state share funds from a non state government owned entity to the Oklahoma Health Care Authority (OHCA).

(3) **"Non-state government owned (NSGO)"** means an entity owned and/or operated by a unit of government other than the state and the application packet is accepted and determined complete by OHCA as a qualified NSGO.

(4) **"Resource Utilization Groups (RUGs)"** means the system used to set Medicare per diem payments for skilled nursing facilities, as the basis to demonstrate a Medicare payment estimate for use in the UPL calculation.

(5) **"Supplemental payment calculation period"** means the State Fiscal Year for which supplemental payment amounts are calculated based on Medicaid paid claims (less leave days) compiled from the state's Medicaid Management Information System (MMIS) at a minimum yearly to a maximum quarterly.

(6) **"Upper payment limit (UPL)"** means a reasonable estimate of the amount that would be paid for the services furnished by a facility under Medicare equivalent payment.

(e) **Eligible nursing facilities.** A nursing facility that is owned and as applicable under the operational responsibility

of an NSGO, is eligible for participation when the following conditions are met:

- (1) the nursing facility is licensed and certified by the Oklahoma State Department of Health;
 - (2) the participating NSGO has provided proof that it holds the facility's license and has complete operational responsibility for the facility;
 - (3) the participating NSGO has completed and submitted the Agreement of Participation application at minimum thirty (30) days prior to the start of the participation quarter and received the application packet is accepted and determined complete by OHCA;
 - (4) the facility is an active participant in the Focus on Excellence program and has earned at minimum one hundred (100) points; does not receive an immediate jeopardy (IJ) scope and severity tag for abuse or neglect on three (3) separate surveys within a twelve (12) month period; and
 - (5) the facility and NSGO comply with care criteria requirements. All facilities shall provide supporting documentation (e.g., baselines, written plan, improvement summary, data sources) for the care criteria metrics.
- (d) **NSGO participation requirements.** The following conditions are required of the NSGO:
- (1) shall provide proof of ownership, if applicable (i.e. Change of Ownership) as licensed operator of the nursing facility;
 - (2) shall provide proof of proximity requirements of no greater than one hundred fifty (150) miles of NSGO. Exceptions may be made at the sole discretion of OHCA;
 - (3) shall execute a nursing facility provider contract as well as an agreement of participation with the OHCA;
 - (4) shall provide OHCA with an executed Management Agreement between the NSGO and the facility manager;
 - (5) shall provide and identify the state share dollars' source of the IGT;
 - (6) shall pay the calculated IGT to OHCA by the required deadline;
 - (7) shall utilize program dollars for health care related expenditures; and
 - (8) shall provide per facility, the per patient per Medicare day (PPMD) IGT within specified timeframe of receipt of the Notice of Program Reimbursement (NPR) as indicated below:
 - (A) For the first year \$6.50 PPMD.
 - (B) For the second year \$7.50 PPMD.
 - (C) For the third year \$8.50 PPMD, or the equivalent of ten percent (10%) of nursing facility budget of the current fiscal year, whichever is less. This amount excludes any IGT for actual administration cost associated with the nursing home UPL supplemental program. Any remaining IGT after administration cost shall be distributed through the rate setting methodology process. Distribution shall occur once escrowed funds reach an amount sufficient to distribute as determined by OHCA.
- (e) **Change in ownership.**
- (1) A nursing facility participating in the supplemental payment program shall notify the OHCA of changes

in ownership (CHOW) that may affect the nursing facility's continued eligibility within thirty (30) days after such change.

(2) For a nursing facility that changes ownership on or after the first day of the SoonerCare supplemental payment limit calculation period, the data used for the calculations will include data from the facility for the entire upper payment limit calculation period relating to payments for days of service provided under the prior owner, pro-rated to reflect only the number of calendar days during the calculation period that the facility is owned by the new owner.

(f) **Care Criteria.** Each facility shall be required to participate in the following care criteria components to receive UPL financial reimbursement.

(1) **Component 1—Quality Improvement Plan.** A facility shall hold monthly Quality Improvement Plan meetings. The meetings shall be tailored to identify an improvement plan for quality enhancement focused on nursing facility safety, quality of resident life, personal rights, choice and respect. Consistent with 42 CFR 483.75. Quality indicators shall be identified during the meetings and include the following:

(A) A written plan to include but not limited to the development, implementation and evaluation of the quality enhancement indicator. The plan shall be reviewed monthly for ongoing quality indicator progress, completion of the quality indicator and/or routine updates on the sustainability of current and/or prior indicators achieved.

(B) The design and scope of the plan should include the specific system and service that will be utilized to monitor and track performance improvement, the staff included to improve the quality indicator, resident choice, subjective/objective evidence and ongoing measures taken to ensure stability and enhancement. This may include but not be limited to a written policy, a procedure manual, data collections systems, management practices, resident/staff interviews, and trainings.

(C) Outcomes shall include evidence of improvement, cost expenditures toward improvement goal, how the facility shall continue to monitor the effectiveness of its quality enhancement and how it shall have ongoing sustainability.

(D) Facility shall submit program documentation monthly. The information shall include A-D as well as OHCA required form LTC-19.

(E) The quality improvement plan shall be reviewed monthly by the OHCA quality review team. Payment shall be assessed in increments of 20 percent (20%) per month for a total of 60 percent (60%) per quarter if approved.

(2) **Component 2—Health Improvement Plan.**

(A) A facility shall hold quarterly Health Improvement Plan meetings. The meetings shall be tailored to identify an improvement plan for the quality indicators of urinary tract infection, unintended weight

loss, developing or worsening pressure ulcers, and received antipsychotic medication. Meetings include the following:

(i) A written plan to include but not limited to the development, implementation and evaluation of the quality enhancement indicator. The plan shall be reviewed quarterly for ongoing quality indicator progress, completion of the quality indicator and/or routine updates on the sustainability of current and/or prior indicators achieved.

(ii) The design and scope of the plan should include the specific system and service that shall be utilized to monitor and track performance improvement, the staff included to improve the quality indicator, resident choice, subjective/objective evidence and ongoing measures taken to ensure stability and enhancement. This may include but not be limited to a written policy, a procedure manual, data collections systems, management practices, resident/staff interviews, and trainings.

(iii) Outcomes shall include evidence of improvement, cost expenditures toward improvement, how the facility will continue to monitor the effectiveness of its quality enhancement and how it shall have ongoing sustainability.

(iv) Facility shall submit program documentation quarterly. The information will include i-iii as well as OHCA required form LTC 18.

(B) The health improvement plan shall be reviewed quarterly by the OHCA quality review team. Payment shall be assessed in increments of ten percent (10%) by achieving five percent (5%) relative improvement or by achieving the national average benchmark per each of the four (4) components quarterly for a total of forty percent (40%) per quarter if approved.

(3) **Care Criteria Evaluation and Audit.** The care criteria measures may be evaluated at the discretion of OHCA on an annual basis after each fiscal year, following implementation of the program. However, OHCA reserves the right to conduct intermittent evaluations within any given year based on the quality, care and safety of SoonerCare members. The evaluation may be conducted by an independent evaluator. In addition, care criteria metrics may be internally evaluated after each fiscal year at the discretion of OHCA. The OHCA may make adjustments to the care criteria measures based on findings and recommendations as a result of the independent or internal evaluation.

(g) **Supplemental Payments.**

(1) The nursing facility supplemental payments to a NSGO under this program shall not exceed Medicare payment principles pursuant to Inpatient Services: Application of Upper Payment Limits, 42 C.F.R., Sec. 447.272. Payments are made in accordance with the following criteria:

(A) The methodology utilized to calculate the upper payment limit is the RUGs.

(B) The eligible supplemental amount is the difference/gap between the SoonerCare payment and the Medicare equivalent payment as determined based on compliance with the care criteria metrics.

(2) The amount of the eligible supplemental payment is associated with improvement of care of SoonerCare nursing facility residents as demonstrated through the care criteria. The quality components are evaluated monthly with a quarterly payout. Component 1 is assessed at twenty percent (20%) per month with a possible total achievement of sixty percent (60%) per quarter. Component 2 is assessed at ten percent (10%) per each of the four (4) components with a possible total achievement of 40 percent (40%) per quarter. Facilities will be reimbursed accordingly based on the percentage of care criteria earned.

(h) **Disbursement of payment.** NSGOs shall secure allowable IGT funds from a NSGO to fund the non federal share amount. The method is as follows:

(1) The OHCA or its designee will notify the NSGO of the non federal share amount to be transferred by an IGT, via electronic communications and NPR, for purposes of seeking federal financial participation (FFP) for the UPL supplemental payment, within twenty five (25) business days after the end of the quarter. This amount will take into account the percentage of metrics achieved under the care criteria requirement. The NSGO will have five (5) business days to sign the participant agreement and make payment of the state share in the form of an IGT either in person or via mail. The date the NPR is sent by OHCA or its designee to the provider (NSGO) is the official date the clock starts to measure the five (5) business days. In addition, the NSGO shall also be required to remit, upon receipt of the NPR, the applicable PPMD IGT in full, pursuant to (d) (7) above.

(2) If the full IGT and the PPMD IGT are received within five (5) business days, the UPL payment will then be disbursed to the NSGO by OHCA within ten (10) business days in accordance with established payment cycles.

(i) **Penalties.**

(1) Receipt of the total IGT(s) within five (5) business days is not subject to any penalty.

(2) Any total IGT received after the fifth (5th) business day, but with an OHCA date stamp or mailing postal mark on or prior to five (5) business days from the official date of the receipt of the NPR will not be subject to penalty.

(3) Any total IGT with an OHCA date stamp or mailing postal mark received with a date after five (5) business days of receipt of the NPR, but not exceeding eight (8) business days of receipt of the NPR shall be deemed late and subject to a penalty in accordance with (3)(A) below.

(A) A five percent (5%) penalty will be assessed for the total IGT payments received after five (5) business days, but within eight (8) business days of receipt of the NPR. The five percent (5%) penalty will be assessed on the total eligible supplemental payment for the quarter in which the IGT is late and assessed to the specific NSGO as applicable.

(B) OHCA will notify the NSGO of the assessed penalty via invoice. If the NSGO fails to pay OHCA the assessed penalty within the time frame noted on the invoice to the NSGO, the assessed penalty will be deducted from the nursing facility's Medicaid payment. The penalty shall be paid regardless of any appeals action requested by the NSGO. Should an appeals decision result in a disallowance of a portion or the entire assessed penalty, reimbursement to the NSGO will be made to future nursing facility Medicaid payments.

(C) An NSGO that remits payment of the total IGT under the circumstances listed in (i) (2) or (i) (3) above will receive payment during the next available OHCA payment cycle.

(4) The first violation by an NSGO to remit the full IGT as indicated on the NPR by OHCA or its designee within the defined timeframes shall subject the NSGO to a penalty. The second violation by an NSGO to remit the full IGT indicated on the NPR by OHCA or its designee within the defined timeframes shall subject the NSGO to a penalty and a suspension for two (2) consecutive quarters. The NSGO will not be eligible to participate in the program during suspended quarters. A third violation by an NSGO to remit the full IGT indicated on the NPR by OHCA or its designee within the defined timeframes shall subject the NSGO to termination from the NFSPP. If the NSGO desires to participate again, it will be required to reapply. Reentry into the program is at the sole discretion of the OHCA. If the NSGO is readmitted to the program, terms of participation may include a probationary period with defined requirements.

(5) If OHCA receives a partial IGT or receives a full IGT after eight (8) business days of the receipt of the NPR, the NSGO shall be deemed to have voluntarily elected to withdraw participation in the NFSPP.

(6) If a nursing facility fails to meet the benchmarks of component 1 and/or component 2 of the care criteria for two (2) consecutive quarters, the facility shall be suspended for two (2) subsequent quarters and will not be eligible to participate in the program during suspended quarters. A facility that has been suspended for a total of four (4) quarters within a two (2) year period due to non-compliance with the Care Criteria shall be terminated from the program, and if the facility wishes to participate again, it will be required to reapply. Reentry into the program is at the sole discretion of the OHCA. If the facility is readmitted to the program, terms of participation may include a probationary period with defined requirements as it relates to care.

(j) **Appeals.** Applicant and participant appeals may be filed in accordance with grievance procedures found at Oklahoma Administrative Code 317:2-1-2(c) and 317:2-1-16.

GIST/ANALYSIS:

The proposed revisions will update and strengthen PDN policy by defining the place of services where/that PDN is allowed. Additional revisions will include adding language to allow for medically necessary PDN services outside of the home if certain requirements are met. Further revisions will clarify which PDN services will and will not be authorized. Finally, the proposed revisions will involve limited rewriting aimed at clarifying text, fixing any grammatical errors, and aligning rules with the current business practice.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 62. PRIVATE DUTY NURSING

Permanent Final Adoptions

317:30-5-555. ~~Eligible providers~~Private Duty Nursing (PDN)

~~(a) An organization who desires to be paid by SoonerCare for private duty nursing must meet the following requirements prior to providing services to eligible SoonerCare members:~~

- ~~(1) an executed contract with OHCA, and~~
- ~~(2) the organization must meet the requirements of OAC 317:30-5-545 or it must be licensed by the State Health Department as a Home Care Agency.~~

~~(b) The provider of services within the organization must be a licensed practical nurse or a registered nurse. PDN is medically necessary care provided on a regular basis by a licensed practical nurse or registered nurse. PDN is the level of care that would routinely be provided by the nursing staff of a hospital or skilled nursing facility. PDN services are provided:~~

- ~~(1) In the member's primary residence, unless it is medically necessary for a nurse to accompany the individual in the community.~~

~~(A) The individual's place of residence is wherever the individual lives, whether the residence is the individual's own dwelling, a relative's home, or other type of living arrangement. The place of residence cannot include a hospital, nursing facility, or intermediate care facility for individuals with intellectual disabilities (ICF/IID).~~

~~(B) The place of service in the community cannot include the residence or business location of the provider of PDN services unless the provider of PDN is a live-in caregiver.~~

- ~~(2) To assist during transportation to routine, Medicaid-compensable health care appointments and/or to the nearest appropriate emergency room, but only when SoonerRide is unavailable, and a lack of PDN services during transportation would require transportation by ambulance pursuant to Oklahoma Administrative Code (OAC) 317:30-5-336.~~

~~(A) The private duty nurse may not drive the vehicle during transportation.~~

~~(B) PDN services are not available for non-routine extended home absences unrelated to medically necessary treatment or medical care. [Refer to Oklahoma Administrative Code 317:30-5-558(4)and(13)].~~

317:30-5-556. ~~Definitions~~Eligible providers

~~Private duty nursing is medically necessary care provided on a regular basis by a Licensed Practical Nurse or Registered Nurse in the member's primary residence or to assist outside the home during transport to medical appointments and emergency room visits in lieu of transport by ambulance.~~

~~(a) A home health agency that desires to be reimbursed by SoonerCare for private duty nursing (PDN) must meet the following requirements prior to providing services to eligible SoonerCare members:~~

- ~~(1) The agency must be fully contracted with OHCA as a provider; and~~
- ~~(2) The agency must meet the requirements of Oklahoma Administrative Code (OAC) 317:30-5-545, and it~~

~~must be licensed by the Oklahoma State Health Department (OSDH) as a home care agency.~~

~~(b) The provider of PDN services, within the agency, must be a licensed practical nurse or a registered nurse who is currently licensed and in good standing in the state in which services are provided.~~

317:30-5-558. Private duty nursing (PDN) coverage limitations

The following ~~regulations~~provisions apply to all ~~private duty nursing~~PDN services and provide coverage limitations:

- (1) All services must be prior authorized to receive payment from the Oklahoma Health Care Authority (OHCA). Prior authorization means authorization in advance of services provided in accordance with Oklahoma Administrative Code (OAC) 317:30-3-31 and 317:30-5-560.1;

(2) A treatment plan must be completed by the ~~Nursing~~home health agency before requesting prior authorization and must be updated at least annually and signed by the physician;

(3) A telephonic interview and/or personal visit by an OHCA care management nurse is required prior to the authorization for services;

(4) Care in excess of the designated hours per day granted in the prior authorization is not SoonerCare compensable. Prior-authorized but unused service hours cannot be "banked," "saved," or otherwise "accumulated" for use at a future date or time. If such hours or services are provided, they are not SoonerCare compensable.

(5) Any medically necessary PDN care provided outside of the home ~~is limited to~~must be counted in and cannot exceed ~~assisting during transport to medical appointments and emergency room visits in lieu of transport by ambulance and is limited to~~ the number of hours requested on the treatment plan and approved by OHCA.

(6) ~~Private duty nursing~~PDN services do not include office time or administrative time in providing the service. The time billed is for direct nursing services only.

(7) Staff must be engaged in purposeful activity that directly benefits the member receiving services. Staff must be physically able and mentally alert to carry out the duties of the job. At no time will OHCA compensate an organization for nursing staff time when sleeping.

(8) OHCA will not approve ~~Private Duty Nursing~~PDN services if all health and safety issues cannot be met in the ~~home~~setting in which services are provided.

(9) A provider must not misrepresent or omit facts in a treatment plan.

(10) It is outside the scope of coverage to deliver care in a manner outside of the treatment plan or to deliver units over the authorized units of care.

(11) ~~Private duty nursing~~PDN is not authorized in excess of ~~16~~sixteen (16) hours per day ~~except immediately following a hospital stay or the temporary incapacitation of the primary caregiver. Under these two exceptions, care in excess of 16 hours is authorized for a period up to 30 days. As expressed in this subsection, incapacity~~

means an involuntary ability to provide care. There may be approval for additional hours for a period not to exceed thirty (30) days, if:

(A) The member has an acute episode that would otherwise require hospitalization or immediately following a hospital stay; or

(B) The primary caregiver is temporarily and involuntarily unable to provide care.

(C) The OHCA has discretion and the final authority to approve or deny any additional PDN hours and will take into consideration that the additional hours are not to be a substitute for institutionalized care.

(12) Family and/or caregivers and/or guardians (hereinafter, "caregivers") are required to provide some of the nursing care to the member without compensation. PDN services shall not be provided solely to allow the member's caregiver to work or go to school, nor solely to allow respite for the caregiver.

(13) PDN services will not be approved for overnight trips away from the member's primary residence that are unrelated to medically necessary treatment or medical care.

(A) For a member to receive Medicaid-reimbursable PDN services on an overnight trip that is related to medically necessary treatment or medical care, all provisions of this Part must be met. If said trip occurs out of state, OAC 317:30-3-89 through 317:30-3-92 must also be met.

(B) In instances in which the member's family is temporarily absent due to vacations, any additional PDN hours must be paid for by the family, or provided by other trained family members without SoonerCare reimbursement.

(14) PDN services will not be approved when services are reimbursed or reimbursable by other insurance, other governmental programs, or Medicaid program services that the member receives or is eligible to receive. For example, if a member receives Medicaid-reimbursable PDN services pursuant to an Individualized Education Program (IEP) in a public school, then those PDN school hours will be counted in the member's daily allotment of PDN services.

GIST/ANALYSIS:

The proposed revisions will amend the rule that limits dental services for adults to "emergency" extractions only by changing it to "medically necessary" extractions. Additionally, the proposed rule revisions will add definitions for medically necessary oral healthcare and medically necessary extractions. Finally, the proposed revisions will involve limited rewriting aimed at clarifying text; fixing any grammatical errors; and aligning rules with the current business practice.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 79. DENTISTS

317:30-5-695. Eligible dental providers and definitions

(a) Eligible dental providers in Oklahoma's SoonerCare program are:

(1) ~~individuals~~ Individuals licensed as dentists under Title 59 of Oklahoma Statutes (O.S.), Sections (§§) 328.21, 328.22, and 328.23 (licensed dentists, specialty dentists and out of state dentists);

(2) ~~individuals~~ Individuals issued permits as dental interns under 59 O.S. § 328.26;

Permanent Final Adoptions

- (3) ~~individuals~~Individuals who are third and fourth year dental students at an accredited Oklahoma dental college; and
- (4) ~~any~~Any individual issued a license in another state as a dentist.
- (b) All eligible providers must be in good standing with regard to their license. Any revocation or suspension status of a provider referenced in subsection (a) above renders the provider ineligible for payment or subject to recoupment under SoonerCare.
- (c) Eligible providers must document and sign records of services rendered in accordance with guidelines found at Oklahoma Administrative Code (OAC) 317:30-3-15.
- (d) The American Dental Association's version of Code on Dental Procedures and Nomenclature (CDT) is used by the Oklahoma Health Care Authority (OHCA) to communicate information related to codes, and procedures for administration. Definitions, nomenclature, and descriptors as listed in the CDT will apply, with the exception of more specific definitions or limitations set forth.
- (1) **"Decay"** means carious lesions in a tooth; decomposition and/or dissolution of the calcified and organic components of the tooth structure.
- (2) **"Emergency Dental Care"** means, but is not limited to, the immediate service that must be provided to relieve the member from pain due to an acute infection, swelling, trismus or trauma.
- (3) **"Emergency Extraction"** means, but is not limited to, an extraction of a tooth due to presence of pathology, trauma, severe periodontal involvement, significant caries or to relieve pain or infection.
- (4) **"Images"** means radiographs and diagnostic imaging that are part of the clinical record. Images should only be taken for clinical reasons as determined by the dentist and must be of diagnostic quality, properly identified, and dated.
- (5) **"Medically necessary extractions"** means, but is not limited to, an extraction of a tooth that has met medically necessary criteria due to the presence of pathology, trauma, severe periodontal involvement, significant caries, pain or infection.
- (6) **"Medically necessary oral healthcare"** means treatment deemed necessary by a physician or dentist when a patient's medical condition or treatment is or will be likely complicated by an untreated oral health problem.
- (7) **"Palliative Treatment"**~~"treatment"~~ means action that relieves pain but is not curative. Palliative ~~Treatment~~treatment is an all-inclusive service. No other codes are reimbursable on the same date of service.
- (8) **"Radiographic Caries"**"caries" means dissolution of the calcified and organic components of tooth tissue that has penetrated the enamel and is approaching the dentin-enamel junction.
- (9) **"Unbundling"** means billing separately for several individual procedures that are included within one (1) CDT or Current Procedural Terminology (CPT) code.
- (10) **"Upcoding"** means reporting a more complex and/or higher cost procedure than actually performed.

317:30-5-696. Coverage by category

Payment is made for dental services as set forth in this Section.

(1) Adults.

(A) Dental coverage for adults is limited to:

- (i) ~~Emergency~~Medically necessary extractions, as defined in Oklahoma Administrative Code (OAC) 317:30-5-695. Tooth extraction must have medical need documented;
- (ii) ~~limited~~Limited oral examinations and medically necessary images, as defined in OAC 317:30-5-695, associated with the ~~emergency~~ extraction or with a clinical presentation with reasonable expectation that an ~~emergency~~ extraction will be needed;
- (iii) Smoking and ~~Tobacco Use Cessation Counseling~~tobacco use cessation counseling; and
- (iv) ~~medical~~Medical and surgical services performed by a dentist or physician to the extent such services may be performed under State law when those services would be covered if performed by a physician.

(B) Payment is made for dental care for adults residing in private ~~Intermediate Care Facilities for Individuals with Intellectual Disabilities~~intermediate care facilities for individuals with intellectual disabilities (ICF/IID) and who have been approved for ICF/IID level of care, similar to the scope of services available to individuals under age twenty-one (21).

(C) Limited dental services are available for members who meet all medical criteria, but need dental clearance to obtain organ transplant approval. Providers must obtain prior authorization before delivery of dental service, with the exception of evaluation and extractions. All requests must be filed on the currently approved American Dental Association (ADA) form and must include diagnostic images, six-point periodontal charting, narratives and comprehensive treatment plans. The ~~OHCA~~Oklahoma Health Care Authority (OHCA) will notify the provider of determination using OHCA Prior Authorization Request Decision form. Prior authorized services must be billed exactly as they appear on the prior authorization request. The following dental services are available:

- (i) ~~comprehensive~~Comprehensive oral evaluation;
- (ii) ~~two image bitewings~~Two (2) bitewing images;
- (iii) ~~prophylaxis~~Prophylaxis;
- (iv) ~~fluoride~~Fluoride application;
- (v) ~~limited~~Limited restorative procedures;
- (vi) ~~periodontal~~Periodontal scaling/root planing.

(2) **Home and community-based services (HCBS) waiver for the intellectually disabled.** All providers participating in the HCBS must have a separate contract

with the OHCA to provide services under the HCBS. Dental services are defined in each waiver and must be prior authorized.

(3) **Children.** The OHCA Dental Program provides the basic medically necessary treatment. The services listed below are compensable for members under twenty-one (21) years of age without prior authorization. All other dental services must be prior authorized. Anesthesia services are covered for children in the same manner as adults. All providers performing preventive services must be available to perform needed restorative services for those members receiving any evaluation and preventive services.

(A) **Comprehensive oral evaluation.** This procedure should precede any images, and chart documentation must include image interpretations, caries risk assessment and both medical and dental health history of member. The comprehensive treatment plan should be the final ~~results~~ result of this procedure.

(B) **Periodic oral evaluation.** This procedure may be provided for a member of record ~~if not seen by the dentist for more than once every six (6) months.~~ An examination should precede any images, and chart documentation must include image interpretations, caries risk assessment, and both medical and dental health history of member. The comprehensive treatment plan should be the final ~~results~~ result of this procedure.

(C) **Limited oral evaluation.** This procedure is only compensable to the same dentist or practice for two (2) visits prior to a comprehensive or periodic evaluation examination being completed.

(D) **Images.** To be SoonerCare compensable, images must be of diagnostic quality and medically necessary. A clinical examination must precede any images, and chart documentation must include member history, prior images, caries risk assessment, the six-point periodontal charting, and both dental and general health needs of the member. The referring dentist is responsible for providing properly identified images of acceptable quality with a referral, if that provider chooses to expose and submit for reimbursement prior to referral. Periapical images must include at least three (3) millimeters beyond the apex of the tooth being imaged. Panoramic films and two (2) bitewings are considered full mouth images. Full mouth images as noted above or traditional ~~(minimum of twelve (12) periapical films and two (2) posterior bitewings)~~ minimum of twelve (12) periapical films and two (2) posterior bitewings are allowable once in a three (3) year period and must be of diagnostic quality. Individually listed intraoral images by the same dentist/dental office are considered a complete series if the number of individual images equals or exceeds the traditional number for a complete series. Panoramic films are only compensable when chart documentation clearly indicates reasons for the exposure based on clinical findings. This type of exposure

is not to rule out or evaluate caries. Prior authorization and a detailed medical need narrative are required for additional panoramic films taken within three (3) years of the original set.

(E) **Dental sealants.** Tooth numbers 2, 3, 14, 15, 18, 19, 30 and 31 must be caries free on the interproximal and occlusal surfaces to be eligible for this service. This service is available through eighteen (18) years of age and is compensable once every thirty-six (36) months if medical necessity is documented.

(F) **Interim caries arresting medicament application.** This service is available for primary and permanent teeth once every one hundred eighty-four (184) days for two (2) occurrences per tooth in a lifetime. The following criteria must be met for reimbursement:

- (i) A member is documented to be unable to receive restorative services in the typical office environment within a reasonable amount of time;
- (ii) A tooth that has been treated should not have any non-carious structure removed;
- (iii) A tooth that has been treated should not receive any other definitive restorative care for three (3) months following an application;
- (iv) Reimbursement for extraction of a tooth that has been treated will not be allowed for three (3) months following an application; and
- (v) The specific teeth treated and number and location of lesions must be documented.

~~(F)~~ **Dental prophylaxis.** This procedure is provided once every ~~184~~ one hundred eighty-four (184) days along with topical application of fluoride.

~~(G)~~ **Stainless steel crowns for primary teeth.** The use of any stainless steel crowns is allowed as follows:

- (i) Stainless steel crowns are allowed if:
 - (I) ~~the~~ The child is five (5) years of age or under;
 - (II) ~~70~~ Seventy percent (70%) or more of the root structure remains; or
 - (III) ~~the~~ The procedure is provided more than twelve (12) months prior to normal exfoliation.
- (ii) Stainless steel crowns are treatment of choice for:
 - (I) ~~primary~~ Primary teeth treated with pulpal therapy, if the above conditions exist;
 - (II) ~~primary~~ Primary teeth where three (3) surfaces of extensive decay exist; or
 - (III) ~~primary~~ Primary teeth where cuspal occlusion is lost due to decay or accident.
- (iii) Preoperative periapical images and/or written documentation explaining the extent of decay must be available for review, if requested.
- (iv) Placement of a stainless steel crown is allowed once for a minimum period of twenty-four (24) months. No other restoration on that tooth is

compensable during that period of time. A stainless steel crown is not a temporizing treatment to be used while a permanent crown is being fabricated.

(H) Stainless steel crowns for permanent teeth.

The use of any stainless steel crowns is allowed as follows:

- (i) Stainless steel crowns are the treatment of choice for:
 - (I) ~~posterior~~ Posterior permanent teeth that have completed endodontic therapy if three (3) or more surfaces of tooth is destroyed;
 - (II) ~~posterior~~ Posterior permanent teeth that have three (3) or more surfaces of extensive decay; or
 - (III) ~~where~~ Where cuspal occlusion is lost due to decay prior to age sixteen (16) years.
- (ii) Preoperative periapical images and/or written documentation explaining the extent of decay must be available for review, if requested.
- (iii) Placement of a stainless steel crown excludes placement of any other type of crown for a period of twenty-four (24) months. No other restoration on that tooth is compensable during that period of time.

(I) Pulpotomies and pulpectomies.

- (i) Therapeutic pulpotomies and pulpal debridement are allowable once per lifetime. Pre- and post-operative periapical images must be available for review, if requested. Therapeutic pulpotomies and pulpal debridement is available for the following:
 - (I) Primary molars having at least ~~70~~ seventy percent (70%) or more of their root structure remaining or more than twelve (12) months prior to normal exfoliation;
 - (II) Tooth numbers O and P before age five (5) years;
 - (III) Tooth numbers E and F before six (6) years;
 - (IV) Tooth numbers N and Q before five (5) years;
 - (V) Tooth numbers D and G before five (5) years.
- (ii) Therapeutic pulpotomies and pulpal debridement are allowed for primary teeth if exfoliation of the teeth is not expected to occur for at least one (1) year or if ~~70~~ seventy percent (70%) or more of root structure is remaining.

(J) Endodontics. Payment is made for the services provided in accordance with the following:

- (i) This procedure is allowed when there are no other missing anterior teeth in the same arch requiring replacement.
- (ii) The provider documents history of member's improved oral hygiene and flossing ability in records.

(iii) Prior authorization is required for members who have a treatment plan requiring more than two (2) anterior and/or ~~two (2)~~ any posterior root canals.

(iv) Pre and post-operative periapical images must be available for review.

(v) Pulpal debridement may be performed for the relief of pain while waiting for the decision from the OHCA.

(vi) Providers are responsible for any follow-up treatment required due to a failed root canal therapy for twenty-four (24) month post completion.

(vii) Endodontically treated teeth should be restored to limited occlusal function and all contours should be replaced. These teeth are not automatically approved for any type of crown.

(K) Space maintainers. Certain limitations apply with regard to this procedure. Providers are responsible for recementation of any maintainer placed by them for six (6) months post insertion.

(i) **Band and loop type space maintenance.** This procedure must be provided in accordance with the following guidelines:

- (I) This procedure is compensable for all primary molars where permanent successor is missing or where succedaneous tooth is more than 5mm below the crest of the alveolar ridge.
- (II) First primary molars are not allowed space maintenance if the second primary and first permanent molars are present and in cuspal interlocking occlusion regardless of the presence or absence of normal relationship.
- (III) If there are missing posterior teeth bilaterally in the same arch, under the above guidelines, bilateral space maintainer is the treatment of choice.
- (IV) The teeth numbers shown on the claim should be those of the missing teeth.
- (V) Post-operative bitewing images must be available for review.
- (VI) Bilateral band and loop space maintainer is allowed if member does not have eruption of the four (4) mandibular anterior teeth in position or if sedation case that presents limitations to fabricate other space maintenance appliances.

(ii) **Lingual arch bar.** Payment is made for the services provided in accordance with the following:

- (I) Lingual arch bar is used when permanent incisors are erupted and the second primary molar (K or T) is missing in the same arch.
- (II) The requirements are the same as for band and loop space maintainer.
- (III) Pre and post-operative images must be available.

~~(LM)~~ **Analgesia.** Analgesia services are reimbursable in accordance with the following:

(i) **Inhalation of nitrous oxide.** Use of nitrous oxide is compensable for four (4) occurrences per year and is not separately reimbursable, if provided on the same date by the same provider as IV sedation, non-intravenous conscious sedation, or general anesthesia. The medical need for this service must be documented in the member's record.

(ii) **Non-intravenous conscious sedation.** Non-intravenous conscious sedation is not separately reimbursable, if provided on the same date by the same provider as analgesia, anxiolysis, inhalation of nitrous oxide, IV sedation, or general anesthesia. Non-intravenous conscious sedation is reimbursable when determined to be medically necessary for documented handicapped members, uncontrollable members or justifiable medical or dental conditions. The report must detail the member's condition. No services are reimbursable when provided primarily for the convenience of the member and/or the dentist, it must be medically necessary.

~~(MN)~~ **Pulp caps.** Indirect and direct pulp cap must be ADA accepted calcium hydroxide or ~~Mineral Trioxide Aggregate~~ mineral trioxide aggregate (MTA) materials, not a cavity liner or chemical used for dentinal hypersensitivity. Indirect and direct pulp cap codes require specific narrative support addressing materials used, intent and reasons for use. Application of chemicals used for dentinal hypersensitivity is not allowed as indirect pulp cap. Utilization of these codes is verified by post payment review.

~~(NQ)~~ **Protective restorations.** This restoration includes removal of decay, if present, and is reimbursable for the same tooth on the same date of service with a direct or indirect pulp cap, if needed. Permanent restoration of the tooth is allowed after sixty (60) days unless the tooth becomes symptomatic and requires pain relieving treatment.

~~(OP)~~ **Smoking and Tobacco Use Cessation Counseling** ~~tobacco use cessation counseling.~~ Smoking and Tobacco Use Cessation Counseling ~~tobacco use cessation counseling~~ is covered when performed utilizing the five (5) intervention steps of asking the member to describe his/her smoking, advising the member to quit, assessing the willingness of the member to quit, assisting with referrals and plans to quit, and arranging for follow-up. Up to eight (8) sessions are covered per year per individual who has documented tobacco use. It is a covered service when provided by physicians, physician assistants, nurse practitioners, certified nurse midwives, ~~Oklahoma State Health Department and FOHC nursing, and Maternal/Child Health Licensed Clinical Social Workers with a certification as a Tobacco Treatment~~

~~Specialist Certification (CTTS) staff in addition to other appropriate services rendered~~ Oklahoma State Health Department (OSDH) and Federally Qualified Health Center (FOHC) nurses, and maternal/child health licensed clinical social workers with a Tobacco Treatment Specialist Certification (TTS-C). Chart documentation must include a separate note that addresses the 5A's, separate signature, and the member specific information addressed in the five (5) steps and the time spent by the practitioner performing the counseling. Anything under three (3) minutes is considered part of a routine visit.

~~(PQ)~~ **Diagnostic casts and/or oral/facial images.** Diagnostic casts ~~and/or~~ oral/facial images may be requested by OHCA or representatives of OHCA. If cast ~~and/or~~ images are received they will be considered supporting documentation and may be used to make a determination for authorization of services. Submitted documentation used to base a decision will not be returned. Providers will be reimbursed for either the study model or images.

(i) Documentation of photographic images must be kept in the client's medical record and medical necessity identified on the submitted electronic or paper claim.

(ii) Oral/facial photographic images are allowed under the following conditions:

(I) When radiographic images do not adequately support the necessity for requested treatment.

(II) When photo images better support medical necessity for the requested treatment rather than diagnostic models.

(III) If a comprehensive orthodontic workup has not been performed.

(iii) For photographic images, the oral/facial portfolio must include a view of the complete lower arch, complete upper arch, and left and right maximum intercuspation of teeth.

(I) Maximum intercuspation refers to the occlusal position of the mandible in which the cusps of the teeth of both arches fully interpose themselves with the cusps of the teeth of the opposing arch.

(II) Intercuspation defines both the anterior-posterior and lateral relationships of the mandible and the maxilla, as well as the superior-inferior relationship known as the vertical dimension of occlusion.

(iv) Study models or photographic images not in compliance with the above described diagnostic guidelines will not be compensable. The provider may be allowed to resubmit new images that adhere to the diagnostic guidelines. If the provider does not provide appropriate documentation, the request for treatment will be denied.

Permanent Final Adoptions

317:30-5-698. Services requiring prior authorization

(a) Providers must have prior authorization for certain specified services before delivery of that service, unless the service is provided on an emergency basis [See ~~OAC~~Oklahoma Administrative Code (OAC) 317:30-5-695(d)(2)]. Requests for dental services requiring prior authorization must be accompanied by sufficient documentation. ~~Images with an indication of the left side of member, six point periodontal charting and copy of the comprehensive treatment plans are required.~~

(b) Requests for prior authorization are filed on the currently approved ~~ADA~~American Dental Association (ADA) form. ~~OHCA notifies the provider on the determination of prior authorization using OHCA Prior Authorization Request Decision form.~~ Prior authorized services must be billed exactly as they appear on the prior authorization. Payment is not made for any services provided prior to receiving authorization except for the relief of pain.

(c) Prosthodontic services provided to members who have become ineligible mid-treatment are covered if the member was eligible for SoonerCare on the date the final impressions were made.

(d) Listed below are examples of services requiring prior authorization for members under ~~21~~twenty-one (21) and eligible ~~ICF/IID~~intermediate care facilities for individuals with intellectual disabilities (ICF/IID) residents. Minimum required records to be submitted with each request are right and left mounted bitewings and periapical films or images of tooth/teeth involved or the edentulous areas if not visible in the bitewings. ~~Images must be submitted with film mounts and each film or print must be of diagnostic quality.~~ Images must be identified by the tooth number and include date of exposure, member name, member ID, provider name, and provider ID. All images, regardless of the media, must be submitted together with a completed and signed comprehensive treatment plan that details all needed treatment at the time of examination, and a completed current ADA form requesting all treatments requiring prior authorization. The images, digital media, photographs, or printouts must be of sufficient quality to clearly demonstrate for the reviewer, the pathology which is the basis for the authorization request. If radiographs are not taken, provider must include in narrative sufficient information to confirm diagnosis and treatment plan.

(1) **Endodontics.** Root canal therapy is not considered an emergency procedure unless due to trauma to an anterior tooth. The provider must document the member's oral hygiene and flossing ability in the member's records. Pulpal debridement may be performed for the relief of pain while waiting for the decision from the ~~OHCA~~Oklahoma Health Care Authority (OHCA) on request for endodontics.

(A) **Anterior endodontics.** Prior authorization is required for members who have a treatment plan requiring more than two (2) anterior root canals. All rampant, active caries ~~must~~should be removed prior to requesting anterior endodontics. Payment is made for services provided in accordance with the following:

- (i) Permanent teeth only;
- (ii) Accepted ADA materials must be used;

(iii) Pre and post-operative periapical images must be available for review;

(iv) Providers are responsible for any follow-up treatment required by a failed endodontically treated tooth within ~~24~~twenty-four (24) months post completion;

(v) A tooth will not be approved if it appears there is not adequate natural tooth structure remaining to establish good tooth/restorative margins or if crown to root ratio is poor; and

(vi) An endodontic procedure may not be approved if the tooth requires a post and core to retain a crown.

(B) **Posterior endodontics.** The guidelines for this procedure are as follows:

(i) The provider must document the member's oral hygiene and flossing ability in the member's records.

(ii) Teeth that require pre-fabricated post and cores to retain a restoration due to lack of natural tooth structure should not be treatment planned for root canal therapy.

(iii) Pre and post-operative periapical images must be available for review.

(iv) Providers are responsible for any follow-up treatment required by a failed endodontically treated tooth within ~~24~~twenty-four (24) months post completion.

(v) A tooth will not be approved if it appears there is not adequate natural tooth structure remaining to establish good tooth/restorative margins or if there is a poor crown to root ratio or weakened root furcation area. Approval of second molars is contingent upon proof of medical necessity.

(vi) Only ADA accepted materials are acceptable under the OHCA policy.

(vii) Posterior endodontic procedure may not be approved if the tooth requires a post and core in order to present adequate structure to retain a crown.

(viii) Endodontics will not be considered if:

(I) ~~an~~An opposing tooth has super erupted;

(II) ~~loss~~Loss of tooth space is one third or greater;

(III) ~~opposing~~Opposing second molars are involved unless prior authorized; ~~or~~

(IV) ~~the~~The member has multiple teeth failing due to previous inadequate root canal therapy or follow-up; or

(V) ~~all~~All rampant, active caries must be removed prior to requesting posterior endodontics.

(ix) Endodontically treated teeth must be restored to limited occlusal function and all contours must be replaced. Core build-up code is only available for use if other restorative codes are not sufficient. These teeth will not be approved for

a crown if it appears the apex is not adequately sealed.

(2) **Crowns for permanent teeth.** Crowns are compensable for restoration of natural teeth for members who are ~~16~~sixteen (16) years of age or older and adults residing in private ~~Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID)~~ICF/IID and who have been approved for ~~(ICF/IID)~~ICF/IID level of care. Certain criteria and limitations apply.

(A) The following conditions must exist for approval of this procedure:

- (i) All rampant, active caries must be removed prior to requesting any type of crown;
- (ii) The tooth must be decayed to such an extent to prevent proper cuspal or incisal function;
- (iii) The clinical crown is fractured or destroyed by one-half or more; and
- (iv) Endodontically treated teeth must have ~~three~~three (3) or more surfaces restored or lost due to carious activity to be considered for a crown.

(B) The conditions listed above in (A)(i) through ~~(A)(iv) of this paragraph~~ should be clearly visible on the submitted images when a request is made for any type of crown.

(C) Routine build-up(s) for authorized crowns are included in the fee for the crown. Non authorized restorative codes may be used if available.

(D) A crown will not be approved if adequate tooth structure does not remain to establish cleanable margins, there is invasion of the biologic width, poor crown to root ratio, or the tooth appears to retain insufficient amounts of natural tooth structure. Cast dowel cores are not allowed for molar or pre-molar teeth.

(E) Preformed post(s) and core build-up(s) are not routinely provided with crowns for endodontically treated teeth.

(F) The provider must document the member's oral hygiene and flossing ability in the member's records including improved oral hygiene for at least twelve (12) months.

~~(FG)~~ Provider is responsible for replacement or repair of all crowns if failure is caused by poor laboratory processes or procedure by provider for ~~48~~forty-eight (48) months post insertion.

(3) **Cast frame partial dentures.** This appliance is the treatment of choice for replacement of missing anterior permanent teeth or two (2) or more missing posterior teeth in the same arch for members ~~16~~sixteen (16) through ~~20~~twenty (20) years of age. Provider must indicate which teeth will be replaced. Members must have improved oral hygiene documented for at least ~~12~~twelve (12) months in the provider's records and submitted with prior authorization request to be considered. Provider is responsible for any needed follow up for a period of two (2) years post insertion.

(4) **Acrylic partial.** This appliance is the treatment of choice for replacement of three (3) or more missing

teeth in the same arch for members ~~12~~twelve (12) through ~~16~~sixteen (16) years of age. Provider must indicate tooth numbers to be replaced. This appliance includes all necessary clasps and rests.

(5) **Occlusal guard.** Narrative of medical necessity must be sent with prior authorization. Model should not be made or sent unless requested.

(6) **Fixed cast non-precious metal or porcelain/metal bridges.** Only members ~~17~~seventeen (17) through ~~20~~twenty (20) years of age will be considered for this treatment. Destruction of healthy teeth to replace a single missing tooth is not considered medically necessary. Members must have excellent oral hygiene documented for at least ~~18~~eighteen (18) months in the requesting provider's records and submitted with prior authorization request to be considered. Provider is responsible for any needed follow up until member loses eligibility.

(7) **Periodontal scaling and root planing.** Procedure is designed for the removal of calculus or tissue that is contaminated and ~~requires~~may require anesthesia and some soft tissue removal. This procedure requires that each tooth have three (3) or more of the six point measurements five (5) millimeters or greater, ~~or~~and have multiple areas of image supported bone loss, subgingival calculus and must involve two (2) or more teeth per quadrant for consideration. ~~This procedure is not allowed on members under the age 12.~~ This procedure is not allowed in conjunction with any other periodontal surgery.

317:30-5-700. Orthodontic services

(a) In order to be eligible for SoonerCare ~~Orthodontic~~orthodontic services, members must be referred through a primary care dentist using the DEN-2 form found on the Oklahoma Health Care Authority (OHCA) website; a member can receive a referral from a primary care dentist to the orthodontist only after meeting the following:

- (1) ~~the~~The member has had a caries free initial visit; or
- (2) ~~has~~Has all decayed areas restored and has remained caries free for twelve (12) months; and
- (3) ~~has~~Has demonstrated competency in maintaining an appropriate level of oral hygiene.

(b) Member with cleft palate can be referred directly by their treating physician without a dental referral and are exempt from above requirements.

(c) The ~~Oklahoma~~—SoonerCare Orthodontic Program limits orthodontic services to handicapping malocclusions determined to be severe enough to warrant medically necessary treatment. The orthodontic provider has the ability to determine if members may qualify with a visual screening. Diagnostic record accumulation and/or submission should only occur for members with high potential for acceptance. These orthodontic services include the following:

- (1) ~~a~~A handicapping malocclusion, as measured on the Handicapping Labio-Lingual Deviation Index (HL-D)Oklahoma Health Care Authority (OHCA) Handicapping Labio-Lingual Deviation Index of Malocclusion (DEN-6) form, with a minimum score of ~~30~~thirty (30);

Permanent Final Adoptions

- (2) ~~any~~Any classification secondary to cleft palate or other maxillofacial deformity;
 - (3) ~~if~~If a single tooth or anterior crossbite is the only medical need finding, service will be limited to interceptive treatment;
 - (4) ~~fixed~~Fixed appliances only; and
 - (5) ~~permanent~~Permanent dentition with the exception of cleft defects.
- (d) Reimbursement for ~~Orthodontic~~orthodontic services is limited to:
- (1) Orthodontists, or
 - (2) General or Pediatric dental practitioners who have completed at least ~~200~~two-hundred (200) certified hours of continuing education in the field of orthodontics practice and submit for review at least ~~25~~twenty-five successfully completed comprehensive cases. Of these ~~25~~twenty-five comprehensive cases, ten or more must be extraction cases. An applicant for this certification must practice in an OHCA deemed under-served area. The comprehensive cases submitted should be of a complexity consistent with type of handicapping malocclusion likely to be treated in the SoonerCare program.
- (A) Cases submitted must include at least one (1) of each of the following types:
- (i) ~~deep~~Deep overbite where multiple teeth are impinging upon the soft tissue of the palate;
 - (ii) ~~impacted~~Impacted canine or molar requiring surgical exposure;
 - (iii) ~~bilateral~~Bilateral posterior crossbite requiring fixed rapid palatal expansion; and
 - (iv) ~~skeletal~~Skeletal class II or III requiring orthognathic surgery.
- (B) As with all dental or orthodontia treatment performed and reimbursed by SoonerCare, all pre and post orthodontic records must be available for review.
- (C) The OHCA requires all general dentists providing comprehensive orthodontic care to submit a copy of the Oklahoma Board of Dentistry continuing education report and verification that at least ~~20~~twenty (20) continuing education hours in the field of orthodontics has been completed per reporting period. All verification reports must be submitted to OHCA Dental ~~unit~~Unit every three (3) years, no later than August 30. In addition, verification of adequate progress for all active orthodontic cases will be reviewed by the OHCA Dental Unit upon completion of ~~24~~twenty-four (24) months of therapy.
- (e) The following limitations apply to orthodontic services:
- (1) Cosmetic orthodontic services are not a covered benefit of the SoonerCare ~~Program~~program and no requests should be submitted;
 - (2) All orthodontic procedures require prior authorization for payment;
 - (3) Prior authorization for orthodontic treatment is not a notification of the member's eligibility and does not guarantee payment. Payment for authorized services depends on the member's eligibility at the beginning of

each treatment year. Treatment year is determined by date of banding; and

- (4) The member must be SoonerCare-eligible and under ~~18~~eighteen (18) years of age at the time the request for prior authorization for treatment is received by the OHCA. Services cannot be added or approved after eligibility has expired. It is the orthodontist's responsibility to verify that the member has current SoonerCare eligibility and the date of birth indicates the member is under age ~~18~~eighteen (18).
 - (f) Orthodontic services are an elective procedure. The orthodontist must interview the prospective member as to his/her understanding of and willingness to cooperate fully in a lengthy treatment program.
 - (g) The interview information is unavailable to OHCA except through the provider's recommendation of treatment. The interview process for OHCA members is equivalent to that of private pay patients.
 - (h) Providers are not obligated to accept a member when it appears that the member will not cooperate in the orthodontic hygiene treatment program, does not return to the general dentist for preventive visits or is not willing to keep eligibility for SoonerCare current.
- 317:30-5-700.1. Orthodontic prior authorization**
- (a) The following records and documentation, plainly labeled with the member's full name, recipient identification number (RID), and the orthodontist's name are required for prior authorization of orthodontic services and must be submitted to the Dental Unit of the ~~OHCA~~Oklahoma Health Care Authority (OHCA) Dental Program when the member has a total score of not less than ~~30~~thirty (30) points or meets other eligibility criteria in paragraph (d).
- (1) Completed currently approved ~~ADA~~American Dental Association (ADA) dental claim form;
 - (2) Complete and scored Handicapping Labio-Lingual ~~Deviations~~Deviation (HDL) Index with Diagnosis of Angle's classification;
 - (3) Detailed description of any oral maxillofacial anomaly;
 - (4) Estimated length of treatment;
 - (5) Intraoral photographs showing teeth in centric occlusion and/or photographs of trimmed anatomically occluded diagnostic casts. A lingual view of casts may be included to verify impinging overbites;
 - (6) Cephalometric images with tracing, and panoramic film, with a request for prior authorization of comprehensive orthodontic treatment;
 - (7) Completed OHCA caries risk assessment form;
 - (~~78~~) If diagnosed as a surgical case, submit an oral surgeon's written opinion that orthognathic surgery is indicated and the surgeon is willing to provide this service; and
 - (~~82~~) Additional pertinent information as determined necessary by the orthodontist or as requested by the OHCA.

(b) All images and required documentation must be submitted in one (1) package. OHCA is not responsible for lost or damaged materials.

(c) All records and documentation submitted in a request for prior authorization for orthodontic treatment are reviewed by the OHCA ~~Orthodontic Consultant~~ orthodontic consultant for compensability and length of treatment. Any documentation on which a decision is made will not be returned.

(d) Some children not receiving a minimum score of ~~30~~ thirty (30) on the ~~Handicapping Labio Lingual Deviation Index (HLD)~~ HDL Index may have other conditions to be considered. In the event an orthodontist believes there are other medical, social, or emotional conditions impacting the general health of the child, he/she refers to the conditions listed on the Early and Periodic Screening, ~~Diagnosis~~ Diagnostic and Treatment (EPSDT) exception section found on the HLD. The following guidelines and restrictions apply to other conditions:

(1) Other medical, social, or emotional conditions are limited to those conditions that affect the medical, social or emotional function of the child;

(2) Other medical, social, or emotional conditions are not scored if the sole condition sought to be improved is the cosmetic appearance of the child;

(3) Such other medical, social, or emotional conditions must be demonstrated by objective evidence such as supported documentation outside the child's immediate family (e.g., a child's teacher, primary care physician, behavioral health provider, school counselor);

(4) Objective evidence must be submitted with the HLD;

(5) When such other medical, social, or emotional conditions are reflected on the HLD, the OHCA ~~Orthodontic Consultant~~ orthodontic consultant must review the data and use his or her professional judgment to score the value of the conditions; and

(6) The OHCA ~~Orthodontic Consultant~~ orthodontic consultant may consult with and utilize the opinion of the orthodontist who completes the form.

(e) If it is determined that the malocclusion is not severe enough to warrant medically necessary orthodontic services or the member's age precludes approval, a computer generated notice is issued to the provider and member with notice of the denial, the reason for the denial, and appeal rights (~~see OAC 317:2-1 for grievance procedures and process~~) [see Oklahoma Administrative Code (OAC) 317:2-1 for grievance procedures and processes].

(f) Orthodontic treatment and payment for the services are approved within the scope of the SoonerCare program. If orthodontic treatment is approved, a computer generated notice is issued authorizing the first year of treatment.

(1) Approval of orthodontic treatment is given in accordance with the following:

(A) Authorization for the first year begins on the date of banding and includes the placement of appliances, arch wires, and a minimum of six (6) adjustments. It is expected that orthodontic members be seen every four (4) to eight (8) weeks for the duration of active treatment.

(B) Subsequent adjustments will be authorized in one (1) year intervals and the treating orthodontist must provide a comprehensive progress report at the ~~24~~ twenty-four (24) month interval.

(C) All approved treatment is included on the original prior authorization and will include the total payment for that treatment year.

(2) Claim and payment are made as follows:

(A) Payment for comprehensive treatment includes the banding, wires, adjustments as well as all ancillary services, including the removal of appliances, and the construction and placing of retainers.

(B) Payment is not made for comprehensive treatment beyond ~~36~~ thirty-six (36) months.

(g) If the member moves from the geographic area or shows a need to change their provider, then the provider who received the yearly payment is financially responsible until completion of that member's orthodontic treatment for the current year.

(h) If the provider who received yearly payment does not agree to be financially responsible, then the ~~Oklahoma Health Care Authority will~~ OHCA may recoup funds paid for the member's orthodontic treatment.

(i) All orthodontic services are subject to post-utilization review. This review may include a request by the OHCA to submit medical documentation necessary to complete the review. After review is completed, these materials are returned to the orthodontist.

(j) Study models or oral/facial images must be diagnostic and meet the following requirements:

(1) Study models must be properly poured and adequately trimmed without large voids or positive bubbles present.

(2) Centric occlusion must be clearly indicated by pencil lines on the study models, making it possible to occlude the teeth on the models in centric occlusion.

(3) 3-D model images are preferred.

(4) All measurements are made or judged on the basis of greater than or more than the minimal criteria. Measurement, counting, recording, or consideration is performed only on teeth that have erupted and may be seen on the study models.

(5) For photographic images, the oral/facial portfolio must show a view of the complete lower arch, complete upper arch, and left and right maximum intercuspation of teeth.

(A) Maximum intercuspation refers to the occlusal position of the mandible in which the cusps of the teeth of both arches fully interpose themselves with the cusps of the teeth of the opposing arch.

(B) Intercuspation defines both the anterior-posterior and lateral relationships of the mandible and the maxilla, as well as the superior-inferior relationship known as the vertical dimension of occlusion.

317:30-5-704. Billing instructions

(a) **HCPCS Codes.** The Oklahoma Health Care Authority (OHCA) utilizes the Medicare Level II ~~HCPCS Codes~~ Healthcare Common Procedure Coding System

Permanent Final Adoptions

(HCPCS) codes. All claim submissions must be in compliance with this coding system.

(b) **Prior authorization.** Where applicable, the appropriate arch, quadrant, or tooth surface and tooth number must be included on the claim. Diagnosis codes are requested to be listed in box 34 of ADA the current American Dental Association (ADA) dental claim form—2012. For mailed prior authorizations, a completed HCA-13D form is required.

(c) **Images.** Any type of film or prints submitted will not be returned. All images must be dated, mounted and have patient's name, recipient identification number (RID), provider name and provider number.

317:30-5-705. Billing

Billing for dental services may be submitted on the currently approved version of the American Dental Association (ADA) claim form. Diagnosis codes are requested to be listed in box 34 of the current ADA dental claim form—2012. Electronic submission must be made on the HIPPA compliant Form 837D.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 80. MOBILE AND/OR PORTAL DENTAL TREATMENT FACILITIES

317:30-5-706. Definitions

The following words and terms, when used in this Part, shall have the following meaning, unless the context clearly indicates otherwise:

"Individual provider" means a dentist, dental hygienist, or dental assistant who provides dental services at a mobile and/or portable dental treatment facility.

"Mobile and/or portable dental treatment facilities" means the following, limited places of treatment, as authorized by the Oklahoma State Dental Act: group homes for juveniles; public and private schools; and mobile dental clinics. The rules in this Part expressly shall not apply to SoonerCare reimbursement of dental services provided at any other authorized place of service, including, but not limited to: "dental offices," as defined by 59 O.S. § 328.3; federal, tribal, state, or local public health facilities; federally qualified health centers; and hospitals or dental ambulatory surgery centers.

317:30-5-707. Eligible providers

(a) In order for dental services provided at a mobile and/or portable dental treatment facility to be eligible for SoonerCare reimbursement, a dental group shall meet all applicable requirements set forth in the Oklahoma Board of Dentistry rules and the Oklahoma State Dental Act, including, but not limited to, all licensing and permitting requirements.

(1) All dentists and dental hygienists working at a mobile and/or portable dental treatment facility shall be currently licensed in good standing with the Oklahoma Board of Dentistry. All dental assistants working at a mobile

and/or portable dental treatment facility shall be currently permitted by the Oklahoma Board of Dentistry.

(2) The license or permit (or a photocopy of the license or permit) of every individual provider shall be prominently displayed at the mobile and/or portable dental treatment facility, pursuant to 59 O.S. § 328.21.

(3) For services provided in a mobile dental clinic, the permit to operate the mobile dental clinic shall be prominently displayed in the mobile dental clinic vehicle, pursuant to 59 O.S. § 328.40a.

(b) In accordance with OAC 317:30-5-695.1, every dental group providing services at a mobile and/or portable dental treatment facility must be fully contracted with the OHCA as a dental group provider and must be fully contracted with OHCA as a mobile and/or portable dental treatment facility.

(c) Every individual dentist practicing at a mobile and/or portable dental treatment facility must be fully contracted with the OHCA as a dentist.

(d) Dental groups and individual providers providing dental services at a mobile and/or portable dental treatment facility shall comply with all state and federal Medicaid law, including, but not limited to, OHCA administrative rules, the Code of Federal Regulations, and the Oklahoma State Medicaid Plan.

317:30-5-708. Parental consent requirements

Individual providers at a mobile and/or portable dental treatment facility shall not perform any service on a minor without having obtained, prior to the provision of services, a signed, written consent from the minor's parent or legal guardian, that includes, at a minimum, the:

(1) Name of the dental group and/or dentist providing the dental services at the mobile and/or portable dental treatment facility;

(2) Permanent business mailing address of the dental group and/or dentist providing the dental services at the mobile and/or portable dental treatment facility;

(3) Business telephone number of the dental group and/or dentist providing the dental services at the mobile and/or portable dental treatment facility. This telephone number must be available for emergency calls;

(4) Full printed name of the child to receive services;

(5) Child's SoonerCare Member ID number; and

(6) An inquiry of whether the child has had dental care in the past twelve (12) months and if the child has a dental appointment scheduled with his/her regular dentist. If applicable, parent should list the name and address of the dentist and/or dental office where the care is provided.

317:30-5-709. Coverage

Payment is made only to contracted dental groups for Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services provided to SoonerCare-eligible individuals under the age of twenty-one (21). All mobile and/or portable dental treatment facilities must have a SoonerCare-contracted, Oklahoma-licensed dentist onsite to supervise staff and provide certain services. Coverage for dental services provided

to children/adolescents at a mobile and/or portable dental treatment facility is limited to:

(1) One (1) fluoride application per member per twelve (12) months;

(2) One (1) dental assessment annually that is performed by a SoonerCare-contracted, Oklahoma-licensed dentist; and

(3) Dental sealants on tooth numbers 2, 3, 14, 15, 18, 19, 30, and 31. The Oklahoma Health Care Authority (OHCA) will not reimburse the application of dental sealants for a given OHCA member more than once every thirty-six (36) months, regardless of whether the services are provided at a mobile and/or portable dental treatment facility, or at some other authorized place of service.

317:30-5-710. Post-care

Each member receiving dental care at a mobile and/or portable dental treatment facility must receive an information sheet at the end of the visit. The information sheet must contain:

(1) The name of the dentist, dental hygienist, and/or dental assistant who provided the dental services at the mobile and/or portable dental treatment facility;

(2) A valid business telephone number and/or other emergency contact number for the dental group and/or dentist that provided the dental services at the mobile and/or portable dental treatment facility;

(3) A listing of the treatment rendered, including, when applicable, billing codes, fees, and tooth numbers;

(4) A description of any follow-up treatment that is needed or recommended; and

(5) Referrals to specialists or other dentists if the individual providers were unable to provide the necessary treatment, and additional care is needed.

317:30-5-711. Billing

Refer to Oklahoma Administrative Code (OAC) 317:30-5-704 through 317:30-5-705 for billing instructions and guidelines. Please note that for any dental service provided at a mobile and/or portable dental treatment facility that is billed to SoonerCare, the appropriate place of service must be identified on the claim.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 87. BIRTHING CENTERS [REVOKED]

317:30-5-890. Eligible providers [REVOKED]

Eligible providers are birthing centers that are currently licensed by the Oklahoma State Health Department and meet the requirements listed in (1) (5) of this subsection:

- (1) Have a current written agreement with a board certified Obstetrician Gynecologist (OB GYN) to provide coverage for consultation, collaboration or referral services as defined by the American College of Nurse-Midwives.
- (2) Have a current medical director who is a board certified OB GYN and is responsible for establishing patient protocols and other functions as defined in requirements for state licensure. This individual may, or may not, be the physician providing individual patient coverage for consultation, collaborative or referral service.

(3) Have a written agreement with a referral hospital which is a Class II hospital. Class II hospital is defined as a facility with 24 hour availability of OB GYN and capability of performing a C-section within 30 minutes of the decision to operate. The 30 minute timeframe is subject to each hospital's unique circumstance, logistical issues that include, but are not limited to, obtaining informed consent, transporting the patient, and any other potential problems that may arise.

(4) Must be accredited by the Commission for the Accreditation of Freestanding Birth Centers.

(5) Have a current contract on file with the Oklahoma Health Care Authority.

317:30-5-890. 1 Definitions [REVOKED]

The following words or terms, when used in this Part, shall have the following meaning, unless the context clearly indicates otherwise:

"Birthing center" means a freestanding facility, place or institution, which is maintained or established primarily for the purpose of providing services of a certified midwife or licensed medical doctor to assist or attend a woman in delivery and birth, and where a woman is scheduled in advance to give birth following a normal, uncomplicated, low-risk pregnancy.

"Certified Nurse-Midwife" means a person educated in the discipline of nursing and midwifery, certified by the American College of Nurse-Midwives (ACNM) and licensed by the state to engage in the practice of midwifery and as a registered nurse.

"Low-risk" means a normal, uncomplicated prenatal course as determined by adequate prenatal care and prospects for a normal, uncomplicated birth as defined by generally accepted criteria of maternal and fetal health.

"Newborn" means an infant during the first 28 days following birth.

317:30-5-891. Coverage by category [REVOKED]

- (a) **Adults.** Payment is made for birthing center services for adults and includes admission to the birthing center of low-risk, uncomplicated pregnancies, with an anticipated spontaneous vaginal delivery for the period of labor and delivery.
- (b) **Newborn.** Coverage for newborns within scope of practice as defined by state law.
- (c) **Individuals eligible for Part B of Medicare.** Birthing center services provided to Medicare eligible recipients should be billed directly to the fiscal agent.

317:30-5-892. Reimbursement [REVOKED]

(a) Payment rates are based on a geographic adjustment made for centers in rural and urban areas. A birthing center will be designated as an urban or rural entity based on the definition of urban and rural counties used by the Medicare program for reimbursement purposes. The urban areas (counties) are those inside the Metropolitan Statistical Areas (MSA) and the rural areas (counties) are those outside the MSA.

- (1) Urban areas:
 - (A) Canadian

- (B) Cleveland
- (C) Comanche
- (D) Creek
- (E) Garfield
- (F) Logan
- (G) McClain
- (H) Oklahoma
- (I) Osage
- (J) Pottawatomie
- (K) Rogers
- (L) Sequoyah
- (M) Tulsa
- (N) Wagoner
- (2) Rural areas:
 - (A) Adair
 - (B) Alfalfa
 - (C) Atoka
 - (D) Beaver
 - (E) Beckham
 - (F) Blaine
 - (G) Bryan
 - (H) Caddo
 - (I) Carter
 - (J) Cherokee
 - (K) Choctaw
 - (L) Cimarron
 - (M) Coal
 - (N) Cotton
 - (O) Craig
 - (P) Custer
 - (Q) Delaware
 - (R) Dewey
 - (S) Ellis
 - (T) Garvin
 - (U) Grady
 - (V) Grant
 - (W) Greer
 - (X) Harmon
 - (Y) Harper
 - (Z) Haskell
 - (AA) Hughes
 - (BB) Jackson
 - (CC) Jefferson
 - (DD) Johnston
 - (EE) Kay
 - (FF) Kingfisher
 - (GG) Kiowa
 - (HH) Latimer
 - (II) LeFlore
 - (JJ) Lincoln
 - (KK) Love
 - (LL) McCurtain
 - (MM) McIntosh
 - (NN) Major
 - (OO) Marshall
 - (PP) Mayes
 - (QQ) Murray
 - (RR) Muskogee

- (SS) Noble
- (TT) Nowata
- (UU) Okfuskee
- (VV) Okmulgee
- (WW) Ottawa
- (XX) Pawnee
- (YY) Payne
- (ZZ) Pittsburg
- (AAA) Pontotoc
- (BBB) Pushmataha
- (CCC) Roger Mills
- (DDD) Seminole
- (EEE) Stephens
- (FFF) Texas
- (GGG) Tillman
- (HHH) Washington
- (III) Washita
- (JJJ) Woods
- (KKK) Woodward

(b) ~~Payment to a birthing center on behalf of a Medicaid client is an all-inclusive facility payment and represents payment in full for the birthing center services. Separate payment will be made for the midwife or physician obstetrical care, delivery and postpartum care as appropriate.~~

~~(1) Urban Birthing Center: Unit 1, Limit 1 each 9 months.~~

~~(2) Rural Birthing Center: Unit 1, Limit 1 each 9 months.~~

317:30-5-893. Billing [REVOKED]

~~Billing for birthing center services will be on HCFA-1500. Claims must be submitted in accordance with guidelines found at OAC 317:30-3-11 and 317:30-3-11.1.~~

GIST/ANALYSIS:

The proposed revisions will increase the maximum eligible age for individuals who are involved in or at serious risk of involvement with the juvenile justice system and who are eligible for TCM services from eighteen (18) to under twenty-one (21). Additionally, the proposed revisions will align and reorganize TCM policy with the current evidence-based practices used by OJA.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 97. TARGETED CASE MANAGEMENT SERVICES FOR MEMBERS UNDER AGE 18 TWENTY-ONE YEARS OF AGE AT RISK OF INVOLVEMENT WITH OR IN THE TEMPORARY CUSTODY OR SUPERVISION OF THE OKLAHOMA OFFICE OF JUVENILE AFFAIRS (OJA)

317:30-5-970. Eligible providers

(a) ~~Case management agencies.~~ Services are provided by case management agencies established for the purpose of providing case management services. Medicaid Office of Juvenile Affairs Targeted Case Management (OJATCM) services must be made available to all eligible recipients and must be delivered by provider agencies on a statewide basis with procedures that assure 24 hour availability, the protection and safety of recipients, continuity of services without duplication, and compliance with federal and State mandates and regulations related to servicing the targeted population are met in a uniform and consistent manner. The agency must demonstrate that their staff has:

- (1) ~~experience working with the target population.~~
 - (2) ~~a minimum of five years experience in providing all core elements of case management services including:~~
 - (A) ~~individualized strengths and needs assessment;~~
 - (B) ~~needs-based service planning;~~
 - (C) ~~service coordination and monitoring; and~~
 - (D) ~~on-going assessment and treatment plan revision.~~
 - (3) ~~adequate administrative capacity to fulfill State and federal requirements.~~
 - (4) ~~a financial management capacity and system that provides documentation of services and costs.~~
 - (5) ~~a capacity to document and maintain individual case records in accordance with State and federal requirements.~~
 - (6) ~~ability to meet all State and federal laws governing the participation of providers in the State Medicaid program including, but not limited to, the ability to meet federal and State requirements for documentation, billing and audits.~~
 - (7) ~~statutory authority to care for, supervise and provide services to the targeted population on a statewide basis.~~
 - (8) ~~a minimum of five years experience in providing case management services that coordinate and link the community resources required by the target population.~~
 - (9) ~~a minimum of five years experience in meeting the case management and service needs of the target population, including the statewide contract management/oversight and administration of services funded through the Oklahoma Children's Initiative.~~
 - (10) ~~responsibility for planning and coordinating statewide juvenile justice and delinquency prevention services in accordance with Title 10, Section 7302-3.1A. of Oklahoma Statutes.~~
- (b) ~~Provider agreement.~~ A Provider Agreement between the Oklahoma Health Care Authority and the provider agency for OJATCM services must be in effect before reimbursement can be made for compensable services.
- (c) ~~Qualifications of individual case managers.~~ A targeted case manager for the OJATCM program must:
- (1) ~~be employed by the provider agency or its contractor.~~
 - (2) ~~possess a minimum of a bachelor's degree in a behavioral science or a bachelor's degree and one year of professional experience in juvenile justice or a related field.~~
 - (3) ~~possess knowledge of laws, rules, regulations, legislation, policies and procedures as they pertain to:~~
 - (A) ~~the State administration of juvenile justice and the investigation of juvenile delinquency;~~
 - (B) ~~community resources;~~
 - (C) ~~human developmental stages and related dysfunctions;~~
 - (D) ~~social work theory and practices;~~
 - (E) ~~emotional, physical and mental needs of children and families;~~
 - (F) ~~sensitivity to cultural diversity; and~~

- (G) ~~clinical and counseling techniques and treatment of juvenile delinquency;~~
- (4) ~~possess skill in:~~
 - (A) ~~crisis intervention;~~
 - (B) ~~gathering necessary information to determine the needs of the child;~~
 - (C) ~~casework management;~~
 - (D) ~~courtroom testimony, terminology and procedures;~~
 - (E) ~~effective communication;~~
 - (F) ~~developing, evaluating and modifying an intervention plan on an ongoing basis;~~
 - (G) ~~establishing and maintaining constructive relationships with children and their families;~~
 - (H) ~~helping families become and maintain as functional family units; and~~
 - (I) ~~working with courts and law enforcement entities.~~
- (d) **Provider selection.** Provision of case management services must not restrict an individual's free choice of providers. Eligible recipients must have free choice of providers of case management as well as providers of other medical care under the plan.
- (a) **Case management agency qualifications.** As the provider agency, the Oklahoma Office of Juvenile Affairs (OJA) must meet applicable state and federal laws governing the participation of providers in the Medicaid program. The Office of Juvenile Affairs Targeted Case Management (OJATCM) program must:
 - (1) Be available to all eligible members;
 - (2) Be delivered on a statewide basis with procedures that assure twenty-four (24) hour availability, the protection and safety of recipients, and continuity of services without duplication;
 - (3) Ensure compliance with federal and state mandates and regulations related to serving the targeted population are met in a consistent and uniform manner;
 - (4) Meet applicable state and federal laws governing the participation of providers in the Medicaid program, including, but not limited to, the ability to meet federal and state requirements for documentation billing and audits;
 - (5) Demonstrate that its staff has experience working with the target population and a minimum of five (5) years' experience in providing all core elements of case management including:
 - (A) Individual strengths and needs assessment;
 - (B) Needs-based service planning;
 - (C) Service coordination and monitoring; and
 - (D) Ongoing assessment and treatment plan revision.
 - (6) Have adequate administrative capacity to fulfill state and federal requirements;
 - (7) Have financial management capacity and systems that provide documentation of services and costs in accordance with Generally Accepted Government Auditing Standards (GAGAS);
 - (8) Have the capacity to document and maintain individual case records in accordance with state and federal requirements;
 - (9) Have a minimum of five (5) years' experience in providing and meeting the case management and service needs of the target population;
 - (10) Have responsibility for planning and coordinating statewide juvenile justice and delinquency prevention services in accordance with Title 10A of the Oklahoma Statutes (O.S.), Section (§) 2-2-102; and
 - (11) Have the ability to evaluate the effectiveness, accessibility, and quality of targeted case management (TCM) services on a community-wide basis.
- (b) **Interagency agreement.** An agreement between the Oklahoma Health Care Authority (OHCA) and OJA for TCM services must be in effect before Medicaid reimbursement can be made for compensable services.
- (c) **Case manager qualifications.** A targeted case manager for the OJATCM program must:
 - (1) Be employed by OJA;
 - (2) Possess a minimum of a bachelor's degree in a behavioral science, or a bachelor's degree and one (1) year of professional experience in juvenile justice or a related field;
 - (3) Possess knowledge of:
 - (A) Laws, regulations, legislation, policies, and procedures as they pertain to the State's administration of juvenile justice and the investigation of juvenile delinquency;
 - (B) Community resources;
 - (C) Human developmental stages, developmental disorders, and social work theory and practices;
 - (D) Adverse childhood experiences and the impact of trauma on the developing brain;
 - (E) The risk and protective factors of child delinquency;
 - (F) Solution-focused practices and the critical role protective factors play in intervention planning;
 - (G) Sensitivity of cultural diversity; and
 - (H) Clinical and counseling techniques and treatment of juvenile delinquency;
 - (4) Possess skills in:
 - (A) Crisis intervention;
 - (B) Gathering necessary information to determine the needs of the child;
 - (C) Casework management;
 - (D) Courtroom testimony, terminology, and procedures;
 - (E) Effective communication;
 - (F) Developing, evaluating, and modifying, as appropriate, intervention planning on an ongoing basis;
 - (G) Establishing and maintaining supportive relationships with children and their families;
 - (H) Assisting children and families to access needed resources and supports; and
 - (I) Working with courts and law enforcement entities; and

Permanent Final Adoptions

(5) Have the ability to access multi-disciplinary staff, when needed. This includes, at a minimum, medical professionals and a child protective services social worker.

317:30-5-971. Coverage by category

~~Payment is made for case management service as set forth in this Section.~~

- (1) ~~**Adults.** There is no coverage for adults.~~
(2) ~~**Children.** Payment is made for services to persons under age 18 as follows:~~

~~(A) **Description of case management services.** The target group for case management services are persons under age 18 who are in temporary custody or supervision of the Office of Juvenile Affairs (OJA), who are placed in own home or out of home care or Medicaid eligible recipients under age 18 whose behavior places them at risk of coming into the custody or supervision of OJA.~~

~~(i) Services are provided to assist a client in gaining access to needed medical, social, educational and other services. Major components of the services include working with the client in gaining access to appropriate community resources. The case manager may also provide referral, linkage and advocacy. Case management is designed to assist individuals in accessing services. The client has the right to refuse case management and cannot be restricted from services because of a refusal for Case Management Services.~~

~~(ii) Case management does not include:~~

- ~~(I) Physically escorting or transporting a client to scheduled appointments or staying with the client during an appointment;~~
~~(II) Monitoring financial goals;~~
~~(III) Providing specific services such as shopping or paying bills; or~~
~~(IV) Delivering bus tickets, food stamps, money, etc.~~

~~(B) **Non-Duplication of services.** To the extent any eligible recipients in the identified target population are receiving OJATCM services from another provider agency as a result of being members of other covered target groups, the provider agency assures that case management activities are coordinated to avoid unnecessary duplication of service.~~

~~(C) **Providers.** Case management services must be provided by case management agencies.~~

- ~~(3) **Individuals eligible for Part B of Medicare.** Case Management Services provided to Medicare eligible recipients are filed directly with the fiscal agent.~~

The target group includes individuals under twenty-one (21) years of age involved in, or at serious risk of involvement with, the juvenile justice system, as provided in Article II of the Oklahoma Juvenile Code. The target group includes individuals, under twenty-one (21) years of age, who have been temporarily placed in OJA custody or supervision or who are voluntarily supervised by OJA to prevent further involvement with the juvenile justice

system. The target group may include individuals, under twenty-one (21) years of age, who are assessed as at risk of abuse or neglect as defined in Title 10A of the Oklahoma Statutes (O.S.), Section (§) 1-1-105. The target group does not include those who are involuntarily in secure custody of law enforcement or judicial systems, except individuals who meet Medicaid criteria for inpatient care as defined in § 435.1010 of Title 42 of the Code of Federal Regulations.

(1) **Adults.** There is no coverage for adults age twenty-one (21) and older.

(2) **Children.** Payment is made for services to members under the age twenty-one (21).

317:30-5-971.1. Description of targeted case management (TCM) services

(a) **Definition.** In accordance with Section (§) 440.169(b) of Title 42 of the Code of Federal Regulations (C.F.R.), TCM services are defined as services furnished to assist individuals, eligible under the Oklahoma Medicaid State Plan, in gaining access to needed medical, social, educational, and other services. TCM includes providing services that are directly related to identifying the individual's needs and care, for the purposes of helping the individual access services; identifying needs and supports to assist the individual in obtaining services; providing case managers with useful feedback, and alerting case managers to changes in the individual's needs [42 C.F.R. 440.169(e)]. TCM includes the following assistance:

(1) Comprehensive assessment and periodic reassessment of an individual's needs, to determine the need for any medical, educational, social, or other services.

(A) All members are assessed using comprehensive, evidence-based, risk/needs assessment tools at the beginning of case assignment.

(B) Comprehensive, evidence-based, risk/needs assessment tools are used to measure multiple areas or domains in the lives of the members and then linking that information to case planning.

(C) Any area showing a moderate to high-risk/need/strength score could result in additional goals and action steps documented within the individualized treatment plan.

(D) In addition to the initial assessment, each member is assessed, at least once every six (6) months. Assessment activities include:

(i) Taking member history;

(ii) Identifying and documenting the member's needs; and

(iii) Gathering information from family members, medical providers, social workers, educators (if necessary), and other applicable sources to form a complete assessment of the member.

(E) Should behavior shifts or life-changing events occur prior to six (6) months, the member is reassessed and the individualized treatment service plan is adjusted to reflect identified needs. Any needed changes in services, service providers, treatment type, frequency, or duration may be adjusted at this time.

(2) Development (and periodic revision) of a specific individualized treatment service plan is based on the information collected through the assessment that:

(A) Specifies the goals and actions to address the medical, social, educational, and other services needed by the individual;

(B) Includes activities such as ensuring the active participation of the individual, and working with his or her authorized health care decision maker and others to develop those goals; and

(C) Identifies a course of action to respond to the assessed needs of the individual.

(3) Referral and related activities (such as scheduling appointments for the member) to help the individual obtain needed services, including activities that help link the member with medical, social, educational providers, or other programs and services that are capable of providing needed services to address identified needs and achieve goals specified in the treatment service plan.

(4) Monitoring and follow-up activities necessary to ensure the individualized treatment service plan is implemented and adequately addresses the individual's needs.

(A) The targeted case manager visits with the child at least once each month, face to face, and/or weekly (via telephone) to review progress as outlined within the individualized treatment service plan. The targeted case manager must visit with the parent or legal guardians monthly. The targeted case manager maintains consistent contact with the service providers to remain up to date on the child's treatment and progress.

(B) The frequency and type of visits may be adjusted or revised to better meet the needs of the child.

(C) Monitoring and follow-up activities may be conducted as frequently as necessary, including at least one (1) annual monitoring, to determine whether the following conditions are met:

(i) Services are being furnished in accordance with the member's treatment service plan;

(ii) Services in the treatment service plan are adequate; and

(iii) Changes in the needs or status of the member are reflected in the treatment service plan. Monitoring and follow-up activities include making necessary adjustments in the treatment service plan and service arrangements with providers.

(b) **Non-covered services.** TCM does not include:

(1) Physically escorting or transporting a member to scheduled appointments or staying with the member during an appointment;

(2) Monitoring financial goals;

(3) Providing specific services such as shopping or paying bills; and/or

(4) Delivering bus tickets, nutritional services, money, etc.

(c) **Non-duplication of services.** Consistent with 42 C.F.R. § 441.18(a)(4), payment for case management or TCM services shall not duplicate payments made to public agencies

or private entities under the Oklahoma Medicaid State Plan or other program authorities.

(d) **Individuals eligible for Part B of Medicare.** Case management services provided to Medicare eligible recipients are filed directly with the fiscal agent.

317:30-5-972. Reimbursement

~~Office of Juvenile Affairs Targeted Case Management (OJATCM) services will be reimbursed pursuant to the methodology described in the Oklahoma Title XIX State Plan.~~

(a) Targeted case management (TCM) services will be reimbursed pursuant to the methodology described in the Oklahoma Medicaid State Plan.

(b) The reimbursement methodology is based upon qualifying costs for the eligible population from the Cost Allocation Plan. The TCM unit rate is a prospective flat rate based on a qualifying TCM contact with the member in the target population or with some other person on behalf of the member during the claim period.

317:30-5-973. Billing

~~Billing for case management services is on Form HCFA-1500. Claims must be submitted in accordance with guidelines found at OAC 317:30-3-11 and 317:30-3-11.1.~~

Billing for case management services must be submitted, ensuring no duplication of services, and in accordance with state and federal requirements, reflective of guidelines found at Oklahoma Administrative Code (OAC) 317:30-3-11, 317:30-3-11.1, and 317:30-3-20.

317:30-5-974. Documentation of records

~~All case management services rendered must be reflected by documentation in the records. All units of Medicaid OJATCM services provided are documented by the case manager on the monthly Record of Contact form.~~

(a) The Oklahoma Office of Juvenile Affairs (OJA) must maintain case records that document for all members receiving targeted case management (TCM) as follows:

(1) The name of the member;

(2) The dates of the case management services;

(3) The name of the OJA as the provider agency (if applicable) and the person providing the case management service;

(4) The nature, content, units of the case management services received, and whether goals specified in the treatment service plan have been achieved;

(5) Whether the member has declined services in the treatment service plan;

(6) The need for, and occurrences of, coordination with other case managers;

(7) A timeline for obtaining needed services; and

(8) A timeline for reevaluation of the plan.

(b) All case management services rendered must be reflected by documentation in the records. All TCM units

Permanent Final Adoptions

provided to the member must be documented by the case manager on the electronic case management system designated by OJA.

GIST/ANALYSIS:

The proposed revisions will clarify how I/T/U OB providers should bill for OB care. I/T/Us have the option of either billing for OB encounters or a bundled rate for total OB care. The clarification will require I/T/Us to be specific when choosing a billing method as they are only allowed to choose one of the billing methods.

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 5. INDIVIDUAL PROVIDERS AND SPECIALTIES

PART 110. INDIAN HEALTH SERVICES, TRIBAL PROGRAMS, AND URBAN INDIAN CLINICS(I/T/US)

317:30-5-1095. I/T/U services not compensable under outpatient encounters

I/T/U services that are not compensable under outpatient encounters include:

- (1) group or mass information programs, health education classes, or group education activities, including media productions and publications;
- (2) vaccines covered by the Vaccines for Children program [refer to ~~OAC~~Oklahoma Administrative Code 317:30-5-14(a)(1)];
- (3) group or sports physicals and medical reports;
- (4) drug samples or other prescription drugs provided to the clinic free of charge;
- (5) administrative medical examinations and report services; and
- (6) gauze, band-aids, or other disposable products used during an office visit; and
- (7) billing global obstetrical care when performing a cesarean or vaginal delivery only.

317:30-5-1099. I/T/U service limitations and requirements

Service limitations governing the provision of all Oklahoma SoonerCare services will apply pursuant to Chapter 30 of the OHCA rules. In addition, the following limitations and requirements apply to services provided by I/T/U facilities:

- (1) **Multiple encounters.** An I/T/U facility may bill for more than one encounter per ~~24~~twenty-four (24) hour period under certain conditions.
- (2) **Behavioral Health services.** Behavioral Health Services are limited to those services furnished to members at or on behalf of the I/T/U facility.
- (3) **Laboratory procedures.** Laboratory procedures performed by an I/T/U outpatient facility (not an independently certified enrolled laboratory) on the same date of service are considered part of the health care practitioner's service and are included in the I/T/U encounter.
- (4) **Obstetrical services.** For OB services provided to a member before, during, and/or after the same pregnancy, ITUs may not bill for individual encounters and the package/bundled rate. Providers may only either:
 - (A) bill for antepartum visits, postpartum visits, and/or a cesarean or vaginal delivery as individual encounter; or
 - (B) bill the packaged/bundled rate for total care obstetrics, (which includes antepartum and postpartum visits and delivery). Refer to Oklahoma Administrative Code 317:30-5-22 for more detailed obstetrical care policy.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

SUBCHAPTER 1. GENERAL PROVISIONS

317:35-1-2. Definitions

The following words and terms, when used in this Chapter, have the following meaning, unless the context clearly indicates otherwise:

"Acute Care Hospital" means an institution that meets the requirements of 42 CFR, Section 440.10 and defined in Section (§) 440.10 of Title 42 of the Code of Federal Regulations (C.F.R.) and:

(A) is maintained primarily for the care and treatment of patients with disorders other than mental diseases;

(B) is formally licensed or formally approved as a hospital by an officially designated authority for state standard setting; and

(C) meets the requirements for participation in Medicare as a hospital.

"Adult" means an individual twenty-one (21) years of age or older, unless otherwise specified by statute, regulation, and/or policy adopted by the Oklahoma Health Care Authority (OHCA). For eligibility criteria policy for children and adults, please refer to Oklahoma Administrative Code (OAC) 317:35-5-2.

"Advantage Administration (AA)" means the Oklahoma Department of Human Services (OKDHS) which performs certain administrative functions related to the Advantage Waiver.

"Aged" means an individual whose age is established as ~~65~~sixty-five (65) years or older.

"Agency partner" means an agency or organization contracted with the OHCA that will assist those applying for services.

"Aid to Families with Dependent Children (AFDC)" means the group of low income families with children described in Section 1931 of the Social Security Act. The Personal Responsibility and Work Opportunity Act of 1996 established the new eligibility group of low income families with children and linked eligibility income and resource standards and methodologies and the requirement for deprivation for the new group to the State plan for ~~Aid to Families with Dependent Children~~ AFDC in effect on July 16, 1996. Oklahoma has elected to be less restrictive for all SoonerCare members related to AFDC. Effective January 1, 2014, children covered under Section 1931 are related to the children's group, and adults covered under Section 1931 are related to the parent and caretaker relative group. The Modified Adjusted Gross Income (MAGI) methodology is used to determine eligibility for these groups.

"Area nurse" means a registered nurse in the OKDHS Aging Services Division, designated according to geographic areas who evaluates the ~~UCAT~~Uniform Comprehensive Assessment Tool (UCAT) and determines medical eligibility for Personal Care, Advantage Waiver, and Nursing Facility services. The area nurse also approves care plan and service plan implementation for Personal Care services.

"Area nurse designee" means a registered nurse selected by the area nurse who evaluates the UCAT and determines medical eligibility for Personal Care, Advantage Waiver, and Nursing Facility services.

"Authority" means the ~~Oklahoma Health Care Authority~~ OHCA.

"Blind" means an individual who has central visual acuity of 20/200 or less in the better eye with the use of a correcting lens.

"Board" means the ~~Oklahoma Health Care Authority~~ OHCA Board.

Permanent Final Adoptions

"Buy-in" means the procedure whereby the OHCA pays the member's Medicare premium.

(A) **"Part A Buy-in"** means the procedure whereby the OHCA pays the Medicare Part A premium for individuals determined eligible as Qualified Medicare Beneficiaries Plus (QMBP) who are enrolled in Part A and are not eligible for premium free enrollment as explained under Medicare Part A. This also includes individuals determined to be eligible as Qualified Disabled and Working Individuals (QDWI).

(B) **"Part B Buy-in"** means the procedure whereby the OHCA pays the Medicare Part B premium for categorically needy individuals who are eligible for Part B Medicare. This includes individuals who receive TANF or the State Supplemental Payment to the Aged, Blind or Disabled, and those determined to be Qualified Medicare Beneficiary Plus (QMBP), Specified Low Income Medicare Beneficiaries (SLMB) or Qualifying Individual-1 (QI-1). Also included are individuals who continue to be categorically needy under the PICKLE amendment and those who retain eligibility after becoming employed.

"Caretaker relative" means a person other than the biological or adoptive parent with whom the child resides who meets the specified degree of relationship within the fifth degree of kinship.

"Case management" means the activities performed for members to assist them in accessing services, advocacy and problem solving related to service delivery.

"Categorically needy" means that income and, when applicable, resources are within the standards for the category to which the individual is related.

"Categorically related" or **"related"** means the individual meets basic eligibility requirements for an eligibility group.

"Certification period" means the period of eligibility extending from the effective date of certification to the date of termination of eligibility or the date of the next periodic redetermination of eligibility.

"Child" means an individual under twenty-one (21) years of age, unless otherwise specified by statute, regulation, and/or policy adopted by the OHCA. For eligibility criteria policy for children and adults, please refer to OAC 317:35-5-2.

"County" means the Oklahoma ~~Department of Human Services~~ OKDHS office or offices located in each county within the State.

"Custody" means the custodial status, as reported by ~~the Oklahoma Department of Human Services~~ OKDHS.

"Deductible/Coinsurance" means the payment that must be made by or on behalf of an individual eligible for Medicare before Medicare payment is made. The coinsurance is that part of the allowable medical expense not met by Medicare, which must be paid by or on behalf of an individual after the deductible has been met.

(A) For Medicare Part A (Hospital Insurance), the deductible relates to benefits for inpatient services while the patient is in a hospital or nursing facility. After the deductible is met, Medicare pays the remainder of the allowable cost.

(B) For Medicare Part B (Medical Insurance), the deductible is an annual payment that must be made before Medicare payment for medical services. After the deductible is met, Medicare pays ~~80%~~ eighty percent (80%) of the allowable charge. The remaining ~~20%~~ twenty percent (20%) is the coinsurance.

"Disabled" means an individual who is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted (or can be expected to last) for a continuous period of not less than ~~12~~ twelve (12) months.

"Disabled child" means for purposes of Medicaid Recovery a child of any age who is blind, or permanently and totally disabled according to standards set by the Social Security Administration.

"Estate" means all real and personal property and other assets included in the member's estate as defined in Title 58 of the Oklahoma Statutes.

"Gatekeeping" means the performance of a comprehensive assessment by the OKDHS nurse utilizing the ~~Uniform Comprehensive Assessment Tool (UCAT)~~ UCAT for the determination of Medical eligibility, care plan development, and the determination of Level of Care for Personal Care, ADvantage Waiver and Nursing Facility services.

"Ineligible Spouse" means an individual who is not eligible for ~~SSI~~ Supplemental Security Income (SSI) but is the husband or wife of someone who is receiving SSI.

"Local office" means the Oklahoma ~~Department of Human Services~~ OKDHS office or offices located in each county within the State.

"LOCEU" means the Oklahoma Health Care Authority's Level of Care Evaluation Unit.

"MAGI eligibility group" means an eligibility group whose financial eligibility is determined through the Modified Adjusted Gross Income (MAGI) methodology. The groups subject to MAGI are defined in ~~42 CFR 435.603~~ 42 C.F.R. § 436.603 and listed in OAC 317:35-6-1.

"Modified Adjusted Gross Income (MAGI)" means the financial eligibility determination methodology established by the Patient Protection and Affordable Care Act (PPACA) in 2009.

"Medicare" means the federally funded health insurance program also known as Title XVIII of the Social Security Act. It consists of four ~~(4)~~ (4) separate programs. Part A is Hospital Insurance, Part B is Medical Insurance, Part C is Medicare Advantage Plans, and Part D is Prescription Drug Coverage.

(A) **"Part A Medicare"** means Hospital Insurance that covers services for inpatient services while the patient is in a hospital or nursing facility. Premium free enrollment is provided for all persons receiving OASDI or Railroad Retirement income who are age ~~65~~ sixty-five (65) or older and for those under age ~~65~~ sixty-five (65) who have been receiving disability benefits under these programs for at least ~~24~~ twenty-four (24) months.

(i) Persons with end stage renal disease who require dialysis treatment or a kidney transplant may also be covered.

(ii) Those who do not receive OASDI or Railroad Retirement income must be age ~~65~~sixty-five (65) or over and pay a large premium for this coverage. Under Authority rules, these individuals are not required to enroll for Part A to be eligible for SoonerCare benefits as categorically needy. They must, however, enroll for Medicare Part B. Individuals eligible as a QMBP or as a ~~Qualified Disabled and Working Individual (QDWI)~~QDWI under Medicaid are required to enroll for Medicare Part A. The Authority will pay Part A premiums for QMBP individuals who do not qualify for premium free Part A and for all QDWI's.

(B) **"Part B Medicare"** means Supplemental Medical Insurance that covers physician and related medical services other than inpatient or nursing facility care. Individuals eligible to enroll in Medicare Part B are required to do so under OHCA policy. A monthly premium is required to keep this coverage in effect.

"Minor child" means a child under the age of ~~18~~eighteen (18).

"Nursing Care" for the purpose of Medicaid Recovery is care received in a nursing facility, an intermediate care facility for individuals with intellectual disabilities (ICF/IIDs) or other medical institution providing nursing and convalescent care, on a continuing basis, by professional personnel who are responsible to the institution for professional medical services.

"OCSS" means the ~~Oklahoma Department of Human Services~~OKDHS Oklahoma Child Support Services (formerly Child Support Enforcement Division).

"OHCA" means the Oklahoma Health Care Authority.

"OHCA Eligibility Unit" means the group within the ~~Oklahoma Health Care Authority~~OHCA that assists with the eligibility determination process.

"OKDHS" means the Oklahoma Department of Human Services.

"OKDHS nurse" means a registered nurse in the OKDHS Aging Services Division who meets the certification requirements for UCAT Assessor and case manager, and who conducts the uniform assessment of individuals utilizing the ~~Uniform Comprehensive Assessment Tool (UCAT)~~UCAT for the purpose of medical eligibility determination. The OKDHS nurse also develops care plans and service plans for Personal Care services based on the UCAT.

"Qualified Disabled and Working Individual (QDWI)" means individuals who have lost their Title II OASDI benefits due to excess earnings, but have been allowed to retain Medicare coverage.

"Qualified Medicare Beneficiary Plus (QMBP)" means certain aged, blind or disabled individuals who may or may not be enrolled in Medicare Part A, meet the Medicaid QMBP income and resource standards and meet all other Medicaid eligibility requirements.

"Qualifying Individual" means certain aged, blind or disabled individuals who are enrolled in Medicare Part A, meet the Medicaid Qualifying Individual income and resource standards and meet all other Medicaid eligibility requirements.

"Qualifying Individual-1" means a Qualified Individual who meets the Qualifying Individual-1 income and resource standards.

"Reasonably compatible" means that there is no significant discrepancy between information declared by a member or applicant and other information available to the agency. More specific policies and procedures for determining whether a declaration is reasonably compatible are detailed in Oklahoma's Verification Plan.

"Recipient lock-in" means when a member is restricted to one primary physician and/or one pharmacy. It occurs when the OHCA determines that a SoonerCare member has used multiple physicians and/or pharmacies in an excessive manner over a ~~12-month~~twelve (12) month period.

"Scope" means the covered medical services for which payment is made to providers on behalf of eligible individuals. The ~~Oklahoma Health Care Authority~~OHCA Provider Manual (OAC 317:30) contains information on covered medical services.

"Specified Low Income Medicare Beneficiaries (SLMB)" means individuals who, except for income, meet all of the eligibility requirements for QMBP eligibility and are enrolled in Medicare Part A.

"TEFRA" means the Tax Equity and Fiscal Responsibility Act of 1982 (Public Law 97-248). TEFRA provides coverage to certain disabled children living in the home who would qualify for SoonerCare if residents of nursing facilities, ICF/IIDs, or inpatient acute care hospital stays are expected to last not less than ~~60~~sixty (60) days.

"Worker" means the OHCA or OKDHS worker responsible for assisting in eligibility determinations.

GIST/ANALYSIS:

The proposed revisions will comply with 42 Code of Federal Regulations (CFR) § 435.916(d), which requires a prompt redetermination of eligibility whenever information is received about a change in a member's circumstances that may affect eligibility. The proposed policy outlines that a member's eligibility will be terminated if his or her mail is returned to the agency as unforwardable, with address unknown, and after the Oklahoma Health Care Authority (OHCA) has made reasonable but unsuccessful attempts to verify the member's current address. Per 42 CFR §§ 431.213 and 431.231, advance notice is not required to be given to the member when eligibility is terminated due to returned mail; however, notice will be sent to the member by mail and by email, (if the agency has an email address on file). Additionally, notice will be posted to the member's online SoonerCare account. If the member's whereabouts become known within the eligibility period, eligibility will be reinstated. Rules and procedures for terminating eligibility due to returned mail are employed by other states' Medicaid agencies, including those of Alabama, Arizona, Ohio, New Jersey, New York, Oregon, and Colorado.

CONTACT PERSON:

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 14, 2020:

SUBCHAPTER 5. ELIGIBILITY AND COUNTABLE INCOME

PART 3. NON-MEDICAL ELIGIBILITY REQUIREMENTS

317:35-5-26. Residence requirements; residents of public institutions; homeless persons; and residents of IHS, BIA or Tribal controlled dormitories

(a) **Residence.** To be eligible for SoonerCare services, the applicant must be residing in the State of Oklahoma with intent to remain at the time the medical service is received. A durational residence requirement is not imposed.

(1) Temporary absence from the State, with subsequent returns to the State, or intent to return when the purposes of the absence have been accomplished, does not interrupt continuity of Oklahoma residence.

(2) Oklahoma residence does not include transients or visitors passing through the state but does not preclude persons who do not have a fixed address if intent is established.

(3) Intent to remain or return is defined as a clear statement of plans to remain or return in addition to other evidence and/or corroborative statements of others.

(4) When a non-resident makes application for SoonerCare benefits, the local office provides services necessary to make available to the applicant any SoonerCare services for which he/she might be eligible from his/her state of residence. The local office contacts the state or county of the applicant's residence to explore possible eligibility for medical benefits from the state and to obtain information needed for the determination of medical eligibility for the services received while in Oklahoma.

(5) If a member's whereabouts are unknown, as indicated by the return of unforwardable agency mail, refer to OAC 317:35-5-67.

(b) **Individuals residing in institutions (correctional facilities and institutions for mental disease).** The SoonerCare program will only pay for services rendered to adults (21 through 64 years of age) who are inpatients in an institution for mental disease (IMD), juveniles in the custody of the Office of Juvenile Affairs who are inmates in a state-owned and operated facility, or inmates in a correctional facility, when these individuals are admitted as an inpatient to a hospital, nursing facility, juvenile psychiatric facility or an intermediate care facility for the mentally retarded and meet all other eligibility requirements.

(c) **Homeless individuals.** Individuals are not required to have a fixed address in order to be eligible for assistance. Individuals who lack a fixed or regular residence, who have temporary accommodations, i.e., supervised shelters, residence of other individuals, a hallway, bus station, car or other similar places, are considered as "homeless".

(d) **Individuals residing in IHS, BIA or Tribal controlled dormitories.** Individuals that reside in a facility which provides students boarding and lodging on a temporary residential basis for the purpose of attending a Bureau-operated or Indian-controlled contract or public school are considered Oklahoma residents for SoonerCare eligibility purposes.

PART 7. APPLICATION AND ELIGIBILITY DETERMINATION PROCEDURES

317:35-5-67. Returned mail

If the member's whereabouts are unknown, as indicated by the return of unforwardable agency mail directed to the member, and the Oklahoma Health Care Authority has made reasonable attempts to verify the member's current address, the member's eligibility will be discontinued. Notice thereof will be sent to the member by mail and by electronic notice. If the member's whereabouts become known within the eligibility period, eligibility shall be reinstated in accordance with Section 431.231(d) of Title 42 of the Code of Federal Regulations. If the member's whereabouts become known after the eligibility period, a new application will be required.

GIST/ANALYSIS:

The proposed revisions will update policy regarding the determination of countable income for individuals in the ABD categorical group. The rule changes will incorporate the federal Supplemental Security Income (SSI) standards, including the exclusion of earned and unearned income, and clarify guidance on how income is deemed from certain individuals to another (i.e.

ineligible spouse's income deemed to the applicant). Additional rule changes will update policy to note that the value of a life estate may be established by a written estimate instead of a written appraisal. Finally, rule changes will update QMB Plus policy to align with other Medicare savings programs and to clarify income and resource standards for individuals and couples.

Sandra Puebla, Director of Federal and State Authorities, 405-522-7270, Sandra.Puebla@okhca.org.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,
THE FOLLOWING RULES ARE CONSIDERED
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,
SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE
DATE OF SEPTEMBER 14, 2020:**

**SUBCHAPTER 5. ELIGIBILITY AND
COUNTABLE INCOME**

**PART 5. COUNTABLE INCOME AND
RESOURCES**

317:35-5-41.1. Home/real property

(a) Home property is excluded from resources regardless of value unless the individual is applying for long-term care services [See Oklahoma Administrative Code (OAC) 317:35-5-41.8(a) (relating to eligibility for long-term care services)]. For purposes of the home property resource exclusion, a home is defined as any shelter in which the individual has an ownership interest and which is used by the individual as his/her principal place of residence. The home may be either real or personal property, fixed or mobile.

(1) Home property includes all property which is adjacent to the home. Land is considered adjacent even if separated by a boundary line, street, alley, highway, or waterway.

(2) Property has a value regardless of whether there is an actual offer to purchase. Verification of home/real property value is established by collateral contacts with specialized individuals knowledgeable in the type and location of property being considered. Mineral rights and wind rights associated with the home property are not valued separate from the surface.

(3) The home may be retained without affecting eligibility during periods when it is necessary to be absent for illness or other necessity. When it is determined that the member does not have a feasible plan for and cannot be expected to return to his/her home, the market value of the property is considered in relation to the resource. The member is responsible for taking all steps necessary to convert the resource for use in meeting current needs. If the member is making an effort to make the resource available, a reasonable period of time is given [not to exceed ninety (90) days] to convert the resource. He/she is advised in writing that the ninety-day (90-day) period begins with the determination that the property be considered in relation to the resource. The ninety-day (90-day) period is given only if efforts are in progress to make the resource

Permanent Final Adoptions

available. Any extension beyond the initial ninety-day (90-day) period is justified only after interviewing the member, determining that a good faith effort to sell is still being made and failure to sell is due to circumstances beyond the control of the member. A written notification is also provided to the member at any time an extension is allowed. Detailed documentation in the case record is required.

(4) If the member fails or is unwilling to take steps necessary to convert the resource for use in meeting current needs, continuing eligibility cannot be established and the member is advised as to the effective date of closure and of the right to receive assistance when the resources are within the maximum allowable resources provided other conditions of eligibility continue to be met.

(5) When a member sells his/her home with the intention of purchasing another home or when an insurance payment for damage to the home is received, a reasonable period of time is given to reinvest the money in another home. A reasonable period of time is considered to not exceed a ninety-day (90-day) period. Extensions beyond the ninety (90) days may be justified only after interviewing the member; and determining that a good faith effort is still being made; and that completion of the transaction is beyond his/her control. This must be documented in the case record.

(6) At the point a member decides not to reinvest the proceeds from the sale of his/her home in another home, the member's plan for use of the proceeds is evaluated in relation to rules on resources disposed of while receiving assistance.

(7) A home traded for another home of equal value does not affect the member's eligibility status. If the home is traded for a home of lesser value, the difference may be invested in improvement of the new home.

(8) Absences from home for up to ninety (90) days for trips or visits or six (6) months for medical care (other than nursing facilities) do not affect receipt of assistance or the home exclusion as long as the individual intends to return home. Such absences, if they extend beyond those limits, may indicate the home no longer serves as the principal place of residence.

(9) Mineral rights, associated with the home property, are considered along with the surface rights and are excluded as a resource.

(b) Real property other than home property shall be treated as follows:

(1) Mineral rights which are not associated with the home property are considered as a resource. Since evaluation and ~~scalability~~ salability of mineral rights fluctuate, the establishment of the value of mineral rights are established based on the opinion of collateral sources. Actual offers of purchase are used when established as a legitimate offer through a collateral source. Mineral rights not associated with home property which are income producing are considered in the same way as income producing property. Refer to OAC 317:35-5-41.12(c)(3) for

treatment of mineral rights as non-trade or non-business property.

(2) The market value of real estate other than home property owned by the member or legal dependent and encumbrances against such property are ascertained in determining the equity (including the cost to the member of a merchantable title to be determined when the resource approaches the maximum). The market value of real estate other than the home owned by the applicant is established on the basis of oral or written information which the applicant has on hand and counsel with persons who have specialized knowledge about this kind of resource. Refer to OAC 317:35-5-41.12(c) for exclusion of real estate that produces income.

(3) For any individual (and spouse, if any) who is of Indian descent from a federally recognized Indian tribe, any interest in land which is held in trust by the United States for an individual Indian or tribe, or which is held by an individual Indian or tribe and which can only be sold, transferred, or otherwise disposed of with the approval of other individuals, his or her tribe, or an agency of the federal government, shall be excluded from resource determinations, in accordance with 20 Code of Federal Regulations (C.F.R.) § 416.1234.

(4) A life estate conveys upon an individual or individuals for his/her lifetime, certain rights in property. Its duration is measured by the lifetime of the tenant or of another person; or by the occurrence of some specific event, such as remarriage of the tenant. The owner of a life estate has the right of possession, the right to use the property, the right to obtain profits from the property and the right to sell his/her life estate interest. However, the contract establishing the life estate may restrain one or more rights of the individual. The individual does not have title to all interest in the property and does not have the right to sell the property other than the interest owned during his/her lifetime. He/she may not usually pass it on to heirs in the form of an inheritance.

(A) When a life estate in property is not used as the member's home, it is necessary to establish the value. A computer procedure is available to compute the value of a life estate by input of the current market value of the property and the age of the life estate owner.

(B) The value of a life estate on mortgaged property is based on equity rather than market value and the age of the individual.

(C) In the event the member does not accept as valid the value of the life estate as established through this method, the member must secure a written appraisal estimate by two (2) persons who are familiar with current values. If there is substantial unexplained divergence between these appraisals, the worker and the member will jointly arrange for the market value to be established by an appraisal made by a third (3rd) person who is familiar with current market values and who is acceptable to both the member and the worker.

- (5) Real and/or personal property which produces income is excluded if it meets the following conditions established in OAC 317:35-5-41.12.

317:35-5-42. Determination of countable income for individuals categorically related to aged, blind and disabled

(a) **General.** The term income is defined as ~~that a~~ gross gain or gross recurrent benefit ~~which is derived that~~ derives from labor, business, property, retirement and other benefits, ~~and many other forms which can be counted on as currently or sources that are~~ available for use on a regular basis. ~~When an individual's income is reduced due to recoupment of an overpayment or garnishment, the gross amount before the recoupment or garnishment is counted as income. Verification of the member's countable income or resources held in bank accounts or at other financial institutions can be established through an Asset Verification System (AVS).~~

(1) If it appears the applicant or SoonerCare member is eligible for any type of income (excluding Supplemental Security Income (SSI)) or resources, ~~he/she~~ Oklahoma Department of Human Services (OKDHS) staff must be notified notify the individual in writing by the Agency of his/her potential eligibility, per Section 416.210 of Title 20 of the Code of Federal Regulations (20 C.F.R. § 416.210). ~~The notice must contain the information that failure to file for and take all appropriate steps to obtain such benefit within thirty (30) days from the date of the notice will result in a determination of ineligibility.~~

(A) Potential income may include, but is not limited to:

- (i) Retirement, Survivors, Disability Insurance (RSDI) benefits;
- (ii) Benefits from the United States (U.S.) Department of Veterans Affairs (VA);
- (iii) Workers' compensation payments;
- (iv) Unemployment insurance benefits (UIB);
- (v) Annuities;
- (vi) Pensions or other retirement benefits; or
- (vii) Disability benefits.

(B) The notice must contain the information that failure to file for and take all appropriate steps to obtain the potential income within thirty (30) calendar days from the date of the notice will result in an ineligibility determination of ineligibility.

(C) When the individual has a good cause reason for not filing for the potential income within the thirty (30) calendar day period or taking other necessary steps to obtain the income, he or she is not determined ineligible.

(2) ~~If a husband and wife are living spouses live in their own home, the couple's total income and/or resource is~~resources are divided equally between the two cases. If they both enter a nursing facility, their income and resources are considered separately.

(3) When an eligible individual or child resides with an ineligible spouse or parent(s), a portion of the ineligible spouse's or parent's income is deemed as available income

to the eligible individual, per Oklahoma Administrative Code (OAC) 317:35-5-42(k).

~~(34) If only one spouse in a couple is eligible and the couple ceases to live stops living together, only the income and resources of that the ineligible spouse that are actually contributed~~ contributes to the eligible spouse are considered in determining the eligible spouse's eligibility, beginning with the month after the month which they ceased to live stop living together are considered.

(45) In calculating monthly income, cents are included in the computation until the monthly amount of each individual's source of income has been established. When the monthly amount of each income source has been established, cents are rounded to the nearest dollar (1-49 cents is rounded down, and 50-99 cents is rounded up). For example, an individual's weekly earnings of \$99.90 are multiplied by 4.3 and the cents rounded to the nearest dollar (\$99.90 x 4.3 = \$429.57 rounds to \$430). See rounding procedures in OAC 340:65-3-4 when using BENDEX to verify Retirement, Survivors, and Disability Insurance (RSDI) benefits. Refer to OAC 317:35-9-68 to determine how to consider a community spouse's income eligibility for SoonerCare (Medicaid) when his or her spouse:

- (A) Is institutionalized in a nursing facility or an intermediate care facility for the intellectually disabled;
- (B) Is sixty-five (65) years or older and lives in a mental health hospital; or
- (C) Receives ADvantage or Home and Community Based Waiver services.

(6) In certain circumstances, the amount of income determined to be available to an individual may be greater than the amount of income the individual actually receives for his or her own use. This includes, but is not limited to:

- (A) Court-ordered income deductions for child and/or spousal support even when the support is paid directly to the child's guardian or spouse by the individual's employer or benefit payer;
- (B) Deductions due to a repayment of an overpayment, loan, or other debt, unless the amount being withheld to reduce a previous overpayment was included when determining the amount of unearned income for a previous month in the determination of medical assistance eligibility; or
- (C) Garnishments or liens placed against earned or unearned income of the individual, regardless of the purpose for the garnishment or lien.

(7) The individual's statement regarding the source and amount of available income must be verified at application, renewal, and when changes occur by:

- (A) Award letters, warrants, or other documents provided by the individual;
- (B) Automated data exchange with other agencies such as Beneficiary and Earnings Data Exchange System (BENDEX); Supplemental Security Income (SSI)/State Data Exchange System (SDX), or UIB;
- (C) The Asset Verification System (AVS) when income is held in bank accounts or other financial institutions;

Permanent Final Adoptions

- (D) Public records; or
- (E) Collateral contacts such as employers, agencies, businesses, or community action groups.
- (8) The individual is responsible for reporting and verifying income changes within ten (10) calendar days of the change occurring.
- (b) **Income disregards.** In determining need, the following are not considered as income:
 - (1) ~~The value of Supplemental Nutrition Assistance Program (food stamps) received;~~
 - (2) ~~Any payment received under Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970;~~
 - (3) ~~Educational grants (excluding work study), scholarships, etc., that are contingent upon the student regularly attending school. The student's classification (graduate or undergraduate) is not a factor;~~
 - (4) ~~Loans (regardless of use) if a bona fide debt or obligation to pay can be established. Criteria to establish a loan as bona fide includes:~~
 - (A) ~~An acknowledgment of obligation to repay or evidence that the loan was from an individual or financial institution in the loan business. If the loan agreement is not written, an OKDHS Form 08AD103E, Loan Verification, should be completed by the borrower attesting that the loan is bona fide and signed by the lender verifying the date and amount of loan. When copies of written agreements or OKDHS Form 08AD103E are not available, detailed case documentation must include information that the loan is bona fide and how the debt amount and date of receipt was verified.~~
 - (B) ~~If the loan was from a person(s) not in the loan business, the borrower's acknowledgment of obligation to repay (with or without interest) and the lender's verification of the loan are required to indicate that the loan is bona fide.~~
 - (C) ~~Proceeds of a loan secured by an exempt asset are not an asset;~~
 - (5) ~~One third of child support payments received on behalf of the disabled minor child;~~
 - (6) ~~Indian payments (including judgment funds or funds held in trust) distributed by the Secretary of the Interior (Bureau of Indian Affairs) or distributed by the tribe subject to approval by the Secretary of the Interior. Also, any interest or investment income accrued on such funds while held in trust or any purchases made with judgment funds, trust funds, interest or investment income accrued on such funds. Any income from mineral leases, from tribal business investments, etc. However, any interest or income derived from the principal or produced by purchases made with funds after distribution is considered as any other income;~~
 - (7) ~~Special allowance for school expenses made available upon petition (in writing) for funds held in trust for the student;~~
 - (8) ~~Title III benefits from State and Community Programs on Aging;~~
 - (9) ~~Payment for supportive services or reimbursement of out of pocket expenses made to individual volunteers serving as foster grandparents, senior health aides, or senior companions, and to persons serving in the Service Corps of Retired Executives (SCORE) and Active Corps of Executives (ACE);~~
 - (10) ~~Payments to volunteers under the Domestic Volunteer Services Act of 1973 (VISTA), unless the gross amount of VISTA payments equals or exceeds the state or federal minimum wage, whichever is greater;~~
 - (11) ~~The value of supplemental food assistance received under the Child Nutrition Act or the special food service program for children under the National School Lunch Act;~~
 - (12) ~~Any portion of payments made under the Alaska Native Claims Settlement Act to an Alaska Native which are exempt from taxation under the Settlement Act;~~
 - (13) ~~Reimbursements from an employer for out of pocket expenditures and allowances for travel or training to the extent the funds are used for expenses directly related to such travel or training and uniform allowance if the uniform is uniquely identified with company names or logo;~~
 - (14) ~~Assistance or services from the Vocational Rehabilitation program such as transportation expenses to a rehabilitation center, extra clothing, lunches, grooming needed for a training program and any other such complementary payments;~~
 - (15) ~~Experimental Housing Allowance Program (EHAP) payments made under Annual Contributions Contracts entered into prior to January 1, 1975, under Section 23 of the U.S. Housing Act of 1937, as amended;~~
 - (16) ~~Payments made by a public or private non profit child care agency for a child placed in foster care or subsidized adoption;~~
 - (17) ~~Governmental rental or housing subsidies by governmental agencies, e.g., HUD (received in kind or in cash) for rent, mortgage payments, or utilities;~~
 - (18) ~~Low Income Home Energy Assistance Program (LIHEAP) payments for energy assistance and payments for emergency situations under Emergency Assistance to Needy Families with Children;~~
 - (19) ~~Payments made from the Agent Orange Settlement Fund or any other fund established pursuant to the settlement in the In Re Agent Orange product liability litigation, M.D.L. No. 381 (E.D.N.Y.);~~
 - (20) ~~Payments made from the Radiation Exposure Compensation Trust Fund as compensation for injuries or deaths resulting from the exposure to radiation from nuclear testing and uranium mining;~~
 - (21) ~~Federal major disaster and emergency assistance provided under the Disaster Relief Act of 1974, and comparable disaster assistance provided by States, local governments, and disaster assistance organizations;~~
 - (22) ~~Income of a sponsor to the sponsored eligible alien;~~
 - (23) ~~Income that is set aside under an approved Plan for Achieving Self Support for Blind or Disabled People~~

(PASS). The Social Security Administration (SSA) approves the plan, the amount of income excluded and the period of time approved. A plan can be approved for an initial period of eighteen (18) months. The plan may be extended for an additional eighteen (18) months if needed, and an additional twelve (12) months (total forty-eight (48) months) when the objective involves a lengthy educational or training program;

(24) Payments made to individuals because of their status as victims of Nazi persecution (PL 103-286);

(25) Payments received under the Civil Liberties Act of 1988. These payments are to be made to individuals of Japanese ancestry who were detained in internment camps during World War II;

(26) Payments received as a result of participation in a class action lawsuit entitled "Factor VIII or IX Concentrate Blood Products Litigation". These payments are made to hemophilia patients who are infected with HIV. However, if the payments are placed in an interest bearing account, or some other investment medium that produces income, the income generated by the account may be countable as income to the individual;

(27) Payments made to certain Vietnam veterans' children with spina bifida (PL 104-204);

(28) Payments made to certain Korea service veterans' children with spina bifida (PL 108-183);

(29) Payments made to the children of women Vietnam veterans who suffer from certain birth defects (PL 106-419);

(30) Additional payments of regular unemployment compensation in the amount of \$25 per week ending June 30, 2010, and any amount of emergency unemployment compensation paid through May 31, 2010, as authorized under the American Recovery and Reinvestment Tax Act of 2009;

(31) Wages paid by the Census Bureau for temporary employment related to Census activities;

(32) Income tax refunds;

(33) Home energy assistance;

(34) Food or shelter based on need provided by non-profit agencies;

(35) Money someone else spends to pay your expenses for items other than food or shelter (e.g., someone pays for your telephone or medical bills);

(36) Earned income for working students younger than twenty-two (22) years of age when they regularly attend a school, college, university or a course of vocational or technical training. Refer to Appendix C-1, Schedule VIII.E; Maximum Income, Resource and Payment Standards for the maximum monthly and yearly exclusion amounts;

(37) The cost of impairment related work expenses for items or services that a disabled person needs in order to work; and

(38) The first \$2,000 of compensation received per calendar year for participating in certain clinical trials.

(b) **Sources of income considered.** The individual is responsible for reporting information regarding all sources of

available income. All monies or payments that are available for current living expenses, unless specifically disregarded per (c) of this Section are considered in determining monthly gross income. Some of the more common income sources to be considered in determining eligibility are included in (1) through (8) of this subsection:

(1) **Annuities, pensions, retirement, disability, and other payments.** In accordance with 20 C.F.R. 416.1123, benefits and payments are considered for the month they are received, unless they include retroactive payments. Retroactive payments are considered as lump sum payments per (b)(5) of this Section.

(A) Payments include, but are not limited to:

(i) RSDI and SSI benefits;

(ii) Veteran's benefits;

(iii) Railroad retirement annuities;

(iv) Pensions, retirement, or disability benefits from government or private sources;

(v) Workers' compensation; and

(vi) UIB.

(B) Determination of RSDI benefits to be considered; disregarding cost-of-living adjustments (COLAs) for former State Supplemental Payment recipients, who are reapplying for medical benefits under the Pickle Amendment, are computed, per OKDHS Appendix C-2-A, COLA Increase Computation Formulas.

(C) The U.S. Department of Veterans Affairs allows their recipients to request reimbursement for medical expenses not covered by SoonerCare. When a recipient is eligible for a readjustment payment, it is paid in a lump sum for the entire past year. When received, this reimbursement is disregarded as income or a resource for the month received. Any amount retained in the month following receipt is considered as a resource.

(D) Government financial assistance in the form of VA Aid and Attendance or Champus payments are considered as:

(i) A third party resource whether paid to the individual or the facility when the individual resides in a nursing facility. These payments do not affect income eligibility or the vendor payment of the member; or

(ii) Excluded income when paid for an attendant in the individual's home.

(E) SSI benefits may be continued for up to three (3) months for a recipient who enters a public medical or psychiatric institution, a SoonerCare approved hospital, extended care facility, intermediate care facility for individuals with an intellectual disability, or nursing facility. To be eligible for the continuation of benefits, the SSI recipient must have a physician's certification that the institutionalization is not expected to exceed three (3) months and there must be a need to maintain and provide expenses for the home. These continued payments are intended for the use of the recipient and do not affect the vendor payment.

(F) A veteran or his or her surviving spouse who receives a VA pension may have the pension reduced to ninety dollars (\$90) per month if the veteran does not have dependents, is SoonerCare (Medicaid) eligible, and resides in a nursing facility that is approved under SoonerCare, per Section 8003 of Public Law (P.L.) 101-508. The VA pension for a veteran or his or her surviving spouse who meets these conditions is reduced the month following the month of admission to a SoonerCare (Medicaid) approved nursing facility.

(i) The reduced VA pension is not used to compute the vendor payment or spenddown. The nursing facility resident is entitled to receive the ninety-dollars (\$90) reduced VA pension and the regular nursing facility maintenance standard, per OKDHS Appendix C-1, Maximum Income, Resource, and Payment Standards, Schedule VIII.B.2, Maximum Income, Resource, and Payment Standards.

(ii) The vendor payment or spenddown is computed using other income minus the monthly nursing facility maintenance standard and any applicable medical deductions.

(2) **Child support and alimony payments.** Child support and alimony payments are counted as unearned income whether in cash or in-kind. Per (f)(11) of this Section, one-third of child support payments received on behalf of the disabled minor child is excluded.

(3) **Dividends, interest, and certain royalties.** Dividends, interest, and certain royalties are counted as unearned income. Dividends and interest are returns on capital investments, such as stocks, bonds, or savings accounts. Royalties are compensation paid to the owner for the use of property or natural resources. Royalties are considered earned income when received as part of the individual's trade or business or in conjunction with a work publication.

(4) **Income from capital resources and rental property.** Income from capital resources may be received from the use of real or personal property, such as land, housing, machinery, leasing of minerals, a life estate, homestead rights, or interest.

(A) Rental income may be treated as self-employment income when the individual participates in the management of the trade or business or invests his/her own labor in producing the income. When the individual does not participate in the management of the trade or business or does not invest his/her own labor in producing the income, it is considered as unearned income.

(i) The individual's federal income tax return or business records verify when the rental income is considered as self-employment income. When the individual's federal tax return or business records do not verify the rental income is from self-employment, the income is considered unearned income.

(ii) Expenses necessary for the production or collection of the rental income are deducted when paid, not when they are incurred. Examples of deductible expenses include interest on debt, state and local taxes on real or personal property and on motor fuel, general sales taxes, and expenses on managing or maintaining the property. Depreciation or depletion of property is not considered a deductible expense.

(iii) When rental property is handled by a leasing agent who collects the rent and deducts a management fee, only the rent actually received by the individual is considered as income.

(B) If the individual receives royalty income monthly but in irregular amounts or less often than monthly, the income is averaged over the previous six (6) month period to determine the countable monthly income.

(i) At any time a dramatic increase or decrease in royalty income occurs, the previous two (2) months of royalty income is averaged to compute the countable monthly income.

(ii) When the difference between the gross and net royalty income is due to a production or severance tax, the net income is used to determine income eligibility as this tax is considered the cost of producing the income.

(5) **Lump sum payments.** Any income received in a lump sum, with the exception of an SSI or RSDI lump sum, covering a period of more than one (1) month, whether received on a recurring or nonrecurring basis, is considered as income in the month it is received. Any amount retained on the first day of the month following receipt of the lump sum is considered as a resource.

(A) A lump sum payment may be considered as earned or unearned income, depending on the source of the lump sum payment. Lump sum payments may include, but are not limited to:

(i) Wages or wage bonuses;

(ii) Retroactive RSDI, VA, or workers' compensation payments;

(iii) Bonus lease payments;

(iv) Annual rentals from land or minerals;

(v) Life insurance death benefits;

(vi) Lottery or gambling winnings;

(vii) Personal injury awards or settlements; or

(viii) Inheritances.

(B) RSDI and SSI retroactive payments do not count as income in the month of receipt. Any unspent portion retained on the first day of the month following receipt of the lump sum is excluded from resources for nine (9) calendar months, per 20 C.F.R. § 416.1233. However, unspent money from a retroactive payment must be identifiable from other resources for this exclusion to apply. The money may be commingled with other funds, but if this is done in such a fashion that the retroactive amount

can no longer be separately identified, that amount is counted toward the resource limit.

(C) Lump sum payments used to establish dedicated bank accounts by representative payees in order to receive and maintain retroactive SSI benefits for children with disabilities or blindness who are under eighteen (18) years of age are excluded as income or a resource. The interest income generated from dedicated bank accounts is also excluded.

(D) A life insurance death benefit received by the individual for another person is considered as income in the month received except for amounts paid for the person's last illness and burial expenses. Money retained in the month following receipt of the benefit is counted as a resource to the extent that it is available.

(E) Changing a resource from one form to another, such as converting personal property to cash, is not considered a lump sum payment, all other things being equal.

(6) **Non-negotiable notes and mortgages.** Installment payments received on a note or mortgage are considered as monthly unearned income.

(7) **Income from the Workforce Innovation and Opportunity Act (WIOA).** Unearned income received by an adult, such as a need-based payment, cash assistance, compensation in lieu of wages, or allowances from a program funded by WIOA is considered as any other unearned income.

(8) **In-kind support and maintenance.** In-kind support and maintenance is food or shelter given to the individual or that the individual receives because someone else pays for it. Shelter includes room, rent, mortgage payments, real property taxes, heating fuel, gas, electricity, water, sewerage, and garbage collection services. The value of this support may be counted as income using the one-third reduction rule, per 20 C.F.R. §§ 416.1131 through 416.1133 or the presumed value rule, per 20 C.F.R. §§ 416.1140 through 416.1145.

(A) **One-third reduction rule.** The one-third reduction rule applies when the individual or the individual and his/her spouse lives in the household of a person who provides him/her with both food and shelter for at least a full calendar month. Per 20 C.F.R. § 416.1131, instead of determining the actual value of in-kind support and maintenance, one-third of the SSI federal benefit rate, per OKDHS Appendix C-1, Schedule VIII.C is counted as income.

(i) The one-third reduction rule applies in full or not at all. When the individual lives in another person's household and the one-third reduction rule applies, no income exclusions are applied to the reduction amount.

(ii) When the one-third reduction rule applies and the individual receives other support and maintenance, the other support and maintenance is not counted.

(iii) The one-third reduction rule does not apply when the individual or the individual and his/her spouse:

(I) Lives in another person's household but does not receive both food and shelter from that person;

(II) Lives in his/her own household; or

(III) Lives in a non-medical institution such as a public or private non-profit educational or vocational institution, or a private non-profit retirement home.

(B) **Another person's household.** The individual is considered to be living in another person's household if the person is not considered to be living in his/her own home per (C) of this subsection, the person who supplies the support and maintenance lives in the same household, and is not:

(i) The individual's spouse;

(ii) A minor child; or

(iii) An ineligible person whose income may be deemed to the individual per OAC 317:35-5-42(k).

(C) **Living in own household.** The individual or the individual and his/her spouse are considered to be living their own household when:

(i) The individual, the individual and his/her spouse, or a person whose income is deemed to the individual, live in a home in which one of them has an ownership interest or life estate in the home;

(ii) The individual, the individual and his/her spouse, or a person whose income is deemed to the individual is liable for any part of the rent charges;

(iii) The individual pays at least a pro rata share of the household and operating expenses;

(iv) The individual lives in a non-institutional care setting. The individual is considered to be living in a non-institutional care situation when:

(I) He/she is placed by a public or private agency under a specific program such as foster or family care;

(II) The placing agency is responsible for the individual's care;

(III) He/she lives in a private household that is licensed or approved by the placing agency to provide care; and

(IV) The individual, a public agency, or someone else pays for his/her care; or

(v) All members of the household receive public maintenance payments such as:

(I) Supplemental Security Income (SSI);

(II) State Supplemental Payment (SSP);

(III) Temporary Assistance for Needy Families (TANF);

(IV) Refugee cash assistance;

(V) Assistance provided under the Disaster Relief and Emergency Assistance Act;

(VI) Bureau of Indian Affairs (BIA) general assistance programs;

Permanent Final Adoptions

(VII) State or local government assistance programs based on need; or

(VIII) VA payments based on need.

(D) **Presumed value rule.** The presumed value rule applies when the individual receives in-kind support and maintenance and the one-third reduction rule does not apply. The maximum presumed value is one-third of the SSI FBR, per OKDHS Appendix C-1, Schedule VIII.C plus the \$20 general income exclusion.

(i) The presumed value rule allows the individual to show that the amount of in-kind support and maintenance is not equal to the maximum presumed value. When the individual does not question the maximum presumed value, one-third of the SSI FBR, per OKDHS Appendix C-1, Schedule VIII.C plus the \$20 general income exclusion is counted as unearned income.

(I) When the individual disputes the amount counted for in-kind support and maintenance, he/she may verify that the current market value of the food or shelter he/she receives or the actual amount someone else pays for the individual's food and shelter is lower than the maximum presumed value.

(II) When the individual verifies that the food or shelter received is lower the maximum presumed value, the lower amount is used as the presumed value and counted as unearned income.

(III) When the individual verifies the actual value of the food or shelter he/she receives and it is higher than the maximum presumed value amount, the actual amount is counted as unearned income.

(ii) In-kind support and maintenance received by an individual is excluded if:

(I) It is identified as excluded per (e) or (f) of this Section.

(II) It is received from another member of a public assistance household; or

(iii) The individual receives SSI and the SSA does not reduce the individual's SSI benefit because of in-kind support and maintenance.

(iv) When the individual or the individual and his or her spouse live in a household in which all members receive a public maintenance payment per (b)(8)(C)(v) of this subsection, in-kind support and maintenance is not counted unless the individual receives food and shelter from someone outside of the household.

(9) **Earned income.** Earned income may include:

(A) **Wages.** Wages include the gross income earned for work performed as an employee before deductions, such as taxes, bonds, pensions, union dues, credit union payments, or cafeteria plans are subtracted.

(i) Wages paid in cash may include salaries, commissions, tips, piece-rate payments, longevity payments, bonuses, severance pay, and any other special payments received due to employment.

(ii) Wages paid to uniformed service members include basic pay, some types of special pay, and some allowances. Allowances paid for on-base housing or privatized military housing are considered unearned income in the form of in-kind support and maintenance. Allowances paid for private housing are considered wages.

(iii) Wages paid in-kind may include the value of food, clothing, shelter, or other items provided in lieu of or in conjunction with wages. The cash value of in-kind benefits must be verified by the employer. Medical insurance secured through the employer, whether purchased or as a benefit, is not considered a countable in-kind benefit. Exception: In-kind pay received by a domestic or agricultural worker is considered unearned income.

(iv) Work study received by an individual who is attending school is considered as earned income with appropriate earned income exclusions, per (g) of this Section applied.

(v) Payments received for services performed in a sheltered workshop or work activities center are counted as earned income. Payments for each calendar quarter are averaged to determine monthly income.

(vi) Income received as wages from a program funded by WIOA is counted as any other earned income.

(vii) Earnings received from the Senior Community Service Employment Program under Title V of the Older Americans Act of 1965 as amended and employment positions allocated at the discretion of Governor of Oklahoma are counted as earned income.

(B) **Self-employment income.** Self-employment income is the gross income earned from a trade or business. Self-employment income also includes in-kind benefits for a work activity or service for which the self-employed person ordinarily receives payment in his/her business enterprise, such as an exchange of business or labor, the individual's share of profit or loss in any partnership to which he/she belongs, and money received for the sale of whole blood or plasma. Income eligibility is based on the individual's net self-employment income after subtracting business expenses. Refer to (i)(4) of this Section for self-employment income determination procedures.

(c) **What is not income.** Items that are not considered income per 20 C.F.R. § 416.1103 because the individual cannot use them as food or shelter or to obtain food or shelter include, but are not limited to:

- (1) Medical care and services, including medical insurance premiums paid directly by anyone on the individual's behalf;
- (2) Social services, as follows:
 - (A) Assistance provided in cash or in-kind under any federal, state, or local government program to provide social services such as vocational rehabilitation or VA aid and attendance services;
 - (B) In-kind assistance provided under a non-governmental program for social services. This does not include food or shelter;
 - (C) Cash provided by a non-governmental social services program, except for cash to cover food or shelter, when the cash:
 - (i) Is a repayment for program-approved services for which the individual already paid; or
 - (ii) Is a payment restricted to the future purchase of a program-approved service.
- (3) Receipts from the sale, exchange, or replacement of a resource, including cash or an in-kind item provided to replace or repair a resource that was lost, damaged, or stolen;
- (4) Any amount refunded on income taxes already paid by the individual;
- (5) Payments made to the individual under a credit life or credit disability insurance policy;
- (6) Money the individual borrows or receives as repayment of a loan. When the individual borrow money, regardless of use, it is not considered income if a bona fide debt or obligation to pay can be established. Interest the individual receives on money he/she loans someone else is considered income. Criteria to establish a loan as bona fide includes:
 - (A) An acknowledgment of the obligation to repay or evidence that the loan was from an individual or financial institution in the loan business. If the loan agreement is not written, OKDHS Form 08AD103E, Loan Verification, should be completed by the borrower attesting that the loan is bona fide and signed by the lender verifying the date and amount of loan. When copies of written agreements or OKDHS Form 08AD103E are not available, documentation must show that the loan is bona fide and how the debt amount and date of receipt was verified.
 - (B) The borrower's acknowledgment of obligation to repay, with or without interest, and the lender's verification of the loan are required to indicate that the loan is bona fide when the loan is from a person(s) not in the loan business.
- (7) Bills paid for the individual by someone else directly to the provider unless it is considered payment for food or shelter;
- (8) Replacement of income that is lost, destroyed, or stolen, such as receiving a replacement paycheck because the original payment was stolen;
- (9) Weatherization assistance; or
- (10) Receipt of certain non-cash items that would be excluded as a non-liquid resource.
- (d) **Income exclusions.** Certain types and amounts of income are excluded in determining the individual's eligibility for SoonerCare. When applying exclusions:
 - (1) Unearned income exclusions are applied before applying earned income exclusions;
 - (2) Income excluded by other federal laws per (e) of this Section are excluded first and then unearned income excluded by the Social Security Act per (f) of this Section;
 - (3) Earned income exclusions are then applied in the order listed per (h) of this Section;
 - (4) Income must never reduce income below zero;
 - (5) Unused portions of a monthly exclusion must not be carried over for use in a subsequent month;
 - (6) Other than the \$20 general income exclusion, unused unearned income exclusions are not applied to earned income; and
 - (7) Unused earned income exclusions are never applied to unearned income.
- (e) **Income excluded by other federal laws.** Unearned income excluded by federal laws other than the Social Security Act, per the Appendix to Subpart K of Part 416, includes:
 - (1) Federal food and nutrition programs, including:
 - (A) The value of Supplemental Nutrition Assistance Program food benefits;
 - (B) U.S. Department of Agriculture food commodities distributed by a private or governmental program;
 - (C) The value of supplemental food assistance received under the Child Nutrition Act or the special food service program for children under the National School Lunch Act;
 - (D) Women, infants, and children program (WIC); and
 - (E) Nutrition programs for older Americans;
 - (2) Housing and utility programs including:
 - (A) Energy assistance provided through the Low Income Home Energy Program that includes the Energy Crisis Assistance Program;
 - (B) Housing assistance provided under the:
 - (i) U.S. Housing Act of 1937;
 - (ii) National Housing Act;
 - (iii) Governmental rental or housing subsidies received in-kind or in cash by governmental agencies, such as the Department of Housing and Urban Development (HUD) for rent, mortgage payments, or utilities;
 - (iv) Title V of the Housing Act of 1949; or
 - (v) Any payment received under Section 216 of P. L. 91-646, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970;
 - (3) Student financial assistance that includes:
 - (A) Grants or loans to undergraduate students made or insured under programs administered by the Secretary of Education under Section 507 of the Higher Education Amendments of 1968 (P. L. 90-575);

Permanent Final Adoptions

- (B) Wages, allowances, or reimbursements for transportation and attendant care costs, unless excepted on a case-by-case basis, when received by an eligible individual with disabilities employed in a project under Title VI of the Rehabilitation Act of 1973 as added by 29 U.S.C. § 795(b)(c); and
- (C) Student financial assistance received for attendance costs from a program funded in whole or in part under Title IV of the Higher Education Act of 1965, as amended, or under BIA student assistance programs when it is made available for tuition and fees normally assessed to a student carrying the same academic workload, as determined by the institution. This includes costs for rental or purchase of any equipment, materials, or supplies required of all students in the same course of study and an allowance for books, supplies, transportation, and miscellaneous personal expenses for a student attending the institution on at least a half-time basis, as determined by the institution, under Section 14(27) of P. L. 100-50, the Higher Education Technical Amendments Act of 1987 (20 U.S.C. § 1087uu);
- (4) Native American payments excluded without regard to a specific tribe or group includes:
- (A) Indian judgment funds that are held in trust by the Secretary of the Interior or distributed per capita pursuant to a plan prepared by the Secretary of the Interior and not disapproved by a joint resolution of the Congress under P. L. 93-134 as amended by Section 4 of P. L. 97-458 (25 U.S.C. § 1408). Indian judgment funds include interest and investment income accrued while such funds are so held in trust. This exclusion extends to initial purchases made with Indian judgment funds but does not apply to sales or conversions of initial purchases or to subsequent purchases. This exclusion applies to the income of sponsors of aliens only if the alien lives in the sponsor's household;
- (B) All funds held in trust by the Secretary of the Interior for an Indian tribe and distributed per capita to a member of that tribe under P.L. 98-64 (25 U.S.C. § 117b). Funds held by Alaska Native Regional and Village Corporations (ANRVC) are not held in trust by the Secretary of the Interior and therefore ANRVC dividend distributions are not excluded from countable income under this exclusion. This exclusion applies to the income of sponsors of aliens only if the alien lives in the sponsor's household;
- (C) Cash distributions and dividends received by an individual Alaska Native or descendant under the Alaska Native Claims Settlement Act Amendments of 1987, P.L. 100-241, (43 U.S.C. § 1626(c)) to the extent that it does not, in the aggregate, exceed two-thousand dollars (\$2,000) per individual each year. This exclusion does not apply in deeming income from sponsors to aliens;
- (D) Up to two-thousand dollars (\$2,000) per year received by Indians that is derived from individual interests in trust or restricted lands under P.L. 103-66, (25 U.S.C. § 1408), as amended;
- (5) Payments made to members of specific Indian tribes and groups. Refer to 20 C.F.R. § 416 Subpart K Appendix, Section IV.B for the complete list. Payments to tribes in Oklahoma on this list include:
- (A) Judgement funds distributed per capita to, or held in trust for, members of the Sac and Fox Indian Nation, and the availability of such funds under Section 6 of P. L. 94-189. This exclusion applies to the income of sponsors of aliens only if the alien lives in the sponsor's household;
- (B) Any judgement funds distributed per capita or made available for programs for members of the Delaware Tribe of Indians and the Absentee Delaware Tribe of Western Oklahoma under Section 8 of P. L. 96-318;
- (C) Any distribution of judgement funds to members of the Wyandotte Nation of Oklahoma under Section 6 of P. L. 97-371;
- (D) Distributions of judgement funds to members of the Shawnee Tribe of Indians (Absentee Shawnee Tribe of Oklahoma, the Eastern Shawnee Tribe of Oklahoma, and the Cherokee Band of Shawnee descendants) under Section 7 of P. L. 97-372;
- (E) Judgement funds distributed per capita or made available for programs for members of the Miami Tribe of Oklahoma and the Miami Indians of Indiana under Section 7 of P. L. 97-376;
- (F) Judgement funds distributed per capita or made available for any tribal program for members of the Wyandotte Nation of Oklahoma and the Absentee Wyandottes under Section 106 of P. L. 98-602; and
- (G) Judgement funds distributed per capita, or held in trust, or made available for programs, for members of the Seminole Nation of Oklahoma, the Seminole Tribe of Florida, the Miccosukee Tribe of Indians of Florida, and the independent Seminole Indians of Florida under Section 8 of P. L. 101-277. This exclusion applies to income of sponsors of aliens only when the alien lives in the sponsor's household;
- (6) Receipts from lands held in trust and:
- (A) Distributed to members of certain Indian tribes under Section 6 of P.L. 94-114, (25 U.S.C. § 459e);
- (B) Awarded to the Pueblo of Santa Ana and distributed to members of that tribe under Section 6 of P.L. 95-498; and
- (C) Awarded to the Pueblo of Zia in New Mexico and distributed to members of that tribe under Section 6 of P.L. 95-499;
- (7) Compensation provided to volunteers by the Corporation for National and Community Service (CNCS), unless determined by the CNCS to constitute the federal or state minimum wage. Programs included under CNCS include:
- (A) AmeriCorps programs;
- (B) The Retired Senior Volunteer Program;

- (C) The Foster Grandparent Program; and
- (D) The Senior Companion Program;
- (8) Benefits from State and Community Programs on Aging, per Title III of the Older Americans Act of 1965, as amended by P.L. 114-144, Older Americans Act Reauthorization Act of 2016. Income received from the Senior Community Service Employment Program under Title V of the Older Americans Act as well as employment positions allocated at the discretion of Governor of Oklahoma is counted as earned income;
- (9) Payments made as restitution under the Civil Liberties Act of 1988 to certain individuals of Japanese ancestry who were detained in internment camps during World War II;
- (10) Payments made on or after January 1, 1989, from the Agent Orange Settlement Fund or any other fund established pursuant to the settlement in the In Re Agent Orange product liability litigation, M.D.L. No. 381 (E.D.N.Y.) under P. L. 101-201 and Section 10405 of P.L. 101-239;
- (11) Payments made under Section 6 of the Radiation Exposure Compensation Act, P.L. 101-426 for injuries or deaths resulting from the exposure to radiation from nuclear testing and uranium mining;
- (12) The value of any child care provided or arranged under the Child Care and Development Block Grant Act, as amended by Section 8(b) of P.L. 102-586.
- (13) Payments made to individuals because of their status as victims of Nazi persecution per P.L. 103-286;
- (14) Matching funds and any interest earned on these funds that are deposited into individual development accounts (IDAs), as a demonstration project or TANF-funded, per 42 U.S.C. § 604;
- (15) Payments made to individuals who were captured and interned by the Democratic Republic of Vietnam as a result of participation in certain military operations, per P.L. 105-78;
- (16) Payments made to certain Vietnam or Korea veterans' children with spina bifida, per P.L. 104-204 (38 U.S.C. § 1805(a)) or PL 108-183;
- (17) Payments made to the children of women Vietnam veterans who suffer from certain birth defects, per P.L. 106-419 (38 U.S.C. § 1833(c));
- (18) Payments of the refundable child tax credit made under Section 24 of the Internal Revenue Code of 1986;
- (19) Assistance provided for flood mitigation activities, per Section 1 of P.L. 109-64 (42 U.S.C. § 4031);
- (20) Payments made to individuals under the Energy Employees Occupational Illness Compensation Program Act of 2000, per Section 1 of P.L. 106-398 (42 U.S.C. § 7385e); and
- (21) The Oklahoma Achieving a Better Life Experience (ABLE) Program, in accordance with OAC 317:35-5-41.9(c)(1) and 26 U.S.C. § 529A. Money deposited into or withdrawn from a qualified ABLE Program account or a qualified ABLE Program account set up in any other state, is excluded as income or a resource when the individual:

- (A) Provides documents to verify the account meets exemption criteria;
- (B) Verifies money deposited in the account does not exceed the annual federal gift tax exclusion amount per 26 U.S.C. § 2503(b). Any money deposited in the account in the calendar year that is in excess of the annual federal gift tax exclusion amount is considered as countable income in the amount deposited; and
- (C) Verifies withdrawals from the account were used to pay qualified disability expenses (QDE). Money withdrawn for reasons other than to pay QDE is considered as income for the month of withdrawal.
- (22) Any other income exempted by new or revised federal statutes that are in effect before the Subpart K Appendix is updated.
- (f) **Unearned income excluded by the Social Security Act.** Unearned income excluded by the Social Security Act, per 20 C.F.R. § 416.1124 includes:
 - (1) Any public agency's refund of taxes on real property or food;
 - (2) Need-based assistance that is wholly funded by a State or one of its political subdivisions. For purposes of this rule, an Indian tribe is considered a political subdivision of a State. Assistance is based on need when it is provided under a program that uses the individual's income as an eligibility factor. State need-based assistance programs include the SSP program, but not federal/state programs such as TANF;
 - (3) Any portion of a grant, scholarship, fellowship, or gift used or set aside for paying tuition, fees, or other necessary educational expenses. This does not include any portion set aside or actually used for food or shelter;
 - (4) Food raised by the individual and/or his or her spouse, if it is consumed by the individual or the individual's household;
 - (5) Assistance received under the Disaster Relief and Emergency Assistance Act and assistance provided under any federal statute because of a presidentially-declared disaster;
 - (6) The first sixty dollars (\$60) of unearned income received in a calendar quarter that is received infrequently or irregularly. Income is considered:
 - (A) To be infrequent when the individual receives it only once during a calendar quarter from a single source and did not receive that type of income in the month preceding or following the month the income was received; and
 - (B) Irregular when the individual cannot reasonably expect to receive it;
 - (7) Alaska longevity bonus payments;
 - (8) Payments for providing foster care to an ineligible child placed in the individual's home by a public or private nonprofit child placement or child care agency;
 - (9) Any interest earned on excluded burial funds and any appreciation in the value of an excluded burial arrangement that are left to accumulate and become a part of the separate burial fund;

Permanent Final Adoptions

(10) Certain support and maintenance assistance as described in 20 C.F.R. §416.1157 that is certified in writing by the appropriate state agency to be both based on need and:

(A) Provided in-kind by a private nonprofit agency; or

(B) Provided in cash or in-kind by a:

(i) Supplier of home heating oil or gas;

(ii) Rate-of-return entity providing home energy; or

(iii) A municipal utility providing home energy;

(11) One-third of child support payments received on behalf of the minor child with disabilities;

(12) The first twenty dollars (\$20) of any unearned income received in a month other than income in the form of in-kind support and maintenance received in the household of another per (b)(8) of this Section and need-based income. Need-based income is a benefit that uses financial need as a factor to determine eligibility. The twenty dollars (\$20) exclusion does not apply to a needs-based benefit that is totally or partially funded by the federal government or by a nongovernmental agency. However, assistance which is based on need and funded wholly by a State or one of its political subdivisions, such as SSP, is excluded totally from income. When the individual has less than twenty dollars (\$20) of unearned income in a month, the rest of the twenty dollars (\$20) exclusion may be deducted from the individual's countable earned income;

(13) Any unearned income received and used to fulfill an approved plan to achieve self-support (PASS) for an individual with disabilities or blindness. The Social Security Administration (SSA) approves the plan, the amount of income excluded, and the period of time approved;

(14) Federal housing assistance provided under:

(A) The U.S. Housing Act of 1937;

(B) The National Housing Act;

(C) Section 101 of the Housing and Urban Development Act of 1965;

(D) Title V of the Housing Act of 1949; or

(E) Section 202(h) of the Housing Act of 1959;

(15) Any interest accrued on and left to accumulate as part of the value of an excluded burial space purchase agreement. This exclusion from income applies to interest accrued on or after April 1, 1990;

(16) The value of any commercial transportation ticket among the fifty states, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands, that is received as a gift and is not converted to cash;

(17) Payments received by an individual from a fund established by a state to aid crime victims;

(18) Relocation assistance provided by a state or local government that is comparable to assistance provided under Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 that is subject to the treatment required by Section 216 of that Act;

(19) Special pay received from one of the uniformed services, per 37 U.S.C. § 310;

(20) Interest or other earnings on a dedicated account established for an eligible individual under eighteen (18) years of age when past due benefit payments must or may be paid into such an account, per 20 C.F.R. § 416.1247;

(21) Gifts to children under eighteen (18) years of age with life-threatening conditions from an organization described in Section 501(c)(3) of the Internal Revenue Code of 1986, provided that:

(A) In-kind gifts not converted to cash; or

(B) Cash gifts do not exceed two-thousand dollars (\$2,000) within a calendar year;

(22) Interest and dividend income from a countable resource or from a resource excluded under a federal statute other than Section 1613(a) of the Social Security Act;

(23) AmeriCorps State and National and AmeriCorps National Civilian Community Corps cash or in-kind payments made to participants or on their behalf, such as food, shelter, and clothing allowances;

(24) Any annuity paid by a state to an individual, or his or her spouse, based on the State's determination that the individual is a veteran and is blind, disabled, or aged; and

(25) The first two-thousand dollars (\$2,000) per calendar year received as compensation for participation in clinical trials that meet the criteria, per Section 1612(b)(26) of the Social Security Act.

(g) **Earned income exclusions.** Per 20 C.F.R. § 416.1112, earned income exclusions are applied after the unearned income exclusions, and in the order listed per (1) through (11) of this subsection. Earned income exclusions must not exceed the amount earned and include:

(1) Earned income tax credit and child tax credit payments;

(2) The first \$30 of infrequent or irregular earned income received in a calendar quarter;

(3) The student earned income exclusion (SEIE) up to the SEIE monthly limit, per OKDHS Appendix C-1. Schedule VIII.E is applied to the earned income of a student who:

(i) Is blind or disabled;

(ii) Is under twenty-two (22) years of age; and

(iii) Attends a college, university, or a course of vocational or technical training designed to prepare students for gainful employment;

(4) Any portion of the twenty (\$20) month general income exclusion that was not excluded from unearned income in the same month;

(5) The first five-hundred dollars (\$500) of the monthly earnings of an individual who is blind, per Section 15 of Title 7 of the Oklahoma Statutes;

(6) Sixty-five dollars (\$65) of earned income in a month. This exclusion is applied once per couple;

(7) The earned income individuals with disabilities who are not blind used to pay impairment-related work expenses, per 20 C.F.R. § 404.1576, including, but not limited to:

(A) Attendant care services;

- (B) Assistance with personal functions;
- (C) Payments for medical devices;
- (D) Payments for prosthetic devices;
- (E) Payments for work-related equipment;
- (F) Payments for drugs and medical services used to control the impairment; and
- (G) Payments for transportation costs;
- (8) One-half of any remaining earned income in a month;
- (9) Actual work expenses paid by individuals who are blind and under age sixty-five (65) or who receive SSI as a blind person the month before reaching the age of sixty-five (65), such as transportation expenses to and from work and job performance or improvement expenses;
- (10) Earned income received and used to fulfill an approved plan to achieve self-support (PASS) for individuals who are blind or disabled and under sixty-five (65) years of age or who are blind and disabled and received SSI as a blind or disabled person for the month before reaching sixty-five (65) years of age. The SSA approves the plan, the amount of income excluded, and the period of time approved; and
- (11) Payments made to participants in AmeriCorps State and National and AmeriCorps National Civilian Community Corps (NCCC). These payments may be made in cash or in-kind and may be made directly to the AmeriCorps participant or on the AmeriCorps participant's behalf. These payments include, but are not limited to: living allowance payments, stipends, educational awards, and payments in lieu of educational awards.
- (h) Unused exclusions. Unused:
 - (A) Earned or unearned exclusions are never reduced below zero;
 - (B) Portions of a monthly exclusion cannot be carried over for use in a subsequent month;
 - (C) Earned income exclusions are never applied to unearned income;
 - (D) Unearned income exclusions are not applied to earned income except for any remaining portion of the \$20 general income exclusion.
- (ei) **Determination of income**Monthly income determination. The member is responsible for reporting information regarding all sources of available income. This information is verified and used by the worker in determining eligibility. The total gross amount of earned and unearned income available to the eligible individual and eligible or ineligible spouse is determined before subtracting applicable unearned and earned income exclusions per (d) through (g) of this section. In calculating monthly income, cents are included in the computation until the monthly amount of each income source is established. Once the monthly amount of each income source is established, cents are rounded to the nearest dollar (one (1) to forty-nine (49) cents is rounded down, and fifty (50) to ninety-nine (99) cents is rounded up).
 - (1) Gross income is listed for purposes of determining eligibility. It may be derived from many sources, and some items may be automatically disregarded by the computer when so provided by state or federal law.
- (2) If a member is determined to be categorically needy and is also an SSI recipient, any change in countable income (see OAC 317:35-5-42(d)(3) to determine countable income) will not affect receipt of SoonerCare and amount of State Supplemental Payment (SSP) as long as the amount does not cause SSI ineligibility. Income which will be considered by SSI in the retrospective cycle is documented in the case with computer update at the time that SSI makes the change (in order not to penalize the member twice). If the SSI change is not timely, the worker updates the computer using the appropriate date as if it had been timely. If the receipt of the income causes SSI ineligibility, the income is considered immediately with proper action taken to reduce or close the SoonerCare benefit and SSP ease. Any SSI overpayment caused by SSA not making timely changes will result in recovery by SSI in the future. When the worker becomes aware of income changes which will affect SSI eligibility or payment amount, the information is to be shared with the SSA office.
- (3) Some of the more common income sources to be considered in determining eligibility are as follows:
 - (A) **Retirement and disability benefits.** These include but are not limited to OASDI, VA, Railroad Retirement, SSI, and unemployment benefits. Federal and State benefits are considered for the month they are intended when determining eligibility.
 - (i) Verifying and documenting the receipt of the benefit and the current benefit amount are achieved by:
 - (I) seeing the member's award letter or warrant;
 - (II) obtaining a signed statement from the individual who cashed the warrant; or
 - (III) by using BENDEX and SDX.
 - (ii) Determination of OASDI benefits to be considered (disregarding COLA's) for former State Supplemental recipients who are reapplying for medical benefits under the Pickle Amendment must be computed according to OKDHS Form 08AX011E.
 - (iii) The Veterans Administration allows their recipients the opportunity to request a reimbursement for medical expenses not covered by SoonerCare. If a recipient is eligible for the readjustment payment, it is paid in a lump sum for the entire past year. This reimbursement is disregarded as income and a resource in the month it is received; however, any amount retained in the month following receipt is considered a resource.
 - (iv) Government financial assistance in the form of VA Aid and Attendance or Champus payments is considered as follows:
 - (I) **Nursing facility care.** VA Aid and Attendance or Champus payment whether paid directly to the member or to the facility, are considered as third-party resources and do not affect the income eligibility or the vendor payment of the member.

- (II) **Own home care.** The actual amount of VA Aid and Attendance payment paid for an attendant in the home is disregarded as income. In all instances, the amount of VA Aid and Attendance is shown on the computer form.
- (v) Veterans or their surviving spouse who receive a VA pension may have their pension reduced to \$90 by the VA if the veteran does not have dependents, is SoonerCare eligible, and is residing in a nursing facility that is approved under SoonerCare. Section 8003 of Public Law 101-508 allows these veterans' pensions to be reduced to \$90 per month. None of the \$90 may be used in computing any vendor payment or spenddown. In these instances, the nursing home resident is entitled to the \$90 reduced VA pension as well as the regular nursing facility maintenance standard. Any vendor payment or spenddown will be computed by using other income minus the monthly nursing facility maintenance standard minus any applicable medical deduction(s). Veterans or their surviving spouse who meet these conditions will have their VA benefits reduced the month following the month of admission to a SoonerCare approved nursing facility.
- (B) **SSI benefits.** SSI benefits may be continued up to three months for a recipient who enters a public medical or psychiatric institution, a SoonerCare approved hospital, extended care facility, intermediate care facility for individuals with an intellectual disability or nursing facility. To be eligible for the continuation of benefits, the SSI recipient must have a physician's certification that the institutionalization is not expected to exceed three (3) months and there must be a need to maintain and provide expenses for the home. These continued payments are intended for the use of the recipient and do not affect the vendor payment.
- (C) **Lump sum payments.**
- (i) Any income received in a lump sum (with the exception of SSI and Retirement, Survivors, and Disability Insurance (RSDI) lump sum) covering a period of more than one (1) month, whether received on a recurring or nonrecurring basis, is considered as income in the month it is received. Any amount from any lump sum source, excluding RSDI and SSI (with the exception of dedicated bank accounts for disabled/blind children under age eighteen (18)), retained on the first day of the next month is considered as a resource. Such lump sum payments may include, but are not limited to, accumulation of wages, VA benefits, Workers' Compensation, bonus lease payments and annual rentals from land and/or minerals.
- (ii) OASDI and SSI retroactive payments do not count as income in the month of receipt. Any

unspent portion of retroactive SSI and RSDI benefits is excluded from resources for nine (9) calendar months following the month of receipt. However, unspent money from a retroactive payment must be identifiable from other resources for this exclusion to apply. The money may be commingled with other funds, but if this is done in such a fashion that the retroactive amount can no longer be separately identified, that amount will count toward the resource limit. Refer to 20 Code of Federal Regulations (CFR) § 416.1233.

(iii) Lump sum payments used to establish dedicated bank accounts by representative payees in order to receive and maintain retroactive SSI benefits for disabled/blind children under age eighteen (18) are excluded as income. The interest income generated from dedicated bank accounts is also excluded. The dedicated bank account consisting of the retroactive SSI lump sum payment and accumulated interest is excluded as a resource in both the month received and any subsequent months.

(iv) A life insurance death benefit received by an individual while living is considered as income in the month received and as a resource in the following months to the extent it is available.

(v) Changing a resource from one form to another, such as converting personal property to cash, is not considered a lump sum payment.

(D) **Income from capital resources and rental property.** Income from capital resources can be derived from rental of a house, rental from land (cash or crop rent), leasing of minerals, life estate, homestead rights or interest.

(i) If royalty income is received monthly but in irregular amounts, an average based on the previous six (6) months' royalty income is computed and used to determine income eligibility. When the difference between the gross and net income represents a production or severance tax (e.g., most oil royalties are reduced by this tax), the OHCA only uses the net figure when determining income eligibility. The production or severance tax is the cost of producing the income, and, therefore, is deducted from the gross income. Exception: At any time that the county becomes aware of and can establish a trend showing a dramatic increase or decrease in royalty income, the previous two (2) months' royalty income is averaged to compute countable monthly income.

(ii) Rental income may be treated as earned income when the individual participates in the management of a trade or business or invests his/her own labor in producing the income. The individual's federal income tax return will verify whether or not the income is from self employment. Otherwise, income received from rental property is treated as unearned income.

(iii) When rental property is handled by a leasing agent who collects the rent and deducts a management fee, only the rent actually received by the member is considered as income.

(E) **Earned income/self-employment.** The term "earned income" includes income in cash earned by an individual through the receipt of wages, salary, commission, or profit from activities in which he/she is engaged as a self-employed individual or as an employee. See subparagraph (G) of this paragraph for earnings received in fluctuating amounts. "Earned Income" is also defined to include in-kind benefits received by an employee from an employer in lieu of wages or in conjunction with wages. Such benefits received in-kind are considered as earned income only when the employee/employer relationship has been established. The cash value of the in-kind benefits must be verified by the employer. Income from self-employment also includes in-kind benefits for a work activity or service for which the self-employed person ordinarily receives payment in his/her business enterprise. An exchange of labor or services, e.g., barter, is considered as an in-kind benefit. Medical insurance secured through the employer, whether purchased or as a benefit, is not considered in-kind but is recorded on the case computer input document for coordination with SoonerCare benefits.

(i) Work study received by an individual who is attending school is considered as earned income with appropriate earned income disregards applied.

(ii) Money from the sale of whole blood or blood plasma is considered as self-employment income subject to necessary business expenses and appropriate earned income disregards.

(1) **Averaging income.** When the individual indicates that he/she receives income monthly, but on an irregular basis, the most recent two (2) months of income are averaged to determine income eligibility.

(A) Income that is received less often than monthly or in amounts that vary significantly over the course of a year may be averaged over a longer period of time. For instance, royalty income must be averaged over a six (6) month period.

(B) Less than two (2) months of income may be used when the income started less than two (2) months ago or previous income amounts are not representative of future income. For instance, the individual may have started a new job less than two (2) months ago or may have received a one-time bonus or overtime pay that is not expected to recur.

(2) **Converting income to a monthly amount.** Income received more often than monthly is converted to monthly amounts as indicated in (A) through (E) of this subsection:

(A) **Daily.** Income received on a daily basis is converted to a weekly amount. When there is consistency

in days worked each week and regular pay dates, the income is multiplied by 4.3. When there is no consistency, refer to (3) of this subsection for irregular income processing.

(B) **Weekly.** Income received weekly is multiplied by 4.3.

(C) **Twice a month.** Income received twice a month is multiplied by two (2).

(D) **Biweekly.** Income received every two (2) weeks is multiplied by 2.15.

(E) **Irregular income.** Income received monthly but at irregular intervals is not converted by 4.3, 2, or 2.15 when there is no consistency in the work offered or when pay is received. Instead, the income received over the last two (2) months is added together and divided by two (2) to arrive at a monthly average.

(3) **Infrequent or irregular income.** Infrequent or irregular income is considered countable income in the month it is received unless excluded per (C) of this paragraph.

(A) Income is considered to be infrequent if the individual receives it only once during a calendar quarter from a single source and the individual did not receive that type of income in the month preceding or following the month the income was received.

(B) Income is considered to be irregular if the individual cannot reasonably expect to receive it.

(C) When the individual receives infrequent or irregular income, exclude the first:

(i) \$30 per calendar quarter of earned income; and

(ii) \$60 per calendar quarter of unearned income.

(iii) Self-employment income is determined as follows:

(I) Generally, the federal or state income tax form for the most recent year is used for calculating the self-employment income to project income on a monthly basis for the certification period. The gross income amount, as well as the allowable deductions, are the same as can be claimed under the Internal Revenue code for tax purposes.

(II) Self-employment income which represents a household's annual support is prorated over a 12-month period, even if the income is received in a short period of time. For example, self-employment income received by crop farmers is averaged over a 12-month period if the income represents the farmer's annual support.

(III) If the household's self-employment enterprise has been in existence for less than a year, the income from that self-employment enterprise is averaged over the period of time the business has been in operation to establish the monthly income amount.

Permanent Final Adoptions

(IV) If a tax return is not available because one has not been filed due to recent establishment of the self-employment enterprise, a profit and loss statement must be seen to establish the monthly income amount.

(V) The purchase price and/or payment(s) on the principal of loans for capital assets, equipment, machinery, and other durable goods is not considered as a cost of producing self-employed income. Also not considered are net losses from previous periods, depreciation of capital assets, equipment, machinery, and other durable goods; and federal, state and local income taxes, FICA, money set aside for retirement purposes, and other work-related personal expenses, such as meals and necessary transportation (these expenses are accounted for by the work-related expense deduction given in OAC 340:10-3-33(1)).

(iv) Countable self-employment income is determined by deducting allowable business expenses to determine the adjusted gross income. The earned income deductions are then applied to establish countable earned income.

(4) Self-employment income determination.

Self-employment income is determined per (A) through (E) of this paragraph:

(A) When filed, the federal income tax form for the most recent year is used to calculate the individual's self-employment income and business expenses for the certification period. The net earnings shown on the income tax form after business expenses are subtracted is divided by twelve (12) months to determine the individual's monthly countable self-employment income.

(B) When the individual did not file a federal tax form for the most recent year, the individual's business records showing monthly income and expenses are used to determine the individual's self-employment income. When the business was in operation for the entire year, the individual's net income after subtracting business expenses is divided by twelve (12) months to determine the individual's monthly countable self-employment income.

(C) Self-employment income that represents a household's annual support is prorated over a twelve-month (12-month) period, even if the income is received in a short period of time. For example, self-employment income received by crop farmers is averaged over a twelve-month (12-month) period if the income represents the farmer's annual support.

(D) If the household's business has operated for less than a year, the income from that business is averaged over the period of time the business has operated to establish the monthly income amount.

(E) After the net countable self-employment income is determined, the earned income exclusions per

(g) of this section are then applied to establish countable earned income.

(F) Infrequent or irregular income.

(i) Income is considered to be infrequent if the individual receives it only once during a calendar quarter from a single source and the individual did not receive that type of income in the month preceding or following the month the income was received.

(ii) Income is considered to be irregular if the individual cannot reasonably expect to receive it.

(iii) OHCA excludes the following amount of infrequent or irregular income:

(I) the first \$30 per calendar quarter of earned income; and

(II) the first \$60 per calendar quarter of unearned income.

(iv) Infrequent or irregular income, whether earned or unearned, that exceeds these amounts is considered countable income in the month it is received.

(G) Monthly income received in fluctuating amounts.

Income which is received monthly but in irregular amounts is averaged using two (2) months' income, if possible, to determine income eligibility. Less than two (2) months' income may be used when circumstances (e.g., new employment, unpaid sick leave, etc.) would indicate that previous income amounts would not be appropriate to use in determining future income amounts. Income received more often than monthly is converted to monthly amounts as follows:

(i) **Daily.** Income received on a daily basis is converted to a weekly amount then multiplied by 4.3.

(ii) **Weekly.** Income received weekly is multiplied by 4.3.

(iii) **Twice a month.** Income received twice a month is multiplied by two (2).

(iv) **Biweekly.** Income received every two (2) weeks is multiplied by 2.15.

(H) **Non-negotiable notes and mortgages.** Installment payments received on a note, mortgage, etc., are considered as monthly income.

(I) **Income from the Job Training and Partnership Act (JTPA).** Unearned income received by an adult, such as a needs-based payment, cash assistance, compensation in lieu of wages, allowances, etc., from a program funded by JTPA is considered as any other unearned income. JTPA earned income received as wages is considered as any other earned income.

(J) **Other income.** Any other monies or payments which are available for current living expenses must be considered.

(5) **SSI recipients.** If a member is determined to be categorically needy and is also an SSI recipient, any change in countable income does not affect SoonerCare

receipt and the State Supplemental Payment (SSP) payment amount as long as the changed income amount does not cause SSI ineligibility.

(A) Income considered by SSI in the retrospective cycle is not counted until SSI makes the change so the income is not counted twice. If the SSI change is not made timely by SSA, the income is counted as if it had been timely.

(B) If the receipt of the income causes SSI ineligibility, the income is considered immediately with proper action taken to reduce or close the SoonerCare and SSP benefit. Any SSI overpayment caused by SSA not making timely changes will result in recovery by SSI in the future. When the OKDHS worker becomes aware of income changes that affect the individual's SSI eligibility or payment amount, he/she shares the information with the SSA office.

(ej) **Computation of income.** After determining the individual's and his/her spouse's monthly income.

(1) **EarnedGeneral income or—unearned—incomeexclusion.** The general income exclusion of \$20twenty dollars (\$20) per month is allowed forsubtracted fromearned or unearned income, unless the unearned income is SSP, on the combined unearned income of the eligible individual and eligible or ineligible spouse, unless the only unearned income is SSP. See paragraph (5) of this subsection if there are ineligible minor children. After the \$20 exclusion, deduct \$65 and one half of the remaining combined earned income. The total gross amount of unearned income of the eligible individual and eligible or ineligible spouse is considered. If any portion of the general income exclusion is not subtracted from unearned income, it is subtracted from earned income.

(2) **Earned income deduction.** When the individual has earned income, after deducting the twenty dollars (\$20) exclusion, the sixty-five (\$65) and one-half of the remaining combined earned income is then deducted.

(2) **Countable income.** The countable income is the sum of the earned income and the total gross unearned income after exclusions.

(3) **Deeming computation for disabled or blind minor child(ren)procedures.** An automated calculation is available for computing the income amount to be deemed from parent(s) and the spouse of the parent to eligible disabled or blind minor child(ren) by use of transaction CID. The ineligible minor child in the computation regarding allocation for ineligible child(ren) is defined as: a dependent child under age eighteen (18). Refer to OAC 340:35-5-42(k) for deeming computation procedures from an ineligible spouse, ineligible parent, sponsor of an alien or an essential person to the eligible individual or child.

(A) An intellectually disabled child living in the home who is ineligible for SSP due to the deeming process may be approved for SoonerCare under the Home and Community Based Services Waiver (HCBS) Program as outlined in OAC 317:35-9-5.

(B) For TEFRA, the income of child's parent(s) is not deemed to him/her.

(4) **Premature infants.** Premature infants (i.e., thirty seven (37) weeks or less) whose birth weight is less than twelve hundred (1200) grams (approximately two (2) pounds ten (10) ounces) will be considered disabled by SSA even if no other medical impairment(s) exist. In this event, the parents' income is not deemed to the child until the month following the month in which the child leaves the hospital and begins living with his/her parents.

(5) **Procedures for deducting ineligible minor child allocation.** When an eligible individual has an ineligible spouse and ineligible minor children (not receiving TANF), the computation is as follows:

(A) Each ineligible child's allocation (OKDHS Form 08AX001E, Schedule VII, C.) minus each child's gross countable income is deducted from the ineligible spouse's income. Deeming of income is not done from child to parent.

(B) The deduction in subparagraph (A) of this paragraph is prior to deduction of the general income exclusion and work expense.

(C) After computations in subparagraphs (A) and (B) of this paragraph, the remaining amount is the ineligible spouse's countable income considered available to the eligible spouse.

(6) **Special exclusions for blind individuals.** Any blind individual who is employed may deduct the general income exclusion and the work exclusion from the gross amount of earned income. After the application of these exclusions, one half of the remaining income is excluded. The actual work expense is then deducted from the remaining half to arrive at the amount of countable income. If this blind individual has a spouse who is also eligible due to blindness and both are working, the amount of ordinary and necessary expenses attributable to the earning of income for each of the blind individuals may be deducted. Expenses are deductible as paid but may not exceed the amount of earned income. To be deductible, an expense need not relate directly to the blindness of the individual, it need only be an ordinary and necessary work expense of the blind individual. Such expenses fall into three (3) broad categories:

- (A) transportation to and from work;
- (B) job performance; and
- (C) job improvement.

(k) **General income deeming procedures.** The term deeming is used to identify the process for considering another individual's income to be available to the applicant or SoonerCare member, described in this Section as the eligible individual or child. Per Section 416.1160 of Title 20 of the Code of Federal Regulations (20 C.F.R. § 416.1160), there are four categories of individuals whose income may be deemed when determining eligibility: an ineligible spouse, ineligible parent, the sponsor of an alien, or an essential individual. The first step in deeming is determining how much income the applicable individual(s) has. When deeming rules apply, it does not matter if the other

Permanent Final Adoptions

individual's income is actually available to the eligible individual or child.

(1) **Ineligible spouse.** An ineligible spouse is a spouse who lives in the same household with the eligible individual and is not eligible for Supplemental Security Income (SSI). For spouse-to-spouse deeming to apply, the eligible individual must be eligible based on his or her own income.

(2) **Ineligible parent.** An ineligible parent is a natural or adoptive parent or stepparent who lives with an eligible child under eighteen (18) years of age and is not eligible for SSI. A stepparent's income is not deemed if the eligible child's natural or adoptive parent dies or permanently leaves the home, per 20 C.F.R. § 416.1165.

(3) **Sponsor of an alien.** A sponsor is an individual, not an organization or an employer, who signs an affidavit agreeing to support the alien as a condition for the alien's admission for permanent residence in the United States (U.S.). A portion of the sponsor's income is deemed to the alien for three (3) years even when the sponsor and alien do not live together unless (A) if this paragraph applies.

(A) Deeming rules regarding sponsored aliens do not apply when the alien:

(i) Is a refugee admitted to the United States (U.S.), per Section 203(a)(7), 207(c)(1) or Section 212(d)(5) the Immigration and Nationality Act;

(ii) Was granted asylum by the Attorney General of the U. S.; or

(iii) Becomes blind or disabled, per 20 C.F.R. §416.901 after admission to the U. S. When this occurs, the sponsor's income is no longer deemed beginning with the month in which you're the disability or blindness begins.

(B) If the sponsor is the alien's ineligible spouse or ineligible parent(s), the spouse-to-spouse or parent-to-child deeming calculations apply.

(C) If a sponsored alien has a sponsor and an ineligible spouse or ineligible parent(s) who is not his/her sponsor, both sponsor-to-alien and spouse-to-spouse or parent-to-child deeming calculations apply.

(4) **Household definition.** A household for deeming purposes may include the eligible individual or child, an eligible or ineligible spouse, and any children of the couple or of either member of the couple. A household for an eligible child includes the eligible child's parent(s), and any other children of the parent(s).

(A) A child is considered a member of the household from birth for deeming purposes unless the parent(s) completed paperwork to give the child up for adoption or the child was placed in the temporary custody of a public children's services agency. Exception: A premature infant born at thirty-seven (37) weeks or less whose birth weight in less than two (2) pounds ten (10) ounces is considered disabled by the Social Security Administration even if no other medical impairment exists. When this occurs, the parent(s)' income is not deemed to the child until the

month after the month the child leaves the hospital and begins living with his/her parent(s).

(B) An eligible individual or an ineligible spouse or ineligible parent who is temporarily absent from the home per (5) of this subsection, is considered to be a member of the household for deeming purposes per 20 C.F.R. § 416.1167.

(5) **Temporary absence for deeming purposes.** During a temporary absence, per 20 C.F.R. § 416.1167, the absent individual is considered a household member for deeming purposes when an:

(A) Eligible individual or child, ineligible spouse, ineligible parent, or an ineligible child leaves the household but intends to and does return in the same month or the next month;

(B) Eligible individual or child enters a medical treatment facility for up to two (2) or three (3) full months;

(C) Eligible child is away at school but comes home on some weekends or lengthy holidays and is subject to his/her parent's control; or

(D) Ineligible spouse or parent is absent from the household due solely to a duty assignment as a member of the Armed Forces on active duty.

(I) **Income exclusions for an ineligible spouse or ineligible parent.** Income excluded for an ineligible spouse or parent per 20 C.F.R. § 416.1161 include:

(1) Income excluded by federal laws other than the Social Security Act, per the Appendix to Subpart K of Part 416 and Oklahoma Administrative Code (OAC) 317:35-5-42(e);

(2) Any public income-maintenance payments the ineligible spouse or parent receives and any income that was counted or excluded in figuring the amount of that payment. Per 20 C.F.R. § 416.1142, these payments include SSI, State Supplemental Payment (SSP), TANF, refugee cash assistance, disaster relief and emergency assistance, general assistance provided by the Bureau of Indian Affairs, and U.S. Department of Veteran Affairs, State or local government assistance programs based on need;

(3) Any of the ineligible spouse's or parent's income that is used by a public income-maintenance program to determine that program's benefits to someone else;

(4) Income used to comply with the terms of court-ordered support, or support payments enforced under Title IV-D of the Social Security Act;

(5) Income the ineligible spouse or ineligible parent was paid under a federal, state, or local government program to provide the eligible spouse or child with chore, attendant, or homemaker services, such as payments under Title XX of the Social Security Act;

(6) Any portion of a grant, scholarship, fellowship, or gift used or set aside to pay tuition, fees or other necessary educational expenses;

(7) Money received for providing foster care to an ineligible child;

- (8) The value of Supplemental Nutrition Assistance Program food benefits and the value of Department of Agriculture donated foods;
- (9) Food raised by the spouse or parent and consumed by members of the household in which you live;
- (10) Tax refunds on income, real property, or food purchased by the family;
- (11) Income used to fulfill an approved plan for achieving self-support, per 20 C.F.R. §§ 416.1180 through 416.1182 and OAC 317:35-5-42(f)(13) and (g)(10);
- (12) The value of in-kind support and maintenance as described in OAC 317:35-5-42(b)(8);
- (13) Alaska longevity bonus payments;
- (14) Disaster assistance, per 20 C.F.R. §§ 416.1150 and 416.1151;
- (15) Income received infrequently or irregularly, per 20 C.F.R. §§ 416.1112(c)(1) and 416.1124(c)(6) and OAC 317:35-5-42(f)(6) and (g)(2);
- (16) Work expenses if the ineligible spouse or parent is blind such as transportation expenses to and from work and job performance or improvement expenses;
- (17) Certain support and maintenance assistance, per 20 C.F.R. § 416.1157(c) and OAC 317:35-5-42(e)(10);
- (18) Housing assistance, per 20 C.F.R. § 416.1124(c)(14);
- (19) The value of a commercial transportation ticket, per 20 C.F.R. § 416.1124(c)(16). However, if such a ticket is converted to cash, the cash is income in the month your spouse or parent receives the cash;
- (20) Refunds of Federal income taxes and advances made by an employer relating to an earned income tax credit, per 20 C.F.R. § 416.1112(c);
- (21) Payments from a fund established by a State to aid victims of crime, per 20 C.F.R. § 416.1124(c)(17));
- (22) Relocation assistance, per 20 C.F.R. § 416.1124(c)(18);
- (23) Special pay received from one of the uniformed services pursuant to Section 310 of Title 37 of the United States Code;
- (24) Impairment-related work expenses, per 20 C.F.R. 404.1576 and OAC 317:35-5-42(g)(7), incurred and paid by an ineligible spouse or parent, if the ineligible spouse or parent receives disability benefits under Title II of the Social Security Act;
- (25) Interest earned on excluded burial funds and appreciation in the value of excluded burial arrangements which are left to accumulate and become part of separate burial funds, and interest accrued on and left to accumulate as part of the value of agreements representing the purchase of excluded burial spaces per 20 C.F.R. § 416.1124(c)(9) and (15));
- (26) Interest and dividend income from a countable resource or from a resource excluded under a Federal statute other than Section 1613(a) of the Social Security Act;
- (27) Earned income of a student, per 20 C.F.R. § 416.1112(c)(3) and OAC 317:35-5-42(g)(3); and
- (28) Any additional increment in pay, other than any increase

in basic pay, received while serving as a member of the uniformed services, if the ineligible spouse or parent:

- (A) Received the pay as a result of deployment to or service in a combat zone; and
 - (B) Was not receiving the additional pay immediately prior to deployment to or service in a combat zone.
- (m) **Deeming from an ineligible spouse.** When the eligible individual lives with an ineligible spouse who has income, the deeming steps in (1) through (5) of this paragraph are used to calculate the amount of income to deem to the eligible individual.
- (1) The ineligible's spouse's total gross unearned and earned income is determined and appropriate exclusions per (l) of this Section are applied.
 - (2) An ineligible child allocation is then subtracted for each ineligible child in the home, per OKDHS Appendix C-1, Maximum Income, Resource, and Payment Standards, Schedule VIII.C.
 - (A) The ineligible child allocation is subtracted from the ineligible spouse's unearned income before subtracting any remaining allocation from his/her earned income.
 - (B) An ineligible child allocation is not allowed for a child who receives a public income-maintenance payments, per 20 C.F.R. § 416.1142 and as listed per (l)(2) of this Section.
 - (C) When the ineligible child has countable income, the child's income is subtracted from the ineligible child allocation before subtracting the remaining allocation from the ineligible spouse's income.
 - (3) When the ineligible spouse sponsors an alien(s), the allocation for the alien(s) that is deemed from the ineligible spouse's income is subtracted from the ineligible spouse's unearned income before subtracting any remaining allocation from his/her earned income.
 - (A) The allocation for each sponsored alien is the difference between the SSI federal benefit rate (FBR) for an eligible couple minus the FBR for an eligible individual, per OKDHS Appendix C-1, Schedule VIII.C.
 - (B) Each alien's allocation is reduced by the amount of the alien's own income, per (m) of this Section.
 - (4) When, after subtracting the ineligible child allocation and, if appropriate, the sponsored alien allocation, the ineligible spouse's income is less than or equal to the difference between the SSI FBR for an eligible couple and the SSI FBR for an eligible individual, per OKDHS Appendix C-1, Schedule VIII.C, no income is deemed from the ineligible spouse.
 - (A) In this instance, only the eligible individual's own countable income minus exclusions per (l) of this Section is considered.
 - (B) When the eligible individual's countable income is less than or equal to the SSI FBR for an individual, per OKDHS Appendix C-1, Schedule

Permanent Final Adoptions

VIII.C, he/she is financially eligible for SoonerCare (Medicaid).

(5) When, after subtracting the appropriate allocations, the ineligible spouse's income is greater than the difference between the SSI FBR for an eligible couple and the SSI FBR for an eligible individual, per OKDHS Appendix C-1, Schedule VIII.C, the spouses are treated as an eligible couple by:

(A) Combining the remainder of the ineligible spouse's unearned income with the eligible individual's unearned income and the remainder of the ineligible spouse's earned income with the eligible individual's earned income;

(B) Applying appropriate income exclusions, per OAC 317:35-5-42(e), (f), and (g) from the eligible spouse's income, including the \$20 general exclusion from the couple's unearned income and \$65 plus one-half of the remaining earned income from the couple's earned income; and

(C) Subtracting the couple's countable income from the SSI FBR for an eligible couple, per OKDHS Appendix C-1, Schedule VIII.C. When the income is less than or equal to the SSI FBR for an eligible couple, the eligible individual is financially eligible for SoonerCare (Medicaid).

(n) **Deeming from ineligible parent(s).** When a child with disabilities or blindness lives with ineligible parent(s), the deeming steps in (1) through (6) of this paragraph are used to calculate the amount of income to deem to the eligible child, up through the month in which the child reaches age eighteen (18).

(1) The gross unearned and earned income of each ineligible parent living in the home is determined and appropriate exclusions are applied, per (l) of this Section.

(2) An ineligible child allocation is subtracted for each ineligible child in the home, per OKDHS Appendix C-1, Schedule VIII.C. Exception: An ineligible child allocation is not allowed for a child who receives public income-maintenance payments, per 20 C.F.R. § 416.1142 and as listed per (l)(2) of this Section.

(A) The ineligible child allocation is first subtracted from the ineligible parent(s)' combined unearned income before subtracting any remaining allocation from their earned income.

(B) When the ineligible child has countable income, the child's income is subtracted from the ineligible child allocation before applying the allocation.

(3) When the ineligible parent sponsors an alien(s), the allocation for the alien(s) that is deemed from the ineligible parent's income per (p) of this Section is subtracted from the ineligible parent(s)' income.

(4) An allocation is then subtracted for the ineligible parent(s) unless the parent receives public income-maintenance payments. The allocation is calculated by:

(A) Subtracting the twenty dollars (\$20) general exclusion from the combined unearned income of the ineligible parent(s). If there is less than twenty dollars
